Table of Contents

Global Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

1. Basis of Presentation and Principles of Consolidation

Global Brass and Copper Holdings, Inc. (“Holdings,” the “Company,” “we,” “us,” or “our”), through its wholly-owned principal operating subsidiary, Global Brass and Copper, Inc. (“GBC”), is operated and managed through three reportable segments: GBC Metals, LLC (“Olin Brass”), Chase Brass and Copper Company, LLC (“Chase Brass”) and A.J. Oster, LLC (“A.J. Oster”).

These unaudited consolidated financial statements include the accounts of the Company, our wholly-owned subsidiaries and our majority-owned subsidiaries in which we have a controlling interest. All intercompany accounts and transactions are eliminated in consolidation.

The accompanying unaudited interim consolidated financial statements include all normal recurring adjustments that are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. The December 31, 2015 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (“US GAAP”). Certain information and disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. In addition, it requires management to make estimates and assumptions that affect the reported amount of net sales and expenses during the reporting periods. Actual amounts could differ from those estimates.

Results of operations for the interim periods presented are not necessarily indicative of results which may be expected for any other interim period or for the year as a whole. There have been no significant changes to our significant accounting policies during the six months ended June 30, 2016. These interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Recently Issued and Recently Adopted Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2016-9, Compensation-Stock Compensation (Topic 718) (“ASU 2016-9”). ASU 2016-9 simplifies various aspects of the accounting for share-based payment transactions, including income tax consequences, classification of awards as either equity or liabilities, classification on the statement of cash flows and forfeiture rate calculations. The provisions of ASU 2016-9 are effective for fiscal years, and interim reporting periods within those fiscal years, beginning after December 15, 2016, with early adoption permitted. We are in the process of evaluating the impact of adoption on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-2, Leases (Topic 842) (“ASU 2016-2”). ASU 2016-2 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e., lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease effectively finances a purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method (finance lease) or on a straight line basis over the term of the lease (operating lease). A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. ASU 2016-2 supersedes the existing guidance on accounting for leases in “Leases (Topic 840).” The provisions of ASU 2016-2 are effective for fiscal years, and interim reporting periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted and the provisions are to be applied using a modified retrospective approach. We are in the process of evaluating the impact of adoption on our consolidated financial statements.

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments (“ASU 2015-16”). ASU 2015-16 requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. ASU 2015-16 is effective for fiscal years, and interim reporting periods within

Table of ContentsGlobal Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

those fiscal years, beginning after December 15, 2015. The adoption of this standard did not have a material effect on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-9, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-9”). The guidance provides companies with a single model for use in accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance, including industry-specific revenue guidance. The FASB subsequently issued ASU No. 2015-14, Revenue From Contracts With Customers (Topic 606): Deferral of the Effective Date (“ASU 2015-14”), ASU No. 2016-8, Revenue from Contracts with Customers - Principal versus Agent Considerations (Reporting Revenue Gross versus Net) (Topic 606) (“ASU 2016-8”), ASU No. 2016-10, Identifying Performance Obligations and Licensing (Topic 606) and ASU No. 2016-12, Narrow-Scope Improvements and Practical Expedients (Topic 606), which further clarify aspects of the initial ASU. The guidance is effective for fiscal years, and interim reporting periods within those fiscal years, beginning after December 15, 2017. The revenue recognition guidance permits companies to either apply the requirements retrospectively to all prior periods presented, or apply the requirements in the year of adoption, through a cumulative adjustment. We are in the process of evaluating the impact of adoption on our consolidated financial statements.

2. Earnings Per Share

Basic earnings per share is computed based on the weighted-average number of common shares outstanding and diluted earnings per share is computed based on the weighted-average number of common shares outstanding adjusted by the number of additional shares that would have been outstanding had potentially dilutive common shares been issued. Potentially dilutive securities include nonvested share awards and stock options for which the exercise price was less than the average market price of our outstanding common stock. Nonvested performance-based share awards are included in the average diluted shares outstanding for each period if established performance criteria have been met at the end of the respective periods.

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended June 30,		Six Months Ended June 30,	
(in millions, except per share data)	2016	2015	2016	2015
Numerator				
Net income attributable to Global Brass and Copper Holdings, Inc.	\$8.4	\$17.1	\$20.6	\$25.2
Denominator				
Weighted-average common shares outstanding	21.3	21.3	21.3	21.2
Effect of potentially dilutive securities:				
Stock options and nonvested share awards	0.2	0.1	0.2	0.1
Weighted-average common shares outstanding, assuming dilution	21.5	21.4	21.5	21.3
Anti-dilutive shares excluded from above	—	—	—	0.3
Net income attributable to Global Brass and Copper Holdings, Inc. per common share:				
Basic	\$0.39	\$0.80	\$0.97	\$1.19
Diluted	\$0.39	\$0.80	\$0.96	\$1.18

Table of Contents

Global Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

3. Segment Information

Our Chief Operating Decision Maker allocates resources and evaluates performance at the divisional level. As such, we have determined that we have three reportable segments: Olin Brass, Chase Brass and A.J. Oster.

Olin Brass is a leading manufacturer, fabricator and converter of non-ferrous products, including sheet, strip, foil, tube and fabricated products. Olin Brass also rerolls and forms other alloys such as stainless steel, carbon steel and aluminum. Sheet and strip is generally manufactured from copper and copper-alloy scrap. Olin Brass's products are used in five primary markets: building and housing, munitions, automotive, coinage, and electronics / electrical components.

Chase Brass is a leading manufacturer of solid brass rod in North America. Chase Brass primarily manufactures rod in round and other shapes, ranging from 1/4 inch to 4.5 inches in diameter. The key attributes of brass rod include its machinability, corrosion resistance and moderate strength, making it especially suitable for forging and machining products such as valves and fittings. Brass rod is generally manufactured from copper or copper-alloy scrap. Chase Brass produces brass rod used in production applications which can be grouped into four primary markets: building and housing, transportation, electronics / electrical components and industrial machinery and equipment.

A.J. Oster primarily processes and distributes copper and copper-alloy sheet, strip and foil through six strategically-located service centers in the United States, Puerto Rico and Mexico. Each A.J. Oster service center reliably provides a broad range of high quality products at quick lead-times in small quantities. These capabilities, combined with A.J. Oster's operations of precision slitting, hot tinning, traverse winding, cutting, edging, stamping and special packaging, provide value to a broad customer base. A.J. Oster's products are used in three primary markets: building and housing, automotive and electronics / electrical components.

Corporate includes compensation for corporate executives and staff, and professional fees for accounting, tax and legal services. Corporate also includes interest expense, state and Federal income taxes, overhead costs, all share-based compensation expense, gains and losses associated with certain acquisitions and dispositions and the elimination of intercompany balances and transactions.

The Chief Operating Decision Maker evaluates performance and determines resource allocations based on a number of factors, the primary performance measure being adjusted EBITDA (as defined below), a non-GAAP measure. Adjusted EBITDA is defined as net income attributable to Global Brass and Copper Holdings, Inc., plus interest, taxes, depreciation and amortization ("EBITDA") adjusted to exclude the following:

- unrealized gains and losses on derivative contracts in support of our balanced book approach;
- unrealized gains and losses associated with derivative contracts related to energy and utility costs;
- adjustments due to lower of cost or market adjustments to inventory;
- gains and losses due to the depletion of a last-in, first out ("LIFO") layer of metal inventory;
- share-based compensation expense;
- loss on extinguishment of debt;
- income accretion related to Dowa Olin Metal Corporation (the "Dowa Joint Venture");
- restructuring and other business transformation charges;
- specified legal and professional expenses; and
- certain other items.

Each of these items are excluded because our management believes they are not indicative of the ongoing performance of our core operations.

Restructuring and other business transformation charges (g)	—	—	—	(0.9)
Income before provision for income taxes and equity income	\$ 13.2	\$ 25.0	\$ 32.1	\$ 37.4

(a) Represents unrealized gains / losses on derivative contracts.

(b) Represents the loss on extinguishment of debt recognized in connection with the open market purchases of Senior Secured Notes (see Note 7, "Financing").

(c) Excludes accretion income of \$0.2 million for the six months ended June 30, 2015. Equity method investment income is exclusive to Olin Brass. In 2015, we sold our investment in the Dowa Joint Venture.

(d) Represents selected professional fees for accounting, tax, legal and consulting services incurred as a public company that exceed our expected long-term requirements.

(e) For the three and six months ended June 30, 2015, represents lower of cost or market charges for the write down of domestic, non-copper metal inventory. For the three and six months ended June 30, 2016, represents recoveries of previous charges as market prices for certain non-copper metals increased, net of additional lower of cost or market charges for the write down of domestic, non-copper metal inventory.

(f) Represents compensation expense resulting from stock compensation awards to certain employees and our Board of Directors.

(g) Restructuring and other business transformation charges for the six months ended June 30, 2015 represent severance charges at Olin Brass.

4. Inventories

Inventories were as follows:

(in millions)	As of	
	June 30, 2016	December 31, 2015
Raw materials and supplies	\$30.7	\$ 31.3
Work-in-process	71.7	69.7
Finished goods	64.1	75.3
Total inventories	\$166.5	\$ 176.3

Inventories include costs attributable to direct labor and manufacturing overhead, but are primarily comprised of metal costs. The metals component of inventories that is valued on a LIFO basis comprised approximately 70% of total inventory at June 30, 2016 and December 31, 2015. Other manufactured inventories, including the direct labor and manufacturing overhead components and certain non-U.S. inventories, are valued on a first-in, first out ("FIFO") basis. During the three months ended June 30, 2016, we recorded a non-cash recovery of previous lower of cost or market charges for the write down of certain domestic, non-copper metal inventory, as well as additional charges for certain domestic, non-copper metal inventory resulting from the decline in market value of these metals, aggregating to a net recovery of \$0.2 million. During the three months ended June 30, 2015, we recorded a write down of \$0.6 million. During the six months ended June 30, 2016 and 2015, we recorded write down adjustments of \$0.1 million (net of certain recoveries) and \$2.5 million, respectively. These non-cash, lower of cost or market adjustments were recorded in cost of sales in the accompanying unaudited consolidated statements of operations.

Below is a summary of inventories valued at period-end market values compared to the as reported values:

(in millions)	As of	
	June 30, 2016	December 31, 2015
Market value	\$211.8	\$ 213.1
As reported	166.5	176.3
Excess of market over reported value	\$45.3	\$ 36.8

5. Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets were as follows:

(in millions)	As of	
	June 30, 2016	December 31, 2015
Workers' compensation plan deposits	\$6.9	\$ 6.0
Prepaid insurance	3.0	2.0
Deferred cost of sales - toll customers	2.3	4.0
Derivative contract assets	2.3	1.8
Prepaid tooling	0.1	0.5
Other	4.5	3.1
Total prepaid expenses and other current assets	\$19.1	\$ 17.4

Table of ContentsGlobal Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

6. Accrued Liabilities

Accrued liabilities consisted of the following:

(in millions)	As of	
	June 30, 2016	December 31, 2015
Compensation and benefits	\$16.1	\$ 23.8
Workers' compensation	2.7	13.3
Insurance	2.6	2.6
Professional fees	2.5	2.5
Deferred sales revenue - toll customers	2.3	4.0
Utilities	1.8	1.6
Taxes	1.2	1.3
Tooling	—	0.5
Other	5.2	4.3
Total accrued liabilities	\$34.4	\$ 53.9

7. Financing

Long-term debt consisted of the following:

(in millions)	As of	
	June 30, 2016	December 31, 2015
Senior Secured Notes	\$305.3	\$ 345.3
Deferred financing fees - Senior Secured Notes	(5.4)	(7.0)
ABL Facility	—	—
Obligations under capital lease	4.3	4.8
Total debt	304.2	343.1
Less: Current portion of capital lease obligations	(1.2)	(1.1)
Noncurrent portion of debt	\$303.0	\$ 342.0

Discussion of Historical Debt Facilities

As of June 30, 2016, we were in compliance with all of the covenants relating to the senior secured notes then outstanding, which had a maturity date of June 1, 2019 (“Senior Secured Notes”).

During the six months ended June 30, 2016, we purchased in the open market an aggregate of \$40.0 million principal amount of our Senior Secured Notes, for an aggregate purchase price of \$42.5 million, plus accrued interest. As a result of these purchases, we recognized a loss on the extinguishment of debt in the three months ended June 30, 2016 of \$0.4 million, which includes a premium of \$0.3 million and the write-off of \$0.1 million of unamortized debt issuance costs. We recognized a loss on the extinguishment of debt in the six months ended June 30, 2016 of \$3.3 million, which includes a premium of \$2.5 million and the write-off of \$0.8 million of unamortized debt issuance costs.

As discussed under “Term Loan B Facility” hereafter, on July 18, 2016, we used the proceeds from the Term Loan B Facility, along with approximately \$11.8 million of our own cash, to redeem all \$305.3 million principal of our outstanding Senior Secured Notes and for ongoing working capital needs and other general corporate purposes. As part of the refinancing and in accordance with the indenture governing the Senior Secured Notes (“Indenture”), we called the notes at a redemption price of 104.75% plus accrued interest, and we terminated the related Indenture.

Table of Contents

Global Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

As of June 30, 2016, we were in compliance with all of the covenants under the asset based revolving facility (“ABL Facility”) in existence at the time. Due to the refinancing discussed below, on July 18, 2016, we terminated this ABL Facility, at which time, no amounts were outstanding under the facility.

We will record the loss on extinguishment related to both the Senior Secured Notes and the former ABL facility in the third quarter of approximately \$20 million, which reflects a call premium and the write off of the remaining debt issuance costs.

Refinancing

2016 ABL Facility

On July 18, 2016, we entered into a credit agreement with a syndicate of lenders that matures on July 19, 2021 (the “ABL Credit Agreement” and the facility thereunder, the “2016 ABL Facility”). No amounts were outstanding under this facility at closing.

The 2016 ABL Facility is an asset-based revolving loan facility that provides for borrowings of up to the lesser of \$200.0 million or the borrowing base. At closing, available borrowings under the 2016 ABL Facility were \$200.0 million. We may request an increase in the maximum commitments, at our option and under certain circumstances, of up to \$200.0 million (but the lenders are not obligated to grant such an increase).

Amounts outstanding, if any, under the 2016 ABL Facility bear interest at a rate per annum equal to, at our option, either (1) 0.25% to 0.75% subject to an average quarterly availability pricing grid set forth in the ABL Credit Agreement plus an Alternate Base Rate (as defined in the ABL Credit Agreement) or (2) 1.25% to 1.75% subject to an average quarterly availability pricing grid set forth in the ABL Credit Agreement plus the Adjusted LIBO Rate (as defined in the ABL Credit Agreement). Unused amounts under the 2016 ABL Facility incur an unused line fee of 0.375% or 0.25% per annum (depending on the percentage of aggregate revolving exposure), payable in arrears on a quarterly basis.

The ABL Credit Agreement requires us to prepay or cash collateralize the applicable portion of any outstanding revolving loans under circumstances as are customary in agreements of this type. However, we may voluntarily repay and reborrow outstanding loans under the 2016 ABL Facility at any time without a premium or penalty, other than customary “breakage” costs with respect to loans made utilizing the Adjusted LIBO Rate (as defined in the ABL Credit Agreement).

The ABL Credit Agreement also contains a financial covenant requiring us to maintain a fixed charge coverage ratio that is tested whenever excess availability, as defined in the ABL Credit Agreement, falls below the greater of \$20.0 million or 10% of our potential borrowings. The “fixed charge coverage ratio” requires us to maintain a ratio of “Consolidated Adjusted EBITDA” to the amount of our “fixed charges” (for all terms, as defined in the ABL Credit Agreement) for the twelve consecutive months prior to the date on which the ratio is tested equal to or greater than 1.0 to 1.0.

Term Loan B Facility

Also on July 18, 2016, we entered into a long-term credit agreement that matures on July 18, 2023 (the “Term Loan B Credit Agreement” and the loans thereunder, the “Term Loan B Facility”).

The Term Loan B Facility provides for borrowings of \$320.0 million. Amounts outstanding under the Term Loan B Facility bear interest at a rate per annum equal to, at our option, either (1) 3.00% to 3.25% subject to a total net leverage ratio pricing grid set forth in the Term Loan B Credit Agreement plus an Alternate Base Rate (as defined in the Term Loan B Credit Agreement) or (2) 4.00% to 4.25% subject to a total net leverage ratio pricing grid set forth in the Term Loan B Credit Agreement plus the Adjusted LIBO Rate (as defined in the Term Loan B Credit Agreement). We may request an increase in the aggregate term loans, at our option and under certain circumstances, of up to an additional \$75.0 million or an unlimited amount so long as after giving effect to any incremental facility or incremental equivalent debt, the net senior secured leverage ratio does not exceed 2.50 to 1.00 (but the lenders, in either case, are not obligated to grant such an increase).

The Term Loan B Credit Agreement requires mandatory prepayments based on various events and circumstances as are customary in such agreements. In addition, starting on December 31, 2017, we are subject to a 50% excess cash flow sweep, subject to step-downs to 25% and 0% depending on the total net leverage ratio from time to time. We may, however, voluntarily prepay outstanding loans under the Term Loan B Facility at any time.

Table of Contents

Global Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

The Term Loan B Credit Agreement also contains a financial covenant that requires us to maintain a total net leverage ratio that is tested quarterly. The “total net leverage ratio” requires us to maintain a ratio of the amount of total net debt to “Consolidated Adjusted EBITDA” (for all terms, as defined in the Term Loan B Credit Agreement) for the twelve consecutive months prior to the date on which the ratio is tested of no greater than 4.0 to 1.0.

In connection with the Term Loan B Facility, commencing on December 30, 2016, we must make quarterly payments of \$0.8 million with the balance expected to be due on July 18, 2023.

The Credit Agreements

The ABL Credit Agreement and the Term Loan B Credit Agreement (together, the “Credit Agreements”) contain various other covenants consistent with debt agreements of this kind, such as restrictions on the amounts of dividends we can pay.

A violation of covenants under either of the Credit Agreements may result in default or an event of default under the 2016 ABL Facility or Term Loan B Facility, as applicable (together, the “Facilities”). Upon the occurrence of an event of default under one or both of the Credit Agreements, the requisite lenders could elect to declare all amounts of such indebtedness outstanding to be immediately due and payable and terminate any commitments to extend further credit. If we are unable to repay those amounts, the lenders under the applicable Credit Agreement may proceed against the collateral granted to them to secure such indebtedness. Substantially all of our assets are pledged as collateral under the ABL Credit Agreement and the Term Loan B Credit Agreement. If the lenders accelerate the repayment of borrowings, such acceleration could have a material adverse effect on our business, financial condition, results of operations or cash flows. Furthermore, cross-default provisions in the Credit Agreements provide that any default under the Term Loan B Credit Agreement or the ABL Credit Agreement or other significant debt agreements could trigger a cross-default under the ABL Credit Agreement or Term Loan B Credit Agreement, as applicable.

8. Income Taxes

The effective income tax rate, which is the provision for income taxes as a percentage of income before provision for income taxes and equity income, was 34.8% and 31.6% for the three months ended June 30, 2016 and 2015, respectively, and 35.2% and 33.2% for the six months ended June 30, 2016 and 2015, respectively. The effective income tax rates for the three and six months ended June 30, 2016 and 2015 differed from the U.S. Federal statutory rate of 35% primarily due to state income taxes, utilization of foreign tax credits (especially in 2015) and the domestic manufacturing deduction.

As of June 30, 2016 and December 31, 2015, we had \$26.3 million and \$25.1 million, respectively, of unrecognized tax benefits, none of which would impact the effective tax rate, if recognized. Estimated interest and penalties related to the underpayment of income taxes are classified as a component of provision for income taxes. There were no such estimated amounts for the three and six months ended June 30, 2016 or 2015. Accrued interest and penalties as of June 30, 2016 and December 31, 2015 were \$0.1 million. Our liability for uncertain tax positions of \$26.4 million and \$25.2 million at June 30, 2016 and December 31, 2015, respectively, is presented in other noncurrent liabilities in the accompanying unaudited consolidated balance sheets.

Our U.S. federal returns for the period ended December 31, 2012 and all subsequent periods remain open for audit. The majority of state returns for the period ended December 31, 2011 and all subsequent periods also remain open for audit.

On July 18, 2016, we refinanced our debt (see Note 7, “Financing”), which will reduce interest expense in future years. Due to this reduction of interest expense, we expect to release the valuation allowance currently recorded against our foreign tax credits, resulting in a one-time reduction in income tax expense of approximately \$1.0 million in the third quarter.

Notes to Consolidated Financial Statements (Unaudited)

9. Derivative Contracts

We maintain a metal, energy and utility pricing risk-management strategy that uses commodity derivative contracts to minimize significant, unanticipated gains or losses that may arise from volatility of the commodity indices.

We are also exposed to credit risk and market risk. Credit risk is the risk that the counterparty might fail to fulfill its performance obligations under the terms of the derivative contract. Market risk is the risk that the value of a derivative instrument might be adversely affected by a change in commodity price. We manage the market risk associated with derivative contracts by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

We manage credit risk associated with derivative contracts by executing derivative instruments with counterparties that we believe are credit-worthy. The amount of such credit risk is limited to the fair value of the derivative contract plus the unpaid portion of amounts due to us pursuant to terms of the derivative contracts, if any. If the credit-worthiness of these counterparties deteriorates, we believe the exposure is mitigated by provisions in the derivative arrangements which allow for the legal right of offset of amounts due to us from the counterparties, if any, with any amounts payable to the counterparties.

The following tables provide a summary of our outstanding commodity derivative contracts:

(in millions, except for number of contracts)	As of			
	June 30, 2016		December 31, 2015	
	Net Notional Amount	# of Contracts	Net Notional Amount	# of Contracts
Metal	\$18.2	941	\$18.2	534
Energy and utilities	2.7	53	4.3	114

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Losses (gains) in cost of sales for:				
Metal	\$(0.7)	\$0.4	\$(2.0)	\$(0.1)
Energy and utilities	(0.4)	0.3	0.1	0.4
Total	\$(1.1)	\$0.7	\$(1.9)	\$0.3

10. Fair Value Measurements

ASC 820 specifies a fair value framework and hierarchy based upon the observability of inputs used in valuation techniques. In accordance with this guidance, fair value measurements are classified under the following hierarchy:

Level 1 - Quoted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 - Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

As of June 30, 2016 and December 31, 2015, the fair value of our commodity derivative contracts was \$2.3 million and \$1.8 million, respectively. In accordance with ASC 820, our metal, energy and utility commodity derivative contracts are considered Level 2, as fair value measurements consist of both quoted price inputs and inputs provided by a third party that are derived principally from or corroborated by observable market data by correlation. These assumptions include, but are not limited to, those concerning interest rates, credit rates, discount rates, default rates and other factors. All of our derivative commodity contracts have a set term of 24 months or less.

We do not hold assets or liabilities requiring a Level 3 measurement and there have not been any transfers between the hierarchy levels during 2016 or 2015.

For purposes of financial reporting, we have determined that the carrying value of cash, accounts receivable, accounts payable, and accrued expenses approximates fair value due to their short term nature. Additionally, given the revolving nature and the variable interest rates, we have determined that the carrying value of the ABL Facility also approximates fair value. As of June 30, 2016 and December 31, 2015, the fair value of our Senior Secured Notes approximated \$321.7 million and \$365.2 million, respectively, compared to a carrying value of \$305.3 million and \$345.3 million, respectively. The fair value of the Senior Secured Notes was based upon quotes from financial institutions (Level 2 in the fair value hierarchy as defined by ASC 820). In July 2016, we redeemed all of our outstanding Senior Secured Notes (see Note 7, "Financing").

11. Commitments and Contingencies

Environmental Considerations

We are subject to a variety of environmental laws and regulations governing discharges to air and water, the handling, storage and disposal of hazardous or solid waste materials and the remediation of contamination associated with releases of hazardous substances. Although we believe we are in material compliance with all of the various regulations applicable to our business, there can be no assurance that requirements will not change in the future or that we will not incur significant costs to comply with such requirements. We are currently not aware of any environmental matters which may have a material impact on our financial position, results of operations, or liquidity.

On November 19, 2007 (the date of inception of GBC), we acquired the assets and operations relating to the worldwide metals business of Olin Corporation. Olin Corporation agreed to retain liability arising out of the existing conditions on certain of our properties for any remedial actions required by environmental laws, and agreed to indemnify us for all or part of a number of other environmental liabilities. Since 2007, Olin Corporation has been performing remedial actions at the facilities in East Alton, Illinois and Waterbury, Connecticut related to environmental

Table of Contents

Global Brass and Copper Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

conditions at such facilities, and has been participating in remedial actions at certain other properties as well. If Olin Corporation were to stop its environmental remedial activities at our properties, we could be required to assume responsibility for these activities, the cost of which could be material.

Legal Considerations

We are party to various legal proceedings arising in the ordinary course of business. We believe that none of our legal proceedings are individually material or that the aggregate exposure of all of our legal proceedings, including those that are probable and those that are only reasonably possible, is material to our financial condition, results of operations or cash flows.

Table of Contents

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This report contains “forward-looking statements” that involve risks and uncertainties. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “projects,” “may,” “would,” “should,” “seeks,” “approximates,” “intends,” “plans,” “estimates,” “anticipates” or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make or may make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements contained in this report are based upon information available to us on the date of this report.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as “cautionary statements,” are disclosed under the “Risk Factors” section in Item 1A of our Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on March 9, 2016, and subsequent Reports on Form 10-Q, including, without limitation, in conjunction with the forward-looking statements included in this Report on Form 10-Q and in our other SEC filings. All forward-looking information in this report and subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include, but are not limited to:

- general economic conditions affecting the markets in which our products are sold;
- our ability to implement our business strategies, including acquisition activities;
- our ability to maintain business relationships with our customers on favorable terms;
- our ability to continue implementing our balanced book approach to substantially reduce the impact of fluctuations in metal prices on our earnings and operating margins;
- shrinkage from processing operations and metal price fluctuations, particularly copper;
- the condition of various markets in which our customers operate, including the housing and commercial construction industries;
- the impact of a loss in customer volume or demand or a shift by customers of their manufacturing or sourcing offshore;
- our ability to compete effectively with existing and new competitors;
- limitations on our ability to purchase raw materials, particularly copper;
- fluctuations in commodity, energy and utility prices and costs;
- our ability to maintain sufficient liquidity as commodity, energy and utility prices rise;
- the effects of industry consolidation or competition in our business lines;
- operational factors affecting the ongoing commercial operations of our facilities, including technology failures, catastrophic weather-related damage, regulatory approvals, permit issues, unscheduled blackouts, outages or repairs or unanticipated changes in energy and utility costs;
- operational factors affecting the ongoing commercial operations of our facilities resulting from inclement weather conditions;
- supply, demand, prices and other market conditions for our products;
- our ability to accommodate increases in production to meet demand for our products;
- our ability to continue our operations internationally and the risks applicable to international operations;

Table of Contents

government regulations relating to our products and services, including new legislation relating to derivatives and the elimination of the dollar bill and EPA regulations regarding the registration and marketing of bactericidal copper products;

our ability to maintain effective internal control over financial reporting;

our ability to realize the planned cost savings and efficiency gains as part of our various initiatives;

our ability to successfully execute acquisitions and joint ventures;

workplace safety issues;

our ability to retain key employees;

adverse developments in our relationship with our employees or the future terms of our collective bargaining agreements;

the impact of our indebtedness, including the effect of our ability to borrow money, fund working capital and operations and make new investments;

rising employee medical costs;

environmental costs and our exposure to environmental claims;

our exposure to product liability claims;

our ability to successfully manage litigation;

our ability to maintain cost-effective insurance policies;

our ability to maintain the confidentiality of our proprietary information, to protect the validity, enforceability or scope of our intellectual property rights and manage litigation regarding our intellectual property rights;

litigation regarding our intellectual property rights could affect us and harm our business;

our limited experience managing and operating as an SEC reporting company;

fluctuations in interest rates; and

restrictive covenants in our indebtedness that may adversely affect our operational flexibility.

We caution you that the foregoing list of factors may not contain all of the material factors that are important to you.

In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this report may not in fact occur. Accordingly, investors should not place undue reliance on those statements. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2015. In addition to historical data, this discussion contains forward-looking statements about our business, operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Our actual results may differ materially from those discussed in the forward-looking statements as a result of various factors, including but not limited to those discussed in the section entitled "Cautionary Statement Concerning Forward-Looking Statements" included elsewhere in this Quarterly Report on Form 10-Q.

Overview

Our Company

Global Brass and Copper Holdings, Inc. ("Holdings," the "Company," "we," "us," or "our") was incorporated in Delaware on October 10, 2007. Holdings, through its wholly-owned principal operating subsidiary, Global Brass and Copper, Inc. ("GBC"), commenced commercial operations on November 19, 2007 through the acquisition of the metals business from Olin Corporation. The majority of our operations are managed through three reportable operating segments: Olin Brass, Chase Brass and A.J. Oster. We also have a Corporate entity which includes certain administrative costs and expenses and the elimination of intercompany balances.

We are a leading value-added converter, fabricator, processor and distributor of specialized non-ferrous products including a wide range of sheet, strip, foil, rod, tube and fabricated metal component products. While we primarily process copper and copper-alloys, we also reroll and form certain other metals such as stainless steel, carbon steel and aluminum. Using processed scrap, virgin metals and other refined metals, we engage in metal melting and casting, rolling, drawing, extruding, welding and stamping to fabricate finished and semi-finished alloy products. Key attributes of copper and copper alloys are conductivity, corrosion resistance, strength, malleability, cosmetic appearance and bactericidal properties.

Our products are used in a variety of applications across diversified markets, including the building and housing, munitions, automotive, transportation, coinage, electronics / electrical components, industrial machinery and equipment and general consumer markets. We access these markets through direct mill sales, our captive distribution network and third-party distributors. We hold the exclusive production and distribution rights in North America for a lead-free brass rod product, which we sell under the Green Dot® and Eco Brass® brand names. The vertical integration of Olin Brass's manufacturing capabilities and A.J. Oster's distribution capabilities allows us to access customers with a wide variety of volume and service needs.

Unlike traditional metals companies, in particular those that engage in mining, smelting and refining activities, we are purely a metal converter, fabricator, processor and distributor, and we do not attempt to generate profits from fluctuations in metal prices. Our financial performance is primarily driven by metal conversion economics, not by the underlying movements in the price of copper and the other metals we use. Through our "balanced book" approach, we strive to match the timing, quantity and price of our metal sales with the timing, quantity and price of our replacement metal purchases. This practice, along with our toll processing operations, substantially reduces the financial impact of metal price movements on our earnings and operating margins.

For a discussion of Key Factors Affecting our Results of Operations, including the "balanced book" approach, refer to our Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 9, 2016.

Management's View of Performance

In addition to the results reported in accordance with accounting principles generally accepted in the United States of America ("US GAAP"), we also report "adjusted sales," "adjusted gross profit," "adjusted selling, general and administrative expenses," "adjusted EBITDA" and "adjusted diluted earnings per common share" which are non-GAAP financial measures as defined below.

Adjusted sales may not be comparable to similarly titled measures presented by other companies and is not a measure of operating performance or liquidity defined by US GAAP. Adjusted gross profit, adjusted selling, general and administrative expenses and adjusted diluted earnings per common share may not be comparable to similarly titled

measures presented by other companies and are not measures of operating performance or liquidity defined by US GAAP. Adjusted EBITDA is not intended as an alternative to net income or as an alternative to any other measure of

Table of Contents

performance in conformity with US GAAP or as an alternative to cash flow provided by (used in) operating activities as a measure of liquidity.

You should therefore not place undue reliance on adjusted sales, adjusted gross profit, adjusted selling, general and administrative expenses, adjusted EBITDA, adjusted diluted earnings per common share, or any ratios calculated using them. The most comparable US GAAP-based measure for each respective non-GAAP financial measure can be found in our unaudited consolidated financial statements and the related notes thereto included elsewhere in this report.

The following discussions present an analysis of certain GAAP and non-GAAP measures for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015, as well as for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015. These discussions should be read in conjunction with the accompanying unaudited consolidated financial statements and the notes thereto.

Net sales and adjusted sales

Adjusted sales is defined as net sales less the metal cost of products sold. Net sales is the most directly comparable US GAAP measure to adjusted sales, which represents the value-added premium we earn over our conversion and fabrication costs. We use adjusted sales on a consolidated basis to monitor the revenues that are generated from our value-added conversion and fabrication processes excluding the effects of fluctuations in metal costs. We believe that adjusted sales supplements our US GAAP results to provide a more complete understanding of the results of our business, and we believe it is useful to our investors and other parties for these same reasons.

Net sales is reconciled to adjusted sales as follows:

	Three Months Ended June 30,		Six Months Ended June 30,		QTR Change: 2016 vs. 2015		YTD Change: 2016 vs. 2015	
	2016	2015	2016	2015	Amount	Percent	Amount	Percent
(in millions, except per pound values)								
Pounds shipped (a)	131.8	132.8	263.1	261.4	(1.0)	(0.8)%	1.7	0.7 %
Net sales	\$337.9	\$414.9	\$666.8	\$815.1	\$(77.0)	(18.6)%	\$(148.3)	(18.2)%
Metal component of net sales	(201.1)	(274.3)	(394.6)	(539.7)	73.2	(26.7)%	145.1	(26.9)%
Adjusted sales	\$136.8	\$140.6	\$272.2	\$275.4	\$(3.8)	(2.7)%	\$(3.2)	(1.2)%
Net sales per pound	\$2.56	\$3.12	\$2.53	\$3.12	\$(0.56)	(17.9)%	\$(0.59)	(18.9)%
Metal component of net sales per pound	(1.52)	(2.06)	(1.50)	(2.07)	0.54	(26.2)%	0.57	(27.5)%
Adjusted sales per pound	\$1.04	\$1.06	\$1.03	\$1.05	\$(0.02)	(1.9)%	\$(0.02)	(1.9)%
Average copper price per pound (b)	\$2.13	\$2.77	\$2.12	\$2.72	\$(0.64)	(23.1)%	\$(0.60)	(22.1)%

(a) Amounts exclude quantity of unprocessed metal sold.

(b) Copper prices reported by the Commodity Exchange (“COMEX”).

Three months ended June 30, 2016 compared to three months ended June 30, 2015

Net sales decreased by \$77.0 million, or 18.6%, primarily as the result of a \$73.2 million decline in the metal cost recovery component due to decreased metal prices (\$57.1 million) and a decrease in sales of unprocessed metals (\$14.0 million). Adjusted sales decreased by \$3.8 million, predominantly due to a \$3.6 million (less than 1%) decrease in volume as a result of decreased demand in the coinage, transportation and industrial machinery and equipment markets, partially mitigated by increased demand within the building and housing market.

In addition, our Olin Brass production facility experienced an outage during the quarter resulting from an equipment failure of an intermediate processing component within our mill. As a result, this segment was unable to ship and sell product at normal levels, resulting in decreased volumes.

Six months ended June 30, 2016 compared to six months ended June 30, 2015

Net sales decreased by \$148.3 million, or 18.2%, primarily as the result of a \$145.1 million decline in the metal cost recovery component due to decreased metal prices and product mix (\$130.6 million) and a decline in sales of unprocessed metals (\$15.9 million). Adjusted sales decreased by \$3.2 million due to a \$4.5 million unfavorable price impact partially mitigated by a \$1.3 million benefit from increased volumes due to increased demand in munitions and

building and housing, partially offset by lower demand in coinage and industrial machinery and equipment. Consistent

21

Table of Contents

with our second quarter, our pricing initiatives were overshadowed by unfavorable mix impacts and decreased metal margins.

Gross profit and adjusted gross profit

Adjusted gross profit is defined as gross profit less items excluded from the calculation of adjusted EBITDA. Gross profit is the most directly comparable US GAAP measure to adjusted gross profit. We believe that adjusted gross profit supplements our US GAAP results to provide a more complete understanding of the results of our business, and we believe it is useful to our investors and other parties for these same reasons. We believe adjusted gross profit represents a meaningful presentation of the financial performance of our core operations, in order to provide period-to-period comparisons that are more consistent and more easily understood.

Gross profit is reconciled to adjusted gross profit as follows:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,		QTR Amount change:	YTD Amount change:
	2016	2015	2016	2015	2016 vs. 2015	2016 vs. 2015
Total gross profit	\$41.3	\$50.3	\$90.8	\$94.2	\$(9.0)	\$(3.4)
Unrealized (gain) loss on derivative contracts (a)	(0.7)	0.3	(2.6)	(0.7)	(1.0)	(1.9)
Lower of cost or market adjustment to inventory (b)	(0.2)	0.6	0.1	2.5	(0.8)	(2.4)
Restructuring and other business transformation charges	—	—	—	0.4	—	(0.4)
Depreciation expense	3.3	3.0	6.4	5.9	0.3	0.5
Adjusted gross profit	\$43.7	\$54.2	\$94.7	\$102.3	\$(10.5)	\$(7.6)

We use our balanced book approach, supported, where required, by derivative contracts, to substantially reduce the (a) impact of metal price fluctuations on operating margins. We also use derivative contracts to reduce uncertainty and volatility related to energy and utility costs.

For the three and six months ended June 30, 2015, represents lower of cost or market charges for the write down of (b) domestic, non-copper metal inventory. For the three and six months ended June 30, 2016, represents recoveries of previous charges as market prices for certain non-copper metals increased, net of additional lower of cost or market charges for the write down of domestic, non-copper metal inventory.

Three months ended June 30, 2016 compared to three months ended June 30, 2015

Gross profit decreased by \$9.0 million, or 17.9% and adjusted gross profit decreased by \$10.5 million, primarily due to increased costs and decreased volumes resulting from the previously described production outage at Olin Brass.

Six months ended June 30, 2016 compared to six months ended June 30, 2015

Gross profit decreased by \$3.4 million, or 3.6%, and adjusted gross profit decreased by \$7.6 million primarily due to increased costs resulting from the Olin Brass production outage previously discussed, as well as unfavorable changes in product mix. Additionally, gross profit benefited from a reduction in lower of cost or market charges and favorable fluctuations in unrealized gains / losses on derivative contracts.

Selling, general and administrative expenses and adjusted selling, general and administrative expenses

Adjusted selling, general and administrative expenses is defined as selling, general and administrative expenses less items excluded from the calculation of adjusted EBITDA. Selling, general and administrative expenses are the most directly comparable US GAAP measure to adjusted selling, general and administrative expenses. We believe that adjusted selling, general and administrative expenses supplement our US GAAP results to provide a more complete understanding of the results of our business, and we believe it is useful to our investors and other parties for these same reasons. We believe adjusted selling, general and administrative expenses represent a meaningful presentation of the financial performance of our core operations, in order to provide period-to-period comparisons that are more consistent and more easily understood.

Table of Contents

Selling, general and administrative expenses is reconciled to adjusted selling, general and administrative expenses as follows:

(in millions)	Three Months Ended		Six Months Ended		QTR	YTD
	June 30,	June 30,	June 30,	June 30,	Amount change:	Amount change:
	2016	2015	2016	2015	2016 vs. 2015	2016 vs. 2015
Total selling, general and administrative expenses	\$19.8	\$21.9	\$39.5	\$43.3	\$ (2.1)	\$ (3.8)
Specified legal / professional expenses	(0.2)	(0.7)	(0.6)	(1.8)	0.5	1.2
Share-based compensation expense	(1.6)	(1.2)	(2.7)	(1.9)	(0.4)	(0.8)
Restructuring and other business transformation charges	—	—	—	(0.5)	—	0.5
Depreciation and amortization expense	(0.4)	(0.3)	(0.9)	(0.7)	(0.1)	(0.2)
Adjusted selling, general and administrative expenses	\$17.6	\$19.7	\$35.3	\$38.4	\$ (2.1)	\$ (3.1)

Three months ended June 30, 2016 compared to three months ended June 30, 2015

Selling, general and administrative expenses decreased by \$2.1 million, or 9.6%, and adjusted selling, general and administrative expenses (defined below) decreased by \$2.1 million, primarily due to lower employee and related costs.

Six months ended June 30, 2016 compared to six months ended June 30, 2015

Selling, general and administrative expenses decreased by \$3.8 million, or 8.8%, and adjusted selling, general and administrative expenses decreased by \$3.1 million, primarily due to lower employee and related costs.

Net income and adjusted EBITDA

Adjusted EBITDA is defined as net income attributable to Global Brass and Copper Holdings, Inc., plus interest, taxes, depreciation and amortization (“EBITDA”) adjusted to exclude the following:

- unrealized gains and losses on derivative contracts in support of our balanced book approach;
- unrealized gains and losses associated with derivative contracts related to energy and utility costs;
- adjustments due to lower of cost or market adjustments to inventory;
- gains and losses due to the depletion of a last-in, first out (“LIFO”) layer of metal inventory;
- share-based compensation expense;
- loss on extinguishment of debt;
- income accretion related to Dowa Olin Metal Corporation (the “Dowa Joint Venture”)
- restructuring and other business transformation charges;
- specified legal and professional expenses; and
- certain other items.

Net income attributable to Global Brass and Copper Holdings, Inc. is the most directly comparable US GAAP measure to adjusted EBITDA.

We believe adjusted EBITDA represents a meaningful presentation of the financial performance of our core operations, in order to provide period-to-period comparisons that are more consistent and more easily understood. We also believe it is an important supplemental measure that is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry.

Adjusted EBITDA is the key metric used by our Chief Operating Decision Maker to evaluate the segment performance in a way that we believe reflects our core operating performance, and in turn, incentivize members of management and certain employees. For example, we use adjusted EBITDA per pound in order to measure the effectiveness of the balanced book approach in reducing the financial impact of metal price volatility on earnings and operating margins, and to measure the effectiveness of our business transformation initiatives in improving earnings and operating margins. In addition, measures similar to adjusted EBITDA are defined and used in our former agreements governing our ABL Facility and Senior Secured Notes, as well as our agreement governing our new asset-based revolving facility that matures on July 19, 2021 (“ABL Credit Agreement”) and our new agreement governing our loans under the long-term credit agreement that matures on July 18, 2023 (“Term Loan B Credit Agreement”) to determine compliance with various financial covenants and tests.

Table of Contents

However, our adjusted EBITDA may not be comparable to similarly titled measures presented by other companies. In addition, it has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under US GAAP. Some of these limitations are that adjusted EBITDA:

- does not reflect every expenditure, future requirements for capital expenditures or contractual commitments;
- does not reflect the significant interest expense or the amounts necessary to service interest or principal payments on our debt;
- does not reflect income tax expense and therefore the cost of complying with applicable laws;
- is an imperfect substitute for cash flow as it eliminates depreciation and amortization expense but does not include cash expended for capital expenditures required to operate our business;
- does not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations; and
- does not reflect limitations on our costs related to transferring earnings from our subsidiaries to us.

We compensate for these limitations by using adjusted EBITDA along with other comparative tools, together with US GAAP measurements, to assist in the evaluation of operating performance. Such US GAAP measurements include operating income, net income, cash flows from operations and other cash flow data. We have significant uses of cash, including capital expenditures, interest payments, debt principal repayments, taxes and other non-recurring charges, which are not reflected in adjusted EBITDA.

Net income attributable to Global Brass and Copper Holdings, Inc. is reconciled to adjusted EBITDA as follows:

	Three Months Ended June 30,		Six Months Ended June 30,		QTR Amount change:	YTD Amount change:
	2016	2015	2016	2015	2016 vs. 2015	2016 vs. 2015
(in millions)						
Net income attributable to Global Brass and Copper Holdings, Inc.	\$8.4	\$17.1	\$20.6	\$25.2	\$(8.7)	\$(4.6)
Interest expense	7.9	9.9	16.3	19.9	(2.0)	(3.6)
Provision for income taxes	4.6	7.9	11.3	12.4	(3.3)	(1.1)
Depreciation expense	3.7	3.3	7.3	6.6	0.4	0.7
Unrealized (gain) loss on derivative contracts (a)	(0.7)	0.3	(2.6)	(0.7)	(1.0)	(1.9)
Loss on extinguishment of debt (b)	0.4	—	3.3	—	0.4	3.3
Non-cash accretion of income of Dow Joint Venture (c)	—	—	—	(0.2)	—	0.2
Specified legal / professional expenses (d)	0.2	0.7	0.6	1.8	(0.5)	(1.2)
Lower of cost or market adjustment to inventory (e)	(0.2)	0.6	0.1	2.5	(0.8)	(2.4)
Share-based compensation expense (f)	1.6	1.2	2.7	1.9	0.4	0.8
Restructuring and other business transformation charges (g)	—	—	—	0.9	—	(0.9)
Adjusted EBITDA	\$25.9	\$41.0	\$59.6	\$70.3	\$(15.1)	\$(10.7)

(a) Represents unrealized gains / losses on derivative contracts.

(b) Represents the loss on extinguishment of debt recognized in connection with the open market purchases of our Senior Secured Notes.

As a result of the application of purchase accounting in connection with the November 2007 acquisition, no carrying value was initially assigned to our equity investment in our Dow Joint Venture. This adjustment (c) represents the accretion of equity in our Dow Joint Venture at the date of the acquisition over a 13-year period (i.e., the estimated useful life of the technology and patents of the joint venture). In 2015, we sold our investment in the Dow Joint Venture.

(d) Represents selected professional fees for accounting, tax, legal and consulting services incurred as a public company that exceed our expected long-term requirements.

(e) Represents the impact of lower of cost or market adjustments to domestic, non-copper metal inventory.

- (f) Represents compensation expense resulting from stock compensation awards to certain employees and our Board of Directors.
- (g) Restructuring and other business transformation charges in 2015 represent severance charges at Olin Brass.

Table of Contents

Three months ended June 30, 2016 compared to three months ended June 30, 2015

Net income attributable to Global Brass and Copper Holdings, Inc. decreased by \$8.7 million, or 50.9%, mainly due to the aforementioned decrease in gross profit and the fact that the prior year includes a gain on the sale of our joint venture, partially offset by decreased selling, general and administrative expenses, interest expense and provision for income taxes.

Adjusted EBITDA decreased by \$15.1 million, or 36.8%, primarily due to the impact from the aforementioned Olin Brass production outage and the fact that the prior year includes a gain on the sale of our joint venture.

Six months ended June 30, 2016 compared to six months ended June 30, 2015

Net income attributable to Global Brass and Copper Holdings, Inc. decreased by \$4.6 million, or 18.3%, mainly due to the aforementioned decrease in gross profit, the fact that the prior year includes a gain on the sale of our joint venture, as well as the current year loss on extinguishment of debt, partially offset by decreased selling, general and administrative expenses, interest expense and provision for income taxes.

Adjusted EBITDA decreased by \$10.7 million, or 15.2%, due to the gross profit impact of the aforementioned Olin Brass production outage, the fact that the prior year includes a gain on the sale of our joint venture and the unfavorable product mix within our segments (Olin Brass volumes shifted from the coinage market to the munitions market and Chase volumes shifted from the transportation and industrial machinery and equipment markets to the building and housing market) partially offset by a decrease in selling, general and administrative expenses.

Diluted income per common share and adjusted diluted earnings per common share

Diluted income per common share decreased by \$0.41 and \$0.22 for the three and six months ended June 30, 2016, respectively, as compared to the same periods in 2015 for the reasons noted above. Diluted net income attributable to Global Brass and Copper Holdings, Inc. per common share is the most directly comparable US GAAP measure to adjusted diluted earnings per common share. Adjusted diluted earnings per common share is defined as diluted net income attributable to Global Brass and Copper Holdings, Inc. per common share adjusted to remove the after-tax impact of the add backs to EBITDA in calculating adjusted EBITDA.

We believe adjusted diluted earnings per common share represents a meaningful presentation of the financial performance of our consolidated results, in order to provide period-to-period comparisons that are more consistent and more easily understood. We also believe it is an important supplemental measure that is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry.

Adjusted diluted earnings per share is the key metric used by our Chief Operating Decision Maker to evaluate the Company's performance, and in turn, incentivize members of management and certain employees.

We believe that adjusted diluted earnings per common share supplements our US GAAP results to provide a more complete understanding of the results of our business, and we believe it is useful to our investors and other parties for these same reasons.

N/A - not applicable

The following discussions present an analysis of our results of operations for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. See “Management’s View of Performance” for discussions of net sales, adjusted sales, gross profit, adjusted gross profit, selling, general and administrative expenses, adjusted selling, general and administrative expenses, net income attributable to Global Brass and Copper Holdings, Inc., adjusted EBITDA, diluted net income attributable to Global Brass and Copper Holdings, Inc. per common share and adjusted diluted earnings per common share. These discussions should be read in conjunction with the accompanying unaudited consolidated financial statements and the notes thereto.

Interest expense

Interest expense decreased by \$2.0 million primarily due to lower average principal borrowings on our debt facilities as we bought back an aggregate of \$69.7 million of our Senior Secured Notes in the open market during the latter half of 2015 and the first half of 2016.

Table of Contents

The following table summarizes the components of interest expense:

(in millions)	Three		Change: 2016 vs. 2015	Amount
	Months Ended June 30,	2016		
Interest on principal	\$7.4	\$9.0	\$ (1.6)
Amortization of debt issuance costs	0.6	0.7	(0.1)
Capitalized interest	(0.3)	—	(0.3)
Other borrowing costs (a)	0.2	0.2	—	
Total interest expense	\$7.9	\$9.9	\$ (2.0)

(a) Includes unused line of credit fees.

Loss on extinguishment of debt

In the second quarter ended June 30, 2016, we bought back an aggregate of \$4.5 million principal amount of our Senior Secured Notes for an aggregate purchase price of \$4.8 million, plus accrued interest. As a result of these purchases, we recognized a loss on the extinguishment of debt of \$0.4 million, which includes a premium of \$0.3 million and the write-off of \$0.1 million of unamortized debt issuance costs.

Gain on sale of investment in joint venture

In April 2015, we sold our 50% share of the Dowa Joint Venture to Dowa Co. for \$8.0 million. During the three months ended June 30, 2015, we recognized a gain of \$6.3 million and related tax expense of \$1.5 million on the sale.

Provision for income taxes

The provision for income taxes decreased by \$3.3 million, due primarily to a decrease in income before provision for income taxes and equity income, the components of which are discussed elsewhere in this report. The effective income tax rate increased from 31.6% to 34.8%, resulting from a decrease in the utilization of foreign tax credits due to the 2015 sale of our investment in joint venture and a slight decrease in the domestic manufacturing deduction.

Corporate and other	(4.5)	1.5	(6.0)	N/M
Total consolidated adjusted EBITDA	\$25.9	\$41.0	\$(15.1)	(36.8)%

(a) Amounts exclude quantity of unprocessed metal sold.

(b) Amounts represent intercompany eliminations.

N/M - not meaningful

See Note 3, "Segment Information," of our unaudited consolidated financial statements, which are included elsewhere in this report, for a reconciliation of adjusted EBITDA of segments to income before provision for income taxes and equity income.

Olin Brass

Net sales decreased by \$52.8 million as the metal cost recovery component decreased by \$43.9 million. The decrease is due to lower sales of unprocessed metal, decreased metal prices and unfavorable product mix fluctuations (\$32.8 million). Decreased volumes resulting from the production outage contributed \$11.1 million to the decrease in net sales. Adjusted sales decreased by \$8.9 million due to these lower volumes as well.

Volumes decreased, mostly due to the production outage, which deferred some volumes from the first half to the second half of 2016. Additionally, volumes in the coinage market decreased due to underlying demand.

Adjusted EBITDA decreased by \$9.9 million, due primarily to the production outage and decreased volumes. We carry various types of insurance, including property and business interruption insurance and are actively seeking recovery from our insurance carrier for losses in excess of our \$2.5 million deductible.

Table of Contents

Chase Brass

Net sales decreased by \$12.9 million as the metal cost recovery component of net sales declined due to decreased metal prices (\$21.8 million), partially mitigated by increased volumes (\$8.2 million). Adjusted sales increased by \$0.7 million due to increased volumes (\$2.7 million) and decreased pricing (\$2.0 million) resulting from unfavorable product mix fluctuations and decreased metal margins.

Volumes increased in the building and housing market and decreased in the industrial and machinery equipment and transportation markets due to demand.

Adjusted EBITDA increased by \$0.9 million due to the increase in volumes and decreased manufacturing conversion costs, partially offset by unfavorable product mix fluctuations.

A.J. Oster

Net sales decreased by \$9.0 million due to decreased metal prices (\$11.4 million). While volumes were relatively flat, adjusted sales increased by \$2.1 million primarily due to favorable pricing as A.J. Oster continues to pass on certain price increases from its sister company Olin Brass. Both entities are focusing on pricing their products in order to earn a return that better reflects the complexity of the products being produced and the assets used to produce them.

Adjusted EBITDA was also relatively flat, although the impact of favorable pricing was dampened by certain price increases from Olin Brass.

Results of Operations

Consolidated Results of Operations for the Six Months Ended June 30, 2016, Compared to the Six Months Ended June 30, 2015.

(in millions)	Six Months Ended				Change:	
	June 30,		June 30,		2016 vs. 2015	
	2016	% of Net Sales	2015	% of Net Sales	Amount	Percent
Net sales	\$666.8	100.0 %	\$815.1	100.0 %	\$(148.3)	(18.2) %
Cost of sales	(576.0)	86.4 %	(720.9)	88.4 %	144.9	(20.1) %

N/M - not meaningful

Table of Contents

The following discussions present an analysis of our results of operations for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015. See “Management’s View of Performance” for discussions of net sales, adjusted sales, gross profit, adjusted gross profit, selling, general and administrative expenses, adjusted selling, general and administrative expenses, net income attributable to Global Brass and Copper Holdings, Inc., adjusted EBITDA, diluted net income attributable to Global Brass and Copper Holdings, Inc. per common share and adjusted diluted earnings per common share. These discussions should be read in conjunction with the accompanying unaudited consolidated financial statements and the notes thereto.

Interest expense

Interest expense decreased by \$3.6 million primarily due to lower average principal borrowings on our debt facilities as we bought back an aggregate of \$69.7 million of our Senior Secured Notes in the open market during the latter half of 2015 and the first half of 2016.

The following table summarizes the components of interest expense:

(in millions)	Six Months Ended June 30,		Amount change:
	2016	2015	2016 vs. 2015
Interest on principal	\$15.1	\$18.0	\$ (2.9)
Amortization of debt issuance costs	1.3	1.4	(0.1)
Capitalized interest	(0.6)	—	(0.6)
Other borrowing costs (a)	0.5	0.5	—
Total interest expense	\$16.3	\$19.9	\$ (3.6)

(a) Includes fees related to letters of credit and unused line of credit fees.

Loss on extinguishment of debt

During the six months ended June 30, 2016, we bought back an aggregate of \$40.0 million principal amount of our Senior Secured Notes for an aggregate purchase price of \$42.5 million, plus accrued interest. As a result of these purchases, we recognized a loss on the extinguishment of debt of \$3.3 million, which includes a premium of \$2.5 million and the write-off of \$0.8 million of unamortized debt issuance costs.

Gain on sale of investment in joint venture

In April 2015, we sold our 50% share of the Dowa Joint Venture to Dowa Co. for \$8.0 million. During the six months ended June 30, 2015, we recognized a gain of \$6.3 million and related tax expense of \$1.5 million on the sale.

Provision for income taxes

The provision for income taxes decreased by \$1.1 million, due to a decrease in income before provision for income taxes and equity income, the components of which are discussed elsewhere in this report. The effective income tax rate increased to 35.2%, from 33.2% in prior year, resulting from a decrease in the utilization of foreign tax credits due to the 2015 sale of our investment in joint venture and a slight decrease in the domestic manufacturing deduction.

(a) Amounts exclude quantity of unprocessed metal sold.

(b) Amounts represent intercompany eliminations.

N/M - not meaningful

See Note 3, "Segment Information," of our unaudited consolidated financial statements, which are included elsewhere in this report, for a reconciliation of adjusted EBITDA of segments to income before provision for income taxes and equity income.

Olin Brass

Net sales decreased by \$85.7 million as the metal cost recovery component decreased by \$78.1 million due to decreased metal prices (\$72.4 million) and decreased volumes (\$5.7 million). Adjusted sales decreased by \$7.6 million due to decreased volumes (\$5.3 million) resulting from the production outage. Also, unfavorable product mix changes contributed \$2.3 million to the decrease as volumes were more concentrated in munitions and less in coinage. We expect a significant portion of the volumes lost in the second quarter of 2016 due to the production outage to be shifted into the second half of the year.

Adjusted EBITDA decreased by \$5.9 million primarily due to the impact of the previously discussed production outage, decreased volumes and the unfavorable changes in product mix noted above. These were partially offset by decreased selling, general and administrative expenses.

Table of Contents

Chase Brass

Net sales decreased by \$41.1 million as the metal cost recovery component declined by \$37.7 million due to lower metal prices (\$42.0 million), partially ameliorated by increased volumes (\$4.3 million). Adjusted sales decreased by \$3.4 million, which was the result of decreased pricing (\$4.8 million) and improved volumes (\$1.4 million). Pricing decreased both as a result of unfavorable product mix fluctuations, as well as in response to competition in the market. Volumes increased in the building and housing market and decreased in the transportation and industrial machinery and equipment markets, all due to underlying demand.

Adjusted EBITDA decreased by \$1.3 million predominantly due to the decreased pricing, partially ameliorated by a variety of other factors.

A.J. Oster

Net sales decreased by \$14.6 million, as the metal cost recovery component declined by \$20.0 million due to lower metal prices (\$22.2 million), somewhat mitigated by increased volumes (\$2.2 million). Adjusted sales increased by \$5.4 million due to the impact of increased selling prices (\$3.8 million) and increased volume (\$1.6 million). A.J. Oster continues to pass on certain price increases from its sister company Olin Brass. Both entities are focusing on pricing their products in order to earn a return that better reflects the complexity of the products being produced and the assets used to produce them.

Volumes increased primarily due to increased demand in the electronics / electrical components markets.

Adjusted EBITDA increased by \$1.5 million, due to the impact of increased selling prices, which were partially offset by increased pricing from Olin Brass.

Changes in Financial Condition

The following discussion presents an analysis of fluctuations in certain asset, liability and equity components of our consolidated balance sheet as of June 30, 2016 as compared to the amounts as of December 31, 2015. This discussion should be read in conjunction with the accompanying unaudited consolidated financial statements and the notes thereto.

June 30, 2016 compared to December 31, 2015

Cash decreased by \$24.6 million due to our Senior Secured Notes buybacks during the first half of 2016 and other factors as detailed in our consolidated statement of cash flows for the six months ended June 30, 2016.

Accounts receivable increased by \$18.4 million due to increased volumes.

Accounts payable increased by \$16.4 million due to an increase in days payable outstanding.

Accrued liabilities decreased by \$19.5 million as annual incentive compensation awards were paid in the first half of the year and additionally, certain workers' compensation liabilities were reclassified to noncurrent liabilities as of June 30, 2016.

Our non-current portion of debt decreased by \$39.0 million, reflective of our buying back \$40.0 million of principal amount of Senior Secured Notes.

Liquidity and Capital Resources

Sources and Uses of Cash

Our primary uses of cash are to fund working capital, operating expenses, debt service and capital expenditures.

Historically, our primary sources of short-term liquidity have been cash flow from operations and borrowings under our ABL Facility. Holdings derives all of its cash flow from its subsidiaries, including GBC, and receives dividends, distributions and other payments from them to generate the funds necessary to meet its financial obligations.

However, Holdings is a holding company with no operations, no employees and no assets other than its investment in GBC. All of our operations are conducted at GBC and its subsidiaries. GBC is also the primary obligor on our indebtedness, and Holdings has no indebtedness other than its guarantee of GBC's indebtedness.

Table of Contents

As of June 30, 2016, our debt facilities consisted of our senior secured notes and an asset-based revolving credit facility, both of which were refinanced subsequent to June 30, 2016.

We entered into the 2016 ABL Credit Agreement and the Term Loan B Credit Agreement (together, the “Credit Agreements”) on July 18, 2016, which contain various customary covenants that limit or prohibit our ability, among other things, to (i) incur or guarantee additional indebtedness; (ii) pay certain dividends on our capital stock or redeem, repurchase, retire or make distributions in respect of our capital stock or subordinated indebtedness or make certain other restricted payments; (iii) make certain loans, acquisitions, capital expenditures or investments; (iv) sell certain assets, including stock of our subsidiaries; (v) enter into certain sale and leaseback transactions; (vi) create or incur certain liens; (vii) consolidate, merge, sell, transfer or otherwise dispose of all or substantially all of our assets; (viii) enter into certain transactions with our affiliates; and (ix) engage in certain business activities.

We do not believe that the restrictions on dividends and distributions to Holdings and its equityholders imposed by the terms of our debt agreements have any impact on our liquidity, financial condition or results of operations. We believe that these resources will be sufficient to meet our working capital and debt service needs for the foreseeable future, including costs that we may incur in connection with our growth strategy.

Cash Flows

The following table presents the summary components of net cash provided by (used in) operating, investing and financing activities for the periods indicated. The following discussion presents an analysis of cash flows for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015 and should be read in conjunction with our consolidated statements of cash flows in our unaudited consolidated financial statements included elsewhere in this report.

Cash Flow Analysis	Six Months		Change: 2016 vs. 2015
	Ended June 30,		
(in millions)	2016	2015	Amount
Cash flows provided by operating activities	\$35.2	\$35.7	\$ (0.5)
Cash flows (used in) provided by investing activities	\$(14.3)	\$0.4	\$ (14.7)
Cash flows used in financing activities	\$(45.2)	\$(2.4)	\$ (42.8)

Cash flows from operating activities

Net cash provided by operating activities decreased by \$0.5 million, as the result of incentive compensation payments and increased days sales outstanding due to the timing of sales and payments. These unfavorable fluctuations were offset by an increase in cash generated from earnings and improved inventory management.

Cash flows from investing activities

Our cash flows from investing activities decreased by \$14.7 million due to increased capital spending and due to the absence of the prior year benefit of \$8.0 million in proceeds for the sale of our investment in the Dowa Joint Venture.

Cash flows from financing activities

Net cash used in financing activities increased by \$42.8 million, as we used \$42.5 million of cash to buy back our Senior Secured Notes in the open market.

Outstanding Indebtedness

As described in Note 7, “Financing,” we made some open market purchases of our Senior Secured Notes, and on July 18, 2016, we refinanced our outstanding debt as of June 30, 2016.

The ABL Facility and the Indenture contained various covenants to which we are subject to on an ongoing basis. At June 30, 2016, we were in compliance with all of these covenants.

For additional information regarding our ABL Facility, the Indenture governing the Senior Secured Notes and our capital lease obligations, see Note 7, “Financing,” to our unaudited consolidated financial statements, which are included elsewhere in this report, and our Annual Report on Form 10-K filed with the SEC on March 9, 2016 under

Table of Contents

the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources.” Additionally, see Note 7, “Financing,” for additional information regarding our refinancing that was completed on July 18, 2016.

Debt Purchase Authorization

Our Board of Directors authorized the purchase, subject to market conditions and other factors, of up to \$150 million of our Senior Secured Notes in the open market or privately negotiated transactions. We purchased \$40.0 million (\$42.5 million including premium) in the first half of 2016 of our Senior Secured Notes in the open market prior to redeeming all of the remaining Senior Secured Notes on July 18, 2016. See Note 7, “Financing,” for additional information regarding the redemption of the remaining Senior Secured Notes.

Recently Issued and Recently Adopted Accounting Pronouncements

For information on recently issued and recently adopted accounting pronouncements, see the notes to our unaudited consolidated financial statements, which are included elsewhere in this report.

Table of Contents

Item 3. Quantitative and Qualitative Disclosure about Market Risk

There is no material change in the information reported under Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” contained in our Annual Report on Form 10-K filed with the SEC on March 9, 2016.

For information regarding derivative contracts that the Company uses to limit its exposure to fluctuations in commodity prices, thereby exposing itself to credit risk and market risk, see the notes to our unaudited consolidated financial statements, which are included elsewhere in this report.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

Under applicable SEC regulations, management of a reporting company, with the participation of the principal executive officer and principal financial officer, must periodically evaluate the Company’s “disclosure controls and procedures,” which are defined generally as controls and other procedures of a reporting company designed to ensure that information required to be disclosed by the reporting company in its periodic reports filed with the SEC (such as this Form 10-Q) is i) recorded, processed, summarized, and reported on a timely basis, and ii) accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

The Company’s management, with the participation of the Chief Executive Officer and the Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the disclosure controls and procedures as of June 30, 2016. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost benefit relationship of possible controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2016, the design and operation of our disclosure controls and procedures were effective to provide reasonable assurance that the desired control objectives were achieved.

(b) Changes in internal controls

There was no change in our internal control over financial reporting that occurred during the quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are currently, and from time to time, involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business, none of which management currently believes are, or will be, material to our business. For a discussion of risks related to various legal proceedings and claims, see the risk factors described in our Annual Report on Form 10-K filed with the SEC on March 9, 2016.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K under “Item 1A — Risk Factors” filed with the SEC on March 9, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Sales of Unregistered Securities

None.

Purchases of Equity Securities

Period	Issuer Purchases of Equity Securities			Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased As Part of Publicly Announced Plans or Programs	
April 1, 2016 through April 30, 2016	9,820	\$ 25.20	*	*
May 1, 2016 through May 31, 2016	5,091	\$ 26.66	*	*
June 1, 2016 through June 30, 2016	—	\$ —	*	*
Total	14,911	\$ 25.70	*	*

*These amounts are not applicable as we do not have a share repurchase program in effect.

Common stock purchased during the three months ended June 30, 2016 represented shares which were surrendered (1) to the Company by participants under share-based compensation plans to satisfy tax withholding obligations relating to the vesting of equity awards.

Limitations Upon the Payment of Dividends

Both the ABL Facility and the Indenture governing the 9.50% Senior Secured Notes due 2019 contain restrictions as to the payment of dividends. See Note 11, “Financing,” of our audited consolidated financial statements in our Annual Report on Form 10-K filed with the SEC on March 9, 2016 for further discussion of these restrictive covenants.

Additionally, we entered into new agreements governing the 2016 ABL Facility and the Term Loan on July 18, 2016, which both contain restrictions as to the payment of dividends. As of July 18, 2016, we no longer have any Senior Secured Notes outstanding. See Note 7, “Financing,” for further discussion of these restrictive covenants.

Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.
