ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended January 2, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

Jamba, Inc.

(Exact name of registrant as specified in its charter)

Delaware	001-32552	20-2122262
(State or other jurisdiction of incorporation)	(Commission File No.)	(I.R.S. Employer Identification No.)

3001 Dallas Parkway, Suite 140,

Frisco, Texas 75034

(Address of principal executive offices)

Registrant's telephone number, including area code: (469) 294-9600

Edgar Filing: JAMBA, INC. - Form 10-K

Securities registered pursuant to Section 12(b) of the Act:

Common Stock, par value \$.001 per share The NASDAQ Stock Market LLC
Securities registered pursuant to Section 12(g) of the Act:

NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to the filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the registrant's common stock, \$0.001 par value per share, held by non-affiliates as of the last day of the registrant's second fiscal quarter ended July 4, 2017 was \$54,659,392 based upon the closing sales price of registrant's common stock on July 3, 2017. For purposes of this disclosure, shares of common stock held by persons who held more than 5% of the outstanding shares of common stock and shares held by officers and directors of the registrant have been excluded in that such persons may be deemed to be affiliates. This determination of

affiliate status is not necessarily a conclusive determination for other purposes.

The number of shares of common stock of Jamba, Inc. issued and outstanding as of May 4, 2018 was 18,447,023 and 15,588,206, respectively.

DOCUMENTS INCORPORATED BY REFERENCE

None.

Special Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. You can identify these statements by forward-looking words such as “may,” “will,” “would,” “could,” “should,” “might,” “project,” “plan,” “forecast,” “designed,” “goal,” “approximately,” “expect,” “anticipate,” “contemplate,” “believe,” “estimate,” “intend,” “plan,” or the negative of those words or words of similar meaning. Any statement that is not a historical fact, including any other estimates, projections, future trends and the outcome of events that have not yet occurred, is a forward-looking statement. Examples of such statements include references to accelerated growth, new store openings, Company Store comparable sales, expense management and the like. You should read statements that contain these words carefully because they:

- discuss future expectations;
- contain projections of future results of operations or financial condition; or
- state other “forward-looking” information.

We believe it is important to communicate our expectations to our shareholders. However, there may be events and circumstances in the future that we are not able to accurately predict or over which we have no control. The risk factors and cautionary language discussed in this document outline examples of risks, uncertainties and events that may cause actual results to differ materially from the expectations described in the forward-looking statements, including among other things:

- our business strategy and financial performance;
- our revenue and customer volatility based upon weather and general economic conditions;
- the operating results of our franchisees;
- fluctuations in various food and supply costs;
- competition and other risks related to the food services business;
 - our ability to retain our executive management team and key employees; and
- other factors discussed in the “Risk Factors” and “Management Discussion and Analysis of Financial Condition and Results of Operations” portion of this annual report.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this document.

All forward-looking statements included herein are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Except to the extent required by applicable laws and regulations, we undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events.

You should be aware that the occurrence of the events described in the “Risk Factors” portion of this annual report, the documents incorporated herein and our other SEC filings could have a material adverse effect on our business, prospects, financial condition or operating results.

PART I

ITEM 1. BUSINESS

Background of Jamba, Inc.

Jamba, Inc. through its wholly-owned subsidiary, Jamba Juice Company, is a healthful lifestyle brand that inspires and simplifies healthful living through freshly blended whole fruit and vegetable smoothies, bowls, juices, cold-pressed shots, boosts, snacks, and meal replacements. Jamba's blends are made with premium ingredients free of artificial flavors and preservatives so guests can feel their best and blend the most into life. Our global business is driven by a portfolio of franchised and company-owned Jamba Juice® stores.

In November 2014, the Company announced an accelerated transition to an asset-light model. Since the announcement we have refranchised approximately 200 Company stores, which is designed to facilitate a more flexible cost structure reduce capital expenditures and focus on unit growth initiatives. We completed our move to an asset-light model and we now have 94% of our locations owned by experienced franchisees.

As of January 2, 2018, there were 873 Jamba Juice stores globally, consisting of 53 Company-owned and operated stores, all located in the United States ("Company Stores"), 749 franchisee-owned and operated stores ("Franchise Stores") in the United States and 71 Franchise Stores in international locations ("International Stores"), collectively the ("Jamba System"). Currently, 6% of our stores are owned and operated by the Company and 94% of our stores are owned and operated by franchisees.

In 1990, Kirk Perron founded Juice Club to inspire and simplify healthy living. Since 1991, the Company has been operating as Jamba Juice. Jamba, Inc. was incorporated in Delaware on January 6, 2005 as a blank check company formed to serve as a vehicle for the acquisition of an operating business. On July 6, 2005, Jamba, Inc. consummated its initial public offering. On March 10, 2006, Jamba, Inc. entered into an Agreement and Plan of Merger with Jamba Juice Company, which was completed on November 29, 2006.

Unless the context otherwise requires, Jamba, Inc., the registrant, together with Jamba Juice Company, are referred to in this Form 10-K annual report ("Form 10-K") as the "Company", "Jamba Juice", "Jamba", "we", "us" and "our." Information regarding the Company's fiscal periods is included in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Fiscal Year

Our fiscal year ends each year on the Tuesday closest to December 31st and therefore we have a 52 or 53 week fiscal year. Fiscal Year 2017 was a 52 week fiscal year, ended on January 2, 2018. Fiscal Year 2016 was a 53 week fiscal year and ended on January 3, 2017, with the fourth quarter comprised of 13 weeks while fiscal year 2015 was a 52 week fiscal year and ended on December 29, 2015.

Our Stores

We operate a portfolio of flexible store formats that are utilized in different venues. We generally categorize our stores as either traditional, non-traditional or drive thru locations. A traditional location is characterized as a business premise that exists primarily as a Jamba Juice store. Traditional stores average approximately 1,200 - 1,300 square feet in size. These stores are located either in major urban centers or in suburban strip mall centers, either as in-line or standalone. We announced a franchise incentive program designed to accelerate new store openings in 2017, including our new Drive-Thru format which is intended to increase sales, improve unit level economics and expand our available trade-areas by increasing accessibility to the market. We believe this program will spur additional growth of

the incentivized store formats. As of January 2, 2018, there were 614 traditional Jamba Juice store locations. A non-traditional location is characterized as a Jamba Juice store located within another primary business, in conjunction with another business or at institutional settings, such as colleges and universities, entertainment venues, shopping malls, transportation centers, supermarkets, airports and Express concept. A “captive” audience is a common characteristic of non-traditional locations. We believe one benefit of the development of non-traditional stores is to increase awareness of the Jamba Juice brand to complement the traditional stores in the area. As of January 2, 2018, there were 188 non-traditional Jamba Juice store locations.

The Jamba Juice Express concept was launched in 2012. The concept is designed to target venues with a smaller footprint than our historical, non-traditional store. Jamba Juice Express units offer a limited menu of the brand's top selling smoothies and juices as compared to our other store formats. Our Jamba Juice Express platform is an in-fill strategy for venues such as colleges and universities, grocery stores, hospitals and business cafeterias where the Jamba brand is already a known presence in the market. As of January 2, 2018, there were 49 Jamba Juice Express locations open in 19 states. Due to the nature of the business format and smaller footprint, an Express unit generates a smaller financial store contribution than other formats. To better reflect the key contributors of new store development, Express units were excluded from store counts, beginning in the first quarter of 2017.

We continue to evaluate the design of traditional and non-traditional stores. Our goal is to vary the size and format of our stores to allow us to locate them in or near a variety of settings. Our flexibility in store construction enables us to develop stores in a wide range of venues, increasing the visibility of the Jamba brand and providing customers easy and convenient access. We believe format flexibility helps us attract qualified franchisees and offer them the potential to earn a higher return on their investment in capital expenditures.

As of January 2, 2018, we had 802 Jamba Juice store locations in the United States, operating in 33 states and Washington, D.C., consisting of 53 Company Stores and 749 Franchise Stores. During fiscal year 2017, 39 new Franchise Stores opened, 29 Franchise Stores closed, 13 Company Stores were refranchised, one new Company Store was opened and one Company Store was closed.

Franchising

As a franchisor, the Company grants a franchisee to operate Jamba Juice stores in a given area, with or without exclusivity. The franchisee pays the Company for its use of our concept, strategy, marketing, operating systems, purchasing power, and brand recognition. The franchisees are solely responsible for the day-to-day operations in each franchised restaurant, including labor and employment decisions, such as hiring, terminations, scheduling, and setting wages, determining benefits and all other terms of employment with respect to their employees.

Domestic

Through our franchising program, we offer franchisees choices in store location, format and the number of stores they wish to operate including traditional and non-traditional store formats. We also offer franchisees the opportunity to reserve larger territories by entering into multi-store development agreements, which grant the franchisee exclusive rights to develop and operate a specified number of stores within a specified period of time and geographic area. Development fees are typically equal to one-half the initial franchise fee per store.

For each franchised restaurant, we enter into a franchise agreement covering standard terms and conditions. The typical franchise agreement in the U.S. has a 10-year initial term. Franchisees pay us an initial franchise fee for the right to operate a restaurant, typically \$10,000 to \$35,000, depending on the store format and whether or not a multi-store agreement was also executed. All franchisees also are required to pay continuing royalty fees. The royalty fees are calculated on total net sales of each store and typically range from 5.5% to 6%, depending on the store format. Marketing program contributions are also required for traditional store formats. Marketing program contributions charged typically range from 3% to 4% of the franchisee store's net sales.

Our comprehensive market planning and site selection process helps guide the successful execution of our growth strategy. We have processes for identifying, analyzing and assigning undeveloped markets for Franchise Store development. Once a market is selected, we carefully screen trade areas for demand based on demographic, psychographic and Jamba Juice specific variables to ensure that they meet our guidelines for new store development and begin the site selection or approval process. Once a trade area is approved, we carefully screen prospective

locations for visibility, traffic patterns, ease-of-use, occupancy costs and co-tenancy for potential Franchise Store locations. Our expansion strategy involves using this market planning and site selection process to leverage areas of demand within each market. We use this approach as a means to create critical mass within specific geographic areas of demand, in order to increase brand awareness and improve operating and marketing efficiencies for Franchise Stores while leveraging the costs associated with regional supervision. Distribution efficiencies can also be realized through this strategy.

We partner with franchisees to ensure excellence in Franchise Store operations, principally through our Franchise Business Consultants ("FBCs"). FBCs are Company team members that work closely with franchise owners to review the financial health, strength of the team, best practices and procedures of our franchisees. We engage with our system through a Franchise Advisory Council ("FAC"), which formalizes a channel of communication through a representative group of franchisees to provide advice, counsel and input to us on all aspects impacting our business. Our franchise agreement calls for franchise partners to meet certain operational and maintenance requirements intended to align the operating processes system-wide around a common set of standards. Performance is monitored regularly by the FBCs, who in addition to ensuring operational standards, provide feedback, coaching and support, as needed.

As of January 2, 2018, we had 23 development agreements that contain rights to develop additional Franchise Stores. The exclusive territories covered by these agreements include selected markets in the states of Arizona, California, Delaware, Florida, Illinois, Minnesota, Nevada, New Jersey, Utah and Washington. We have identified certain markets where a single-unit, owner-operator model may be the preferred way to increase brand awareness while expanding the brand eastward with new store openings. We anticipate increased recruiting efforts in the Texas, Colorado, Florida and Virginia/DC markets accordingly.

International

We continued our international expansion in our Asia and Middle East markets. Our international franchisees operate under a franchise agreement, multi-store development agreements and market opening services agreements. Our international developer agreements take the form of development and franchise agreements under which we typically receive an initial territory fee, store opening fees and ongoing royalty revenues based on a percentage of sales. The typical international agreement has a 10-year term. Franchisees pay us an initial franchise fee for the right to operate a restaurant, typically \$10,000 to \$35,000, under a multi-store and market services agreement. The multi-store development agreements grant the franchisee exclusive rights to develop and operate a specified number of stores, within a specified period of time, within their operating country. Development fees are typically equal to one-half the initial franchise fee per store. Market opening service agreements provide the franchisee the support necessary to establish the initial operating infrastructure within that country, including assistance with product development, marketing, supply chain, store design and store operations. All international franchisees also are required to pay continuing royalty fees. The royalty fees are calculated on total net sales of the store and typically range from 5.5% to 6%, depending on the store format.

Our international partners work closely with us to build the Jamba Juice brand and implement the Jamba Juice system in their local geographic markets, as well as to maximize revenue and margin growth opportunities, recognizing commercial, cultural and dietary diversity in each market. There were 71 International Stores, 8% of total global stores, as of January 2, 2018, with stores located in South Korea, the Philippines, Taiwan, the Middle East, Indonesia and Thailand. At the end of fiscal 2017, we had international master development agreements with partners in South Korea, the Philippines, Taiwan, Indonesia, Thailand and the countries of the Gulf Cooperation Council (Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates).

We believe our brand and products have international appeal and we continue to engage in discussions with additional interested partners regarding the expansion of Jamba Juice stores into new international markets in Asia Pacific and the GCC. The success of further international expansion will depend on, among other things, local acceptance of the Jamba Juice concept and menu offerings, regional supply chain infrastructure to drive profitable growth for our partners and our ability to attract qualified franchise partners.

Company stores

We operate 53 Company-owned stores, primarily in the Southern California market. It is our intention to retain our Company-owned stores for their contribution to the Company's financial performance and as a test platform used to explore initiatives that we may want to extend system-wide. Our field and store operations teams are responsible for maximizing the performance of our Company Stores across the system. We recruit and retain leaders with broad experience in management within our industry. Our field leadership consists of two Operational Directors and District Managers to support our Company Store operations. Our strong core values have attracted a tenured field team that is highly experienced and invested in the health of the business and the brand.

Our Store Excellence Program is designed to improve operational execution and performance by establishing the comprehensive standards expected at all of our stores. In addition, we offer a bonus program to Company Store managers based on achieving sales and profit goals. We believe these standards and programs positively impact customer satisfaction and ensure that all stores in the Jamba System are developing consistent customer satisfaction. We believe team members are the key to our success and support the development of a culture that fosters personal interaction, mutual respect, trust, empowerment, enthusiasm and commitment.

Maintaining a culture and a management style that embodies healthy, active lifestyles in an authentic, fun, friendly and efficient manner in Company Stores, as well as Franchise Stores, is essential as we continue to expand, and we believe that it is critical to developing our brand and ensuring our continued success.

Training

Our training programs ensure all team members in the system have the knowledge needed to deliver excellence in guest experience and connect team members to our mission. We conduct training through a variety of programs for franchise partners, team members, support center staff and our leadership team on a regular basis. We are dedicated to providing a meaningful experience for all employees, with ample opportunity to develop leadership skills as they build a career at Jamba. All of our training programs reinforce the importance of prioritizing the guest experience and building sales through menu knowledge. Training materials and best practices are available to our franchisees to help create, preserve and support a singular culture of excellence within all of the stores that comprise our system. The training programs are supplemented by an online training resources, Launchpad, designed to elevate engagement and deliver timely and cost effective training resources to our team and franchise partners.

Recruiting and Retention

We carefully screen potential team members to ensure that they embody our core values and fit into our culture. By maintaining this emphasis and encouraging responsibility and accountability at every level, we believe that we have created a sense of team member loyalty and an open and interactive work environment, resulting in a highly passionate workforce. Our team members are paid competitive wages and are offered opportunities for advancement. In addition to competitive wages, store managers are eligible for performance-based bonuses. In order to preserve a singular culture within the stores that comprise the Jamba System, we share best practice information, qualifications and other relevant information to assist franchisees with hiring and retention.

Advertising and Marketing

In fiscal 2017, much of our advertising and marketing efforts focused on product innovation and the continued refinement of our digital eco-system. Through a variety of product centric innovations, we focused consumers' attention on the fresh fruits and vegetables that are used to make Jamba juices, smoothies and bowls, underscoring our commitment to providing healthier food and beverage options and fulfilling our mission of inspiring and simplifying healthy living. We continued our investment in our loyalty program and refined our on-line-ordering solution.

Jamba marketing, promotional and public relations activities are designed to promote the Jamba brand image and differentiate it from competitors. Marketing and promotional efforts focus on providing consumers with simple, easy-to-adopt solutions for pursuing a healthy active lifestyle and we continuously endeavor to improve our social responsibility and environmental practices to achieve long-term sustainability. We believe our marketing efforts in fiscal 2017 extended our reach and relevance to consumers.

Product Supply

We are committed to providing only the finest smoothies, juices, bowls and other food products. Smoothie, juice and bowl products depend heavily upon supplies of fresh and individually quick-frozen (“IQF”) fruit and vegetables. We have an established nationwide fresh produce supply chain in order to facilitate our made-to-order freshly squeezed juice platform. The quality of each beverage depends to a large degree on the quality of the basic fruit and vegetable ingredients from which it is made. It is essential that the supply of fruit and vegetables is of the

7

highest quality and is consistent throughout the year. To achieve these goals, we purchase our projected requirements for the coming year from suppliers at the height of the season. The supply and price of fresh and IQF fruit and vegetables are dependent upon the supply and demand at the time of purchase and are subject to volatility. Supply and price can be affected by multiple factors in the producing regions, including weather, natural disasters and national/regional political and economic conditions.

We buy certain produce and dairy using fixed priced or to-be-fixed priced purchase commitments to secure adequate supply of quality ingredients for our products. As a result, we have purchase obligations with certain suppliers for certain produce and dairy for various terms typically ranging from one year to three years. We depend on our relationships with our suppliers for our supply of produce, dairy and other products. While two distributors accounted for approximately 90% of the supplies delivered to our Company Stores, and also service our Franchise Stores, we believe, based on our established relationships with our suppliers, the risk of non-delivery on our purchase commitments is remote.

Our supply chain organization is funded by all stores across the Jamba System. This funding contributes to the cost of system-wide procurement and management of our supplies and supports our suppliers. The program allows for cost recovery of certain products purchased by Company Stores and Franchise Stores.

Competition

The retail beverage and food industry remains highly competitive and fragmented. Stores compete based on a number of factors, including quality, price-value relationships, customer service, name recognition, employee hiring and retention and location. We compete with international, national, regional and local retailers of beverage and food products, including quick service restaurants/fast food establishments, coffee shops, juice bars, donut shops, frozen yogurt shops and grocery stores. Competition in the beverage and food market is fragmented, and increasingly so, and a major competitor with substantially greater resources than us could enter the market at any time and compete directly against Jamba Juice stores.

We compete most directly with regional smoothie stores, most of which are franchises of other smoothie brands. The rising popularity of convenient and healthy food items resulted in increased competition from non-smoothie retailers as they increased their offerings of smoothies and other juice-related products. As we increase our food offerings, we have placed ourselves into direct competition with other quick serve food concepts with well established businesses.

Additionally, we face increasing competition from specialty juice bars and stores, which focus on made-to-order juices, juice blends, cold-press juices and fasting/cleansing packages. Many of these brands have cold-press direct-to-consumer capabilities that multiply the geographic reaches of their stores.

We also face intense competition from both restaurants and other specialty retailers for suitable sites for new stores and qualified personnel to operate both new and existing stores. There can be no assurance that we or our franchisees will be able to continue to secure adequate sites at acceptable rent levels or that we or franchisees will be able to attract a sufficient number of qualified personnel to operate our stores.

Government Regulation and Environmental Matters

Government Regulation. We and our franchisees are subject to extensive and varied federal, state and local government regulation, including regulations relating to public health and safety and zoning codes. We operate each of our stores in accordance with standards and procedures designed to comply with applicable codes and regulations. However, if we or our franchisees could not obtain or retain food or other licenses, it would adversely affect our operations. Although we have not experienced, and do not anticipate, any significant difficulties, delays or failures in

obtaining required licenses, permits or approvals, any such problem could delay or prevent the opening of, or adversely impact the viability of, a particular store or group of stores.

8

California and other states and local jurisdictions have enacted laws, rules, regulations and ordinances which may apply to the operation of a Company Store or a Franchise Store, including those which (a) establish general standards, specifications and requirements for the construction, design and maintenance of the store premises; (b) regulate matters affecting the health, safety and welfare of our customers, such as general health and sanitation requirements for restaurants; employee practices concerning the storage, handling, cooking and preparation of food; special health, food service and licensing requirements; restrictions on smoking; exposure to tobacco smoke or other carcinogens or reproductive toxicants and saccharin; availability of and requirements for public accommodations, including restrooms; (c) set standards pertaining to employee health and safety and mandatory health insurance; (d) set standards and requirements for fire safety and general emergency preparedness; (e) regulate the proper use, storage and disposal of waste, insecticides and other hazardous materials; (f) establish general requirements or restrictions on advertising containing false or misleading claims, or health and nutrient claims on menus or otherwise, such as “low calorie”, “healthy” or “organic”; (g) establish requirements concerning withholdings and employee reporting of taxes on tips; (h) regulate the amount or type of ingredients in food and beverages; and (i) regulate or ban the use of particular packaging materials.

In order to develop and construct more stores, we, or our franchisees, need to comply with applicable zoning, land use and environmental regulations. Federal and state environmental regulations have not had a material effect on our operations to date, but expansion of our menu offerings or more stringent and varied requirements of local governmental bodies with respect to zoning, land use and environmental factors could delay or even prevent construction and increase development costs for new stores. We, and our franchisees, are also required to comply with the accessibility standards mandated by the U.S. Americans with Disabilities Act, which generally prohibits discrimination in accommodation or employment based on disability. We may, in the future, have to modify stores, for example, by adding access ramps or redesigning certain architectural fixtures, to provide service to or make reasonable accommodations for disabled persons. While these expenses could be material, our current expectation is that any such action will not require us to expend substantial funds.

We are subject to the U.S. Fair Labor Standards Act, the U.S. Immigration Reform and Control Act of 1986 and various federal and state laws governing various matters including minimum wages, overtime meal and rest periods, accommodations to certain employees and other working conditions. Complying with these rules subjects us to substantial expense and can also expose us to liabilities from claims for non-compliance. In addition, we and our franchisees pay a significant number of our hourly staff at rates consistent with, but higher than, the applicable federal, state or local minimum wage. Accordingly, increases in the minimum wage would increase our labor cost. We are also subject to various laws and regulations relating to our current and any future franchise operations. See “Risk Factors - Governmental regulation may adversely affect our ability to open new stores or otherwise adversely affect our existing and future operations and results.”

We are also subject to various federal and state laws that regulate the offer and sale of franchises and aspects of the licensor-licensee relationships. Many state franchise laws impose restrictions on the franchise agreement, including the duration and scope of non-competition provisions, the ability of a franchisor to terminate or refuse to renew and the ability of a franchisor to designate sources of supply. The Federal Trade Commission, or the FTC, and some state laws also require that the franchisor furnish to prospective franchisees a franchise disclosure document that contains prescribed information and, in some instances, require the franchisor to register the franchise offering.

Environmental Matters

We and our franchisees are subject to federal, state and local environmental laws and regulations concerning the use of, among others, polystyrene products, and several counties in which our stores are located have already banned the use of our polystyrene cups. We continued to make progress on certain eco-sustainability initiatives first launched in 2009, including phasing out the use of polystyrene cups, as well as increasing the use of recyclable products and

reducing waste. At the beginning of 2016 we launched plastic cups, which are more easily recycled than the double-walled coated paper cups we introduced in 2013. Our other green initiatives include the use of more environmentally friendly packaging for our cup carriers, oatmeal cups and lids, breakfast clear cups and lids, spoons and napkins, all of which are made from recycled material. We have also reduced the amount of corrugated cardboard used for bulk shipping, reduced labeling requirements, and reduced freight, resulting in lower fuel emissions. We have established several optimization programs to reduce waste, such as participation in recycling and composting programs for our food waste, where it is feasible for us to do so.

Trademarks and Domain Names

We own and/or have applied to register numerous trademarks and service marks in the United States and in other jurisdictions throughout the world. Some of our trademarks, including Jamba Juice[®] and the Jamba logo are of material importance to the Company. The duration of trademark registrations varies from country to country. However, trademarks are generally valid and may be renewed indefinitely as long as they are in use and/or their registrations are properly maintained. In addition, the Company has registered and maintains numerous Internet domain names, including “jamba.com” and “jambajuice.com”.

Management Information Systems

Each Company Store has computerized point-of-sale registers, which collect transaction data used to generate pertinent information, including sales transactions and product mix. Additionally, the point-of-sale system is used to authorize, batch and settle credit card data. All product prices are programmed into the point-of-sale register from the Company’s corporate office. Franchise Stores generally use the same point-of-sale registers as Company Stores, but may elect to use alternative systems provided Company approval and certain information is shared with the Company. Franchisees set their own menu prices, usually with guidance from the Company.

Company Stores use the Company’s licensed labor management software to record employee time clock information, schedule labor and provide management reports. Company Stores and many Franchise Stores use the Company’s licensed food cost management software to improve inventory management and provide management reports.

Our continued focus on technological and procedural enhancements, in areas such as labor and inventory management, has relieved our store managers from manual administrative tasks and enables them to better focus on delivering exceptional customer service.

Seasonality

Our business is subject to day-to-day volatility based on weather and varies by season. A significant portion of the Company’s revenue is realized during the second and third quarters of the fiscal year, which include the summer months. The fourth quarter of the fiscal year, which encompasses the winter months and the holiday season, has traditionally been our lowest revenue volume quarter. Our business will likely continue to be subject to seasonal patterns for the foreseeable future, given that the largest portion of our sales continues to be from the sale of smoothies during the warmer parts of the year. Because of the seasonality of the business, results for an individual quarter are not necessarily indicative of the results, which may be achieved for the full fiscal year.

Executive Officers

Our executive officers, their respective ages and positions and descriptions of their business experience are set forth below. There are no family relationships among any of the executive officers named below.

David A. Pace, Chief Executive Officer, age 59

Mr. Pace is one of our directors as well as our Chief Executive Officer, and, as such, his biographical information is included below under Item 10 “Directors, Executive Officers and Corporate Governance”.

Marie L. Perry, Executive Vice President, Chief Financial Officer and Chief Administrative Officer, age 52

Ms. Perry has served as the Company's Chief Financial Officer, Executive Vice President and Chief Administrative Officer since August 2016 and served as the Company's Executive Vice President, Finance, from May 2016 to August 2016. From 2003 to 2016, Ms. Perry held roles leading all aspects of the Brinker International finance team including having served as interim CFO during a 12-month period, and most recently, serving as Senior Vice President, Controller and Treasurer. Ms. Perry also held senior finance and accounting roles at American Airlines and KPMG.

Claudia Schaefer, Senior Vice President and Chief Marketing Officer, age 49

Ms. Schaefer has served as the Company's Chief Marketing Officer and Senior Vice President since November 2017. Previously, Ms. Schaefer served as Chief Marketing Officer for Cheddar's Casual Café from January 2015 to November 2017. From 2008 to 2015, Ms. Schaefer served as Vice President of Marketing at Brinker International. From 2004 to 2008, Ms. Schaefer served as Vice President of International Restaurants for T.G.I. Friday's.

Joe Thornton, Senior Vice President, Chief Operations Officer, age 50

Mr. Thornton has served as the Company's Senior Vice President, Chief Operations Officer, since March 2017. Previously, Mr. Thornton served as Vice President, U.S. License Stores, for Starbucks Coffee Company from February 2016 to March 2017. From 2006 to 2016, Mr. Thornton held a variety of other leadership positions at Starbucks Coffee Company. From 1992 to 2006, Mr. Thornton held operational leadership roles at Blockbuster Video.

Employees

As of January 2, 2018, we employed approximately 933 persons, approximately 105 of whom were at our corporate offices or part of our field, direct selling and franchise support, operations, accounting, information technology and legal. The remainder of our team members was comprised of Company Store management and hourly store personnel. The Company also hires a significant number of seasonal team members during its peak selling seasons of the spring and summer. Our team members are not covered by a collective bargaining agreement. We consider our employee relations to be good. We place a priority on staffing our stores and support center positions with highly skilled team members who embrace our culture and we invest in training programs to ensure the quality of our store operations.

Available Information

Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to reports filed or furnished pursuant to Sections 13(a) and 15(d) of the Securities Exchange Act of 1934, as amended, are available on our website at <http://ir.jambajuice.com>, free of charge as soon as reasonably practicable after we electronically file such reports with, or furnish those reports to, the Securities and Exchange Commission (the "SEC"). The SEC also maintains an Internet site that contains reports, proxy and information statements and other information that we file electronically with the SEC at <https://www.sec.gov/edgar>. The public may also read and copy any materials that we file with the SEC at the SEC's Public Reference Room at U.S. Securities and Exchange Commission Office of FOIA/ PA Operations, 100 F Street, NE, Washington, DC 20549-2736. Investors may obtain information on the operation of the SEC Public Reference Room by calling the SEC at 1-800-SEC-0330. Our Corporate Governance Principles and Practices, Board of Directors committee charters (including the charters of the Audit Committee, Compensation and Executive Development Committee and Nominating and Governance Committee) and our code of ethics entitled "Code of Business Conduct and Ethics" also are available at that same location on our website. Information on our website is not incorporated into this annual report. Further, our references to the URLs for these websites are intended to be inactive textual references only. Shareholders may request free copies of these documents from:

investors@jambajuice.com

We included the certifications of the Chief Executive Officer and the Chief Financial Officer of Jamba, Inc. relating to the quality of our public disclosure, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related rules, in this Annual Report on Form 10-K as Exhibits 31.1 and 31.2 hereto.

11

ITEM 1A. RISK FACTORS

You should carefully consider the risks described below. If any of the risks and uncertainties described below actually occurs, our business, financial condition and results of operations could be materially and adversely affected. The risk factors listed below have been identified as material, however, are not exhaustive. Other sections of this Annual Report on Form 10-K include additional factors that could adversely impact our business, financial condition and results of operations. Moreover, we operate in a very competitive and rapidly changing environment. New factors emerge from time to time and it is not possible to predict the impact of all of these factors on our business, financial condition or results of operation.

RISKS RELATED TO OUR BUSINESS

The loss of our Chief Executive Officer, or one or more of our executive management team could adversely affect our business.

On January 22, 2016, David A. Pace who has been on our Board of Directors since 2012 was appointed Chief Executive Officer of the Company. Our success depends substantially on the contributions and abilities of our executive management team as well as other key employees. We believe that these individuals understand our operational strategies and priorities and the steps necessary to drive our long-term growth and shareholder value. Competition for personnel in our industry is strong and the ability to retain key employees can be difficult. While we have entered into employment agreements with each of our executive officers, we cannot make any assurances that we can retain these individuals for the period necessary for us to achieve and sustain profitability. Our failure to retain and motivate executive management, key employees and Chief Executive Officer sufficient to maintain a competitive position within our industry, and to implement our strategic priorities, would adversely affect our results of operations.

We may continue to experience disruptions to our business resulting from the relocation of our corporate headquarters and data center in 2016 which could adversely affect our operations, operating results and financial condition.

During 2016, we relocated our corporate headquarters from Emeryville, California to Frisco, Texas, a suburb of Dallas. In addition, we relocated our data center from Emeryville, California to Richardson, Texas, also a suburb of Dallas. We incurred expenses of approximately \$7.4 million as a result of the move, associated with personnel relocation, employee attrition, retention, severance and replacement, office relocation and other costs. The relocation is intended to, among other things, reduce costs, attract and retain talent and provide a more central location for our market expansion plans.

The relocation included our corporate operations including human resources, finance and accounting, information technology and legal teams, our data center and associated employees. The relocation resulted in significant employee turnover and the planned and unplanned loss of personnel led to business disruptions stemming from delays in filling vacant positions and a lack of personnel with institutional or procedural knowledge and experience. The relocation has also required significant management time and effort, greater than had been anticipated, which was not otherwise devoted to focusing on ongoing business operations and other initiatives and opportunities.

As previously disclosed in our Form 12b-25 filings with respect to our Form 10-K for our fiscal years ended January 2, 2018 and January 3, 2017 and Form 10-Q for our quarters ended April 4, 2017, July 4, 2017 and October 3, 2017, our financial statements were delayed as a result of significant changes occurring in fiscal 2016, including the relocation of our corporate office in fiscal 2016.

In addition, a material weakness in internal control over financial reporting resulted for 2016. Management has remediated the material weakness by implementing a plan to assess risks of material misstatement over financial reporting, including the enhancement of internal controls activities, and training of key process owners, and with the

oversight of the Audit Committee, dedicated significant incremental resources to successfully implement and test effectiveness of the enhanced control. As a result, throughout fiscal 2017, G&A expenses have been negatively impacted by the costs associated with the remediation plan, and the Company also expects additional associated expenses in fiscal 2018.

12

While we had implemented a transition plan to mitigate the risk relating to the relocation, the replacement and training of new personnel Company wide and transition of operating knowledge created unanticipated difficulties and delays in completing our year-end financials.

The expected benefits of the move may not be fully realized due to associated disruption to our operations and personnel. Any continued difficulties or disruptions could have an adverse effect on our business, results of operations or financial condition.

Our revenue is subject to volatility based on weather and varies by season and our operational results may be subject to unusual weather conditions.

Seasonal factors cause our revenue to fluctuate from quarter to quarter. The majority of our revenue results from the sale of smoothies, our revenue is typically lower during the winter months and the holiday season, and during periods of inclement weather (because fewer people choose cold beverages) and higher during the spring, summer and fall months (for the opposite reason). Unusual weather conditions, which may or may not result from climate change or other changes in global meteorological conditions, may add to this volatility. Unusual weather conditions may also have an adverse impact on agriculture, result in increased ingredients and raw materials costs, and adversely affect our results of operations.

We are subject to risks associated with climate change and climate change regulation.

Laws and regulations regarding climate change, energy usage and emissions controls may impact the Company directly through higher costs of goods. The potential impacts of climate change and climate change regulations are highly uncertain at this time, and the Company cannot anticipate or predict the material adverse effect on our financial condition, results of operations or cash flows as a result of climate change and climate change regulations. For instance, changes in the prevailing climate may result in a reduction in, or increased prices of available produce and packaging, which may adversely affect our revenue and operating margins.

Our financial results depend upon the operating results of our franchisees.

Following the implementation of our significant refranchising initiative, we receive a substantial portion of our revenues in the form of royalties and other franchise revenues, which are generally based on development fees, initial franchise fees and a percentage of sales at franchise-operated stores and Jamba Juice Expresses. Accordingly, our financial results to a large extent are dependent upon the operational and financial success of our franchisees. If sales trends or economic conditions worsen for our franchisees, their financial results may deteriorate and our royalty and other revenues may decline and our accounts receivable from franchisees and related allowance for doubtful accounts for our franchisees may increase.

We may not be successful in implementing our strategic priorities, which may have a material adverse impact on our business and financial results.

Our business depends upon our ability to implement our strategic priorities, which we believe necessary to support the Company's continued growth and long-term shareholder value. There can be no assurance that we will be able to continue to successfully implement our strategic priorities or whether these strategic priorities will be successful, and a failure of either could impede our growth and negatively affect our operating results.

We have a history of net losses and may incur losses in the future.

We have incurred net losses in seven of the last nine fiscal years. We may continue to incur net losses in the future, and we cannot assure you that we will ever sustain profitability. Continued losses could adversely affect our liquidity and cash reserves and could negatively affect our operating results.

Failure to establish and maintain our internal control over financial reporting may result in us not being able to accurately report our financial results which could result in the loss of investor confidence and adversely affect the market price of our common stock.

Management is responsible for establishing and maintaining adequate internal control over our financial reporting. For fiscal 2016, we disclosed a material weakness in our internal control over financial reporting related to ineffective risk assessment of the risks of material misstatement in financial reporting. This material weakness was related to significant changes in our business model, leadership, key personnel, and relocation of our corporate office. These changes resulted in a significant increase in non-routine transactions and impacted certain routine processes needed to effectively accumulate and present consolidated financial results. This material weakness affected the design, implementation and operation of controls over the preparation, analysis and review of significant balances and disclosures and impacted its ability to close the books in a timely manner. This material weakness also contributed to misstatements related to a number of significant accounts and disclosures.

As a result of this material weakness, our management concluded that our internal control over financial reporting was not effective for fiscal 2016. As described in Item 9A, we developed and implemented a remediation plan to address the material weakness in our internal control over financial reporting. We cannot, however, be certain that other material weaknesses and control deficiencies will not be discovered in the future. If additional material weaknesses or significant deficiencies in our internal controls are discovered or occur in the future, we may be unable to report our financial results accurately or on a timely basis, which could result in the loss of investor confidence and adversely affect the market price of our common stock.

A worsening of economic conditions or a decrease in consumer spending may substantially decrease our revenues and may adversely impact our ability to implement our business strategy.

To a significant extent, our success depends on discretionary consumer spending, which is influenced by general economic conditions and the availability of discretionary income. While economic conditions have been improving, there is no certainty that this trend will continue or that credit and financial markets and confidence in economic conditions will not deteriorate again. Accordingly, we may experience declines in revenue during economic turmoil or during periods of uncertainty. Any material decline in the amount of discretionary spending, leading cost-conscious consumers to be more selective in restaurants visited, could have a material adverse effect on our revenue, results of operations, business and financial condition.

The challenges of competing with the many food services businesses may result in reductions in our revenue and operating margins.

We compete with many well-established companies, food service and otherwise, on the basis of taste, quality and price of product offered, customer service, atmosphere, location and overall consumer experience. Our success depends, in part, upon the popularity of our products and our ability to develop new menu items that appeal to consumers across all four day-parts. Shifts in consumer preferences away from our products, our inability to develop new menu items that appeal to consumers across all day-parts, or changes in our menu that eliminate items popular with some consumers could harm our business. We compete with other smoothie and juice bar retailers, specialty coffee retailers, yogurt and ice cream shops, bagel shops, fast-food restaurants, delicatessens, cafés, take-out food service companies, supermarkets and convenience stores. Our competitors change with each of the four day-parts, ranging from coffee bars and bakery cafés to casual dining chains. Many of our competitors, or potential competitors, have substantially greater financial and other resources than we do, which may allow them to react to changes in the market quicker than we can. In addition, aggressive pricing by our competitors or the entrance of new competitors into our markets, could reduce our revenue and operating margins.

Fluctuations in various food and supply costs, particularly produce and dairy, could adversely affect our operating results.

Supplies and prices of the various products that we use to prepare our offerings can be affected by a variety of factors, such as weather, seasonal fluctuations, demand, politics and economics in the producing countries. These factors subject us to shortages or interruptions in product supplies, which could adversely affect our revenue and profits. In addition, the prices of fruit and dairy, which are the main products in our offerings, can be highly volatile.

The quality of produce we seek tends to trade on a negotiated basis, depending on supply and demand at the time of the purchase. An increase in pricing of any produce that we use in our products could have a significant adverse effect on our profitability. In addition, higher diesel and gasoline prices may affect our supply or transportation costs and may affect our profitability. Although we attempt to mitigate the risks of volatile commodity prices and allow greater predictability in pricing by entering into fixed price, or to-be-fixed price, purchase commitments for a portion of our produce and dairy requirements, we cannot assure you that these activities will be successful or that they will not result in our paying substantially more for our produce supply than would have been required absent such activities. Declines in sales may also adversely affect our business to the extent we have long-term purchase commitments in excess of our needs.

We are dependent upon a limited number of distributors for a significant amount of our food distribution for our Stores.

For Company Stores, we maintain food distribution contracts primarily with two regional distributors, Systems Services of America (“SSA”) and Gordon Food Services (“GFS”), which also service a majority of our Franchise Stores. SSA distributes to the Western United States, and GFS primarily distributes to the Eastern United States. Although we believe our relationship with these distributors will result in operational efficiencies and cost savings, we cannot assure you that we will be successful or that we will not have to pay substantially more for distributor services in the event GFS or SSA has operational problems. Should GFS or SSA have operational problems, our operations and our operating margins could be adversely affected.

We may face difficulties entering into new or modified arrangements with existing or new suppliers or new service providers.

If we expand our operations into new geographic areas through new Company Stores, Franchise Stores, Jamba Juice Express, or introduce new products with special manufacturing, storage or distribution requirements, we may have to seek new suppliers and service providers, or enter into new arrangements with existing ones. We may also encounter difficulties or be unable to negotiate pricing or other terms as favorable as those we currently enjoy, which could harm our business and operating results. For example, the potential growth in smaller format stores may cause the frequency of shipments to increase and the average number of cases per shipment to decrease, thereby increasing the Company’s per case shipment costs.

The Company’s success depends on the value of the Jamba Juice® brands.

The Jamba Juice® brand promise is to inspire and simplify healthful living. We believe we must preserve and grow the value of the Jamba Juice brands in order to be successful in building our business, and particularly in building a consumer products growth platform under the Jamba brands. Brand value is based in part on consumer perceptions, and the Jamba Juice brand has been highly rated in several recent brand studies. We intend to reinforce and extend these perceptions for the Jamba brands to help support our licensing efforts. Our brand building initiatives involve increasing our product offerings, opening new Franchise Stores and Jamba Juice Express platforms, and entering into licensing arrangements to increase awareness of our brands and create and maintain brand loyalty. Our franchisees and licensees are often authorized to use our logos and provide branded beverages, food and other products directly to customers. We provide training and support to, and monitor the operations of, these business partners, but the product quality and service they deliver may be diminished by any number of factors beyond our control, including financial pressures. We believe customers expect the same quality of products and service from our franchisees and licensees as they do from us. Any shortcoming of one of our business partners, particularly an issue affecting the quality of the service experience or the safety of beverages or food, may be attributed by customers to us, thus damaging our reputation and brand value and potentially affecting our results of operations. If our brand building initiatives are unsuccessful, or if business incidents occur that erode consumer perceptions of our brand, then the value of our

products may diminish and we may not be able to implement our business strategy.

15

We may experience higher than anticipated costs in connection with the refresh and remodel of existing Company Stores.

Updating the format and design of our Company Stores is important to maintaining a positive consumer association with the Jamba Juice brand. While we intend for such remodeling efforts to inure to the benefit of the Company, the associated costs may be higher than expected, and our revenues and expenses could be negatively impacted.

We may not be able to adequately protect our intellectual property, which could harm the value of our brand and adversely affect our business.

Our intellectual property is material to the conduct of our business. Our ability to implement our business plan successfully depends in part on our ability to build further brand recognition using our trademarks, service marks, trade dress and other proprietary intellectual property, including our name and logos and the unique ambiance of our stores, both domestically and overseas. We have secured the ownership and rights to our marks in the United States and have filed or obtained registrations in select classes including restaurant services in most other significant foreign jurisdictions. We undertake similar efforts to protect our brands in other relevant consumer product categories in relevant jurisdictions. If our efforts to protect our intellectual property are inadequate, or if any third party misappropriates or infringes on our intellectual property, the value of our store brand and our consumer products brands may be harmed, which could have a material adverse effect on our business. While we have not encountered material claims from prior users of intellectual property relating to restaurant services in areas where we operate or intend to conduct material operations in the near future, there can be no assurances that we will not encounter any material claims in the future. If so, this could harm our image, brands or competitive position and cause us to incur significant penalties and costs.

Our business could be adversely affected by increased labor or healthcare costs. Self-insurance plan claims could materially impact our results.

Labor is a primary component in the cost of operating our business. We compete with other employers in our markets for hourly workers and may become subject to higher labor costs as a result of such competition. We devote significant resources to recruiting and training our team members. A considerable number of the team members employed by us are paid at rates related to the federal minimum wage. Many of our Company Store team members work in stores located in states where the minimum wage is greater than the federal minimum wage and receive compensation equal to the state's minimum wage. The current minimum wage in California for businesses with 26 or more employees increased to \$11.00 per hour effective January 1, 2018, and increases each year until reaching \$15.00 per hour in 2022.

Moreover, municipalities may set minimum wages above the applicable state standards, such as in San Francisco, which raised the minimum wage to \$13.00 as of July 1, 2016, and will reach \$15.00 on July 1, 2018. Any further increases in the federal minimum wage or the enactment of additional state or local minimum wage increases where our employees may be located will increase our labor costs. Competition for employees in various markets could also result in higher required wage rates. Furthermore, the Company is self-insured for employee healthcare and dental benefits. The Company pays a substantial part of the healthcare benefits for team members at the general manager level and above and for those working at the Company's corporate office. The Company has a guaranteed cost Worker's Compensation policy effective October 1, 2016. Liabilities associated with our self-insured plans the Company retains are estimated in part, by considering historical claims experience, reserves and other actuarial assumptions. The estimated accruals for these liabilities are based on statistical analyses of historical industry data as well as the Company's actual historical trends. If actual claims experience differs from the Company's assumptions, historical trends, and estimates, changes in the Company's insurance reserves could materially impact our results of operations.

The Patient Protection and Affordable Care Act enacted in 2010, as well as other healthcare reform legislation being considered by Congress and state legislatures may have a material adverse impact on our business. We continue to monitor and evaluate any impact the Patient Protection and Affordable Care Act or alternative regulations may have on our business.

We are reliant on our outsourcing partner to provide effective administrative functions.

Since 2014, we have engaged a third party service provider to provide outsourced accounting, IT, human resources and contract management services. This may allow us to achieve efficiencies and cost savings, in part, through a reduction in our workforce. If our outsourcing partner fails to perform at a sufficient level to ensure our efficient operation, we may not have the resources to timely and efficiently take over those functions, and our financial performance might be adversely impacted as a result.

We are subject to all of the risks associated with leasing space subject to long-term non-cancelable leases.

We, and our franchisees, compete in the market for real estate and our, or their, inability to secure appropriate real estate or lease terms could impact our respective abilities to grow. Our leases generally have initial terms of between five and 15 years, and generally can be extended only in five-year increments if at all. We generally cannot cancel these leases. If an existing or new store is not profitable, and we decide to close it, as we have done in the past and may do in the future, we may nonetheless be committed to perform our obligations under the applicable lease including, among other things, paying the base rent for the balance of the lease term. Additionally, because we sublease the premises of Company Stores sold to franchisees in our refranchising program, we are still legally liable to the landlords under the prime leases, and we will need to assume obligations under the prime lease should a franchisee default on its sublease obligations. Current locations of our stores and franchised locations may become unattractive as demographic patterns change. In addition, as each of our leases expire, we may fail to negotiate renewals, either on commercially acceptable terms or at all, which could require us to close stores in desirable locations.

Our business and results may be subject to disruption from work stoppages, terrorism or natural disasters.

Our operations may be subject to disruption for a variety of reasons, including work stoppages, acts of war, terrorism, pandemics, fire, earthquake, flooding or other natural disasters. These disruptions can result in, among other things, lost sales when consumers stay home or are physically prevented from reaching our stores, property damage, lost sales when our stores are forced to close for extended periods of time and interruptions in supply when vendors suffer damages or transportation is affected. If a natural disaster were to occur near our headquarters and data center in Frisco, Texas, our corporate offices and data center may be damaged or destroyed. Such a disruption could result in the temporary or permanent loss of critical data, suspension of operations, delays in shipments of product, and disruption of business in both the affected region and nationwide, which would adversely affect our revenue and results of operations.

We are highly dependent on the financial performance of stores concentrated in certain geographic areas.

Our financial performance is highly dependent on stores located in California. Stores located in California comprise over 92% of Company Stores and generate a significant portion of our Company Store revenue. These stores also comprise approximately 47% of our total global system stores. If geographic regions in which we have a high concentration of stores experience significant economic pressures, our sales and operating results could be negatively impacted. In addition, state and local laws, government regulations, weather conditions and natural disasters affecting California and other regions where we have a high concentration of stores may have a material impact upon our operating results.

We may not realize the anticipated benefits of any acquisitions, joint ventures or strategic investments.

We expect to continue to evaluate and consider a wide array of potential strategic transactions, including acquisitions, joint ventures and strategic investments. At any given time, we may be engaged in discussions or negotiations with respect to one or more of these types of transactions. Any of these transactions could be material to our financial

condition and results of operations. We may not realize the anticipated benefits of any or all of our acquisitions, joint ventures or strategic investments, or we may not realize them in the time frame expected. Future acquisitions, joint ventures or strategic investments may require us to issue additional equity securities, spend a substantial portion of our available cash, or incur debt or liabilities, amortize expenses related to intangible assets or incur write-offs of goodwill, which could adversely affect our results of operations and dilute the economic and voting rights of our shareholders.

Governmental regulation may adversely affect our ability to open new stores or otherwise adversely affect our existing and future operations and results.

We, and our franchisees, are subject to various federal, state and local regulations. Each of our stores is subject to state and local licensing and regulation by health, sanitation, food and workplace safety and other agencies. We, and our franchisees, may experience material difficulties or failures in obtaining the necessary licenses or approvals for new stores, which could delay planned store openings. In addition, stringent and varied requirements of local regulators with respect to zoning, land use and environmental factors could delay or prevent development of new stores in particular locations.

Our operations are also subject to the U.S. Fair Labor Standards Act and National Labor Relations Act, which governs such matters as minimum wages, overtime and other working conditions, along with the U.S. Americans with Disabilities Act, family leave mandates and a variety of similar laws enacted by the states that govern these and other employment law matters. In recent years, there has been an increased legislative, regulatory, and consumer focus on nutrition and advertising practices in the food industry. Establishments operating in the quick-service and fast-casual segments have been a particular focus, and compliance with additional regulations can become costly and affect our operating results.

Our federal, state and local tax returns may, from time to time, be selected for audit by the taxing authorities, which may result in tax assessments, interest or penalties that could have a material adverse impact on our results of operations and financial position.

We are subject to federal, state and local taxes in the U.S. In making tax estimates and paying taxes, significant judgment is often required. Although we believe our tax positions and estimates are reasonable, if a taxing authority disagrees with the positions taken by the Company, we could have an additional tax liability, including interest and penalties. If material, payment of such additional amounts could have a material impact on our results of operations and financial position.

We rely heavily on information technology and a material failure of that technology could impair our ability to efficiently operate our business.

Our business operations rely heavily on information systems, including point-of-sale processing in our stores, management of our supply chain and distribution system, vendor and franchisee invoicing, and various other processes and procedures. The efficient management of our business depends significantly on the reliability and capacity of these systems, and any related failure and/or breach of security could cause delays in customer service and reduce efficiency in our operations. Significant capital investments might be required to remediate any problems.

Failure to protect the integrity and security of individually identifiable data of customers, vendors or employees could expose us to data loss, litigation and liability, and our reputation could be significantly harmed.

Our business operations require us to process and/or maintain certain personal, business and financial information about customers, vendors and employees. The use of such information by us is regulated by federal, state and foreign laws, as well as certain third party agreements. If our security and information systems are compromised or if our employees or franchisees fail to comply with the applicable laws and regulations, and this information is obtained by unauthorized persons or used inappropriately, it could adversely affect our reputation and result in litigation and settlement costs, damage awards, or penalties and fines. As privacy and information security law and regulations change, we may incur additional costs to ensure that we remain in compliance.

A failure or breach of our security systems or infrastructure as a result of cyber-attacks could disrupt our business, result in the disclosure or misuse of confidential or proprietary information, damage our reputation, increase our costs and cause losses.

Information security risks have significantly increased in recent years in part because of the proliferation of new technologies, the use of the Internet and telecommunications technologies to conduct financial transactions, and the increased sophistication and activities of organized crime, hackers, terrorists and other external parties. These threats may derive from fraud or malice on the part of our employees or third parties, or may result from human error or accidental technological failure. These threats include cyber-attacks such as computer viruses, malicious code, phishing attacks or information security breaches.

To date, we have not experienced any material impact relating to cyber-attacks or other information security breaches. Any actual attacks could lead to damage to our reputation, additional costs (such as repairing systems and investigation or compliance costs), penalties, financial losses to both us and our customers and partners and the loss of customers and business opportunities. If such attacks are not detected immediately, their effect could be compounded. As cyber-threats continue to evolve, we may be required to expend significant additional resources to continue to modify or enhance our protective measures or to investigate and remediate any information security vulnerabilities. Any of the risks described above could materially adversely affect our overall business and results of operations.

The new presidential administration may make substantial changes to regulatory policies that may adversely affect our business.

The new presidential administration has called for substantial change to various policies and regulations, including labor, healthcare, trade, tax and fiscal policy. We cannot predict the impact, if any, of these changes to our business. However, it is possible that these changes could adversely affect our business. It is likely that some policies adopted by the new administration will benefit us and others will negatively affect us. Until we know what changes are enacted, we will not know whether in total we benefit from, or are negatively affected by, the changes.

In December of 2017, the U.S. government enacted comprehensive tax legislation that includes significant changes to the taxation of business entities, including, among other provisions, a permanent reduction to the corporate income tax rate. The Act also eliminates Alternative Minimum Tax (“AMT”) in post-2017 tax years for corporations. Notwithstanding the reduction in the corporate income tax rate and the elimination of AMT, the overall impact of this tax reform is uncertain, and our business and financial condition could be adversely affected.

RISKS RELATED TO OUR FRANCHISE BUSINESS

Termination of an arrangement with a master developer could adversely impact our revenues.

We enter into relationships with “master developers” to develop and operate restaurants in defined domestic and international geographic areas. Master developers are granted exclusive rights with respect to larger territories than our typical franchisees. The termination of an arrangement with a master developer or a lack of expansion by certain master developers could result in the delay of the development and expansion of our business in our targeted markets. Any such delay or interruption could result in lower revenues for us, particularly if we were to choose to close stores following the termination of an arrangement with a master developer.

Our growth strategy depends on increasing franchise ownership.

Our current growth strategy is to continue to pursue an asset-light business model, and increasing the number of franchise locations as a percentage of all stores in the Jamba system. By emphasizing Franchise Store development,

we receive an increasingly significant amount of our revenues in the form of royalties from our franchisees. Accordingly, the success of our business is increasingly dependent upon the operational and financial success of our franchisees. This strategy is subject to risks and uncertainties, which may be concentrated where any particular franchisee owns a significant number of franchise locations. While our franchise agreements set forth certain operational standards and guidelines, we have limited control over how our franchisees' businesses are run, and any significant inability of our franchisees to operate successfully could adversely affect our operating results

through decreased royalty payments. We may not be able to identify franchisee candidates with appropriate experience and financial resources or to negotiate mutually acceptable agreements with those that do. Our franchisee candidates may not have access to the financial or management resources that they need to open or continue operating the stores contemplated by their franchise agreements with us. In addition, franchisees may not be able to find suitable sites on which to develop new stores or negotiate acceptable lease terms for the sites, obtain the necessary permits and government approvals or meet construction schedules. If our franchisees incur too much debt or if economic or sales trends deteriorate such that they are unable to repay existing debt, it could result in financial distress or even possible insolvency or bankruptcy. Some of our franchisees experienced financial pressures during fiscal 2017, 2016 and 2015. If a significant number of our franchisees become financially distressed, this could harm our operating results through reduced or delayed royalty payments or increased rent obligations for leased properties on which we are contingently liable.

Expansion into new geographic markets may present increased risks.

Franchise growth is planned in new geographic areas in the United States and select international markets. Our future results, and the results of new Franchise Stores, depend on various factors, including successful selection and expansion into these new geographic markets and market acceptance of the Jamba Juice experience. Those markets may have different competitive conditions, consumer tastes and discretionary spending patterns as compared to existing markets. As a result, those new stores may be less successful than stores in our existing markets. Consumers in a new market may not be familiar with the Jamba Juice brand, and we may need to build brand awareness in that market through greater investments in advertising and promotional activity than we originally planned. Franchisees may find it more difficult in new markets to hire, motivate and keep qualified employees who can project our vision, passion and culture. Stores opened in new markets may also have lower average store revenue than stores opened in existing markets, and may have higher construction, occupancy or operating costs than stores in existing markets. Furthermore, we may have difficulty in finding reliable suppliers or distributors or ones that can provide us, either initially or over time, with adequate supplies of ingredients meeting our quality standards. Revenue at stores opened in new markets may take longer to increase and reach expected revenue levels, and may never do so, thereby affecting our overall royalty income. As with the experience of other retail food concepts that have tried to expand nationally and internationally, we may find that the Jamba Juice concept has limited appeal to customers in new markets or we may experience a decline in the popularity of the Jamba Juice experience. Newly opened stores may not succeed, future markets and stores may not be successful and, even if we are successful, our average store revenue, and the royalty income generated therefrom, may not increase and may even decline.

Our efforts to expand internationally may not be successful and could impair the value of our brand.

Our current strategy includes international expansion in a number of countries around the world. Expanding into international markets will expose us to new risks and uncertainties, including product supply, import/export limitations and regulations to which we are not currently bound and may not be currently set up to handle, consumer preferences, occupancy costs, operating expenses and labor and infrastructure challenges. If stores open in international markets and such stores are unable to source inventory locally, franchisees may be required to import inventory from our U.S. distributors and any resulting import duties, tariffs, transportation or other charges may disproportionately impact such stores' cost of goods which could harm the viability of such stores. Finally, international operations have inherent risks such as foreign currency exchange rate fluctuations, the application and effect of local laws and regulations and enforceability of intellectual property and contract rights. Additionally, effectively managing growth can be challenging, particularly as we continue to expand into new international markets where we must balance the need for flexibility and a degree of autonomy for local management against the need for consistency with our goals, philosophy and standards. Failure of our international expansion strategy could have a material adverse impact on our results of operations.

Termination or non-renewal of franchise agreements may disrupt store performance.

Each franchise agreement is subject to termination by us in the event of default by the franchisee after the applicable cure period. Upon the expiration of the initial term of a franchise agreement, the franchisee generally has an option to renew for an additional term. There is no assurance that franchisees will meet the criteria for renewal or will desire or be able to renew their franchise agreements. If not renewed, a franchise agreement and payments required thereunder will terminate. We may be unable to find a new franchisee to replace such lost revenue. Furthermore, while we will be entitled to terminate franchise agreements following a default that is not cured within the applicable cure period, if any, the disruption to the performance of the stores could materially and adversely affect our business.

Our franchisees could take actions that harm our reputation and reduce our royalty revenue.

While we have franchise agreements in place with our franchisees that provide certain operational requirements, we do not exercise control over the day-to-day operations of our Franchise Stores. Any operational or developmental shortcomings of our Franchise Stores, including their failure to comply with applicable laws, are likely to be attributed to our system-wide operations in the eyes of consumers and could adversely affect our reputation and have a direct negative impact on the royalty revenue we receive from those and other stores.

We could face liability from our franchisees and from government agencies.

A franchisee or government agency may bring legal action against us based on the franchisor/franchisee relationship. Various state and federal laws govern our relationship with our franchisees and our potential sale of a franchise. If we fail to comply with these laws, we could be liable for damages to franchisees, fines or other penalties. Expensive litigation with our franchisees or government agencies may adversely affect both our profits and our important relations with our franchisees.

RISKS RELATED TO THE FOOD SERVICE BUSINESS

Litigation and publicity concerning food quality, health claims, and other issues can result in liabilities, increased expenses, distraction of management, and can also cause customers to avoid our products, which could adversely affect our results of operations, business and financial condition.

Food service businesses can be adversely affected by litigation and complaints from customers or government authorities resulting from food quality, health claims, allergens, illness, injury or other health concerns or operating issues stemming from one retail location or a number of retail locations. Adverse publicity about these allegations may negatively affect us, regardless of whether the allegations are true, by discouraging customers from buying our products.

Our customers occasionally file complaints or lawsuits against us alleging that we are responsible for some illness or injury they suffered at or after a visit to our stores, or that we have problems with food quality or operations. We are also subject to a variety of other claims arising in the ordinary course of our business, including false advertising claims, personal injury claims, contract claims and claims alleging violations of federal and state law regarding workplace and employment matters, discrimination and similar matters, and we could become subject to class action or other lawsuits related to these or different matters in the future. Regardless of whether any claims against us are valid, or whether we are ultimately held liable, claims may be expensive to defend and may divert time and money away from our operations and hurt our performance. A judgment significantly in excess of our insurance coverage, or for which we are not covered by insurance, could materially and adversely affect our financial condition or results of operations. Any adverse publicity resulting from these allegations may also materially and adversely affect our reputation or prospects, which in turn, could adversely affect our results.

In addition, the food services industry has been subject to a growing number of claims based on the nutritional content of food products they sell, and disclosure and advertising practices. We may also be subject to this type of proceeding in the future and, even if not, publicity about these matters (particularly directed at the quick-service and fast-casual segments of the industry) may harm our reputation or prospects and adversely affect our results.

We are also impacted by trends in litigation, including class-action allegations brought under various consumer protection laws, securities and derivative lawsuits claiming violations of state and federal securities law, and employee lawsuits, including wage and hour claims. We may also be impacted by litigation involving our relationship with franchisees and the legal distinction between our franchisees and us for employee claims based on, among other

things, wage and hour violations, discrimination, harassment, or wrongful termination, as these types of claims are increasingly asserted against franchisors on a co-employer theory by employees of franchisees.

Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the ultimate outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on our business, financial condition and results of operations. In addition, regardless of the outcome of any litigation or regulatory proceedings, these proceedings could result in substantial costs and may require that we devote

substantial resources to defend our Company and could affect the future premiums we would be required to pay on our insurance policies. Further, changes in governmental regulations could have adverse effects on our business and subject us to additional regulatory actions.

Food safety concerns and instances of food-borne illnesses could harm our customers, result in negative publicity and cause the temporary closure of some stores and, in some cases, could adversely affect the price and availability of fruits and vegetables, any of which could harm our brand reputation, result in a decline in revenue or an increase in costs.

We consider food safety a top priority and dedicate substantial resources toward ensuring that our customers enjoy high-quality, safe and wholesome products. However, we cannot guarantee that our internal controls and training will be fully effective in preventing all food-borne illnesses. Furthermore, our reliance on third-party food suppliers and distributors increases the risk that food-borne illness incidents (such as e. coli, hepatitis A, salmonella or listeria) could occur outside of our control and at multiple locations. Instances of food-borne illnesses, whether real or perceived, and whether at our stores or those of our competitors, could harm customers and otherwise result in negative publicity about us or the products we serve, which could adversely affect revenue. If there is an incident involving our stores serving contaminated products, our customers may be harmed, our revenue may decrease and our brand name and reputation may be impaired. If our customers become ill from food-borne illnesses, we could be forced to temporarily close some stores. In addition, we may have different or additional competitors for our intended customers as a result of making any such changes and may not be able to compete successfully against those competitors. Food safety concerns and instances of food-borne illnesses and injuries caused by food contamination have in the past, and could in the future, adversely affect the price and availability of affected ingredients and cause customers to shift their preferences, particularly if we choose to pass any higher ingredient costs along to consumers. As a result, our costs may increase and our revenue may decline. A decrease in customer traffic as a result of these health concerns or negative publicity, or as a result of a change in our menu or dining experience or a temporary closure of any of our stores, could materially and adversely impact our business, financial condition and results of operations.

RISKS RELATED TO OWNERSHIP OF COMMON STOCK

Failure of the Company's internal control over financial reporting could harm its business and financial results.

Our management is responsible for establishing and maintaining effective internal control over financial reporting. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of financial reporting for external purposes in accordance with accounting principles generally accepted in the United States. Internal control over financial reporting includes: (i) maintaining reasonably detailed records that accurately and fairly reflect our transactions; and (ii) providing reasonable assurance that we (a) record transactions as necessary to prepare the financial statements, (b) make receipts and expenditures in accordance with management authorizations; and (c) would timely prevent or detect any unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that we would prevent or detect a misstatement of our financial statements or fraud. Any failure to maintain an effective system of internal control over financial reporting could limit our ability to report our financial results accurately and timely or to detect and prevent fraud. In addition, we are required to comply with a variety of reporting, accounting and other rules and regulations. Compliance with existing requirements is expensive. Our accounting systems are older and require manual processing. We may need to implement additional finance and accounting systems and procedures and controls to comply with our reporting requirements. A significant financial reporting failure could cause an immediate loss of investor confidence in us and a sharp decline in the market price of our common stock.

In fiscal 2016, the Company underwent significant changes in its business model, leadership, key personnel, and relocation of its corporate office. These changes resulted in a significant increase in non-routine transactions and impacted certain routine processes needed to effectively accumulate and present consolidated financial results. The Company identified that its risk assessment process, which was intended to identify new transactions and changes to existing processes and design appropriate control activities over financial reporting, was not sufficient to prevent or detect material misstatement in a timely basis. Consequently, in fiscal 2016, a material weakness in internal control over financial reporting resulted from ineffective risk assessment of material misstatement in financial reporting. As disclosed in Item 9A, management remediated the material weakness identified in fiscal 2016 in our internal control over financial reporting related to its risk assessment process.

Our anti-takeover provisions may delay or prevent a change of control of us, which may adversely affect the price of our common stock.

Certain provisions in our corporate documents and Delaware law may delay or prevent a change of control of us, which could adversely affect the price of our common stock. For example, the Company's amended and restated certificate of incorporation and bylaws include anti-takeover provisions such as:

- limitations on the ability of shareholders to amend our charter documents, including shareholder supermajority voting requirements;
- the inability of shareholders to act by written consent or to call a special meeting absent the request of the holders of a majority of the outstanding common stock; and
- advance notice requirements for nomination for election to the board of directors and for shareholder proposals.

The Company is also afforded the protections of Section 203 of the Delaware General Corporation Law which prevents it from engaging in a business combination with a person who acquires at least 15% of its common stock for a period of three years from the date such person acquired such common stock, unless board of directors or shareholder approval is obtained.

Our stock price may fluctuate significantly.

The trading price of our common stock has been volatile and is likely to continue to be volatile. Our stock price could be subject to wide fluctuations in response to a variety of factors. The stock market has experienced significant price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of particular companies. Broad market factors, including the effect of international political instability, armed conflict, natural disasters, financial markets, and general economic conditions, may have a material adverse effect on our stock price, regardless of our actual performance.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The Company's headquarters were relocated to Frisco, Texas from Emeryville, California in the fourth quarter of fiscal year 2016. The Frisco facility is occupied under a lease for approximately 25,000 square feet, at a cost of approximately \$0.8 million per year with a lease term that expires on March 31, 2027. The Emeryville facility was occupied under a lease for approximately 37,000 square feet, at a cost of approximately \$1.2 million per year and has a lease term that expired on January 31, 2017.

The Company, including our franchisees, currently operates all of its stores under leases and typically signs five to 15 year leases. The Company does not intend to purchase real estate for any of its sites in the future. The Company believes that the size and flexibility of its format provide it with a competitive advantage in securing sites. At January 2, 2018, the Company served its customers primarily through a combination of Company Stores, Franchise Stores and International Stores in 33 different States, the District of Columbia, Indonesia, Taiwan, Thailand, South Korea, the Philippines, and the Middle East.

PART II

ITEM MARKET FOR JAMBA, INC.'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND
5. ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

The shares of Jamba, Inc. common stock are currently quoted on the NASDAQ Global Market under the symbol JMBA. The closing price per share of Jamba, Inc. common stock as reported on the NASDAQ Global Market on May 4, 2018, was \$9.30.

The following table sets forth, for the fiscal quarter indicated, the quarterly high and low closing sales prices of our shares of common stock as reported on the NASDAQ Global Market, as applicable, for each quarter during the last two fiscal years.

	Common Stock	
	High	Low
2017 First Quarter	10.35	8.86
2017 Second Quarter	8.69	6.77
2017 Third Quarter	10.15	7.45
2017 Fourth Quarter	8.95	7.65
2016 First Quarter	13.64	11.76
2016 Second Quarter	13.52	10.08
2016 Third Quarter	11.51	10.02
2016 Fourth Quarter	10.94	9.75

We have not historically paid any cash dividends on our common stock and do not currently have plans to pay any cash dividends. As of May 4, 2018, there were 90 holders of record of our common stock.

Securities Authorized for Issuance under Equity Compensation Plans

Our equity compensation plan information required by this item is incorporated by reference to the information in Part III, Item 12 of this Annual Report on Form 10-K.

Performance Graph

The following graph compares our cumulative total shareholder return since December 31, 2011 with the cumulative total return of (i) the NASDAQ Composite Index; (ii) the Russell 2000 Index; and (iii) Russell MicroCap Index. The graph assumes that the value of the investment in our common stock and each index (including reinvestment of dividends) was \$100 on January 3, 2012. The comparisons in the graph below are based on historical data and are not intended to forecast the possible future performance of our common stock. This performance graph shall not be deemed “soliciting material” or to be “filed” with the SEC for purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities under that Section, and shall not be deemed to be incorporated by reference into any of our filings under the Securities Act or the Exchange Act.

ITEM 6. SELECTED FINANCIAL DATA

The table below summarizes the Company's recent financial information. The historical information was derived from the Consolidated Financial Statements of Jamba, Inc. and subsidiary for the fiscal years ended January 2, 2018, January 3, 2017, December 29, 2015, December 30, 2014 and December 31, 2013. The data set forth below should be read in conjunction with the Consolidated Financial Statements and notes thereto in Item 8 and with Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7.

Total shareholders' (deficit) equity	(14,574)	(13,777)	4,991	16,745	26,842
Total liabilities and shareholders' (deficit) equity	40,648	41,620	69,616	92,489	97,916
Selected Operating Data ⁽²⁾					
Percentage change in Company Store comparable sales ⁽¹⁾	(1.3)%	0.8 %	1.5 %	2.8 %	0.5 %
Total Company Stores	53	66	70	263	268
Total Franchise Stores - Domestic	749	726	706	504	499
Total International Stores	71	70	75	62	48
Total Stores	873	862	851	829	815

(1) Percentage change in Company Store comparable sales compares the sales of Company Stores during the current fiscal year to the sales from the same Company Stores for the prior fiscal year. A Company Store is included in this calculation after its first full fiscal year of operations. Sales from Franchise and International Stores are not included in the Company Store comparable sales.

(2) As communicated on March 20, 2017, the Company now excludes Express format stores counts.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with Part II, Item 6 "Selected Financial Data" and our audited Consolidated Financial Statements and the related notes thereto included in Item 8 "Financial Statements and Supplementary Data." In addition to historical consolidated financial information, this discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Actual results could differ from these expectations as a result of factors including those described under Item 1A, "Risk Factors," "Special Note Regarding Forward-Looking Statements" and elsewhere in this Form 10-K.

JAMBA, INC. OVERVIEW

Jamba, Inc. through its wholly-owned subsidiary, Jamba Juice Company, is a global healthy lifestyle brand that inspires and simplifies healthful living through freshly blended whole fruit and vegetable smoothies, bowls, juices, cold-pressed shots, boosts, snacks, and meal replacements. Jamba's blends are made with premium ingredients free of artificial flavors and preservatives so guests can feel their best and blend the most into life.

We operate on a 52 or 53 week fiscal year ending on the Tuesday closest to December 31st. Our fiscal quarters are comprised of 13 weeks, with the exception of the fourth quarter of a 53 week year, which contains 14 weeks. Fiscal year 2017 contained 52 weeks, fiscal year 2016 contained 53 weeks and 2015 contained 52 weeks.

Fiscal 2017 Financial and Business Highlights

- Franchisees opened 49 new Jamba Juice stores globally; which included 25 traditional stores, 10 non-traditional stores, 4 drive thru stores and 10 International Stores. In addition, one non-traditional Company-store opened in 2017.
- At January 2, 2018, there were 873 stores globally, including 53 Domestic Company Stores, 749 Domestic Franchise Stores and 71 International Franchise Stores.
- Total revenue for the year decreased \$8.7 million to \$70.9 million from \$79.6 million for the prior year. primarily due to the decline in comparable store sales, store closures and the exit of JambaGO[®] and Ready to Drink during fiscal year 2016. Additionally, the refranchising of the Chicago market area resulted in fewer number of Company Stores due to our transition to an asset-light model further impacting revenue.
 - Company Store comparable sales decreased 1.3%. System-wide comparable sales (includes both Company and Franchise stores) declined 0.5% for the year. System-wide and Franchise Store comparable store sales are non-GAAP financial measures and represent the change in year-over-year sales, for stores opened for at least one full fiscal year.
- Net loss for fiscal 2017 improved to \$2.7 million compared to \$22.4 million for fiscal 2016.
- In the second quarter of fiscal 2017 we completed the refranchising of 13 company-owned operations in the Chicago area. The transaction included a development agreement to grow the market over the next several years.

RESULTS OF OPERATIONS

The discussion that follows should be read in conjunction with the Consolidated Financial Statements and notes thereto. The following table sets forth selected operating data as a percentage of total revenue (unless otherwise noted), of certain items included in our Consolidated Statements of Operations, for the periods indicated.

	Fiscal Year Ended ⁽¹⁾					
	January 2, 2018		January 3, 2017		December 29, 2015	
Revenue:						
Company stores	63.0	%	64.4	%	84.8	%
Franchise and other revenue	37.0	%	35.6	%	15.2	%
Total revenue	100.0	%	100.0	%	100.0	%
Costs and operating expenses:

(1) Cost of sales, labor, occupancy and store operating expense percentages are calculated using Company Stores revenue. All other line items are calculated using total revenue. Certain percentage amounts do not sum to total due to rounding.

Known Events, Trends or Uncertainties Impacting or Expected to Impact Comparisons of Reported or Future Results

Management reviews and discusses its operations based on both financial and non-financial metrics. Among the key financial metrics upon which management focuses is performance based on the Company's consolidated GAAP results, including Company Store comparable sales, franchise and other revenue, and income from operations. Management also uses certain supplemental, non-GAAP financial metrics in evaluating financial results, including

Franchise Store comparable sales and system-wide comparable sales.

Company Store comparable sales represents the change in year-over-year sales for all Company Stores opened for at least one full year. Franchise Store comparable sales, a non-GAAP financial measure, represents the change in year-over-year sales for all Franchise Stores opened for at least one full year, as reported by franchisees excluding International Stores. System-wide comparable store sales, a non-GAAP financial measure, represents the change in year over-year sales for all Company and Franchise Stores opened for at least one full year and is based on sales by both company-owned and domestic franchise operated stores, as reported by franchisees, which are in the store base. System-wide comparable store sales excludes International Stores, JambaGO® units and Jamba Juice Express™.

31

Company-owned stores that were sold in franchising transactions are included in the store base for each accounting period of the fiscal quarter in which the store was sold to the extent the sale is consummated at least three days prior to the end of such accounting period, but only for the days such stores have been company-owned. Thereafter, such stores are excluded from the store base until such stores have been franchise-operated for at least one full fiscal period at which point such stores are included in the store base and compared to sales in the comparable period of the prior year. Comparable store sales include closed locations for the periods in which they have comparable sales.

We review the increase or decrease in Company Store comparable sales, Franchise Store comparable sales and system-wide comparable sales compared with the same period in the prior year to assess business trends and make certain business decisions. We believe that Franchise Store comparable sales and system-wide comparable sales data, both non-GAAP financial measures, are useful in assessing the overall performance of the Jamba brand and, ultimately, the performance of the Company.

As a result of the 53-week fiscal 2016, reported 2017 comparable sales for fiscal comparisons are offset by one week. The comparable sales calculations presented in this Form 10-K accurately reflect the change in sales for comparable stores in the reported fiscal period. However, as a result of the one week offset, management also reviewed and previously reported comparable sales calculations on a calendar, rather than fiscal basis. Management believes this calendar comparison offers a clearer understanding of comparable sales performance of the business as it compares truly comparable time periods, rather than fiscal periods that compare periods with a one week shift.

During fiscal 2016, we underwent significant changes in our business model, leadership, key personnel, and relocation of our corporate office. These changes resulted in a significant increase in non-routine transactions and impacted certain routine processes needed to effectively accumulate and present consolidated financial results. We identified that our risk assessment process, which was intended to identify new transactions and changes to existing processes and design appropriate control activities over financial reporting, was not sufficient to prevent or detect material misstatement on a timely basis. Consequently, a material weakness in internal control over financial reporting resulted for fiscal 2016. As described in "ITEM 9A. Controls and Procedures," management has remediated the material weakness by implementing a plan to assess risks of material misstatement over financial reporting, including the enhancement of internal control activities, and training of key process owners. Management, with the oversight of the Audit Committee dedicated significant incremental resources to successfully implement and test effectiveness of the enhanced controls throughout fiscal 2017. G&A expenses have been negatively impacted by costs in connection with the remediation plan in fiscal 2017 and the Company also expects additional associated expenses in fiscal 2018.

On December 22, 2017 the U.S. government passed sweeping tax legislation with the "Tax Cuts and Jobs Act" which includes significant changes to the taxation of business entities. These legislative changes begin to take effect after December 31, 2017. These changes include, among others, (i) a permanent reduction of the corporate income tax rate to a flat 21%, (ii) a repeal of the corporate alternative minimum tax (AMT), (iii) changes to tax depreciation for first-year property, luxury automobiles and qualified leasehold improvements, (iv) a partial limitation on the deductibility of business interest expense, (v) for losses incurred after December 21, 2017 the NOL deduction is limited to 80% of taxable income with an indefinite carry forward and (vi) a disallowance of entertainment expenses but an expansion of the types of expenses allowable as a 50% business meal expenditure. Notwithstanding the reduction in the corporate income tax rate, the overall impact of this tax reform is uncertain, we continue to assess the impact of the recently enacted federal tax reform legislation on our business and our Consolidated Financial Statements.

Key Financial Metrics

The following table sets forth operating data that do not otherwise appear in our Consolidated Financial Statements for the periods indicated:

Increase / (decrease)	Fiscal year ended		
	January 2, 2018	January 3, 2017 ⁽³⁾	December 29, 2015
Percentage change in company store sales			
Company stores ⁽¹⁾	(1.3)%	0.8 %	1.5 %
Franchise stores	(0.4)%	(0.3)%	2.7 %
System-wide ⁽²⁾	(0.5)%	(0.2)%	2.3 %
Percentage change in comparable company store sales			
Traffic	(4.7)%	(2.4)%	(3.5)%
Average check	3.4 %	3.2 %	5.0 %
Total comparable company store sales			
	(1.3)%	0.8 %	1.5 %

Certain percentage amounts do not sum to total due to rounding.

- (1) Percentage change in comparable sales compares sales during the current fiscal year to sales from the same stores for the prior fiscal year. A store is included in this calculation after its first full fiscal year of operations. Company Store comparable sales excludes sales from Franchise and International Stores. Franchise Store comparable sales excludes sales from Company and, International Stores. Closed locations are included for the periods in which they have comparable sales.
- (2) Percentage change in system-wide comparable sales compares the combined sales of Company and Franchise Stores, during the current fiscal year to the combined sales from the same Company and Franchise Stores for the prior fiscal year. A Company or Franchise Store is included in this calculation after its first full fiscal period of operations. System-wide comparable store sales excludes International Stores, Jamba Juice Express, and JambaGO[®] locations. Closed locations are included for the periods in which they have comparable sales.
- (3) Year ended January 3, 2017 amounts are calculated based on 52 weeks.

The following table sets forth certain data relating to Company Stores, Franchise Stores and International Stores for the periods indicated:

	Fiscal Year Ended

(1) As communicated on March 20, 2017, the Company now excludes Express format stores counts. Store counts exclude Express in both 2016 and 2017 for comparability.

Revenue

Fiscal Year 2017 to Fiscal Year 2016

Total revenue is comprised of the revenue from Company Stores, royalties and fees from Franchise Stores in the U.S. and from International Stores, income from JambaGO[®] locations and license income from sales of Jamba-branded Consumer Packaged Goods (“CPG”) products.

The following table summarizes revenue for the periods indicated (dollars in thousands):

Fiscal Year Ended	% of Total Revenue	Fiscal Year Ended	% of Total Revenue
-------------------	--------------------	-------------------	--------------------

Edgar Filing: JAMBA, INC. - Form 10-K

	January 2, 2018		January 3, 2017		
Revenue:					
Company Stores	\$ 44,673	63.0	% \$ 51,282	64.4	%
Franchise and other revenue	26,253	37.0	% 28,341	35.6	%
Total revenue	\$ 70,926	100.0	% \$ 79,623	100.0	%

Total revenue in fiscal year 2017, decreased by \$8.7 million, or 10.9%, compared to fiscal year 2016. The decrease is primarily due to a reduction in the number of Company Stores for fiscal year 2017 compared to fiscal year 2016 due to refranchising activity and the exit of JambaGO®. We ended fiscal 2017 owning 53 Company Stores compared to 66 at the end of the prior year. Reductions in revenue were partially offset by an increase in the number of Franchise and International Stores in fiscal year 2017 as compared to fiscal year 2016.

Company Store revenue

Company Store revenue in fiscal year 2017, decreased by \$6.6 million or 12.9% compared to fiscal year 2016. The reduction in Company Store revenue is due to a reduction in the number of Company Stores as a result of refranchising activities, a reduction in the number of weeks in the fiscal year from 53 in fiscal 2016 to 52 in fiscal 2017, and the decline in comparable store sales, as illustrated by the following table (dollars in thousands):

	Company Store Increase / (Decrease) in Revenue 2017 vs. 2016
Company Store comparable sales	
increase / (decrease)	\$ (555)
Impact of 53rd operating week	(591)
Reduction in Company Store, net	(5,463)
Total change in Company Store revenue	\$ (6,609)

Company Store comparable sales decreased by \$0.6 million in fiscal year 2017, or 1.3%, attributable to a decrease of 4.7% in transaction count, partially offset by an increase in the average check amount of 3.4%.

Franchise and other revenue

Franchise and other revenue in fiscal year 2017, decreased by \$2.1 million, or 7.4%, compared to fiscal year 2016. The decrease was primarily due to the exit of JambaGO® and decreases in Franchise Store comparable store sales, partially offset by royalties generated from the net increase in the number of Franchise and International Stores. The number of Franchise Stores and International Stores grew to 820 as of January 2, 2018 compared to 796 as of January 3, 2017.

Fiscal Year 2016 to Fiscal Year 2015

Total revenue in fiscal year 2016 decreased \$82.1 million, or 50.8%, compared to fiscal year 2015. The following table summarizes revenue for the periods indicated (dollars in thousands):

Fiscal Year Ended	% of Total	Fiscal Year Ended	% of Total
January 3, 2017	Revenue	December 29, 2015	Revenue

Edgar Filing: JAMBA, INC. - Form 10-K

Revenue:						
Company Stores	\$ 51,282	64.4	%	\$ 137,025	84.8	%
Franchise and other revenue	28,341	35.6	%	24,651	15.2	%
Total revenue	\$ 79,623	100.0	%	\$ 161,676	100.0	%

Company Store revenue

Company Store revenue in fiscal year 2016 decreased by \$85.7 million or 62.6% compared to fiscal year 2015. The decrease in Company Store revenue is primarily due to the reduction of 179 Company Stores due to our refranchising strategy, partially offset by the increase in comparable store sales and the 53rd fiscal week, as illustrated by the following table (dollars in thousands):

	Company Store Increase / (Decrease) in Revenue 2016 vs. 2015
Company Store comparable sales	
increase / (decrease)	\$ 388
Impact of 53 rd operating week	735
Reduction in Company Store, net	(86,866)
Total change in Company Store revenue	\$ (85,743)

Company Store comparable sales increased by \$0.4 million in fiscal 2016, or 0.8%, attributable to a 3.2% increase in average check, offset by a 2.4% decrease in transaction count. The increase in average check was driven by product mix as we continue to increase the sales in bowl and higher ticket items.

Franchise and other revenue

Franchise and other revenue in fiscal year 2016, increased by \$3.7 million, or 15.0%, compared to fiscal year 2015. The increase was primarily due to royalties received on a larger base of Franchise and International Stores, fees recognized and the 53rd fiscal week and partially offset by Franchise Store comparable store sales decrease of 0.3%. Other revenue, which primarily includes revenue from CPG and JambaGO®, decreased by \$1.5 million or 25.6% to \$4.3 million, compared to \$5.8 million in fiscal year 2015.

The number of Franchise Stores and International Stores grew to 796 as of January 3, 2017 compared to 781 as of December 29, 2015.

Cost of sales

Cost of sales is primarily comprised of produce, dairy, and other products used to make smoothies and juices and paper products. The following table summarizes cost of sales for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2, 2018	January 3, 2017	December 29, 2015		
Cost of sales	\$10,231	\$12,601	\$33,737	(18.8)%	(62.6)%
Percentage of company stores revenue	22.9%	24.6%	24.6%		

Cost of sales in fiscal year 2017 as a percentage of Company Store revenue, decreased 1.7% compared to fiscal year 2016, primarily due to favorable commodity costs led by strawberries and mangos, and menu price increases. Cost of sales for fiscal year 2017 decreased by \$2.4 million compared to fiscal year 2016, primarily due to the decrease in number of Company Stores.

Cost of sales in fiscal year 2016 as a percentage of Company Store revenue, was unchanged compared to fiscal 2015 primarily due to favorable commodity pricing driven by strawberries and mangos and menu price increases, partially offset by product mix shift, increased discounts and change in store base. Cost of sales for fiscal year 2016 decreased by \$21.1 million compared to fiscal year 2015, primarily due to the decrease in number of Company Stores as a result of our transition to an asset-light model.

Labor

Labor costs are comprised of store management salaries and bonuses, hourly team member payroll, training costs and other associated fringe benefits. The following table summarizes labor costs for the periods indicated (dollars in thousands):

Edgar Filing: JAMBA, INC. - Form 10-K

	Fiscal Year Ended				
	January 2, 2018	January 3, 2017	December 29, 2015	% Change in 2017	% Change in 2016
Labor	\$ 15,653	\$ 17,872	\$ 44,732	(12.4)%	(60.0)%
Percentage of company stores revenue	35.0 %	34.9 %	32.6 %		

The 0.1% increase in labor in fiscal year 2017, as a percentage of Company Store revenue, was primarily attributable to increased wage rates, partially offset by changes in the composition of the store base. Labor costs for fiscal year 2017 decreased \$2.2 million compared to fiscal year 2016 primarily due to the decrease in number of Company Stores.

The 2.3% increase in labor in fiscal year 2016, as a percentage of Company Store revenue, was primarily attributable to the change in store base, increased wage rates, and reduced labor efficiency due to outages in the Company's labor scheduling system in the second and third quarters of 2016. These charges are partially offset by lower fringe benefits driven by worker's comp. Labor costs for fiscal year 2016 decreased by \$26.9 million compared to fiscal year 2015, primarily due to the decrease in number of Company Stores as a result of our transition to an asset-light model.

Occupancy

Occupancy costs include both fixed and variable portions of rent, common area maintenance charges, property taxes, licenses and property insurance for all Company Store locations. The following table summarizes occupancy costs for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2, 2018	January 3, 2017	December 29, 2015		
Occupancy	\$6,487	\$ 7,659	\$ 18,951	(15.3)%	(59.6)%
Percentage of company stores revenue	14.5 %	14.9 %	13.8 %		

The 0.4% decrease in occupancy costs in fiscal year 2017, as a percentage of Company Store revenue, was primarily due to changes in the composition of the store base partially offset by reduced leverage due to the decrease in sales. Occupancy costs for fiscal year 2017 decreased by \$1.2 million compared to fiscal year 2016, primarily due to the decrease in number of Company Stores.

The 1.1% increase in occupancy costs in fiscal year 2016, as a percentage of Company Store revenue, was primarily due to common area maintenance, property taxes, rent and insurance and partially offset by sales leverage. Occupancy costs for fiscal year 2016 decreased by \$11.3 million compared to fiscal year 2016, primarily due to the decrease in number of Company Stores as a result of our transition to an asset-light model.

Store operating expenses

Store operating expenses consist of various store-level costs such as utilities, marketing, repairs and maintenance, credit card fees and other store operating expenses. The following table summarizes store operating expenses for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2, 2018	January 3, 2017	December 29, 2015		
Store operating	\$8,228	\$ 9,285	\$ 25,152	(11.4)%	(63.1)%
Percentage of company stores revenue	18.4 %	18.1 %	18.4 %		

The 0.3% increase in store operating expense in fiscal year 2017, as a percentage of Company Store revenue, was primarily due to higher repairs, reduced leverage due to the decrease in sales, and change in composition of the store base. Total store operating expenses for fiscal year 2017 decreased by \$1.1 million compared to fiscal year 2016, primarily due to the decrease in the number of Company Stores.

The 0.3% decrease in store operating expense in fiscal year 2016, as a percentage of Company Store revenue, was primarily due to lower store-level advertising costs and sales leverage, partially offset by higher software and credit card expenses. Total store operating expenses for fiscal year 2016 decreased by \$15.9 million compared to fiscal year 2015, primarily due to the decrease in the number of Company Stores as a result of our transition to an asset-light model.

Depreciation and amortization

Depreciation and amortization expenses include the depreciation of fixed assets and the amortization of intangible assets. The following table summarizes depreciation and amortization for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2, 2018	January 3, 2017	December 29, 2015		
Depreciation and amortization	\$3,549	\$ 5,749	\$ 6,569	(38.3)%	(12.5)%
Percentage of total revenue	5.0 %	7.2 %	4.1 %		

The decrease in depreciation and amortization in fiscal year 2017, was primarily due to the disposition of assets from the previous Emeryville headquarters and store refranchising activity. The decrease in depreciation and amortization in fiscal year 2016, was primarily due to the discontinuation of depreciation relating to stores refranchised in the prior year which were partially offset by an increase in depreciation relating to capitalized information technology corporate programs and a correction of an immaterial prior period adjustment which overstated depreciation expense by approximately \$0.2 million for fiscal year 2016.

General and administrative (“G&A”)

G&A expenses include costs associated with our corporate headquarters (in Emeryville, California and Frisco, Texas), field supervision, performance related incentives, outside and contract services, accounting and legal fees, travel and travel-related expenses, share-based compensation and other G&A expenses. Also included in G&A are costs related to the move of the support center to Frisco, Texas, settlement and other legal costs. The following table summarizes G&A expenses for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2, 2018	January 3, 2017	December 29, 2015		
General and administrative	\$28,260	\$ 37,958	\$ 36,872	(25.5)%	2.9 %
Percentage of total revenue	39.8 %	47.7 %	22.8 %		

Total G&A expenses for fiscal year 2017 decreased by \$9.7 million compared to fiscal year 2016. The decrease is primarily due to lower 2017 expenses related to our Support Center relocation to Frisco, Texas compared to 2016, efficiencies gained from corporate structure changes resulting from our shift to an asset light model, and lower legal fees. These cost reductions were partially offset by an increase in audit and related expenses.

Total G&A expenses for fiscal year 2016 increased by \$1.1 million compared to fiscal year 2015. The increase was primarily due to costs related to our relocation to Frisco, Texas and legal settlement and liability for ongoing legal action and a correction for an immaterial understatement of prior period expenses in fiscal year 2016 which were partially offset by a decline in share-based compensation expenses and lower expenses related to our organizational changes resulting from our shift to an asset-light model. The increase in G&A expenses in fiscal year 2016 as a percentage of total revenue is primarily due to a fewer number of Company Stores contributing revenue as a result of our transition to an asset-light model.

Loss (gain) on disposal of assets

Loss (gain) on disposal of assets includes losses or gains from the sales of related furniture, fixtures and equipment and refranchising of Company Stores. The following table summarizes disposal of assets expenses for the periods indicated (dollars in thousands):

	Fiscal Year Ended			%	%
	January 1, 2018	January 3, 2017	December 29, 2015		
(Loss) gain on disposal of assets	\$688	\$ 790	\$ (21,609)	(12.9)%	(103.7)%
Percentage of total revenue	1.0 %	1.0 %	(13.4)%		

Loss on disposal of assets decrease by \$0.1 million in fiscal 2017 compared to fiscal year 2016, primarily due to an increase in disposal of fixed assets which related to the relocation of the Company's headquarters from Emeryville, California to Frisco, Texas in December 2016 partially offset by an increase in loss from refranchising Company-owned stores in the Chicago area which was completed in fiscal 2017.

For the fiscal year 2016, the Company recognized a loss on disposal of assets of \$0.8 million compared to a gain of \$21.6 million in fiscal year 2015. In fiscal 2016, the decrease in the disposal of assets gain relates to the gain on refranchising 179 Company Stores in fiscal 2015 relating to our transition to an asset-light model as well as a correction of an understated prior period loss.

Store pre-opening

Store pre-opening consists of costs incurred in connection with start-up and promotion of new store openings as well as rent from possession date to store opening date are expensed as incurred.

The following table summarizes store pre-opening for the periods indicated (dollars in thousands):

	Fiscal Year Ended			%	%
	January 1, 2018	January 3, 2017	December 29, 2015		
Store pre-opening	\$711	\$ 1,224	\$ 1,031	(41.9)%	18.7 %
Percentage of total revenue	1.0 %	1.5 %	0.6 %		

For the fiscal year 2017, store pre-opening decreased by \$0.5 million compared to fiscal year 2016. The decrease was due to pre-opening rent related to a Company store opened in fiscal 2017 compared to two Company stores in fiscal 2016. In addition, the decrease reflects a decrease in franchise store openings, 49 franchise stores opened in fiscal 2017 compared to 63 in fiscal 2016.

For the fiscal year 2016, store pre-opening increased by \$0.2 million compared to fiscal year 2015. The increase was primarily related to the opening of two Company Stores in fiscal 2016 and also juice bar remodels in fiscal 2016.

Impairment of long-lived assets

We evaluate long-lived assets for impairment when facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable.

The following table summarizes impairment of long-lived assets expenses for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2018	January 3, 2017	December 29, 2015		
Impairment of long-lived assets	\$—	\$ 3,410	\$ 2,523	(100.0)%	35.2 %
Percentage of total revenue	0.0%	4.3 %	1.6 %		

For the fiscal year 2017, impairment of long-lived assets decreased by \$3.4 million compared to fiscal year 2016. The Company had no impairment during the fiscal year 2017; the losses in fiscal year 2016 were related to impairment of fixed assets associated with JambaGO® exit and several operating stores.

For the fiscal year 2016, impairment of long-lived assets increased by \$0.9 million compared to fiscal year 2015. The increase was primarily related to the loss recorded to reflect assets associated with JambaGO® exit and other long-lived assets.

Store lease termination and closure

Store lease termination and closure costs consists of expenses incurred when closing a store. At the date the Company ceases use of a store under an operating lease, a liability is recorded for the net present value of any remaining lease obligations, net of estimated sublease income, if any.

The following table summarizes store lease termination expenses for the periods indicated (dollars in thousands):

	Fiscal Year Ended			% Change in 2017	% Change in 2016
	January 2018	January 3, 2017	December 29, 2015		
Store lease termination and closure	\$297	\$ 4,160	\$ 1,669	(92.9)%	149.3 %
Percentage of total revenue	0.4 %	5.2 %	1.0 %		

For the fiscal year 2017, store lease termination and closure decreased by \$3.9 million compared to fiscal year 2016. The decrease was primarily related to closing a newer Company Store and related fixed asset disposals before lease expiration in fiscal 2016.

For the fiscal year 2016, store lease termination and closure increased by \$2.5 million compared to fiscal year 2015. The increase was primarily related to closing a newer Company Store and related fixed assets before lease expiration.

Other operating, net

Other operating, net consists of income from breakage from our gift cards (known as jambacard®), gift card-related fees, expenses related to our franchisees, sublease income, international expenses, gain/loss on investments, bad debt expense and CPG and JambaGO® activities. The following table summarizes other operating, net for the periods

indicated (dollars in thousands):

	Fiscal Year Ended				
	January 2018	January 3, 2017	December 29, 2015	% Change in 2017	% Change in 2016
Other operating, net	\$ 15	\$ 1,083	\$ 1,795	(98.6)%	(39.7)%
Percentage of total revenue	0.0%	1.4 %	1.1 %		

For the fiscal year 2017, other operating, net decreased by \$1.1 million compared to fiscal year 2016. The decrease is primarily related to the exit of JambaGO®.

For the fiscal year 2016, other operating, net decreased by \$0.7 million compared to fiscal year 2015, changes in the components of other operating, net include an increase in sublease income from a higher number of subleased refranchise stores, a decrease in CPG and JambaGO® direct expense, a decrease in franchise related expenses and a correction for an immaterial understatement of prior period expenses and a decrease in franchise expenses. These changes were partially offset by a decrease in gift card breakage income.

Income tax expense/benefit

Income tax benefit in fiscal 2017 was \$0.7 million compared to an income tax expense of \$0.1 million for fiscal 2016. Our effective income tax rates were 19.7% and 0.4% for the fiscal years 2017 and 2016, respectively. Although the Company is in a taxable loss position in both fiscal years 2017 and 2016, the Company was able to release a portion of the valuation allowance against its alternative minimum tax (“AMT”) credit due to tax law changes, mainly the change in the deferred tax rate from 34% to 21%.

We recorded income tax expense for fiscal year 2016 and fiscal year 2015 and our effective income tax rates were 0.4% and 6.9%, respectively. The decrease in income tax expense was primarily due to the fact that the Company had a large pre-tax net loss in fiscal year 2016.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of Consolidated Financial Statements in conformity with GAAP requires the appropriate application of certain accounting policies, many of which require us to make estimates and assumptions about future events and their impact on amounts reported in our Consolidated Financial Statements and related notes. Since future events and their impact cannot be determined with certainty, actual results may differ from our estimates. Such differences may be material to the Consolidated Financial Statements.

We believe our application of accounting policies, and the estimates inherently required therein, are reasonable. These accounting policies and estimates are periodically reevaluated, and adjustments are made when facts and circumstances dictate a change.

Our accounting policies are more fully described in Note 1 “Business and Summary of Significant Accounting Policies” in the “Notes to Consolidated Financial Statements,” included elsewhere in this Form 10-K. We consider the following policies to be the most critical in understanding the judgments that are involved in preparing the Consolidated Financial Statements.

Impairment of Long-Lived Assets

We evaluate long-lived assets for impairment when facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable. The impairment evaluation is generally performed at the individual store asset group level. We first compare the carrying value of the asset to the asset’s estimated future undiscounted cash flows. If the estimated future cash flows are less than the carrying value of the asset, we measure an impairment loss based on the asset’s estimated fair value. The fair value of a store’s assets is estimated using a discounted cash flow model based on internal projections and taking into consideration the view of a market participant. The estimate of cash flows is based on, among other things, certain assumptions about expected future operating performance. Factors considered during the impairment evaluation include factors related to actual operating cash flows, the period of time since a store has been opened or remodeled, refranchising expectations and the maturity of the relevant market.

Our estimates of cash flows used to assess impairment are subject to a high degree of judgment. If our estimates of future cash flows differ from actual cash flows due to, among other things, changes in economic conditions, changes to our business model or changes in operating performance, it would result in an adjustment to results of operations.

Goodwill

We evaluate goodwill for impairment on an annual basis during our fourth fiscal quarter, or more frequently if circumstances, such as material deterioration in performance, indicate carrying values may exceed their fair values. In September 2011, the FASB issued new guidance allowing an entity the option to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it should calculate the fair value of a reporting unit. If impairment is deemed more likely than not, management would perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. First, the reporting unit's estimated fair value is compared to its carrying value, including goodwill. If we determine that the estimated fair value of the reporting unit is less than its carrying value, we move to the second step to determine the implied fair value of the reporting unit's goodwill. If the carrying amount of the reporting unit's goodwill exceeds its fair value, an impairment loss is recognized. When reviewing goodwill for impairment, we assess whether goodwill should be allocated to operating levels lower than our single operating segment for which discrete financial information is available and reviewed for decision-making purposes. These lower levels are referred to as reporting units. Currently, our one operating segment was determined to be one reporting unit. Considerable judgment is applied in determining the assumptions used in the qualitative evaluation and in computing fair value. Changes in the assumptions could result in an adjustment to our results of operations.

Other Intangible Assets with Indefinite Lives

We evaluate intangible assets not subject to amortization (primarily trademarks) for impairment on an annual basis during the fourth fiscal quarter, or more frequently if events or changes in circumstances indicate that the asset might be impaired. We qualitatively assess the impairment for other intangible assets not subject to amortization to determine whether it is more likely than not that the fair value of intangible assets are less than their carrying amount. For other intangible assets not subject to amortization not assessed qualitatively, a quantitative approach is utilized. We compare the carrying value of the applicable asset to its fair value, which we estimate using a discounted cash flow analysis or by comparison with the market values of similar assets. If the carrying amount of the asset exceeds its estimated fair value, we determine the impairment loss, if any, as the excess of the carrying value of the intangible asset over its fair value. Changes in the assumptions for the discounted cash flow analysis could result in an adjustment to our results of operations.

Other Intangible Assets with Finite Lives

Intangible assets subject to amortization (primarily franchise agreements, reacquired franchise rights, favorable lease intangible assets and acquired customer relationships) are tested for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Actual results may differ from our estimates and could cause an adjustment to results of operations.

Gift Card Breakage

We sell our gift cards to our customers in our retail stores, through our website at www.jambajuice.com and through our resellers. We have sold gift cards since November of 2002. The gift card works as a reloadable card. At the time of the initial load, in an amount between \$5 and \$500, we record an obligation that is reflected as gift card liability on the Consolidated Balance Sheets. We relieve the liability and record the related revenue at the time a customer redeems any part of the amount on the card. The card does not have any expiration provisions and is not refundable, except as otherwise required by law.

We recognize income from gift cards when (i) the gift card is redeemed by the customer or (ii) the likelihood of the gift card being redeemed by the customer is remote (also referred to as "breakage"), and we determine that we do not

have a legal obligation to remit the value of unredeemed gift cards to the relevant jurisdictions. We determine the gift card breakage amount based upon historical redemption patterns. We review the activity and then conclude that after a certain amount of inactivity the likelihood of redemption becomes remote, and we recognize breakage at that time. Gift card breakage income is included in other operating, net in the Consolidated Statements of Operations. If the historical redemption pattern changes, our financial statements could be materially affected.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities due to a change in tax rates is recognized in income in the period that includes the enactment date. In establishing deferred income tax assets and liabilities, judgments and interpretations are made based on enacted tax laws and published tax guidance applicable to the Company's operations. The Company records deferred tax assets and liabilities and evaluates the need for valuation allowances to reduce deferred tax assets to amounts more likely than not of being realized. Changes in the valuation of the deferred tax assets or changes in the income tax provision may affect the Company's annual effective income tax rate.

Uncertain tax positions are recognized as the greatest amount more than 50% likely of being sustained upon audit based on the technical merits of the position. On a quarterly basis, the Company reviews and updates its inventory of tax positions as necessary to add any new uncertain tax positions taken, or to remove previously identified uncertain positions that have been effectively settled. Additionally, uncertain positions may be re-measured as warranted by changes in facts or law. Accounting for uncertain tax positions requires significant judgments, including estimating the amount, timing and likelihood of ultimate settlement. Although the Company believes that these estimates are reasonable, actual results could differ from these estimates. The Company classifies interest and penalties related to income taxes as a component of income taxes in the Consolidated Statements of Operations.

A liability related to an unrecognized tax benefit is offset against a deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. In situations in which a net operating loss carryforward, a similar tax loss or a tax credit carryforward is not available at the reporting date under the tax law of a jurisdiction or the tax law of a jurisdiction does not require it, and the Company does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit is presented in the financial statement as a liability and is not combined with deferred tax assets.

Share-based Compensation

The Company's share-based compensation relates to stock options and restricted stock units. We account for share-based compensation at fair value. Compensation expense is recognized for any unvested stock option awards and time-based restricted stock awards on a straight-line basis or ratably over the requisite service period, generally three or four years. The fair value of stock options granted is estimated at the date of grant using a Black-Scholes option-pricing model. Option valuation models, including Black-Scholes, require the input of subjective assumptions, including expected volatility, risk-free rate, expected term, and estimated dividend yield, and changes in the assumptions used can materially affect the grant date fair value of an award. Judgment is applied in determining the assumptions for computing the fair value of share-based compensation. Prior to fiscal 2017, for all award types, the Company made assumptions for the number of awards that would ultimately not vest ("forfeitures") in determining the share-based compensation expense for these awards. The Company used historical data to estimate expected employee behaviors related to option exercised and forfeit. Compensation expense was trued up for actual forfeitures if different than the estimate. Beginning in fiscal 2017, the Company recognizes forfeitures as they occur.

The fair value of time-based restricted stock units is determined based on our closing stock price on the date of the grant. The restricted stock units granted to employees typically vest and become unrestricted generally over a three or four year period following the date of grant. The restricted stock units granted to non-employee directors typically vest and become unrestricted one year after the date of grant. Performance-based restricted stock units ("PSUs")

typically vest upon the Company satisfying certain performance targets and are granted to employees and non-employees. The Company records compensation expense for PSUs when it is probable that the performance condition(s) included in the grant will be achieved. The compensation expense ultimately recognized, if any, related to these awards will equal the grant date fair value for the number of shares for which the performance condition has been satisfied.

In addition, we grant market-based restricted stock units to certain employees. The fair value was determined using a Monte Carlo simulation that incorporated option-pricing inputs covering the period from the grant date through the end of the performance period as of the date of grant. These restricted stock units typically vest and become unrestricted upon achievement of compound annual stock price growth rate targets of 15%, 22.5% and 30% over a three-year period. Share-based compensation expense is recognized ratably over the vesting periods for market-based restricted stock units.

Self-Insurance Reserves

We are self-insured for healthcare benefits. The estimated accruals for these liabilities are based on statistical analyses of historical industry data as well as actual historical trends. For our workers' compensation benefits, the Company has a guaranteed cost policy. Before October 1, 2015, we were self-insured and currently have prior years with exposures from September 30, 2012 through September 30, 2015. For these prior policies, liabilities associated with the risks that we retain for workers' compensation benefits are estimated in part, by considering historical claims experience, demographic factors, severity factors, and other actuarial assumptions. Our estimates use this actuarial data in conjunction with known industry trends and Company experience. If actual claims experience differs from our assumptions, historical trends, and estimates, changes in our insurance reserves would impact the expense recorded in our Consolidated Statements of Operations.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows Summary

The following table summarizes our cash flows for each of the past three fiscal years ended (in thousands):

	January 2, 2018	January 3, 2017	December 29, 2015
Net cash provided by (used in) operating activities	\$ 4,072	\$(7,044)	\$(14,610)
Net cash provided by (used in) investing activities	(1,875)	(6,637)	42,344
Net cash provided by (used in) financing activities	700	1,084	(25,754)
Net increase (decrease) in cash and cash equivalents	\$ 2,897	\$(12,597)	\$ 1,980

Liquidity

January 2, 2018, we had cash and cash equivalents of \$10.0 million compared to \$7.1 million in cash and cash equivalents as of January 3, 2017. As of January 2, 2018 and January 3, 2017, we had no short term or long term debt. For fiscal year 2017, cash provided by operating activities was \$4.1 million.

In fiscal 2016, we incurred approximately \$7.4 million in expense and \$2.1 million of capital expenditures related to the relocation of our corporate headquarters. Costs incurred in fiscal year 2016 include personnel relocation, employee attrition, retention, severance and replacement, office relocation and other costs related to our relocation of our corporate headquarters.

We expect that our cash on hand and future cash flows provided by operating activities will be sufficient to fund our working capital and general corporate needs and any non-discretionary capital expenditures for at least the next twelve months and the foreseeable future. The use of cash to fund discretionary capital expenditures will be based on the need to conserve our capital.

On February 14, 2012, the Company entered into a Credit Agreement with Wells Fargo Bank, National Association (the "Lender"), and as amended on November 1, 2012, July 22, 2013, November 4, 2013 and December 29, 2015 (as amended, the "Credit Agreement"), made available to the Company a revolving line of credit in the amount of \$10.0 million. On July 22, 2016, the Credit Agreement with Wells Fargo expired. On November 3, 2016,

we entered into a credit agreement with Cadence Bank, NA (“New Credit Agreement”). The New Credit Agreement provides an aggregate principal amount of up to \$10.0 million. The New Credit Agreement also allows us to request an additional \$5.0 million for an aggregate principal amount of up to \$15.0 million.

The New Credit Agreement makes available to the Company a revolving line of credit in the amount of up to \$15.0 million which accrues interest at a per annum rate equal to the LIBOR rate plus 2.50%. Under the terms of the New Credit Agreement, we are required to maintain certain leverage and coverage ratios and are subject to limits on annual capital expenditures. The New Credit Agreement terminates November 3, 2021. The credit facility is subject to customary affirmative and negative covenants for credit facilities of this type, including limitations on the Company with respect to liens, indebtedness, investments, fundamental changes (merge, dissolve, liquidate, etc.), dispositions, restricted payments and guarantees. The credit facility is evidenced by a revolving loan, is guaranteed by the Company and is secured by substantially all of our assets including the asset of our subsidiary.

To acquire the New Credit Agreement, the Company incurred upfront fees, which are being amortized over the term of the Credit Agreement. As of January 2, 2018, the unamortized commitment fee for the New Credit Agreement was not material and is recorded in prepaid expenses and other current assets on the Consolidated Balance Sheets.

As of January 2, 2018, the Company was in compliance with the financial covenants to the New Credit Agreement. Since the inception of the Wells Fargo line of credit and the New Credit Agreement, we did not borrow on the facilities and utilized them primarily for collateral against letters of credit, which reduce the amount available to draw. As of January 2, 2018, there were \$0.3 million letters of credit outstanding. In the future, we may enter equipment leasing arrangements and incur additional indebtedness as necessary and as permitted under our New Credit Agreement. We cannot assure, however, that such financing will be available on favorable terms or at all. The adequacy of our available funds will depend on many factors, including the macroeconomic environment, the operating performance of our Company Stores, the successful expansion of our franchise and licensing programs and the successful rollout and consumer acceptance of our new beverage and food initiatives. Given these factors, our foremost priorities for the near term continue to be preserving and generating cash sufficient to fund our liquidity needs.

Operating Activities

Net cash provided by operating activities was \$4.1 million in fiscal 2017, compared to net cash used of \$7.0 million in fiscal 2016, reflecting an increase in cash flows provided by operating activities of \$11.1 million. The change in cash provided by operating activities was primarily due to the net loss of \$2.7 million in fiscal 2017, versus net loss of \$22.4 million in fiscal 2016, adjusted for a decrease in non-cash items (approximately \$11.4 million) and an increase of cash used in operating assets and liabilities (approximately \$3.6 million). Cash flows relating to operating assets and liabilities increased compared to prior year primarily due to our asset-light model initiative and also an increase in the accrued gift card liability. The Company expects that operating cash flow will be generated through a combination of Company Store profitability and franchise royalty fees and a reduced cost structure.

Net cash used in operating activities was \$7.0 million in fiscal 2016, compared to \$14.6 million in fiscal 2015, reflecting a decrease in cash flows used in operating activities of \$7.6 million. The change in cash used in operating activities was primarily due to the net loss of \$22.4 million in fiscal 2016, versus net income of \$9.5 million in fiscal 2015, adjusted for an increase in non-cash items (approximately \$33.1 million) and an increase of cash used in operating assets and liabilities (approximately \$6.4 million). Cash flows relating to operating assets and liabilities increased compared to prior year primarily due to our asset-light model initiative.

The amount of cash provided by our operating activities during any particular fiscal year is highly subject to variations in the seasons. The first and fourth quarters of the fiscal year encompasses the winter and holiday season when we

traditionally generate our lowest revenue, and our second and third quarters of the fiscal year encompasses the warmer seasons where a significant portion of our revenue and cash flows are realized. For more information on seasonality, refer to the section below entitled “Seasonality and Quarterly Results.” We also expect to have increased expenditures during the first part of the fiscal year as we invest in product development and domestic expansion with the goal to have new products released and new stores open by mid-year to take advantage of the busier summer months.

45

Investing Activities

Net cash used in investing activities was \$1.9 million in fiscal 2017, compared to \$6.6 million in fiscal 2016. The \$4.7 million change in net cash used in investing activities during fiscal 2017 was due to a decrease in capital expenditures. Fiscal 2016 included capital expenditures related to the headquarter move to Frisco, TX.

Net cash used in investing activities was \$6.6 million in fiscal 2016, compared to net cash provided by investing activities of \$42.3 million in fiscal 2015. The \$48.9 million change in net cash used in investing activities during fiscal 2016 was primarily due to a decrease in proceeds from disposal of fixed assets (approximately \$49.9 million) due to our transition to an asset-light model that occurred in fiscal year 2015.

Financing Activities

Net cash provided by financing activities was \$0.7 million in fiscal 2017, compared to \$1.1 million in fiscal year 2016. The \$0.4 million change in net cash provided by financing activities was primarily due to the exercise of stock options.

Net cash provided by financing activities was \$1.1 million in fiscal 2016, compared to net cash used in financing activities of \$25.8 million in fiscal year 2015. The \$26.9 million change in net cash provided by financing activities was primarily due to the repurchase of the shares of our common stock (approximately \$28.0 million) under the stock repurchase plan approved by our Board of Directors in 2014 that occurred during fiscal 2015, partially offset by a decrease in receipts from our stock issuance plans, including from the exercise of stock options (approximately \$0.7 million).

Contractual Obligations

The following table summarizes contractual obligations and borrowings as of January 2, 2018, and the timing and effect that such commitments are expected to have on our liquidity and capital requirements in future periods. We expect to fund these commitments primarily with operating cash flows generated in the normal course of business (in thousands):

	Payments Due by Period				
	Total	Less Than 1 Year	1 - 2 Years	3 - 4 Years	5 or More Years
Operating lease obligations ⁽¹⁾	\$105,429	\$ 24,601	\$21,605	\$31,081	\$ 28,142
Purchase obligations ⁽²⁾	27,153	18,626	1,570	2,783	4,174
Total	\$132,582	\$ 43,227	\$23,175	\$33,864	\$ 32,316

(1) Our wholly owned subsidiary, Jamba Juice Company, is a party to each Company Store and certain refranchised stores' lease obligation. The operating lease obligations represent future minimum lease payments under non-cancelable operating leases and lease termination fees as of January 2, 2018. The minimum lease payments do not include common area maintenance ("CAM") charges, insurance, contingent rent obligations or real estate taxes, which are also required contractual obligations under our operating leases. In the majority of our operating leases, CAM charges are not fixed and can fluctuate from year to year. Total CAM charges, insurance, contingent rent obligations, license, permits and real estate taxes related to Company Stores and the corporate support center for our fiscal year ended January 2, 2018 were \$2.2 million.

(2) We negotiate pricing and quality specifications for many of the products used in Company Stores and Franchise Stores. This allows for volume pricing and consistent quality of products that meet our standards. Although we negotiate and contract directly with manufacturers, co-packers or growers for our products, we purchase these products from third-party centralized distributors. These distributors source, warehouse and deliver specified products to both Company Stores and Franchise Stores. The Company has purchase obligations with certain suppliers for certain fruits and dairy for various terms typically ranging from less than one year to five years. The Company has one contract with a supplier for a 15 year term that ends in 2024.

46

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

New Accounting Standards

See the Recent Accounting Pronouncements section in Note 1 of our Notes to Consolidated Financial Statements for a summary of new accounting standards.

SEASONALITY AND QUARTERLY RESULTS

Our business is subject to day-to-day volatility based on weather and varies by season. A significant portion of our revenue is realized during the second and third quarters of the fiscal year, which include the summer months. The fourth quarter of the fiscal year, which encompasses the winter months and the holiday season, has traditionally been our lowest revenue volume quarter. Although we have expanded the number of stores offering our bowls, hot oatmeal, hot beverages, sandwiches and Artisan Flatbread selections, our business will likely continue to be subject to seasonal patterns for the foreseeable future, given that the largest portion of our sales continues to be from the sale of smoothies during the warmer parts of the year. Because of the seasonality of the business, results for an individual quarter are not necessarily indicative of the results, which may be achieved for the full fiscal year.

INFLATION

Historically, inflation has not had a material effect on our results of operations. However, we experienced inflationary impacts on food and beverage costs and labor rates during the current year. Based on currently enacted legislation related to state and/or county mandated minimum wage laws, we may continue to experience labor rate inflation in the coming years. In addition, some of our leases require us to pay taxes, maintenance, repairs and utilities and these costs are subject to inflationary increases. To the extent permitted by competition and the economy, we have mitigated increased costs by increasing menu prices and may continue to do so if deemed necessary in future years. Additionally, we have and expect to continue to implement responsible tactics to reduce costs in areas that do not adversely impact the guest experience. There is no assurance, however, that inflation rates will continue at their current levels or decrease.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rates

We do not enter into market risk sensitive instruments for trading purposes. We are exposed to financial market risks due primarily to changes in interest rates in our interest bearing accounts. We do not believe a change in interest rate will materially affect our financial position or results of operations. A one percent change of the interest rate would result in an annual change in the results of operations of approximately \$0.1 million.

Commodities Prices

We are exposed to the impact of commodity and utility price fluctuations related to unpredictable factors such as weather and various market conditions over which we do not have control. We purchase significant amounts of produce and dairy products to support the needs of our Company Stores. The price and availability of these commodities directly impacts the results of operations and can be expected to impact the future results of operations.

We purchase fruit based on short-term seasonal pricing agreements. These short-term agreements generally set the price of procured frozen fruit and 100% pure fruit concentrates for less than one year based on estimated annual requirements. We purchase fresh produce based on annual pricing agreements. In order to mitigate the effects of price changes in any one commodity on our cost structure, we contract with multiple suppliers both domestically and internationally. These agreements typically set the price for some or all of our estimated annual fruit and fresh produce requirements, protecting us from short-term volatility. Nevertheless, these agreements typically contain a force majeure clause, which, if utilized (such as the recent drought in California or the hurricanes in 2017 that destroyed the Florida orange crop), may subject us to significant price increases.

Our pricing philosophy is not to attempt to change consumer prices with every move up or down of the commodity market, but to take a longer term view of managing margins and the value perception of our products in the eyes of our customers. Our objective is to maximize our revenue through increased customer traffic.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Jamba, Inc.:

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheet of Jamba, Inc. and subsidiary (the “Company”), as of January 2, 2018, and the related consolidated statements of operations, stockholders’ equity, and cash flows for the year then ended and the related notes and financial statement schedule listed in the accompanying index (collectively referred to as the “financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of January 2, 2018, and the results of their operations and their cash flows for year then ended in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (“PCAOB”), the Company’s internal control over financial reporting as of January 2, 2018, based on criteria established in 2013 Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”), and our report dated May 11, 2018, expressed an unqualified opinion.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

Jamba, Inc.:

We have audited the accompanying consolidated balance sheet of Jamba, Inc. and subsidiary as of January 3, 2017, and the related consolidated statements of operations, stockholders' equity, and cash flows for the fiscal years ended January 3, 2017 and December 29, 2015. In connection with our audits of the consolidated financial statements, we also have audited the related financial statement schedule. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Jamba, Inc. and subsidiary as of January 3, 2017, and the results of their operations and their cash flows for the fiscal years ended January 3, 2017 and December 29, 2015, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

JAMBA, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE FISCAL YEARS ENDED JANUARY 2, 2018, JANUARY 3, 2017 AND

DECEMBER 29, 2015

1. BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business - Jamba, Inc. consummated its initial public offering in July 2005. On November 29, 2006, Jamba, Inc. consummated the merger with Jamba Juice Company whereby Jamba Juice Company, which first began operations in 1990, became its wholly owned subsidiary.

Jamba, Inc. through its wholly-owned subsidiary, Jamba Juice Company (“the Company”), is a healthful lifestyle brand that inspires and simplifies healthful living through freshly blended whole fruit and vegetable smoothies, bowls, juices, cold-pressed shots, boosts, snacks, and meal replacements. Our global business driven by a portfolio of franchised and company-owned Jamba Juice® stores.

As of January 2, 2018, there were 873 Jamba Juice stores globally, consisting of 53 Company-owned and operated stores (“Company Stores”), 749 franchisee-owned and operated stores (“Franchise Stores”) in the United States, and 71 Franchise Stores in international locations (“International Stores”).

Basis of Presentation - The Consolidated Financial Statements include the accounts of the Company and its wholly-owned subsidiary, Jamba Juice Company. The accounts of Jamba Juice Southern California, LLC (“JJSC”), a former indirect subsidiary, are included through April 28, 2015, when the Company sold its 88% interest in JJSC to the holder of JJSC’s non-controlling interest. All significant intercompany balances and transactions have been eliminated in consolidation. The equity method of accounting is used to account for Jamba Juice Company’s investments in its joint venture. Accordingly, the carrying value of the investment is reported in other long-term assets, and the Company’s equity in the net income and losses of its joint ventures is reported in other operating, net.

Fiscal Year End - The Company’s fiscal year ends on the Tuesday closest to December 31. The Company’s most recently completed fiscal year, referred to as fiscal 2017 which started on January 4, 2017 and ended on January 2, 2018, had 52 weeks. The Company’s fiscal 2016 which started on December 30, 2015, and ended on January 3, 2017, had 53 weeks, and fiscal 2015 which started on December 31, 2014 and ended on December 29, 2015, had 52 weeks.

Effect of Correction of Prior Period Misstatements – During fiscal year 2016, the Company corrected certain errors which resulted in additional expense in fiscal 2016 of approximately \$0.8 million related to prior period financial statements. These errors related to FY 2015 (\$0.6 million), with the remaining offsetting amounts relating to the financial statements from years prior to 2015. The Company determined that the corrections were neither quantitatively nor qualitatively material to fiscal year 2016 or to prior periods either individually or in the aggregate or to the trends of the reported results of operations.

Edgar Filing: JAMBA, INC. - Form 10-K

The following table details the specific amounts of out-of-period (overstatements)/understatements for the fiscal years 2016, 2015 and fiscal years prior to 2015.

	Fiscal Year Ended January 3,	Fiscal Year Ended December 29,	Prior to Fiscal Year

(Loss) earnings per share attributable to			
Jamba, Inc. common shareholders:			
Basic	\$ 0.05	\$ (0.04)	
Diluted	\$ 0.05	\$ (0.04)	

Significant Estimates - The preparation of the Consolidated Financial Statements and accompanying notes are in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Preparing Consolidated Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported periods. Actual results could differ from those estimates.

Concentrations of Risk - The Company works with both Gordon Food Services (“GFS”) in the Eastern United States and Systems Services of America (“SSA”) in the Western United States to distribute food sold in the majority of Company and Franchise Stores. In fiscal 2017 and fiscal 2016, two distributors accounted for approximately 90% and 92%, respectively, of the supplies delivered to Company and Franchise Stores. The Company's limited distributor relationships could have an adverse effect on the Company's operations.

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. The Company places its cash and cash equivalents with high-quality financial institutions. Balances in the Company's cash accounts frequently exceed the Federal Deposit Insurance Corporation insurance limit. The Company has not experienced any losses related to these balances and believes the credit risk to be minimal.

Cash and Cash Equivalents - The Company considers all highly liquid instruments with maturities of three months or less when purchased to be cash equivalents. At January 3, 2017 credit balance of \$0.4 million is collateralized by restricted cash.

Receivables - Receivables primarily represent amounts due from royalty fees, advertising fees, construction allowances, amounts receivable from suppliers, distributors and consumer packaged goods (“CPG”) customers, sale of gift cards by other issuers and franchisees and rent receivable from franchisees. The allowance for doubtful accounts is the Company’s estimate of the amount of probable credit losses in the Company’s existing accounts receivable.

Inventories - Inventories are stated at the lower of cost or net realizable value. Cost is determined using the first-in, first-out method (“FIFO”). Inventories consist of food, beverages and available-for-sale promotional products. The Company reduces inventory for obsolete and slow-moving inventory and for estimated shrinkage between physical inventory counts.

Property, Fixtures and Equipment - Property, fixtures and equipment are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful life. Expenditures

F-8

for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense as incurred. The estimated useful life for leasehold improvements is the lesser of 10 years or the term of the underlying lease. The estimated useful life for furniture, fixtures and equipment is three to 10 years. Capitalized software is recorded at cost and includes purchased, internally-developed and externally-developed software used in the Company's operations. Amortization expense is provided using the straight-line method over the estimated useful lives of the software to generally three years.

Upon sale, the cost of assets disposed and their related accumulation depreciation are removed from the Consolidated Balance Sheets. The Company calculates the gain or loss by comparing the carrying value of the assets to the selling price.

Intangible Assets Subject to Amortization – Intangible assets subject to amortization (primarily franchise and reacquired franchise rights and acquired customer relationships) are amortized over their estimated useful lives using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise realized. The useful life for the franchise agreements is approximately 13.4 years. The useful life of reacquired franchise rights represents the remaining term of the franchise agreement. The useful life of the favorable lease portfolio intangible is based on the related lease term.

Business Combinations - The Company accounts for business combinations using the acquisition method. Under the acquisition method, the purchase price of the acquisition is allocated to the underlying tangible and intangible assets acquired based on their respective fair values. Fair values are derived from various observable and unobservable inputs and assumptions. The Company utilizes third-party valuation specialists to assist in the allocation. Initial purchase price allocations are preliminary and are subject to revision within the measurement period, not to exceed one year from the date of acquisition. The costs of the business acquisitions are expensed as incurred. These costs may include fees for accounting, legal, professional consulting and valuation specialists.

Assets Held for Sale - The Company classifies assets as held for sale and suspends depreciation and amortization when approval at the appropriate level has been provided, the assets can be immediately removed from operations, an active program has begun to locate a buyer, the assets are being actively marketed for sale at or near their current fair value, significant changes to the plan of sale are not likely and the sale is probable within one year. Upon classification as held for sale, long-lived assets are no longer depreciated, and an assessment of impairment is performed to identify and expense any excess of carrying value over fair value less costs to sell. Subsequent changes to the estimated fair value less costs to sell will impact the measurement of assets held for sale. To the extent fair value increases, any impairment previously recorded is reversed. If the carrying value of the assets held for sale exceeds the fair value less costs to sell, the Company will record a loss for the amount of the excess. The Company also reclassifies the associated prior year balances for assets reclassified to assets held for sale.

If the Company decides not to sell previously classified assets held for sale, the asset is reclassified back to their original asset group. The assets are recorded at the lower of the carrying value before being classified as held for sale adjusted for depreciation that would have been recognized during the time they were classified as held for sale or fair value at the date the Company decided not to sell. There were no assets held for sale as of January 2, 2018 and assets held for sale as of January 3, 2017 was \$0.2 million and related to JambaGO® assets and 13 Company owned stores in the Chicago area.

Impairment of Long-lived assets - Long-lived assets, such as property and equipment and intangible assets subject to amortization, are tested for impairment at least annually or when facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable. Long-lived assets are grouped for recognition and measurement of impairment at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets, generally the store asset group level. The Company first compares the carrying value of the asset to the asset's estimated future undiscounted cash flows. If the estimated future cash flows are less than the carrying value of the asset, the Company measures an impairment loss based on the asset's estimated fair value. The fair value of a store's

assets is estimated using a discounted cash flow model based on internal projections and taking into consideration the view of a market participant. The estimate of cash flows is based on, among other things, certain assumptions about expected future operating performance. Factors considered during the impairment evaluation include factors related to actual operating cash flows, the period of time since a store has been opened or remodeled, refranchising expectations and the maturity of the relevant market. The Company had no impairment

F-9

charges for fiscal year 2017 and recorded impairment charges of \$3.4 million, and \$2.5 million for fiscal years 2016 and 2015, respectively.

Impairment of Goodwill, Trademarks and Other Intangible Asset Not Subject to Amortization - Goodwill is evaluated for impairment on an annual basis during the Company's fourth fiscal quarter, or more frequently if circumstances, such as material deterioration in performance, indicate carrying values may exceed their fair values. When reviewing goodwill for impairment, the Company assesses whether goodwill should be allocated to operating levels lower than its single operating segment for which discrete financial information is available and reviewed for decision-making purposes. These lower levels are referred to as reporting units. Currently, the Company's one operating segment was determined to be one reporting unit.

Our annual impairment test of goodwill may be completed through a qualitative assessment. We may elect to bypass the qualitative assessment and proceed directly to a two-step quantitative impairment test, in any period. We can resume the qualitative assessment for any subsequent period. If we elect to bypass the qualitative assessment for any reporting unit, or if a qualitative assessment indicates it is more-likely-than-not that the estimated carrying value of a reporting unit exceeds its fair value, we perform a two-step quantitative goodwill impairment test. First, the reporting unit's estimated fair value is compared to its carrying value, including goodwill. If the Company determines that the estimated fair value of the reporting unit is less than its carrying value, it moves to the second step to determine the implied fair value of the reporting unit's goodwill. If the carrying amount of the reporting unit's goodwill exceeds its implied fair value, an impairment loss is recognized. No goodwill impairment was recorded for fiscal years 2017, 2016 and 2015.

Intangible assets not subject to amortization (primarily trademarks) are evaluated for impairment on an annual basis during the fourth fiscal quarter, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The Company qualitatively assesses the impairment for other intangible assets not subject to amortization to determine whether it is more likely than not that the fair value of intangible assets are less than their carrying amount. No impairment was recorded for 2017, 2016 and 2015.

For other intangible assets not subject to amortization not assessed qualitatively, a quantitative approach is utilized. The Company compares the carrying value of the applicable asset to its fair value, which the Company estimates using a discounted cash flow analysis or by comparing with the market values of similar assets. If the carrying amount of the asset exceeds its estimated fair value, the Company determines the impairment loss, if any, as the excess of the carrying value of the intangible asset over its fair value. An impairment loss is generally recognized when the carrying amount of the trademarks exceeds the fair value. For fiscal 2017, 2016 and 2015, the company had no impairments related to other intangible assets not subject to amortization.

Gift Cards - The Company, through its subsidiary, Jamba Juice Company, sells gift cards to its customers in its retail stores, through its website and through resellers. The Company's gift cards do not have an expiration date and are not redeemable for cash except where required by law. An obligation is recorded at the time of either an initial load or a subsequent reload in accrued gift card liability on the Company's Consolidated Balance Sheets. The Company recognizes income from gift cards when (i) the gift card is redeemed by the customer or (ii) the likelihood of the gift card being redeemed by the customer is remote (also referred to as "breakage") and the Company determines that it does not have a legal obligation to remit the unredeemed gift cards to the relevant jurisdictions. The Company determines the gift card breakage amount based upon its historical redemption patterns. Gift card breakage income is included in other operating, net, in the Consolidated Statements of Operations.

Self-Insurance Reserves -The Company is self-insured for healthcare benefits. The estimated accruals for these liabilities are based on statistical analyses of historical industry data as well as actual historical trends. For its workers' compensation benefits, the Company has a guaranteed cost policy which renewed on October 1, 2017. Prior to September 30, 2015, the Company had a retrospective policy and was self-insured for existing and prior years exposures through September 30, 2012. For these two policies, liabilities associated with the risks that the Company retains for workers' compensation benefits are estimated in part, by considering historical claims experience, demographic factors, severity factors and other actuarial assumptions. The Company's estimates use this actuarial data in conjunction with known industry trends and Company experience.

Rent Expense - Under the provisions of certain of the Company's leases, there are rent holidays and/or escalations in payments over the base lease term, as well as renewal periods. The effects of rent holidays and escalations are reflected in rent costs on a straight-line basis over the expected lease term, which includes cancelable option periods when it is deemed to be reasonably assured that the Company will exercise such option periods due to the fact that the Company would incur an economic penalty for not doing so. The lease term commences on the date when the Company becomes legally obligated for the rent payments which generally coincides with the time when the landlord delivers the property for the Company to develop. All rent costs recognized during construction periods are classified as pre-opening expenses.

The Company has assigned certain of its store leases to franchisees as part of refranchising transactions, and in some cases for amounts less than the Company's rent obligation. Liabilities for those rent concessions are recorded and relieved against rent expense over the remaining term of the related lease.

Construction Allowances - The Company receives construction allowances from certain landlords, which are deferred and amortized on a straight-line basis over the lease term as a reduction of rent expense. In fiscal years 2017 and 2016, the Company received approximately \$0.2 million and \$1.1 million in construction allowances, which are recorded in deferred rent and other long-term liabilities. In fiscal 2017, the construction allowances were related to the headquarters relocation to Frisco, TX.

Revenue Recognition - Revenue from Company Stores is recognized when product is sold. Revenue is presented net of any taxes collected from customers and remitted to government entities. The Company's loyalty program allows customers to earn points based on the volume of their purchases. Under the loyalty program, a customer receives a discount on future purchases when a defined number of points have been earned. The estimated amount of points redeemable in exchange for discounts is recorded in deferred revenue and recognized when the customers redeem the points they earned. The deferred revenue for unredeemed points under the loyalty program was \$0.2 million for January 2, 2018 and January 3, 2017.

Revenue from gift cards is recognized upon redemption in exchange for product. Until redemption, outstanding customer balances are recorded as a liability. See "Gift Cards" section above for discussion on recognition of gift card breakage.

The Company generally executes franchise agreements for each store that establishes the terms of its arrangement with the franchisee. The franchise agreements typically require the franchisee to pay an initial, non-refundable fee and continuing fees based upon a percentage of sales. Subject to the Company's approval and the franchisee's payment of a renewal fee, a franchisee may generally renew the franchise agreement upon its expiration.

Franchise revenue is generated from royalties, development fees, initial franchise fees and revenue from sales at franchise-operated Jamba Juice Express and JambaGO® units. Royalties from Franchise Stores are determined as a percentage of Franchise Store revenue and are recognized in the same period as the related Franchise Store sales occur. If collection of the franchise royalty fee is doubtful, revenue is recognized at the time of collection.

Development fees are paid to the Company as part of an agreement to open and operate a specific number of stores in a specified territory. The amount of the fee is based on the number of stores to be opened pursuant to the development agreement. The nonrefundable fees collected for these services are recognized as the franchise stores under these agreements open. The Company's multi-unit development agreements specify the number of stores to be opened.

F-11

The Company charges an initial franchise fee for providing operational materials, new store opening, planning and functional training courses. Initial franchise fees, if any, are due for payment at the time the franchise agreement for a particular store is executed. Franchise fees are recognized as revenue when all material services or conditions have been substantially performed or satisfied and no other material conditions or obligations related to the determination of substantial performance exist. Duties and services that are completed prior to approval include training, facilities inspection, receipt of operating license(s) and clearance from appropriate agencies. These duties and services are substantially complete prior to the approval of the opening of a store. Revenue is recognized when the store opens.

Revenues the Company's flexible format franchise locations are recognized when the products are delivered to the operators of the Jamba Juice Express. Other revenues primarily consist of licensing fees from CPG products sold to retail outlets and online and royalties from licensed CPG products. Revenue from sale of CPG products are recognized when the products are delivered to the customer. License revenue from CPG products is based on a percentage of product sales and is recognized as revenue upon the sale of the product to retail outlets.

Cost of Sales - The Company includes in cost of sales, costs incurred to acquire fruit, dairy and other products used to make smoothies and juices, other food offerings and paper products sold by the Company Stores.

Store Lease Termination and Closure Costs - Costs incurred when closing a store are generally expensed as incurred. At the date the Company ceases use of a store under an operating lease, a liability is recorded for the net present value of any remaining lease obligations, net of estimated sublease income, if any. In instances where a buyout is reasonably expected within six months of store closure, liabilities are recorded by estimating the expected buyout fee and the rent expected to be incurred until a buyout agreement is reached. Any costs recorded upon store closure, as well as any subsequent adjustments to liabilities for remaining lease obligations, as a result of lease termination or changes in estimates of sublease income are recorded in other operating, net in the Consolidated Statements of Operations. Considerable management judgment is necessary to estimate future cash flows, including cash flows from continuing use, terminal value and sublease income. Accordingly, actual results could vary from the Company's estimates.

Advertising Fund - The Company participates with its franchisees in an advertising fund to collect and administer funds contributed for use in advertising and promotional programs, which are designed to increase sales and enhance the reputation of the Company and its franchise owners. Contributions to the advertising fund are required for Company Stores and traditional Franchise Stores and are generally based on a percent of store sales. The Company has control of the advertising fund. The fund is consolidated and all assets and liabilities of the fund are reported.

The advertising fund assets, consisting primarily of cash received from the Company and franchisees and accounts receivable from franchisees, can only be used for selected purposes and are considered restricted. The cash contributed by franchisees is recorded as a liability against which specified advertising costs are charged. The Company does not reflect franchisee contributions to the fund as revenue in its Consolidated Statements of Operations or Consolidated Statements of Cash Flows.

Advertising fund assets as of January 2, 2018 and January 3, 2017 include \$2.0 million and \$1.5 million of receivables from franchisees, net of allowances, respectively, which is recorded in receivables in the Consolidated Balance Sheets. Advertising fund liabilities as of January 2, 2018 and January 3, 2017, were \$2.0 million and \$1.4 million, respectively, and are reported in accounts payable and accrued expenses in the Company's Consolidated Balance Sheets.

Advertising Costs - Advertising costs are expensed as incurred and were \$1.7 million, \$2.3 million and \$8.5 million in fiscal years 2017, 2016 and 2015, respectively, and are included in store operating in the Company's Consolidated Statements of Operations. Advertising contributions received from franchisees, totaled \$10.8 million, \$10.6 million

and \$7.5 million for fiscal years 2017, 2016 and 2015, respectively, and were recorded as an offset to franchisee advertising expense in other operating, net in the Company's Consolidated Statements of Operations.

F-12

Store Pre-Opening Costs - Costs incurred in connection with start-up and promotion of new store openings as well as rent from possession date to store opening date are expensed as incurred.

Comprehensive Income - Comprehensive income is defined as the change in equity during a period from transactions and other events, excluding changes resulting from investments from owners and distributions to owners. The Company currently has no components of comprehensive income other than net income, therefore no separate statement of comprehensive income is presented.

Income Taxes – Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities due to a change in tax rates is recognized in income in the period that includes the enactment date. In establishing deferred income tax assets and liabilities, judgments and interpretations are made based on enacted tax laws and published tax guidance applicable to the Company's operations. The Company records deferred tax assets and liabilities and evaluates the need for valuation allowances to reduce deferred tax assets to amounts more likely than not of being realized. Changes in the valuation of the deferred tax assets or changes in the income tax provision may affect the Company's annual effective income tax rate.

Uncertain tax positions are recognized as the greatest amount more than 50% likely of being sustained upon audit based on the technical merits of the position. On a quarterly basis, the Company reviews and updates its inventory of tax positions as necessary to add any new uncertain tax positions taken, or to remove previously identified uncertain positions that have been effectively settled. Additionally, uncertain positions may be re-measured as warranted by changes in facts or law. Accounting for uncertain tax positions requires significant judgments, including estimating the amount, timing and likelihood of ultimate settlement. Although the Company believes that these estimates are reasonable, actual results could differ from these estimates. The Company classifies interest and penalties related to income taxes as a component of income taxes in the Consolidated Statements of Operations.

A liability related to an unrecognized tax benefit is offset against a deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. In situations in which a net operating loss carryforward, a similar tax loss or a tax credit carryforward is not available at the reporting date under the tax law of a jurisdiction or the tax law of a jurisdiction does not require it, and the Company does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit is presented in the financial statement as a liability and is not combined with deferred tax assets.

Income (Loss) Per Share - Basic income (loss) per share is computed based on the weighted-average number of common shares outstanding during the period. Diluted income (loss) per share is computed based on the weighted-average number of common shares and potentially dilutive securities, which includes outstanding options and restricted stock awards granted under the Company's stock option plans. For fiscal years 2017 and 2016, the Company's basic weighted average shares outstanding were equal to its diluted weighted average shares outstanding, since the Company experienced net losses.

During fiscal years 2015, the Company repurchased 1,948,004 shares of common stock, which reduced the basic weighted average shares outstanding. The Company did not repurchase shares of common stock in fiscal years 2017 and 2016. For the fiscal years 2017, 2016 and 2015, the Company has 2,858,817 shares of treasury stock.

Anti-dilutive common stock equivalents of 1.8 million, 1.9 million and 1.9 million have been excluded from diluted weighted-average shares outstanding in fiscal years 2017, 2016 and 2015, respectively.

Share-based compensation - The Company's share-based compensation relates to stock options and restricted stock units and is accounted for at fair value. Stock options for a fixed number of shares are granted to certain employees and directors with an exercise price based on the grant date fair value of the Company's common stock. Compensation expense is recognized for any unvested stock option awards and time-based restricted stock awards on a straight-line basis or ratably over the requisite service period, generally three or four years. Beginning in fiscal 2017, the Company recognizes forfeitures as they occur.

F-13

The fair value of options granted was estimated at the date of grant using a Black-Scholes option-pricing model. Option valuation models, including Black-Scholes, require the input of subjective assumptions, which can materially affect the grant date fair value of a stock option award. The assumptions used include the risk-free interest rate, the expected term of the award, expected volatility and expected dividend yield. The risk-free interest rate is based on the zero coupon U.S. Treasury rates appropriate for the expected term of the award. For the expected term of the award, the Company utilized the median of the Company's peer group's expected term, after adjusting for vesting and term differences. Expected volatility is based on an average of the Company's recent historic daily stock price observations of the Company's common stock during the period immediately preceding the share-based award grant that is equal in length to the award's expected term and the Company's implied volatility based on the mean of 180-day call and put options as per the open market. Expected dividends are zero based on the history of not paying cash dividends on the Company's common stock and its intention not to make dividend payments in the future.

The Company grants time-based restricted stock units with a fair value determined based on the closing price of the Company's common stock on the date of grant. For employees, these restricted stock units typically vest and become unrestricted over the three-year period following the date of grant. For non-employee directors, these restricted stock units typically vest and become unrestricted one year after the date of grant. The Company grants performance-based restricted stock units ("PSUs"), which typically vest upon the Company satisfying certain performance targets and are granted to employees and non-employees. The Company records compensation expense for PSUs when it is probable that the performance condition(s) included in the grant will be achieved. The compensation expense ultimately recognized, if any, related to these awards will equal the grant date fair value for the number of shares for which the performance condition has been satisfied. The fair value of the PSUs is determined based on fair value at the date of grant.

In addition, the Company grants market-based restricted stock units to certain employees. The fair value was determined using a Monte Carlo simulation that incorporated option-pricing inputs covering the period from the grant date through the end of the performance period as of the date of grant. Market-based restricted stock units typically vest and become unrestricted upon achievement of compound annual stock price growth rate targets of 15%, 22.5% and 30% over a three-year period. Share-based compensation expense is recognized ratably over the vesting periods for all market-based and time-based restricted stock units.

Fair Value of Financial Instruments - The following instruments are not measured at fair value on the Company's Consolidated Balance Sheets but require disclosure of their fair values: cash and cash equivalents, accounts receivables, notes receivable and accounts payable. The estimated fair value of such instruments, excluding notes receivable, approximates their carrying value as reported in the Company's Consolidated Balance Sheets due to their short-term nature. The estimated fair value of notes receivable approximates its carrying value due to the interest rates aligning with market rates. The fair value of such financial instruments is determined using the income approach based on the present value of estimated future cash flows. The fair value of these instruments would be categorized as Level 2 in the fair value hierarchy, with the exception of cash and cash equivalents, which would be categorized as Level 1.

Segment Reporting - The Company has one reportable retail segment.

Recently Adopted Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2015-11, Simplifying the Measurement of Inventory. ASU 2015-11 applies to inventory that is measured using the first-in, first-out ("FIFO") or average cost method and requires measurement of that inventory at the lower of cost or net realizable value. Net realizable value is defined as the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This pronouncement is effective for reporting periods beginning after December 15, 2016. We adopted ASU 2015-11 effective January 4, 2017 and such adoption did not have a material impact on the Company's Consolidated Financial Statements or related disclosures.

In March 2016, the FASB issued ASU 2016-09, Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting. The updated guidance changes how companies account for certain aspects of share-based payment awards to employees, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the statement of cash flows. This standard, which

F-14

was adopted in the first quarter of 2017, resulted in the recognition of previously unrecognized federal and state net operating loss carryforwards worth approximately \$0.8 million, net of tax. Management has determined that it is not more likely than not that the benefit of these deferred tax assets will be realized and has established a full valuation allowance for this amount, resulting in a net zero impact to financial statements. Additionally, the Company elected to account for forfeitures as they occur, and a cumulative-effect adjustment was made in the amount of \$0.3 million and recorded earnings as of January 2, 2018 in accumulated deficit on the Consolidated Balance Sheets.

In August 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. ASU 2014-15 requires management to evaluate, at each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date the financial statements are issued, and provide related disclosures. ASU 2014-15 is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. The adoption of this guidance did not have any impact on the Company’s Consolidated Financial Statements and related disclosures.

Upcoming Accounting Pronouncements

The Company is currently assessing the potential impact of the following pronouncements on its Consolidated Financial Statements and related disclosures:

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers - Deferral of the effective date, to fiscal years beginning after December 15, 2017 (including interim reporting periods within those periods). Early adoption is permitted to the original effective date of the fiscal year beginning after December 15, 2016 (including interim reporting periods within those periods). The amendment guidance may be applied retrospectively to each prior period presented with the option to apply practical expedients or retrospectively with the cumulative effect recognized as of the date of initial application. Management believes adoption of the new revenue recognition standard will primarily impact the Company’s accounting for other fees charged to franchisees as well as transactions involving its advertising fund and gift card sales. While the Company has neither finalized its conclusions nor fully quantified the total impact of the adoption, the Company will adopt the new revenue standard using the modified retrospective transition approach. Under this approach, the Company expects to record a cumulative effect adjustment directly to retained earnings for its effect on upfront franchise and development fees. Under the current guidance, we recognize upfront fees from franchisees when we have performed all material obligations and services, which is generally when the franchised restaurant opens. Under the new guidance, we will recognize the initial fees from franchisees over the life of the related franchise agreements. Historical revenues under the new guidance for 2017 and 2016 fiscal years would have been materially reduced as a result of deferring the recognition of upfront fees from franchisees and expect to record a material increase in deferred revenue on our Consolidated Balance Sheets as a result. This guidance will not, however, impact our recognition of revenue from Company-operated restaurant sales or our recognition of continuing royalty revenues from franchisees, which are based on a percentage of franchise sales.

Additionally, our advertising fund contributions from franchisees and the related advertising expenditures are currently reported on a net basis in our Consolidated Balance Sheets within “Accounts receivable” and “Other current liabilities.” Under the new guidance, we expect to consolidate the operations and cash flow results of our advertising funds. Under the new guidance, consolidated revenues and consolidated expenses for our 2017 and 2016 fiscal years, would have materially increased as a result of consolidating our advertising funds.

In February 2016, the FASB issued ASU 2016-02, Leases (“ASU 2016-02”), which will require lessees to recognize a lease liability and a right-of-use asset for all leases (with the exception of leases with terms less than 12 months) at the commencement date. The guidance will be effective for the Company beginning fiscal year 2019, with early adoption permitted. The new standard is required to be applied with a modified retrospective approach to each prior reporting period presented with various optional practical expedients. Management believes the adoption of ASU 2016-02 will materially impact the Company’s Consolidated Financial Statements by significantly

F-15

increasing non-current assets and non-current liabilities on the Consolidated Balance Sheets in order to record the right of use assets and related lease liabilities for existing operating leases. Management is in the process of determining the financial statement impact and currently unable to estimate the impact on the Company's Consolidated Financial Statements or related disclosures.

In March 2016, the FASB issued ASU 2016-04, Recognition of Breakage for Certain Prepaid Stored-Value Products. The new guidance creates an exception under ASC 405-20, Liabilities-Extinguishments of Liabilities, to derecognize financial liabilities related to certain prepaid stored-value products using a revenue-like breakage model. The guidance will be effective for the Company beginning fiscal year 2018, with early adoption permitted. This guidance can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. The Company will adopt the new revenue standard using the modified retrospective transition approach. Under this approach, the Company expects to record a cumulative effect adjustment directly to retained earnings for its effect on breakage. Under the current guidance, we recognize income from gift cards when the likelihood of the gift card being redeemed by the customer is remote and we determine that we do not have a legal obligation to remit the value of unredeemed gift cards to the relevant jurisdictions. The determination of remote is based upon historical redemption patterns. Under the new guidance, we will recognize the income from gift cards when the likelihood of the gift card being redeemed by the customer is less than probable and we determine that we do not have a legal obligation to remit the value of unredeemed gift cards to the relevant jurisdictions. Historical breakage under the new guidance for 2017 and 2016 fiscal years would have been materially higher as a result of the change in breakage calculations and expect to record a material reduction in our gift card liability on our Consolidated Balance Sheets as a result.

Other Accounting Pronouncements

The Company has not yet adopted and does not expect the adoption of the following pronouncements to have a significant impact on its Consolidated Financial Statements and related disclosures:

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2016-01"). ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU 2016-01 will be effective for the Company beginning fiscal year 2018.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows—Classification of Certain Cash Receipts and Cash Payments, which provides specific guidance for certain cash flow classification issues, previously not specifically addressed, including classification for debt prepayment, contingent consideration made after a business combination, insurance claim proceeds and corporate-owned life insurance policies, distributions received from equity method investees and certain other items. The guidance will be effective for the Company beginning fiscal year 2018, with early application permitted.

In January 2017, the FASB issued ASU 2017-09, Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The amendments provide guidance on determining which changes to the terms and conditions of share-based payment awards require an entity to apply modification accounting under Topic 718. This guidance will be effective for the Company's fiscal year 2018, with early adoption permitted.

In January 2017, the FASB issued ASU 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, which eliminates Step 2 from the goodwill impairment test. The impairment amount will be calculated at Step 1. The amendments also eliminate the requirements for any reporting unit with a zero or negative

carrying amount to perform a qualitative assessment and, if it fails that qualitative test, to perform Step 2 of the goodwill impairment test. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. This guidance will be effective for the Company's fourth quarter annual impairment test in fiscal year 2019, with early adoption permitted.

F-16

2. REFRANCHISING

In the second quarter of fiscal 2017, the Company refranchised 13 Company-owned stores and signed a 10-unit development agreement in the Chicago area for approximately \$0.2 million.

In connection with the headquarters relocation from Emeryville, California to Frisco, Texas the Company refranchised the Emeryville store in December 2016 for total proceeds of \$0.1 million, which resulted in an immaterial gain.

During fiscal 2015, the Company refranchised 179 opened stores and one unopened store (of which 176 were previously classified as assets held for sale) for total proceeds of \$53.1 million which included cash of \$51.1 million and notes receivable of \$2.0 million. As a result of these transactions, the Company recorded a total gain of \$21.6 million on the disposal of assets during fiscal year 2015. In fiscal year 2016, notes receivable related to the refranchising was \$2.0 million which was included in other long-term assets in the Consolidated Balance Sheets and as of January 2, 2018, notes receivable related to refranchising was paid in full during the fiscal year 2017.

3. PROPERTY, FIXTURES AND EQUIPMENT

Property, fixtures and equipment consisted of the following as of (in thousands):

	January 2, 2018	January 3, 2017
Leasehold improvements	\$ 13,159	\$ 20,734
Furniture, fixtures and equipment	29,924	30,349
Construction in progress (primarily stores under construction)	630	74
Total	43,713	51,157
Less accumulated depreciation and amortization	(32,785)	(38,645)
Total	\$ 10,928	\$ 12,512

Depreciation expense related to property, fixtures and equipment for fiscal years 2017, 2016 and 2015 was \$3.5 million, \$5.7 million and \$6.5 million, respectively. Assets related to JambaGO® were reclassified on the Consolidated Balance Sheets from property, fixtures and equipment to assets held for sale of \$0.2 million for fiscal year 2016.

In fiscal 2016, the Company corrected certain errors including an overstatement of expenses included within depreciation expense of approximately \$0.2 million related to prior period financial statements. The Company determined that the corrections were neither quantitatively or qualitatively material to those periods individually and in the aggregate or to the trend of the reported operating results.

4. GOODWILL, TRADEMARKS AND OTHER INTANGIBLE ASSETS

A summary of the changes in goodwill for fiscal 2017 and 2016 follows (in thousands):

	Amount
Balance as of December 29, 2015	\$ 1,184
Refranchise	(1)
Balance as of January 3, 2017	1,183
Refranchise	(2)
Balance as of January 2, 2018	\$ 1,181

F-17

Edgar Filing: JAMBA, INC. - Form 10-K

The carrying amount and accumulated amortization of trademarks and other intangible assets as of January 2, 2018 and January 3, 2017 were as follows (in thousands):

	Accumulated		
	Gross Amount	Amortization	Net Amount
Intangible Assets			
As of January 2, 2018			
Trademarks	\$ 807	\$ —	\$ 807
Franchise agreements and customer lists	660	(546)	114
Reacquired franchise rights	599	(309)	290
Total	\$ 2,066	\$ (855)	\$ 1,211

	Accumulated		
	Gross Amount	Amortization	Net Amount
As of January 3, 2017			
Favorable leases	\$ 1,850	\$ (1,850)	\$ —
Trademarks	807	—	807
Franchise agreements and customer lists	677	(511)	166
Reacquired franchise rights	599	(245)	354
Total	\$ 3,933	\$ (2,606)	\$ 1,327

Intangible assets, other than trademarks, are amortized over their expected useful lives, ranging from two to seven years. Amortization expense for intangible assets was \$0.1 million for fiscal years 2017, 2016 and 2015. The remaining intangible assets, subject to amortization of \$0.4 million will continue to be amortized over their estimated useful lives. Expected annual amortization expense for the remaining intangible assets recorded as of January 2, 2018 is as follows (in thousands):

Amortization	
Fiscal Year	Expense
2018	\$ 112
2019	97
2020	62
2021	47
2022	47
Thereafter	39

Trademarks are not subject to amortization and the Company evaluates for impairment on an annual basis during the fourth quarter or more frequently if events or changes in circumstances indicate that the asset might be impaired. There was no impairment charge for trademarks in fiscal 2017 or fiscal 2016.

5. ACQUISITIONS

2015 Acquisition

In December 2015, the Company acquired two domestic stores in California from a former franchisee. The purchase was accounted for using the acquisition method of accounting. Under the acquisition method, the purchase price is allocated to the underlying tangible and intangible assets acquired based on their respective fair values. A summary of the purchase price, the fair value of the net assets acquired and the goodwill on the purchase follows (in thousands):

Cash paid to acquire stores	\$737
Additional consideration resulting from termination of	
pre-existing relationships	85
Total purchase consideration	\$822
Net assets acquired:	
Current assets	\$12
Fixed assets	259
Re-acquired franchise rights	424
Unfavorable Lease	(105)
Net assets acquired	\$590
Goodwill	\$232

There was a gain on termination of pre-existing relationships that was recorded in gain on disposal of assets on the Consolidated Statement of Operations, and resulted in an increase in the purchase price consideration and an increase in goodwill. The pro-forma effect of the acquisition on the Company's results of operations was not significant. The fair value of the fixed assets acquired is classified as level 2 and is based on inputs other than quoted prices in active markets included in level 1, which are either directly or indirectly observable, to estimate replacement value. The fair value of re-acquired franchise rights is classified as level 3, and is based on significant unobservable inputs and assumptions such as management's estimate of operating profit and assumed discount rates. Significant changes in the inputs or assumptions would increase or decrease the fair value measurements that would impact the depreciation or amortization of fixed assets and reacquired franchise rights and future impairment, if any.

The fixed assets acquired include leasehold improvements which have an estimated useful life of the lesser of 10 years or the remaining term of the underlying lease. The estimated useful life for furniture, fixtures, and equipment acquired is three to 10 years.

6. FAIR VALUE MEASUREMENT

Financial Assets and Liabilities

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. A three-tier fair value hierarchy is established as a basis for considering such assumptions and for inputs used in the valuation methodologies in measuring fair value:

Level 1: Quoted prices are available in active markets for identical assets or liabilities.

Level 2: Inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable.

Level 3: Unobservable inputs that are supported by little or no market activity, therefore requiring an entity to develop its own assumptions that market participants would use in pricing.

F-19

In the fiscal years 2017 and 2016, the Company recorded gains of \$0.1 million and \$0.3 million which included gain on contingent consideration within other operating, net, due to a change in circumstances under which remaining contingent consideration was no longer deemed probable of payment.

Non-financial Assets and Liabilities

The Company's non-financial assets and liabilities primarily consist of long-lived assets, trademarks and other intangibles, and are reported at carrying value. They are not required to be measured at fair value on a recurring basis. The Company evaluates long-lived assets for impairment when facts and circumstances indicate that their carrying values may not be recoverable. Trademarks and other intangibles are evaluated for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired.

There are no long-lived assets being carried at fair value as of January 2, 2018 and January 3, 2017. As a result of its impairment reviews, the Company had no impairment during the fiscal year 2017 and recognized impairment of \$0.4 million and \$0.6 million included in impairment of long-lived assets in the Consolidated Statements of Operations for fiscal years 2016 and 2015, respectively. The losses for fiscal year 2016 are all due to impairment of fixed assets. The losses for fiscal 2015 are due to \$0.3 million of impairment of other intangible assets and \$0.3 million impairment of fixed assets.

7. NOTES RECEIVABLE AND OTHER LONG-TERM ASSETS

As of January 2, 2018 and January 3, 2017, other long-term assets consisted of the following (in thousands):

	January 2, 2018	January 3, 2017
Notes receivable	\$ —	\$ 1,879
Deposits and other	847	1,015
Total	\$ 847	\$ 2,894

The note entered into during fiscal 2015 of \$2.0 million had a maturity date of February 1, 2021 and the annual interest rate is 3% per annum. The Company received payment in full during fiscal 2017 for the note entered into during fiscal 2015.

8. DEVELOPMENT AGREEMENTS

The Company has entered into multi-unit license agreements with area developers to build stores in certain geographic regions. Under typical multi-unit license agreements, the area developer generally pays one-half of the initial nonrefundable fee multiplied by each store to be built as a nonrefundable development fee upon execution of the multi-unit development agreement. This deposit is included in deferred revenue in the accompanying Consolidated Financial Statements. The agreements are generally for a term of five years. Each time a store is opened under the multi-unit license agreement, the Company credits the franchisee one-half of the initial fee as part of the development fee and the franchisee is required to pay the remaining one-half of the initial fee.

Under development agreements for Franchise and International Stores, the Company had 23 and 27 developers with franchise store as contractual commitments, and 6 developers with International Stores as contractual commitments for fiscal years 2017 and 2016, respectively. The Company had 108 and 122 number of Franchise Stores for which commitments exist, and 380 and 307 number of international stores for which commitments exist in fiscal years 2017 and 2016, respectively.

Deferred franchise revenue is included in other current liabilities and other long-term liabilities in the Company's Consolidated Balance Sheets. As of January 2, 2018 and January 3, 2017, deferred franchise revenue included \$1.1 million and \$1.3 million, respectively, relating to non-refundable development fees and initial fees paid by domestic franchisees whose stores have not yet opened. In addition, deferred franchise revenue as of January 2, 2018 and January 3, 2017 included \$1.2 million and \$1.5 million, respectively, relating to non-refundable international development fees.

F-20

9. DEFERRED RENT AND OTHER LONG-TERM LIABILITIES

Other long-term liabilities consisted of the following (in thousands):

	January 2, 2018	January 3, 2017
Deferred rent	\$ 1,945	\$ 2,260
Deferred revenue	2,398	2,950
Construction allowance	1,320	1,423
Other liabilities	1,846	2,307
Total deferred rent and other long-term liabilities	\$ 7,509	\$ 8,940

10. LEASE COMMITMENTS

The Company leases its office, retail stores, and some equipment under operating leases, with terms expiring through 2027. Most store leases have an initial term of 10 years, with renewal options of up to 10 years and provide for payment of common area operating expenses and real estate taxes. When the Company refranchises Company Stores, usually the franchisees become sub-lessees and the Company continues to be obligated under the existing lease agreements for the remainder of the lease terms.

Rental expense, net of sublease income was \$5.6 million, \$7.1 million and \$15.6 million in fiscal years 2017, 2016 and 2015, respectively, and was recorded in occupancy and general and administrative expenses in the accompanying Statements of Operations. The Company recognized sublease income of \$20.8 million, \$20.5 million and \$13.8 million in fiscal years 2017, 2016 and 2015, respectively.

Contingent rent included in occupancy costs in the Statements of Operations was \$0.4 million, \$0.4 million and \$0.5 million in fiscal years 2017, 2016 and 2015, respectively.

The aggregate future minimum non-cancelable lease payments and minimum rentals to be received from sub-lessees as of January 2, 2018, were as follows (in thousands):

Fiscal Year Ending:	Minimum lease payments	Minimum rentals to be received
2018	\$ 24,601	\$ 19,236
2019	21,605	16,815
2020	17,455	13,299
2021	13,626	10,476
2022	10,605	8,034
Thereafter	17,537	10,431
Total	\$ 105,429	\$ 78,291

11. CREDIT AGREEMENT

On November 3, 2016, the Company entered into a credit agreement with Cadence Bank, NA (“New Credit Agreement”). The New Credit Agreement provides an aggregate principal amount of up to \$10.0 million. The credit facility also allows the Company to request an additional \$5.0 million for an aggregate principal amount of up to \$15.0 million. The New Credit Agreement accrues interest at a per annum rate equal to the LIBOR rate plus 2.50% and has a five-year term. Under the terms of the New Credit Agreement, the Company is required to either maintain minimum cash or consolidated EBITDA levels and a minimum fixed charge coverage ratio. The New Credit Agreement terminates November 3, 2021. This credit facility is subject to customary affirmative and negative covenants for credit facilities of this type, including limitations on the Company with respect to liens, indebtedness, guaranties, investments, distributions, mergers and acquisitions and dispositions of assets. The credit facility is evidenced by a revolving note made by the Company in favor of the Lender, is guaranteed by the Company and is secured by substantially all of its assets including the assets of its subsidiary and a pledge of stock of its subsidiary.

F-21

To acquire the New Credit Agreement, the Company incurred upfront fees, which are being amortized over the term of the New Credit Agreement. As of January 2, 2018 the unamortized commitment fee amount was not material and is recorded in prepaid expenses in the Consolidated Balance Sheets. As of January 2, 2018, the Company had no borrowings under the New Credit Agreement and was in compliance with the financial covenants to the Credit Agreement.

On February 14, 2012, the Company entered into a Credit Agreement with Wells Fargo Bank, National Association (the “Lender”), which, as amended on November 1, 2012, July 22, 2013, November 4, 2013 and December 29, 2015 (as amended, the “Credit Agreement”), made available to the Company a revolving line of credit in the amount of \$10.0 million. The outstanding balance under the amended credit facility accrued interest at a LIBOR Market Index Rate based upon the rate for one month U.S. dollar deposits, plus 2.50% per annum. On July 22, 2016, the Credit Agreement expired with no amounts drawn on the credit facility since its inception. The previous letters of credit balance of \$0.4 million was collateralized by restricted cash at January 3, 2017. During the term of the Credit Agreement, the unamortized commitment fee amount was not material. This credit facility was subject to customary affirmative and negative covenants for credit facilities of this type, including limitations on the Company with respect to liens, indebtedness, guaranties, investments, distributions, mergers and acquisitions and dispositions of assets.

12. SHARE-BASED COMPENSATION

The Jamba, Inc. 2013 Equity Incentive Plan (“the Plan”) authorizes the Company to provide incentive compensation in the form of stock options (“options”), restricted stock and stock units (“RSUs”), performance based and market based shares and units (“PSUs”) and (“MBRSUs”), other stock-based and restricted stock-based awards (“RSAs”), cash-based awards and deferred compensation awards. In addition, the Company periodically authorizes grants of stock-based compensation as inducement awards to new employees. This type of award does not require shareholder approval in accordance with Rule 5635(c)(4) of the Nasdaq listing rules.

On May 17, 2016, at its 2016 Annual Meeting of Shareholders, the Company’s shareholders, upon the recommendation of the Board of Directors, approved an additional 900,000 shares of common stock to be offered or issued under the 2013 Plan. The 2013 Plan authorizes up to 3,028,847 shares.

As of January 2, 2018, under the Company’s 2013 Plan, there remained 1,711,967 shares available for grant. All plan equity grants were issued from the 2013 Plan and it is currently the only equity plan from which future equity awards may be granted. Options granted under the 2013 Plan and inducement awards have an exercise price equal to the closing price of the Company’s common stock on the grant date, are generally exercisable for up to 10 years, and vest annually over a four-year period. Unvested shares are forfeited upon termination of employment, unless the award agreement provides otherwise.

Share-based compensation expense, which is included in general and administrative expenses in the Consolidated Statements of Operations, was \$1.2 million, \$2.6 million and \$5.2 million for fiscal years 2017, 2016 and 2015, respectively. For fiscal years 2017, 2016 and 2015, the total income tax benefit recognized in our Consolidated Statements of Operations in connection with all share-based compensation awards was \$0 million, \$0 million and \$0.6 million, respectively.

Stock Options

The fair value of stock options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions.

	Fiscal Year Ended January 2, 2018	Fiscal Year Ended January 3, 2017	Fiscal Year Ended December 29, 2015		
Weighted-average risk-free interest rate	2.00	% 1.36	% 1.75	%	
Expected life of options (years)	5.39	5.22	5.85		
Expected stock volatility	38.8	% 40.5	% 43.7	%	
Expected dividend yield	0	% 0	% 0	%	

A summary of the stock option activities for fiscal year 2017 is presented below (shares and aggregate intrinsic value in thousands):

	Number of Options	Weighted- Average Exercise Price	Weighted- Average Contractual Term	Aggregate Intrinsic Value
Outstanding at January 3, 2017	1,200	\$ 12.40	5.05	\$ 1,213
Granted	15	9.25		
Exercised	(178)	3.96		
Canceled	(398)	14.85		
Outstanding at January 2, 2018	639	\$ 13.16	4.99	\$ 13
Options vested or expected to vest at				
January 2, 2018	639	\$ 13.16	4.99	\$ 13
Options exercisable at January 2, 2018	343	\$ 13.15	3.10	\$ 13

The intrinsic value of stock options is defined as the difference between the current market value and the exercise price, which is equal to the market value at the time of the grant. Information regarding options outstanding and exercisable at January 2, 2018 is as follows (shares in thousands):

Edgar Filing: JAMBA, INC. - Form 10-K

Range of Exercise Prices	Number Outstanding	Weighted-Average Contractual Life (Years)	Remaining		Weighted-Average	
			Contractual Life	Average	Number Exercisable	Average Exercise Price
\$5.40 - \$10.79	55	4.82		\$ 9.65	32	\$ 9.73
\$10.87 - \$10.87	12	8.58		10.87	2	10.87
\$11.10 - \$11.10	23	2.22		11.10	19	11.10
\$11.65 - \$11.65	75	8.37		11.65	25	11.65
\$11.98 - \$11.98	10	3.38		11.98	10	11.98
\$12.35 - \$12.35	153	8.05		12.35	53	12.35
\$13.30 - \$13.30	5	2.38		13.30	5	13.30
\$13.50 - \$13.50	10	1.08		13.50	5	13.50
\$13.94 - \$13.94	246	1.79		13.94	175	13.94
\$19.50 - \$19.50	50	8.27		19.50	17	19.50
	639	4.99		\$ 13.16	343	\$ 13.15

During the fiscal year 15,000 shares of the Company's common stock were granted as an inducement award to a new employee. The weighted-average grant date fair value of options granted were \$3.54, \$4.30 and \$13.92 in fiscal years 2017, 2016 and 2015, respectively. At January 3, 2017, stock options vested or expected to vest totaled 0.3 million. The remaining expense to amortize is approximately \$0.8 million at January 2, 2018. The weighted-average remaining recognition period is approximately one year.

Restricted Stock Awards

Restricted stock awards are granted to members of our Board of Directors as part of their compensation. Awards are fully vested and expensed when granted. The fair value of restricted stock awards is the market close price of our common stock on the date of the grant. In fiscal years 2016 and 2015, 3,514 and 1,094 restricted stock awards were issued with a weighted average grant date fair value per share of \$12.80 and \$13.71, respectively. There were no RSAs granted in fiscal 2017.

Time-Based Restricted Stock Units

Information regarding activities during fiscal 2017 for outstanding time-based RSUs is as follows (shares in thousands):

	Number of shares of RSUs	Weighted- Average Grant Date Fair Value (per share)
Outstanding as of January 3, 2017	68	\$ 13.11
Granted	—	—
Forfeited	(10)	12.96
Vested	—	—
Outstanding as of January 2, 2018	58	\$ 13.14

During fiscal years 2016 and 2015, the Company granted 44,000 and 52,000 time-based RSUs at a weighted average grant date fair value of \$11.31 and \$15.10, respectively, with a vesting period of three years. There were no time-based RSUs granted in fiscal year 2017. Compensation expense for time-based RSUs is recognized over the vesting period on a straight-line basis. The aggregate grant date fair value of the time-based RSUs granted during fiscal years 2016 and 2015 was \$0.5 million and \$0.8 million, respectively. The aggregate intrinsic value of time-based RSUs outstanding as of January 2, 2018, January 3, 2017, and December 29, 2015, was \$0.5 million, \$0.7 million and \$2.6 million, respectively.

At January 2, 2018, unvested share-based compensation for time-based RSUs, totaled \$0.1 million. This expense will be recognized over the remaining weighted-average vesting period of approximately one year.

Performance-Based Restricted Stock Units

Information regarding activities during fiscal 2017 for outstanding PSUs is as follows (shares in thousands):

	Number of shares of	Weighted- Average Grant Date Fair Value
	PSUs	(per share)
Outstanding as of January 3, 2017	17	\$ 12.27
Granted	—	—
Forfeited	(15)	12.05
Vested	—	—
Outstanding as of January 2, 2018	2	\$ 14.04

During fiscal year 2016 the Company granted 8,000 PSUs at a weighted average grant date fair value of \$10.11. There were no PSUs granted during fiscal 2017 or fiscal 2015. The aggregate intrinsic value of the PSUs outstanding as of January 2, 2018, January 3, 2017 and December 29, 2015, was \$0.1 million, \$0.2 million and \$0.8 million, respectively.

Market-Based Restricted Stock Units

Information regarding activities during fiscal 2017 for outstanding MBRsUs is as follows (shares in thousands):

	Number of market- based RSUs	Weighted- Average Grant Date Fair Value (per share)
Outstanding as of January 3, 2017	505	\$ 3.04
Granted	70	1.06
Forfeited	(70)	2.79
Vested	—	—
Outstanding as of January 2, 2018	505	\$ 2.80

There were 70,000 market-based RSUs granted in fiscal 2017. The estimated requisite service period for the market-based RSUs issued in fiscal 2017 ranges between approximately eighteen and twenty-four months.

In January 2016, in connection with the hiring of the Company's new Chief Executive Officer, the Company granted equity awards which included an award of 350,000 market-based RSUs, which were granted in May 2016. In addition, the Company granted inducement awards in connection with executive hiring which included 155,000 market-based RSUs. The market-based RSU's will vest upon achievement of compound annual stock price growth rate targets of 15%, 22.5% and 30%. The estimated requisite service period for the market-based RSUs issued in fiscal 2016 ranges between approximately eighteen and twenty-four months.

Compensation expense related to market-based RSUs is recognized over the requisite service period on a straight-line basis. The requisite service period is a measure of the expected time to reach the respective vesting threshold. We estimated this period by utilizing a Monte Carlo simulation, considering only those stock price-paths in which the threshold was exceeded.

The aggregate grant date fair value of the market-based RSUs granted during fiscal 2017 and fiscal 2016 was \$0.1 million and \$1.5 million, respectively. There were no market-based RSUs granted during fiscal 2015. The aggregate intrinsic value of the market-based RSUs outstanding as of January 2, 2018, and January 3, 2017, was \$4.1 million and \$5.2 million, respectively. At January 2, 2018, unvested share-based compensation for market-based RSUs, was \$0.1 million, which will be recognized over the remaining weighted-average recognition period of approximately six months.

13. STOCK REPURCHASES

On August 4, 2016, the Company announced that its Board of Directors approved the terms of a share repurchase plan (the "2016 Stock Repurchase Program"). Pursuant to the 2016 Stock Repurchase Program, the Company is authorized to repurchase up to \$20.0 million of its common stock subject to available cash resources over the next two-year period. The Company may repurchase shares on the open market, through privately negotiated transactions or

otherwise, at times, in amounts and at prices considered appropriate by the Company. The number of shares to be purchased and the timing of any purchases are subject to various factors, including the price of the Company's common stock, the Company's capital position, the amount of retained earnings of the Company, general market conditions and other economic factors and corporate and regulatory requirements, and may be modified, suspended or terminated at any time.

On October 29, 2014, the Company's Board of Directors authorized the repurchase of up to \$25.0 million of shares of common stock over an 18-month period (the "2014 Stock Repurchase Program"). The Company's Board of Directors authorized an increase to the Stock Repurchase Program of \$15.0 million to a total of \$40.0 million in May 2015 and an additional \$5.0 million to a total of \$45.0 million in September 2015, which expired on May 4, 2016. Shares repurchased under the Stock Repurchase Program are considered treasury stock until retired. During fiscal 2015, the Company repurchased approximately 2.0 million under the Stock Repurchase Program. The average

F-25

price per share during fiscal 2015 was \$14.38 with an aggregate cost of \$28.0 million, leaving \$5.0 million available for share repurchases. Shares repurchased under the stock repurchase programs are considered treasury stock until retired.

During fiscal year 2017 and 2016, the Company did not repurchase shares under the 2016 Stock Repurchase Program or the 2014 Stock Repurchase Program. For the fiscal years 2017, 2016 and 2015, the Company has 2,858,817 shares of treasury stock.

14. INCOME TAXES

The components of the income tax (expense) benefit are as follows (in thousands):

	January 2, 2018	January 3, 2017	December 29, 2015
Current:			
Federal	\$ —	\$ —	\$ (438)
State	(22)	(14)	(149)
Foreign	(94)	(65)	(114)
	\$ (116)	\$ (79)	\$ (701)
Deferred:			
Federal	\$ 790	\$ —	\$ —
State	(3)	—	—
Foreign	—	—	—
	\$ 787	\$ —	\$ —
Income tax benefit (expense)	\$ 671	\$ (79)	\$ (701)

The difference between the effective income tax rate and the United States federal income tax rate is summarized as follows:

	January 2, 2018	January 3, 2017	December 29, 2015
Statutory federal rate	34.0	% 34.0	% 34.0
State income taxes less federal benefit	8.8	(1.4)	(9.2)
Foreign income taxes	(2.8)	(0.3)	1.1
Change in valuation allowance	685.6	(24.6)	(38.1)
Meals	(0.9)	(0.1)	0.3
Tax Law Changes	(689.4)	—	—
Executive Compensation Exclusion	(2.0)	—	—
Alternative minimum taxes	—	—	0.1
Expired tax attribute carryforwards	(25.8)	(6.4)	11.1
Tax credits generated	—	—	(0.1)
Other	12.2	(1.6)	7.7

19.7 % (0.4)% 6.9 %

F-26

Edgar Filing: JAMBA, INC. - Form 10-K

Deferred income taxes are provided for the temporary differences between the carrying values of the Company's assets and liabilities for financial reporting purposes and their corresponding income tax bases. The temporary differences give rise to either a deferred tax asset or liability in the financial statements that is computed by applying current statutory tax rates to taxable and deductible temporary differences. The deferred tax assets (liabilities) consisted of the following temporary differences as of January 2, 2018 and January 3, 2017 (in thousands):

	January 2, 2018	January 3, 2017
Deferred Tax Assets:		
Net operating losses	\$ 47,213	\$ 62,875
Reserves and accruals	2,388	5,073
Deferred rent	565	967
Tax credit attributes	1,957	1,957
Basis difference in intangibles	437	1,152
Share-based compensation	1,168	1,915
Basis difference in fixed assets	2,044	5,670
Basis difference in investments	90	144
Total gross deferred tax assets	55,862	79,753
Less: Valuation allowance	(54,798)	(79,629)
Total deferred tax assets	\$ 1,064	\$ 124
Deferred Tax Liabilities:		
Reserves and accruals	\$ (204)	\$ (29)
Basis difference in intangibles	(69)	(95)
Total gross deferred tax liabilities	\$ (273)	\$ (124)
Net deferred tax assets	\$ 791	\$—

Realization of the future tax benefits is dependent on the Company's ability to generate sufficient taxable income within the carryforward period. A valuation allowance is provided for deferred tax assets when it is "more likely than not" that some portion of the deferred tax asset will not be realized. Because of the Company's recent history of operating losses, management believes the recognition of the deferred tax assets arising from the above-mentioned future tax benefits is currently not likely to be realized and, accordingly, has provided a valuation allowance. A valuation allowance has been recorded for the net deferred tax assets at January 2, 2018, which decreases the valuation allowance by \$24.8 million for the fiscal year ended January 2, 2018.

At January 2, 2018, the Company has federal and state net operating loss carryovers ("NOL") of \$162.4 million and \$153.4 million, respectively, which, if not used earlier, will expire between 2018 and 2037. In addition, the Company also has tax credit carryforwards for federal and state purposes of \$1.1 million and \$0.9 million, respectively. Approximately \$0.3 million of the federal tax credit carryforwards will start to expire in 2031 if unused before that year. Of the state tax credit carryforwards, approximately \$0.7 million will start to expire in 2023 if unused before that year. The remaining federal tax credits and the state tax credits do not expire.

The Company underwent an "ownership change" as defined in section 382 of the Internal Revenue Code during the second quarter of the Company's 2009 fiscal year, as a result of the Company's issuance of Series B-1 Convertible Preferred Stock and Series B-2 Convertible Preferred Stock and other prior trading in the Company's stock. The amount of NOL and tax credits from pre-change years that may be used to offset the Company's taxable income for tax years ending after the ownership change is subject to an annual limitation, known as a section 382 limitation. The section 382 limitation may cause NOL's to expire unutilized. Since the section 382 ownership change in 2009, the

Company has performed quarterly analyses to monitor its ownership for 382 purposes through FY 2016 and is in the process of refreshing through FY 2017. The Company has not had any other ownership changes for section 382 purposes since 2009 through the last study as of the fiscal year ended January 3, 2017.

On December 22, 2017, H.R. 1 (the "Act") was enacted and included broad tax reforms. The Act reduced the U.S. corporate tax rate from 35% to 21% effective January 1, 2018. The rate change resulted in a \$25.4 million reduction in the Company's deferred tax assets from prior year. The Act also eliminates Alternative Minimum Tax

F-27

(“AMT”) in post-2017 tax years for corporations. To transition to this new regime, any previous AMT credits will be made refundable to taxpayers over a period of time. The Company had \$0.1 million of such credits that will be refunded and the Company has released the previously recorded valuation allowance on this credit.

The SEC released Staff Accounting Bulletin No.118 (SAB 118) on December 22, 2017 to provide guidance in the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the tax reform. The ultimate impact of the tax reform may differ from the Company's accounting for the relevant matters of the Tax Act, due to changes in clarification and interpretive guidance that may be issued by the IRS and actions the Company may take in response to the Tax Act. Tax reform is highly complex and the Company will continue to assess the impact that various provisions will have on its business. Any subsequent adjustment to these amounts will be recorded to current tax expense when the analysis is complete.

Changes in the Company's unrecognized tax benefits are as follows (in thousands):

	Fiscal Year Ended January 2, 2018	Fiscal Year Ended January 3, 2017
Beginning balance	\$ 185	\$ 185
Decreases attributable to tax positions taken		
during prior periods	(36)	—
Decreases resulting from lapse of applicable		
statutes of limitations	—	—
Ending balance	\$ 149	\$ 185

As of January 2, 2018, the entire unrecognized tax benefits reduce the deferred tax asset for the net operating loss carryforwards. If recognized, none of the unrecognized tax benefits would impact the Company's effective tax rate. As of January 2, 2018, it is reasonably possible that the unrecognized tax benefits will not significantly increase or decrease in the next twelve months.

The Company is subject to taxation in the United States and various state and local jurisdictions. As of January 2, 2018, the Company is not subject to any income tax examinations. Due to tax attribute carryforwards, as of January 2, 2018, the Company remains effectively subject to U.S. federal, state and local income tax examinations by tax authorities for the tax years since 2006.

15. EMPLOYEE BENEFIT PLAN

The Company maintains a voluntary defined contribution plan covering all eligible employees. Eligible employees may elect to defer and contribute a percentage of their compensation to the plan, not to exceed the dollar amount set by law. The Company matched employees' contributions on a discretionary basis, resulting in a contribution of less

than \$0.1 million each for fiscal years 2017, 2016 and 2015.

16. SEVERANCE AND OTHER COMPENSATION

In connection with the relocation of the Company's headquarters from Emeryville, California to Frisco, Texas, the Company incurred severance and retention obligations. At January 2, 2018, \$0.3 million of severance liability was classified in accrued expenses in the Consolidated Balance Sheets. At January 3, 2017, \$1.6 million of severance and \$0.8 million of retention liability were classified in accrued expenses and accrued compensation and benefits, respectively, in the Consolidated Balance Sheets. The Company made severance and retention payments of \$2.7 million and incurred additional expenses related to the relocation of \$0.6 million in fiscal year 2017. The remaining severance payments will be completed by the end of the fourth quarter in fiscal 2018.

During fiscal 2017, the Company incurred \$0.7 million in severance charges and paid \$0.6 million related to the departure of two senior executive. The remaining \$0.1 million has been recorded in accrued expenses in the Consolidated Balance Sheets and was paid in full in the first quarter of fiscal 2018.

F-28

On October 1, 2015, the Company announced the retirement of James D. White, the former Chief Executive Officer. In accordance with his employment agreement, severance and bonus of \$0.8 million have been accrued for in fiscal 2015 and paid in full in fiscal 2016. Also during fiscal 2015, severance of \$0.6 million was recorded for certain departures of two senior executives. Expenses relating to acceleration of options and awards from stock modifications related to the departure of the three executives of \$0.8 million were also accounted for in fiscal 2015 and are included as part of stock compensation. These payments were completed during fiscal year 2016.

17. STORE LEASE TERMINATION AND CLOSURE COSTS

During fiscal 2017, the Company closed one underperforming Company Store in the New York market after the expiration of the contractual lease term. The Company recorded exit costs of \$0.1 million that consisted of asset write-offs.

During fiscal 2016, the Company closed one underperforming Company Store in the California market, which was prior to expiration of the contractual lease term. The Company recorded exit costs of \$3.6 million, including accrued exit costs of \$1.3 million related to the estimated fair value of the lease termination obligation and \$2.3 million of asset write-offs. At January 2, 2018, the remaining lease termination obligation was approximately \$0.9 million.

During fiscal 2015, in conjunction with its transition to an asset-light model, the Company performed a review of its portfolio of Company Stores, and as a result, closed eight underperforming Company Stores in the Chicago and New York City markets on December 29, 2015, which was prior to expiration of their contractual lease terms. The Company accrued exit costs of \$1.6 million, including \$1.3 million related to the estimated fair value of the lease termination obligation, \$0.2 million of asset write-offs, and \$0.1 million related to severance. At January 2, 2018, the remaining lease termination obligation was approximately \$0.5 million related to one of the stores closed in 2015.

The Company estimates the fair value of the remaining lease termination obligation as of the cease-use date, using a weighted average of multiple outcomes approach which considered for each lease: future contractual lease obligations, net of projected sub-lease income (limited to amount of the rental obligation) after a period for remarketing, outcomes including buyout fees for early termination and actual terminations. Future cash flows are discounted using the Company's credit adjusted risk free rate, which were estimated at 4.95% and 6.5% in fiscal years 2016 and 2015, respectively. Sublease rental income and absorption period assumptions were based on data available from rental activity in the local markets. Assumptions about potential buyout payments were also based on data available from rental activity in the local markets, allowed for a period for negotiation and then a final settlement at a multiple of monthly rental and common area payments.

As of January 2, 2018, the Company's future lease obligations totaled approximately \$3.1 million, which was reduced for estimates for sublease rental income of \$1.6 million. The net obligation after discounting was increased for estimated transaction fees to advisors of approximately \$0.1 million. The resulting obligation at estimated fair value totaled approximately \$1.4 million.

Considerable management judgment is necessary to estimate net future cash flows including cash flows from continuing use, terminal value and sublease income. Accordingly, actual results could vary from the estimates. If these assumptions or their related estimates change in the future, the Company will be required to record additional exit costs or reduce exit costs previously recorded. Exit costs recorded for each of the periods presented include the effect of such changes in estimates.

18. OTHER OPERATING, NET

The components of other operating, net are as follows (in thousands):

	Fiscal Year Ended January 2, 2018	Fiscal Year Ended January 3, 2017	Fiscal Year Ended December 29, 2015

19. OTHER COMMITMENTS AND CONTINGENCIES

Litigation Related - The Company records a liability for litigation claims and contingencies when payment is probable and the amount of loss can be reasonably estimated.

In fiscal year 2017, the Company recognized \$1.0 million for estimated losses with ongoing litigation matters in the normal course of business based on the available information at the time. The estimated losses are included in general and administrative expenses in the Company's financial statements. In fiscal year 2016, the Company recognized \$2.0 million for estimated losses associated with ongoing and settled litigation matters based on the available information at the time. The amounts recognized relate to aggregate amounts estimated for resolution of the Company's ordinary course employment based litigation cases estimated at \$1.0 million and a commercial vendor dispute settled for \$1.0 million. The Company did not include any reserve for losses relating to ongoing and settled litigation matters in 2015.

The Company is a defendant in litigation arising in the normal course of business. Although there can be no assurance as to the ultimate disposition of these matters, it is the opinion of the Company's management, based upon the information available at this time, that the expected outcome of these matters, individually or in the aggregate, will not have a material adverse effect on the results of operations, liquidity or financial condition of the Company, except as

noted above.

Other - The Company has purchase obligations with certain suppliers for certain fruits and dairy for various terms typically ranging from one year to five years. The Company has one contract with a supplier for a 15 year term that ends in 2024. These contracts are commitments to purchase a minimum level of fruit and other items used in the production of the Company's products totaling \$27.2 million.

F-30

20. RELATED-PARTY TRANSACTIONS

In fiscal 2017 and fiscal 2016, the Company received \$0.3 million from Sodexo related to licensing fees for Jamba units operated by Sodexo. In fiscal 2016, the Company received \$0.2 million from Country Pure Foods related to vendor supply chain management fees. One Jamba Juice Director is on the Board of Directors of Country Pure Foods and another Jamba Juice Director is an executive with Sodexo.

21. UNAUDITED QUARTERLY INFORMATION

The sum of income (loss) per share for all four quarters may not equal the loss per share of the fiscal year due to rounding.

In fiscal 2017, Company Store revenue decreased primarily due to the net reduction in Company Stores resulting from the Company's transition to an asset-light model. In the second quarter of fiscal 2017, the Company refranchised 13 Company-owned stores in the Chicago area. At the end of fiscal 2017, the number of Company Stores was 53 compared to 66 at the end of fiscal 2016.

In connection with the store closure in late fiscal 2016 and the exit of Jamba GO®, the Company recognized a store lease termination and closure expense and an impairment loss of \$2.3 million and \$3.4 million, respectively, in the fourth quarter. During fiscal 2016, the Company sold one store during the fourth quarter.

In the Statements of Operations for the third quarter ended September 27, 2016 and fourth quarter ended January 3, 2017, the Company corrected certain out-of-period errors related to prior period financial statements. The

out-of-period errors related to both the first and second quarters of fiscal 2016 as well as fiscal 2015 and earlier results. The adjustments arose from various errors in depreciation expense, share-based compensation, impairments and balance sheet accruals affecting revenues and general and administrative expenses. The Company evaluated and concluded that the corrections made for the out-of-period errors in the third and fourth quarter, and the unadjusted impact on the prior periods, were neither quantitatively or qualitatively material to those periods individually or in the aggregate. The following table details the specific amounts of out-of-period (overstatements)/understatements for the fiscal 2016 quarters.

22. SUBSEQUENT EVENTS

During the first quarter of fiscal 2018, we recorded severance of \$0.3 million for the departure of one senior executive.

ITEM CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND
9. FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

An evaluation was conducted under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, on the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Annual Report on Form 10-K. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective as of January 2, 2018.

(b) Management's Annual Report On Internal Control Over Financial Reporting

We, as management of the Company, are responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended. Pursuant to the rules and regulations of the SEC, internal control over financial reporting is a process designed by, or under the supervision of, our principal executive and principal financial officers, or persons performing similar functions, and affected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of the effectiveness of future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

We used the criteria set forth in Internal Control—Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) to assess the effectiveness of internal control over financial reporting and concluded that our internal control over financial reporting was effective as of January 2, 2018.

The effectiveness of the Company's internal control over financial reporting as of January 2, 2018 has been audited by Whitley Penn LLP, an independent registered public accounting firm, as stated in its report that appears in this Annual Report on Form 10-K.

(c) Changes in Internal Control Over Financial Reporting

We have taken corrective actions to remediate the reported material weakness in our 2016 Annual Report on Form 10-K by redesigning existing controls, developing and deploying new controls to improve the adequacy and timeliness of preventing or detecting material misstatement over financial reporting. Other than remediation of the material weakness referenced below, there have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal year ended January 2, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

(d) Remediation of Material Weakness

As previously disclosed in our 2016 Annual Report on Form 10-K filed with the SEC on February 12, 2018, we identified that our risk assessment process, which was intended to identify new transactions and changes to existing processes and design appropriate control activities over financial reporting, was not sufficient to prevent or detect material misstatement on a timely basis. As a result of ineffective risk assessment, we did not develop policies and

procedures as well as design and operate relevant control activities that would mitigate risks of material misstatement over financial reporting. In addition, we did not effectively identify and evaluate how the changes in our business, leadership, key personnel and location could impact our system of internal controls as it relates to assessment of risks related to financial reporting, as well as determine a basis for how those risks should be

managed. The material weakness affected the design, implementation and operation of controls over the preparation, analysis and review of significant balances and disclosures and impacted our ability to close our books in a timely manner. This material weakness contributed to misstatements related to a number of significant accounts and disclosures.

During fiscal 2017, we addressed the factors contributing to the material weakness noted above and improved our overall system of internal controls by enhancing the company-wide Sarbanes-Oxley internal control over financial reporting including performing a comprehensive evaluation of the risk assessment, scoping and testing process. We developed relevant oversight controls that operates at a level of precision sufficient to detect errors resulting from a control failure, and strengthened our existing oversight controls, including accounting policy oversight, to ensure compliance with policies and procedures. We trained key process owners and other relevant personnel to ensure controls are performed timely, appropriately, and supported with adequate evidence of control completion. We augmented the finance and accounting function with qualified personnel commensurate with the complexity of our processes and financial reporting requirements. The design and operating effectiveness of our internal controls and procedures were tested during fiscal 2017, and as of January 2, 2018, the material weakness is remediated.

ITEM 9B. OTHER INFORMATION

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Jamba, Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Jamba, Inc. and subsidiary's (the "Company") internal control over financial reporting as of January 2, 2018, based on criteria established in 2013 Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 2, 2018, based on criteria established in 2013 Internal Control - Integrated Framework issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheet of the Company, as of January 2, 2018, and the related consolidated statements of operations, stockholders' equity, cash flows, and financial statement schedule listed in the accompanying index for the year then ended and our report dated May 11, 2018, expressed an unqualified opinion on those consolidated financial statements and related financial statement schedule.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the entity's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an

understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the entity; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Name	Age	Director Since
David A. Pace	59	2012
Richard L. Federico	64	2006
Andrew R. Heyer	60	2009
Michael A. Depatie	61	2010
Lorna C. Donatone	60	2013
James C. Pappas	37	2015
Glenn W. Welling	47	2015

The principal occupations and qualifications of each of the seven Company nominees for director are as follows. There are no family relationships among any of our directors or executive officers.

DAVID A. PACE has been a member of our Board since August 2012 and was appointed our Chief Executive Officer in January 2016. From 2014 to 2016, Mr. Pace served as President of Carrabba's Italian Grill, and from 2010 to 2014, Mr. Pace was the Executive Vice President and Chief Resource Officer of Bloomin' Brands where he was responsible for both the human resources and real estate and development functions of Bloomin' Brands along with the Fleming's and Roy's business units. Before joining Bloomin' Brands in 2010, Mr. Pace was a management consultant, entrepreneur and not-for-profit leader. He has extensive domestic and international experience overseeing human resources for Starbucks Coffee Company, HomeGrocer.com and PepsiCo/YUM Brands along with additional experiences in technology and sports management. Mr. Pace served as an adjunct faculty member in Southern Methodist University's Cox Graduate School of Business and is currently a director of Up2US, a rapidly expanding national non-profit focused on improving the health and development of America's young people through sports-based youth development. Mr. Pace has a Bachelor of Science in Industrial and Labor Relations from Cornell University. Mr. Pace's position as our Chief Executive Officer and his extensive knowledge of the restaurant and food and beverage industries, including his senior leadership experience in human resources, make him particularly qualified for service on our Board.

RICHARD L. FEDERICO has been a member of our Board of Directors since November 2006 and has served as the Chairman of our Board since January 2016. Mr. Federico had previously served as a director of Jamba Juice Company from October 2004 to November 2006. Mr. Federico is currently Executive Chairman of P.F. Chang's China Bistro Inc., an operator of domestic Asian-inspired restaurant brands, a position he has held since 2012. From 1996 until 2012, Mr. Federico served as a director and from 1997 to 2015, as Chief Executive Officer of P.F. Chang's China Bistro Inc. In 2000, Mr. Federico was named Chairman of the Board of P.F. Chang's China Bistro Inc. From 1989 to 1996, Mr. Federico served as President of the Italian Concepts division of Brinker International, Inc., where he was responsible for concept development and operations. Since 2011, Mr. Federico has served on the Board of Directors of Domino's Pizza. Since August 2016, Mr. Federico has served on the Board of Directors and Compensation Committee of GolfTEC. Mr. Federico's business acumen and experience in leading a successful publicly-held restaurant concept make him particularly qualified for service as Chairman of our Board, and for service on our Nominating and Corporate Governance Committee and on our Compensation and Executive Development Committee.

ANDREW R. HEYER has been a member of our Board of Directors since June 2009. Mr. Heyer has served as the Chief Executive Officer and Founder of Mistral Equity Partners, a private equity fund, since its founding in 2007. Prior to founding Mistral, Mr. Heyer served as a Founding Managing Partner of Trimaran Capital Partners, LLC, a private equity firm. Mr. Heyer was formerly a Vice Chairman of CIBC World Markets Corp., and a co-head of the

CIBC Argosy Merchant Banking Funds. Prior to joining CIBC World Market Corp. in 1995, Mr. Heyer was a Managing Director at Drexel Burnham Lambert Incorporated and, previous to that, he worked at Shearson/American Express. Mr. Heyer also serves on the Board of Directors of Hain Celestial Group. Mr. Heyer also currently serves as a Member of the Executive Committee and Board of Trustees of the University of Pennsylvania and the University of Pennsylvania Health System. Mr. Heyer was appointed as our Lead Director in March 2015, a position he held until January 2016. Mr. Heyer's business, financial and investment experience in consumer focused product

and services industries makes him particularly qualified for service on our Board and our Compensation and Executive Development Committee.

MICHAEL A. DEPATIE has been a member of our Board of Directors since November 2010. Mr. Depatie has served as the Managing Partner of KHP Capital Partners, a hotel real estate investment fund, since January 2015. Mr. Depatie served as Chief Executive Officer of Kimpton Hotels and Restaurants, LLC from 2006 to January 2015, and was also a member of Kimpton's Board of Directors. Prior to being elected as Kimpton's Chief Executive Officer, Mr. Depatie served as their President from 2005 having joined the Kimpton family of companies as Chief Executive Officer for real estate for Kimpton Group Holding, LLC in 2003. Prior to Kimpton, Mr. Depatie held senior finance and development roles in a number of rapidly growing lodging companies including Residence Inn and Summerfield Suites. Previously, Mr. Depatie was the Chief Financial Officer of Sunterra, an NYSE listed resort hotel vacation ownership company and NYSE listed La Quinta, a national chain of limited service hotels. Mr. Depatie's extensive senior management experience and his financial expertise make him particularly qualified for service on our Board and as Chairman of our Audit Committee.

LORNA C. DONATONE has been a member of our Board of Directors since December 2013. Since September 2015, Ms. Donatone has served as Region Chair for North America and Chief Executive Officer of Geographic Regions Worldwide for Sodexo. Ms. Donatone had previously served as Chief Executive Officer Schools Worldwide and Chief Operating Officer and Education Market President at Sodexo Education since February 2010, where she oversaw operations and strategic growth for Sodexo at college and university campuses, public school districts and private schools in the U.S. Prior to that, Ms. Donatone served in various other leadership roles at Sodexo including President of School Services from September 2007 to February 2010. Ms. Donatone joined Spirit Cruises, LLC, a subsidiary of Sodexo in 1999 and served as its President from 2002 to 2006. Ms. Donatone is a member of the Sodexo Group Executive Committee and Chair of the Sodexo North America Regional Leadership Committee. She has been a board member of the National Restaurant Association since 2005 and a trustee of the National Restaurant Association Educational Foundation since 2011, where she is Past Chair of the Board. Ms. Donatone is the Past Chair of the Board of Directors of the Women's Foodservice Forum and was elected as a member of the Board of Trustees for the Culinary Institute of America in 2008, of which Ms. Donatone is now a trustee emeritus. Ms. Donatone's extensive knowledge of the restaurant and food service industry, senior management experience and financial expertise makes her particularly qualified for service on our Board, our Audit Committee and as Chair of our Nominating and Corporate Governance Committee.

JAMES C. PAPPAS has been a member of our Board of Directors since January 2015. He serves as the Managing Member of JCP Investment Management, LLC, a position he has held since June 2009. Mr. Pappas is the sole member of JCP Investment Holdings, LLC, and was a private investor between 2007 and 2009. Previously, from June 2005 to July 2007, Mr. Pappas was with the Investment Banking/Leveraged Finance Division of Goldman Sachs Group, Inc. where he advised private equity groups and corporations on appropriate leveraged buyout, recapitalization and refinancing alternatives. Prior to that, from June 2004 to June 2005, Mr. Pappas worked with Banc of America Securities, where he focused on consumer and retail investment banking, providing advice on a wide range of transactions including mergers and acquisitions, financings, restructurings and buy-side engagements. From January 2013 to May 2014, Mr. Pappas served as the Chairman of Morgan's Foods Inc., and served as its Director from February 2012 to May 2014. He served as an Independent Director of The Pantry, Inc. from March 2014 to March 2015. He also served as a Director at Samex Mining Corp. from January 2013 to August 2013. Since June 2016, Mr. Pappas has served as a Director of Tandy Leather Factory, Inc., and since October 2016 he has served as Director of US Geothermal, Inc. Mr. Pappas's financial and food service industry expertise, along with his senior management experience make him particularly qualified to serve on our Board, our Audit Committee and our Nominating and Corporate Governance Committee.

GLENN W. WELLING has been a member of our Board of Directors since January 2015. He has served as the Chief Investment Officer and Principal of Engaged Capital, LLC since its founding in 2012. Prior to the founding of Engaged Capital, Mr. Welling was a Principal and Managing Director of Research at Relational Investors LLC, which

he joined in July 2008 and was responsible for research in the consumer, healthcare, and utilities sectors. Mr. Welling served from February 2002 to May 2008 as a Managing Director of Credit Suisse Group AG, where he also served as the Head of the Investment Banking Department's Advisory Business. Mr. Welling served as Partner and Managing Director of HOLT Value Associates L.P. from October 1999 to January 2002. Mr. Welling serves as Chairman of the Board of Directors for the University of Pennsylvania's tennis program and as a Member of the Wharton Executive Education Board. He also serves as a member of the Board of Directors

of TiVo Corporation, and Hain Celestial Group, Inc. He teaches executive education courses at the Wharton School of Business at the University of Pennsylvania. Mr. Welling's financial, industry, and senior management experience make him particularly qualified to serve on our Board and as Chairman of our Compensation and Executive Development Committee.

Background information on the officers of the Company other than Mr. Pace can be found in Part 1 of this Annual Report on Form 10-K.

CORPORATE GOVERNANCE

Director Independence

The Board of Directors has determined that, except for David Pace, each of the Company director nominees standing for election has no relationship which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and is an "independent director" as defined by the applicable NASDAQ rules and the rules and regulations of the Securities and Exchange Commission (the "SEC"). In determining the independence of our directors, the Board of Directors has adopted the independence standards that mirror the criteria specified by applicable law and regulations of the SEC and the NASDAQ.

Board Leadership Structure

Our Board leadership structure currently consists of an independent Chairman and a Chief Executive Officer. In January 2016, David A. Pace was appointed our Chief Executive Officer and Richard L. Federico was appointed Chairman of our Board. Prior to the appointment of Richard L. Federico as independent Chairman of the Board, we appointed an independent Lead Director and will do so in the future at any time the roles of Chief Executive Officer and Chairman are combined.

The Board believes that Mr. Federico is best situated to serve as Chairman because he is the director most familiar with the Company's business and industry, possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing the Company and is thus best positioned to develop agendas that ensure that the Board's time and attention are focused on the most critical matters. The Company's independent directors bring experience, oversight and expertise from outside the Company, while the Chief Executive Officer brings Company-specific experience and expertise. The Board has determined that separating the roles of Chairman and Chief Executive Officer is most appropriate based on the current business environment of the Company, among other relevant factors.

Additionally, one of the responsibilities of the Board is to work with management to develop strategic direction and hold management accountable for the execution of strategy once it is developed. The Board believes that the Chairman can provide guidance to the Chief Executive Officer, who can then make the operating decisions necessary to manage the business.

Our Board elects our President, Chief Financial Officer, Secretary and all executive officers. All executive officers serve at the discretion of our Board. Each of our officers devotes his or her full time to our affairs.

Our directors devote time to our affairs as is necessary to discharge their duties. In addition, our Board has the authority to retain its own advisers to assist it in the discharge of its duties. There are no family relationships among any of our directors, officers or key employees.

Board's Role in Risk Oversight

Our Board has an active role, as a whole and also at the committee level, in overseeing management of the risks we face. This role is one of informed oversight rather than direct management of risk. Our Board regularly reviews and

consults with management on strategic direction, challenges and risks we face. Our Board also reviews and discusses with management quarterly financial results and forecasts. The Audit Committee of our Board oversees management of financial risks, and its charter tasks the committee to provide oversight and review of, at least annually, our risk management policies. The Compensation and Executive Development Committee of our Board is responsible for overseeing the management of risks relating to and arising from our executive compensation plans and arrangements. These committees provide regular reports to the full Board.

Management is tasked with the direct management and oversight of legal, financial, and commercial compliance matters, which includes identification and mitigation of associated areas of risk. The Chief Financial Officer and her staff provide regular reports of legal risks to our Board and committees. The Chief Financial Officer

and the Controller provide regular reports to the Audit Committee concerning financial, tax and audit related risks. In addition, the Audit Committee receives periodic reports from management on our compliance programs and efforts, investment policy and practices and the results of various internal audit projects. Management and the Compensation and Executive Development Committee’s compensation consultant provide analysis of risks related to our compensation programs and practices to the Compensation and Executive Development Committee.

Certain Relationships and Related Party Transactions

The Company has entered into indemnity agreements with certain officers and directors which provide, among other things, that Jamba will indemnify such officer or director, under the circumstances and to the extent provided for therein, for expenses, damages, judgments, fines and settlements he or she may be required to pay in actions or proceedings which he or she is or may be made a party by reason of his or her position as a director, officer or other agent of Jamba, and otherwise to the fullest extent permitted under Delaware law and our Bylaws.

Other than the foregoing, there were no relationships or related party transactions in the fiscal year ended January 2, 2018 requiring disclosure.

Procedures for Approval of Related Person Transactions

Any request for us to enter into a transaction with an executive officer, director or employee, or any of such persons’ immediate family members or affiliates, must first be presented to our Audit Committee for review, consideration and approval. In approving or rejecting the proposed agreement, our Audit Committee will review each such transaction for potential conflicts of interest or improprieties in a manner consistent with our internal Policy Statement on Related Party Transactions.

Executive Sessions

Non-management directors regularly meet in executive session without management present each time our Board of Directors holds its regularly scheduled meetings.

Committees and Board Meeting Attendance

The Board of Directors has a standing Audit Committee, a Compensation and Executive Development Committee and a Nominating and Corporate Governance Committee. Each of these committees operates under a written charter adopted by the Board of Directors. Copies of these charters can be obtained on our website by going to <http://ir.jambajuice.com> and following the “Corporate Governance” link. The Board of Directors holds at least four regular meetings each year, with additional meetings as required. The Board of Directors held four meetings during Fiscal 2017, either in person or by teleconference. Each of the standing committees of the Board of Directors held the number of meetings indicated in the table below. During Fiscal 2017, each of our incumbent directors attended at least 75% of the total number of meetings of the Board of Directors and all of the committees of the Board of Directors held during the period in which such director served. Our Corporate Governance Principles and Practices provide that our directors are expected to attend the Annual Meeting of Shareholders.

The following table sets forth the three standing committees of the Board of Directors and the members of each committee who served during Fiscal 2017:

Name of Director	Audit	Compensation and Executive Development	Nominating and Corporate Governance
------------------	-------	--	-------------------------------------

Edgar Filing: JAMBA, INC. - Form 10-K

Michael A. Depatie	Chair		
Richard L. Federico		Member	Member
Andrew R. Heyer		Member	
Lorna C. Donatone	Member		Chair
James C. Pappas	Member		Member
Glenn W. Welling		Chair	
Number of Meetings:	8	5	4

Audit Committee

The current members of the Audit Committee are Michael A. Depatie (Chair), Lorna Donatone, and James C. Pappas. Each of the members of the Audit Committee is independent for purposes of the applicable NASDAQ rules and the rules and regulations of the SEC as they apply to Audit Committee members.

With the assistance of the Company's legal counsel, the Nominating and Corporate Governance Committee reviewed the applicable legal standards and criteria to determine "audit committee financial expert" status, as well as

the answers to annual questionnaires completed by the Board members. On the basis of this review, the Nominating and Corporate Governance Committee delivered a report to the full Board. The Board made a determination that all current members of the Audit Committee are “audit committee financial experts” based upon the Nominating and Corporate Governance Committee’s report and each Board member’s review of the information made available to the committee.

The Audit Committee operates under a written charter approved by the Board of Directors, a copy of which can be obtained on our website by going to <http://ir.jambajuice.com> and following the “Corporate Governance” link. As more fully defined in the committee’s charter, the functions of the Audit Committee include retaining our independent registered public accounting firm, reviewing their independence, reviewing and approving the planned scope of our annual audit, reviewing and approving any fee arrangements with our independent registered public accounting firm, overseeing their audit work, reviewing and pre-approving any non-audit services that may be performed by them, reviewing the adequacy of accounting and financial controls, reviewing our critical accounting policies and reviewing and approving any related party transactions.

Additional information regarding the Audit Committee is set forth in the Report of the Audit Committee.

Compensation and Executive Development Committee

The current members of the Compensation and Executive Development Committee are Glenn W. Welling (Chair), Richard L. Federico, and Andrew R. Heyer. Each of the members of the Compensation and Executive Development Committee is independent for purposes of the applicable NASDAQ rules. The Compensation and Executive Development Committee operates under a written charter approved by the Board of Directors, a copy of which can be obtained on our website by going to <http://ir.jambajuice.com> and following the “Corporate Governance” link.

As more fully described in the committee’s charter, the primary function of the Compensation and Executive Development Committee is to assist the Board of Directors in managing compensation and development for directors and executives. The Compensation and Executive Development Committee’s primary duties and responsibilities are to (i) set compensation philosophy and determine executive compensation; (ii) ensure that all components of executive compensation are consistent with the Company’s compensation philosophy as in effect from time to time; (iii) evaluate and make recommendations to the Board of Directors on an annual basis concerning compensation of the members of the Board of Directors; (iv) oversee risks related to our executive compensation plans and arrangements; and (v) work with management to devise and execute on an executive development plan and succession planning and practices for the Company. The Compensation and Executive Development Committee’s charter does not provide for any delegation of these duties. In addition, the Compensation and Executive Development Committee has the authority under its charter to hire outside consultants and conduct such compensation reviews, investigations and/or surveys as the Compensation and Executive Development Committee may reasonably deem will provide such information as could reasonably and properly be required by the Compensation and Executive Development Committee in the exercise of its duties and responsibilities.

In setting compensation for our members of the Board of Directors, our executive officers provide suggestions on the administration of compensation for our directors to the Compensation and Executive Development Committee. For a description of the role our executive officers play in determining or recommending the amount or form of executive compensation, please see the section below entitled “EXECUTIVE COMPENSATION — Compensation Discussion and Analysis.”

Executive Compensation Processes

The Compensation and Executive Development Committee has implemented an annual performance review program for our executives under which annual performance goals are determined early in each calendar year for each of our executive officers. These goals may include both corporate goals and individual department specific goals that

facilitate the achievement of corporate performance. Bonuses are tied to the achievement of these performance goals. For all executives, annual base salary increases and bonuses, to the extent awarded, are generally implemented during the first calendar quarter of the year.

Risk Considerations in Executive Compensation

Our Compensation and Executive Development Committee has discussed the concept of risk as it relates to our compensation programs, including our executive compensation program, and our Compensation and Executive Development Committee does not believe that our compensation programs encourage excessive or inappropriate

risk taking. As described more fully in the section below entitled “EXECUTIVE COMPENSATION — Compensation Discussion and Analysis,” we structure our pay to consist of both fixed and variable compensation. The fixed (or salary) portion of compensation is designed to provide a steady income regardless of our stock price performance so that executives do not feel pressured to focus exclusively on stock price performance to the detriment of other important business metrics. The variable (cash bonus and equity) portions of compensation are designed to reward both intermediate and long-term corporate performance and generally are tied to the achievement of company-wide and individual department-specific goals. Goals are both financial and non-financial, and while largely formula-based, there is also an appropriate level of discretion in determining incentive payouts. We believe that applying company-wide metrics encourages decision-making by our executives that is in the best long-term interest of our Company and shareholders. Further, we believe that these variable elements of compensation constitute a sufficient percentage of overall compensation to motivate our executives to produce superior short, intermediate and long-term corporate results, while the fixed element is also substantial enough that our executives are not encouraged to take unnecessary or excessive risks in doing so. Finally, there are additional risk mitigating policies in place such as insider trading prohibitions and independent Compensation and Executive Development Committee oversight.

Nominating and Corporate Governance Committee

The current members of the Nominating and Corporate Governance Committee are Lorna Donatone (Chair), Richard L. Federico and James C. Pappas. Each of the members of the Nominating and Corporate Governance Committee is independent for purposes of the applicable NASDAQ rules. The Nominating and Corporate Governance Committee operates under a written charter approved by the Board of Directors, a copy of which can be obtained on our website by going to <http://ir.jambajuice.com> and following the “Corporate Governance” link.

As more fully defined in the committee’s charter, the Nominating and Corporate Governance Committee considers qualified candidates for appointment and nomination for election to the Board of Directors and makes recommendations concerning such candidates, develops corporate governance principles for recommendation to the Board of Directors and oversees the regular evaluation of our directors and management.

Director Nominations — Criteria and Diversity

The Board of Directors has adopted a Director Qualifications and Nominations Policy, the purpose of which is to describe the process by which candidates for possible inclusion in the Company’s slate of director nominees are selected. The Director Qualifications and Nominations Policy is administered by the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee annually evaluates the current members of the Board of Directors whose terms are expiring and who are willing to continue in service against the criteria set forth below in determining whether to recommend these directors for election. The Nominating and Corporate Governance Committee regularly assesses the optimum size of the Board of Directors and its committees and the needs of the Board of Directors for various skills, background and business experience in determining if the Board of Directors requires additional candidates for nomination.

In fulfilling its responsibilities, the Nominating and Corporate Governance Committee considers, among other things, the following factors in reviewing possible candidates for nomination as director:

- the appropriate size of the Company’s Board of Directors and its Committees;
- the perceived needs of the Board of Directors for particular skills, background and business experience;
- the skills, background, reputation, and business experience of nominees compared to the skills, background, reputation, and business experience already possessed by other members of the Board of Directors;
- nominees’ independence from management;
-

applicable regulatory and listing requirements, including independence requirements and legal considerations, such as antitrust compliance;

the benefits of a constructive working relationship among directors; and

58

the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members.

The Nominating and Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for any prospective nominee.

While the Nominating and Corporate Governance Committee does not have a formal policy on diversity with regard to consideration of director nominees, the Nominating and Corporate Governance Committee considers diversity in its selection of nominees and seeks to have a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience. Our Board of Directors recognizes its responsibility to ensure that nominees for our Board of Directors possess appropriate qualifications and reflect a reasonable diversity of personal and professional experience, skills, backgrounds and perspectives, including those backgrounds and perspectives with respect to age, gender, culture, race and national origin. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the Board of Directors to promote our strategic objectives and to fulfill its responsibilities to our shareholders.

Candidates for nomination as director come to the attention of the Nominating and Corporate Governance Committee from time to time through incumbent directors, management, shareholders or third parties. These candidates may be considered at meetings of the Nominating and Corporate Governance Committee at any point during the year. Such candidates are evaluated against the criteria set forth above. If the Nominating and Corporate Governance Committee believes at any time that it is desirable that the Board of Directors consider additional candidates for nomination, the Nominating and Corporate Governance Committee may poll directors and management for suggestions or conduct research to identify possible candidates and may engage, if the Nominating and Corporate Governance Committee believes it is appropriate, a third party search firm to assist in identifying qualified candidates.

The Nominating and Corporate Governance Committee will evaluate any recommendation for director nominee proposed by a shareholder. In order to be so evaluated, any recommendation for director nominee submitted by a shareholder must be sent in writing to the Corporate Secretary, Jamba, Inc., 3001 Dallas Parkway, Suite 140, Frisco, TX 75034, 120 days prior to the anniversary of the date the proxy statement was released to shareholders in connection with the prior year's annual meeting of shareholders, except that if no annual meeting was held in the previous year or the date of the annual meeting has been advanced by more than thirty (30) calendar days from the date contemplated at the time of the previous year's proxy statement, notice by the shareholders to be timely must be received not later than the close of business on the tenth (10th) calendar day following the day on which public announcement of the date of such meeting is first made, and must contain, among other requirements set forth in our Bylaws, the following information with respect to the candidate:

- the candidate's name, age, business address and residence address;
- the candidate's principal occupation or employment;
- the class and number of shares of capital stock of the Corporation which are beneficially owned by the candidate; and
- any other information relating to the candidate that is required to be disclosed in solicitations for proxies for election of directors pursuant to the Rules and Regulations of the Securities and Exchange Commission under Section 14 of the Securities Exchange Act of 1934, as amended.

All directors and director nominees must submit a completed form of directors' and officers' questionnaire as part of the nominating process. The evaluation process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee will evaluate incumbent directors, as well as candidates for director nominee submitted by directors, management and shareholders consistently using the criteria stated in its policy and will select the nominees that in the Nominating and Corporate Governance Committee's judgment best suit the needs of the Board of Directors at that time.

Our Bylaws permit shareholders to nominate directors for consideration at annual meetings, provided the advance notice requirements set forth in our Bylaws have been properly met.

59

Communications with Directors

Shareholders may communicate with any and all members of our Board of Directors by transmitting correspondence by mail or facsimile addressed to one or more directors by name (or to the Chairman, for a communication addressed to the entire Board of Directors) at the following address and fax number:

Name of the Director(s)

c/o Corporate Secretary

Jamba, Inc.

3001 Dallas Parkway, Suite 140

Frisco, TX 75034

Fax: (469) 294-9601

Communications from our shareholders to one or more directors will be collected and organized by our Corporate Secretary under procedures approved by our independent directors. The Corporate Secretary will forward all communications to the Chairman of the Board of Directors, or to the identified director(s) as soon as practicable, although communications that are abusive, in bad taste or that present safety or security concerns may be handled differently. If multiple communications are received on a similar topic, the Corporate Secretary may, in his or her discretion, forward only representative correspondence.

The Chairman of the Board of Directors will determine whether any communication addressed to the entire Board of Directors should be properly addressed by the entire Board of Directors or a committee thereof. If a communication is sent to the Board of Directors or a committee, the Chairman of the Board, or the Chairman of that committee, as the case may be, will determine whether a response to the communication is warranted. If a response to the communication is warranted, the content and method of the response will be coordinated with our Vice President of Legal Affairs.

Code of Business Conduct and Ethics

The Company has adopted a Code of Business Conduct and Ethics that applies to all of its employees, including the Chief Executive Officer, Chief Financial Officer and Controller. The Code of Business Conduct and Ethics can be obtained on the Company's website by going to <http://ir.jambajuice.com> and following the "Corporate Governance" link. The Company intends to post on its website any amendments to or waivers of the Company's Code of Business Conduct and Ethics. The information contained on the Company's website is not part of this document.

Corporate Governance Guidelines

Our Board has adopted Corporate Governance Principles and Practices to assist it in the exercise of its duties and responsibilities and to serve the best interests of our company and our shareholders. These principles which provide a framework for the conduct of our Board's business provide, among other things, that:

- The principal responsibility of the directors is to oversee the exercise of corporate powers and to ensure that the Company's business and affairs are managed to meet its stated goals and objectives;
- Certain criteria and qualifications be used for consideration of selection of Board nominees;
- New directors participate in an orientation program; and
-

All Board members have access to senior management. No member of the Board shall stand for re-election after his/her 75th birthday without a waiver from a majority of the members of the Board. At least annually, our Board and its committees will conduct a self-evaluation to determine whether they are functioning effectively. Board members shall not serve on more than four other Boards of Directors of other publicly-traded companies; provided, however that if the Board member also serves as chairman of the board of a publicly-traded company, then he or she shall not serve on more than three other Boards of Directors, or if the Board member also serves as an executive officer of a company, then he or she shall not serve on more than two other Boards of Directors.

These principles can be obtained on our website by going to <http://ir.jambajuice.com> and following the “Corporate Governance” link. A printed copy of the guidelines may also be obtained by any shareholder upon request in writing to Jamba, Inc., 3001 Dallas Parkway, Suite 140, Frisco, Texas 75034, by emailing investors@jambajuice.com, or by telephoning (469) 294-9749.

Stock Ownership Guidelines

Each member of our Board of Directors is required to acquire and maintain, individually or through their affiliates, a minimum of \$180,000 of shares of the Company's common stock during the term of his or her service on the Board, with the value measured by the greater of the aggregate purchase price paid for such shares or the current market price. New members of the Board shall have five years from the date on which their service begins in which to attain the required ownership level. Any director who falls short of the guideline will be deemed in compliance as long as such director retains all stock compensation until the required level of ownership is met. We have also adopted stock ownership guidelines for our management to further align the interests of members of senior management with the interests of our shareholders and to encourage management ownership of our common stock. Further information on these guidelines is set forth in the section below entitled "EXECUTIVE COMPENSATION — Compensation Discussion and Analysis."

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers and directors and persons who beneficially own more than 10% of our Common Stock to file initial reports of beneficial ownership and reports of changes in beneficial ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms filed by such person.

Based solely on our review of such forms furnished to us and written representations from certain reporting persons, we believe that all filing requirements applicable to our executive officers, directors and greater-than-10% shareholders were complied with for Fiscal 2017.

ITEM 11. EXECUTIVE COMPENSATION

Summary Compensation Table

The following table sets forth information concerning the compensation earned during fiscal years 2017, 2016 and 2015 by our Named Executive Officers:

2017 SUMMARY COMPENSATION TABLE

Name	Year	Salary	Bonus for Fiscal Year	Stock Awards (Time Based)	Stock Awards (Performance Based)	Stock Awards (Market Based)	Options Awards	Non Equity Incentive Plan Compensation	All Other Compensation	Total
Principal Position	Year	(\$) ⁽¹⁾	(\$) ⁽²⁾	(\$) ⁽³⁾	(\$) ⁽⁴⁾	(\$) ⁽⁵⁾	(\$) ⁽³⁾	(\$) ⁽⁶⁾	(\$) ⁽⁷⁾	(\$)
Dave Pace Chief Executive Officer	2017	600,000	122,264 ⁽¹¹⁾						1,149	723,413
Marie Perry Executive Vice President, Chief Financial & Administrative Officer	2016	454,615	677,736			1,052,000	870,495		691	3,055,537
Marie Perry Executive Vice President, Chief Financial & Administrative Officer	2017	340,000							884	340,884
Joe Thornton Senior Vice President, Chief Operations Officer	2016	198,769	254,000	68,160		289,000	319,500		383	1,129,812
Joe Thornton Senior Vice President, Chief Operations Officer	2017	221,538	150,000 ⁽¹⁰⁾				53,054		39,477 ⁽⁸⁾	464,068
Arnaud Joliff Senior Vice President, Chief Systems Officer	2017	320,000				73,999			859	394,858
Arnaud Joliff Senior Vice President, Chief Systems Officer	2016	296,729	75,000						602	372,331
Arnaud Joliff Senior Vice President, Chief Systems Officer	2015	253,115		135,000			294,322		531	682,968
Rachel Phillips-Luther Senior Vice President, Chief Marketing Officer	2017	253,211							31,440 ⁽⁹⁾	284,651
Rachel Phillips-Luther Senior Vice President, Chief Marketing Officer	2016	99,750	150,000	54,350		195,000			196	499,296

(1) Reflects salaries paid for respective fiscal year

- (2) Reflects bonus guarantees.
- (3) Represents the aggregate fair market value of stock options and restricted stock units calculated in accordance with the fair value method. The grant date fair value of options granted was estimated at the date of grant using a Black-Scholes option-pricing model. Option valuation models, including Black-Scholes, require the input of highly subjective assumptions, and changes in the assumptions used can materially affect the grant date fair value of an award. These assumptions include the risk-free rate of interest, expected dividend yield, expected volatility, and the expected term of the award. The risk-free rate of interest is based on the zero coupon U.S. Treasury rates appropriate for the expected term of the award. We apply the guidance provided by the SEC Staff Accounting Bulletin No. 110 to determine expected term. Expected dividends are zero based on our history of not paying cash dividends on the Company's common stock. For Fiscal Years 2017, 2016, and 2015, expected volatility is based on historic daily stock price observations of the Company's common stock since its inception. There is currently no market-based mechanism or other practical application to verify the reliability and accuracy of the estimates stemming from these valuation models or assumptions. The fair value of restricted stock units is based on the Company's closing stock price on the date of

grant. See the grant date fair value table below for the assumptions used to calculate the grant date fair value of option grants reported for fiscal years 2017, 2016, and 2015 on a grant by grant basis.

- (4) The fair value of the performance-based restricted stock units is based upon a Monte Carlo calculation. The value of the awards at the grant date assumes that the target level of performance conditions will be achieved in 2016 and 2017.
- (5) The fair value of the market-based restricted stock units is based upon a Monte Carlo calculation. Reflects grant of restricted stock units earned upon the achievement of TSR stock price targets that represent 15%, 22.5% and 30% annualized appreciation over a three-year period.
- (6) Reflects annual incentive bonus awards earned for the respective fiscal year, including guarantees.
- (7) Represents severance, vacation and personal hours paid out at separation as well as premium payments for relocation, life insurance and long term disability.
- (8) Includes \$38,921.24 for relocation and \$556 for employer paid life insurance and long term disability.
- (9) Includes \$30,691.31 for relocation and \$747.18 for employer paid life insurance and long term disability.
- (10) Includes management incentive bonus amount guaranteed pursuant to Offer Letter dated, February 25, 2017.
- (11) Reflects bonus guarantee associated with Fiscal 2016 but accrued and paid in Fiscal 2017.

Grant Date Fair Value Table

The following table describes the assumptions used to calculate the grant date fair value of equity grants reported for fiscal years 2017, 2016, and 2015 on a grant-by-grant basis.

Name	Grant Date	Options Granted	RSUs Granted	Closing Price on		Volatility (%)	Expected Life (Years)	Risk Free Interest Rate		Dividend Yield (%)	Fair Value per Share (\$)
				Exercise Price (\$)	Grant Date (\$)			Rate (%)	Rate (%)		
David A. Pace	3/17/2016	150,000		\$ 12.35		41.2	5.18	1.42	—	\$ 4.75	
	4/12/2016	50,000		\$ 19.50	(1)	41.2	5.18	1.25	—	\$ 3.17	
	5/17/2016 (tranche 1)		150,000	\$ 11.33						\$ 4.02	
	5/17/2016 (tranche 2)		100,000	\$ 11.33						\$ 2.78	
	5/17/2016 (tranche 3)		100,000	\$ 11.33						\$ 1.71	
Marie Perry	5/16/2016	75,000		\$ 11.65		39.1	5.18	1.29	—	\$ 4.26	
	5/18/2016		6,000	\$ 11.36						\$ 11.36	
	5/18/2016 (tranche 1)		40,000	\$ 11.36						\$ 4.33	
	5/18/2016 (tranche 2)		25,000	\$ 11.36						\$ 3.08	
	5/18/2016 (tranche 3)		20,000	\$ 11.36						\$ 1.95	
Joe Thornton	3/23/2017	15,000		\$ 9.25		38.8	5.39	2.00		\$ 3.54	
Rachel Phillips-Luther	8/9/2016		5,000	\$ 10.87						\$ 10.87	
	8/9/2016 (tranche 1)		35,000	\$ 10.87						\$ 3.69	
	8/9/2016 (tranche 2)		20,000	\$ 10.87						\$ 2.25	
	8/9/2016 (tranche 3)		15,000	\$ 10.87						\$ 1.40	
Arnaud Joliff	1/24/2017 (tranche 1)		35,000	\$ 9.30						\$ 1.49	
	1/24/2017 (tranche 2)		20,000	\$ 9.30						\$ 0.80	
	1/24/2017 (tranche 3)		15,000	\$ 9.30						\$ 0.40	

Edgar Filing: JAMBA, INC. - Form 10-K

11/12/2015	—	10,000	—	\$ 13.50	—	—	—	—	\$ 13.50
3/17/2015	39,209	—	—	\$ 13.94	43.7	5.85	1.74	—	\$ 6.04

(1) Reflects the strike price for these premium priced options, rather than the closing price.

CEO Pay Ratio

We are providing the following information about the relationship of the annual total compensation of our median employee and the annual total compensation of our Chief Executive Officer (“CEO”):

For 2017, our last completed fiscal year:

The annual total compensation of our median employee was \$7,971. Our median employee is a part-time, hourly store employee.

The annual total compensation of our CEO, as reported in the Summary Compensation Table included on page 61 of the 10-K statement, was \$723,413.

Based on this information for fiscal year 2017, we reasonably estimate that the ratio of our CEO’s annual total compensation to the annual total compensation of our median employee was 91:1. Our pay ratio estimate has been calculated in a manner consistent with Item 402(u) of Regulation S-K using the data and assumptions summarized below.

To identify our median employee, we first determined our employee population (other than our CEO) as of December 31, 2017 (the “Determination Date”). We had 835 employees (other than our CEO), representing all full-time, part-time, seasonal and temporary employees as of the Determination Date. This number does not include any independent contractors or “leased” workers, as permitted by the applicable SEC rules.

We then measured the W-2 compensation for the employee population (other than our CEO) for the period beginning on January 1, 2017 and ending on December 31, 2017. We did not annualize compensation for any employees who were employed for less than the full fiscal year.

Once we identified our median employee, we then determined that employee’s total compensation, including any perquisites and other benefits, in the same manner that we determine the total compensation of our named executive officers for purposes of the Summary Compensation Table disclosed above. For 2017, the total compensation of our median employee was determined to be \$7,971. This total compensation amount for our median employee was then compared to the 2017 total compensation of our CEO as reported in the Summary Compensation Table to determine the pay ratio.

The rules for identifying the median compensated employee and calculating the CEO pay ratio based on that employee’s annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their compensation practices. As such, the CEO pay ratio reported by other companies, including in our own industry, may not be comparable to the CEO pay ratio reported above, as other companies may have different employment and compensation practices and may utilize

different methodologies, exclusions, estimates and assumptions in calculating their own CEO pay ratios.

Grants of Plan-Based Awards at 2017 Fiscal Year End

The following table sets forth certain information with respect to stock and option awards and other plan-based awards granted during the fiscal year ended January 2, 2018 to our Named Executive Officers:

GRANTS OF PLAN-BASED AWARDS IN FISCAL 2017

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards ⁽¹⁾			Estimated Future Payouts Under Equity Incentive Plan Awards			All other stock awards: # of share of stock	All other option awards: # of securities underlying	Exercise or base price of options	Grant date fair value of stock and options ⁽³⁾
		Threshold	Target	Maximum	Threshold	Target	Maximum				
		\$	\$	\$	#	#	#	#	#	\$	\$
David A. Pace	3/1/2017	300,000	600,000	900,000							
Marie Perry	3/1/2017	102,000	204,000	306,000							
Joe Thornton	3/23/2017 3/23/2017	75,000	150,000	225,000					15,000	\$9.25	\$53,054
Rachel Phillips-Luther	3/1/2017	71,250	142,500	213,750							
Arnaud Joliff	3/1/2017	80,000	160,000	240,000							
							35,000 ⁽⁴⁾				\$51,999
							20,000 ⁽⁴⁾				\$16,000
							15,000 ⁽⁴⁾				\$6,000

(1) These columns show the threshold, target and maximum potential payout under the Management Incentive Plan for each of the Named Executive Officers. The target payouts and maximum payouts listed represent the target and maximum amounts payable based on the Fiscal 2017 target metrics described above in the Section entitled "Compensation Discussion and Analysis," taking into account the base salaries paid to each of the Named Executive Officers as of January 2, 2018, the last day of Fiscal 2017. No payouts were made under the Management Incentive Plan for Fiscal 2017. The targets for each of our Named Executive Officers are determined by the Compensation and Executive Development Committee.

(2) Represents 15,000 option shares granted to Mr. Thornton which were an inducement grant outside of the 2013 plan. The grants are time-based and will vest in equal annual installments over three years.

(3) This amount reflects the grant date fair value of the awards granted in Fiscal 2017. The calculation of grant date fair value is explained in Footnote 3 to the 2017 Summary Compensation Table, above. Time-based grants were

valued based on grant price.

- (4) The grants are market-based grants and will vest upon the 30th consecutive trading day the closing price of JMBA common stock equals or exceeds \$19.50, \$24.00 and \$28.50, respectively, or upon a change of control whereby JMBA's stockholders receive a per share consideration equaling or exceeding such target price, so long as the target price is achieved during the three year period beginning on the vesting commencement date, and in each case so long as the executive remains an employee of JMBA and/or its affiliates.

Edgar Filing: JAMBA, INC. - Form 10-K

Outstanding Equity Awards at 2017 Fiscal Year End

The following table sets forth certain information with respect to the number and value of all unexercised options or unvested portions of restricted stock units previously awarded to our Named Executive Officers as of January 2, 2018:

OUTSTANDING EQUITY AWARDS AT January 2, 2018

Name	Option Awards ⁽¹⁾				Stock Awards ⁽¹⁾			Equity
	Number of Securities Underlying Unexercised Options (#)	Number of Securities Underlying Unexercised Options (#)	Option Exercise Price (\$)	Option Expiration Date	Number of Shares or Units of Stock That Have Not Vested (#)	Market Value of Shares or Units of Stock That Have Not Vested ⁽²⁾ (\$)	Equity Incentive Plan Awards of Unearned Shares, Units or Other Rights That Have Not Vested ⁽²⁾ (#)	Equity Incentive Plan Awards of Unearned Shares, Units or Other Rights That Have Not Vested ⁽²⁾ (\$)
David A. Pace	50,000	100,000	12.35	3/14/2026				
	16,666	33,334	19.50	3/14/2026				
					150,000	(3) 1,204,500		
					100,000	(3) 803,000		
					100,000	(3) 803,000		
Marie Perry	25,000	(4) 50,000(4)	11.65	5/16/2026				
					4,000	(4) 32,120		
					40,000	(6) 321,200		
					25,000	(6) 200,750		
					20,000	(6) 160,600		
Joe Thornton		15,000(5)	9.25	3/20/2027				
Arnaud Joliff	22,500	—	10.79	11/7/2023				
	13,069	26,140	13.94	3/17/2025				

Edgar Filing: JAMBA, INC. - Form 10-K

5,000	5,000	13.50	11/12/2025	3,334	(7) 26,772
				35,000	(3) 281,050
				20,000	(3) 160,600
				15,000	(3) 120,450

(1) Reflects restricted stock units, options, or stock awards granted under the 2013 Equity Plan as well as inducement grants.

67

- (2) Market values have been estimated using a price per share of \$8.03, which was the closing price of our common stock on the last trading day of Fiscal 2017.
- (3) The grants are market-based grants and will vest upon the 30th consecutive trading day the closing price of JMBA common stock equals or exceeds \$19.50, \$24.00 and \$28.50, respectively, or upon a change of control whereby JMBA's stockholders receive a per share consideration equaling or exceeding such target price, so long as the target price is achieved during the three year period beginning on the vesting commencement date, and in each case so long as the executive remains an employee of JMBA and/or its affiliates.
- (4) Represents inducement grants made outside of the Company's 2013 Equity Plan. The grants are time-based grants and will vest in equal annual installments over three years on the anniversary of the grant date which was 5/16/2016.
- (5) Represents an inducement grant of stock options made outside of the Company's 2013 Equity Plan. The grants are time-based grants and will vest in equal annual installments over three years on March 20th in 2018, 2019, and 2020. The grant date was 3/23/2017.
- (6) Represents grants of restricted stock unit inducement grants made outside of the Company's 2013 Equity Plan. The grants are market-based grants and will vest upon the 30th consecutive trading day the closing price of JMBA common stock equals or exceeds \$19.50, \$24.00 and \$28.50, respectively, or upon a change of control whereby JMBA's stockholders receive a per share consideration equaling or exceeding such target price, so long as the target price is achieved during the three year period beginning on the vesting commencement date, and in each case so long as the executive remains an employee of JMBA and/or its affiliates.
- (7) This grant is a time-based restricted stock unit award and will vest in equal annual installments over three years on the anniversary of the grant date which was 11/12/2015.

Option Exercises and Stock Vested During Last Fiscal Year

OPTION EXERCISES AND STOCK VESTED DURING

THE FISCAL YEAR ENDED January 2, 2018

Name	Option Awards		Stock Awards	
	Number of	Value	Number of	Value
	Acquired	Realized on Exercise	Acquired	Realized on Vesting
	(#)	(1)	(#)	(2)
		(\$)		(\$)
David A. Pace	—	—	—	—
Marie Perry	—	—	2,000	15,240
Joe Thornton	—	—	—	—
Rachel Phillips-Luther	—	—	1,666	14,261
Arnaud Joliff	—	—	4,167	34,186

(1)Based on the difference between the market price of our common stock on the date of exercise and the exercise price of the relevant option multiplied by the number of shares for which the option was exercised.

(2)Based on the market value of the underlying shares on vesting date multiplied by the number of shares vested. The Company does not provide any deferred compensation arrangements or pension plans. As such, the Pension Benefits Table and Nonqualified Deferred Compensation Table have been eliminated from 10-K statement.

Potential Payments upon Termination or Change in Control

In 2013 we adopted the Severance Plan for the benefit of employees of the Company holding the title of Executive Vice President or Senior Vice President and for certain other key employees of the Company who may be designated by the Compensation and Executive Development Committee from time to time as eligible to participate in the Severance Plan (each a “Participant,” and collectively, the “Participants”). The Severance Plan was amended and restated effective July 2017. The Compensation and Executive Development Committee decided to adopt the Severance Plan to provide Participants with specified compensation and benefits in the event of a termination of employment under circumstances specified therein. Each of the current Executive Vice Presidents and Senior Vice Presidents has entered into a Severance Plan participation agreement which supersedes all prior arrangements and understandings regarding the subject matter of the Severance Plan (including, but not limited to any severance provisions under any employment agreement entered into prior to the effective date of the Severance Plan and/or the date of the participation agreement), and shall be the exclusive agreement for the determination of any payments and benefits due to such employee.

Pursuant to the Severance Plan, in the event that a Participant is terminated without cause or resigns for good reason in the absence of a change of control, such participant will be entitled to receive certain compensation and benefits from

the Company, including the following:

- a severance payment equal to 125% if the Participant entered into an Initial Participation Agreement before July 1, 2017 and was an Executive Vice President or 100% of such Participant's annual base salary rate in effect as of the date of termination if the Participant was not an Executive Vice President at the time of entering into an initial Participation Agreement before July 1, 2017 or if Participant entered into an initial Participation Agreement on or after July 1, 2017;
- all incentive bonuses earned by participant during the period immediately preceding the performance period in which the Participant's employment terminates;
- the Participant's pro rata bonus amount as of the date of termination for incentive bonuses earned during the current performance period; and
- continuation of health coverage for twelve (12) months.

69

Pursuant to the Severance Plan, in the event that the Participant is terminated without cause or resigns for good reason within eighteen (18) months following a change in control (as such term is defined in the Severance Plan), such Participant will be entitled to receive certain compensation and benefits from the Company, including the following:

- a severance payment equal to 125% (Executive Vice Presidents upon entry into an initial Participation Agreement before July 1, 2017) or 100% (in the case of a Participant who was not an Executive Vice President upon entry into an initial Participation Agreement before July 1, 2017) of such Participant's annual base salary rate in effect as of the date of termination;
 - all incentive bonuses earned by Participant during the period immediately preceding the performance period in which the Participant's employment terminates;
 - a bonus payment equal to 100% of the Participant's target bonus for the performance period;
 - continuation of health coverage for twelve (12) months; and
 - 100% accelerated vesting of all unvested equity awards granted on or after the effective date of the Severance Plan.
- Other than as set forth in the Severance Plan, all payments under the Severance Plan are designed to be paid in accordance with the Company's standard procedures, including applicable tax withholding, and are subject to compliance with Section 409A of the Code. Among other conditions, the Participant must sign and not revoke a general release of all claims against the Company as a condition to receiving any of the benefits prescribed by the Severance Plan.

In November 2017, Rachel Phillips-Luther departed as Senior Vice President, Chief Marketing Officer. In connection with her termination, Ms. Phillips-Luther received \$285,000 severance and \$23,100.24 for continuation of healthcare benefits.

The following table presents our estimate of the dollar value of the payments and benefits payable to our Named Executive Officers upon the occurrence of a termination without cause or resignation for good reason under the circumstances noted above, assuming that such event occurred on January 2, 2018, the last day of Fiscal 2017. The actual amounts that would be paid to any Named Executive Officer can only be determined at the time of an actual termination of employment and would vary from those listed below.

	Cash	Equity	COBRA
	Severance	Acceleration	Premium
Current Officers:	(\$)	(\$)	(\$) ⁽¹⁾
David A. Pace	1,200,000 ⁽²⁾	—	14,402
Marie Perry	629,000 ⁽³⁾	—	15,676
Joe Thornton	450,000 ⁽⁴⁾	—	22,215
Arnaud Joliff	320,000 ⁽⁴⁾	—	20,042

(1) Assumes maximum payment of COBRA premiums for the entire severance period covered by the applicable agreement.

(2) Includes one year's base salary and 100% of incentive bonuses for Fiscal 2017.

(3) Reflects 125% of annual base salary for Executive Vice President and pro rata bonus through date of termination.

(4) Reflects 100% of annual base salary for Senior Vice President and pro rata bonus through date of termination.

The following table presents our estimate of the dollar value of the payments and benefits payable to our Named Executive Officers upon the occurrence of a termination without cause or resignation for good reason in connection with a change of control under the circumstances noted above, assuming that such event occurred on January 2, 2018, the last day of Fiscal 2017. The actual amounts that would be paid to any Named Executive Officer can only be determined at the time of an actual termination of employment and would vary from those listed below.

	Cash	Equity	COBRA
	Severance	Acceleration	Premium
Current Officers:	(\$)	(\$) ⁽¹⁾	(\$) ⁽²⁾
David A. Pace	1,500,000 ⁽³⁾	—	14,402
Marie Perry	629,000 ⁽⁴⁾	61,740	15,676
Joe Thornton	450,000 ⁽⁵⁾	—	22,215
Arnaud Joliff	480,000 ⁽⁵⁾	85,767	20,042

(1) Calculated based on the assumption that triggering event takes place on January 2, 2018, the last trading day of Fiscal 2017. Reflects the value of accelerated vesting of outstanding equity awards based on the fair market value of \$8.03 per share as of the last trading day of Fiscal 2017. Acceleration of outstanding equity awards with an exercise price above \$8.03 per share is not reflected.

(2) Assumes maximum payment of COBRA premiums for the entire severance period covered by the applicable agreement.

(3) Includes eighteen (18) months of base salary and 100% of incentive bonuses for Fiscal 2017.

(4) Includes 125% of annual base salary for Executive Vice President and 100% of incentive bonuses for Fiscal 2017.

(5) Includes 100% of annual base salary for Senior Vice President and 100% of incentive bonuses for Fiscal 2017.

Change in Control Arrangements in our Equity Compensation Plans

The Compensation and Executive Development Committee may, in its discretion, provide in the grant of any award under the 2013 Equity Plan for the acceleration of exercisability, vesting and/or settlement in connection with a change in control (as defined in the 2013 Equity Plan).

Pursuant to the terms of the 2013 Equity Plan, if a change in control occurs, the surviving, continuing, successor or purchasing entity or its parent may, without the consent of any participant in the 2013 Equity Plan, either assume or continue the Company's rights and obligations under outstanding awards or substitute substantially equivalent awards for its stock. If so determined by the Compensation and Executive Development Committee, stock-based awards will be deemed assumed if, for each share subject to the award prior to the change in control, its holder is given the right to receive the same consideration that a shareholder would receive as a result of the change in control. In general, any awards which are not assumed, substituted for or otherwise continued in connection with a change in control or exercised or settled prior to the Change in Control will terminate effective as of the time of the change in control. Subject to the restrictions of Section 409A of the Code, the Compensation and Executive Development Committee may provide for the acceleration of vesting or settlement of any or all outstanding awards upon such terms and to such extent as it determines. The 2013 Equity Plan also authorizes the Compensation and Executive Development Committee, in its discretion and without the consent of any participant, to cancel each or any award denominated in shares of stock upon a change in control in exchange for a payment to the participant with respect each vested share (and each unvested share if so determined by the Compensation and Executive Development Committee) subject to the cancelled award of an amount equal to the excess of the consideration to be paid per share of common stock in the change in control transaction over the exercise price per share, if any, under the award. In addition, for awards granted

after the 2013 Equity Plan's amendment and restatement, in the event awards are assumed, continued, or substituted for, as provided above, then "double trigger" treatment (where awards accelerate upon a qualifying termination of employment that follows such change in control) will apply, provided that performance-based awards will be based on actual performance results and will only vest to the extent of such results.

Pursuant to the 2006 Stock Plan, holders of stock rights granted thereunder may be entitled to accelerated vesting upon the occurrence of a corporate transaction (as defined therein). Should a corporate transaction occur, the Board of Directors, or the board of directors of any entity assuming the obligations of the Company thereunder, may generally:

- make appropriate provision for the continuation of such stock rights by substituting, on an equitable basis, either the consideration payable with respect to the number of outstanding shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity;
- upon written notice to the holders, provide that all stock rights must be exercised (either (a) to the extent then exercisable or (b) at the discretion of the Board of Directors, all options or stock rights being made fully exercisable for purposes of the 2006 Stock Plan), within a specified number of days of the date of such notice, at the end of which period the options or stock rights shall be terminated; or
- terminate all options or stock rights in exchange for a cash payment equal to the excess of the fair market value, less the relevant exercise price, if any, of the shares subject to such stock rights (either (a) to the extent then exercisable or (b) at the discretion of the Board of Directors, all options or stock rights being made fully exercisable for purposes of the 2006 Stock Plan).

Pursuant to the 2001 Plan, the Board of Directors, in the event of a “Change in Control,” shall have the right, but not the obligation, to accelerate the vesting or termination of restriction, limitation or repurchase rights applicable to such stock awards. As defined in the 2001 Plan, “Change in Control” means:

- a sale of substantially all of the assets of the Company;
- a merger or consolidation in which the Company is not the surviving corporation;
- a reverse merger in which the Company is the surviving corporation but the shares of Common Stock outstanding immediately preceding the merger are converted by virtue of the merger into other property; or
- the acquisition by any person, entity or group of securities of the Company representing at least 50% of the combined voting power entitled to vote in the election of Directors.

COMPENSATION OF MEMBERS OF OUR BOARD OF DIRECTORS

The following table sets forth information concerning the compensation earned or paid during Fiscal 2017 under our Non-Employee Director Compensation Policy by each individual who served as a non-employee director at any time during Fiscal 2017.

2017 DIRECTOR COMPENSATION

Name	Board Fees		Total
	Earned of		
	Paid in	Stock	
	Cash ⁽¹⁾	Awards ⁽²⁾	
Lorna C. Donatone	67,500	—	67,500
Michael A. Depatie	77,500	—	77,500
Richard L. Federico	97,500	—	97,500
Andrew R. Heyer	57,500	—	57,500
James C. Pappas	57,500	—	57,500

Glenn W. Welling 67,500 — 67,500

- (1) Fees earned are based on membership on the Board and participation in Board or committee chairmanship positions.
- (2) As described in the “Compensation Discussion and Analysis”, due to the delay in the filing of our annual and quarterly reports with the SEC, we did not have a registration statement in effect. Thus, we were unable to grant equity to our directors. Per the Company’s policy, the Company intends to grant shares related to the service of the directors in the amounts described in “Compensation of Directors” below, upon the effectiveness of our registration statement.

72

Compensation of Directors

It is the general policy of the Board of Directors that compensation for non-employee directors should be a mix of cash and equity-based compensation. Director compensation is generally reviewed annually by the Compensation and Executive Development Committee, with any changes made by the committee generally becoming effective commencing after the Annual Meeting of Shareholders. All Board members are entitled to reimbursement by the Company for reasonable travel to and from meetings of the Board, and reasonable food and lodging expenses incurred in connection therewith. In July 2017, the Board agreed to take a \$5,000 reduction in cash compensation, reduced commencing the third quarter 2017 payment. The 2017 compensation for non-employee directors under our Non-Employee Director Compensation Policy consisted of the following:

	Cash Compensation ⁽¹⁾⁽⁵⁾	Equity Compensation ⁽⁴⁾
	\$	\$
Annual Retainer:		
Board Member	60,000	60,000 ⁽²⁾
Chairman of the Board (additional)	40,000	40,000 ⁽³⁾
Audit Committee Chair (additional)	20,000	—
Compensation and Executive Development		
Committee Chair (additional)	10,000	—
Nominating and Corporate Governance		
Committee Chair (additional)	10,000	—

- (1) Assumes service for a full year; directors who serve for less than the full year are entitled to receive a pro-rated portion of the applicable payment. Each “year”, for purposes of the Director Compensation Policy, begins on the date of our annual meeting of shareholders. Each director can elect, in lieu of one-half of their Board Member cash compensation, to take an equally valued stock grant.
- (2) Each non-employee director elected at an annual meeting is entitled to receive an annual grant of equity-based compensation consisting of a number of restricted stock units under the 2013 Plan with a grant date value equal to \$60,000.
- (3) The Chairman of the Board is entitled to receive an annual grant of equity-based compensation consisting of a number of restricted stock units under the 2013 Plan with a grant date value equal to \$40,000.
- (4) As described in the “Compensation Discussion and Analysis”, due to the delay in the filing of our annual and quarterly reports with the SEC, we did not have a registration statement in effect. Thus, we were unable to grant equity to our directors. Per the Company’s policy, the Company intends to grant shares related to the service of the directors in the amounts described herein, upon the effectiveness of our registration statement.
- (5) These amounts represent the cash compensation paid to the Board in the first and second quarters of 2017. In July 2017, the Board agreed to take a \$5,000 reduction in cash compensation, from each of the amounts above, reduced commencing the third quarter 2017 payment.

Other than as provided above, there were no other arrangements pursuant to which any director was compensated during the fiscal year ended January 2, 2018 for service as a director.

In line with the Company's cost-reduction efforts, the Board of Directors approved a modification of director compensation such that each of the cash and equity components of annual director compensation was reduced by \$5,000 effective as of the third quarter of 2017.

Compensation Committee Interlocks and Insider Participation

During Fiscal 2017, no member of the Compensation and Executive Development Committee had any relationship with the Company requiring disclosure under Item 404 of Regulation S-K. During Fiscal 2017, none of the Company's executive officers served on the Compensation and Executive Development Committee or Board of Directors of another entity any of whose executive officers served on the Company's Compensation and Executive Development Committee or Board of Directors.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis includes a description of the compensation provided in 2017 to our executive officers who are named in the Summary Compensation Table below.

Our named executive officers (“NEOs” or “Named Executive Officers”) for 2017 were:

Current Officers

David A. Pace	Chief Executive Officer (or CEO)
Marie Perry	Executive Vice President, Chief Financial Officer, Chief Administrative Officer and Secretary (or CFO)
Joe Thornton	Senior Vice President, Chief Operations Officer (or COO)

Former Officers

Arnaud Joliff	Former Senior Vice President, Chief Systems Officer, General Manager, International (or Former CSO)
Rachel Phillips-Luther	Former Senior Vice President, Chief Marketing Officer (or Former CMO)

Mr. Thornton joined the company in March 2017. Ms. Phillips-Luther departed as Senior Vice President, Chief Marketing Officer in November 2017 and Mr. Arnaud Joliff departed as Senior Vice President, Chief Systems Officer, General Manager, International in January 2018.

Executive Summary

Our 2017 fiscal year continued the transformation of the Company that began in 2016 to an asset light franchise-based business model. This involved significant cost reduction efforts and the implementation of a new infrastructure to support the shift in business strategy. After hiring a new Chief Executive Officer and Chief Financial Officer in 2016 to lead the shift in strategy, we hired a new Chief Operations Officer and new Chief Marketing Officer in 2017.

In addition, as previously disclosed, our financial statements were delayed as a result of significant company-wide changes occurring in 2016, and we disclosed a material weakness in our internal control over financial reporting for fiscal 2016 related to ineffective assessment of the risks of material misstatement in financial reporting. This material weakness was due to significant changes in our business model, leadership, key personnel, and relocation of our corporate office. As a result of our delay in completion of our financial statements, we were unable to file our 2016 Form 10-K and 2017 Form 10-K and 10-Qs with the SEC on a timely basis. Due to the delay in filing our annual and quarterly reports with the SEC, the Company did not have a registration statement in effect, and thus was not able to grant equity to its executives during this period. Additionally, for these reasons, we were unable to hold an annual meeting in 2017.

We are pleased to report that with the filing of our 2017 10-K, the previously disclosed material weakness has been remediated and will be holding our Annual Meeting on June 26, 2018.

Business Highlights

A summary of significant business highlights is provided below:

- Completed the transformation that began in 2014 from a balanced Company store and franchise store model to an asset light franchise-based business model
- Added two members to the leadership team, including a new Chief Operating Officer and Chief Marketing Officer
- The following are 2017 financial highlights:
 - Opened 50 new stores.
 - Openings included 4 drive thru format locations, where sales in drive thru format locations continue to over index the company's standard predictive model and result in meaningfully improved unit economics.
 - Exited 2017 with significant momentum. Increased gift card sales and operational improvements that resulted in increased customer satisfaction contributed to the sales increase.
 - Improvement in Company owned store operating margin
 - Continue to capture G&A efficiency
- The following strategic milestones were achieved in 2017:
 - o Exited non-core and underperforming business units to improve profitability
 - o Designed and completed renovations in an initial set of test stores as part of the strategy to refresh the existing fleet. Built a pipeline of additional test stores to be executed in 2018.
 - o Executed a transaction to refranchise the Chicago market, to substantially complete the company's transition to an asset light, franchise focused business model
 - o Further optimized the franchisee portfolio via franchisee to franchisee transactions in Phoenix and Seattle

Compensation Highlights

In light of the performance above, the following compensation program actions were taken in 2017:

75

- Base Salaries • No salary adjustments were provided.
- Annual Incentives • The annual incentive plan did not pay out as the Company did not meet the minimum Adjusted EBITDA threshold
- Long-Term Incentives • Cash bonuses were granted to the Chief Operations Officer and the Chief Marketing Officer for 2017 in connection with their new hire arrangements.
- Long-Term Incentives • Market-based RSUs were granted or committed to be granted to three executives, which are only earned if Jamba’s stock price reaches \$19.50 per share, \$24.00 per share, and \$28.50 per share before July 2019 (the price hurdles represented roughly 15%, 22.5% and 30% annual stock price appreciation from when the business strategy changed in early 2016).
- Long-Term Incentives • Additional long-term incentives were granted or committed to be granted in connection with new hire arrangements in the form of stock options and time-vested RSUs to induce executives to join the Company and make them whole for benefits forfeited at their prior employer.

This Compensation Discussion and Analysis details the objectives and design of our executive compensation program and should be read in light of the business transition discussed above, as a number of our programs were implemented to specifically address our new strategy and leadership changes. Still, consistent with prior years, the Company’s objectives for its executive compensation programs are to align pay with performance and shareholder interests, and to attract, motivate and retain a talented, entrepreneurial and creative team of executives who will provide leadership for the Company’s success.

Overview of Major Governance Provisions

Our executive compensation program is supported by a set of strong governance provisions and pay practices, as follows:

- Independent Committee, which is advised by an independent compensation consultant
- Stock ownership guidelines
- No hedging or pledging permitted
- Incentive compensation recoupment (or “clawback”) policy
- Annual compensation risk assessment
- Double-trigger accelerated vesting in the event of a covered termination following a change of control
- No tax reimbursements or gross-ups
- No special executive-level perquisites or benefits (including no supplemental retirement plans)

Say-on-Pay

Due to the delaying in filing our fiscal 2016 and fiscal 2017 financial statements, we were unable to hold an annual shareholders meeting in 2017.

Thus, our last “say-on-pay” vote occurred in May 2016, where we provided shareholders an advisory vote to approve our executive compensation programs. At our 2016 Annual Meeting of Shareholders, shareholders approved the compensation of our NEOs, where approximately 90% of the votes cast were in favor of our practices. The Compensation and Executive Development Committee of the Board (as used herein in this Compensation Discussion

and Analysis, the “Committee”) evaluates the results of the advisory vote when determining executive compensation. The Committee also considers many other factors in evaluating our program, including our corporate business objectives and recommendations by our compensation consultant. Taking all of this information into

account, the Committee did not make any changes to our executive compensation program and policies specifically as a result of the 2016 say-on-pay advisory vote.

While the Company has historically held an advisory say-on-pay vote every three years, the Committee determined to adopt an annual say-on-pay advisory vote, which was the frequency with which shareholders expressed the most support at the 2016 Annual Meeting.

Objectives and Components of Our Executive Compensation Program

The primary objectives of our executive compensation program are as follows:

- Deliver pay for performance;
- Drive strong business results;
- Support teamwork; and
- Attract and retain strong talent.

We believe that pursuing these objectives will help us attract and retain qualified executives who are results oriented, engaged and passionate about our brand and are able to help us execute our strategic priorities. The ability to embrace our mission and culture are also important components in driving these objectives.

Our compensation programs provide a mix of fixed compensation and short-term and long-term incentive awards tied to the achievement of specific business objectives, corporate financial goals, and individual performance. We strive to be competitive in a challenging economic environment, with the ultimate objective of improving shareholder value. In addition, we work to ensure that our compensation program is perceived as fundamentally fair to all shareholders.

2017 Compensation Program

We structured our 2017 compensation program as a combination of short and long-term incentives designed to incentivize performance and retain our key executives, including our NEOs. We utilized a combination of annual cash incentive compensation with long-term equity awards that are tied to the achievement of our new business strategy.

Program Elements

The compensation program for our executive officers consists of the following elements:

- Base Salary;
- Annual Cash Incentive Compensation;
- Long-term Equity-Based Incentive Compensation; and
- General Team Member Benefits.

Base Salary

Base salary is the fixed portion of executive pay and is set to reward an individual's current contributions to the Company and to compensate them for their day-to-day responsibilities. The Committee determines base salary levels for executives on an annual basis. Increases in salaries are generally based on both individual performance and our merit increase budget for the year. Other factors that may influence setting of or changes in base salary levels include total Company performance, the executive's experience, responsibilities, management abilities, job performance, current market conditions, and analysis of competitive salaries payable for similar positions at other comparable companies. Salary increases may also be awarded in connection with an individual's promotion to a new role. Peer group compensation data is reviewed annually for the industry and the relative responsibilities and contributions of the executive officers.

In fiscal 2017, the base salary for our current Chief Operations Officer and Chief Marketing Officer were established when they were hired, and no further adjustments were made in fiscal 2017. Base salaries for these executives were as follows:

77

	% Increase			
Title	2016 Salary	2017 Salary	/ Decrease	
CEO	\$ 600,000	\$ 600,000	0	%
CFO	\$ 340,000	\$ 340,000	0	%
COO	—	\$ 300,000	—	
Former CSO	\$ 296,726	\$ 320,000	7.8	%
Former CMO	\$ 285,000	\$ 285,000	0	%

Annual Cash Incentive Compensation

For 2017, NEOs were eligible to receive performance-based annual cash bonuses pursuant to our Management Incentive Plan, based upon achievement of financial and strategic objectives. We believe that our annual cash incentive bonus is an important factor in motivating our management team as a whole, and individual executives in particular, to perform at their highest level toward achievement of our business objectives.

Each participant was eligible for a target award based on the participant's base salary and position, as shown in the chart below. Actual payouts can range from 0% to 150% of target depending on actual performance relative to the company-wide financial goals and individual performance goals. At Threshold performance, 50% of target is paid. At Target performance, 100% of target is paid. At Maximum performance, 150% of target is paid. Linear interpolation is used to determine payouts for performance between Threshold and Maximum, and no bonus is paid for performance below Threshold level.

Target awards and the weightings of the metrics by executive level are shown in the chart below:

Title	Target	Metric Weightings				
		Award as		a % of		
		Company	Individual	Financial	Performance	
	Base Salary	Goals	Goals			
CEO	100	%	100	%	0	%
CFO	60	%	75	%	25	%
Senior Vice President	50	%	60	%	40	%

Note that in connection with the hire arrangements for the Chief Operations Officer, the annual bonus for 2017 was paid at 100% of target. This bonus was provided as an inducement to join the Company, and to acknowledge that this executive was not able to contribute to the goal setting process under the annual incentive plan given the timing of their hire. This arrangement is only applicable to the initial year of hire.

2017 Annual Performance

For fiscal 2017, the company financial component represented from 60%-to-100% of the total bonus as discussed above. The Company did not meet the Adjusted EBITDA gatekeeper and did not pay out any portion of this bonus as a result. The Company's performance is show in the chart below:

Financial Metrics	Weighting	Goals				Actual Performance	Payout as	
		Threshold	Target	Maximum			% of	Target
Adjusted EBITDA	50	% 15.7	17.6	19.6	14.7	0	%	
Net New Store Openings	30	% 25	30	40	13	0	%	
CA Store Level Margin	20	% 14	% 16.50	% 19	% 14.1	% 0	%	
Total	100	%				0	%	

The remaining portion of the total annual bonus was based on individual goals, which are summarized below. No payout was made on these goals as the Adjusted EBITDA gatekeeper was not met.

	Personal Goals	Achievement	Payout as % of Target
CEO	<ul style="list-style-type: none"> Not Applicable (N/A) 	N/A	N/A
CFO	<ul style="list-style-type: none"> Drive Financial Performance Drive Sales Through Innovation Improve Store Level Profitability Through Process Simplification and Cost Reductions Build New Store Pipeline and Refresh Existing Fleet Build Organization Capability 	EBITA threshold not achieved	0%
COO	<ul style="list-style-type: none"> Drive Financial Performance Evaluate Ops Structure Improve Store Level Profitability Through Process Simplification and Cost Reductions Understanding/Alignment/ Relationships Improve Company store operations Fix Training 	EBITA threshold not achieved	0%
Former CSO	<ul style="list-style-type: none"> Deliver 2017 System COGs Plan to support US profitable growth Implement new indirect spend strategy to positively impact store equipment cost / service Design and Implement Asia Pac SC infrastructure for Intl COGs improvements Implement Winning People Performance Culture with new Frisco Team 	EBITA threshold not achieved	0%
Former CMO	<ul style="list-style-type: none"> Drive Sales Through Innovation Drive Financial Performance Improve Store Level Profitability Through Menu Optimization and Digital Integration Build New Store Pipeline and Refresh Existing Fleet 	EBITA threshold not achieved	0%

Long-Term Equity-Based Incentive Compensation

Our long-term incentive program consists primarily of market-based RSUs, which are highly performance based, and earned based on the achievement of significant stock price hurdles. Additional grants of stock options, including premium priced options, and time-vested RSUs have also be granted in connection with new hire arrangements as a further inducement to join the Company, as well as to make executives whole for certain benefits that were forfeited upon leaving their prior employer.

Grant-Type	Description
Market-Based RSUs	Market-Based RSUs are the primary component of the long-term incentive program, and are earned based on the achievement of stock price targets of 19.50, \$24.00, and 28.50 per share. The price hurdles represented roughly 15%, 22.5% and 30% annual stock price appreciation from the change in business strategy in early 2016. Earned shares are subject to a minimum one-year holding period once a stock price hurdle is achieved. If the performance hurdles are not achieved by May 2019 for the CEO and CFO, and by July 2019 for the other participants, the awards will be forfeited.

Stock Options Two types of stock options have been granted. The first type has an exercise price set at 100% of the fair market value on the grant date. The second has an exercise price set at a

premium of \$19.50 per share, where the premium was set based on roughly 15% annual price appreciation from early 2016, when Jamba changed its business strategy. The CEO is the only executive with the premium options. All options vest in three equal annual installments over three years.

TimeVested Time-vested RSUs vest in three equal annual installments over three years.
RSUs

Equity Grants and Timing

Equity grants to the executive team were generally made or were committed to be made upon hire in both fiscal 2016 and 2017. The Former CSO was the only executive to receive grants as a continuing employee, and not in connection with being newly hired. Certain grants that were committed to in fiscal 2017 are delayed until after our fiscal 2017 financial statements are filed with the SEC, and are expected to be granted in fiscal 2018. The timing of the specific grants to each executive is shown in the table below.

All of the grants are front-loaded, and intended to cover grants for a multi-year period. The grants made in fiscal 2016, were intended to be the only grants for three years. The grants from fiscal 2017 were intended to be the only grants for two years.

	Fiscal Year	Market-Based RSUs			Stock Options		
		\$19.50	\$24.00	\$28.50	Time- Based RSUs	FMV	Premium
CEO	2016	150,000	100,000	100,000	—	150,000	50,000
CFO	2016	40,000	25,000	20,000	6,000	75,000	—
COO	2017/18 ⁽¹⁾	35,000	20,000	15,000	5,000	15,000	—
Former CSO	2017	35,000	20,000	15,000	—	—	—
Former CMO	2016	35,000	20,000	15,000	5,000	—	—

(1) Only options were granted in fiscal 2017; the remaining shares will be granted in fiscal 2018.

Long-Term Incentive Mix

The mix between market-based RSUs, time-vested RSUs, and stock options is shown in the chart below, where the majority is tied to either market-based RSUs or stock options, demonstrating the Committee's commitment to

pay-for-performance.

	Fiscal Year of Grant	Total Equity Fair Value (\$000s)	Long-Term Fair Value Mix			
			Market-Based RSUs	Market-Based RSUs	Stock Options	Stock Options
CEO	2016	\$ 1,922	55 %	0	%	45 %
CFO	2016	\$ 677	43 %	10	%	47 %
COO	2017/18	(1) —	—	—	—	—
Former CSO	2017	\$ 74	100 %	—	—	—
Former CMO	2016	\$ 249	78 %	22	%	0 %

(1) Only options were granted in fiscal 2017; the remaining shares will be granted in fiscal 2018.

Equity Grant Policy

Pursuant to our equity grant policy, all grants are generally made effective three trading days after each of our quarterly public earnings releases. This applies to all of our employees, including our executive officers. Except with respect to the premium priced options granted to our CEO as described above, the exercise price of stock options is the closing or last quoted price on the date of actual stock option grant, which we believe reflects fair market value after all public disclosures.

Due to the delay in filing our fiscal 2016 and fiscal 2017 financial statements, we are prohibited from making equity grants (other than stock options) to executives until our filings are current. Thus, as mentioned above, certain

grants that were committed to in fiscal 2017 will not be made until after our fiscal 2017 financial statements and Registration Statement on Form S-8 are filed with the SEC. These grants are expected to be made in fiscal 2018.

All grants issued after June 2013 were made under the 2013 Equity Incentive Plan or pursuant to inducement grants under Nasdaq rules, and all grants prior to June 2013 were made under our 2006 Employee, Director and Consultant Stock Plan, each of which authorize grants to employees, consultants and non-employee directors.

Interim or “off cycle” equity awards are made to newly hired team members as “initial grants”, promotional grants for those taking on significant additional responsibilities or other team members when circumstances warrant it, and are made effective on a fixed quarterly schedule.

Other General Team Member Benefits

Our executive officers are eligible to participate in all of our employee benefit plans, such as our medical, dental, vision, group life, disability, accidental death and dismemberment insurance and our 401(k) plan, in each case on the same terms as other employees, except that the executive officers did not participate in the employer match under our 401(k) plan in fiscal 2017. We do not provide tax gross-ups of any perquisites.

2018 Compensation Actions

In April 2018, the Committee established a cash retention performance awards plan (the “Plan”) where cash incentive awards (the “Awards”) are earned based upon stock price performance. These awards were designed to supplement the previously granted market-based restricted stock units that have existing vesting thresholds at \$19.50, \$24.00 and \$28.50, and to increase the incentive in the equity compensation program in light of the Company’s current trading price.

“Target” payouts occur if the Company’s stock price is \$15.00 per share and maximum payouts occur at \$19.49. The Awards would be cancelled if previously granted \$19.50 performance shares are earned during the performance period. The performance period continues through June 30, 2019, which aligns with the last performance period of such previously issued market-based restricted stock units. The vesting of the Awards would be 100% at the end of the performance period, with double-trigger vesting upon a Change In Control as defined in the Company’s Amended and Restated 2013 Equity Incentive Plan. The Committee retains the discretion to interpret and modify the terms of the Plan and the underlying Awards.

Compensation Process and Oversight

Compensation and Executive Development Committee

The Committee has responsibility for establishing, implementing and monitoring our executive compensation philosophy and programs. The Committee determines compensation for our executives, including annual base salary, non-equity incentive plan payments, equity awards and all other compensation. The Committee is composed of members who are not, and never have been, employees of the Company.

Role of Senior Management and Consultant in Compensation Decisions

While the Committee does not delegate any of its authority in setting compensation, members of senior management participate in the Committee’s executive compensation process. For example, the Committee takes into consideration

recommendations of our CEO on compensation decisions for executive officers other than himself, based on performance reviews he conducts with each of the executive officers, including the NEOs. Our CEO does not participate in discussions regarding his own compensation.

In addition, the Committee retains independent compensation consultants to assist it in its review of NEO compensation. The Committee reviews the findings and recommendations of its compensation consultant to help ensure that compensation decisions are in line with the Company's priorities, properly incentivize actions that improve Company performance, and are reasonable when compared to the market for executive talent. As will be discussed below, in fiscal 2017, the Committee engaged Frederic W. Cook & Co., Inc. ("FW Cook") as its independent compensation consultant. As part of its services, FW Cook:

- Participates in the design of executive compensation programs to help the Committee evaluate the linkage between pay and performance;
- Reviews market data and advises the Committee on recommending the CEO's compensation levels to the Board;
- Reviews and advises the Committee regarding the compensation of the other executive officers and non-employee directors; and
- Assists with an annual risk assessment of our compensation programs.

FW Cook does not perform any other work on behalf of management or the Company. The Committee has assessed the independence of FW Cook and concluded that no conflict of interest exists that would prevent FW Cook from independently representing the Committee. The Committee intends to continue retaining the services of third party executive compensation specialists from time to time, as the Committee deems necessary or helpful, in connection with the establishment and development of our compensation philosophy and programs.

Competitive Compensation Data

To assist with the compensation determinations regarding our executive officers for fiscal 2017, the Committee reviewed competitive pay data provided by FW Cook, which compared the various elements of executive compensation provided to our executive team to compensation paid to individuals holding similar positions at other companies in our industry.

To support our objective of maintaining an executive compensation program that is sufficiently competitive to attract and retain key executives, the Committee evaluates executive compensation information from a specific group of comparable companies, which we call our peer group. This process allows the Committee to set total compensation at levels that it believes are appropriate to retain and motivate our NEOs, and to develop a compensation program that supports our financial and strategic revitalization.

The Committee, with the assistance of FW Cook, identified our executive compensation peer group for fiscal 2017, selecting companies that are similar to us in industry, revenue, net income, number of employees and market capitalization. In determining our fiscal 2017 peer group, the Committee selected companies in the quick service restaurant and fast casual dining spaces with revenues ranging from \$60 million to \$500 million and market capitalization ranging from \$20 million to \$900 million (size data were as of the time of the analysis in mid-2017). The Committee's objective was to position Jamba at the median in market capitalization, reflecting its higher profit margins and valuation relative to revenues than most of the peers.

The companies that comprised the fiscal 2017 executive compensation peer group were:

Ark Restaurants Corp.	Denny's Corporation	Nathan's Famous, Inc.
Del Taco Restaurants, Inc.	Diversified Restaurant Holdings	Zoe's Kitchen, Inc.
El Pollo Loco Holdings, Inc.	Famous Dave's of America, Inc.	RAVE Restaurant Group, Inc.
Papa Murphy's Holdings, Inc.	Bravo Brio Restaurant Group, Inc.	Ruth's Hospitality Group, Inc.
Wingstop Inc.	Kona Grill, Inc.	

Chuy's Holdings, Inc.

Luby's, Inc.

Added to the group for fiscal 2017 were Del Taco Restaurants, El Pollo Loco, Papa Murphy's, RAVE Restaurant Group, Wingstop, and Zoe's Kitchen. Eliminated from the group were Biglari, BJ's, Carrols Restaurant Group, Fiesta Restaurant Group, Ignite Restaurant Group, Krispy Kreme, and Popeyes, Noodles, and Sonic.

In making its executive compensation decisions, the Committee considered the competitive data provided by FW Cook. The Committee does not target a specific percentile for pay, but uses the median percentile range as a guide for making its pay decisions with respect to all pay elements. While the Committee considers relevant market

pay practices when setting executive compensation, it does not believe that it is appropriate to establish compensation levels based only on market practices. The factors that influence the amount of compensation awarded include market competition for a particular position, an individual's experience and past performance inside or outside the Company, compensation history, role and responsibilities within the Company, past and future performance objectives, value of the position within the Company, and the Company's financial performance.

Other Executive-Level Programs

Severance and Change in Control Arrangements

In 2013 we adopted an Executive Retention and Severance Plan, as amended and restated effective July 2017 (the "Severance Plan") for persons holding the title of Executive Vice President or Senior Vice President and for certain other key employees of the Company who may be designated by the Committee from time to time as eligible to participate in the Severance Plan (each a "Participant"). The Severance Plan superseded all prior arrangements with such Participants relating to severance. The Severance Plan and, with respect to our CEO, his employment agreement, provide for severance payments upon a termination of employment without cause or resignation for good reason, as well as upon a qualifying termination following a change in control of the Company, each as more fully described below in the section entitled "Potential Payments upon Termination or Change in Control." The Committee believes that providing our executives with specified benefits in the event of a termination of employment by the Company without "cause" or in the event of a "constructive termination" is consistent with competitive practices, helps us to retain executives and maintain leadership stability, as well as to ensure that these executives are treated fairly and consistently.

The Committee believes that the occurrence, or potential occurrence, of a change in control may create uncertainty for our executives and other key employees. The "double trigger" provisions in the Severance Plan are designed to help retain our employees and maintain a stable work environment leading up to and during changes in control by providing certain economic benefits in the event their employment is actually or constructively terminated in connection with such a change.

The Severance Plan does not provide for any "single trigger" payments or benefits upon the occurrence of a change in control. Furthermore, the Severance Plan does not provide tax gross-ups for potential excise or other taxes on any benefits that are paid.

Management Stock Ownership Guidelines

We maintain Management Stock Ownership Guidelines to further align the interests of members of management with the interests of our shareholders and to encourage ownership of our common stock. These guidelines require our senior executives to acquire and maintain a minimum number of shares of our common stock, with such minimum number based upon a multiple of such executive's annual base salary (with share value based upon the greater of the current stock price or the price at which the shares were acquired). Stock options are not counted for purposes of calculating the number of shares held.

The minimum number of shares is based upon the executive's position as follows:

- 3x salary for our Chief Executive Officer;
- 2x salary for our Chief Financial Officer/Chief Administrative Officer and other Executive Vice Presidents; and
- 1x salary for Senior Vice Presidents.

There is no time limitation towards achieving the minimum number of shares required. However, until such minimum number of shares is held, 50% of all equity grants (calculated on the basis of net after tax shares) are to be retained.

Recoupment Policy

In March 2016, the Company's Board of Directors adopted an Incentive Compensation Recoupment Policy setting forth the conditions under which the Company will seek reimbursement with respect to excess incentive compensation paid or awarded to, and to recover net profits realized from the sale, vesting or exercise of shares of the Company's common stock by, executive officers of the Company.

Restrictions on Hedging and Other Transactions in our Securities

Under our Insider Trading Policy, our officers, directors and employees are not permitted to purchase or sell our securities short or buy or sell puts, calls or other derivative instruments relating to our Common Stock. Our officers, directors and employees are also strongly discouraged from engaging in hedging or monetization transactions involving the Company's securities or holding Company securities in a margin account or pledging Company securities as collateral for a loan, with any such arrangement requiring pre-approval from the Company's compliance officer.

Analysis of Risk Relating to Our Compensation Programs

Appropriately incentivizing behaviors which support the best interests of the Company and our shareholders is an essential part of the compensation-setting process. We believe that risk-taking is necessary for continued innovation and growth, but that risks should be encouraged within parameters that are appropriate for the long-term health and sustainability of the business. At the direction of the Committee, our benefits committee (comprised of members of management), evaluates the merits of its compensation programs through a comprehensive review of its compensation policies and programs to determine whether they encourage unnecessary or inappropriate risk-taking by the Company's executives and employees below the executive level, including the following:

- Annual cash incentive awards and long-term incentive awards granted to executives that are tied primarily to corporate performance goals and strategic performance objectives. These metrics provide a balanced approach to rewarding performance of the business as a whole over various and overlapping time periods.
- The executive annual cash incentive awards include a maximum payout opportunity.
- Our executives are expected to meet stock ownership guidelines in order to align the executives' interests with those of our shareholders.
- In 2017, our annual equity awards to executives are comprised of performance-based RSUs and stock options, to further align pay with Company performance.
- The Company's pay philosophy provides an effective balance in the mix of cash and equity and allows for the committee's discretion.
- There is appropriate balance in fixed versus variable pay; cash and equity; corporate, business unit, and individual goals; financial and non-financial goals; formulas and discretion, etc. Policies are in place to mitigate compensation risk, such as insider trading prohibitions and independent Committee oversight. The Committee's oversight extends to incentive and commission plans below the executive level.

The benefits committee discussed its risk review with FW Cook and reported its findings to the Committee. Based on this review, both for our executive officers and all other employees, we concluded that the risks arising from the Company's compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Tax Considerations

Prior to its amendment by the Tax Cuts and Jobs Act (the "Tax Act"), which was enacted December 22, 2017, Section 162(m) of the Internal Revenue Code of 1986, as amended ("Section 162(m)"), disallowed a tax deduction to public companies for compensation paid in excess of \$1 million to "covered employees" under Section 162(m) (generally, such company's chief executive officer and its three other highest paid executive officers other than its chief financial officer). Prior to this amendment, there was an exception to this \$1 million limitation for performance-based compensation if certain requirements were met. Historically, awards to these covered individuals under our annual bonus plan and in the form of performance-based equity grants were intended to satisfy the requirements for qualifying as performance-based compensation under Section 162(m).

The Tax Act generally amended Section 162(m) to eliminate the exception for performance-based compensation, effective for taxable years following December 31, 2017. The \$1 million compensation limit was also expanded to apply to a public company's chief financial officer and apply to certain individuals who were covered employees in years other than the then-current taxable year. Although certain transition relief may apply with respect to compensation paid pursuant to certain contracts in effect as of November 2, 2017, ambiguities in the Tax Act prevent the Compensation Committee from being able to definitively determine what compensation, if any,

payable to the covered employees in excess of \$1 million will be deductible in future years. Interpretations of and changes in applicable tax laws and regulations as well as other factors beyond the control of the Compensation Committee can affect deductibility of compensation, and there can be no assurance that compensation paid to our executive officers who are covered by Section 162(m) will be deductible. As in prior years, the Compensation Committee will continue to take into account the tax and accounting implications (including with respect to the expected lack of deductibility under the revised Section 162(m)) when making compensation decisions, but reserves its right to make compensation decisions based on other factors as well if the Compensation Committee determines it is in its best interests to do so. Further, taking into account the elimination of the exception for performance-based compensation, the Compensation Committee may determine to make changes or amendments to its existing compensation programs in order to revise aspects of our programs that were initially designed to comply with Section 162(m) but that may no longer serve as an appropriate incentive measure for our executive officers.

COMPENSATION AND EXECUTIVE DEVELOPMENT COMMITTEE REPORT

We, the Compensation and Executive Development Committee of the Board of Directors of the Company, have reviewed and discussed the Compensation Discussion and Analysis contained in this Company's Annual Report on Form 10-K with management. Based on such review and discussion, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2018 and the Company's Proxy Statement for the fiscal year ended January 2, 2018.

SUBMITTED BY THE COMPENSATION AND
EXECUTIVE DEVELOPMENT COMMITTEE
OF THE BOARD OF DIRECTORS

Glenn W. Welling, Chairman
Richard L. Federico
Andrew R. Heyer

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

The following table sets forth, as of February 1, 2018, certain information with respect to the beneficial ownership of the Company's Common Stock by (i) each person who is known by the Company to be the beneficial owner of more than 5% of the Company's Common Stock, (ii) each director and director-nominee of the Company, (iii) each executive officer named in the Summary Compensation Table and (iv) all directors and executive officers of the Company as a group.

(1) Except as otherwise indicated, the persons named in this table have sole voting and investment power with respect to all shares of Common Stock shown as beneficially owned by them, subject to community property laws, where

applicable, and to the information contained in the footnotes to this table. This table is based upon the most current information supplied to us by current and former officers and directors of the Company and upon information gathered by us about principal shareholders known to us based on a Schedule 13G or 13D filed with the Securities and Exchange Commission.

- (2) Under the rules of the Securities and Exchange Commission, a person is deemed to be the beneficial owner of shares that can be acquired by such person within 60 days upon exercise of options or warrants or vesting of restricted stock units.
- (3) Calculated on the basis of 15,588,206 shares of Common Stock outstanding as of February 1, 2018, provided that any additional shares of Common Stock that a shareholder has the right to acquire within 60 days after February 1, 2018 are deemed to be held and outstanding for the purpose of calculating that shareholder's percentage of beneficial ownership but not the percentages of beneficial ownership of other shareholders.

86

- (4) Based on a Form 4 filed on May 8, 2017 by Engaged Capital, LLC (“Engaged Capital”) and certain of its affiliates. Represents shares directly owned by Engaged Capital Master Feeder I, LP (“Engaged Capital Master I”) and Engaged Capital Master Feeder II, LP (“Engaged Capital Master II”) and held in an account separately managed by Engaged Capital (the “Engaged Capital Account”). Engaged Capital serves as the general partner and investment adviser of each of Engaged Capital Master I and Engaged Capital Master II and the investment adviser of the Engaged Capital Account. Engaged Capital Holdings, LLC (“Engaged Holdings”) serves as the managing member of Engaged Capital. Mr. Welling, as the Founder and Chief Investment Officer of Engaged Capital and the sole member of Engaged Holdings, may be deemed to beneficially own the shares owned directly by Engaged Capital Master I and Engaged Capital Master II and held in the Engaged Capital Account. Mr. Welling expressly disclaims beneficial ownership of such shares except to the extent of his pecuniary interest therein.
- (5) Based on a Schedule 13G/A filed on February 9, 2017 by Wellington Management Group LLP. Represents (i) 1,482,713 shares over which Wellington Management Group LLP has shared voting power, and (ii) 2,129,476 over which Wellington Management Group LLP has shared dispositive power.
- (6) Based on a Schedule 13D filed on August 17, 2017 by Indus Capital Partners, LLC. Represents (i) 1,430,860 shares over which Indus Capital Partners, LLC has shared voting power, (ii) 1,430,860 shares over which Indus Capital Partners, LLC has shared dispositive power.
- (7) Based on a Schedule 13G/A filed on February 6, 2017 by Thompson Siegel & Walmsley, LLC. Represents (i) 707,497 shares over which Thompson Siegel & Walmsley, LLC has sole voting power, (ii) 83,354 shares over which Thompson Siegel & Walmsley, LLC has shared voting power, and (iii) 790,851 shares over which Thompson Siegel & Walmsley, LLC has sole dispositive power.
- (8) Represents 39,011 shares of Common Stock held by Mr. Pace and 66,666 shares of Common Stock issuable upon the exercise of vested options held by Mr. Pace.
- (9) Represents 2,000 shares of Common Stock held by Ms. Perry and 25,000 shares of Common Stock issuable upon exercise of vested options held by Ms. Perry.
- (10) Represents 15,904 shares of Common Stock held by Mr. Joliff and 53,639 shares of Common Stock issuable upon exercise of vested options held by Mr. Joliff.
- (11) Represents 22,795 shares of Common Stock held by Mr. Federico and 29,037 shares of Common Stock issuable upon exercise of vested options held by Mr. Federico.
- (12) Represents 28,855 shares of Common Stock held by Mr. Depatie and 7,500 shares of Common Stock issuable upon exercise of vested options held by Mr. Depatie.
- (13) Represents 407,133 shares owned directly owned by JCP Investment Partnership, LP (“JCP Partnership”) and 12,903 shares held by Mr. Pappas directly. Mr. Pappas, solely by virtue of his position as the managing member of JCP Investment Management, LLC, the investment manager of JCP Partnership, and as the sole member of JCP Investment Holdings, LLC, the general partner of JCP Investment Partners, LP, which serves as the general partner of JCP Partnership, may be deemed to beneficially own the shares owned directly by JCP Partnership. Mr. Pappas expressly disclaims beneficial ownership of such shares except to the extent of his pecuniary interest therein.
- (14) Represents 5,000 shares of Common Stock issuable upon the exercise of vested options held by Mr. Thornton.
- (15) Represents 3,586,441 shares of Common Stock and 322,597 shares of Common Stock issuable upon the exercise of vested options. See Notes 4, and 8 through 14, above.

EQUITY COMPENSATION PLAN INFORMATION

The Company maintains one stock-based compensation plan. On May 17, 2016, at its 2016 Annual Meeting of Shareholders, the Company's shareholders, upon the recommendation of the Board of Directors, approved the amendment and restatement of the Jamba, Inc. 2013 Equity Incentive Plan (the "2013 Equity Plan"). The 2013 Equity Plan amended and restated the existing 2013 Equity Plan adopted in May 2013. The 2013 Equity Plan authorizes the Company to provide incentive compensation in the form of stock options, stock appreciation rights, restricted stock and stock units, performance shares and units, other stock-based awards, cash-based awards and deferred compensation awards. The 2013 Equity Plan authorizes the issuance of up to 3,028,847 shares. The following table sets forth information regarding outstanding options and shares reserved for future issuance under the foregoing plans as of January 2, 2018:

Plan Category	Number of shares to be issued upon exercise of outstanding options	Weighted- average exercise price of outstanding options (\$)	Number of shares remaining available for future issuance under equity compensation plans (excluding shares reflected in column) ⁽²⁾
	(a)	(b)	(c)
Equity compensation plans approved by stockholders	529,248	13.58	1,711,967
Equity compensation plans not approved by stockholders ⁽¹⁾	110,000	11.11	—
Total	639,248		1,711,967

(1) Represents shares of our Common Stock granted to executives outside of our equity incentive plans. The grant of these options did not require approval by our shareholders due to their qualification under the "inducement grant exception" provided by Nasdaq Listing Rule 5635(c)(4).

(2) Includes 1,137,286 available for future issuance under the 2013 Equity Plan and 574,681 shares available for future issuance under the 2010 Employee Stock Purchase Plan.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Party Transactions

The Company has entered into indemnity agreements with certain officers and directors which provide, among other things, that Jamba will indemnify such officer or director, under the circumstances and to the extent provided for therein, for expenses, damages, judgments, fines and settlements he or she may be required to pay in actions or proceedings which he or she is or may be made a party by reason of his or her position as a director, officer or other agent of Jamba, and otherwise to the fullest extent permitted under Delaware law and our Bylaws.

Other than the foregoing, there were no relationships or related party transactions in the fiscal year ended January 2, 2018 requiring disclosure in this Company's Annual Report on Form 10-K.

Director Independence

The Board of Directors has determined that, except for David Pace, each of the Company director nominees standing for election has no relationship which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and is an "independent director" as defined by the applicable NASDAQ rules and the rules and regulations of the Securities and Exchange Commission (the "SEC"). In determining the independence of our directors, the Board of Directors has adopted the independence standards that mirror the criteria specified by applicable law and regulations of the SEC and the NASDAQ.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The following table sets forth the aggregate fees billed to the Company for fiscal 2017 by its independent registered public accounting firm, Whitley Penn LLP:

	Fiscal 2017	Fiscal 2016
	(52 weeks)	(53 weeks)
Audit Fees ⁽¹⁾	\$565,000	\$—
Audit-Related Fees ⁽²⁾	—	—
Tax Fees ⁽³⁾	—	—
All Other Fees ⁽⁴⁾	—	18,000
Total Fees	\$565,000	\$18,000

(1) Audit Fees consist of fees billed for professional services rendered for the audit of the Company's consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by our independent registered public accountants in connection with statutory and regulatory filings or engagements.

(2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under "Audit Fees."

(3) Tax Fees consist of tax compliance, tax planning, and tax advice.

(4) Consists of audit fees for the Company's 401 (k) plan prior to Whitley Penn LLP's appointment.

The following table sets forth the aggregate fees billed to the Company for fiscal 2016 by its previous independent registered public accounting firm, KPMG LLP:

	Fiscal 2017	Fiscal 2016
	(52 weeks)	(53 weeks)
Audit Fees ⁽¹⁾	\$—	\$5,465,829
Audit-Related Fees ⁽²⁾	60,000	—
Tax Fees ⁽³⁾	—	—
All Other Fees	—	—
Total Fees	\$60,000	\$5,465,829

(1) Audit Fees consist of fees billed for professional services rendered for the audit of the Company's consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by our independent registered public accountants in connection

with statutory and regulatory filings or engagements.

- (2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under "Audit Fees."
- (3) Tax Fees consist of tax compliance, tax planning, and tax advice.

The Audit Committee has considered whether the provisions of services described in the table above are compatible with maintaining auditor independence. Unless a type of service has received general pre-approval, it will require separate pre-approval by the Audit Committee. The Audit Committee has delegated its pre-approval authority to its Chairman, provided the Chairman reports any pre-approval decisions to the full Audit Committee at its next regularly scheduled meeting. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval process. During fiscal 2017 and fiscal 2016, all fees paid to our independent auditors were pre-approved in accordance with this policy without exception.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

Documents filed as part of this Annual Report:

(a) List of Financial Statements

The following Consolidated Financial Statements are included herein in Part II, Item 8 of this Annual Report on Form 10-K:

<u>Reports of Independent Registered Public Accounting Firms</u>	F-1
