Pricing Supplement

(To Prospectus dated April 27, 2017

and Prospectus Supplement dated April 27, 2017)

\$300,000,000

UDR, Inc.

Medium-Term Notes, Series A

Due Nine Months or More From Date of Issue, Fully and Unconditionally Guaranteed by

United Dominion Realty, L.P.

The notes will bear interest at a rate of 3.500% per year. We will pay interest on the notes on January 15 and July 15 of each year. The first interest payment will be made on July 15, 2018. The notes will mature on January 15, 2028 unless redeemed prior to that date.

The notes will be our senior indebtedness under our senior indenture dated November 1, 1995, as amended, supplemented or modified from time to time, which we refer to as the “indenture” and will be fully and unconditionally guaranteed by our subsidiary, United Dominion Realty, L.P., a Delaware limited partnership. The notes will not be subject to a sinking fund and will not be convertible or exchangeable into other securities.

Investing in the notes involves risks. See “Risk Factors” beginning on page S-3 of the accompanying prospectus supplement dated April 27, 2017 and on page 3 of the accompanying prospectus dated April 27, 2017.

	Per Note	Total
Public offering price(1)	99.601%	\$ 298,803,000
Underwriting discount	0.625%	\$ 1,875,000
Proceeds to us (before expenses)(1)	98.976%	\$ 296,928,000

(1) Plus accrued interest if settlement occurs after December 13, 2017.

Interest will accrue from December 13, 2017.

Edgar Filing: UDR, Inc. - Form 424B2

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this pricing supplement, the accompanying prospectus and prospectus supplement. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the notes in book-entry form only through the facilities of The Depository Trust Company and its participants, including Euroclear Bank SA/NV and Clearstream Banking S.A., against payment in New York, New York on or about December 13, 2017.

You should rely only on the information contained or incorporated by reference in this pricing supplement and the accompanying prospectus supplement and prospectus. Neither we nor any underwriter has authorized any other person to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. Neither we nor the underwriters are making an offer to sell the notes in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained or incorporated by reference in this pricing supplement and the accompanying prospectus supplement and prospectus relating to any issuance of notes, is accurate only as of the date on the front cover of the applicable document. Our business, financial condition, results of operations and prospects may have changed since that date.

PS - ii

UDR, INC.

UDR, Inc. is a self-administered real estate investment trust, or REIT, that owns, operates, acquires, renovates, develops, redevelops, disposes of and manages multifamily apartment communities nationwide. References in this pricing supplement, the accompanying prospectus supplement and prospectus to “UDR,” “we,” “us,” “our” or “the Company” are to UDR, Inc. References in this pricing supplement to “UDR LP” or “the guarantor” are to United Dominion Realty, L.P.

USE OF PROCEEDS

The net proceeds from the sale of the notes are estimated to be approximately \$296.4 million after deducting the underwriting discount and estimated offering expenses payable by us. We intend to use the net proceeds from this offering for the repayment of debt, including to partially fund the redemption of \$300 million in aggregate principal amount (plus the make-whole amount and accrued and unpaid interest) of our 4.250% senior notes due June 1, 2018, or other general corporate purposes. Pending application of the net proceeds for those purposes, we may use the net proceeds from this offering to repay currently outstanding indebtedness under our commercial paper program, our unsecured revolving credit facility and our working capital credit facility, or we may invest the net proceeds in short-term investments, including marketable securities.

Certain of the underwriters or their affiliates may hold positions in our 4.250% senior notes due June 1, 2018 or in our commercial paper. Furthermore, certain of the underwriters or their affiliates are lenders under our unsecured revolving credit facility and our working capital credit facility. Accordingly, those underwriters or affiliates may receive a portion of the net proceeds from this offering.

DESCRIPTION OF NOTES

The following description of the terms of the Medium-Term Notes, Series A Due Nine Months or More From Date of Issue, Fully and Unconditionally Guaranteed by UDR LP, referred to in this pricing supplement as the “notes,” supplements, and to the extent inconsistent replaces, the description of the general terms and provisions of debt securities contained in the accompanying prospectus supplement and prospectus. It is important for you to consider the information contained in this pricing supplement and the accompanying prospectus supplement and prospectus in making your investment decision.

General

We will issue the notes as a series of Debt Securities under an indenture, referred to in this pricing supplement as the “indenture,” dated as of November 1, 1995, as amended, supplemented or modified from time to time, with U.S. Bank National Association, successor trustee to Wachovia Bank, National Association (formerly First Union National Bank of Virginia), as trustee. The terms of the notes include those provisions contained in the indenture, the terms of which are more fully described in the accompanying prospectus supplement and prospectus and under the section entitled “— Covenants” below, and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. The notes are subject to all of these terms, and holders of notes are referred to the indenture and the Trust Indenture Act for a statement of those terms. The notes will be our direct, senior unsecured obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding. UDR LP will fully and unconditionally guarantee payment in full to the holders of the notes. All such payments are subject to the credit risk of UDR LP, as the guarantor. Reference is made to the section entitled “Description of Debt Securities” in the accompanying prospectus, “Description of Notes — Certain Covenants” in the accompanying prospectus supplement, and to “— Covenants” below for a description of the covenants applicable to the notes. We will issue each note as a book-entry note represented by one or more fully registered global securities or as a fully registered certificated note. The notes will only be issued in fully registered form in denominations of \$1,000 and integral multiples of \$1,000.

Principal and Interest

The notes will bear interest at the rate of 3.500% per year and will mature on January 15, 2028. The notes will bear interest from December 13, 2017 and interest will be payable semi-annually in arrears on January 15 and July 15 of each year, commencing on July 15, 2018 (each such date being an “interest payment date”) to the persons in whose name the notes are registered in the security register on the preceding January 1 or July 1, whether or not a business day, as the case may be (each such date being a “record date”). Interest on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date, redemption date or the maturity date falls on a day that is not a business day, the required payment will be made on the next business day as if it were made on the date the payment was due and no interest will accrue on the amount so payable for the period from and after the interest payment date, redemption date or the maturity date, as the case may be, until the next business day.

PS - 1

Guarantee

UDR LP will fully and unconditionally guarantee payment of any principal, premium and interest in respect of the notes in full to the holders thereof. The guarantee forms part of the indenture under which the notes will be issued. If, for any reason, we do not make any required payment in respect of the notes when due, UDR LP will cause the payment to be made to, or to the order of, the applicable paying agent on behalf of the trustee. Holders of the notes may enforce their rights under the guarantee directly against UDR LP without first making a demand or taking action against UDR or any other person or entity. UDR LP may, without the consent of the holders of the notes, assume all of our rights and obligations under the notes and, upon such assumption, we will be released from our liabilities under the indenture and the notes.

Covenants

The section in the accompanying prospectus entitled “Description of Debt Securities” and the section in the accompanying prospectus supplement entitled “Description of Notes — Certain Covenants” describe certain agreements we have made for the benefit of the holders of the notes. However, the covenants limiting UDR’s incurrence of debt set forth in Section 1004(a) and Section 1007 of the indenture, which are described under the heading “Description of Debt Securities — Covenants Under the Senior Indenture,” will not apply to the notes offered under this pricing supplement. Instead, the following covenants will apply to the notes, as discussed in more detail under the heading “Description of Notes — Certain Covenants” in the accompanying prospectus supplement (capitalized terms not otherwise defined will have the respective meanings assigned to them in the indenture):

“The Trust will, and will cause the Subsidiaries to, have at all times Total Unencumbered Assets of not less than 150% of the aggregate principal amount of all of the Trust’s outstanding Unsecured Debt and the outstanding Unsecured Debt of the Subsidiaries, determined on a consolidated basis in accordance with GAAP.

The Trust will not, and will not permit any Subsidiary to, incur any Debt if, immediately after giving effect to the incurrence of such additional Debt and the application of the proceeds thereof, the aggregate principal amount of all outstanding Debt of the Trust and its Subsidiaries on a consolidated basis determined in accordance with GAAP is greater than 65% of the sum of (without duplication) (i) the Trust’s Total Assets as of the end of the calendar quarter covered in the Trust’s Annual Report on Form 10-K or Quarterly Report on Form 10-Q, as the case may be, most recently filed with the Commission (or, if such filing is not permitted under the Exchange Act, with the Trustee) prior to the incurrence of such additional Debt and (ii) the purchase price of any real estate assets or mortgages receivable acquired, and the amount of any securities offering proceeds received (to the extent such proceeds were not used to acquire real estate assets or mortgages receivable or used to reduce Debt), by the Trust or any Subsidiary since the end of such calendar quarter, including those proceeds obtained in connection with the incurrence of such additional Debt.

‘Total Unencumbered Assets’ means the sum of, without duplication, those Undepreciated Real Estate Assets which are not subject to a lien securing Debt and all other assets, excluding accounts receivable and intangibles, of the Trust and the Subsidiaries not subject to a lien securing Debt, all determined on a consolidated basis in accordance with GAAP; provided, however, that all investments by the Trust and the Subsidiaries in unconsolidated joint ventures, unconsolidated limited partnerships, unconsolidated limited liability companies and other unconsolidated entities shall be excluded from Total Unencumbered Assets to the extent that such investments would have otherwise been included.”

Optional Redemption

We may redeem all or part of the notes at any time at our option at a redemption price equal to the greater of (1) the principal amount of the notes being redeemed plus accrued and unpaid interest to the redemption date or (2) the Make-Whole Amount for the notes being redeemed. If the notes are redeemed on or after October 15, 2027 (three months prior to the maturity date), the redemption price will equal 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest thereon to the redemption date.

“Make-Whole Amount” means, as determined by the Quotation Agent, the sum of the present values of the principal amount of the notes to be redeemed, together with the scheduled payments of interest (exclusive of interest to the redemption date) from the redemption date to the maturity date of the notes being redeemed, in each case discounted to the redemption date on a semi-annual basis, assuming a 360-day year consisting of twelve 30-day months, at the Adjusted Treasury Rate, plus accrued and unpaid interest on the principal amount of the notes being redeemed to the redemption date.

“Adjusted Treasury Rate” means, with respect to any redemption date, the sum of (x) either (1) the yield for the maturity corresponding to the Comparable Treasury Issue, under the heading that represents the average for the immediately preceding week, appearing in the most recent published statistical release designated “H.15” or any successor publication that is

published weekly by the Board of Governors of the Federal Reserve System and that establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption “Treasury Constant Maturities” (provided, if no maturity is within three months before or after the remaining term of the notes being redeemed, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Adjusted Treasury Rate will be interpolated or extrapolated from such yields on a straight line basis, rounded to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date, in each case calculated on the third business day preceding the redemption date, and (y) 0.200%.

“Comparable Treasury Issue” means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term from the redemption date to the maturity date of the notes being redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes being redeemed.

“Comparable Treasury Price” means, with respect to any redemption date, (x) the average of three Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations so obtained, or (y) if fewer than five Reference Treasury Dealer Quotations are so obtained, the average of all such Reference Treasury Dealer Quotations so obtained.

“Quotation Agent” means the Reference Treasury Dealer selected by the indenture trustee after consultation with UDR, Inc.

“Reference Treasury Dealer” means any of J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, a nationally recognized investment banking firm selected by U.S. Bancorp Investments, Inc. that is a primary U.S. Government securities dealer and two other nationally recognized investment banking firms selected by UDR, Inc. that are primary U.S. Government securities dealers and their respective successors and assigns.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the indenture trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the indenture trustee by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

This discussion supplements the description of the U.S. federal income tax consequences applicable to an investment in the notes under the heading “Material U.S. Federal Income Tax Consequences” beginning on page 27 of the accompanying prospectus and page S-26 of the accompanying prospectus supplement.

U.S. lawmakers are evaluating proposals for substantial changes to U.S. fiscal and tax policies, including comprehensive tax reform. A variety of tax reform proposals that would significantly impact U.S. taxation of corporations, including REITs, are under consideration. There is a substantial lack of clarity around the likelihood, timing and details of any such tax reform and the impact of any potential tax reform on us or an investment in our securities. Any such changes to the tax laws or interpretations thereof, with or without retroactive application, could materially and adversely affect us or investors in our securities. We cannot predict how changes in the tax laws might affect us or investors in our securities. New legislation, U.S. Treasury Regulations, administrative interpretations or court decisions could significantly and negatively affect our ability to continue to qualify as a REIT, or the U.S. federal income tax consequences to our stockholders and us of such qualification, or could have other adverse consequences, including with respect to ownership of our securities. For example, lower revised tax rates for corporations, or for individuals, trusts and estates, might cause current or potential stockholders to perceive investments in REITs to be relatively less attractive than is the case under current law. Investors are urged to consult their tax advisors with respect to the status of legislative, regulatory or administrative developments and proposals and their potential effect on an investment in our securities.

PLAN OF DISTRIBUTION

Subject to the terms and conditions stated in the third amended and restated distribution agreement dated September 1, 2011, as amended on July 29, 2014 and April 27, 2017, the underwriters named below have severally agreed to purchase, and we have agreed to sell to each underwriter, the respective principal amount of notes set forth opposite the underwriter’s name.

Underwriter	Principal Amount of Notes
J.P. Morgan Securities LLC	\$ 75,000,000
Merrill Lynch, Pierce, Fenner & Smith	
Incorporated	60,000,000
U.S. Bancorp Investments, Inc.	60,000,000

Total	\$ 300,000,000

The third amended and restated distribution agreement, as amended, provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

The underwriters propose to offer some of the notes directly to the public at the public offering price set forth on the cover page of this pricing supplement and some of the notes to dealers at the public offering price less a concession not to exceed 0.375% of the principal amount of the notes. The underwriters may allow, and dealers may reallow, a concession not

PS - 4

Edgar Filing: UDR, Inc. - Form 424B2

to exceed 0.250% of the principal amount of the notes on sales to other dealers. After the initial offering of the notes to the public, the underwriters may change the public offering price and concessions.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

Paid by
UDR, Inc.
Per note 0.625%

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when, in covering syndicate short positions or making stabilizing purchases, the underwriters repurchase notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses (excluding the underwriting discount) for this offering will be approximately \$500,000 and will be payable by us.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

The underwriters or their affiliates have performed investment banking and advisory services for us from time to time for which they have received customary fees and expenses. The underwriters and their affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business.

Certain of the underwriters or their affiliates may hold positions in our 4.250% senior notes due June 1, 2018 or in our commercial paper. Furthermore, certain of the underwriters or their affiliates are lenders under our unsecured revolving credit facility and our working capital credit facility. Accordingly, those underwriters or affiliates may receive a portion of the net proceeds from this offering.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

U.S. Bancorp Investments, Inc., one of the underwriters, is an affiliate of the trustee.

Associated Investment Services, Inc. (AIS), a Financial Industry Regulatory Authority member, a subsidiary of Associated Banc-Corp, is being paid a referral fee by Samuel A. Ramirez & Company, Inc.

Since trades in the secondary market generally settle in two business days, purchasers who wish to trade notes on the date hereof or the next succeeding seven business days will be required, by virtue of the fact that the notes initially will settle in T+10, to specify alternative settlement arrangements to prevent a failed settlement.

Notice to Prospective Investors in Canada

The notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 “Prospectus Exemptions” or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 “Registration Requirements, Exemptions and Ongoing Registrant Obligations.” Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this pricing supplement, the accompanying prospectus and prospectus supplement (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Canadian purchasers are hereby notified that pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (“NI 33-105”), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

By purchasing the notes in Canada and accepting delivery of a purchase confirmation, a purchaser is representing to us and the dealer from whom the purchase confirmation is received that:

- the purchaser is entitled under applicable provincial securities laws to purchase the notes without the benefit of a prospectus qualified under those securities laws as it is an “accredited investor” as defined under National Instrument 45-106 - Prospectus Exemptions,
- the purchaser is a “permitted client” as defined in National Instrument 31-103 - Registration Requirements, Exemptions and Ongoing Registrant Obligations,
- where required by law, the purchaser is purchasing as principal and not as agent, and
- the purchaser has reviewed the text above under Notice to Prospective Investors in Canada.

Notice to Prospective Investors in the European Economic Area

Neither this pricing supplement nor the accompanying prospectus supplement or prospectus is a prospectus for the purposes of the prospectus directive (as defined below). This pricing supplement and the accompanying prospectus supplement and prospectus have been prepared on the basis that all offers of the notes in any Member State of the European Economic Area which has implemented the prospectus directive (a “relevant member state”) will be made pursuant to an exemption under the prospectus directive from the requirement to produce a prospectus in connection with offers of the notes. Accordingly, any person making or intending to make any offer in that relevant member state of the notes which are the subject of the offering contemplated in this pricing supplement should only do so in circumstances in which no obligation arises for the Company, the guarantor or any underwriter to produce a prospectus pursuant to Article 3 of the prospectus directive for such offers.

In relation to each relevant member state, the notes which are the subject of the offering contemplated by this pricing supplement may not be offered to the public in that relevant member state other than:

- (a) to any legal entity which is a “qualified investor” (as defined in the prospectus directive);
- (b) to fewer than 150 natural or legal persons (other than qualified investors), as permitted by the prospectus directive, subject to obtaining the prior consent of the representatives of the underwriters for any such offer; or
- (c) in any other circumstances falling within Article 3(2) of the prospectus directive, provided that no such offer of notes shall require the Company, the guarantor or any underwriter to publish a prospectus pursuant to Article 3 of the prospectus directive or supplement a prospectus pursuant to Article 16 of the prospectus directive.

For the purposes of this provision, the expression “an offer of notes to the public” in relation to any notes in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and

PS - 6

the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that member state by any measure implementing the prospectus directive in that member state and the expression “prospectus directive” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the relevant member state.

Notice to Prospective Investors in the United Kingdom

The communication of this pricing supplement, the accompanying prospectus supplement and prospectus and any other document or materials relating to the issue of the notes offered hereby is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom’s Financial Services and Markets Act 2000, as amended (the “FSMA”). Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom who have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Financial Promotion Order”)), or within Article 49(2)(a) to (d) of the Financial Promotion Order, or to any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “relevant persons”). In the United Kingdom, the notes offered hereby are only available to, and any investment or investment activity to which this pricing supplement relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this pricing supplement, the accompanying prospectus supplement or prospectus or any of their contents.

The notes may only be offered (a) in compliance with all applicable provisions of the FSMA with respect to anything done in relation to the notes in, from or otherwise involving the United Kingdom and (b) where each underwriter has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of notes in circumstances in which Section 21(1) of the FSMA does not apply to the Company or the guarantor.

Notice to Prospective Investors in Hong Kong

The contents of this pricing supplement and the accompanying prospectus supplement and prospectus have not been reviewed or approved by any regulatory authority in Hong Kong. This pricing supplement and the accompanying prospectus supplement and prospectus do not constitute an offer or invitation to the public in Hong Kong to acquire the notes. Accordingly, no person may issue or have in its possession for the purpose of issue, this pricing supplement and/or the accompanying prospectus supplement or prospectus or any advertisement, invitation or document relating to the notes, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong, except (i) where the notes are only intended to be offered to “professional investors” (as such term is defined in the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (“SFO”) and the subsidiary legislation made thereunder), (ii) in circumstances which do not result in this pricing supplement and/or the accompanying prospectus supplement or prospectus being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance of Hong Kong (Cap. 32 of the Laws of Hong Kong) (“CO”), or (iii) in circumstances which do not constitute an offer or an invitation to the public for the purposes of the SFO or the CO. The offer of the notes is personal to the person to whom this pricing supplement and/or the accompanying prospectus supplement or prospectus have been delivered, and a subscription for the notes will only be accepted from such person. No person to whom a copy of this pricing supplement and/or the accompanying prospectus supplement or prospectus is issued may copy, issue or distribute this pricing supplement and/or the accompanying prospectus supplement or prospectus to any other person. You are advised to exercise caution in relation to the offer. If you are in any doubt about the contents of this pricing supplement and/or the accompanying prospectus supplement or prospectus, you should obtain independent professional advice.

Notice to Prospective Investors in Japan

The notes have not been and will not be registered for a public offering in Japan pursuant to Article 4, Paragraph 1 of the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the “FIEA”). The notes may not be offered or sold, directly or indirectly, in Japan or to or for the account or benefit of any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan or having its principal office in Japan) or to, or for the account or benefit of, others for reoffering or resale, directly or indirectly, in Japan or to or for the account or benefit of any resident of Japan, except pursuant to an exemption from the registration requirements of the FIEA and otherwise in compliance with the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan in effect at the relevant time.

PS - 7

Notice to Prospective Investors in Singapore

This pricing supplement and the accompanying prospectus supplement and prospectus have not been registered as a prospectus under the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”) by the Monetary Authority of Singapore, and the offer of the notes in Singapore is made primarily pursuant to the exemptions under Sections 274 and 275 of the SFA. Accordingly, this pricing supplement and the accompanying prospectus supplement and prospectus or any other document or material in connection with the offer or sale, or invitation for subscription or purchase of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined under Section 4A of the SFA) (an “Institutional Investor”) pursuant to Section 274 of the SFA, (ii) to an accredited investor (as defined in Section 4A of the SFA) (an “Accredited Investor”) or other relevant person (as defined in Section 275(2) of the SFA) (a “Relevant Person”) and pursuant to Section 275(1) of the SFA, or to any person pursuant to an offer referred to in Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA, or (iii) otherwise pursuant to, and in accordance with, the conditions of any other applicable exemption or provision of the SFA.

It is a condition of the offer that where the notes are subscribed for or acquired pursuant to an offer made in reliance on Section 275 of the SFA by a Relevant Person which is:

- (a) a corporation (which is not an Accredited Investor), the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an Accredited Investor; or
- (b) a trust (where the trustee is not an Accredited Investor), the sole purpose of which is to hold investments and each beneficiary of the trust is an individual who is an Accredited Investor, the shares, debentures and units of shares and debentures of that corporation and the beneficiaries’ rights and interest in that trust (howsoever described) shall not be transferred within 6 months after that corporation or that trust has subscribed for or acquired the notes except:
 - (i) to an Institutional Investor, or an Accredited Investor or other Relevant Person, or which arises from an offer referred to in Section 275(1A) of the SFA (in the case of that corporation) or Section 276(4)(i)(B) of the SFA (in the case of that trust);
 - (ii) where no consideration is or will be given for the transfer; or
 - (iii) where the transfer is by operation of law.

Notice to Prospective Investors in the United Arab Emirates

The notes have not been, and are not being, publicly offered, sold, promoted or advertised in the United Arab Emirates (including the Dubai International Financial Centre) other than in compliance with the laws of the United Arab Emirates (and the Dubai International Financial Centre) governing the issue, offering and sale of securities. Further, this pricing supplement and the accompanying prospectus supplement and prospectus do not constitute a public offer of securities in the United Arab Emirates (including the Dubai International Financial Centre) and are not intended to be a public offer. This pricing supplement and the accompanying prospectus supplement and prospectus have not been approved by or filed with the Central Bank of the United Arab Emirates, the Securities and Commodities Authority or

the Dubai Financial Services Authority.

Notice to Prospective Investors in the Dubai International Financial Centre

This pricing supplement and the accompanying prospectus supplement and prospectus relate to an Exempt Offer in accordance with the Markets Rules 2012 of the Dubai Financial Services Authority (“DFSA”). This pricing supplement and the accompanying prospectus supplement and prospectus are intended for distribution only to persons of a type specified in the Markets Rules 2012 of the DFSA. They must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this pricing supplement or the accompanying prospectus supplement or prospectus nor taken steps to verify the information set forth herein or therein and has no responsibility for this document. The securities to which this pricing supplement and the accompanying prospectus supplement or prospectus relate may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the notes offered hereby should conduct their own due diligence on the notes. If you do not understand the contents of this pricing supplement and the accompanying prospectus supplement and prospectus, you should consult an authorized financial advisor.

In relation to its use in the Dubai International Financial Centre, this pricing supplement and the accompanying prospectus supplement and prospectus are strictly private and confidential and are being distributed to a limited number of investors and must not be provided to any person other than the original recipient, and may not be reproduced or used for any

PS - 8

other purpose. The interests in the notes may not be offered or sold directly or indirectly to the public in the Dubai International Financial Centre.

LEGAL MATTERS

The validity of the notes, including the guarantee, will be passed upon for us by Jenner & Block LLP, Chicago, Illinois. Certain legal matters will be passed upon for the underwriters by Sidley Austin LLP, New York, New York.

Prospectus Supplement

(To Prospectus dated April 27, 2017)

UDR, Inc.

Medium-Term Notes, Series A

Due Nine Months or More from Date of Issue, Fully and Unconditionally Guaranteed by

United Dominion Realty, L.P.

The following terms will generally apply to the medium-term notes that we will sell from time to time using this prospectus supplement and the attached prospectus.

- Ranking as senior indebtedness under the company's senior indenture and fully and unconditionally guaranteed by our subsidiary, United Dominion Realty, L.P., a Delaware limited partnership
- Mature nine months or more from the date of issue
- May be subject to redemption at our option or repurchase at the option of the holder
- Fixed or floating interest rate. The floating interest rate formula may be based on:
 - CMT rate
 - Commercial paper rate
 - Eleventh district cost of funds rate
 - Federal funds rate
 - LIBOR
 - Prime rate
 - Treasury rate
 - Another rate or formula set forth in the applicable pricing supplement
- Fixed rate notes may bear no interest when issued at a discount from the principal amount due at maturity
- Certificated or book-entry form
- Payments in U.S. dollars or one or more foreign currencies
- Interest paid on fixed rate notes and floating rate notes will be paid on the dates specified in the pricing supplement
- Minimum denominations of \$1,000 and integral multiples of \$1,000, or other specified denominations for foreign currencies

The final terms of each note will be specified in the applicable pricing supplement which may be different from the terms described in this prospectus supplement.

Investing in the notes involves risks. See "Risk Factors" beginning on S-3 of this prospectus supplement and on page 3 of the accompanying prospectus and the risks set forth under the caption "Item 1A. Risk Factors" included in our most recent annual report on Form 10-K and other periodic filings with the Securities and Exchange Commission, or SEC, which are incorporated by reference herein.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement, the accompanying prospectus or any pricing supplement. Any representation to the contrary is a criminal offense.

Unless otherwise specified in the applicable pricing supplement, the pricing terms of the notes will be:

	Price to Public	Agents' Commission	Proceeds to Us
Per note	100.000%	0.125% - 0.750%	99.875% - 99.250%

We may sell notes to the agents referred to below as principal for resale at varying or fixed offering prices or through the agents as agent using their reasonable efforts on our behalf. We may also sell notes without the assistance of any agent.

BofA Merrill Lynch Citigroup J.P. Morgan Morgan Stanley Wells Fargo Securities

The date of this prospectus supplement is April 27, 2017.

STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, include statements about future events and expectations that constitute forward-looking statements. Such forward-looking statements include, without limitation, statements concerning property acquisitions and dispositions, development activity and capital expenditures, capital raising activities, rent growth, occupancy, and rental expense growth. Words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” and variations of such words and similar expressions are intended to identify such forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from the results of operations or plans expressed or implied by such forward-looking statements. Although we believe that the assumptions underlying such forward-looking statements are reasonable, any of the assumptions could be inaccurate, and therefore such statements may not prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved.

The following factors, among others, could cause our future results to differ materially from those expressed in the forward-looking statements:

- general economic conditions;
- unfavorable changes in apartment market and economic conditions that could adversely affect occupancy levels and rental rates;
- the failure of acquisitions to achieve anticipated results;
- possible difficulty in selling apartment communities;
- competitive factors that may limit our ability to lease apartment homes or increase or maintain rents;
 - insufficient cash flow that could affect our debt financing and create refinancing risk;
- failure to generate sufficient revenue, which could impair our debt service payments and distributions to stockholders;
- development and construction risks that may impact our profitability;
- potential damage from natural disasters, including hurricanes and other weather-related events, which could result in substantial costs to us;
 - risks from extraordinary losses for which we may not have insurance or adequate reserves;
- uninsured losses due to insurance deductibles, self-insurance retention, uninsured claims or casualties, or losses in excess of applicable coverage;
- delays in completing developments and lease-ups on schedule;
- our failure to succeed in new markets;
- changing interest rates, which could increase interest costs and affect the market price of our securities;
- potential liability for environmental contamination, which could result in substantial costs to us;
- the imposition of federal taxes if we fail to qualify as a real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code, in any taxable year;
- our internal control over financial reporting may not be considered effective which could result in a loss of investor confidence in our financial reports, and in turn have an adverse effect on our stock price; and
- changes in real estate laws, tax laws and other laws affecting our business.

Please also refer to the section entitled “Risk Factors” in our most recent Annual Report on Form 10-K and the other information that we file with the SEC from time to time and incorporate by reference herein for further information on these and other risks affecting us. See “Where You Can Find More Information.”

We caution you not to place undue reliance on forward-looking statements because our future results may differ materially from those expressed or implied by them. We do not intend to update any forward-looking statement, whether written or oral, relating to the matters discussed in this prospectus supplement and the accompanying prospectus, except as required by law.

S-iii

ABOUT THIS PROSPECTUS SUPPLEMENT

From time to time, we intend to use this prospectus supplement, the accompanying prospectus, and a related pricing supplement to offer the Medium-Term Notes, Series A, Due Nine Months or More from Date of Issue, Fully and Unconditionally Guaranteed by United Dominion Realty, L.P., which we refer to, along with the related guarantee offered under this prospectus supplement, as the “notes.” We refer to the guarantee offered under this prospectus supplement as the “guarantee.” You should read each of these documents before investing in the notes.

This prospectus supplement describes additional terms of the notes and supplements the description of our debt securities contained in the accompanying prospectus. If the information in this prospectus supplement is inconsistent with the accompanying prospectus, this prospectus supplement will supersede the information in the prospectus.

This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or the solicitation of an offer to buy the notes in any jurisdiction in which that offer or solicitation is unlawful. The distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes in some jurisdictions may be restricted by law. If you have received this prospectus supplement and the accompanying prospectus, you should find out about and observe these restrictions. Persons outside the United States who come into possession of this prospectus supplement and the accompanying prospectus must inform themselves about and observe any restrictions relating to the distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes outside of the United States. See “Plan of Distribution.”

This prospectus supplement and the accompanying prospectus are not prospectuses (and together is not a prospectus) for the purposes of the Prospectus Directive (as defined below). This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any member state of the European Economic Area (each, a “Relevant Member State”) which has implemented the Prospectus Directive will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes.

Accordingly, any person making or intending to make an offer in that Relevant Member State of any notes which are contemplated in this prospectus supplement and the accompanying prospectus may only do so in circumstances in which no obligation arises for us or any of the selling agents to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither we nor the selling agents have authorized, and neither we nor they authorize, the making of any offer of notes in circumstances in which an obligation arises for us or any selling agent to publish or supplement a prospectus for such offer. The expression “Prospectus Directive” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

The communication of this prospectus supplement and the accompanying prospectus and any other document or materials relating to the issue of notes offered hereby is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom’s Financial Services and Markets Act 2000, as amended (the “FSMA”). Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom who have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Financial Promotion Order”)), or within Article 49(2)(a) to (d) of the Financial Promotion Order, or to any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “relevant persons”). In the United Kingdom, the notes offered hereby are only available to, and any investment or investment activity to which this prospectus supplement and the accompanying prospectus and any other document or materials relating to the issue of notes offered hereby will be engaged in only

with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this prospectus supplement, the accompanying prospectus or any other document or materials relating to the issue of notes offered hereby or any of their contents.

Notes which have a maturity of less than one year may not be offered or sold other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the notes would otherwise constitute a contravention of Section 19 of the FSMA by us.

For each offering of notes, we will issue a pricing supplement which will contain additional terms of the offering and a specific description of the notes being offered. The pricing supplement also may add, update, or change information in this prospectus supplement or the accompanying prospectus, including provisions describing the calculation of interest and the method of making payments under the terms of a note. We will state in the pricing supplement the interest rate or interest rate basis or formula, issue price, any relevant index or indices or other reference asset, the maturity date, interest payment dates, redemption or repayment provisions, if any, and other relevant terms and conditions for each note at the time of issuance. The

S-1

pricing supplement also may include a discussion of any risk factors or other special additional considerations that apply to a particular type of note. The pricing supplement can be quite detailed and always should be read carefully.

Any term that is used, but not defined, in this prospectus supplement has the meaning set forth in the accompanying prospectus. Effective March 14, 2007, we changed our corporate name from United Dominion Realty Trust, Inc. to UDR, Inc. References in this prospectus supplement to “UDR,” “we,” “us,” “our” or “the company” are to UDR, Inc. References in this prospectus supplement to “UDR LP” or “the guarantor” are to United Dominion Realty, L.P.

RISK FACTORS

Investing in the notes involves risks. Before investing in the notes, you should carefully consider, among other matters, the risk factors below and information set forth under the heading “Risk Factors” in our most recent Annual Report on Form 10-K and other periodic reports, which are incorporated by reference into this prospectus supplement and the accompanying prospectus, as the same may be updated from time to time by filings under the Securities Exchange Act of 1934, as amended, or the Exchange Act, that we incorporate by reference herein.

Notes Indexed to Interest Rate, Currency or Other Indices or Formulas May Have Risks Not Associated with a Conventional Debt Security

If you invest in notes indexed, as to principal, premium, if any, and/or interest, if any, to one or more interest rate, currency or other indices or formulas, you will be subject to significant risks not associated with similar investments in a conventional fixed rate or floating rate debt security. These risks include, without limitation, fluctuation of the particular indices or formulas and the possibility that you will receive a lower, or no, amount of principal, premium or interest and at different times than you expected. We have no control over a number of factors, including economic, financial and political events, which are important in determining the existence, magnitude and longevity of these risks and their results. In addition, if an index or formula used to determine any amounts payable in respect of the notes contains a multiplier or leverage factor, the effect of any change in the particular index or formula will be magnified. In recent years, values of certain indices and formulas have been volatile and volatility in those and other indices and formulas may be expected in the future. However, past experience is not necessarily indicative of fluctuations that may occur in the future.

Redemption May Adversely Affect Your Return on the Notes

If your notes are redeemable at our option, we may choose to redeem your notes at times when prevailing interest rates are relatively low. In addition, if your notes are subject to mandatory redemption, we may be required to redeem your notes also at times when prevailing interest rates are relatively low. As a result, you may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the current interest rate on the notes being redeemed.

There May Not Be a Trading Market for Your Notes; Many Factors Affect the Trading and Market Value of Your Notes

Upon issuance, your notes will not have an established trading market. A trading market for your notes may not develop or be maintained if developed. In addition to our creditworthiness, many factors affect the trading market for, and trading value of, your notes. These factors include:

- the complexity and volatility of the index or formula applicable to your notes,
- the method of calculating the principal, premium and interest in respect of your notes,
- the time remaining to the maturity of your notes,
- the outstanding amount of notes related to your notes,
- any redemption features of your notes,
- the amount of other debt securities linked to the index or formula applicable to your notes, and
- the level, direction and volatility of market interest rates generally.

There may be a limited number of buyers when you decide to sell your notes. This may affect the price you receive for your notes or your ability to sell your notes at all. In addition, notes that are designed for specific investment objectives or strategies often experience a more limited trading market and more price volatility than those not so designed. You should not purchase any notes unless you understand and are able to bear the risk that the notes may

not be readily saleable, that the value of the notes will fluctuate over time and that these fluctuations may be significant.

S-3

Foreign Currency Notes are Subject to Exchange Rate and Exchange Control Risks

If you invest in notes that are denominated and/or payable in a currency other than U.S. dollars, referred to in this prospectus supplement as “foreign currency notes,” you will be subject to significant risks not associated with an investment in a debt security denominated and payable in U.S. dollars, including, without limitation, the possibility of material changes in the exchange rate between U.S. dollars and the applicable foreign currency and the possibility of the imposition or modification of exchange controls by the applicable governments or monetary authorities. We have no control over the factors that generally affect these risks, including economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on your foreign currency notes are determined by reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified. In recent years, exchange rates between U.S. dollars and certain currencies have been highly volatile and volatility between these currencies or with other currencies should be expected in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur in the future. Depreciation of the currency applicable to your foreign currency notes against the U.S. dollar would result in a decrease in the U.S. dollar equivalent yield of your foreign currency notes, in the U.S. dollar equivalent value of the principal and any premium payable at maturity or any earlier redemption of your foreign currency notes and, generally, in the U.S. dollar equivalent market value of your foreign currency notes.

Governmental or monetary authority exchange controls could affect exchange rates and the availability of the payment currency for your foreign currency notes on a required payment date. Even if there are no exchange controls, it is possible that the currency in which your foreign currency rates are payable will not be available on a required payment date due to circumstances beyond our control. In these cases, we will be allowed to satisfy our obligations in respect of your foreign currency notes in U.S. dollars.

Investors in the Notes Assume the Credit Risk of UDR and UDR LP in the Event that UDR Defaults on its Obligations Under the Notes; UDR’s Credit Ratings May Not Reflect All Risks of an Investment in the Notes

The notes are issued by UDR and guaranteed by UDR LP, UDR’s subsidiary. As a result, investors in the notes assume the credit risk of UDR and UDR LP in the event that UDR defaults on its obligations under the notes. This means that if UDR and UDR LP become insolvent, default or are otherwise unable to pay their obligations under the notes, you could lose some or all of your initial principal investment.

The credit ratings assigned to our medium-term note program may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or trading value of, your notes. In addition, real or anticipated changes in UDR’s credit ratings will generally affect any trading market for, or trading value of, your notes. Accordingly, you should consult your own financial and legal advisors as to the risks entailed by an investment in the notes and the suitability of investing in the notes in light of your particular circumstances.

Our Payment on the Notes Will Be Subordinated to Secured Indebtedness to the Extent of the Value of the Collateral and Effectively Subordinated to any Indebtedness of Our Non-Guarantor Subsidiaries

As described below in “Description of Notes,” the notes offered hereby will be our unsecured general obligations, and will rank equally with all of our other unsecured and unsubordinated indebtedness outstanding from time to time. As a result, our payment of amounts due on the notes will be subordinated to all of our existing and future secured obligations to the extent of the value of the collateral pledged toward any such secured obligation. Our payment of amounts due on the notes also will be effectively subordinated to all liabilities, whether secured or unsecured, of any of our non-guarantor subsidiaries because, in the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding with respect to such subsidiaries, we, as an equity holder of such subsidiaries, would not receive

distributions from such subsidiaries until claims of any creditors of such subsidiaries are satisfied.

S-4

DESCRIPTION OF NOTES

The following description of the terms of the notes supplements, and to the extent inconsistent replaces, the description of the general terms and provisions of debt securities contained in the accompanying prospectus. The pricing supplement for each offering of an issue of notes will contain the specific information and terms for that offering. The pricing supplement may also add, update or change information contained in the accompanying prospectus and this prospectus supplement. It is important for you to consider the information contained in the accompanying prospectus, this prospectus supplement and any pricing supplement in making your investment decision.

General

We will issue the notes as a series of Debt Securities under an indenture, referred to in this prospectus supplement as the “Indenture,” dated as of November 1, 1995, as amended, supplemented or modified from time to time, with U.S. Bank National Association, successor trustee to Wachovia Bank, National Association (formerly First Union National Bank of Virginia), as trustee. The Indenture is subject to, and governed by, the Trust Indenture Act of 1939, as amended. The following summary of certain provisions of the notes, including the guarantee, and the Indenture does not purport to be complete and is qualified in its entirety by reference to the actual provisions of the notes, including the guarantee, and the Indenture. Capitalized terms used but not defined in this prospectus supplement shall have the meanings given to them in the accompanying prospectus, the notes, including the guarantee, or the Indenture, as the case may be. The term “Debt Securities,” as used in this prospectus supplement, refers to all debt securities issued and issuable from time to time under the Indenture, including the notes offered by this prospectus supplement, as well as the guarantee. The following description of notes will apply to each note offered hereby unless otherwise specified in the applicable pricing supplement.

All of our Debt Securities that we have issued or will issue under the Indenture, including the notes offered hereby, will be our unsecured general obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding. UDR LP will fully and unconditionally guarantee payment in full to the holders of our Debt Securities, including the notes offered hereby. All such payments are subject to the credit risk of UDR LP, as the guarantor.

The Indenture does not limit the aggregate principal amount of Debt Securities that we may issue thereunder. Accordingly, we may issue Debt Securities from time to time in one or more series up to the aggregate initial offering price authorized by us for the particular series. We may, from time to time, without the consent of the registered holders of the notes offered hereby, issue medium-term notes that are part of the same series as the notes or other Debt Securities under the Indenture in addition to the notes offered hereby.

Unless otherwise specified in the applicable pricing supplement, notes that bear interest will either be fixed rate notes or floating rate notes, as specified in the applicable pricing supplement. We may also issue discount notes, indexed notes and amortizing notes, as specified in the applicable pricing supplement.

Each note will mature on any day nine months or more from its date of issue, referred to herein as the “stated maturity date,” as specified in the applicable pricing supplement, unless the principal thereof (or, any installment of principal thereof) becomes due and payable prior to the stated maturity date, whether, as applicable, by the declaration of acceleration of maturity, notice of redemption at our option, notice of the registered holder’s option to elect repayment or otherwise (the stated maturity date or any date prior to the stated maturity date on which the particular note becomes due and payable, as the case may be, is referred to as the “maturity date” with respect to the principal of the particular note repayable on that date).

Unless otherwise specified in the applicable pricing supplement, the notes will be denominated in, and payments of principal, premium, if any, and/or interest, if any, in respect thereof will be made in, U.S. dollars. The notes also may be denominated in, and payments of principal, premium, if any, and/or interest, if any, in respect thereof may be made in, one or more foreign currencies. Unless otherwise specified in the applicable pricing supplement, payments in respect of foreign currency notes will be made in the currency in which those foreign currency notes are denominated. See “Special Provisions Relating to Foreign Currency Notes — Payment of Principal, Premium, if any, and Interest, if any.” The currency in which a note is denominated (or, if that currency is no longer legal tender for the payment of public and private debts in the country issuing that currency which is then legal tender) is referred to as the “Specified Currency” with respect to the particular note. References to “U.S. dollars” or “\$” are to the lawful currency of the United States of America.

Unless otherwise specified in the applicable pricing supplement, you will be required to pay for your notes in the Specified Currency. At the present time, there are limited facilities in the United States for the conversion of U.S. dollars into foreign currencies and vice versa, and commercial banks do not generally offer non-U.S. dollar checking or savings account facilities in the United States. The agent from or through which a foreign currency note is purchased may be prepared to arrange for the conversion of U.S. dollars into the Specified Currency to enable you to pay for your foreign currency note, provided that you make a request to that agent on or prior to the fifth business day (as defined below) preceding the date of delivery of the particular foreign currency note, or by any other day determined by that agent. Each conversion will be made by

S-5

an agent on the terms and subject to the conditions, limitations and charges as that agent may from time to time establish in accordance with its regular foreign exchange practices. You will be required to bear all costs of exchange in respect of your foreign currency note. For more information, see “Special Provisions Relating to Foreign Currency Notes” below.

Interest rates that we offer on the notes may differ depending upon, among other factors, the aggregate principal amount of notes purchased in any single transaction. Notes with different variable terms other than interest rates may also be offered concurrently to different investors.

We may change interest rates or formulas and other terms of notes from time to time, but no change of terms will affect any note we have previously issued or as to which we have accepted an offer to purchase.

We will issue each note as a book-entry note represented by one or more fully registered global securities or as a fully registered certificated note. Unless otherwise specified in the applicable pricing supplement, the minimum denominations of each note other than a foreign currency note will be \$1,000 and integral multiples of \$1,000.

We will make payments of principal of, and premium, if any, and interest, if any, on, book-entry notes represented by global securities through the trustee to The Depository Trust Company or its successor or assigns, referred to in this prospectus supplement as the “Depository.” In the case of certificated notes, we will make payments of principal and premium, if any, due on the maturity date in immediately available funds upon presentation and surrender thereof (and, in the case of any repayment on an optional repayment date, upon submission of a duly completed election form if and as required by the provisions described below) at the office or agency maintained by us for this purpose in the Borough of Manhattan, The City of New York, currently the corporate trust office of the trustee located at 40 Broad Street, 5th Floor, New York, New York 10004. We will make payments of interest, if any, due on the maturity date of a certificated note to the person to whom payment of the principal thereof and premium, if any, thereon shall be made.

We will make payments of interest, if any, on a certificated note due on any Interest Payment Date (as defined below) other than the maturity date by check mailed to the address of the registered holder entitled thereto appearing in the security register. Notwithstanding the foregoing, we will make payments of interest, if any, due on any Interest Payment Date other than the maturity date to each registered holder of \$10,000,000 (or, if the Specified Currency is other than U.S. dollars, the equivalent thereof in the particular Specified Currency) or more in aggregate principal amount of certificated notes (whether having identical or different terms and provisions) by wire transfer of immediately available funds if the applicable registered holder has delivered appropriate wire transfer instructions in writing to the trustee not less than 15 days prior to the particular Interest Payment Date. Any wire transfer instructions received by the trustee shall remain in effect until revoked by the applicable registered holder. For special payment terms applicable to foreign currency notes, see “Special Provisions Relating to Foreign Currency Notes — Payment of Principal, Premium, if any, and Interest, if any.”

The term “business day” means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banking institutions are authorized or required by law, regulation or executive order to close in The City of New York; provided, however, that, with respect to foreign currency notes, the day must also not be a day on which commercial banking institutions are authorized or required by law, regulation or executive order to close in the Principal Financial Center (as defined below) of the country issuing the Specified Currency (or, if the Specified Currency is Euro, the day must also be a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System is open); provided, further, that, with respect to notes as to which LIBOR is an applicable Interest Rate Basis, the day must also be a London Banking Day (as defined below).

“London Banking Day” means a day on which commercial banking institutions are open for business (including dealings in the Designated LIBOR Currency (as defined below) are transacted in the London interbank market.

“Principal Financial Center” means, as applicable:

- the capital city of the country issuing the Specified Currency; or
- the capital city of the country to which the Designated LIBOR Currency relates;

provided, however, that with respect to U.S. dollars, Australian dollars, Canadian dollars, Euros, South African rand and Swiss francs, the “Principal Financial Center” shall be The City of New York, Sydney, Toronto, London (solely in the case of the Designated LIBOR Currency), Johannesburg and Zurich, respectively.

S-6

Book-entry notes may be transferred or exchanged only through the Depository. Registration of transfer or exchange of certificated notes will be made at the office or agency maintained by us for this purpose in the Borough of Manhattan, The City of New York, currently the corporate trust office of the trustee located at 40 Broad Street, 5th Floor, New York, New York 10004. No service charge will be imposed for any such registration of transfer or exchange of notes, but we may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection therewith (other than certain exchanges not involving any transfer).

The defeasance and covenant defeasance provisions contained in the Indenture shall apply to the notes.

Guarantee

On September 30, 2010, UDR LP, a Delaware limited partnership and a subsidiary of UDR, guaranteed certain outstanding securities of UDR. These guarantees, including the guarantee offered under this prospectus supplement, provide that UDR LP, as primary obligor and not merely as surety, irrevocably and unconditionally guarantees to each holder of such securities and to the trustee and their successors and assigns under the respective indenture (a) the full and punctual payment when due, whether at stated maturity, by acceleration or otherwise, of all obligations of UDR under the respective indenture whether for principal of or interest on the securities (and premium, if any), and all other monetary obligations of UDR under the respective indenture and the terms of such securities and (b) the full and punctual performance within the applicable grace periods of all other obligations of UDR under the respective indenture and the terms of such securities.

UDR LP will fully and unconditionally guarantee payment of any principal, premium and interest in respect of the notes in full to the holders thereof. The guarantee forms part of the Indenture under which the notes will be issued. If, for any reason, we do not make any required payment in respect of our notes when due, UDR LP will cause the payment to be made to or to the order of the applicable paying agent on behalf of the trustee. Holders of our notes may enforce their rights under the guarantee directly against UDR LP without first making a demand or taking action against UDR or any other person or entity. UDR LP may, without the consent of the holders of the notes, assume all of our rights and obligations under the notes and, upon such assumption, we will be released from our liabilities under the Indenture and the notes.

Redemption at Our Option; No Sinking Fund

If an initial redemption date is specified in the applicable pricing supplement, we may redeem the particular notes prior to their stated maturity date at our option on any date on or after that initial redemption date in whole or from time to time in part in increments of \$1,000 or any other integral multiple of an authorized denomination specified in the applicable pricing supplement (provided that any remaining principal amount thereof shall be at least \$1,000 or other minimum authorized denomination applicable thereto), at the applicable Redemption Price (as defined below), together with unpaid interest accrued thereon to the date of redemption. We must give written notice to registered holders of the particular notes to be redeemed at our option not more than 60 nor less than 30 calendar days prior to the date of redemption. "Redemption Price," with respect to a note, means an amount equal to the initial redemption percentage specified in the applicable pricing supplement (as adjusted by the annual redemption percentage reduction, if applicable) multiplied by the unpaid principal amount thereof to be redeemed. The initial redemption percentage, if any, applicable to a note shall decline at each anniversary of the initial redemption date by an amount equal to the applicable annual redemption percentage reduction, if any, until the Redemption Price is equal to 100% of the unpaid principal amount thereof to be redeemed. For a discussion of the redemption of discount notes, see "— Discount Notes."

The notes will not be subject to, or entitled to the benefit of, any sinking fund.

Repayment at the Option of the Holder

If one or more optional repayment dates are specified in the applicable pricing supplement, registered holders of the particular notes may require us to repay those notes prior to their stated maturity date on any optional repayment date in whole or from time to time in part in increments of \$1,000 or any other integral multiple of an authorized denomination specified in the applicable pricing supplement (provided that any remaining principal amount thereof shall be at least \$1,000 or other minimum authorized denomination applicable thereto), at a repayment price equal to 100% of the unpaid principal amount thereof to be repaid, together with unpaid interest accrued thereon to the date of repayment. A registered holder's exercise of the repayment option will be irrevocable. For a discussion of the repayment of discount notes, see " — Discount Notes."

For any note to be repaid, the trustee must receive, at its corporate trust office in the Borough of Manhattan, The City of New York, not more than 60 nor less than 30 calendar days prior to the date of repayment, the particular notes to be repaid and:

- in the case of a certificated note, the form entitled "Option to Elect Repayment" duly completed, or

S-7

- in the case of a book-entry note, repayment instructions from the applicable Beneficial Owner (as defined below) to the Depository and forwarded by the Depository.

Only the Depository may exercise the repayment option in respect of global securities representing book-entry notes. Accordingly, Beneficial Owners of global securities that desire to have all or any portion of the book-entry notes represented thereby repaid must instruct the Participant (as defined below) through which they own their interest to direct the Depository to exercise the repayment option on their behalf by forwarding the repayment instructions to the trustee as aforesaid. To ensure that these instructions are received by the trustee on a particular day, the applicable Beneficial Owner must so instruct the Participant through which it owns its interest before that Participant's deadline for accepting instructions for that day. Different firms may have different deadlines for accepting instructions from their customers. Accordingly, Beneficial Owners should consult their Participants for the respective deadlines. All instructions given to Participants from Beneficial Owners of global securities relating to the option to elect repayment shall be irrevocable. In addition, at the time repayment instructions are given, each Beneficial Owner shall cause the Participant through which it owns its interest to transfer the Beneficial Owner's interest in the global security representing the related book-entry notes, on the Depository's records, to the trustee.

If applicable, we will comply with the requirements of Section 14(e) of the Exchange Act and the rules promulgated thereunder, and any other securities laws or regulations in connection with any repayment of notes at the option of the registered holders thereof.

We may at any time purchase notes at any price or prices in the open market or otherwise. Notes so purchased by us may, at our discretion, be held, resold or surrendered to the trustee for cancellation.

Interest

Unless otherwise specified in the applicable pricing supplement, each interest-bearing note will bear interest from its date of issue at the rate per annum, in the case of a fixed rate note, or pursuant to the interest rate formula, in the case of a floating rate note, in each case as specified in the applicable pricing supplement, until the principal thereof is paid or duly provided for. We will make interest payments in respect of fixed rate notes and floating rate notes in an amount equal to the interest accrued from and including the immediately preceding Interest Payment Date in respect of which interest has been paid or duly provided for, or from and including the date of issue, if no interest has been paid or duly provided for, to but excluding the applicable Interest Payment Date or the maturity date, as the case may be (each, an "Interest Period").

Interest on fixed rate notes and floating rate notes will be payable in arrears on each Interest Payment Date and on the maturity date. The first payment of interest on any note originally issued between a Record Date (as defined below) and the related Interest Payment Date will be made on the Interest Payment Date immediately following the next succeeding Record Date to the registered holder of such date on the next succeeding Record Date. The "Record Date" shall be the fifteenth calendar day, whether or not a business day, immediately preceding the related Interest Payment Date.

Fixed Rate Notes

Interest on fixed rate notes will be payable semiannually in arrears on June 15 and December 15 of each year or on any other date(s) specified in the applicable pricing supplement (each, an "Interest Payment Date" with respect to fixed rate notes) and on the maturity date. Each payment of interest on an Interest Payment Date will include interest accrued to but excluding such Interest Payment Date. Interest on fixed rate notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any Interest Payment Date or the maturity date of a fixed rate note falls on a day that is not a business day, we will make the required payment of principal, premium, if any, and/or interest on the next succeeding business day with the same force and effect as if made on the date such payment was due, and no additional interest will accrue on such payment from and after such Interest Payment Date or the maturity date, as the case may be.

Floating Rate Notes

Interest on floating rate notes will be determined by reference to the applicable Interest Rate Basis or Interest Rate Bases, which may, as described below, include:

- the CMT Rate,
- the Commercial Paper Rate,

S-8

- the Eleventh District Cost of Funds Rate,
 - the Federal Funds Rate,
 - LIBOR,
 - the Prime Rate,
 - the Treasury Rate, or
 - any other Interest Rate Basis or interest rate formula as may be specified in the applicable pricing supplement.
- The applicable pricing supplement will specify certain terms of the floating rate notes being offered thereby, as described below, including:

- whether the Floating Rate Note is:
 - a “Regular Floating Rate Note,”
 - a “Floating Rate/ Fixed Rate Note” or
 - an “Inverse Floating Rate Note,”
 - the fixed rate commencement date, if applicable,
- Fixed Interest Rate, if applicable,
- Interest Rate Basis or Bases,
- Initial Interest Rate, if any,
- Interest Reset Dates,
- Interest Payment Dates,
- Index Maturity,
- Maximum Interest Rate and/or Minimum Interest Rate, if any,
- Spread and Spread Multiplier, if any, or
- if one or more of the applicable Interest Rate Bases is LIBOR or the CMT Rate, the Designated LIBOR Currency and LIBOR Page or the applicable CMT Telerate Page.

Unless otherwise specified in the applicable pricing supplement, the interest rate derived from the applicable Interest Rate Basis will be determined in accordance with the applicable provisions below. The interest rate in effect on each day will be:

- if that day is an Interest Reset Date (as defined below), the rate determined as of the Interest Determination Date (as defined below) immediately preceding that Interest Reset Date, or
 - if that day is not an Interest Reset Date, the rate determined as of the Interest Determination Date immediately preceding the most recent Interest Reset Date;
- provided, however, that the interest rate in effect for the period, if any, from the date of issue to the first Interest Reset Date will be the “Initial Interest Rate.”

The “Spread” is the number of basis points to be added to or subtracted from the related Interest Rate Basis or Bases applicable to a floating rate note. The “Spread Multiplier” is the percentage of the related Interest Rate Basis or Bases applicable to a floating rate note by which the Interest Rate Basis or Bases will be multiplied to determine the applicable interest rate of such floating rate note. The “Index Maturity” is the period to maturity of the instrument or obligation with respect to which the related Interest Rate Basis or Bases will be calculated.

Regular Floating Rate Notes. Unless a floating rate note is designated as a “floating rate/fixed rate note,” or an “inverse floating rate note,” or as having an Addendum attached or having Other/Additional Provisions apply, in each case relating to a different interest rate formula, the particular floating rate note will be designated as a “regular floating rate note” and will bear interest at the rate determined by reference to the applicable Interest Rate Basis or Bases:

- plus or minus the applicable Spread, and/or
- multiplied by the applicable Spread Multiplier.

Commencing on the first Interest Reset Date, the rate at which interest on a regular floating rate note is payable will be reset as of each Interest Reset Date; provided, however, that the interest rate in effect for the period, if any, from the date of issue to the first Interest Reset Date will be the initial interest rate (the “Initial Interest Rate”).

Floating Rate/Fixed Rate Notes. If a floating rate note is designated as a “floating rate/fixed rate note,” the particular floating rate note will bear interest at the rate determined by reference to the applicable Interest Rate Basis or Bases:

- plus or minus the applicable Spread, and/or
- multiplied by the applicable Spread Multiplier.

Commencing on the first Interest Reset Date, the rate at which interest on a floating rate/fixed rate note is payable will be reset as of each Interest Reset Date; provided, however, that:

- the interest rate in effect for the period, if any, from the date of issue to the first Interest Reset Date will be the Initial Interest Rate, and
- the interest rate in effect for the period commencing on the fixed rate commencement date to the maturity date will be the “Fixed Interest Rate,” if specified in the applicable pricing supplement, or, if not so specified, the interest rate in effect on the day immediately preceding the fixed rate commencement Date.

Inverse Floating Rate Notes. If a floating rate note is designated as an “inverse floating rate note,” the particular floating rate note will bear interest at the Fixed Interest Rate minus the rate determined by reference to the applicable Interest Rate Basis or Bases:

- plus or minus the applicable Spread, and/or
- multiplied by the applicable Spread Multiplier;

provided, however, that the interest rate on an inverse floating rate note will not be less than zero. Commencing on the first Interest Reset Date, the rate at which interest on an inverse floating rate note is payable will be reset as of each Interest Reset Date; and provided, further, that the interest rate in effect for the period, if any, from the date of issue to the first Interest Reset Date will be the Initial Interest Rate.

Interest Reset Dates. The applicable pricing supplement will specify the dates on which the rate of interest on a floating rate note will be reset (each, an “Interest Reset Date”), and the period between Interest Reset Dates will be the “Interest Reset Period.” The Interest Reset Dates will be, in the case of floating rate notes which reset:

- daily- each business day,
- weekly- the Wednesday of each week, with the exception of weekly reset floating rate notes as to which the Treasury Rate is an applicable Interest Rate Basis, which will reset the Tuesday of each week, except as described below under “- Interest Determination Dates,”
- monthly- the third Wednesday of each month, with the exception of monthly reset floating rate notes as to which the Eleventh District Cost of Funds Rate is an applicable Interest Rate Basis, which will reset on the first calendar day of the month,
- quarterly- the third Wednesday of March, June, September and December of each year,
- semiannually- the third Wednesday of the two months of each year specified in the applicable pricing supplement, and

S-10

- annually- the third Wednesday of the month of each year specified in the applicable pricing supplement,
- provided however, that, with respect to floating rate/fixed rate notes, the rate of interest thereon will not reset after the particular fixed rate commencement date.

If any Interest Reset Date for any floating rate note would otherwise be a day that is not a business day, the particular Interest Reset Date will be postponed to the next succeeding business day, except that in the case of a floating rate note as to which LIBOR is an applicable Interest Rate Basis and that business day falls in the next succeeding calendar month, the particular Interest Reset Date will be the immediately preceding business day. In addition, in the case of a floating rate note as to which the Treasury Rate is an applicable Interest Rate Basis, if the Interest Determination Date would otherwise fall on an Interest Reset Date, the particular Interest Reset Date will be postponed to the next succeeding business day.

Interest Determination Dates. Unless otherwise specified in the applicable pricing supplement, the interest rate applicable to an Interest Reset Period commencing on the related Interest Reset Date will be determined by reference to the applicable Interest Rate Basis as of the particular “Interest Determination Date,” which will be:

- with respect to the Federal Funds Rate and the Prime Rate- the business day immediately preceding the related Interest Reset Date,
- with respect to the CMT Rate and the Commercial Paper Rate- the second business day preceding the applicable Interest Reset Date,
- with respect to the Eleventh District Cost of Funds Rate- the last working day of the month immediately preceding the applicable Interest Reset Date on which the Federal Home Loan Bank of San Francisco publishes the Index (as defined below),
- with respect to LIBOR- the second London Banking Day preceding the applicable Interest Reset Date unless the Designated LIBOR currency is British pounds sterling, in which case the Interest Determination Date will be the applicable Interest Reset Date, and
- with respect to the Treasury Rate- the day in the week in which the applicable Interest Reset Date falls on which day Treasury Bills (as defined below) are normally auctioned (i.e., Treasury Bills are normally sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is normally held on the following Tuesday, except that the auction may be held on the preceding Friday); provided, however, that if an auction is held on the Friday of the week preceding the applicable Interest Reset Date, the Interest Determination Date will be the preceding Friday.

The Interest Determination Date pertaining to a floating rate note the interest rate of which is determined with reference to two or more Interest Rate Bases will be the latest business day which is at least two business days before the related Interest Reset Date for the applicable floating rate note on which each Interest Reset Basis is determinable. Each Interest Rate Basis will be determined on the Interest Determination Date, and the applicable interest rate will take effect on the related Interest Reset Date.

Calculation Dates. Unless otherwise specified in the applicable pricing supplement, U.S. Bank National Association will be the “Calculation Agent.” The interest rate applicable to each Interest Reset Period will be determined by the Calculation Agent on or prior to the Calculation Date (as defined below), except with respect to LIBOR and the Eleventh District Cost of Funds Rate, which will be determined on the particular Interest Determination Date. Upon request of the registered holder of a floating rate note, the Calculation Agent will disclose the interest rate then in effect and, if determined, the interest rate that will become effective as a result of a determination made for the next succeeding Interest Reset Date with respect to the particular floating rate note. Unless otherwise specified in the applicable pricing supplement, the “Calculation Date,” if applicable, pertaining to any Interest Determination Date will be the earlier of:

- the tenth calendar day after the particular Interest Determination Date or, if such day is not a business day, the next succeeding business day, or

- the business day immediately preceding the applicable Interest Payment Date or the maturity date, as the case may be.

S-11

Maximum and Minimum Interest Rates. A floating rate note may also have either or both of the following:

- a maximum numerical limitation, or ceiling, on the per annum rate of interest in effect with respect to such note that may accrue during any Interest Reset Period (a “Maximum Interest Rate”), and
- a minimum numerical limitation, or floor, on the per annum rate of interest in effect with respect to such note that may accrue during any Interest Reset Period (a “Minimum Interest Rate”).

In addition to any Maximum Interest Rate that may apply to a floating rate note, the interest rate on floating rate notes will in no event be higher than the maximum rate permitted by New York law, as the same may be modified by United States law of general application and the interest rate on the floating rate notes will in no event be lower than zero.

Interest Payments. The applicable pricing supplement will specify the dates on which interest on floating rate notes is payable (each, an “Interest Payment Date” with respect to Floating Rate Notes). The Interest Payment Dates will be, in the case of floating rate notes which reset:

- daily, weekly or monthly- the third Wednesday of each month or the third Wednesday of March, June, September and December of each year, as specified in the applicable pricing supplement,
- quarterly- the third Wednesday of March, June, September and December of each year,
- semiannually- the third Wednesday of the two months of each year specified in the applicable pricing supplement, and
- annually- the third Wednesday of the month of each year specified in the applicable pricing supplement.

In addition, the maturity date will also be an Interest Payment Date.

If any Interest Payment Date other than the maturity date for any floating rate note would otherwise be a day that is not a business day, such Interest Payment Date will be postponed to the next succeeding business day, except that in the case of a floating rate note as to which LIBOR is an applicable Interest Rate Basis and that business day falls in the next succeeding calendar month, the particular Interest Payment Date will be the immediately preceding business day. If the maturity date of a floating rate note falls on a day that is not a business day, we will make the required payment of principal, premium, if any, and interest on the next succeeding business day with the same force and effect as if made on the date that payment was due, and no additional interest will accrue on the payment for the period from and after the maturity date to the payment on that next succeeding business day.

All percentages resulting from any calculation on floating rate notes will be rounded to the nearest one hundred-thousandth of a percentage point, with five-one millionths of a percentage point rounded upwards. For example, 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655). All dollar amounts used in or resulting from any calculation on floating rate notes will be rounded, in the case of U.S. dollars, to the nearest cent or, in the case of a foreign currency, to the nearest unit (with one-half cent or unit being rounded upwards).

With respect to each floating rate note, accrued interest is calculated by multiplying its principal amount by an accrued interest factor. The accrued interest factor is computed by adding the interest factor calculated for each day in the particular Interest Period. Unless otherwise specified in the applicable pricing supplement, the interest factor for each of those days will be computed by dividing the interest rate applicable to such day by 360, in the case of floating rate notes as to which the Commercial Paper Rate, the Eleventh District Cost of Funds Rate, the Federal Funds Rate, LIBOR or the Prime Rate is an applicable Interest Rate Basis, or by the actual number of days in the year, in the case of floating rate notes as to which the CMT Rate or the Treasury Rate is an applicable Interest Rate Basis. Unless otherwise specified in the applicable pricing supplement, the interest factor for floating rate notes as to which the interest rate is calculated with reference to two or more Interest Rate Bases will be calculated in each period in the same manner as if only the applicable Interest Rate Basis specified in the applicable pricing supplement applied.

The Calculation Agent shall determine the rate derived from each Interest Rate Basis in accordance with the following provisions.

“H.15” means the weekly statistical release designated as H.15, or any successor publication, published by the Board of Governors of the Federal Reserve System.

S-12

“H.15 Daily Update” means the daily update of H.15, available through the website of the Board of Governors of the Federal Reserve System at <http://www.federalreserve.gov/releases/h15/update>, or any successor site or publication.

CMT Rate. Unless otherwise specified in the applicable pricing supplement, “CMT Rate” means:

(1) if Reuters Page FRBCMT is specified in the applicable pricing supplement:

(a) the percentage equal to the yield for United States Treasury securities at “constant maturity” having the Index Maturity specified in the applicable pricing supplement as published in H.15 under the caption “Treasury Constant Maturities,” as the yield is displayed on Reuters (or any successor service) on page FRBCMT (or any other page as may replace the specified page on that service) (“Reuters Page FRBCMT”) or, if not so displayed, on the Bloomberg service (or any successor service) on Page NDX 7 (or any other page as may replace the specified page on that service) (“Bloomberg Page NDX 7”), for the particular Interest Determination Date, or

(b) if the rate referred to in clause (a) does not so appear on Reuters Page FRBCMT or Bloomberg Page NDX 7, as the case may be, on the related Calculation Date, the percentage equal to the yield for United States Treasury securities at “constant maturity” having the particular Index Maturity and for the particular Interest Determination Date as published in H.15 under the caption “Treasury Constant Maturities,” or

(c) if the rate referred to in clause (b) does not so appear in H.15, the rate on the particular Interest Determination Date for the period of the particular Index Maturity as may then be published by either the Federal Reserve System Board of Governors or the United States Department of the Treasury that the Calculation Agent determines to be comparable to the rate which would otherwise have been published in H.15, or

(d) if the rate referred to in clause (c) is not so published on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that Interest Determination Date of three leading primary United States government securities dealers in The City of New York (which may include the Agents or their affiliates) (each, a “Reference Dealer”), selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Index Maturity, a remaining term to maturity no more than 1 year shorter than that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or

(e) if fewer than five but more than two of the prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations shall be eliminated, or

(f) if fewer than three prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Index Maturity, a remaining term to maturity closest to that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or

(g) if fewer than five but more than two prices referred to in clause (f) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations will be eliminated, or

(h) if fewer than three prices referred to in clause (f) are provided as requested, the CMT Rate in effect on the particular Interest Determination Date.

(2) if Reuters Page FEDCMT is specified in the applicable pricing supplement:

(a) the percentage equal to the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at “constant maturity” having the Index Maturity specified in the applicable pricing supplement as published in H.15 opposite the caption “Treasury Constant Maturities,” as the yield is displayed on Reuters (or any successor service) on page FEDCMT (or any other page as may replace the specified page on that service) (“Reuters Page FEDCMT”) or, if not so displayed, on the Bloomberg service (or any successor service) on Bloomberg Page NDX 7, for

S-13

the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular Interest Determination Date falls, or

(b) if the rate referred to in clause (a) does not so appear on Reuters Page FEDCMT or Bloomberg Page NDX 7, as the case may be, on the related Calculation Date, the percentage equal to the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at “constant maturity” having the particular Index Maturity and for the week or month, as applicable, preceding the particular Interest Determination Date as published in H.15 opposite the caption “Treasury Constant Maturities,” or

(c) if the rate referred to in clause (b) does not so appear in H.15 on the related Calculation Date, the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at “constant maturity” having the particular Index Maturity as otherwise announced by the Federal Reserve Bank of New York for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular Interest Determination Date falls, or

(d) if the rate referred to in clause (c) is not so published on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Index Maturity, a remaining term to maturity no more than 1 year shorter than that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or

(e) if fewer than five but more than two of the prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations shall be eliminated, or

(f) if fewer than three prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Index Maturity, a remaining term to maturity closest to that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at the time, or

(g) if fewer than five but more than two prices referred to in clause (f) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest or the lowest of the quotations will be eliminated, or

(h) if fewer than three prices referred to in clause (f) are provided as requested, the CMT Rate in effect on that Interest Determination Date.

If two United States Treasury securities with an original maturity greater than the Index Maturity specified in the applicable pricing supplement have remaining terms to maturity equally close to the particular Index Maturity, the quotes for the United States Treasury security with the shorter original remaining term to maturity will be used.

Commercial Paper Rate. Unless otherwise specified in the applicable pricing supplement, “Commercial Paper Rate” means:

- (1) the Money Market Yield, (as defined below), on the particular Interest Determination Date of the rate for commercial paper having the Index Maturity specified in the applicable pricing supplement as published in H.15 under the caption “Commercial Paper — Nonfinancial,” or
- (2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Money Market Yield of the rate on the particular Interest Determination Date for commercial paper having the particular Index Maturity as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying the applicable rate, under the caption “Commercial Paper — Nonfinancial,” or

S-14

- (3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the Money Market Yield of the arithmetic mean of the offered rates at approximately 11:00 A.M., New York City time, on that Interest Determination Date of three leading dealers of U.S. dollar commercial paper in The City of New York (which may include the Agents or their affiliates) selected by the Calculation Agent for commercial paper having the particular Index Maturity specified in the applicable pricing supplement placed for industrial issuers whose bond rating is “Aa,” or the equivalent, from a nationally recognized statistical rating organization, or
- (4) if the dealers so selected by the Calculation Agent are not quoting as mentioned in clause (3), the Commercial Paper Rate in effect on the particular Interest Determination Date.

“Money Market Yield” means a yield (expressed as a percentage) calculated in accordance with the following formula:

$$\text{Money Market Yield} = \frac{360 \times D}{360 - (D \times M)} \times 100$$

where “D” refers to the applicable per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal, and “M” refers to the actual number of days in the applicable Interest Reset Period.

Eleventh District Cost of Funds Rate. Unless otherwise specified in the applicable pricing supplement, “Eleventh District Cost of Funds Rate” means:

- (1) the rate equal to the monthly weighted average cost of funds for the calendar month immediately preceding the month in which the particular Interest Determination Date falls as set forth under the caption “11th District” on the display on Reuters (or any successor service) on page COFI/ARMS (or any other page as may replace the specified page on that service) (“Reuters Page COFI/ARMS”) or, if not so displayed, on the Bloomberg service (or any successor service) on page ALLX COF (or any other page as may replace the specified page on that service) (“Bloomberg Page ALLX COF”) as of 11:00 A.M., San Francisco time, on that Interest Determination Date, or
- (2) if the rate referred to in clause (1) does not so appear on Reuters Page COFI/ARMS or Bloomberg Page ALLX COF, as the case may be, the monthly weighted average cost of funds paid by member institutions of the Eleventh Federal Home Loan Bank District that was most recently announced (the “Index”) by the Federal Home Loan Bank of San Francisco as the cost of funds for the calendar month immediately preceding that Interest Determination Date, or
- (3) if the Federal Home Loan Bank of San Francisco fails to announce the Index on or prior to the particular Interest Determination Date for the calendar month immediately preceding that Interest Determination Date, the Eleventh District Cost of Funds Rate in effect on the particular Interest Determination Date.

Federal Funds Rate. Federal Funds Rate Notes will bear interest at the rates (calculated with reference to the Federal Funds Rate and the Spread and/or Spread Multiplier, if any) specified in such Federal Funds Rate Notes. The Federal Funds Rate will be calculated by reference to either the Federal Funds (Effective) Rate, the Federal Funds Open Rate or the Federal Funds Target Rate, as specified in the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, “Federal Funds Rate” means the rate determined by the Calculation Agent as of the applicable Interest Determination Date (a “Federal Funds Rate Interest Determination Date”) in accordance with the following provisions:

S-15

- (1) If “Federal Funds (Effective) Rate” is the specified Federal Funds Rate in the applicable note, the Federal Funds Rate as of the applicable Federal Funds Rate Interest Determination Date shall be the rate with respect to such date for United States dollar federal funds as published in H.15 opposite the caption “Federal funds (effective),” as such rate is displayed on Reuters on page FEDFUNDS1 (or any other page as may replace such page on such service) (“Reuters Page FEDFUNDS1”) under the heading “EFFECT,” or, if such rate is not so published by 3:00 P.M., New York City time, on the Calculation Date, the rate with respect to such Federal Funds Rate Interest Determination Date for United States dollar federal funds as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate, under the caption “Federal funds (effective).” If such rate does not appear on Reuters Page FEDFUNDS1 or is not yet published in H.15, H.15 Daily Update or another recognized electronic source by 3:00 P.M., New York City time, on the related Calculation Date, then the Federal Funds Rate with respect to such Federal Funds Rate Interest Determination Date shall be calculated by the Calculation Agent and will be the arithmetic mean of the rates for the last transaction in overnight United States dollar federal funds arranged by three leading brokers of U.S. dollar federal funds transactions in The City of New York (which may include the agents or their affiliates) selected by the Calculation Agent, prior to 9:00 A.M., New York City time, on the Business Day following such Federal Funds Rate Interest Determination Date; provided, however, that if the brokers so selected by the Calculation Agent are not quoting as mentioned in this sentence, the Federal Funds Rate determined as of such Federal Funds Rate Interest Determination Date will be the Federal Funds Rate in effect on such Federal Funds Rate Interest Determination Date.
- (2) If “Federal Funds Open Rate” is the specified Federal Funds Rate in the applicable note, the Federal Funds Rate as of the applicable Federal Funds Rate Interest Determination Date shall be the rate on such date under the heading “Federal Funds” for the relevant Index Maturity and opposite the caption “Open” as such rate is displayed on Reuters on page 5 (or any other page as may replace such page on such service) (“Reuters Page 5”), or, if such rate does not appear on Reuters Page 5 by 3:00 P.M., New York City time, on the Calculation Date, the Federal Funds Rate for the Federal Funds Rate Interest Determination Date will be the rate for that day displayed on FFPREBON Index page on Bloomberg L.P. (“Bloomberg”), which is the Fed Funds Opening Rate as reported by Prebon Yamane (or a successor) on Bloomberg. If such rate does not appear on Reuters Page 5 or is not displayed on FFPREBON Index page on Bloomberg or another recognized electronic source by 3:00 P.M., New York City time, on the related Calculation Date, then the Federal Funds Rate on such Federal Funds Rate Interest Determination Date shall be calculated by the Calculation Agent and will be the arithmetic mean of the rates for the last transaction in overnight United States dollar federal funds arranged by three leading brokers of United States dollar federal funds transactions in The City of New York (which may include the agents or their affiliates) selected by the Calculation Agent prior to 9:00 A.M., New York City time, on such Federal Funds Rate Interest Determination Date; provided, however, that if the brokers so selected by the Calculation Agent are not quoting as mentioned in this sentence, the Federal Funds Rate determined as of such Federal Funds Rate Interest Determination Date will be the Federal Funds Rate in effect on such Federal Funds Rate Interest Determination Date.
- (3) If “Federal Funds Target Rate” is the specified Federal Funds Rate in the applicable note, the Federal Funds Rate as of the applicable Federal Funds Rate Interest Determination Date shall be the rate on such date as displayed on the FDTR Index page on Bloomberg. If such rate does not appear on the FDTR Index page on Bloomberg by 3:00 P.M., New York City time, on the Calculation Date, the Federal Funds Rate for such Federal Funds Rate Interest Determination Date will be the rate for that day appearing on Reuters Page USFFTARGET= (or any other page as may replace such page on such service) (“Reuters Page USFFTARGET=”). If such rate does not appear on the FDTR Index page on Bloomberg or is not displayed on Reuters Page USFFTARGET= by 3:00 P.M., New York City time, on the related Calculation Date, then the Federal Funds Rate on such Federal Funds Rate Interest Determination Date shall be calculated by the Calculation Agent and will be the arithmetic mean of the rates for the last transaction in overnight United States dollar federal funds arranged by three

leading brokers of United States dollar federal funds transactions in The City of New York (which may include the agents or their affiliates) selected by the Calculation Agent prior to 9:00 A.M., New York City time, on such Federal Funds Rate Interest Determination Date.

S-16

LIBOR. Unless otherwise specified in the applicable pricing supplement, “LIBOR” means:

- (1) With respect to any Interest Determination Date relating to a floating rate note for which the interest rate is determined with reference to LIBOR (a “LIBOR Interest Determination Date”), LIBOR will be the rate for deposits in the Designated LIBOR Currency having the Index Maturity specified in such note as such rate is displayed on Reuters on page LIBOR01 (or any other page as may replace such page on such service for the purpose of displaying the London interbank rates of major banks for the Designated LIBOR Currency) (“Reuters Page LIBOR01”) as of 11:00 A.M., London time, on such LIBOR Interest Determination Date. If no such rate so appears, LIBOR on such LIBOR Interest Determination Date will be determined in accordance with the provisions described in clause (2) below.
- (2) With respect to a LIBOR Interest Determination Date on which no rate is displayed on Reuters Page LIBOR01 as specified in clause (1) above, the Calculation Agent shall request the principal London offices of each of four major reference banks (which may include affiliates of the agents) in the London interbank market, as selected by the Calculation Agent, to provide the Calculation Agent with its offered quotation for deposits in the Designated LIBOR Currency for the period of the Index Maturity specified in the applicable note, commencing on the related Interest Reset Date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on such LIBOR Interest Determination Date and in a principal amount that is representative for a single transaction in the Designated LIBOR Currency in such market at such time. If at least two such quotations are so provided, then LIBOR on such LIBOR Interest Determination Date will be the arithmetic mean calculated by the Calculation Agent of such quotations. If fewer than two such quotations are so provided, then LIBOR on such LIBOR Interest Determination Date will be the arithmetic mean calculated by the Calculation Agent of the rates quoted at approximately 11:00 A.M., in the applicable Principal Financial Center (as defined below), on such LIBOR Interest Determination Date by three major banks (which may include affiliates of the agents) in such Principal Financial Center selected by the Calculation Agent for loans in the Designated LIBOR Currency to leading European banks, having the Index Maturity specified in the applicable note and in a principal amount that is representative for a single transaction in the Designated LIBOR Currency in such market at such time; provided, however, that if the banks so selected by the Calculation Agent are not quoting as mentioned in this sentence, LIBOR determined as of such LIBOR Interest Determination Date shall be LIBOR in effect on such LIBOR Interest Determination Date.

“Designated LIBOR Currency” means the currency specified in the applicable note as to which LIBOR shall be calculated or, if no such currency is specified in the applicable note, U.S. dollars.

“Principal Financial Center” means (i) the capital city of the country issuing the specified currency or (ii) the capital city of the country to which the Designated LIBOR Currency, if applicable, relates, except, in each case, that with respect to United States dollars, Australian dollars, Canadian dollars, Euros, New Zealand dollars, South African rand and Swiss francs, the “Principal Financial Center” shall be The City of New York, Sydney, Toronto, London (solely in the case of the Designated LIBOR Currency), Wellington, Johannesburg and Zurich, respectively.

Prime Rate. Unless otherwise specified in the applicable pricing supplement, “Prime Rate” means:

- (1) the rate on the particular Interest Determination Date as published in H.15 under the caption “Bank Prime Loan,” or
- (2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying the applicable rate, under the caption “Bank Prime Loan,” or
- (3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the arithmetic mean of the rates of interest publicly announced by each bank that appears on Reuters on page USPRIME1 (or any other page as may replace such page on such service for the purpose of displaying prime rates or base lending rates of major United States banks) (“Reuters Page USPRIME1”) as the applicable bank’s prime rate or base lending rate as of 11:00 A.M., New York City time, on that Interest Determination Date, or
- (4) if fewer than four rates referred to in clause (3) are so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the arithmetic mean of the prime rates or base lending rates quoted on the basis of the actual number of days in the year divided by a 360-day year as of the close of business on that Interest Determination Date by three major banks (which may include affiliates of the Agents) in The City of New York selected by the Calculation Agent, or
- (5) if the banks so selected by the Calculation Agent are not quoting as mentioned in clause (4), the Prime Rate in effect on the particular Interest Determination Date.

Treasury Rate. Unless otherwise specified in the applicable pricing supplement, “Treasury Rate” means:

- (1) the rate from the auction held on the particular Interest Determination Date (the “Auction”) of direct obligations of the United States (“Treasury Bills”) having the Index Maturity specified in the applicable pricing supplement under the caption “INVEST RATE” on the display on Reuters (or any successor service) on page USAUCTION 10 (or any other page as may replace that page on that service) (“Reuters Page USAUCTION 10”) or page USAUCTION 11 (or any other page as may replace that page on that service) (“Reuters Page USAUCTION 11”) or, if not so displayed, on the Bloomberg service (or any successor service) on page AUCK 18 (or any other page as may replace the specified page on that service) (“Bloomberg Page AUCK 18”), or
- (2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Bond Equivalent Yield (as defined below) of the rate for the applicable Treasury Bills as

published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, under the caption “U.S. Government Securities/ Treasury Bills/ Auction High,” or

- (3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Bond Equivalent Yield of the auction rate of the applicable Treasury Bills as announced by the United States Department of the Treasury, or
- (4) if the rate referred to in clause (3) is not so announced by the United States Department of the Treasury, or if the Auction is not held, the Bond Equivalent Yield of the rate on the particular Interest Determination Date of the applicable Treasury Bills as published in H.15 under the caption “U.S. Government Securities/ Treasury Bills/ Secondary Market,” or
- (5) if the rate referred to in clause (4) not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date of the applicable Treasury Bills as published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, under the caption “U.S. Government Securities/ Treasury Bills/ Secondary Market,” or

- (6) if the rate referred to in clause (5) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the Bond Equivalent Yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 P.M., New York City time, on that Interest Determination Date, of three primary United States government securities dealers (which may include the Agents or their affiliates) selected by the Calculation Agent, for the issue of Treasury Bills with a remaining maturity closest to the Index Maturity specified in the applicable pricing supplement, or
- (7) if the dealers so selected by the Calculation Agent are not quoting as mentioned in clause (6), the Treasury Rate in effect on the particular Interest Determination Date.

“Bond Equivalent Yield” means a yield (expressed as a percentage) calculated in accordance with the following formula:

$$\text{Bond Equivalent Yield} = \frac{D \times N}{360 - (D \times M)} \times 100$$

where “D” refers to the applicable per annum rate for Treasury Bills quoted on a bank discount basis and expressed as a decimal, “N” refers to 365 or 366, as the case may be, and “M” refers to the actual number of days in the applicable Interest Reset Period.

Certain Covenants

With respect to the notes offered under this prospectus supplement and accompanying prospectus, the covenant limiting our incurrence of debt as set forth in Section 1004(a) of the Indenture and described beginning on page 15 of the accompanying prospectus under the heading “Description of Debt Securities-Covenants Under the Senior Indenture,” shall be superseded by a similar covenant that changes the limitation of our outstanding debt on a consolidated basis determined in accordance with generally accepted accounting principles from 60% to 65%. For the notes offered under this prospectus supplement and accompanying prospectus, the new covenant that replaces the covenant set forth in Section 1004(a) of the Indenture (and which is described beginning on page 13 of the accompanying prospectus) provides that we will not, and will not permit any subsidiary to, incur any Debt (as defined beginning on page 16 of the accompanying prospectus) if, immediately after giving effect to the incurrence of the additional Debt and the application of the proceeds from the Debt, the aggregate principal amount of all of our outstanding Debt on a consolidated basis determined in accordance with generally accepted accounting principles is greater than 65% of the sum of, without duplication:

- our Total Assets (as defined beginning on page 16 of the accompanying prospectus) as of the end of the calendar quarter covered in our Annual Report on Form 10-K or Quarterly Report on Form 10-Q, as the case may be, most recently filed with the Securities and Exchange Commission, or, if the filing is not permitted under the Exchange Act, with the trustee, prior to the incurrence of the additional Debt, and
- the purchase price of any real estate assets or mortgages receivable acquired, and the amount of any securities offering proceeds received, to the extent the proceeds were not used to acquire real estate assets or mortgages receivable or used to reduce Debt, by us or any subsidiary since the end of the calendar quarter, including those proceeds obtained in connection with the incurrence of the additional Debt.

In addition to the covenants discussed in the accompanying prospectus under the section entitled “Description of Debt Securities,” we are required to maintain Total Unencumbered Assets of not less than 150% of the aggregate outstanding principal amount of our Unsecured Debt. For purposes of this covenant, the following capitalized terms are defined as follows:

“Total Unencumbered Assets” means the sum of (i) those Undepreciated Real Estate Assets not subject to an encumbrance and (ii) all other assets of UDR and its Subsidiaries not subject to encumbrance determined in accordance with generally accepted accounting principles (but excluding accounts receivable and intangibles).

“Subsidiaries” or “Subsidiary” means a corporation, a limited liability company or a partnership a majority of the outstanding voting stock, limited liability company or partnership interests, as the case may be, of which is owned, directly or indirectly, by UDR or by one or more other Subsidiaries of UDR. For purposes of this definition, “voting stock” means stock having voting power for the election of directors, managing members or trustees, whether at all times or only so long as no senior class of stock has such voting power by reason of any contingency.

S-19

“Undepreciated Real Estate Assets” as of any date means the original cost plus capital improvements of real estate assets of UDR and its Subsidiaries determined in accordance with generally accepted accounting principles.

“Unsecured Debt” means debt of UDR or any Subsidiary that is not secured by any mortgage, lien, charge, pledge or security interest of any kind upon any of their properties.

Other/Additional Provisions; Addendum

Any provisions with respect to the notes, including the specification and determination of one or more Interest Rate Bases, the calculation of the interest rate applicable to a floating rate note, the Interest Payment Dates, the stated maturity date, any redemption or repayment provisions or any other term relating to the notes, may be modified and/or supplemented as specified under “Other/Additional Provisions” on the face of the applicable notes or in an addendum relating to the applicable notes, if so specified on the face of the applicable notes, and, in each case, as specified in the applicable pricing supplement.

Discount Notes

We may from time to time offer notes, that we refer to herein as “discount notes,” that have an Issue Price (as specified in the applicable pricing supplement) that is less than 100% of the principal amount thereof (i.e., par) by more than a percentage equal to the product of 0.25% and the number of full years to the stated maturity date. Discount notes may not bear any interest currently or may bear interest at a rate that is below market rates at the time of issuance. Unless otherwise specified in the applicable pricing supplement, the difference between the Issue Price of a discount note and par is referred to as the “discount.” In the event of redemption, repayment or acceleration of maturity of a discount note, the amount payable to the holder of a discount note will be equal to the sum of:

- the Issue Price (increased by any accruals of discount) and, in the event of any redemption of the applicable discount note, if applicable, multiplied by the initial redemption percentage specified in the applicable pricing supplement (as adjusted by the annual redemption percentage reduction, if applicable), and
- any unpaid interest accrued on the discount notes to the date of the redemption, repayment or acceleration of maturity, as the case may be.

Unless otherwise specified in the applicable pricing supplement, for purposes of determining the amount of discount that has accrued as of any date on which a redemption, repayment or acceleration of maturity occurs for a discount note, a discount will be accrued using a constant yield method. The constant yield will be calculated using a 30-day month, 360-day year convention, a compounding period that, except for the Initial Period (as defined below), corresponds to the shortest period between Interest Payment Dates for the applicable discount note (with ratable accruals within a compounding period), a coupon rate equal to the initial coupon rate applicable to the discount note and an assumption that the maturity of a discount note will not be accelerated. If the period from the date of issue to the first Interest Payment Date for a discount note (the “Initial Period”) is shorter than the compounding period for the discount note, a proportionate amount of the yield for an entire compounding period will be accrued. If the Initial Period is longer than the compounding period, then the period will be divided into a regular compounding period and a short period with the short period being treated as provided in the preceding sentence. The accrual of the applicable discount may differ from the accrual of original issue discount for purposes of the Internal Revenue Code, certain discount notes may not be treated as having original issue discount within the meaning of the Internal Revenue Code, and notes other than discount notes may be treated as issued with original issue discount for U.S. federal income tax purposes. See “Material U.S. Federal Income Tax Consequences.”

Indexed Notes

We may from time to time offer notes, referred to herein as “indexed notes,” with the amount of principal, premium and/or interest payable in respect thereof to be determined with reference to the price or prices of specified commodities or stocks, to the exchange rate of one or more designated currencies relative to one or more other indexed currencies or to other items, in each case as specified in the applicable pricing supplement. In certain cases, holders of indexed notes may receive a principal payment on the maturity date that is greater than or less than the principal amount of such indexed notes depending upon the relative value on the maturity date of the specified indexed item. Information as to the method for determining the amount of principal, premium, if any, and/or interest, if any, payable in respect of indexed notes, certain historical information with respect to the specified indexed item and any material U.S. tax consequences associated with an investment in indexed notes will be specified in the applicable pricing supplement.

S-20

Amortizing Notes

We may from time to time offer notes, referred to herein as “amortizing notes,” with the amount of principal thereof and interest thereon payable in installments over their terms. Unless otherwise specified in the applicable pricing supplement, interest on each amortizing note will be computed on the basis of a 360-day year of twelve 30-day months. Payments with respect to amortizing notes will be applied first to interest due and payable thereon and then to the reduction of the unpaid principal amount thereof. Further information concerning additional terms and provisions of amortizing notes will be specified in the applicable pricing supplement, including a table setting forth repayment information for such amortizing notes.

Book-Entry Notes

We have established a depository arrangement with The Depository Trust Company with respect to the book-entry notes, the terms of which are summarized below. Any additional or differing terms of the depository arrangement with respect to the book-entry notes will be described in the applicable pricing supplement.

Upon issuance, all book-entry notes of like tenor and terms up to \$500,000,000 aggregate principal amount bearing interest (if any), at the same rate or pursuant to the same formula and having the same date of issue, specified currency, Interest Payment Dates, if any, stated maturity date, redemption provisions (if any), repayment provisions (if any) and other terms, will be represented by a single global security. Each global security representing book-entry notes will be deposited with, or on behalf of, the Depository and will be registered in the name of the Depository or a nominee of the Depository. No global security may be transferred except as a whole by a nominee of the Depository to the Depository or to another nominee of the Depository, or by the Depository or another nominee of the Depository to a successor of the Depository or a nominee of a successor to the Depository.

So long as the Depository or its nominee is the registered holder of a global security, the Depository or its nominee, as the case may be, will be the sole owner of the book-entry notes represented thereby for all purposes under the Indenture. Except as otherwise provided below, the Beneficial Owners of the global security or securities representing book-entry notes will not be entitled to receive physical delivery of certificated notes and will not be considered the registered holders thereof for any purpose under the Indenture, and no global security representing book-entry notes shall be exchangeable or transferable. Accordingly, each Beneficial Owner must rely on the procedures of the Depository and, if that Beneficial Owner is not a Participant (as defined below), on the procedures of the Participant through which that Beneficial Owner owns its interest to exercise any rights of a registered holder under the Indenture. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of securities in certificated form. Such limits and laws may impair the ability to transfer beneficial interests in a global security representing book-entry notes.

Unless otherwise specified in the applicable pricing supplement, each global security representing book-entry notes will be exchangeable for certificated notes of like tenor and terms and of differing authorized denominations in a like aggregate principal amount, only if (i) the Depository notifies us that it is unwilling or unable to continue as Depository for the global securities or the Depository has ceased to be a clearing agency registered under the Exchange Act and, in any such case we fail to appoint a successor to the Depository within 90 calendar days, (ii) we, in our sole discretion, determine that the global securities shall be exchangeable for certificated notes or (iii) an Event of Default (as defined in the Indenture) has occurred and is continuing with respect to the notes under the Indenture and beneficial owners representing a majority in principal amount of the book-entry notes represented by the global securities advise the Depository to cease acting as depository for the global securities. Upon any such exchange, the certificated notes shall be registered in the names of the Beneficial Owners of the global security or securities representing book-entry notes, which names shall be provided by the Depository’s relevant Participants (as identified by the Depository) to the trustee.

The following is based on information furnished by the Depositary:

- The Depositary will act as securities depository for the book-entry notes. The book-entry notes will be issued as fully registered securities registered in the name of Cede & Co. (the Depositary's partnership nominee). One fully registered global security will be issued for each issue of book-entry notes, each in the aggregate principal amount of such issue, and will be deposited with the Depositary. If, however, the aggregate principal amount of any issue exceeds \$500,000,000, one global security will be issued with respect to each \$500,000,000 of principal amount and an additional global security will be issued with respect to any remaining principal amount of such issue.
- The Depositary is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. The Depositary holds securities that its participants ("Participants") deposit with the Depositary. The Depositary also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic

S-21

computerized book-entry changes in its Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants of the Depository ("Direct Participants") include securities brokers and dealers (including the agents), banks, trust companies, clearing corporations and certain other organizations. The Depository is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc. and the Financial Industry Regulatory Authority, Inc., or FINRA (formerly the National Association of Securities Dealers, Inc.). Access to the Depository's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The rules applicable to the Depository and its Participants are on file with the SEC.

- Purchases of book-entry notes under the Depository's system must be made by or through Direct Participants, which will receive a credit for such book-entry notes on the Depository's records. The ownership interest of each actual purchaser of each book-entry note represented by a global security ("Beneficial Owner") is in turn to be recorded on the records of Direct Participants and Indirect Participants. Beneficial Owners will not receive written confirmation from the Depository of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participants or Indirect Participants through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in a global security representing book-entry notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners of a global security representing book-entry notes will not receive certificated notes representing their ownership interests therein, except in the event that use of the book-entry system for such book-entry notes is discontinued.
- To facilitate subsequent transfers, all global securities representing book-entry notes which are deposited with, or on behalf of, the Depository are registered in the name of the Depository's nominee, Cede & Co. The deposit of global securities with, or on behalf of, the Depository and their registration in the name of Cede & Co. effect no change in beneficial ownership. The Depository has no knowledge of the actual Beneficial Owners of the global securities representing the book-entry notes; the Depository's records reflect only the identity of the Direct Participants to whose accounts such book-entry notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.
- Conveyance of notices and other communications by the Depository to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.
- Neither the Depository nor Cede & Co. will consent or vote with respect to the global securities representing the book-entry notes. Under its usual procedures, the Depository mails an Omnibus Proxy to a company as soon as possible after the applicable Record Date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the book-entry notes are credited on the applicable Record Date (identified in a listing attached to the Omnibus Proxy).
- Principal, premium, if any, and/or interest, if any, payments on the global securities representing the book-entry notes will be made in immediately available funds to the Depository. The Depository's practice is to credit Direct Participants' accounts on the applicable payment date in accordance with their respective holdings shown on the Depository's records unless the Depository has reason to believe that it will not receive payment on such date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of the Depository, the trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to the Depository is the responsibility of the company and the trustee, disbursement of such payments to Direct Participants shall be the responsibility of the Depository, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct Participants and Indirect Participants.
- If applicable, redemption notices shall be sent to Cede & Co. If less than all of the book-entry notes of like tenor and terms within an issue are being redeemed, the Depository's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

A Beneficial Owner shall give notice of any option to elect to have its book-entry notes repaid by us, through its Participant, to the trustee, and shall effect delivery of such book-entry notes by causing the Direct Participant to transfer the Participant's interest in the global security or securities representing such book-entry notes, on the

S-22

Depository's records, to the trustee. The requirement for physical delivery of book-entry notes in connection with a demand for repayment will be deemed satisfied when the ownership rights in the global security or securities representing such book-entry notes are transferred by Direct Participants on the Depository's records.

- The Depository may discontinue providing its services as securities depository with respect to the book-entry notes at any time by giving reasonable notice to us or the trustee. Under such circumstances, in the event that a successor securities depository is not obtained, certificated notes are required to be printed and delivered.
- We may decide to discontinue use of the system of book-entry transfers through the Depository (or a successor securities depository). In that event, certificated notes will be printed and delivered.
- The information in this section concerning the Depository and the Depository's system has been obtained from sources that we believe to be reliable, but neither we nor any agent takes any responsibility for the accuracy thereof.

SPECIAL PROVISIONS RELATING TO FOREIGN CURRENCY NOTES

General

Unless otherwise specified in the applicable pricing supplement, foreign currency notes will not be sold in, or to residents of, the country issuing the Specified Currency. The information set forth in this prospectus supplement is directed to prospective purchasers who are United States residents and, with respect to foreign currency notes, is by necessity incomplete. We and the agents disclaim any responsibility to advise prospective purchasers who are residents of countries other than the United States with respect to any matters that may affect the purchase, holding or receipt of payments of principal of, and premium, if any, and interest, if any, on, their foreign currency notes. These purchasers should consult their own financial and legal advisors with regard to these risks. See “Risk Factors — Foreign Currency Notes are Subject to Exchange Rate and Exchange Control Risks.”

Payment of Principal, Premium, if Any, and Interest, if Any

Unless otherwise specified in the applicable pricing supplement, we are obligated to make payments of principal of, and premium, if any, and interest, if any, on, a foreign currency note in the Specified Currency. Any amounts so payable by us in the Specified Currency will be converted by the exchange rate agent named in the applicable pricing supplement (the “Exchange Rate Agent”) into U.S. dollars for payment to the registered holders thereof unless otherwise specified in the applicable pricing supplement or a registered holder elects, in the manner described below, to receive these amounts in the Specified Currency.

Any U.S. dollar amount to be received by a registered holder of a foreign currency note will be based on the highest bid quotation in The City of New York received by the Exchange Rate Agent at approximately 11:00 A.M., New York City time, on the second business day preceding the applicable payment date from three recognized foreign exchange dealers (one of whom may be the Exchange Rate Agent) selected by the Exchange Rate Agent and approved by us for the purchase by the quoting dealer of the Specified Currency for U.S. dollars for settlement on that payment date in the aggregate amount of the Specified Currency payable to all registered holders of foreign currency notes scheduled to receive U.S. dollar payments and at which the applicable dealer commits to execute a contract. All currency exchange costs will be borne by the registered holders of foreign currency notes by deductions from any payments. If three bid quotations are not available, payments will be made in the Specified Currency.

Registered holders of foreign currency notes may elect to receive all or a specified portion of any payment of principal, premium, if any, and/or interest, if any, in the Specified Currency by submitting a written request to the trustee at its corporate trust office in The City of New York on or prior to the applicable Record Date or at least fifteen calendar days prior to the maturity date, as the case may be. This written request may be mailed or hand delivered or sent by cable, telex or other form of facsimile transmission. A holder of foreign currency notes may elect to receive all or a specified portion of all future payments in the Specified Currency and need not file a separate election for each payment. This election will remain in effect until revoked by written notice delivered to the trustee on or prior to a Record Date or at least fifteen calendar days prior to the maturity date, as the case may be. Registered holders of foreign currency notes to be held in the name of a broker or nominee should contact their broker or nominee to determine whether and how an election to receive payments in the Specified Currency may be made.

Unless otherwise specified in the applicable pricing supplement, if the Specified Currency is other than U.S. dollars, a Beneficial Owner of a global security or securities which elects to receive payments of principal, premium, if any, and/or interest, if any, in the Specified Currency must notify the Participant through which it owns its interest on or prior to the applicable Record Date or at least fifteen calendar days prior to the maturity date, as the case may be, of its election. The applicable Participant must notify the Depository of its election on or prior to the third business day after the applicable Record Date or at least twelve calendar days prior to the maturity date, as the case may be, and the

Depository will notify the trustee of that election on or prior to the fifth business day after the applicable Record Date or at least ten calendar days prior to the maturity date, as the case may be. If complete instructions are received by the Participant from the applicable Beneficial Owner and forwarded by the Participant to the Depository, and by the Depository to the trustee, on or prior to such dates, then the applicable Beneficial Owner will receive payments in the Specified Currency.

Unless otherwise specified in the applicable pricing supplement, we are obligated to make payments of the principal of, and premium, if any, and/or interest, if any, on, foreign currency notes which are to be made in U.S. dollars in the manner specified herein with respect to notes denominated in U.S. dollars. We will make payments of interest, if any, on foreign currency notes which are to be made in the Specified Currency on an Interest Payment Date other than the maturity date by check mailed to the address of the registered holders of their foreign currency notes as they appear in the security register, subject to the right to receive these interest payments by wire transfer of immediately available funds under the circumstances described under “Description of Notes — General.” We will make payments of principal of, and premium, if any, and/or interest, if any, on, foreign currency notes which are to be made in the Specified Currency on the maturity date by wire transfer

S-24

of immediately available funds to an account with a bank designated at least fifteen calendar days prior to the maturity date by the applicable registered holder, provided the particular bank has appropriate facilities to make these payments and the particular foreign currency note is presented and surrendered at the office or agency maintained by us for this purpose in the Borough of Manhattan, The City of New York, in time for the trustee to make these payments in accordance with its normal procedures.

Availability of Specified Currency

If the Specified Currency for foreign currency notes is not available for any required payment of principal, premium, if any, and/or interest, if any, due to the imposition of exchange controls or other circumstances beyond our control, we will be entitled to satisfy our obligations to the registered holders of these foreign currency notes by making payments in U.S. dollars on the basis of the Market Exchange Rate, computed by the Exchange Rate Agent, on the second business day prior to the particular payment or, if the Market Exchange Rate is not then available, on the basis of the most recently available Market Exchange Rate or as otherwise specified in the applicable pricing supplement.

The “Market Exchange Rate” for a Specified Currency other than U.S. dollars means the noon dollar buying rate in The City of New York for cable transfers for the Specified Currency as certified for customs purposes (or, if not so certified, as otherwise determined) by the Federal Reserve Bank of New York. Any payment made in U.S. dollars under such circumstances shall not constitute an Event of Default (as defined in the Indenture).

All determinations referred to above made by the Exchange Rate Agent shall be at its sole discretion and shall, in the absence of manifest error, be conclusive for all purposes and binding on the registered holders of the foreign currency notes.

Judgments

Under current New York law, a state court in the State of New York would be required to render a judgment in respect of a foreign currency note in the Specified Currency, and a judgment in the Specified Currency would be converted into U.S. dollars at the exchange rate prevailing on the date of entry of the judgment. Accordingly, registered holders of foreign currency notes would be subject to exchange rate fluctuations between the date of entry of a foreign currency judgment and the time when the amount of the foreign currency judgment is paid in U.S. dollars and converted by the applicable registered holder into the Specified Currency. We have not consented to be sued in New York state court and it is not certain whether a New York state court would otherwise have jurisdiction to enter a binding judgment against us in respect of a foreign currency note. It is also not certain whether a non-New York state court would follow the same rules and procedures with respect to conversions of foreign currency judgments.

We will indemnify the registered holder of any note against any loss incurred as a result of any judgment or order being given or made for any amount due under the particular note and that judgment or order requiring payment in a currency (the “Judgment Currency”) other than the Specified Currency, and as a result of any variation between:

- the rate of exchange at which the Specified Currency amount is converted into the Judgment Currency for the purpose of that judgment or order, and
- the rate of exchange at which the registered holder, on the date of payment of that judgment or order, is able to purchase the Specified Currency with the amount of the Judgment Currency actually received.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

This section supplements the discussion under the caption “Material U.S. Federal Income Tax Consequences” in the accompanying prospectus. The following discussion describes the material U.S. federal income tax consequences relating to the ownership and disposition of our notes. Because this is a summary that is intended to address only material U.S. federal income tax consequences generally relevant to all holders relating to the ownership and disposition of our notes, it may not contain all the information that may be important to you. Except as discussed under the captions “Taxation of UDR” and “Taxation of REITs in General” below, this discussion does not address any aspects of U.S. federal income taxation relating to our election to be taxed as a real estate investment trust. A summary of material U.S. federal income tax consequences relating to our election to be taxed as a REIT is provided in the accompanying prospectus.

We urge you to consult your tax advisor regarding the specific tax consequences to you of the acquisition, ownership, and disposition of our notes and of our election to be taxed as a REIT. Specifically, you are urged to consult your tax advisor regarding the U.S. federal, state, local, foreign, and other tax consequences of such acquisition, ownership, disposition, and election, and regarding potential changes in applicable tax laws.

Taxation of UDR

We elected to be taxed as a REIT under the U.S. federal income tax laws commencing with our taxable year ended December 31, 1972. We believe that we have been organized and operated in such a manner as to qualify for taxation as a REIT.

The law firm of Morrison & Foerster LLP has acted as our tax counsel in connection with the filing of this prospectus supplement, and we received an opinion of Kutak Rock LLP to the effect that commencing with UDR’s taxable year ended on December 31, 2012 we have been organized in conformity with the requirements for qualification and taxation as a REIT under the Internal Revenue Code, and that our actual and proposed method of operation will enable us to continue to meet the requirements for qualification and taxation as a REIT for the taxable year ending December 31, 2017 and in the future. It must be emphasized that the opinion of Kutak Rock LLP is based on various assumptions relating to our organization and operation and is conditioned upon fact-based representations and covenants made by our management regarding our organization, assets, and income, and the future conduct of our business operations. While we intend to operate so that we will qualify as a REIT, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, no assurance can be given by Kutak Rock LLP or by us that we will qualify as a REIT for any particular year. We asked Kutak Rock LLP to assume for purposes of its opinion that any prior legal opinions we received to the effect that we were taxable as a REIT are correct and the conclusions reached in the opinion of Kutak Rock LLP are expressly conditioned on the accuracy of such assumption. The opinion is expressed as of the date issued. Kutak Rock LLP has no obligation to advise us or our stockholders of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the IRS, and no assurance can be given that the IRS will not challenge the conclusions set forth in such opinions.

Qualification and taxation as a REIT depends on our ability to meet on a continuing basis, through actual operating results, distribution levels, and diversity of stock and asset ownership, various qualification requirements imposed upon REITs by the Internal Revenue Code, the compliance with which will not be reviewed by Morrison & Foerster LLP. Our ability to qualify as a REIT also requires that we satisfy certain asset tests, some of which depend upon the fair market values of assets that we own directly or indirectly. Such values may not be susceptible to a precise determination. Accordingly, no assurance can be given that the actual results of our operations for any taxable year will satisfy such requirements for qualification and taxation as a REIT.

Taxation of REITs in General

In brief, provided that we qualify as a REIT, generally we will be entitled to a deduction for dividends that we pay and therefore will not be subject to U.S. federal corporate income tax on our taxable income that is currently distributed to our stockholders. This treatment substantially eliminates the “double taxation” at the corporate and stockholder levels that generally results from investment in a corporation. In general, the income that we generate is taxed only at the stockholder level upon a distribution of dividends to our stockholders.

If we fail to qualify as a REIT in any taxable year, and the relief provisions do not apply, we would be subject to tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates. We cannot deduct distributions to stockholders in any year in which we are not a REIT, nor would we be required to make distributions in such a year. Unless we are entitled to relief under specific statutory provisions, we would also be disqualified from re-electing to be taxed as a REIT for the four taxable years following the year during which we lost qualification.

S-26

Additional information concerning the U.S. federal income tax consequences of our qualification as a REIT and the requirements of qualification and taxation as a REIT can be found in the accompanying prospectus.

Tax Consequences of an Investment in Our Notes

The following summary describes certain material U.S. federal income tax consequences relating to the purchase, ownership, and disposition of the notes as of the date hereof. This discussion does not cover every type of note that we might issue. Any additional U.S. federal income tax consequences relevant to a particular issue of the notes (for example, special considerations relevant to indexed notes, amortizing notes, notes providing for contingent payments, or notes denominated in a currency other than the U.S. dollar) will be provided in the pricing supplement for such notes. Except where noted, this summary applies only to notes held as capital assets and does not apply to special situations, such as those of dealers in securities or currencies, tax-exempt organizations, individual retirement accounts and other tax deferred accounts, financial institutions, life insurance companies, persons holding notes as a part of a hedging or conversion transaction or a straddle, or persons (other than Non-U.S. holders, as defined below) whose “functional currency” is not the U.S. dollar. This summary does not discuss the application of the alternative minimum tax to the notes. Except as otherwise indicated, this disclosure is addressed only to persons who acquire the notes at original issue and does not address the tax consequences to subsequent purchasers of the notes. The discussion below is based upon the current U.S. federal income tax laws and interpretations thereof as of the date hereof. Such authorities may be repealed, revoked, or modified, potentially on a retroactive basis, so as to result in federal income tax consequences different from those discussed below. Furthermore, except as otherwise indicated, the following summary does not consider the effect of any applicable foreign, state, local, or other tax laws or estate or gift tax considerations.

If an entity treated as a partnership for U.S. federal income tax purposes holds notes, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our notes, you are encouraged to consult your tax advisor regarding the tax consequences of the ownership and disposition of the notes.

We urge you to consult your tax advisor regarding the specific tax consequences to you of the acquisition, ownership and disposition of the notes. Specifically, you are encouraged to consult your tax advisor regarding the federal, state, local, foreign, and other tax consequences of such acquisition, ownership and disposition of the notes and regarding potential changes in applicable tax laws.

U.S. Holders

As used herein, a “U.S. holder” of a note means a beneficial owner of a note that for U.S. federal income tax purposes is:

- a citizen or resident of the United States,
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes that is created or organized in or under the laws of the United States or any political subdivision thereof,
 - an estate the income of which is subject to U.S. federal income taxation regardless of its source, or
- a trust if (a) a U.S. court is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust or (b) it has a valid election in place to be treated as a United States person.

Payments of Interest on Notes

Except as described below in the case of interest on a note issued with original issue discount, as defined below under “— U.S. Holders — Original Issue Discount,” interest paid on a note (including qualified stated interest, as defined below

under “Original Issue Discount”) generally will be taxable to a U.S. holder as interest income at the time it is received or accrued, in accordance with the U.S. holder’s regular method of accounting for tax purposes and will be ordinary income.

Original Issue Discount

U.S. holders of notes issued with original issue discount (“OID”), other than short-term notes with a maturity of one year or less from the date of issue, will be subject to special tax accounting rules, as described in greater detail below. A U.S. holder of such “OID notes” generally must include OID in gross income in advance of the receipt of cash attributable to that income, regardless of the holder’s usual method of tax accounting. However, U.S. holders of OID notes generally will not

S-27

be required to include separately in income cash payments received on the notes, even if denominated as interest, to the extent those cash payments do not constitute “qualified stated interest.”

OID generally will arise if the “stated redemption price at maturity” of a note exceeds its “issue price” by an amount equal to or greater than a specified de minimis amount, which is generally 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity. The “issue price” of each note in a particular offering will generally be the first price at which a substantial amount of that particular offering is sold to the public (ignoring sales to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers). The “stated redemption price at maturity” of a note is the sum of all payments to be made on the note other than “qualified stated interest.” The term “qualified stated interest” generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer), or that is treated as constructively received, at least annually at a single fixed rate or, under certain circumstances, at a variable rate. If a note bears interest during any accrual period at a rate below the rate applicable for the remaining term of the note (for example, notes with teaser rates or interest holidays), then some or all of the stated interest may not be treated as qualified stated interest.

U.S. holders of OID notes with a maturity of more than one year from issuance generally must include OID in income on a “constant yield” basis, regardless of their usual method of tax accounting and in advance of the receipt of some or all of the related cash payments. Accordingly, a U.S. holder may be required to include OID in income in advance of the receipt of some or all of the related cash payments. The amount of OID includible in income by the initial U.S. holder of an OID note is the sum of the “daily portions” of OID with respect to the note for each day during the taxable year or portion of the taxable year on which that U.S. holder held such note. This amount is referred to as “accrued OID.” The daily portion is determined by allocating to each day in any “accrual period” a pro rata portion of the OID allocable to that accrual period. A U.S. holder can use accrual periods of any length from one day to one year to compute accruals of OID, provided that in determining the OID allocable to an accrual period the yield to maturity is adjusted to reflect the length of that accrual period, and further provided that each scheduled payment of principal or interest occurs either on the first or the last day of an accrual period. The amount of OID allocable to any accrual period is an amount equal to the excess, if any, of:

- the product of the note’s “adjusted issue price” at the beginning of the accrual period and its yield to maturity, properly adjusting for the length of the accrual period, over
- the aggregate of all qualified stated interest payments allocable to the accrual period.

The yield to maturity of a note equals the discount rate that, when used to compute the present value of all principal and interest payments under the note, produces a present value equal to the Issue Price of the note. The “adjusted issue price” of a note at the beginning of any accrual period generally is equal to its Issue Price:

- increased by the accrued OID for each prior accrual period, determined without regard to the amortization of any acquisition or bond premium, as described below; and
- reduced by any payments made on the note, other than payments of qualified stated interest, on or before the first day of the accrual period.

Under these constant yield rules, a U.S. holder will have to include in income increasing amounts of OID in successive accrual periods.

Additional rules applicable to notes with OID that are denominated in or determined by reference to a currency other than the U.S. dollar are described under “— U.S. Holders — Non-U.S. Dollar Denominated Notes” below.

Variable Rate Notes

In the case of a note that is a variable rate note, special rules apply. In general, if a note qualifies for treatment as a “variable rate debt instrument” under Treasury Regulations and provides for stated interest that is unconditionally payable at least annually at a variable rate that, subject to certain exceptions, is a single “qualified floating rate” or “objective rate,” each as defined below, all stated interest on the note is treated as qualified stated interest. In that case, both the note’s “yield to maturity” and “qualified stated interest” will be determined, solely for purposes of calculating the accrual of OID, if any, as though the note will bear interest in all periods throughout its term at a fixed rate generally equal to the rate that would be applicable to interest payments on the note on its date of issue or, in the case of an objective rate (other than a “qualified inverse floating rate”), the rate that reflects the yield to maturity that is reasonably expected for the note. A U.S. holder of a variable rate debt instrument would then recognize OID, if any, that is calculated based on the note’s assumed yield to maturity. If the interest actually accrued or paid during an accrual period exceeds or is less than the assumed fixed interest, the qualified stated interest or OID allocable to that period is increased or decreased under rules set forth in Treasury Regulations. Special rules

S-28

apply for determining the amount of OID for other variable rate debt instruments, such as instruments with more than one qualified floating rate or instruments with a single fixed rate and one or more qualified floating rates.

A note will qualify as a variable rate debt instrument if the note's issue price does not exceed the total noncontingent principal payments by more than the lesser of: (i) .015 multiplied by the product of the total noncontingent principal payments and the number of complete years to maturity from the issue date, or (ii) 15% of the total noncontingent principal payments; and the note provides for stated interest, compounded or paid at least annually, only at one or more qualified floating rates, a single fixed rate and one or more qualified floating rates, a single objective rate, or a single fixed rate and a single objective rate that is a qualified inverse floating rate. Generally, a rate is a qualified floating rate if variations in the rate can reasonably be expected to measure contemporaneous fluctuations in the cost of newly borrowed funds in the currency in which the debt instrument is denominated. If a note provides for two or more qualified floating rates that are within 0.25 percentage points of each other on the issue date or can reasonably be expected to have approximately the same values throughout the term of the note, the qualified floating rates together constitute a single qualified floating rate. Generally, an objective rate is a rate that is determined using a single fixed formula that is based on objective financial or economic information such as one or more qualified floating rates. An objective rate is a qualified inverse floating rate if that rate is equal to a fixed rate minus a qualified floating rate and variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate.

A variable rate note generally will not qualify for treatment as a "variable rate debt instrument" if, among other circumstances:

- the variable rate of interest is subject to one or more minimum or maximum rate floors or ceilings or one or more governors limiting the amount of increase or decrease in each case which are not fixed throughout the term of the note and which are reasonably expected as of the issue date to cause the rate in some accrual periods to be significantly higher or lower than the overall expected return on the note determined without the floor, ceiling, or governor;
- in the case of certain notes, it is reasonably expected that the average value of the variable rate during the first half of the term of the note will be either significantly less than or significantly greater than the average value of the rate during the final half of the term of the note; or
- the value of the rate on any date during the term of the note is set earlier than three months prior to the first day on which that value is in effect or later than one year following that first day.

In these situations, as well as others, the note generally will be subject to taxation under rules applicable to contingent payment debt instruments. U.S. holders are urged to consult with their own tax advisors regarding the specific U.S. federal income tax consequences with respect to these notes.

Acquisition Premium

If a U.S. holder purchases an OID note for an amount greater than its adjusted issue price (as determined above) at the purchase date and less than or equal to the sum of all amounts, other than qualified stated interest, payable on the OID note after the purchase date, the excess is "acquisition premium." Under the acquisition premium rules, in general, the amount of OID which must be included in income for the note for any taxable year (or any portion of a taxable year in which the note is held) will be reduced (but not below zero) by the portion of the acquisition premium allocated to the period. The amount of acquisition premium allocated to each period is determined by multiplying the OID that otherwise would have been included in income by a fraction, the numerator of which is the excess of the cost over the adjusted issue price of the OID note and the denominator of which is the excess of the OID note's stated redemption price at maturity over its adjusted issue price.

If a U.S. holder purchases an OID note for an amount less than its adjusted issue price (as determined above) at the purchase date, any OID accruing with respect to that OID note will be required to be included in income and, to the extent of the difference between the purchase amount and the OID note's adjusted issue price, the OID note will be treated as having "market discount." See "— U.S. Holders — Market Discount" below.

Amortizable Bond Premium

If a U.S. holder purchases a note (including an OID note) for an amount in excess of the sum of all amounts payable on the note after the purchase date, other than qualified stated interest, such holder will be considered to have purchased such note with "amortizable bond premium" equal in amount to such excess. A U.S. holder may elect to amortize such premium as an offset to interest income using a constant yield method over the remaining term of the note based on the U.S. holder's yield to maturity with respect to the note.

S-29

A U.S. holder generally may use the amortizable bond premium allocable to an accrual period to offset interest required to be included in the U.S. holder's income under its regular method of accounting with respect to the note in that accrual period. If the amortizable bond premium allocable to an accrual period exceeds the amount of interest allocable to such accrual period, such excess would be allowed as a deduction for such accrual period, but only to the extent of the U.S. holder's prior interest inclusions on the note that have not been offset previously by bond premium. Any excess is generally carried forward and allocable to the next accrual period.

If a note may be redeemed by us prior to its maturity date, the amount of amortizable bond premium will be based on the amount payable at the applicable redemption date, but only if use of the redemption date (in lieu of the stated maturity date) results in a smaller amortizable bond premium for the period ending on the redemption date.

An election to amortize bond premium applies to all taxable debt obligations held by the U.S. holder at the beginning of the first taxable year to which the election applies and thereafter acquired by the U.S. holder and may be revoked only with the consent of the Internal Revenue Service. Generally, a holder may make an election to include in income its entire return on a note (i.e., the excess of all remaining payments to be received on the note over the amount paid for the note by such holder) in accordance with a constant yield method based on the compounding of interest, as discussed below under “— U.S. Holders — Election to Treat All Interest as Original Issue Discount.” If a holder makes such an election for a note with amortizable bond premium, such election will result in a deemed election to amortize bond premium for all of the holder's debt instruments with amortizable bond premium and may be revoked only with the permission of the Internal Revenue Service.

A U.S. holder that elects to amortize bond premium will be required to reduce its tax basis in the note by the amount of the premium amortized during its holding period. OID notes purchased at a premium will not be subject to the OID rules described above.

If a U.S. holder does not elect to amortize bond premium, the amount of bond premium will be included in its tax basis in the note. Therefore, if a U.S. holder does not elect to amortize bond premium and it holds the note to maturity, the premium generally will be treated as capital loss when the note matures.

Market Discount

If a U.S. holder purchases a note for an amount that is less than its stated redemption price at maturity, or, in the case of an OID note, its adjusted issue price, such holder will be considered to have purchased the note with “market discount.” Any gain on the sale, exchange, retirement, or other disposition of a note with market discount generally will be treated as ordinary interest income to the extent of the market discount not previously included in income that accrued on the note during such holder's holding period. In general, market discount is treated as accruing on a straight-line basis over the term of the note unless an election is made to accrue the market discount under a constant yield method. In addition, a U.S. holder may be required to defer, until the maturity of the note or its earlier disposition in a taxable transaction, the deduction of a portion of the interest paid or accrued on any indebtedness incurred or maintained to purchase or carry the note in an amount not exceeding the accrued market discount on the note.

A U.S. holder may elect to include market discount in income currently as it accrues (on either a straight-line or constant yield basis), in lieu of treating a portion of any gain realized on a sale, exchange, retirement, or other disposition of the note as ordinary income. If an election is made to include market discount on a current basis, the interest deduction deferral rule described above will not apply. If a U.S. holder makes such an election, it will apply to all market discount debt instruments acquired by such holder on or after the first day of the first taxable year to which the election applies. The election may not be revoked without the consent of the Internal Revenue Service. U.S. holders should consult with their own tax advisors before making this election.

If the difference between the stated redemption price at maturity of a note or, in the case of an OID note, its adjusted issue price, and the amount paid for the note is less than 0.25% of the debt instrument's stated redemption price at maturity or, in the case of an OID note, its adjusted issue price, multiplied by the number of remaining complete years to the note's maturity ("de minimis market discount"), the note is not treated as having market discount.

Generally, a holder may make an election to include in income its entire return on a note (i.e., the excess of all remaining payments to be received on the note over the amount paid for the note by such holder) in accordance with a constant yield method based on the compounding of interest, as discussed below under "— U.S. Holders — Election to Treat All Interest as Original Issue Discount." If a holder makes such an election for a note with market discount, the holder will be required to include market discount in income currently as it accrues on a constant yield basis for all market discount debt instruments acquired by such holder on or after the first day of the first taxable year to which the election applies, and such election may be revoked only with the permission of the Internal Revenue Service.

S-30

Election to Treat All Interest as Original Issue Discount

A U.S. holder may elect to include in income all interest that accrues on a note using the constant-yield method applicable to OID described above, subject to certain limitations and exceptions. For purposes of this election, interest includes stated interest, acquisition discount, OID, de minimis OID, market discount, de minimis market discount, and unstated interest, as adjusted by any amortizable bond premium or acquisition premium, each as described herein. If this election is made for a note, then, to apply the constant-yield method: (i) the issue price of the note will equal its cost, (ii) the issue date of the note will be the date it was acquired, and (iii) no payments on the note will be treated as payments of qualified stated interest. A U.S. holder must make this election for the taxable year in which the note was acquired, and may not revoke the election without the consent of the Internal Revenue Service. U.S. holders should consult with their own tax advisors before making this election. In addition, if this election is made with respect to a note having market discount, then the U.S. holder will be deemed to have made the market discount election with respect to all market discount debt instruments acquired by such holder on or after the first day of the first taxable year to which the election applies. Similarly, if this election is made with respect to a note having amortizable bond premium, then the U.S. holder will be deemed to have made the amortizable bond premium election with respect to all debt instruments having amortizable bond premium held by the U.S. holder at the beginning of the first taxable year to which the election applies and thereafter acquired.

Short-Term Notes

Some of our notes may be issued with maturities of one year or less from the date of issue, which we refer to as short-term notes. Treasury regulations provide that no payments of interest on a short-term note are treated as qualified stated interest. Accordingly, in determining the amount of discount on a short-term note, all interest payments, including stated interest, are included in the short-term note's stated redemption price at maturity.

In general, individual and certain other U.S. holders using the cash basis method of tax accounting are not required to include accrued discount on short-term notes in income currently unless they elect to do so, but they may be required to include any stated interest in income as the interest is received. However, a cash basis U.S. holder will be required to treat any gain realized on a sale, exchange, or retirement of the short-term note as ordinary income to the extent such gain does not exceed the discount accrued with respect to the short-term note, which will be determined on a straight-line basis unless the holder makes an election to accrue the discount under the constant-yield method, through the date of sale or retirement. In addition, a cash basis U.S. holder that does not elect to currently include accrued discount in income will be not allowed to deduct any of the interest paid or accrued on any indebtedness incurred or maintained to purchase or carry a short-term note (in an amount not exceeding the deferred income), but instead will be required to defer deductions for such interest until the deferred income is realized upon the maturity of the short-term note or its earlier disposition in a taxable transaction. Notwithstanding the foregoing, a cash-basis U.S. holder of a short-term note may elect to include accrued discount in income on a current basis. This election will apply to all short-term debt instruments acquired by such holder on or after the first day of the first taxable year to which the election applies. If this election is made, the limitation on the deductibility of interest described in this paragraph will not apply.

A U.S. holder using the accrual method of tax accounting and some cash basis holders (including banks, securities dealers, regulated investment companies, and certain trust funds) generally will be required to include accrued discount on a short-term note in income on a current basis, on either a straight-line basis or, at the election of the holder, under the constant-yield method based on daily compounding. Regardless of whether a U.S. holder is a cash-basis or accrual-basis holder, the holder of a short-term note may elect to include accrued "acquisition discount" with respect to the short-term note in income on a current basis. Acquisition discount is the excess of the remaining redemption amount of the short-term note at the time of acquisition over the purchase price. Acquisition discount will be treated as accruing on a straight-line basis or, at the election of the holder, under a constant yield method based on

daily compounding. If a U.S. holder elects to include accrued acquisition discount in income, the rules for including OID will not apply. In addition, the market discount rules described above will not apply to short-term notes.

Sale, Exchange, or Retirement of Notes

Upon the sale, exchange, retirement, or other disposition of a note, a U.S. holder will recognize gain or loss equal to the difference between the amount realized upon the sale, exchange, retirement, or other disposition (less an amount equal to any accrued interest not previously included in income if the note is disposed of between interest payment dates, which will be included in income as interest income for U.S. federal income tax purposes) and the U.S. holder's adjusted tax basis in the note. The amount realized by the U.S. holder will include the amount of any cash and the fair market value of any other property received for the note. A U.S. holder's adjusted tax basis in a note generally will be the cost of the note to such U.S. holder, increased by any OID, market discount, de minimis OID, de minimis market discount, or any discount with respect to a short-term note previously included in income with respect to the note, and decreased by the amount of any premium previously amortized to reduce interest on the note and the amount of any payment (other than a payment of qualified stated interest) received in respect of the note.

S-31

Except as discussed above with respect to market discount, or as described below with respect to non-U.S. dollar denominated notes, gain or loss realized on the sale, exchange, retirement, or other disposition of a note generally will be capital gain or loss and will be long-term capital gain or loss if the note has been held for more than one year. The ability of U.S. holders to deduct capital losses is subject to limitations under the Internal Revenue Code.

Notes Subject to Contingencies Including Optional Redemption

Certain of the notes may provide for an alternative payment schedule or schedules applicable upon the occurrence of a contingency or contingencies, other than a remote or incidental contingency, whether such contingency relates to payments of interest or of principal. In addition, certain of the notes may contain provisions permitting them to be redeemed prior to their stated maturity at our option and/or at the option of the holder. Notes containing these features may be subject to rules that differ from the general rules discussed herein. U.S. holders considering the purchase of notes with these features should carefully examine the applicable supplement and are urged to consult their own tax advisors regarding the U.S. federal income tax consequences to a U.S. holder of the ownership and disposition of such notes since the U.S. federal income tax consequences with respect to OID will depend, in part, on the particular terms and features of the notes.

Non-U.S. Dollar Denominated Notes

Additional considerations apply to a U.S. holder of a note payable in a currency other than U.S. dollars (“foreign currency”). We refer to these notes as “Non-U.S. Dollar Denominated Notes.” In the case of payments of interest, U.S. holders using the cash method of accounting for U.S. federal income tax purposes will be required to include in income the U.S. dollar value of the foreign currency payment on a Non-U.S. Dollar Denominated Note (other than OID or market discount) when the payment of interest is received. The U.S. dollar value of the foreign currency payment is determined by translating the foreign currency received at the spot rate for such foreign currency on the date the payment is received, regardless of whether the payment is in fact converted to U.S. dollars at that time. The U.S. dollar value will be the U.S. holder’s tax basis in the foreign currency received. A U.S. holder will not recognize foreign currency exchange gain or loss with respect to the receipt of such payment.

U.S. holders using the accrual method of accounting for U.S. federal income tax purposes will be required to include in income the U.S. dollar value of the amount of interest income that has accrued and is otherwise required to be taken into account with respect to a Non-U.S. Dollar Denominated Note during an accrual period. The U.S. dollar value of the accrued income will be determined by translating the income at the average rate of exchange for the accrual period or, with respect to an accrual period that spans two taxable years, at the average rate for the partial period within the taxable year. A U.S. holder may elect, however, to translate the accrued interest income using the exchange rate on the last day of the accrual period or, with respect to an accrual period that spans two taxable years, using the exchange rate on the last day of the taxable year. If the last day of an accrual period is within five business days of the date of receipt of the accrued interest, a U.S. holder may translate the interest using the exchange rate on the date of receipt. The above election will apply to all other debt obligations held by the U.S. holder and may not be changed without the consent of the Internal Revenue Service. U.S. holders are urged to consult their own tax advisors before making the above election. Upon receipt of an interest payment (including, upon the sale of the note, the receipt of proceeds which include amounts attributable to accrued interest previously included in income), the holder will recognize foreign currency exchange gain or loss in an amount equal to the difference between the U.S. dollar value of such payment (determined by translating the foreign currency received at the spot rate for such foreign currency on the date such payment is received) and the U.S. dollar value of the interest income previously included in income with respect to such payment. This gain or loss will be treated as ordinary income or loss.

OID on a note that is also a Non-U.S. Dollar Denominated Note will be determined for any accrual period in the applicable foreign currency and then translated into U.S. dollars, in the same manner as interest income accrued by a

holder on the accrual basis, as described above (regardless of such holder's regular method of accounting). A U.S. holder will recognize foreign currency exchange gain or loss when OID is paid (including, upon the sale of such note, the receipt of proceeds which include amounts attributable to OID previously included in income) to the extent of the difference between the U.S. dollar value of such payment (determined by translating the foreign currency received at the spot rate for such foreign currency on the date such payment is received) and the U.S. dollar value of the accrued OID (determined in the same manner as for accrued interest). For these purposes, all receipts on a note will be viewed: (i) first, as the receipt of any stated interest payment called for under the terms of the note, (ii) second, as receipts of previously accrued OID (to the extent thereof), with payments considered made for the earliest accrual periods first, and (iii) third, as the receipt of principal.

S-32

The amount of market discount on Non-U.S. Dollar Denominated Notes includible in income generally will be determined by translating the market discount determined in the foreign currency into U.S. dollars at the spot rate on the date the Non-U.S. Dollar Denominated Note is retired or otherwise disposed of. If a U.S. holder elected to accrue market discount currently, then the amount which accrues is determined in the foreign currency and then translated into U.S. dollars on the basis of the average exchange rate in effect during such accrual period. A U.S. holder will recognize foreign currency exchange gain or loss with respect to market discount which is accrued currently using the approach applicable to the accrual of interest income as described above.

Amortizable bond premium on a Non-U.S. Dollar Denominated Note will be computed in the applicable foreign currency. If a U.S. holder elected to amortize the premium, the amortizable bond premium will reduce interest income in the applicable foreign currency. At the time bond premium is amortized, foreign currency exchange gain or loss will be realized based on the difference between spot rates at such time and the time of acquisition of the Non-U.S. Dollar Denominated Note. If a U.S. holder does not elect to amortize bond premium, the bond premium computed in the foreign currency must be translated into U.S. dollars at the spot rate on the maturity date and such bond premium will constitute a capital loss which may be offset or eliminated by foreign currency exchange gain.

If a U.S. holder purchases a Non-U.S. Dollar Denominated Note with previously owned foreign currency, foreign currency exchange gain or loss (which will be treated as ordinary income or loss) will be recognized in an amount equal to the difference, if any, between the tax basis in the foreign currency and the U.S. dollar fair market value of the foreign currency used to purchase the Non-U.S. Dollar Denominated Note, determined on the date of purchase.

Upon the sale, exchange, retirement, or other taxable disposition of a Non-U.S. Dollar Denominated Note, a U.S. holder will recognize gain or loss equal to the difference between the amount realized upon the sale, exchange, retirement, or other disposition (less an amount equal to any accrued and unpaid interest not previously included in income, which will be treated as a payment of interest for U.S. federal income tax purposes) and the adjusted tax basis in the Non-U.S. Dollar Denominated Note. The adjusted tax basis in a Non-U.S. Dollar Denominated Note will equal the amount paid for the Non-U.S. Dollar Denominated Note, increased by the amounts of any market discount or OID previously included in income with respect to the Non-U.S. Dollar Denominated Note and reduced by any amortized acquisition or other premium and any principal payments received in respect of the Non-U.S. Dollar Denominated Note. The amount of any payment in or adjustments measured by foreign currency will be equal to the U.S. dollar value of the foreign currency on the date of the purchase or adjustment. The amount realized will be based on the U.S. dollar value of the foreign currency on the date the payment is received or the Non-U.S. Dollar Denominated Note is disposed of (or deemed disposed of as a result of a material change in the terms of the note). If, however, a Non-U.S. Dollar Denominated Note is traded on an established securities market and the U.S. holder uses the cash basis method of tax accounting, the U.S. dollar value of the amount realized will be determined by translating the foreign currency payment at the spot rate of exchange on the settlement date of the purchase or sale. A U.S. holder that uses the accrual basis method of tax accounting may elect the same treatment with respect to the purchase and sale of Non-U.S. Dollar Denominated Notes traded on an established securities market, provided that the election is applied consistently.

Except with respect to market discount as discussed above, and the foreign currency rules discussed below, gain or loss recognized upon the sale, exchange, retirement, or other taxable disposition of a Non-U.S. Dollar Denominated Note will be capital gain or loss and will be long-term capital gain or loss if at the time of sale, exchange, retirement, or other disposition, the Non-U.S. Dollar Denominated Note has been held for more than one year. Net long-term capital gain recognized by an individual U.S. holder is generally taxed at preferential rates. The ability of U.S. holders to deduct capital losses is subject to limitations under the Internal Revenue Code.

A portion of the gain or loss with respect to the principal amount of a Non-U.S. Dollar Denominated Note may be treated as foreign currency exchange gain or loss. Foreign currency exchange gain or loss will be treated as ordinary

income or loss. For these purposes, the principal amount of the Non-U.S. Dollar Denominated Note is the purchase price for the Non-U.S. Dollar Denominated Note calculated in the foreign currency on the date of purchase, and the amount of exchange gain or loss recognized is equal to the difference between (i) the U.S. dollar value of the principal amount determined on the date of the sale, exchange, retirement or other disposition of the Non-U.S. Dollar Denominated Note and (ii) the U.S. dollar value of the principal amount determined on the date the foreign currency note was purchased. The amount of foreign currency exchange gain or loss will be limited to the amount of overall gain or loss realized on the disposition of the Non-U.S. Dollar Denominated Note.

The tax basis in foreign currency received as interest on a Non-U.S. Dollar Denominated Note will be the U.S. dollar value of the foreign currency determined at the spot rate in effect on the date the foreign currency is received. The tax basis in foreign currency received on the sale, exchange, retirement, or other disposition of a Non-U.S. Dollar Denominated Note will be equal to the U.S. dollar value of the foreign currency, determined at the time of the sale, exchange, retirement or other disposition. As discussed above, if the Non-U.S. Dollar Denominated Notes are traded on an established securities market, a cash basis U.S. holder (or, upon election, an accrual basis U.S. holder) will determine the U.S. dollar value of the foreign currency by translating the foreign currency received at the spot rate of exchange on the settlement date of the sale, exchange, retirement, or other disposition. Accordingly, in such case, no foreign currency exchange gain or loss will result from currency fluctuations between the trade date and settlement date of a sale, exchange, retirement, or other disposition. Any gain or loss recognized on a sale, exchange, retirement, or other disposition of foreign currency (including its exchange for U.S. dollars or its use to purchase notes) will be ordinary income or loss.

For the special treatment of Non-U.S. Dollar Denominated Notes that are also contingent payment notes, see the applicable supplement.

Additional Medicare Tax on Unearned Income

Certain U.S. holders, including individuals, estates and trusts, will be subject to an additional 3.8% Medicare tax on unearned income. For individual U.S. holders, the additional Medicare tax applies to the lesser of (i) “net investment income” or (ii) the excess of “modified adjusted gross income” over \$200,000 (\$250,000 if married and filing jointly or \$125,000 if married and filing separately). “Net investment income” generally equals the taxpayer’s gross investment income reduced by the deductions that are allocable to such income. Investment income generally includes passive income such as interest, dividends, annuities, royalties, rents, and capital gains. U.S. holders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in our notes.

Non-U.S. Holders

The following is a summary of certain U.S. federal income tax consequences that will apply to Non-U.S. holders of notes. As used herein, a Non-U.S. holder of a note means a beneficial owner of a note that for U.S. federal income tax purposes is a non-resident alien individual, a foreign corporation, or a foreign estate or trust.

Payments of Interest

Under current U.S. federal income tax law and subject to the discussion below concerning backup withholding, principal (and premium, if any) and interest payments, including any OID, that are received from us or our agent and that are not effectively connected with the conduct by the Non-U.S. holder of a trade or business within the United States, or a permanent establishment maintained in the United States if certain tax treaties apply, generally will not be subject to U.S. federal income or withholding tax except as provided below. Interest, including any OID, may be subject to a 30% withholding tax (or less under an applicable treaty, if any) if:

- a Non-U.S. holder actually or constructively owns 10% or more of the total combined voting power of all classes of our stock entitled to vote;
- a Non-U.S. holder is a “controlled foreign corporation” for U.S. federal income tax purposes that is related to us (directly or indirectly) through stock ownership;
- a Non-U.S. holder is a bank extending credit under a loan agreement in the ordinary course of its trade or business;
- the interest payments on the note are determined by reference to the income, profits, changes in the value of property or other attributes of the debtor or a related party (other than payments that are based on the value of a security or index of securities that are, and will continue to be, actively traded within the meaning of Section 1092(d) of the

Internal Revenue Code, and that are not nor will be a “United States real property interest” as described in Section 897(c)(1) or 897(g) of the Internal Revenue Code); or

- the Non-U.S. holder does not satisfy the certification requirements described below.

A Non-U.S. holder generally will satisfy the certification requirements if either: (i) the Non-U.S. holder certifies to us or our agent, under penalties of perjury, that it is a non-United States person and provides its name and address (which certification may generally be made on an Internal Revenue Service Form W-8BEN or W-8BEN-E, or a successor form), or (ii) a securities clearing organization, bank, or other financial institution that holds customer securities in the ordinary course of its trade or business (a “financial institution”) and holds the note certifies to us or our agent under penalties of perjury that

S-34

either it or another financial institution has received the required statement from the Non-U.S. holder certifying that it is a non-United States person and furnishes us with a copy of the statement.

Payments not meeting the requirements set forth above and thus subject to withholding of U.S. federal income tax may nevertheless be exempt from withholding (or subject to withholding at a reduced rate) if the Non-U.S. holder provides us with a properly executed Internal Revenue Service Form W-8BEN or W-8BEN-E (or successor form) claiming an exemption from, or reduction in, withholding under the benefit of a tax treaty, or Internal Revenue Service Form W-8ECI (or other applicable form) stating that interest paid on the notes is not subject to withholding tax because it is effectively connected with the conduct of a trade or business within the United States as discussed below. To claim benefits under an income tax treaty, a Non-U.S. holder must obtain a taxpayer identification number and certify as to its eligibility under the appropriate treaty's limitations on benefits article. In addition, special rules may apply to claims for treaty benefits made by Non-U.S. holders that are entities rather than individuals. A Non-U.S. holder that is eligible for a reduced rate of U.S. federal withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the Internal Revenue Service.

Sale, Exchange, or Retirement of Notes

A Non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on any capital gain or market discount realized on the sale, exchange, retirement, or other disposition of notes, provided that: (i) the gain is not effectively connected with the conduct of a trade or business within the United States, or a permanent establishment maintained in the United States if certain tax treaties apply, (ii) in the case of a Non-U.S. holder that is an individual, the Non-U.S. holder is not present in the United States for 183 days or more in the taxable year of the sale, exchange, or other disposition of the note, and (iii) the Non-U.S. holder is not subject to tax pursuant to certain provisions of U.S. federal income tax law applicable to certain expatriates. An individual Non-U.S. holder who is present in the United States for 183 days or more in the taxable year of sale, exchange, or other disposition of a note, and if certain other conditions are met, will be subject to U.S. federal income tax at a rate of 30% on the gain realized on the sale, exchange, or other disposition of such note.

Income Effectively Connected with a Trade or Business within the United States

If a Non-U.S. holder of a note is engaged in the conduct of a trade or business within the United States and if interest (including any OID) on the note, or gain realized on the sale, exchange, or other disposition of the note, is effectively connected with the conduct of such trade or business (and, if certain tax treaties apply, is attributable to a permanent establishment maintained by the Non-U.S. holder in the United States), the Non-U.S. holder, although exempt from U.S. federal withholding tax (provided that the certification requirements discussed above are satisfied), generally will be subject to U.S. federal income tax on such interest (including any OID) or gain on a net income basis in the same manner as if it were a U.S. holder. Non-U.S. holders should read the material under the heading “— U.S. Holders,” for a description of the U.S. federal income tax consequences of acquiring, owning, and disposing of notes. In addition, if such Non-U.S. holder is a foreign corporation, it may also be subject to a branch profits tax equal to 30% (or such lower rate provided by an applicable U.S. income tax treaty) of a portion of its earnings and profits for the taxable year that are effectively connected with its conduct of a trade or business in the United States, subject to certain adjustments.

Backup Withholding and Information Reporting

In general, in the case of a U.S. holder, other than certain exempt holders, we and other payors are required to report to the Internal Revenue Service all payments of principal, any premium, and interest on the note, and the accrual of OID. In addition, we and other payors generally are required to report to the Internal Revenue Service any payment of

proceeds of the sale of a note before maturity. Additionally, backup withholding generally will apply to any payments, including payments of OID, if a U.S. holder fails to provide an accurate taxpayer identification number and certify that the taxpayer identification number is correct, the U.S. holder is notified by the Internal Revenue Service that it has failed to report all interest and dividends required to be shown on its U.S. federal income tax returns or a U.S. holder does not certify that it has not underreported its interest and dividend income.

In the case of a Non-U.S. holder, backup withholding and information reporting will not apply to payments made if the Non-U.S. holder provides the required certification that it is not a United States person, or the Non-U.S. holder otherwise establishes an exemption, provided that the payor or withholding agent does not have actual knowledge that the holder is a United States person, or that the conditions of any exemption are not satisfied. However, we and other payors are required to report payments of interest on your notes on Internal Revenue Service Form 1042-S even if the payments are not otherwise subject to information reporting requirements.

S-35

In addition, payments of the proceeds from the disposition of a note to or through a foreign office of a broker or the foreign office of a custodian, nominee, or other dealer acting on behalf of a holder generally will not be subject to information reporting or backup withholding. However, if the broker, custodian, nominee, or other dealer is a United States person, the government of the United States or the government of any state or political subdivision of any state, or any agency or instrumentality of any of these governmental units, a controlled foreign corporation for U.S. federal income tax purposes, a foreign partnership that is either engaged in a trade or business within the United States or whose United States partners in the aggregate hold more than 50% of the income or capital interest in the partnership, a foreign person 50% or more of whose gross income for a certain period is effectively connected with a trade or business within the United States, or a United States branch of a foreign bank or insurance company, information reporting (but not backup withholding) generally will be required with respect to payments made to a holder unless the broker, custodian, nominee, or other dealer has documentation of the holder's foreign status and the broker, custodian, nominee, or other dealer has no actual knowledge to the contrary.

Payment of the proceeds from a sale of a note to or through the United States office of a broker is subject to information reporting and backup withholding, unless the holder certifies as to its non-United States person status or otherwise establishes an exemption from information reporting and backup withholding.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a holder's U.S. federal income tax liability provided the required information is furnished to the Internal Revenue Service.

Guarantee Payments

Payments (if any) made to holders on the notes by UDR LP pursuant to the guarantee shall be treated, for U.S. federal income tax purposes, in substantially the same manner as payments made on the notes by UDR.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act imposes a 30% U.S. withholding tax on certain U.S. source payments, including interest (and original issue discount) income payable on the notes after June 30, 2014, and on the gross proceeds from a disposition of property of a type which can produce U.S. source interest such as the notes payable after December 31, 2016 ("Withholdable Payments"), if paid to a foreign financial institution (including amounts paid to a foreign financial institution on behalf of a holder), unless such institution enters into an agreement with the Treasury Department to collect and provide to the Treasury Department substantial information regarding U.S. account holders, including certain account holders that are foreign entities with U.S. owners, with such institution. The legislation also generally imposes a withholding tax of 30% on Withholdable Payments made to a non-financial foreign entity unless such entity provides the withholding agent with a certification that it does not have any substantial U.S. owners or a certification identifying the direct and indirect substantial U.S. owners of the entity.

The U.S. Treasury Department and the IRS have announced that withholding on payments of gross proceeds from a disposition of property of a type which can produce U.S. source interest will only apply to payments made after December 31, 2018. If we (or an applicable withholding agent) determine withholding under the Foreign Account Tax Compliance Act is appropriate, we (or such agent) will withhold tax at the applicable statutory rate, without being required to pay any additional amounts in respect of such withholding. Foreign financial institutions and non-financial foreign entities located in jurisdictions that have an intergovernmental agreement with the United States governing the Foreign Account Tax Compliance Act may be subject to different rules. Holders are urged to consult their own tax advisors regarding the possible implications of this legislation on their purchase, ownership and disposition of our notes.

S-36

PLAN OF DISTRIBUTION

Under the terms of a third amended and restated distribution agreement dated September 1, 2011, as amended on July 29, 2014 and April 27, 2017 and as amended or supplemented from time to time, or the “distribution agreement,” we are offering the notes on a continuous basis through or to Citigroup Global Markets Inc., J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC, and Wells Fargo Securities, LLC, referred to in this prospectus supplement individually as an “agent” or collectively as the “agents.” The agents, individually or in a syndicate, may purchase notes, as principal, from us from time to time for resale to investors and other purchasers at varying prices relating to prevailing market prices at the time of resale as determined by the applicable agent or, if so specified in the applicable pricing supplement, for resale at a fixed offering price. However, we may agree with an agent for that agent to utilize its reasonable efforts on an agency basis on our behalf to solicit offers to purchase notes at 100% of the principal amount thereof, unless otherwise specified in the applicable pricing supplement. We will pay a commission to an agent, ranging from .125% to .750% of the principal amount of each note, depending upon its stated maturity, sold through that agent as our agent, unless otherwise agreed. We will negotiate commissions with respect to notes with stated maturities in excess of 30 years that are sold through an agent as our agent at the time of the related sale.

Some of the agents and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. In addition, in the ordinary course of their business activities, the agents and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby.

The agents and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Any note sold to an agent as principal will be purchased by that agent at a price equal to 100% of the principal amount thereof less a percentage of the principal amount equal to the commission applicable to an agency sale of a note of identical maturity. An agent may sell notes it has purchased from us as principal to certain dealers less a concession equal to all or any portion of the discount received in connection with that purchase. An agent may allow, and dealers may reallow, a discount to certain other dealers. After the initial offering of notes, the offering price (in the case of notes to be resold on a fixed offering price basis), the concession and the reallowance may be changed.

The notes will not have an established trading market when issued. Also, the notes will not be listed on any securities exchange. An agent may make a market in the notes, as permitted by applicable laws and regulations, but is not obligated to do so and may discontinue any market-making at any time without notice. A secondary market for any notes may not develop, and purchasers of notes may not be able to sell notes in the future.

Each purchaser of a note will arrange for payment as instructed by the relevant agent. The agents are required to deliver the proceeds of the notes to us in immediately available funds, to a bank designated by us in accordance with the terms of the distribution agreement on the date of settlement.

Each agent may be deemed to be an “underwriter” within the meaning of the Securities Act of 1933, as amended, or the Securities Act. We have agreed to indemnify the agents against certain liabilities, including liabilities under the Securities Act, or to contribute to payments that they may be required to make in connection with such indemnification. We have agreed to reimburse the agents for certain expenses, including the reasonable fees and disbursements of counsel for the agents.

We reserve the right to withdraw, cancel or modify the offer made hereby without notice. We have the right to accept offers to purchase notes and may reject any proposed purchase of notes as a whole or in part. The agents will have the right, in their discretion reasonably exercised, to reject any offer to purchase notes, as a whole or in part.

In connection with the purchase of notes by an agent, as principal, for resale at a fixed price, such agent may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Such transactions may consist of bids or purchases of notes for the purpose of pegging, fixing or maintaining the price of the notes. Specifically, such agent may over allot in connection with such offering, creating a syndicate short position. In addition, such agent may bid for and purchase the notes in the open market to cover syndicate short positions or to stabilize, maintain or otherwise affect the price of

S-37

the notes. Finally, such agent or its syndicate may reclaim selling concessions allowed for distributing of notes in the offering, if such agent repurchases previously distributed notes in the market to cover overallocments or to stabilize the price of the notes. Any of these activities may stabilize or maintain the market price of the notes above independent market level. The agents are not required to engage in any of these activities and may end any of them at any time.

Concurrently with the offering of the notes through the agents, we may issue other securities as contemplated in the accompanying prospectus.

The agents and certain of their affiliates may engage in commercial or investment banking or advisory services with and perform services for us and certain of our affiliates in the ordinary course of business. We have a lending relationship with U.S. Bank National Association, the trustee under the Indenture for the notes.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the information requirements of the Exchange Act, which means that we are required to file annual, quarterly and current reports, proxy statements and other information with the SEC, all of which are available at the Public Reference Room of the SEC at 100 F Street, NE, Washington, D.C. 20549. You may also obtain copies of the reports, proxy statements and other information from the Public Reference Room of the SEC, at prescribed rates, by calling 1-800-SEC-0330. The SEC maintains a website at <http://www.sec.gov> where you can access reports, proxy, information and registration statements, and other information regarding registrants that file electronically with the SEC. You may also access our SEC filings free of charge on our website at www.udr.com.

We have filed with the SEC a registration statement on Form S-3 (Registration File No. 333-217491 covering the notes offered by this prospectus supplement. You should be aware that this prospectus supplement does not contain all of the information contained or incorporated by reference in that registration statement and its exhibits and schedules. You may inspect and obtain the registration statement, including exhibits, schedules, reports and other information that we have filed with the SEC, as described in the preceding paragraph. Statements contained in this prospectus supplement concerning the contents of any document we refer you to are not necessarily complete and in each instance we refer you to the applicable document filed with the SEC for more complete information.

You can inspect our reports, proxy statements and other information that we file at the offices of the NYSE at 20 Broad Street, New York, New York 10005.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to “incorporate by reference” the information we file with the SEC, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference herein is an important part of this prospectus supplement and the accompanying prospectus. Any statement contained in a document which is incorporated by reference in this prospectus supplement and the accompanying prospectus is automatically updated and superseded if information contained in this prospectus supplement and the accompanying prospectus, or information that we later file with the SEC prior to the termination of this offering, modifies or replaces this information. UDR, Inc. and United Dominion Realty, L.P. incorporate by reference into this prospectus supplement and the accompanying prospectus the documents listed below (excluding any portions of such documents that have been “furnished” but not “filed” for purposes of the Exchange Act):

- Annual Report of UDR, Inc. on Form 10-K for the year ended December 31, 2016, filed with the SEC on February 21, 2017;
- Annual Report of United Dominion Realty, L.P. on Form 10-K for the year ended December 31, 2016, filed with the SEC on February 21, 2017;
- Quarterly Report of UDR, Inc. on Form 10-Q for the fiscal quarter ended March 31, 2017, filed with the SEC on April 25, 2017;
- Quarterly Report of United Dominion Realty, L.P. on Form 10-Q for the fiscal quarter ended March 31, 2017, filed with the SEC on April 25, 2017;
- Current Reports of UDR, Inc. on Form 8-K, filed with the SEC on January 3, 2017 and January 23, 2017;
- Definitive Proxy Statement of UDR, Inc. dated March 28, 2017, and definitive Additional Materials filed with the SEC on March 28, 2017, both filed in connection with UDR, Inc.’s Annual Meeting of Stockholders held on May 11, 2017; and
- Description of the capital stock of UDR, Inc. contained in the Registration Statement on Form 8-A/A dated and filed with the SEC on November 7, 2005, including any amendments or reports filed with the SEC for the purpose of updating such description.

Edgar Filing: UDR, Inc. - Form 424B2

UDR, Inc. and United Dominion Realty, L.P. also incorporate by reference any future filings made with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act between the date of this prospectus supplement and the accompanying prospectus and the date all of the securities offered hereby are sold or the offering is otherwise terminated, with the exception of any information furnished under Item 2.02 and Item 7.01 of Form 8-K, which is not deemed filed and which is not incorporated by reference herein. Any such filings shall be deemed to be incorporated by reference and to be a part of this prospectus supplement and the accompanying prospectus from the respective dates of filing of those documents.

S-39

As explained above in “Where You Can Find More Information,” these incorporated documents (as well as other documents filed by us under the Exchange Act) are available at the SEC and may be accessed in a number of ways, including online via the internet.

We will provide without charge to each person, including any beneficial owner, to whom this prospectus supplement and the accompanying prospectus are delivered, a copy of any of the documents referred to above by written or oral request to:

UDR, Inc.

1745 Shea Center Drive, Suite 200

Highlands Ranch, Colorado 80129

Attention: Investor Relations

Telephone: (720) 283-6120

We maintain a website at www.udr.com. The information on our website is not considered a part of, or incorporated by reference in, this prospectus supplement, the accompanying prospectus, or any other document we file with or furnish to the SEC.

LEGAL MATTERS

The validity of the notes, including the guarantee, and certain U.S. federal income tax matters will be passed upon for us by Morrison & Foerster LLP, Washington, D.C., and certain U.S. federal income tax matters will be passed upon for us by Kutak Rock LLP. Certain legal matters will be passed upon for the agents by Sidley Austin LLP, New York, New York. The opinions of Morrison & Foerster LLP and Sidley Austin LLP will be conditioned upon, and subject to certain assumptions regarding future action required to be taken by us and the Indenture trustee in connection with the issuance and sale of any particular notes, the specific terms of the notes and other matters which may affect the validity of the notes but which cannot be ascertained on the date of such opinions.

EXPERTS

The consolidated financial statements of UDR, Inc. and United Dominion Realty, L.P. appearing in UDR, Inc.’s Annual Report (Form 10-K) for the year ended December 31, 2016 including schedules appearing therein, and the effectiveness of UDR, Inc.’s internal control over financial reporting as of December 31, 2016, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon included therein, and incorporated herein by reference. Such financial statements are, and audited financial statements to be included in subsequently filed documents will be, incorporated herein in reliance upon the reports of Ernst & Young LLP pertaining to such financial statements and the effectiveness of our internal control over financial reporting as of the respective dates (to the extent covered by consents filed with the Securities and Exchange Commission) given on the authority of such firm as experts in accounting and auditing.

Common Stock

Preferred Stock

Depositary Shares

Debt Securities

Guarantees of Debt Securities

Warrants

Subscription Rights

Purchase Contracts

Purchase Units

We may from time to time offer to sell together or separately in one or more offerings:

- common stock;
- preferred stock;
- preferred stock represented by depositary shares;
- debt securities, which may be senior, subordinated or junior subordinated, convertible or non-convertible and guaranteed by certain of our subsidiaries, including United Dominion Realty, L.P.;
- warrants to purchase common stock, preferred stock, depositary shares or debt securities;
- subscription rights to purchase common stock, preferred stock, depositary shares, debt securities or other securities;
- purchase contracts; and
- purchase units.

This prospectus describes some of the general terms that may apply to these securities. We will provide the specific prices and terms of these securities in one or more supplements to this prospectus at the time of the offering. You should read this prospectus and the accompanying prospectus supplement carefully before you make your investment

decision.

We may offer and sell these securities through underwriters, dealers or agents or directly to purchasers, on a continuous or delayed basis. The securities may also be resold by selling security holders. The prospectus supplement for each offering will describe in detail the plan of distribution for that offering and will set forth the names of any underwriters, dealers or agents involved in the offering and any applicable fees, commissions or discount arrangements.

This prospectus may not be used to sell securities unless accompanied by a prospectus supplement or a free writing prospectus.

Our common stock is listed on the New York Stock Exchange (“NYSE”) under the trading symbol “UDR.” Each prospectus supplement will indicate if the securities offered thereby will be listed on any securities exchange.

Investing in our securities involves a high degree of risk. See “Risk Factors” on page 3 before you make your investment decision.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus or the accompanying prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is April 27, 2017.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the “SEC”) using a “shelf” registration process under the Securities Act of 1933, as amended (the “Securities Act”). Under this shelf registration process, we may sell any combination of the securities described in this prospectus in one or more offerings.

This prospectus only provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a supplement to this prospectus that will contain specific information about the terms of that offering, including the specific amounts, prices and terms of the securities offered. The prospectus supplement may also add, update or change information contained in this prospectus. You should carefully read both this prospectus and any accompanying prospectus supplement or other offering materials, together with the additional information described under the heading “Where You Can Find More Information.”

You should rely only on the information contained or incorporated by reference in this prospectus. We have not authorized anyone to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

This prospectus and any accompanying prospectus supplement or other offering materials do not contain all of the information included in the registration statement as permitted by the rules and regulations of the SEC. For further information, we refer you to the registration statement on Form S-3, including its exhibits. We are subject to the informational requirements of the Securities Exchange Act of 1934, as amended (“Exchange Act”), and, therefore, file reports and other information with the SEC. Statements contained in this prospectus and any accompanying prospectus supplement or other offering materials about the provisions or contents of any agreement or other document are only summaries. If SEC rules require that any agreement or document be filed as an exhibit to the registration statement, you should refer to that agreement or document for its complete contents.

You should not assume that the information in this prospectus, any prospectus supplement or any other offering materials is accurate as of any date other than the date on the front of each document. Our business, financial condition, results of operations and prospects may have changed since then.

In this prospectus, unless otherwise specified or the context requires otherwise, we use the terms “UDR,” the “Company,” “we,” “us” and “our” to refer to UDR, Inc., and the term “Operating Partnership” to refer to United Dominion Realty, L.P.

OUR COMPANY

UDR is a self-administered real estate investment trust (“REIT”) that owns, operates, acquires, renovates, develops, redevelops, disposes of and manages multifamily apartment communities generally located in high barrier-to-entry markets throughout the United States. The high barrier-to-entry markets are characterized by limited land for new construction, difficult and lengthy entitlement processes, low single-family home affordability and strong employment growth potential. At March 31, 2017, our consolidated real estate portfolio included 128 communities located in 18 markets, with a total of 39,698 completed apartment homes, which are held directly or through our subsidiaries, including the Operating Partnership and UDR Lighthouse DownREIT L.P. (the “DownREIT Partnership”), and consolidated joint ventures. In addition, we have an ownership interest in 28 communities containing 7,131 apartment homes through unconsolidated joint ventures or partnerships. As of March 31, 2017, the Company was developing two wholly-owned communities with 1,101 apartment homes, none of which have been completed, and three unconsolidated joint venture communities with 688 apartment homes, none of which have been completed.

At March 31, 2017, the Operating Partnership’s consolidated real estate portfolio included 54 communities located in 14 markets, with a total of 16,698 completed apartment homes. The Operating Partnership owns, operates, acquires, renovates, develops, redevelops, and manages multifamily apartment communities generally located in high barrier-to-entry markets located throughout the United States. As of March 31, 2017, UDR owned 110,883 units (100%) of the general partnership interests of the Operating Partnership and 174,122,808 units (or approximately 95.0%) of the limited partnership interests (“OP Units”) of the Operating Partnership. UDR conducts a substantial amount of its business and holds a substantial amount of its assets through the Operating Partnership, and, by virtue of its ownership of the OP Units and being the Operating Partnership’s sole general partner, UDR has the ability to control all of the day-to-day operations of the Operating Partnership.

We have elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”). To continue to qualify as a REIT, we must continue to meet certain tests which, among other things, generally require that our assets consist primarily of real estate assets, our income be derived primarily from real estate assets, and that we distribute at least 90% of our REIT taxable income (other than our net capital gains) to our stockholders annually. As a REIT, we generally will not be subject to U.S. federal income taxes at the corporate level on our net income to the extent we distribute such net income to our stockholders annually.

UDR was formed in 1972 as a Virginia corporation. In June 2003, we changed our state of incorporation from Virginia to Maryland. The Operating Partnership is the successor-in-interest to United Dominion Realty, L.P., a limited partnership formed under the laws of Virginia, which commenced operations in 1995. The Operating Partnership was redomiciled in 2004 as a Delaware limited partnership. Our corporate offices are located at 1745 Shea Center Drive, Suite 200, Highlands Ranch, Colorado 80129 and our telephone number at that address is (720) 283-6120. Our website is www.udr.com. The information on, or accessible through, our website is not part of this prospectus and should not be relied upon in connection with making any investment decision with respect to the securities offered by this prospectus.

Additional information regarding UDR and the Operating Partnership is set forth in documents on file with the SEC and incorporated by reference in this prospectus and any accompanying prospectus supplement, as described in the section of this prospectus entitled “Where You Can Find More Information.”

RISK FACTORS

You should consider the specific risks described in our Annual Report on Form 10-K for the year ended December 31, 2016, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, the risk factors described under the caption “Risk Factors” in any applicable prospectus supplement and any risk factors set forth in our other filings with the SEC, pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, before making an investment decision. Each of the risks described in these documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment. See the section of this prospectus entitled “Where You Can Find More Information.”

USE OF PROCEEDS

Unless we state otherwise in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the securities offered by this prospectus and the accompanying prospectus supplement for general corporate purposes. General corporate purposes may include additions to working capital, capital expenditures, repayment of debt, funding improvements to properties, and acquiring and developing additional properties. Pending application of the net proceeds, we intend to invest the proceeds in interest bearing accounts and short-term, interest bearing securities. Unless otherwise set forth in a prospectus supplement, we will not receive any proceeds in the event that the securities are sold by a selling security holder.

RATIO OF EARNINGS TO FIXED CHARGES

The following tables set forth our ratio of earnings to combined fixed charges and preferred stock dividends for the periods indicated:

	Years Ended December 31,					
	For the Three Months Ended March 31, 2017	2016	2015	2014	2013	2012
Ratio of earnings to fixed charges—UDR, Inc.(1)	1.64	1.69	1.67	—	—	—
Ratio of earnings to fixed charges—United Dominion Realty, L.P.(2)	2.56	2.45	2.36	1.68	1.63	—
	1.60	1.65	1.63	—	—	—

Ratio of earnings to combined fixed charges and preferred stock dividends—UDR, Inc.(3)

- (1) The ratio was less than 1:1 for the years ended December 31, 2014, 2013, and 2012 as earnings were inadequate to cover fixed charges by deficiencies of approximately \$0.3 million, \$23.7 million, and \$69.8 million, respectively.
- (2) The ratio was less than 1:1 for the year ended December 31, 2012 as earnings were inadequate to cover fixed charges by a deficiency of approximately \$16.6 million.
- (3) The ratio was less than 1:1 for the years ended December 31, 2014, 2013, and 2012 as earnings were inadequate to cover combined fixed charges and preferred stock dividends by deficiencies of approximately \$4.0 million, \$27.4 million, and \$78.6 million, respectively.

DESCRIPTION OF SECURITIES

This prospectus contains summary descriptions of the common stock, preferred stock, depositary shares, debt securities, guarantees of debt securities, warrants, subscription rights, purchase contracts and purchase units that we may offer and sell from time to time. These summary descriptions are not meant to be complete descriptions of each security. The particular terms of any security will be described in the applicable prospectus supplement.

DESCRIPTION OF CAPITAL STOCK

General

Our authorized capital stock consists of 350,000,000 shares of common stock, par value \$0.01 per share, 50,000,000 shares of preferred stock, without par value, and 300,000,000 shares of excess stock, par value \$0.01 per share. As of March 31, 2017, 267,398,819 shares of our common stock were issued and outstanding and 31,076,309 shares of our common stock were reserved for issuance upon exercise of outstanding stock options, convertible notes and convertible preferred stock and redemption of units in the Operating Partnership and the DownREIT Partnership exchangeable for our common stock. We currently have two designated series of preferred stock that are outstanding or could be issued. We have designated 2,803,812 shares as Series E Cumulative Convertible Preferred Stock (“Series E Preferred Stock”), of which 2,796,903 shares were outstanding as of March 31, 2017. We have designated 20,000,000 shares as Series F Preferred Stock (“Series F Preferred Stock”), of which 16,155,807 shares were outstanding as of March 31, 2017.

The following is a description of our capital stock and certain provisions of our charter, bylaws and certain provisions of applicable law. The following is only a summary and is qualified by applicable law and by the provisions of our charter and bylaws, copies of which are included as exhibits to the registration statement of which this prospectus forms a part.

Common Stock

We have one class of common stock. All holders of our common stock are entitled to the same rights and privileges, as described below.

Voting Rights. Holders of our common stock are entitled to one vote per share with respect to each matter presented to our stockholders on which the holders of common stock are entitled to vote and do not have cumulative voting rights. In any uncontested election of directors, directors will be elected by a majority of total votes cast for and against such director nominees. In any contested election, directors will be elected by a plurality of the votes cast by the stockholders entitled to vote on the election.

Dividends. Holders of our common stock are entitled to receive proportionately any dividends as may be declared by our board of directors, subject to any preferential dividend rights of outstanding preferred stock.

Liquidation and Dissolution. In the event of our liquidation or dissolution, the holders of our common stock are entitled to receive ratably all assets available for distribution to stockholders after the payment of all debts and other liabilities and subject to the prior rights of any outstanding preferred stock.

Other Rights. Holders of our common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock are subject to and may be adversely affected by the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Restrictions on Ownership and Transfer. Our charter contains ownership and transfer restrictions relating to our stock that are designed primarily to preserve our status as a REIT. These restrictions include but are not limited to the following:

- no person may beneficially own or constructively own shares of our outstanding “equity stock” (defined as stock that is either common stock or preferred stock) with a value in excess of 9.9% of the value of all outstanding equity stock unless our board of directors exempts the person from such ownership limitation, provided that any such exemption shall not allow the person to exceed 13% of the value of our outstanding equity stock;
- any transfer that, if effective, would result in any person beneficially owning or constructively owning equity stock with a value in excess of 9.9% of the value of all outstanding equity stock (or such higher value not to exceed 13% as determined pursuant to an exemption from our board of directors) shall be void as to the transfer of that number of shares of equity stock which would otherwise be beneficially owned or constructively owned by such person in excess of such ownership limit; and the intended transferee shall acquire no rights in such excess shares of equity stock;

- except as provided in the charter, any transfer that, if effective, would result in the equity stock being beneficially owned by fewer than 100 persons shall be void as to the transfer of that number of shares which would be otherwise beneficially owned or constructively owned by the transferee; and the intended transferee shall acquire no rights in such excess shares of equity stock; and
- any transfer of shares of equity stock that, if effective, would result in us being “closely held” within the meaning of Section 856(h) of the Internal Revenue Code shall be void as to the transfer of that number of shares of equity stock which would cause us to be “closely held” within the meaning of Section 856(h) of the Internal Revenue Code; and the intended transferee shall acquire no rights in such excess shares of equity stock.

Listing. Our common stock is listed on the NYSE under the symbol “UDR.”

Transfer Agent and Registrar. The transfer agent and registrar for our common stock is Wells Fargo Bank, N.A., 161 North Concord Exchange, South St. Paul, Minnesota 55075.

Preferred Stock

Under our charter we are authorized to issue up to 50,000,000 shares of preferred stock, without par value, in one or more series. Our board of directors may authorize the issuance of preferred stock in one or more series and may determine, with respect to any such series, the powers, preferences and rights of such series, and its qualifications, limitations and restrictions. We currently have two designated series of Preferred Stock that are outstanding or could be issued. We have designated 2,803,812 shares as Series E Preferred Stock, of which 2,796,903 shares were outstanding as of March 31, 2017. We have designated 20,000,000 shares as Series F Preferred Stock, of which 16,155,807 shares were outstanding as of March 31, 2017.

Series E Preferred Stock

Ranking. The Series E Preferred Stock ranks *pari passu* with any of our other capital stock designated as ranking on parity with the Series E Preferred Stock (“Parity Stock”), with respect to payment of dividends and amounts upon liquidation, dissolution or winding up, and senior to our common stock, the Series F Preferred Stock and any other class of our capital stock now or hereafter issued and outstanding that ranks junior as to the payment of dividends or amounts upon liquidation, dissolution and winding up to the Series E Preferred Stock or any Parity Stock (collectively, “Junior Stock”). While any shares of Series E Preferred Stock are outstanding, we may not authorize or create any class or series of capital stock that ranks senior to the Series E Preferred Stock with respect to the payment of dividends or amounts upon liquidation, dissolution or winding up, or reclassify any of our authorized capital stock into any such shares, or create, authorize or issue any obligation or security convertible into or evidencing the right to purchase any such shares, without the consent of the holders of a majority of the outstanding Series E Preferred Stock.

Dividends. Holders of the Series E Preferred Stock are entitled to receive, out of funds legally available for payment, cumulative preferential cash dividends at an annual rate of 8% of the liquidation preference (equivalent to \$1.3288 per share of Series E Preferred Stock), until such time as the dividend on the common stock is equal to or exceeds this amount for four consecutive calendar quarters, at which time the dividends will adjust to match the dividend on the common stock. Dividends on each share of Series E Preferred Stock accrue and are cumulative from and including the date of original issue and are paid quarterly in arrears on the last day, or the next business day, of January, April, July and October, commencing July 31, 2003. Dividends on each share of Series E Preferred Stock are cumulative to the extent not declared and paid in full whether or not there exists funds legally available for the payment of such dividends or such dividends have been authorized. Accumulations of dividends on the Series E Preferred Stock do not bear interest and holders of the Series E Preferred Stock are not entitled to any dividends in excess of full cumulative dividends. Dividends payable on the Series E Preferred Stock for any partial dividend period will be computed on the basis of a 360-day year consisting of 12 30-day months. Dividends payable on the Series E Preferred Stock for each full dividend period are computed by dividing the annual dividend rate by four.

Until such time as the dividend on the common stock is equal to or exceeds \$1.3288 per share per annum for four consecutive calendar quarters, no dividend (other than in Junior Stock) will be declared or paid on any Junior Stock unless full cumulative dividends have been declared and paid or are contemporaneously declared and funds sufficient for payment set aside on the Series E Preferred Stock for all prior dividend periods, nor shall any Junior Stock or any Parity Stock be redeemed, purchased or otherwise acquired for any consideration (or any moneys paid to or made available for a sinking fund for redemption of any shares of Junior Stock or Parity Stock) (except by conversion into or exchange for other Junior Stock or Parity Stock).

We may not declare, pay or set apart funds for the payment of any dividend on share of Series E Preferred Stock at such time as the terms and provisions of any agreement to which we are bound, including any agreement relating to out indebtedness, prohibits such declaration, payment or setting apart for payment or provides that such declaration, payment or setting apart for payment would constitute a breach or a default under such an agreement, or if such declaration or payment is restricted or prohibited by law.

Liquidation Preference. The holders of Series E Preferred Stock are entitled to receive in the event of any liquidation, dissolution or winding up of UDR, whether voluntary or involuntary, \$16.61 per share of Series E Preferred Stock, which we refer to in this prospectus as the “Series E Liquidation Preference,” plus an amount per share of Series E Preferred Stock equal to all dividends (whether or not earned or declared) accrued and unpaid thereon to, but not including, the date of final distribution to such holders. If, upon any liquidation, dissolution or winding up of UDR, the Series E Liquidation Preference and any amounts payable as a liquidation preference to other shares of Parity Stock are not paid in full, the holders of the shares of the Series E Preferred Stock and any such Parity Stock will share ratably in the distribution of our assets in proportion to the full respective liquidation preferences to which they are entitled.

Voting Rights. The holders of our outstanding Series E Preferred Stock are entitled to vote on an “as converted” (one-for-one) basis as a single class in combination with the holders of our common stock at any meeting of stockholders for the election of directors or for any other purpose on which holders of our common stock are entitled to vote.

Conversion Rights. Each share of the Series E Preferred Stock is convertible into 1.083 shares of common stock, subject to adjustment for (a) capital reorganization or reclassification, (b) a merger, consolidation, statutory share exchange, self tender offer for all or substantially all of the outstanding shares of our common stock or sale of all or substantially all of our assets or (c) a dividend or other distribution payable in securities issued by us. No fractional shares will be issued upon conversion of the Series E Preferred Stock. In lieu of issuing fractional shares that would otherwise be deliverable upon the conversion of one share of Series E Preferred Stock, we will pay to the holder of such share an amount in cash equal to such fraction multiplied by the closing sale price on the trading day immediately preceding the date of conversion.

If after the original date of issue we make or issue, or fix a record date for the holders of our common stock entitled to receive, a dividend or other distribution payable in securities issued by us, then and in each event, we shall make such provision so that each holder of Series E Preferred Stock will be entitled to receive, upon conversion of the Series E Preferred Stock, in addition to the shares of our common stock receivable upon conversion, such number of such securities as such holder would have received if the holder had converted the Series E Preferred Stock immediately prior to the date of such event and had continued to hold such securities until the conversion date.

In connection with a special dividend (declared on November 5, 2008), we reserved for issuance upon conversion of the Series E Preferred stock additional shares of common stock which a holder of the Series E Preferred Stock would have received if the holder had converted the Series E Preferred Stock immediately prior to the record date for this special dividend.

Listing. The Series E Preferred Stock is not listed on any exchange.

Edgar Filing: UDR, Inc. - Form 424B2

Transfer Agent, Registrar, Dividend Disbursing Agent and Redemption Agent. The transfer agent, registrar, dividend disbursing agent and redemption agent for the Series E Preferred Stock is Wells Fargo Bank, N.A., South St. Paul, Minnesota.

Series F Preferred Stock

Existing holders of OP Units in the Operating Partnership and units of limited partnership interest in
