First American Financial Corp  
Form 10-Q  
October 25, 2018

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the quarterly period ended September 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number 001-34580

Edgar Filing: First American Financial Corp - Form 10-Q

FIRST AMERICAN FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	26-1911571 (I.R.S. Employer Identification No.)
---	---

1 First American Way, Santa Ana, California (Address of principal executive offices)	92707-5913 (Zip Code)
---	--------------------------

(714) 250-3000

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No 1

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No 1

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. 1

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes 1 No

APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY

PROCEEDINGS DURING THE PRECEDING FIVE YEARS:

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes  No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

On October 19, 2018, there were 111,787,641 shares of common stock outstanding.

---

INFORMATION INCLUDED IN REPORT

PART I: FINANCIAL INFORMATION

Item 1.	<u>Financial Statements (unaudited)</u>	
	<u>A. Condensed Consolidated Balance Sheets as of September 30, 2018 and December 31, 2017</u>	5
	<u>B. Condensed Consolidated Statements of Income for the three and nine months ended September 30, 2018 and 2017</u>	6
	<u>C. Condensed Consolidated Statements of Comprehensive Income for the three and nine months ended September 30, 2018 and 2017</u>	7
	<u>D. Condensed Consolidated Statements of Stockholders' Equity for each of the quarters within the nine months ended September 30, 2018 and 2017</u>	8
	<u>E. Condensed Consolidated Statements of Cash Flows for the nine months ended September 30, 2018 and 2017</u>	10
	<u>F. Notes to Condensed Consolidated Financial Statements</u>	11
Item 2.	<u>Management's Discussion and Analysis of Financial Condition and Results of Operations</u>	36
Item 3.	<u>Quantitative and Qualitative Disclosures About Market Risk</u>	47
Item 4.	<u>Controls and Procedures</u>	47

PART II: OTHER INFORMATION

Item 1.	<u>Legal Proceedings</u>	48
Item 1A.	<u>Risk Factors</u>	49
Item 6.	<u>Exhibits</u>	56

Items 2 through 5 of Part II have been omitted because they are not applicable with respect to the current reporting period.

THIS QUARTERLY REPORT ON FORM 10-Q CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933, AS AMENDED, AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. THESE FORWARD-LOOKING STATEMENTS CAN BE IDENTIFIED BY THE FACT THAT THEY DO NOT RELATE STRICTLY TO HISTORICAL OR CURRENT FACTS AND MAY CONTAIN THE WORDS “BELIEVE,” “ANTICIPATE,” “EXPECT,” “INTEND,” “PLAN,” “PREDICT,” “ESTIMATE,” “PROJECT,” “WILL BE,” “WILL CONTINUE,” “WILL LIKELY RESU OTHER SIMILAR WORDS AND PHRASES OR FUTURE OR CONDITIONAL VERBS SUCH AS “WILL,” “MAY,” “MIGHT,” “SHOULD,” “WOULD,” OR “COULD.” THESE FORWARD-LOOKING STATEMENTS INCLUDE, WITHOUT LIMITATION, STATEMENTS REGARDING FUTURE OPERATIONS, PERFORMANCE, FINANCIAL CONDITION, PROSPECTS, PLANS AND STRATEGIES. THESE FORWARD-LOOKING STATEMENTS ARE BASED ON CURRENT EXPECTATIONS AND ASSUMPTIONS THAT MAY PROVE TO BE INCORRECT.

RISKS AND UNCERTAINTIES EXIST THAT MAY CAUSE RESULTS TO DIFFER MATERIALLY FROM THOSE SET FORTH IN THESE FORWARD-LOOKING STATEMENTS. FACTORS THAT COULD CAUSE THE ANTICIPATED RESULTS TO DIFFER FROM THOSE DESCRIBED IN THE FORWARD-LOOKING STATEMENTS INCLUDE, WITHOUT LIMITATION:

- INTEREST RATE FLUCTUATIONS;
- CHANGES IN THE PERFORMANCE OF THE REAL ESTATE MARKETS;
- VOLATILITY IN THE CAPITAL MARKETS;
- UNFAVORABLE ECONOMIC CONDITIONS;
- FAILURES AT FINANCIAL INSTITUTIONS WHERE THE COMPANY DEPOSITS FUNDS;
- CHANGES IN APPLICABLE LAWS AND GOVERNMENT REGULATIONS;
- HEIGHTENED SCRUTINY BY LEGISLATORS AND REGULATORS OF THE COMPANY’S TITLE INSURANCE AND SERVICES SEGMENT AND CERTAIN OTHER OF THE COMPANY’S BUSINESSES;
- USE OF SOCIAL MEDIA BY THE COMPANY AND OTHER PARTIES;
- REGULATION OF TITLE INSURANCE RATES;
- LIMITATIONS ON ACCESS TO PUBLIC RECORDS AND OTHER DATA;
- CHANGES IN RELATIONSHIPS WITH LARGE MORTGAGE LENDERS AND GOVERNMENT-SPONSORED ENTERPRISES;
- CHANGES IN MEASURES OF THE STRENGTH OF THE COMPANY’S TITLE INSURANCE UNDERWRITERS, INCLUDING RATINGS AND STATUTORY CAPITAL AND SURPLUS;
- LOSSES IN THE COMPANY’S INVESTMENT PORTFOLIO;
- MATERIAL VARIANCE BETWEEN ACTUAL AND EXPECTED CLAIMS EXPERIENCE;
- DEFALCATIONS, INCREASED CLAIMS OR OTHER COSTS AND EXPENSES ATTRIBUTABLE TO THE COMPANY’S USE OF TITLE AGENTS;
- ANY INADEQUACY IN THE COMPANY’S RISK MANAGEMENT FRAMEWORK;
- SYSTEMS DAMAGE, FAILURES, INTERRUPTIONS AND INTRUSIONS, OR UNAUTHORIZED DATA DISCLOSURES;
- PROCESS AUTOMATION;
- TECHNOLOGICAL AND OTHER DEVELOPMENTS THAT CHANGE THE WAY REAL ESTATE TRANSACTIONS ARE CONDUCTED AND RELATED DOCUMENTS ARE PROCESSED;
- ERRORS AND FRAUD INVOLVING THE TRANSFER OF FUNDS;
- THE COMPANY’S USE OF A GLOBAL WORKFORCE;
- INABILITY OF THE COMPANY’S SUBSIDIARIES TO PAY DIVIDENDS OR REPAY FUNDS; AND

OTHER FACTORS DESCRIBED IN THIS QUARTERLY REPORT ON FORM 10-Q, INCLUDING UNDER THE CAPTION “RISK FACTORS” IN ITEM 1A OF PART II.

THE FORWARD-LOOKING STATEMENTS SPEAK ONLY AS OF THE DATE THEY ARE MADE. THE COMPANY DOES NOT UNDERTAKE TO UPDATE FORWARD-LOOKING STATEMENTS TO REFLECT CIRCUMSTANCES OR EVENTS THAT OCCUR AFTER THE DATE THE FORWARD-LOOKING STATEMENTS ARE MADE.

Note 1 – Basis of Condensed Consolidated Financial Statements

Basis of Presentation

The condensed consolidated financial information included in this report has been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and Article 10 of Securities and Exchange Commission (“SEC”) Regulation S-X. The principles for condensed interim financial information do not require the inclusion of all the information and footnotes required by GAAP for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. The condensed consolidated financial statements included herein are unaudited; however, in the opinion of management, they contain all normal recurring adjustments necessary for a fair statement of the consolidated results for the interim periods. All material intercompany transactions and balances have been eliminated upon consolidation.

Recently Adopted Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board (“FASB”) issued updated guidance intended to reduce diversity in practice by clarifying which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company’s condensed consolidated financial statements.

In March 2017, the FASB issued updated guidance intended to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost through the disaggregation of the service cost component from the other components of net benefit cost. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company adopted this change in accounting principle at the beginning of 2018 and applied the change retrospectively to the prior year. As a result, other components of net benefit cost totaling \$155.4 million and \$171.4 million were reclassified from personnel costs to other operating expenses on the condensed consolidated statements of income for the three and nine months ended September 30, 2017, respectively. See Note 10 Employee Benefit Plans for further information on the Company’s net periodic pension costs.

In January 2017, the FASB issued updated guidance to clarify the definition of a business with the objective of providing guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company’s condensed consolidated financial statements.

In November 2016, the FASB issued updated guidance intended to reduce the diversity in practice on presenting restricted cash and restricted cash equivalents in the statement of cash flows. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In October 2016, the FASB issued updated guidance intended to simplify and improve the accounting for the income tax consequences of intra-entity transfers of assets, other than inventory. The updated guidance, which eliminates the intra-entity transfers exception, requires entities to recognize the income tax consequences of intra-entity transfers of assets, other than inventory, when the transfers occur. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In August 2016, the FASB issued updated guidance intended to eliminate the diversity in practice regarding the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

In January 2016, the FASB issued updated guidance intended to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. In addition to making other targeted improvements to current guidance, the updated guidance also requires all equity investments, except those accounted for under the equity method of accounting or those that result in consolidation of the investee, to be measured at fair value with changes in the fair value recognized through net income. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017. The Company adopted this guidance at the beginning of 2018 and recognized cumulative net unrealized gains, net of taxes, of \$40.6 million related to its investments in equity securities, previously classified as available-for-sale, through a cumulative-effect adjustment to retained earnings. Changes in the fair values of these investments are reflected in net realized investment gains/losses on the Company's condensed consolidated statements of income. See Note 4 Debt and Equity Securities for further discussion of the Company's investments in equity securities.

In May 2014, the FASB issued updated guidance for recognizing revenue from contracts with customers to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within and across industries, and across capital markets. The new revenue standard contains principles that an entity will apply to determine the measurement of revenue and the timing of recognition. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. Revenue from insurance contracts is not within the scope of this guidance. In August 2015, the FASB issued updated guidance which defers the effective date of this guidance by one year. In 2016, the FASB issued additional updates to the new guidance primarily to clarify, among other things, the implementation guidance related to principal versus agent considerations, identifying performance obligations, accounting for licenses of intellectual property, and to provide narrow-scope improvements and additional practical expedients. In February 2017, the FASB issued an additional update to the new guidance to clarify the scope of derecognition guidance for nonfinancial assets and to provide guidance for partial sales of nonfinancial assets. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017. The Company elected to adopt the new guidance under the modified retrospective approach, which, except for the disclosure requirements, did not have a material impact on its condensed consolidated financial statements. See Note 2 Adoption of Revenue Guidance for further information about the Company's revenues within the scope of the new guidance.

#### Pending Accounting Pronouncements

In August 2018, the FASB issued updated guidance that is intended to reduce potential diversity in practice in accounting for the costs of implementing cloud computing arrangements (i.e., hosting arrangements) that are service contracts. The updated guidance aligns the requirements for capitalizing implementation costs for these arrangements with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software and hosting arrangements that include an internal-use software license. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company is currently assessing the impact of this guidance on its condensed consolidated financial statements.

In August 2018, the FASB issued updated guidance as part of its disclosure framework project intended to improve the effectiveness of disclosures in the notes to the financial statements. The updated guidance eliminates, adds and modifies certain disclosure requirements related to fair value measurements. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. Except for

the disclosure requirements, the Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In January 2017, the FASB issued updated guidance intended to simplify how an entity tests goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Under the updated guidance, an entity will perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and will recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, with the loss recognized limited to the total amount of goodwill allocated to that reporting unit. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

In June 2016, the FASB issued updated guidance intended to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. The updated guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires the consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company is currently assessing the impact of this guidance on its condensed consolidated financial statements.

In February 2016, the FASB issued updated guidance that requires the rights and obligations associated with leasing arrangements be reflected on the balance sheet in order to increase transparency and comparability among organizations. Under the updated guidance, lessees will be required to recognize a right-of-use asset and a liability to make lease payments and disclose key information about leasing arrangements. The updated guidance is required to be adopted using a modified retrospective transition approach. In July 2018, the FASB issued additional updates to the new guidance which allows for the initial application of the guidance at the adoption date and for the recognition of a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. While the Company is currently evaluating the impact the new guidance will have on its condensed consolidated financial statements, the Company expects the adoption of the new guidance will result in a material increase in the assets and liabilities on its condensed consolidated balance sheets and will likely have an insignificant impact on its condensed consolidated statements of income and statements of cash flows.

#### Note 2 – Adoption of Revenue Guidance

The Company's information and other revenues and escrow fees are within the scope of the new accounting guidance related to the recognition of revenue from contracts with customers, which the Company adopted effective January 1, 2018. Under the new guidance, revenue is recognized when control of the promised goods or services is transferred to the customer and in an amount that reflects the consideration the Company expects to be entitled to in exchange for these goods or services. See Note 1 Basis of Condensed Consolidated Financial Statements for further discussion of the new guidance.

For those products and services where the Company's performance obligation is satisfied at a point in time and for which there is no ongoing obligation, revenue is recognized upon delivery. For those products and services where the Company satisfies its performance obligation over time as the product or service is being transferred to the customer, revenue is generally recognized using the output method as the products or services are delivered.

The Company has elected to apply the optional exemptions allowed under the new guidance whereby the Company is not required to disclose either the transaction price allocated to performance obligations that are unsatisfied as of the end of the period or an explanation as to when the Company expects to recognize the related revenue. Such contracts generally include performance obligations that are contingent upon the closing of a real estate transaction or include variable consideration based on order volumes, and have remaining contract terms of generally less than three years. The Company is eligible to apply the optional exemptions to its remaining performance obligations due to 1)

the performance obligation is part of a contract that has an original duration of one year or less, 2) the associated revenue being recognized is based on the Company's right to invoice for the value of the product or service delivered, 3) the associated variable consideration is being allocated entirely to wholly unsatisfied performance obligations or 4) immateriality.

The Company has also elected to apply the practical expedient allowed under the new guidance whereby it can disregard the impact to the transaction price of the effects of a significant financing component for arrangements where the Company expects the period between delivery of the product or service and customer payment to be one year or less. In addition, the Company has elected to apply the practical expedient whereby it can recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period for the asset that the Company otherwise would have recognized is one year or less.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

The Company records a contract asset, and recognizes revenue, upon delivery of certain products related to the closing of a real property transaction where the Company's right to payment is subject to the closing of the real estate transaction. The Company records a contract liability for payments received in advance of revenue recognition for certain products or services. Contract assets and liabilities were not material at September 30, 2018. Revenues recognized during the three and nine months ended September 30, 2018 that were included in contract liabilities at the beginning of the period were not material.

For information about the Company's revenues disaggregated by reportable segment see Note 16 Segment Information.

Note 3 – Escrow Deposits, Like-kind Exchange Deposits and Trust Assets

The Company administers escrow deposits and trust assets as a service to its customers. Escrow deposits totaled \$8.9 billion and \$7.5 billion at September 30, 2018 and December 31, 2017, respectively, of which \$4.4 billion and \$2.9 billion, respectively, were held at the Company's federal savings bank subsidiary, First American Trust, FSB. The escrow deposits held at First American Trust, FSB are temporarily invested in cash and cash equivalents and debt securities, with offsetting liabilities included in deposits in the accompanying condensed consolidated balance sheets. The remaining escrow deposits were held at third-party financial institutions.

Trust assets held or managed by First American Trust, FSB totaled \$3.8 billion and \$3.7 billion at September 30, 2018 and December 31, 2017, respectively. Escrow deposits held at third-party financial institutions and trust assets are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. However, the Company could be held contingently liable for the disposition of these assets.

In conducting its operations, the Company often holds customers' assets in escrow, pending completion of real estate transactions and, as a result, the Company has ongoing programs for realizing economic benefits with various financial institutions. The results from these programs are included in the condensed consolidated financial statements as income or a reduction in expense, as appropriate, based on the nature of the arrangement and benefit received.

The Company facilitates tax-deferred property exchanges for customers pursuant to Section 1031 of the Internal Revenue Code and tax-deferred reverse exchanges pursuant to Revenue Procedure 2000-37. As a facilitator and intermediary, the Company holds the proceeds from sales transactions and takes temporary title to property identified by the customer to be acquired with such proceeds. Upon the completion of each such exchange, the identified property is transferred to the customer or, if the exchange does not take place, an amount equal to the sales proceeds or, in the case of a reverse exchange, title to the property held by the Company is transferred to the customer. Like-kind exchange funds held by the Company totaled \$2.6 billion at September 30, 2018 and December 31, 2017. The like-kind exchange deposits are held at third-party financial institutions and, due to the structure utilized to facilitate these transactions, the proceeds and property are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. All such amounts are placed in deposit accounts insured, up to applicable limits, by the Federal Deposit Insurance Corporation. The Company could be held contingently liable to the customer for the transfers of property, disbursements of proceeds

and the returns on such proceeds.

Governmental agency bonds	55,707	(409 )	93,737	(1,913 )	149,444	(2,322 )
Governmental agency mortgage-backed securities	671,871	(4,868 )	774,959	(11,720 )	1,446,830	(16,588 )
U.S. corporate debt securities	171,817	(1,568 )	60,724	(1,394 )	232,541	(2,962 )
Foreign corporate debt securities	81,525	(821 )	5,697	(135 )	87,222	(956 )
	\$1,437,759	\$(10,863 )	\$1,206,188	\$(21,830 )	\$2,643,947	\$(32,693 )

Based on the Company's review of its debt securities in an unrealized loss position at September 30, 2018, it determined that the losses were primarily the result of changes in interest rates, which were considered to be temporary, rather than a deterioration in credit quality. The Company does not intend to sell and it is not more likely than not that the Company will be required to sell these securities prior to recovering their amortized cost. As such, the Company does not consider these securities to be other-than-temporarily impaired at September 30, 2018.

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Investments in equity securities are as follows:

	Estimated	
(in thousands)	Cost	fair value
September 30, 2018		
Preferred stocks	\$ 18,616	\$ 18,432
Common stocks	373,543	429,317
	\$ 392,159	\$ 447,749
December 31, 2017		
Preferred stocks	\$ 19,233	\$ 18,990
Common stocks	394,439	447,526
	\$ 413,672	\$ 466,516

The Company adopted new accounting guidance on January 1, 2018, which requires investments in equity securities with readily determinable fair values to be measured at fair value with changes in fair value recognized through net income. See Note 1 Basis of Condensed Consolidated Financial Statements for further discussion of the new guidance.

Net gains (realized and unrealized) of \$14.2 million and \$16.0 million were recognized for the three and nine months ended September 30, 2018, respectively, as a result of changes in the fair values of equity securities. Included in net gains during the three and nine months ended September 30, 2018, were net unrealized gains of \$14.1 million and \$15.9 million, respectively, related to equity securities still held at September 30, 2018. For the three and nine months ended September 30, 2017, sales of equity securities resulted in realized gains of \$0.7 million and \$17.9 million and realized losses of \$0.3 million and \$2.0 million, respectively.

The composition of the investment portfolio at September 30, 2018, by credit rating, is as follows:

	A- or higher Estimated		BBB+ to BBB- Estimated		Non-Investment Grade Estimated		Total Estimated	
(in thousands, except percentages)	fair value	Percentage	fair value	Percentage	fair value	Percentage	fair value	Percentage
Debt securities:								
U.S. Treasury bonds	\$ 199,956	100.0	\$ —	—	\$ —	—	\$ 199,956	100.0

	A- or higher		BBB+ to BBB-		Non-Investment Grade		Total	
	Estimated		Estimated		Estimated		Estimated	
(in thousands, except percentages)	fair value	Percentage	fair value	Percentage	fair value	Percentage	fair value	Percentage
U.S. Treasury bonds	\$187,236	100.0	\$—	—	\$—	—	\$187,236	100.0
Municipal bonds	757,128	94.0	34,436	4.3	13,595	1.7	805,159	100.0
Foreign government bonds	106,665	79.5	22,758	16.9	4,867	3.6	134,290	100.0
Governmental agency bonds	320,019	100.0	—	—	—	—	320,019	100.0
Governmental agency mortgage-backed securities	2,245,204	100.0	—	—	—	—	2,245,204	100.0
U.S. corporate debt securities	260,752	49.3	193,826	36.7	73,723	14.0	528,301	100.0
Foreign corporate debt securities	82,630	43.0	89,010	46.3	20,647	10.7	192,287	100.0
Total	\$3,959,634	89.7	\$340,030	7.7	\$112,832	2.6	\$4,412,496	100.0

As of September 30, 2018, the estimated fair value of total debt securities in an unrealized loss position included \$28.9 million of bank loans, of which \$28.5 million was non-investment grade; \$60.6 million of high yield corporate debt securities, all of which was non-investment grade; and \$72.9 million of emerging market debt securities, of which \$10.1 million was non-investment grade.

The credit ratings in the above tables reflect published ratings obtained from globally recognized securities rating agencies. If a security was rated differently among the rating agencies, the lowest rating was selected. Governmental agency mortgage-backed securities are not rated by any of the ratings agencies; however, these securities have been included in the above table in the “A- or higher” category because the payments of principal and interest are guaranteed by the governmental agency that issued the security.

#### Note 5 – Goodwill

A summary of the changes in the carrying amount of goodwill, by operating segment, for the nine months ended September 30, 2018, is as follows:

	Title		
	Insurance		
		Specialty	
(in thousands)	and Services	Insurance	Total
Balance at December 31, 2017	\$1,066,240	\$46,765	\$1,113,005
Acquisitions	34,261	—	34,261
Foreign currency translation	(2,180 )	—	(2,180 )
Balance at September 30, 2018	\$1,098,321	\$46,765	\$1,145,086

The Company's four reporting units for purposes of assessing goodwill for impairment are title insurance, home warranty, property and casualty insurance and trust and other services. During the nine months ended September 30, 2018, there were no triggering events that would more likely than not reduce the fair value of any reporting unit below its carrying amount.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Note 6 – Other Intangible Assets

Other intangible assets consist of the following:

	September 30,	December 31,
(in thousands)	2018	2017
Finite-lived intangible assets:		
Customer relationships	\$ 116,030	\$ 106,086
Noncompete agreements	12,965	11,509
Trademarks	10,016	9,229
Internal-use software licenses	25,779	28,956
Patents	2,840	2,840
	167,630	158,620
Accumulated amortization	(72,867 )	(75,591 )
	94,763	83,029
Indefinite-lived intangible assets:		
Licenses	16,884	16,884
	\$ 111,647	\$ 99,913

Amortization expense for finite-lived intangible assets was \$7.9 million and \$22.0 million for the three and nine months ended September 30, 2018, respectively, and \$7.0 million and \$19.7 million for the three and nine months ended September 30, 2017, respectively.

Estimated amortization expense for finite-lived intangible assets for the next five years is as follows:

Year	(in thousands)
Remainder of 2018	\$ 7,700
2019	\$ 21,707
2020	\$ 13,392
2021	\$ 10,479
2022	\$ 10,030
2023	\$ 9,755

Note 7 – Reserve for Known and Incurred But Not Reported Claims

Activity in the reserve for known and incurred but not reported claims is summarized as follows:

(in thousands)	Nine months ended	
	September 30, 2018	2017
Balance at beginning of period	\$1,028,933	\$1,025,863
Provision related to:		
Current year	328,326	330,342
Prior years	8,069	3,353
	336,395	333,695
Payments, net of recoveries, related to:		
Current year	167,802	165,914
Prior years	166,168	185,483
	333,970	351,397
Other	(4,399 )	13,487
Balance at end of period	\$1,026,959	\$1,021,648

The provision for title insurance losses, expressed as a percentage of title insurance premiums and escrow fees, was 4.0% for the three and nine months ended September 30, 2018 and 2017. The current quarter rate of 4.0% reflects the ultimate loss rate for the current policy year and no change in the loss reserve estimates for prior policy years. The 4.0% rate for the third quarter of 2017 reflected the ultimate loss rate for the 2017 policy year and no change in the loss reserve estimates for prior policy years.

A summary of the Company's loss reserves is as follows:

(in thousands, except percentages)	September 30, 2018		December 31, 2017	
Known title claims	\$81,212	7.9 %	\$83,094	8.1 %
Incurred but not reported claims	881,071	85.8 %	875,724	85.1 %
Total title claims	962,283	93.7 %	958,818	93.2 %
Non-title claims	64,676	6.3 %	70,115	6.8 %
Total loss reserves	\$1,026,959	100.0 %	\$1,028,933	100.0 %

Note 8 – Income Taxes

On December 22, 2017, comprehensive tax reform legislation known as the Tax Cuts and Jobs Act (the “Tax Reform Act”) was signed into law. The Tax Reform Act amended the Internal Revenue Code to reduce U.S. tax rates and modify policies, credits and deductions for individuals and businesses.

Also, on December 22, 2017, the SEC issued Staff Accounting Bulletin No. 118, which provided for a one-year measurement period that allows businesses time to evaluate the financial statement implications of the Tax Reform Act. The measurement period allows businesses to gather the information necessary to prepare and analyze the tax accounting effects of the Tax Reform Act on financial statements issued during the measurement period. The ultimate impact of the Tax Reform Act on the Company’s financial statements may differ, perhaps materially, from the amounts originally estimated due to further refinement of the Company’s calculations, changes in interpretations and assumptions the Company has made, guidance that may be issued by taxing authorities and regulatory bodies, and actions the Company may take as a result of the Tax Reform Act. The Company anticipates completing its tax accounting for the Tax Reform Act during the measurement period, and will record and disclose any adjustments made to its initial estimates during that time frame.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

The Company's effective income tax rates (income tax expense as a percentage of income before income taxes) were 22.6% and 22.0% for the three and nine months ended September 30, 2018, respectively, and -17.9% and 29.7% for the three and nine months ended September 30, 2017, respectively. The Company's effective tax rates differ from the statutory federal rates of 21% and 35% for 2018 and 2017, respectively, due to state and foreign income taxes incurred, as well as permanent differences between financial statement income and amounts reported for income tax purposes, including the recognition of excess tax benefits or tax deficiencies associated with share-based payment transactions through income tax expense. The Company's effective tax rates for 2017 also reflect state tax benefits relating to the termination of the Company's pension plan, as well as the release of reserves relating to tax positions taken on prior year tax returns.

In connection with the Company's June 2010 spin-off from its prior parent, the Company entered into a tax sharing agreement which governs the Company's and its prior parent's respective rights, responsibilities and obligations for certain tax related matters. At September 30, 2018 and December 31, 2017, the Company had a net payable to its prior parent of \$15.5 million and \$15.0 million, respectively, related to tax matters prior to the spin-off. This amount is included in the Company's condensed consolidated balance sheets in accounts payable and accrued liabilities. The increase during the current year was primarily the result of an additional accrual for tax matters prior to the spin-off.

The Company evaluates the realizability of its deferred tax assets by assessing the valuation allowance and makes adjustments to the allowance as necessary. The factors used to assess the likelihood of realization include the Company's forecast of future taxable income and available tax planning strategies that could be implemented to realize the deferred tax assets. The Company's ability or failure to achieve forecasted taxable income in the applicable taxing jurisdictions could affect the ultimate realization of deferred tax assets. Based on actual future operating results in certain jurisdictions, it is possible that the current valuation allowance positions of those jurisdictions could be adjusted in the next 12 months.

As of September 30, 2018 and December 31, 2017, the liability for income taxes associated with uncertain tax positions was \$13.1 million and \$12.8 million, respectively. As of September 30, 2018 and December 31, 2017, the liability could be reduced by \$3.7 million due to offsetting tax benefits associated with the correlative effects of potential adjustments, including timing adjustments and state income taxes. The net amounts of \$9.4 million and \$9.1 million as of September 30, 2018 and December 31, 2017, respectively, if recognized, would favorably affect the Company's effective tax rate.

The Company's continuing practice is to recognize interest and penalties, if any, related to uncertain tax positions in income tax expense. As of September 30, 2018 and December 31, 2017, the Company had accrued \$5.7 million and \$5.3 million, respectively, of interest and penalties (net of tax benefits of \$1.5 million and \$1.4 million, respectively) related to uncertain tax positions.

It is reasonably possible that the amount of the unrecognized benefit with respect to certain of the Company's unrecognized tax positions may significantly decrease within the next 12 months. Any such change may be the result of ongoing audits or the expiration of federal and state statutes of limitations for the assessment of taxes.

The Company, or one of its subsidiaries, files income tax returns in the U.S. federal jurisdiction, various state jurisdictions and various non-U.S. jurisdictions. The primary non-federal jurisdictions are California, Canada, India and the United Kingdom. As of September 30, 2018, the Company had concluded U.S. federal income tax

examinations through 2015 and is generally no longer subject to state and non-U.S. income tax examinations for years prior to 2005.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Note 9 – Earnings Per Share

The computation of basic and diluted earnings per share is as follows:

(in thousands, except per share amounts)	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
<b>Numerator</b>				
Net income attributable to the Company	\$151,480	\$21,383	\$382,847	\$201,922
<b>Denominator</b>				
Basic weighted-average shares	112,722	111,799	112,541	111,578
Effect of dilutive employee stock options and restricted stock units (“RSUs”)	643	776	672	676
Diluted weighted-average shares	113,365	112,575	113,213	112,254
<b>Net income per share attributable to the Company’s stockholders</b>				
Basic	\$1.34	\$0.19	\$3.40	\$1.81
Diluted	\$1.34	\$0.19	\$3.38	\$1.80

For the three and nine months ended September 30, 2018, no RSUs had an antidilutive effect on weighted-average diluted common shares outstanding, and for the three and nine months ended September 30, 2017, 1 thousand RSUs and 8 thousand RSUs, respectively, were excluded from the weighted-average diluted common shares outstanding due to their antidilutive effect. No stock options had an antidilutive effect on weighted-average diluted common shares outstanding for either period in the current year or in the prior year.

Note 10 – Employee Benefit Plans

Net periodic cost related to the Company’s defined benefit pension and supplemental benefit plans includes the following components:

(in thousands)	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
<b>Expense:</b>				
Service costs	\$130	\$184	\$390	\$551
Interest costs	2,018	2,086	6,054	11,185
Expected return on plan assets	—	—	—	(4,740 )

Edgar Filing: First American Financial Corp - Form 10-Q

Amortization of net actuarial loss	1,205	1,958	3,615	15,792
Amortization of prior service credit	(1,045)	(1,045 )	(3,135)	(3,268 )
Settlement costs	—	152,388	—	152,388
	\$2,308	\$155,571	\$6,924	\$171,908

The Company adopted new accounting guidance which requires the components of net periodic cost, other than the service cost component, to be included in other operating expenses in the Company's condensed consolidated statements of income. The change was applied retrospectively to the prior year, which resulted in a reclass of \$155.4 million and \$171.4 million from personnel costs to other operating expenses for the three and nine months ended September 30, 2017, respectively. For further information about the new guidance see Note 1 Basis of Condensed Consolidated Financial Statements.

Prior year net periodic cost includes costs related to the Company's previously terminated defined benefit pension plans, for which the Company has no remaining obligation.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Note 11 – Fair Value Measurements

Certain of the Company's assets are carried at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company categorizes its assets and liabilities carried at fair value using a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the Company (observable inputs) and the Company's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The hierarchy for inputs used in determining fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. The hierarchy level assigned to the assets and liabilities is based on management's assessment of the transparency and reliability of the inputs used to estimate the fair values at the measurement date. The three hierarchy levels are defined as follows:

Level 1—Valuations based on unadjusted quoted market prices in active markets for identical assets or liabilities.

Level 2—Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets or liabilities at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly.

Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment.

If the inputs used to measure fair value fall into different levels of the fair value hierarchy, the hierarchy level assigned is based upon the lowest level of input that is significant to the fair value measurement.

Assets measured at fair value on a recurring basis

The valuation techniques and inputs used by the Company to estimate the fair value of assets measured on a recurring basis are summarized as follows:

Debt securities

The fair values of debt securities were based on the market values obtained from independent pricing services that were evaluated using pricing models that vary by asset class and incorporate available trade, bid and other market information and price quotes from well-established, independent broker-dealers. The independent pricing services monitor market indicators, industry and economic events, and for broker-quoted only securities, obtain quotes from market makers or broker-dealers that they recognize to be market participants. The pricing services utilize the market approach in determining the fair values of the debt securities held by the Company. The Company obtains an understanding of the valuation models and assumptions utilized by the services and has controls in place to determine that the values provided represent fair values. The Company's validation procedures include comparing prices received from the pricing services to quotes received from other third party sources for certain securities with market prices that are readily verifiable. If the price comparison results in differences over a predefined threshold, the

Company will assess the reasonableness of the changes relative to prior periods given the prevailing market conditions and assess changes in the issuers' credit worthiness, performance of any underlying collateral and prices of the instrument relative to similar issuances. To date, the Company has not made any material adjustments to the fair value measurements provided by the pricing services.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Typical inputs and assumptions to pricing models used to value the Company's U.S. Treasury bonds, municipal bonds, foreign government bonds, governmental agency bonds, governmental agency mortgage-backed securities and U.S. and foreign corporate debt securities include, but are not limited to, benchmark yields, reported trades, broker-dealer quotes, credit spreads, credit ratings, bond insurance (if applicable), benchmark securities, bids, offers, reference data and industry and economic events. For mortgage-backed securities, inputs and assumptions may also include the structure of issuance, characteristics of the issuer, collateral attributes and prepayment speeds.

Equity securities

The fair values of equity securities, including preferred and common stocks, were based on quoted market prices for identical assets that are readily and regularly available in an active market.

The following tables present the fair values of the Company's assets, measured on a recurring basis, as of September 30, 2018 and December 31, 2017:

(in thousands)	Total	Level 1	Level 2	Level 3
<b>September 30, 2018</b>

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

There were no transfers between Levels 1 and 2 during the three and nine months ended September 30, 2018 and 2017. Transfers into or out of the Level 3 category occur when unobservable inputs become more or less significant to the fair value measurement. The Company's policy is to recognize transfers between levels in the fair value hierarchy at the end of the reporting period.

The following table presents a summary of the changes in the fair values of Level 3 assets for the three months ended September 30, 2018 and 2017:

(in thousands)	September 30, 2018			September 30, 2017

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Financial instruments not measured at fair value

In estimating the fair values of its financial instruments not measured at fair value, the Company used the following methods and assumptions:

Cash and cash equivalents

The carrying amount for cash and cash equivalents approximates fair value due to the short-term maturity of these investments.

Deposits with banks

The fair value of deposits with banks is estimated based on rates currently offered for deposits of similar remaining maturities, where applicable.

Notes receivable, net

The fair value of notes receivable, net is estimated based on current market rates being offered for notes with similar maturities and credit quality.

Secured financings receivable

The carrying amount of secured financings receivable approximates fair value due to the short-term nature of these assets.

Deposits

The carrying values of escrow and other deposit accounts approximate fair value due to the short-term nature of these liabilities.

Secured financings payable

The carrying amount of secured financings payable approximates fair value due to the short-term nature of these liabilities.

Notes and contracts payable

The fair value of notes and contracts payable is estimated based on current rates offered to the Company for debt of similar remaining maturities.

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments not measured at fair value as of September 30, 2018 and December 31, 2017:

Note 13 – Accumulated Other Comprehensive Income (Loss) (“AOCI”)

The following table presents a summary of the changes in each component of AOCI for the nine months ended September 30, 2018:

(in thousands)	Unrealized gains (losses) on securities	Foreign currency translation adjustment	Pension benefit adjustment	Accumulated other comprehensive income (loss)
Balance at December 31, 2017	\$ 36,803	\$ (38,832 )	\$ (65,460 )	\$ (67,489 )
Cumulative-effect adjustment, net of taxes (1)	(40,550 )	—	—	(40,550 )
Change in unrealized gains (losses) on debt securities	(96,416 )	—	—	(96,416 )
Change in foreign currency translation adjustment	—	(11,856 )	—	(11,856 )
Amortization of net actuarial loss	—	—	3,615	3,615
Amortization of prior service credit	—	—	(3,135 )	(3,135 )
Tax effect	22,483	560	(123 )	22,920
Balance at September 30, 2018	\$ (77,680 )	\$ (50,128 )	\$ (65,103 )	\$ (192,911 )
Allocated to the Company	\$ (77,681 )	\$ (50,128 )	\$ (65,103 )	\$ (192,912 )
Allocated to noncontrolling interests	1	—	—	1
Balance at September 30, 2018	\$ (77,680 )	\$ (50,128 )	\$ (65,103 )	\$ (192,911 )

(1) The Company recognized a cumulative-effect adjustment to retained earnings for cumulative net unrealized gains related to its investments in equity securities upon adoption of new accounting guidance on January 1, 2018. See Note 1 Basis of Condensed Consolidated Financial Statements for further discussion of the new guidance.

Edgar Filing: First American Financial Corp - Form 10-Q

The following table presents the other comprehensive income (loss) reclassification adjustments for the three months ended September 30, 2018 and 2017:

(in thousands)	Unrealized gains (losses) on securities	Foreign currency translation adjustment	Pension benefit adjustment	Total other comprehensive income (loss)

(1) The current year net realized losses related to sales of debt securities and the prior year net realized gains related to sales of debt and equity securities.

(2) These components of AOCI are components of net periodic cost. See Note 10 Employee Benefit Plans for additional details.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Note 14 – Litigation and Regulatory Contingencies

The Company and its subsidiaries are parties to a number of non-ordinary course lawsuits. These lawsuits frequently are similar in nature to other lawsuits pending against the Company's competitors.

For those non-ordinary course lawsuits where the Company has determined that a loss is both probable and reasonably estimable, a liability representing the best estimate of the Company's financial exposure based on known facts has been recorded. Actual losses may materially differ from the amounts recorded.

For a substantial majority of these lawsuits, however, it is not possible to assess the probability of loss. Most of these lawsuits are putative class actions which require a plaintiff to satisfy a number of procedural requirements before proceeding to trial. These requirements include, among others, demonstration to a court that the law proscribes in some manner the Company's activities, the making of factual allegations sufficient to suggest that the Company's activities exceeded the limits of the law and a determination by the court—known as class certification—that the law permits a group of individuals to pursue the case together as a class. In certain instances the Company may also be able to compel the plaintiff to arbitrate its claim on an individual basis. If these procedural requirements are not met, either the lawsuit cannot proceed or, as is the case with class certification or compelled arbitration, the plaintiffs lose the financial incentive to proceed with the case (or the amount at issue effectively becomes de minimis). Frequently, a court's determination as to these procedural requirements is subject to appeal to a higher court. As a result of, among other factors, ambiguities and inconsistencies in the myriad laws applicable to the Company's business and the uniqueness of the factual issues presented in any given lawsuit, the Company often cannot determine the probability of loss until a court has finally determined that a plaintiff has satisfied applicable procedural requirements.

Furthermore, because most of these lawsuits are putative class actions, it is often impossible to estimate the possible loss or a range of loss amounts, even where the Company has determined that a loss is reasonably possible. Generally class actions involve a large number of people and the effort to determine which people satisfy the requirements to become plaintiffs—or class members—is often time consuming and burdensome. Moreover, these lawsuits raise complex factual issues which result in uncertainty as to their outcome and, ultimately, make it difficult for the Company to estimate the amount of damages which a plaintiff might successfully prove. In addition, many of the Company's businesses are regulated by various federal, state, local and foreign governmental agencies and are subject to numerous statutory guidelines. These regulations and statutory guidelines often are complex, inconsistent or ambiguous, which results in additional uncertainty as to the outcome of a given lawsuit—including the amount of damages a plaintiff might be afforded—or makes it difficult to analogize experience in one case or jurisdiction to another case or jurisdiction.

Most of the non-ordinary course lawsuits to which the Company and its subsidiaries are parties challenge practices in the Company's title insurance business, though a limited number of cases also pertain to the Company's other businesses. These lawsuits include, among others, cases alleging, among other assertions, that the Company or one of its subsidiaries engaged in improper debt collection practices, improperly charged fees for products and services, participated in the conveyance of illusory property interests, improperly handled property and casualty claims and gave items of value to builders as inducements to refer business in violation of certain laws, such as consumer protection laws and laws generally prohibiting unfair business practices, and certain obligations, including:

---

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

All of these lawsuits are putative class actions for which a class has not been certified. For the reasons described above, the Company has not yet been able to assess the probability of loss or estimate the possible loss or the range of loss or, where the Company has been able to make an estimate, the Company believes the amount is not material to the condensed consolidated financial statements as a whole.

While some of the lawsuits described above may be material to the Company's operating results in any particular period if an unfavorable outcome results, the Company does not believe that any of these lawsuits will have a material adverse effect on the Company's overall financial condition or liquidity.

The Company also is a party to non-ordinary course lawsuits other than those described above. With respect to these lawsuits, the Company has determined either that a loss is not reasonably possible or that the estimated loss or range of loss, if any, is not material to the condensed consolidated financial statements as a whole.

The Company's title insurance, property and casualty insurance, home warranty, banking, thrift, trust and wealth management businesses are regulated by various federal, state and local governmental agencies. Many of the Company's other businesses operate within statutory guidelines. Consequently, the Company may from time to time be subject to examination or investigation by such governmental agencies. Currently, governmental agencies are examining or investigating certain of the Company's operations. These exams or investigations include inquiries into, among other matters, pricing and rate setting practices in the title insurance industry, competition in the title insurance industry, real estate settlement service, customer acquisition and retention practices and agency relationships. With respect to matters where the Company has determined that a loss is both probable and reasonably estimable, the Company has recorded a liability representing its best estimate of the financial exposure based on known facts. While the ultimate disposition of each such exam or investigation is not yet determinable, the Company does not believe that individually or in the aggregate they will have a material adverse effect on the Company's financial condition, results of operations or cash flows. These exams or investigations could, however, result in changes to the Company's business practices which could ultimately have a material adverse impact on the Company's financial condition, results of operations or cash flows.

The Company's Canadian operations provide certain services to lenders which it believes to be exempt from excise tax under applicable Canadian tax laws. However, in October 2014, the Canadian taxing authority provided internal guidance that the services in question should be subject to the excise tax. While discussions with the taxing authority are ongoing, the Company believes that the guidance may result in an assessment. The amount, if any, of such assessment is not currently known, and any such assessment would be subject to negotiation. In the event that the Company disagrees with the ultimate assessment, the Company intends to avail itself of avenues of appeal. While the Company believes it is reasonably likely that the Company would prevail on the merits, a loss associated with the matter is possible. In light of the foregoing, the Company is not currently able to reasonably estimate a loss or range of loss associated with the matter. While such a loss could be material to the Company's operating results in any particular period if an unfavorable outcome results, the Company does not believe that this matter will have a material adverse effect on the Company's overall financial condition or liquidity.

The Company and its subsidiaries also are involved in numerous ongoing routine legal and regulatory proceedings related to their operations. With respect to each of these proceedings, the Company has determined either that a loss is not reasonably possible or that the estimated loss or range of loss, if any, is not material to the condensed consolidated financial statements as a whole.

FIRST AMERICAN FINANCIAL CORPORATION  
AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements – (Continued)  
(unaudited)

Note 15 – Business Combinations

During the nine months ended September 30, 2018, the Company completed acquisitions for an aggregate purchase price of \$77.7 million. For acquisitions in which the Company has not completed its purchase price allocation, preliminary fair value estimates for the assets acquired and liabilities assumed have been recorded. The Company allocates the purchase price of each acquisition to the assets acquired and liabilities assumed using a variety of valuation techniques, including discounted cash flow analysis. These acquisitions have been included in the Company's title insurance and services segment.

Current year acquisitions included the purchase of a small, specialized warehouse lender that provides financing for correspondent mortgage lenders. The business has itself secured warehouse lending facilities with several banking institutions. The mortgage loans are generally sold by the correspondent mortgage lenders to investors within 30 days and more typically in less than 10 days. The assets acquired included secured financings receivable from correspondent mortgage lenders of \$69.6 million and liabilities assumed included secured financings payable of \$69.8 million. The combined capacity for the warehouse lending facilities totals \$123.0 million with one additional warehouse lending facility having no stated capacity. Interest rates for the warehouse lending facilities range from 3.50% to the current prime lending rate as published by The Wall Street Journal. At September 30, 2018, outstanding borrowings under the facilities totaled \$86.5 million.

During the three and nine months ended September 30, 2017, the Company completed acquisitions for an aggregate purchase price of \$87.3 million and \$91.1 million. These acquisitions have been included in the Company's title insurance and services segment.

Note 16 – Segment Information

The Company consists of the following reportable segments and a corporate function:

•The Company's title insurance and services segment issues title insurance policies on residential and commercial property in the United States and offers similar or related products and services internationally. This segment also provides closing and/or escrow services; accommodates tax-deferred exchanges of real estate; provides products, services and solutions involving the use of real property related data designed to mitigate risk or otherwise facilitate real estate transactions; maintains, manages and provides access to title plant records and images; and provides appraisals and other valuation-related products and services, lien release and document custodial services, default-related products and services, evidence of title, warehouse lending, and banking, trust and wealth management services. The Company, through its principal title insurance subsidiary and such subsidiary's affiliates, transacts its title insurance business through a network of direct operations and agents. Through this network, the Company issues policies in the 49 states that permit the issuance of title insurance policies and the District of Columbia. The Company also offers title insurance, closing services and similar or related products and services, either directly or through third parties in other countries, including Canada, the United Kingdom, Australia, South Korea and various other established and emerging markets.

•The Company's specialty insurance segment issues property and casualty insurance policies and sells home warranty products. The property and casualty insurance business provides insurance coverage to residential homeowners and

renters for liability losses and typical hazards such as fire, theft, vandalism and other types of property damage. This business is licensed to issue policies in all 50 states and the District of Columbia and actively issues policies in 47 states. The majority of policy liability is in the western United States, including approximately 62% in California. In certain markets it also offers preferred risk auto insurance to better compete with other carriers offering bundled home and auto insurance. The home warranty business provides residential service contracts that cover residential systems, such as heating and air conditioning systems, and certain appliances against failures that occur as the result of normal usage during the coverage period. This business currently operates in 39 states and the District of Columbia.

The corporate function consists primarily of certain financing facilities as well as the corporate services that support the Company's business operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

THIS QUARTERLY REPORT ON FORM 10-Q CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933, AS AMENDED, AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. THESE FORWARD-LOOKING STATEMENTS CAN BE IDENTIFIED BY THE FACT THAT THEY DO NOT RELATE STRICTLY TO HISTORICAL OR CURRENT FACTS AND MAY CONTAIN THE WORDS "BELIEVE," "ANTICIPATE," "EXPECT," "INTEND," "PLAN," "PREDICT," "ESTIMATE," "PROJECT," "WILL BE," "WILL CONTINUE," "WILL LIKELY RESU OTHER SIMILAR WORDS AND PHRASES OR FUTURE OR CONDITIONAL VERBS SUCH AS "WILL," "MAY," "MIGHT," "SHOULD," "WOULD," OR "COULD." THESE FORWARD-LOOKING STATEMENTS INCLUDE, WITHOUT LIMITATION, STATEMENTS REGARDING FUTURE OPERATIONS, PERFORMANCE, FINANCIAL CONDITION, PROSPECTS, PLANS AND STRATEGIES. THESE FORWARD-LOOKING STATEMENTS ARE BASED ON CURRENT EXPECTATIONS AND ASSUMPTIONS THAT MAY PROVE TO BE INCORRECT.

RISKS AND UNCERTAINTIES EXIST THAT MAY CAUSE RESULTS TO DIFFER MATERIALLY FROM THOSE SET FORTH IN THESE FORWARD-LOOKING STATEMENTS. FACTORS THAT COULD CAUSE THE ANTICIPATED RESULTS TO DIFFER FROM THOSE DESCRIBED IN THE FORWARD-LOOKING STATEMENTS INCLUDE THE FACTORS SET FORTH ON PAGES 3-4 OF THIS QUARTERLY REPORT. THE FORWARD-LOOKING STATEMENTS SPEAK ONLY AS OF THE DATE THEY ARE MADE. THE COMPANY DOES NOT UNDERTAKE TO UPDATE FORWARD-LOOKING STATEMENTS TO REFLECT CIRCUMSTANCES OR EVENTS THAT OCCUR AFTER THE DATE THE FORWARD-LOOKING STATEMENTS ARE MADE.

This Management's Discussion and Analysis contains certain financial measures that are not presented in accordance with U.S. generally accepted accounting principles ("GAAP"), including adjusted information and other revenues, adjusted personnel costs and adjusted other operating expenses, in each case excluding the effects of recent acquisitions. The Company is presenting these non-GAAP financial measures because they provide the Company's management and readers of this Quarterly Report on Form 10-Q with additional insight into the operational performance of the Company relative to earlier periods. The Company does not intend for these non-GAAP financial measures to be a substitute for any GAAP financial information. In this Quarterly Report on Form 10-Q, these non-GAAP financial measures have been presented with, and reconciled to, the most directly comparable GAAP financial measures. Readers of this Quarterly Report on Form 10-Q should use these non-GAAP financial measures only in conjunction with the comparable GAAP financial measures.

#### CRITICAL ACCOUNTING ESTIMATES

There have been no material changes to the Company's critical accounting estimates since the filing of its Annual Report on Form 10-K for the year ended December 31, 2017. A summary of the Company's accounting policies that it considers to be the most dependent on the application of estimates and assumptions can be found in the Management's Discussion and Analysis section of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

#### Recently Adopted Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board ("FASB") issued updated guidance intended to reduce diversity in practice by clarifying which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In March 2017, the FASB issued updated guidance intended to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost through the disaggregation of the service cost component from the other components of net benefit cost. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company adopted this change in accounting principle at the beginning of 2018 and applied the change retrospectively to the prior year. As a result, other components of net benefit cost totaling \$155.4 million and \$171.4 million were reclassified from personnel costs to other operating expenses on the condensed consolidated statements of income for the three and nine months ended September 30, 2017, respectively. See Note 10 Employee Benefit Plans to the condensed consolidated financial statements for further information on the Company's net periodic pension costs.

In January 2017, the FASB issued updated guidance to clarify the definition of a business with the objective of providing guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In November 2016, the FASB issued updated guidance intended to reduce the diversity in practice on presenting restricted cash and restricted cash equivalents in the statement of cash flows. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In October 2016, the FASB issued updated guidance intended to simplify and improve the accounting for the income tax consequences of intra-entity transfers of assets, other than inventory. The updated guidance, which eliminates the intra-entity transfers exception, requires entities to recognize the income tax consequences of intra-entity transfers of assets, other than inventory, when the transfers occur. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In August 2016, the FASB issued updated guidance intended to eliminate the diversity in practice regarding the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In January 2016, the FASB issued updated guidance intended to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. In addition to making other targeted improvements to current guidance, the updated guidance also requires all equity investments, except those accounted for under the equity method of accounting or those that result in consolidation of the investee, to be measured at fair value with changes in the fair value recognized through net income. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017. The Company adopted this guidance at the beginning of 2018 and recognized cumulative net unrealized gains, net of taxes, of \$40.6 million related to its investments in equity securities, previously classified as available-for-sale, through a cumulative-effect adjustment to retained earnings. Changes in the fair values of these investments are reflected in net realized investment gains/losses on the Company's condensed consolidated statements of income. See Note 4 Debt and Equity Securities to the condensed consolidated financial statements for further discussion of the Company's investments in equity securities.

In May 2014, the FASB issued updated guidance for recognizing revenue from contracts with customers to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within and across industries, and across capital markets. The new revenue standard contains principles that an entity will apply to determine the measurement of revenue and the timing of recognition. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. Revenue from insurance contracts is not within the scope of this guidance. In August 2015, the FASB issued updated guidance which defers the effective date of this guidance by one year. In 2016, the FASB issued additional updates to the new guidance primarily to clarify, among other things, the implementation guidance related to principal versus agent considerations, identifying performance obligations, accounting for licenses of intellectual property, and to provide narrow-scope improvements and additional practical expedients. In February 2017, the FASB issued an additional update to the new guidance to clarify the scope of derecognition guidance for nonfinancial assets and to provide guidance for partial sales of nonfinancial assets. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017. The

Company elected to adopt the new guidance under the modified retrospective approach, which, except for the disclosure requirements, did not have a material impact on its condensed consolidated financial statements. See Note 2 Adoption of Revenue Guidance to the condensed consolidated financial statements for further information about the Company's revenues within the scope of the new guidance.

## Pending Accounting Pronouncements

In August 2018, the FASB issued updated guidance that is intended to reduce potential diversity in practice in accounting for the costs of implementing cloud computing arrangements (i.e., hosting arrangements) that are service contracts. The updated guidance aligns the requirements for capitalizing implementation costs for these arrangements with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software and hosting arrangements that include an internal-use software license. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company is currently assessing the impact of this guidance on its condensed consolidated financial statements.

In August 2018, the FASB issued updated guidance as part of its disclosure framework project intended to improve the effectiveness of disclosures in the notes to the financial statements. The updated guidance eliminates, adds and modifies certain disclosure requirements related to fair value measurements. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. Except for the disclosure requirements, the Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In January 2017, the FASB issued updated guidance intended to simplify how an entity tests goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Under the updated guidance, an entity will perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and will recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, with the loss recognized limited to the total amount of goodwill allocated to that reporting unit. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In June 2016, the FASB issued updated guidance intended to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. The updated guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires the consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company is currently assessing the impact of this guidance on its condensed consolidated financial statements.

In February 2016, the FASB issued updated guidance that requires the rights and obligations associated with leasing arrangements be reflected on the balance sheet in order to increase transparency and comparability among organizations. Under the updated guidance, lessees will be required to recognize a right-of-use asset and a liability to make lease payments and disclose key information about leasing arrangements. The updated guidance is required to be adopted using a modified retrospective transition approach. In July 2018, the FASB issued additional updates to the new guidance which allows for the initial application of the guidance at the adoption date and for the recognition of a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. While the Company is currently evaluating the impact the new guidance will have on its condensed consolidated financial statements, the Company expects the adoption of the new guidance will result in a material increase in the assets and liabilities on its condensed consolidated balance sheets and will likely have an insignificant impact on its condensed consolidated statements of income and statements of cash flows.

## Results of Operations

### Summary of Third Quarter

A substantial portion of the revenues for the Company's title insurance and services segment results from the sale and refinancing of residential and commercial real estate. In the Company's specialty insurance segment, revenues associated with the initial year of coverage in both the home warranty and property and casualty operations are impacted by volatility in residential purchase transactions. Traditionally, the greatest volume of real estate activity, particularly residential purchase activity, has occurred in the spring and summer months. However, changes in interest rates, as well as other changes in general economic conditions in the United States and abroad, can cause fluctuations in the traditional pattern of real estate activity.

According to the Mortgage Bankers Association's October 16, 2018 Mortgage Finance Forecast (the "MBA Forecast"), residential mortgage originations in the United States (based on the total dollar value of the transactions) decreased 3.0% in the third quarter of 2018 when compared with the third quarter of 2017. According to the MBA Forecast, the dollar amount of purchase originations increased 8.1% and refinance originations decreased 26.5%. This volume of domestic residential mortgage origination activity contributed to an increase in direct premiums and escrow fees for the Company's direct title operations of 1.1% from domestic residential purchase transactions and a 22.9% decrease in direct premiums and escrow fees from domestic refinance transactions in the third quarter of 2018 when compared with the third quarter of 2017.

During the third quarter of 2018, the level of domestic title orders opened per day by the Company's direct title operations decreased 10.5% when compared with the third quarter of 2017. Residential refinance and purchase opened orders per day decreased 32.0% and 4.2%, respectively, while commercial opened orders per day increased 2.8% when compared to the third quarter of 2017.

The Company adopted new accounting guidance on January 1, 2018, which requires investments in equity securities with readily determinable fair values to be measured at fair value with changes in the fair value recognized through net income. Previously, changes in the fair value were recognized through accumulated other comprehensive loss on the condensed consolidated balance sheets. Beginning in the first quarter of 2018, the Company records changes in the fair values of its equity securities as a component of net realized investment gains (losses) on the condensed consolidated statements of income. See Note 1 Basis of Condensed Consolidated Financial Statements to the condensed consolidated financial statements for further discussion of the new guidance.

On December 22, 2017, comprehensive tax reform legislation known as the Tax Cuts and Jobs Act (the "Tax Reform Act") was signed into law. The Tax Reform Act amended the Internal Revenue Code to reduce U.S. tax rates and modify policies, credits and deductions for individuals and businesses. The changes resulting from the Tax Reform Act are broad and complex and will require additional analysis, but the Company expects that the Tax Reform Act will continue to have an overall favorable impact on its effective tax rate.

In addition, the Company continues to monitor developments in its regulatory environment. Currently, federal officials are discussing various potential changes to laws and regulations that could impact the Company's businesses, including changes to the Dodd-Frank Wall Street Reform and Consumer Protection Act, and the reform of government-sponsored enterprises such as the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac). In addition, the Tax Reform Act included changes that could affect the real estate and mortgage markets, including changes to the mortgage interest deduction, the increase in the standard deduction (which limits the benefit of itemizing and deducting mortgage interest separately) and the limitation of state and local tax deductions, among others. The full extent of the impact of the Tax Reform Act on volumes of real estate transactions and mortgage originations is not currently known. Other changes in these areas,

and more generally in the regulatory environment in which the Company and its customers operate, could similarly impact the volume of mortgage originations in the United States and the Company's competitive position and results of operations.

Edgar Filing: First American Financial Corp - Form 10-Q

Margins 14.6 % 13.0 % 1.6 % 12.3 % 13.1 % 12.1 % 1.0 % 8.3 %

Direct premiums and escrow fees were \$532.8 million and \$1.5 billion for the three and nine months ended September 30, 2018, respectively, a decrease of \$5.3 million, or 1.0%, and an increase of \$23.3 million, or 1.6%, when compared with the respective periods of the prior year. The decrease for the three months ended September 30, 2018 was primarily due to a decrease in domestic title orders closed, partially offset by an increase in the average revenues per order closed. The increase for the nine months ended September 30, 2018 was primarily due to an increase in the average revenues per order closed, partially offset by a decrease in the domestic title orders closed. The average revenues per order closed were \$2,667 and \$2,529 for the three and nine months ended September 30, 2018, respectively, increases of 16.1% and 14.2% when compared with \$2,298 and \$2,215 for the respective periods of the prior year. The increases in average revenues per order closed for the three and nine months ended September 30, 2018 were primarily attributable to higher average revenue per order from commercial transactions, higher residential real estate values, premium and fee increases related to residential purchase transactions, and a shift in the mix of direct revenues from lower premium residential refinance products to higher premium commercial products. The Company's direct title operations closed 184,500 and 554,300 title orders during the three and nine months ended September 30, 2018, respectively, decreases of 13.9% and 10.5% when compared with 214,300 and 619,500 title orders closed during the respective periods of the prior year. Domestic refinance orders closed per day decreased by 31.6% and 23.0%, and domestic residential purchase orders closed per day decreased by 4.5% and 1.3% for the three and nine months ended September 30, 2018, respectively, when compared to the same periods of 2017.

Agent premiums were \$615.1 million and \$1.7 billion for the three and nine months ended September 30, 2018, respectively, decreases of \$14.1 million, or 2.2%, and \$56.0 million, or 3.2%, when compared with the respective periods of the prior year. Agent premiums are recorded when notice of issuance is received from the agent, which is generally when cash payment is received by the Company. As a result, there is generally a delay between the agent's issuance of a title policy and the Company's recognition of agent premiums. Therefore, current quarter agent premiums typically reflect prior quarter mortgage origination activity. The decrease in agent premiums for the three months ended September 30, 2018 is generally consistent with the 3.1% increase in the Company's direct premiums and escrow fees in the second quarter of 2018 as compared with the second quarter of 2017. The decrease in agent premiums for the three months ended September 30, 2018 was also the result of lower volumes in California.

Information and other revenues primarily consist of revenues generated from fees associated with title search and related reports, title and other real property records and images, other non-insured settlement services, and risk mitigation products and services. These revenues generally trend with direct premiums and escrow fees but are typically less volatile since a portion of the revenues are subscription based and do not fluctuate with transaction volumes.

Information and other revenues were \$196.0 million and \$588.1 million for the three and nine months ended September 30, 2018, respectively, a decrease of \$3.3 million, or 1.7%, and an increase of \$9.5 million, or 1.6%, when compared with the respective periods of the prior year. The decrease for the three months ended September 30, 2018 was primarily attributable to the impact of lower overall mortgage origination activity and a decline in foreclosure activity, partially offset by the impact of recent acquisitions. The increase for the nine months ended September 30, 2018 was driven by recent acquisitions. Excluding the \$9.0 million and \$37.1 million impact of new acquisitions for the three and nine months ended September 30, 2018, respectively, information and other revenues decreased \$12.3 million, or 6.2%, and \$27.6 million, or 4.8%, when compared with the respective periods of the prior year. The decreases in information and other revenues for the three and nine months ended September 30, 2018, adjusted for the impact of acquisitions, were primarily due to the impact of lower overall mortgage origination activity and a decline in foreclosure activity.

Net investment income totaled \$60.9 million and \$154.0 million for the three and nine months ended September 30, 2018, respectively, increases of \$23.0 million, or 60.6%, and \$54.8 million, or 55.3%, when compared with the respective periods of the prior year. The increases were primarily attributable to higher average balances and higher short-term interest rates, which drove higher income from the Company's cash and investment portfolio, tax-deferred property exchange business and escrow balances.

Net realized investment gains totaled \$9.1 million and \$8.9 million for the three and nine months ended September 30, 2018, respectively. The net realized gains for the three and nine months ended September 30, 2018 were primarily from an increase in the fair values of equity securities, partially offset by losses from the sales of debt securities. Net realized investment losses totaled \$7.2 million for the three months ended September 30, 2017 and net realized investment gains totaled \$9.3 million for the nine months ended September 30, 2017. Net realized investment losses for the three months ended September 30, 2017 primarily related to a \$6.6 million loss recognized when the Company purchased the remaining equity ownership in an investment in an affiliate during the third quarter of 2017. Net realized investment gains for the nine months ended September 30, 2017 primarily related to sales of equity securities, partially offset by the third quarter loss of \$6.6 million described above.

The title insurance and services segment (primarily direct operations) is labor intensive; accordingly, a major expense component is personnel costs. This expense component is affected by two primary factors: the need to monitor personnel changes to match the level of corresponding or anticipated new orders and the need to provide quality service.

Personnel costs were \$425.6 million and \$1.2 billion for the three and nine months ended September 30, 2018, respectively, increases of \$3.7 million, or 0.9%, and \$24.1 million, or 2.0%, when compared with the respective periods of the prior year. The increases were driven by recent acquisitions. Excluding the \$6.4 million and \$24.8 million impact of new acquisitions for the three and nine months ended September 30, 2018, respectively, personnel costs decreased \$2.7 million, or 0.6%, and \$0.7 million, or 0.1%, when compared with the same periods of the prior year. The decrease for the three months ended September 30, 2018, adjusted for the impact of new acquisitions, was primarily attributable to lower incentive compensation expense, partially offset by higher employee benefit costs. The slight decrease for the nine months ended September 30, 2018, adjusted for the impact of new acquisitions, was primarily attributable to lower incentive compensation expense, overtime expense, severance expense and temporary labor costs, mostly offset by higher salary expense and share-based compensation costs.

Agents retained \$485.6 million and \$1.3 billion of title premiums generated by agency operations for the three and nine months ended September 30, 2018, respectively, which compares with \$497.9 million and \$1.4 billion for the respective periods of the prior year. The percentage of title premiums retained by agents was 78.9% and 78.8% for the three and nine months ended September 30, 2018, respectively, compared to 79.1% and 78.9% for the respective periods of the prior year.

Other operating expenses for the title insurance and services segment were \$200.9 million and \$594.2 million for the three and nine months ended September 30, 2018, respectively, increases of \$4.5 million, or 2.3%, and \$14.6 million, or 2.5%, when compared with the respective periods of the prior year. The increases were driven by recent acquisitions. Excluding the \$4.8 million and \$16.2 million impact of new acquisitions for the three and nine months ended September 30, 2018, respectively, other operating expenses decreased \$0.3 million, or 0.1%, and \$1.6 million, or 0.3%, when compared with the respective periods of the prior year. The slight decreases for the three and nine months ended September 30, 2018, adjusted for the impact of new acquisitions, were primarily attributable to small decreases across a number of expense categories, mostly offset by the recording of a reserve related to a legacy regulatory matter during the third quarter of 2018 and higher software expense and foreign exchange losses. The nine months ended September 30, 2018 were also impacted by lower production related expenses.

The provision for policy losses and other claims, expressed as a percentage of title premiums and escrow fees, was 4.0% for the three and nine months ended September 30, 2018 and 2017. The current quarter rate of 4.0% reflects the ultimate loss rate for the current policy year and no change in the loss reserve estimates for prior policy years. The 4.0% rate for the third quarter of 2017 reflected the ultimate loss rate for the 2017 policy year and no change in the loss reserve estimates for prior policy years.

Depreciation and amortization expense was \$30.0 million and \$87.4 million for the three and nine months ended September 30, 2018, respectively, decreases of \$4.4 million, or 12.8%, and \$4.0 million, or 4.4%, when compared with the respective periods of the prior year. The decreases were primarily attributable to \$4.7 million in out-of-period adjustments recorded in the prior year to fully amortize certain title plant imaging assets that were misclassified as title plant assets and accelerated amortization of internally developed software in the prior year, partially offset by an increase in amortization expense from recent acquisitions.

Premium taxes were \$16.9 million and \$46.4 million for the three and nine months ended September 30, 2018, respectively, decreases of \$1.0 million, or 5.4%, and \$0.6 million, or 1.2%, respectively, compared to \$17.9 million and \$47.0 million for the same periods of the prior year. Premium taxes as a percentage of title insurance premiums and escrow fees were 1.5% and 1.4% for the three and nine months ended September 30, 2018 and 2017, respectively.

The profit margins for the title insurance business reflect the high cost of performing the essential services required before insuring title, whereas the corresponding revenues are subject to regulatory and competitive pricing restraints. Due to the relatively high proportion of fixed costs, title insurance profit margins generally improve as closed order volumes increase. Title insurance profit margins are affected by the composition (residential or commercial) and type (resale, refinancing or new construction) of real estate activity. Title insurance profit margins are also affected by the percentage of title insurance premiums generated by agency operations. Profit margins from direct operations are generally higher than from agency operations due primarily to the large portion of the premium that is retained by the agent. Pretax margins for the three and nine months ended September 30, 2018 were 14.6% and 13.1%, respectively, compared with 13.0% and 12.1% in the respective periods of the prior year.

(1)Not meaningful

Direct premiums were \$116.6 million and \$339.3 million for the three and nine months ended September 30, 2018, respectively, increases of \$3.6 million, or 3.2%, and \$12.4 million, or 3.8%, when compared with the respective periods of the prior year. The increases were attributable to higher premiums earned in the home warranty business driven by an increase in the average prices charged per home warranty residential service contract and an increase in the number of contracts issued.

Net realized investment gains totaled \$2.0 million and \$2.1 million for the three and nine months ended September 30, 2018, respectively, and were primarily from the increase in the fair values of equity securities, partially offset by losses from the sales of debt securities. Net realized investment gains totaled \$0.2 million and \$1.4 million for the three and nine months ended September 30, 2017, respectively, and were from the sales of debt and equity securities.

Personnel costs and other operating expenses were \$38.1 million and \$113.4 million for the three and nine months ended September 30, 2018, respectively, increases of \$3.1 million, or 8.9%, and \$9.2 million, or 8.8%, when compared with the respective periods of the prior year. The increases were primarily attributable to higher salary expense due to higher average salaries and higher advertising expense, sales tax expense, allocations related to corporate shared services, employee benefit costs and professional services expense.

The provision for home warranty claims, expressed as a percentage of home warranty premiums, was 62.9% and 56.1% for the three and nine months ended September 30, 2018, respectively, compared with 60.1% and 56.1% for the respective periods of the prior year. The increase in the claims rate for the three months ended September 30, 2018 was primarily attributable to an increase in claims severity. The provision for property and casualty claims, expressed as a percentage of property and casualty insurance premiums, was 72.5% and 75.2% for the three and nine months ended September 30, 2018, respectively, compared with 77.8% and 77.3% for the respective periods of the prior year. The decrease in the claims rate for the three months ended September 30, 2018 was primarily attributable to a decline in claims frequency, partially offset by an increase in claims severity.

Premium taxes were \$1.9 million and \$5.4 million for the three and nine months ended September 30, 2018, respectively, compared with \$2.0 million and \$5.6 million for the respective periods of the prior year. Premium taxes as a percentage of specialty insurance segment premiums were 1.6% for the three and nine months ended September 30, 2018, and 1.8% and 1.7% for the three and nine months ended September 30, 2017, respectively.

A large part of the revenues for the specialty insurance businesses are generated by renewals and are not dependent on the level of real estate activity in the year of renewal. With the exception of loss expense, the majority of the expenses for this segment are variable in nature and therefore generally fluctuate consistent with revenue fluctuations. Accordingly, profit margins for this segment (before loss expense) are relatively constant, although as a result of some fixed expenses, profit margins (before loss expense) should nominally improve as premium revenues increase. Pretax margins for the three and nine months ended September 30, 2018 were 5.0% and 7.3%, respectively, compared with 5.2% and 7.5% in the respective periods of the prior year.

#### Corporate

(in thousands, except percentages)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2018	2017	\$ Change	% Change	2018	2017	\$ Change	% Change
<b>Revenues</b>								
Net investment income	\$4,461	\$4,108	\$353	8.6	% \$5,488	\$10,872	\$(5,384)	(49.5)%
	4,461	4,108	353	8.6	5,488	10,872	(5,384)	(49.5)
<b>Expenses</b>								
Personnel costs	4,858	3,622	1,236	34.1	8,981	11,758	(2,777)	(23.6)
Other operating expenses	8,297	161,664	(153,367)	(94.9)	25,533	191,221	(165,688)	(86.6)

Depreciation and amortization	38	38	—	—	115	124	(9	)	(7.3	)
Interest	8,421	8,199	222	2.7	25,024	24,298	726		3.0	
	21,614	173,523	(151,909)	(87.5	)	59,653	227,401	(167,748)	(73.8	)

Loss before income

taxes                    \$(17,153)   \$169,415   \$152,262   89.9   %   \$(54,165)   \$(216,529)   \$162,364   75.0   %

Net investment income totaled \$4.5 million and \$5.5 million for the three and nine months ended September 30, 2018, respectively, compared with \$4.1 million and \$10.9 million for the respective periods of the prior year. The increase in net investment income for the three months ended September 30, 2018 was primarily attributable to higher interest income earned on the Company's cash balances. The decline in net investment income for the nine months ended September 30, 2018 was primarily attributable to lower earnings on investments in the Company's deferred compensation plan when compared to the same period of 2017, partially offset by higher interest income earned on the Company's cash balances.

Corporate personnel costs and other operating expenses were \$13.2 million and \$34.5 million for the three and nine months ended September 30, 2018, respectively, compared with \$165.3 million and \$203.0 million for the respective periods of the prior year. The decreases were primarily attributable to pension settlement costs of \$152.4 million that the Company recognized during the third quarter of 2017 upon completing the termination of its funded defined benefit pension plans.

Interest expense was \$8.4 million and \$25.0 million for the three and nine months ended September 30, 2018, respectively, increases of \$0.2 million, or 2.7%, and \$0.7 million, or 3.0%, when compared with the respective periods of the prior year. The increases were due to an increase in the interest rate on borrowings under the Company's credit facility. Borrowings under the credit facility bear interest at a variable rate, which increased in 2018 when compared to 2017.

#### Eliminations

The Company's inter-segment eliminations were not material for the three and nine months ended September 30, 2018 and 2017.

#### INCOME TAXES

The Company's effective income tax rates (income tax expense as a percentage of income before income taxes) were 22.6% and 22.0% for the three and nine months ended September 30, 2018, respectively, compared with -17.9% and 29.7% for the respective periods of the prior year. The difference in the effective tax rates is primarily due to the reduction in the federal income tax rate from 35% to 21% as a result of the Tax Reform Act, and the effective tax rates for 2017 also reflect state tax benefits relating to the termination of the Company's pension plan, as well as the release of reserves relating to tax positions taken on prior year tax returns.

The Company evaluates the realizability of its deferred tax assets by assessing the valuation allowance and makes adjustments to the allowance as necessary. The factors used to assess the likelihood of realization include the Company's forecast of future taxable income and available tax planning strategies that could be implemented to realize the deferred tax assets. The Company's ability or failure to achieve forecasted taxable income in the applicable taxing jurisdictions could affect the ultimate realization of deferred tax assets. Based on actual future operating results in certain jurisdictions, it is possible that the current valuation allowance positions of those jurisdictions could be adjusted in the next 12 months.

#### NET INCOME AND NET INCOME ATTRIBUTABLE TO THE COMPANY

Net income for the three and nine months ended September 30, 2018 was \$151.5 million and \$382.7 million, respectively, compared with \$21.2 million and \$201.2 million for the respective periods of the prior year. Net income attributable to the Company for the three and nine months ended September 30, 2018 was \$151.5 million, or \$1.34 per diluted share, and \$382.8 million, or \$3.38 per diluted share, respectively, compared with \$21.4 million, or \$0.19 per diluted share, and \$201.9 million, or \$1.80 per diluted share, for the respective periods of the prior year.

#### LIQUIDITY AND CAPITAL RESOURCES

**Cash requirements.** The Company generates cash primarily from the sale of its products and services and investment income. The Company's current cash requirements include operating expenses, taxes, payments of principal and interest on its debt, capital expenditures, dividends on its common stock, and may include business acquisitions and repurchases of its common stock. Management forecasts the cash needs of the holding company and its primary subsidiaries and regularly reviews their short-term and long-term projected sources and uses of funds, as

well as the asset, liability, investment and cash flow assumptions underlying such forecasts. Based on the Company's ability to generate cash flows from operations, its liquid-asset position and amounts available on its revolving credit facility, management believes that its resources are sufficient to satisfy its anticipated operational cash requirements and obligations for at least the next twelve months.

The substantial majority of the Company's business is dependent upon activity in the real estate and mortgage markets, which are cyclical and seasonal. Periods of increasing interest rates and reduced mortgage financing availability generally have an adverse effect on residential real estate activity and therefore typically decrease the Company's revenues. In contrast, periods of declining interest rates and increased mortgage financing availability generally have a positive effect on residential real estate activity, which typically increases the Company's revenues. Residential purchase activity is typically slower in the winter months with increased volumes in the spring and summer months. Residential refinance activity is typically more volatile than purchase activity and is highly impacted by changes in interest rates. Commercial real estate volumes are less sensitive to changes in interest rates, but fluctuate based on local supply and demand conditions for space and mortgage financing availability.

Cash provided by operating activities totaled \$484.9 million and \$455.5 million for the nine months ended September 30, 2018 and 2017, respectively, after claim payments, net of recoveries, of \$334.0 million and \$351.4 million, respectively. The principal nonoperating uses of cash and cash equivalents for the nine months ended September 30, 2018 and 2017 were purchases of debt and equity securities, dividends to common stockholders, capital expenditures, business acquisitions and, for the nine months ended September 30, 2018, advances under secured financing agreements and repayments of secured financings payable. The most significant nonoperating sources of cash and cash equivalents for the nine months ended September 30, 2018 and 2017 were proceeds from the sales and maturities of debt and equity securities and increases in the deposit balances at the Company's banking operations and, for the nine months ended September 30, 2018, borrowings under secured financing agreements and collections of secured financings receivable. The net effect of all activities on total cash and cash equivalents were increases of \$818.1 million and \$135.8 million for the nine months ended September 30, 2018 and 2017, respectively.

The Company continually assesses its capital allocation strategy, including decisions relating to dividends, stock repurchases, capital expenditures, acquisitions and investments. In August 2018, the Company's board of directors approved an increase in the Company's quarterly cash dividend to 42 cents per common share, representing an 11% increase from the prior level of 38 cents per common share. The dividend increase became effective beginning with the September 2018 dividend. Management expects that the Company will continue to pay quarterly cash dividends at or above the current level. The timing, declaration and payment of future dividends, however, falls within the discretion of the Company's board of directors and will depend upon many factors, including the Company's financial condition and earnings, the capital requirements of the Company's businesses, restrictions imposed by applicable law and any other factors the board of directors deems relevant from time to time.

In March 2014, the Company's board of directors approved an increase in the size of the Company's stock repurchase plan from \$150.0 million to \$250.0 million, of which \$182.4 million remained as of September 30, 2018. Purchases may be made from time to time by the Company in the open market at prevailing market prices or in privately negotiated transactions. The Company did not repurchase any shares of its common stock during the nine months ended September 30, 2018 and, as of September 30, 2018, had repurchased and retired 3.2 million shares of its common stock under the current authorization for a total purchase price of \$67.6 million.

**Holding Company.** First American Financial Corporation is a holding company that conducts all of its operations through its subsidiaries. The holding company's current cash requirements include payments of principal and interest on its debt, taxes, payments in connection with employee benefit plans, dividends on its common stock and other expenses. The holding company is dependent upon dividends and other payments from its operating subsidiaries to meet its cash requirements. The Company's target is to maintain a cash balance at the holding company equal to at least twelve months of estimated cash requirements. At certain points in time, the actual cash balance at the holding company may vary from this target due to, among other factors, the timing and amount of cash payments made and dividend payments received. Pursuant to insurance and other regulations under which the Company's insurance subsidiaries operate, the amount of dividends, loans and advances available to the holding company is limited, principally for the protection of policyholders. As of September 30, 2018, under such regulations, the maximum

amount available to the holding company from its insurance subsidiaries for the remainder of 2018, without prior approval from applicable regulators, was dividends of \$230.2 million and loans and advances of \$95.9 million. However, the timing and amount of dividends paid by the Company's insurance subsidiaries to the holding company falls within the discretion of each insurance subsidiary's board of directors and will depend upon many factors, including the level of total statutory capital and surplus required to support minimum financial strength ratings by certain rating agencies. Such restrictions have not had, nor are they expected to have, an impact on the holding company's ability to meet its cash obligations.

The Tax Reform Act amended the Internal Revenue Code to reduce U.S. tax rates and modify policies, credits and deductions for individuals and businesses. While the changes resulting from the Tax Reform Act are broad and complex and will require additional analysis, the Company expects that the Tax Reform Act will continue to have an overall favorable impact on its effective tax rate resulting in less cash required for tax payments in future periods. In addition, the Tax Reform Act moves the U.S. to a partial territorial tax system, which as a result, will reduce the tax costs associated with future distributions of earnings from foreign subsidiaries.

As of September 30, 2018, the holding company's sources of liquidity included \$152.9 million of cash and cash equivalents and \$540.0 million available on the Company's revolving credit facility. Management believes that liquidity at the holding company is sufficient to satisfy anticipated cash requirements and obligations for at least the next twelve months.

**Financing.** The Company maintains a credit agreement with JPMorgan Chase Bank, N.A. in its capacity as administrative agent and the lenders party thereto. The credit agreement is comprised of a \$700.0 million revolving credit facility. Unless terminated earlier, the revolving loan commitments under the credit agreement will terminate on May 14, 2019. The obligations of the Company under the credit agreement are neither secured nor guaranteed. Proceeds under the credit agreement may be used for general corporate purposes. At September 30, 2018, outstanding borrowings under the facility totaled \$160.0 million at an interest rate of 3.87%.

The credit agreement includes an expansion option that permits the Company, subject to satisfaction of certain conditions, to increase the revolving commitments and/or add term loan tranches ("Incremental Term Loans") in an aggregate amount not to exceed \$150.0 million. Incremental Term Loans, if made, may not mature prior to the revolving commitment termination date, provided that amortization may occur prior to such date.

At the Company's election, borrowings under the credit agreement bear interest at either (a) the Alternate Base Rate plus the applicable spread or (b) the Adjusted LIBOR rate plus the applicable spread (in each case as defined in the agreement). The Company may select interest periods of one, two, three or six months or (if agreed to by all lenders) such other number of months for Eurodollar borrowings of loans. The applicable spread varies depending upon the debt rating assigned by Moody's Investor Service, Inc. and/or Standard & Poor's Rating Services. The minimum applicable spread for Alternate Base Rate borrowings is 0.625% and the maximum is 1.00%. The minimum applicable spread for Adjusted LIBOR rate borrowings is 1.625% and the maximum is 2.00%. The rate of interest on Incremental Term Loans will be established at or about the time such loans are made and may differ from the rate of interest on revolving loans.

The credit agreement includes representations and warranties, reporting covenants, affirmative covenants, negative covenants, financial covenants and events of default customary for financings of this type. Upon the occurrence of an event of default the lenders may accelerate the loans. Upon the occurrence of certain insolvency and bankruptcy events of default the loans will automatically accelerate. As of September 30, 2018, the Company was in compliance with the financial covenants under the credit agreement.

In addition to amounts available under its credit facility, certain subsidiaries of the Company are parties to master repurchase agreements which are used as part of the Company's liquidity management activities and to support its risk management activities. In particular, securities loaned or sold under repurchase agreements may be used as short-term funding sources. During the nine months ended September 30, 2018, the Company financed securities for funds received totaling \$10.0 million under these agreements. As of September 30, 2018, no amounts remained outstanding under these agreements.

In addition to being a party to master repurchase agreements, the Company's federal savings bank subsidiary, First American Trust, FSB, maintains a secured line of credit with the Federal Home Loan Bank and federal funds lines of credit with certain correspondent institutions. As of September 30, 2018, no amounts remained outstanding under any of these facilities.

In May 2018, the Company purchased a small, specialized warehouse lender that provides financing for correspondent mortgage lenders. The business has itself secured warehouse lending facilities with several banking institutions. The mortgage loans are generally sold, and the lending facilities are generally repaid, within 30 days and more typically in less than 10 days. The combined capacity for the warehouse lending facilities totals \$123.0 million with one additional warehouse lending facility having no stated capacity. Interest rates for the warehouse lending facilities range from 3.50% to the current prime lending rate as published by The Wall Street Journal. At September 30, 2018, outstanding borrowings under the facilities totaled \$86.5 million.

Notes and contracts payable and secured financings payable as a percentage of total capitalization was 18.6% and 17.4% at September 30, 2018 and December 31, 2017, respectively. Notes and contracts payable as a percentage of total capitalization (excluding secured financings payable) was 16.7% and 17.4% at September 30, 2018 and December 31, 2017, respectively.

**Investment Portfolio.** The Company maintains a high quality, liquid investment portfolio that is primarily held at its insurance and banking subsidiaries. As of September 30, 2018, 93% of the Company's investment portfolio consisted of fixed income securities, of which 64% were United States government-backed or rated AAA and 95% were rated or classified as investment grade. Percentages are based on the estimated fair values of the securities. Credit ratings reflect published ratings obtained from globally recognized securities rating agencies. If a security was rated differently among the rating agencies, the lowest rating was selected. For further information on the credit quality of the Company's investment portfolio at September 30, 2018, see Note 4 Debt and Equity Securities to the condensed consolidated financial statements.

In addition to its debt and equity securities portfolio, the Company maintains certain money-market and other short-term investments.

**Off-balance sheet arrangements.** The Company administers escrow deposits and trust assets as a service to its customers. Escrow deposits totaled \$8.9 billion and \$7.5 billion at September 30, 2018 and December 31, 2017, respectively, of which \$4.4 billion and \$2.9 billion, respectively, were held at First American Trust, FSB. The escrow deposits held at First American Trust, FSB are temporarily invested in cash and cash equivalents and debt securities, with offsetting liabilities included in deposits in the accompanying condensed consolidated balance sheets. The remaining escrow deposits were held at third-party financial institutions.

Trust assets held or managed by First American Trust, FSB totaled \$3.8 billion and \$3.7 billion at September 30, 2018 and December 31, 2017, respectively. Escrow deposits held at third-party financial institutions and trust assets are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. However, the Company could be held contingently liable for the disposition of these assets.

In conducting its operations, the Company often holds customers' assets in escrow, pending completion of real estate transactions and, as a result, the Company has ongoing programs for realizing economic benefits with various financial institutions. The results from these programs are included in the condensed consolidated financial statements as income or a reduction in expense, as appropriate, based on the nature of the arrangement and benefit received.

The Company facilitates tax-deferred property exchanges for customers pursuant to Section 1031 of the Internal Revenue Code and tax-deferred reverse exchanges pursuant to Revenue Procedure 2000-37. As a facilitator and intermediary, the Company holds the proceeds from sales transactions and takes temporary title to property identified by the customer to be acquired with such proceeds. Upon the completion of each such exchange, the identified property is transferred to the customer or, if the exchange does not take place, an amount equal to the sales proceeds or, in the case of a reverse exchange, title to the property held by the Company is transferred to the customer. Like-kind exchange funds held by the Company totaled \$2.6 billion at September 30, 2018 and December 31, 2017. The like-kind exchange deposits are held at third-party financial institutions and, due to the structure utilized to facilitate these transactions, the proceeds and property are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. All such amounts are placed in deposit accounts insured, up to applicable limits, by the Federal Deposit Insurance Corporation. The Company could be held contingently liable to the customer for the transfers of property, disbursements of proceeds and the returns on such proceeds.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company's primary exposure to market risk relates to interest rate risk associated with certain financial instruments. Although the Company monitors its risk associated with fluctuations in interest rates, it does not currently use derivative financial instruments on any significant scale to hedge these risks.

There have been no material changes in the Company's market risks since the filing of its Annual Report on Form 10-K for the year ended December 31, 2017.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company's chief executive officer and chief financial officer have concluded that, as of September 30, 2018, the end of the quarterly period covered by this Quarterly Report on Form 10-Q, the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended, were effective, based on the evaluation of these controls and procedures required by Rule 13a-15(b) thereunder.

## Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting during the quarter ended September 30, 2018, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II: OTHER INFORMATION

### Item 1. Legal Proceedings.

The Company and its subsidiaries are parties to a number of non-ordinary course lawsuits. These lawsuits frequently are similar in nature to other lawsuits pending against the Company's competitors.

For those non-ordinary course lawsuits where the Company has determined that a loss is both probable and reasonably estimable, a liability representing the best estimate of the Company's financial exposure based on known facts has been recorded. Actual losses may materially differ from the amounts recorded.

For a substantial majority of these lawsuits, however, it is not possible to assess the probability of loss. Most of these lawsuits are putative class actions which require a plaintiff to satisfy a number of procedural requirements before proceeding to trial. These requirements include, among others, demonstration to a court that the law proscribes in some manner the Company's activities, the making of factual allegations sufficient to suggest that the Company's activities exceeded the limits of the law and a determination by the court—known as class certification—that the law permits a group of individuals to pursue the case together as a class. In certain instances the Company may also be able to compel the plaintiff to arbitrate its claim on an individual basis. If these procedural requirements are not met, either the lawsuit cannot proceed or, as is the case with class certification or compelled arbitration, the plaintiffs lose the financial incentive to proceed with the case (or the amount at issue effectively becomes *de minimis*). Frequently, a court's determination as to these procedural requirements is subject to appeal to a higher court. As a result of, among other factors, ambiguities and inconsistencies in the myriad laws applicable to the Company's business and the uniqueness of the factual issues presented in any given lawsuit, the Company often cannot determine the probability of loss until a court has finally determined that a plaintiff has satisfied applicable procedural requirements.

Furthermore, because most of these lawsuits are putative class actions, it is often impossible to estimate the possible loss or a range of loss amounts, even where the Company has determined that a loss is reasonably possible. Generally class actions involve a large number of people and the effort to determine which people satisfy the requirements to become plaintiffs—or class members—is often time consuming and burdensome. Moreover, these lawsuits raise complex factual issues which result in uncertainty as to their outcome and, ultimately, make it difficult for the Company to estimate the amount of damages which a plaintiff might successfully prove. In addition, many of the Company's businesses are regulated by various federal, state, local and foreign governmental agencies and are subject to numerous statutory guidelines. These regulations and statutory guidelines often are complex, inconsistent or ambiguous, which results in additional uncertainty as to the outcome of a given lawsuit—including the amount of damages a plaintiff might be afforded—or makes it difficult to analogize experience in one case or jurisdiction to another case or jurisdiction.

Most of the non-ordinary course lawsuits to which the Company and its subsidiaries are parties challenge practices in the Company's title insurance business, though a limited number of cases also pertain to the Company's other businesses. These lawsuits include, among others, cases alleging, among other assertions, that the Company or one of its subsidiaries engaged in improper debt collection practices, improperly charged fees for products and services, participated in the conveyance of illusory property interests, improperly handled property and casualty claims and

Edgar Filing: First American Financial Corp - Form 10-Q

gave items of value to builders as inducements to refer business in violation of certain laws, such as consumer protection laws and laws generally prohibiting unfair business practices, and certain obligations, including:

•Bartine v. First American Title Insurance Company, et al., filed on August 17, 2018 and pending in the United States District Court for the Middle District of Florida,

•Chavez v. First American Specialty Insurance Company, filed on June 29, 2017 and pending in the Superior Court of the State of California, County of Los Angeles,

•Lennen v. First American Financial Corporation, et al., filed on May 19, 2016 and pending in the United States District Court for the Middle District of Florida,

•Tenefufu vs. First American Specialty Insurance Company, filed on June 1, 2017 and pending in the Superior Court of the State of California, County of Sacramento, and

48

---

•*Wilmot v. First American Financial Corporation, et al.*, filed on April 20, 2007 and pending in the Superior Court of the State of California, County of Los Angeles.

All of these lawsuits are putative class actions for which a class has not been certified. For the reasons described above, the Company has not yet been able to assess the probability of loss or estimate the possible loss or the range of loss or, where the Company has been able to make an estimate, the Company believes the amount is not material to the condensed consolidated financial statements as a whole.

While some of the lawsuits described above may be material to the Company's operating results in any particular period if an unfavorable outcome results, the Company does not believe that any of these lawsuits will have a material adverse effect on the Company's overall financial condition or liquidity.

The Company also is a party to non-ordinary course lawsuits other than those described above. With respect to these lawsuits, the Company has determined either that a loss is not reasonably possible or that the estimated loss or range of loss, if any, is not material to the condensed consolidated financial statements as a whole.

The Company's title insurance, property and casualty insurance, home warranty, banking, thrift, trust and wealth management businesses are regulated by various federal, state and local governmental agencies. Many of the Company's other businesses operate within statutory guidelines. Consequently, the Company may from time to time be subject to examination or investigation by such governmental agencies. Currently, governmental agencies are examining or investigating certain of the Company's operations. These exams or investigations include inquiries into, among other matters, pricing and rate setting practices in the title insurance industry, competition in the title insurance industry, real estate settlement service, customer acquisition and retention practices and agency relationships. With respect to matters where the Company has determined that a loss is both probable and reasonably estimable, the Company has recorded a liability representing its best estimate of the financial exposure based on known facts. While the ultimate disposition of each such exam or investigation is not yet determinable, the Company does not believe that individually or in the aggregate they will have a material adverse effect on the Company's financial condition, results of operations or cash flows. These exams or investigations could, however, result in changes to the Company's business practices which could ultimately have a material adverse impact on the Company's financial condition, results of operations or cash flows.
