EXPLANATORY NOTE

PBF Logistics LP ("PBFX" or the "Partnership") is a Delaware limited partnership formed in February 2013. PBF Logistics GP LLC ("PBF GP" or "our general partner") serves as the general partner of PBFX. PBF GP is wholly-owned by PBF Energy Company LLC ("PBF LLC"). PBF Energy Inc. ("PBF Energy") is the sole managing member of PBF LLC and as of June 30, 2015 owned 94.3% of the total economic interest in PBF LLC. In addition, PBF LLC is the sole managing member of PBF Holding Company LLC ("PBF Holding"), a Delaware limited liability company and affiliate of PBFX. On May 14, 2014, PBFX completed its initial public offering (the "Offering"). PBF LLC holds a 53.8% limited partner interest in PBFX and owns all of PBFX's incentive distribution rights, with the remaining 46.2% limited partner interest owned by public unit holders as of June 30, 2015.

Unless the context otherwise requires, references in this Quarterly Report on Form 10-Q (this "Form 10-Q") to "Predecessor," and "we," "our," "us," or like terms, when used in the context of periods prior to May 14, 2014, refer to PBF MLP Predecessor, our predecessor for accounting purposes, which includes assets, liabilities and results of operations of certain crude oil and refined product transportation, terminaling and storage assets, previously operated and owned by PBF Holding's subsidiaries Delaware City Refining Company LLC ("DCR"), Toledo Refining Company LLC ("TRC") and PBF Holding's previously held subsidiary Delaware Pipeline Company ("DPC"). PBF Holding, together with its subsidiaries, owns and operates three oil refineries and related

facilities in North America. PBF Energy, through its ownership of PBF LLC, controls all of the business and affairs of PBFX and PBF Holding.

On September 30, 2014, the Partnership acquired from PBF LLC the Delaware City West Heavy Unloading Rack (the "DCR West Rack"), a heavy crude oil rail unloading facility at the Delaware City refinery with total throughput capacity of at least 40,000 barrels per day ("bpd"). In addition, on December 11, 2014, the Partnership acquired from PBF LLC a tank farm and related facilities located at PBF Energy's Toledo refinery, including a propane storage and loading facility (the "Toledo Storage Facility"). Furthermore, on May 14, 2015, the Partnership acquired from PBF LLC a 23.4 mile, 16-inch interstate petroleum products pipeline with capacity in excess of 125,000 bpd (the "Delaware City Products Pipeline") and a 15-lane, 76,000 bpd capacity truck loading rack (the "Delaware City Truck Rack") located at PBF Holding's Delaware City, Delaware refinery. Delaware City Products Pipeline and Delaware City Truck Rack are collectively referred to as the "Delaware City Products Pipeline and Truck Rack." The transactions entered into after the Offering are collectively referred to as "Acquisitions from PBF." The Acquisitions from PBF were transfers between entities under common control. Accordingly, the financial information of the Predecessor and the Partnership contained herein have been retrospectively adjusted to include the historical results of the Acquisitions from PBF for all periods presented prior to the effective date of each transaction.

References in this Form 10-Q to "PBF Logistics LP," "PBFX," the "Partnership" and "we," "our," "us," or like terms used in the context of periods on or after May 14, 2014, refer to PBF Logistics LP and its subsidiaries.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Form 10-Q (including information incorporated by reference) contains certain "forward-looking statements," as defined in the Private Securities Litigation Reform Act of 1995, of expected future developments that involve risks and uncertainties. You can identify forward-looking statements because they contain words such as "believes," "expects," "may," "should," "seeks," "approximately," "intends," "plans," "estimates," or "anticipates" or similar expressions that relate t strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as "cautionary statements," are disclosed under "Item 1A. Risk Factors", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2014, which we refer to as our 2014 Form 10-K, and in our other filings with the U.S. Securities and Exchange Commission ("SEC"). All forward-looking information in this Form 10-Q and subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include: our limited operating history as a separate public partnership;

changes in general economic conditions;

our ability to make, complete and integrate acquisitions from affiliates or third parties;

our ability to have sufficient cash from operations to enable us to pay the minimum quarterly distribution;

competitive conditions in our industry;

actions taken by our customers and competitors;

the supply of, and demand for, crude oil, refined products and logistics services;

our ability to successfully implement our business plan;

our dependence on PBF Energy for all of our revenues and, therefore, we are subject to the business risks of PBF Energy;

all of our revenue is generated at two of PBF Energy's facilities, and any adverse development at either facility could have a material adverse effect on us;

our ability to complete internal growth projects on time and on budget;

the price and availability of debt and equity financing;

operating hazards and other risks incidental to handling crude oil and petroleum products;

natural disasters, weather-related delays, casualty losses and other matters beyond our control;

interest rates;

labor relations;

changes in the availability and cost of capital;

the effects of existing and future laws and governmental regulations, including those related to the shipment of crude oil by trains;

changes in insurance markets impacting costs and the level and types of coverage available;

the timing and extent of changes in commodity prices and demand for PBF Energy's refined products and the differential in the prices of different crude oils;

the suspension, reduction or termination of PBF Energy's obligations under our commercial agreements;

disruptions due to equipment interruption or failure at our facilities, PBF Energy's facilities or third-party facilities on which our business is dependent;

incremental costs as a stand-alone public company;

our general partner and its affiliates, including PBF Energy, have conflicts of interest with us and limited duties to us and our unitholders, and they may favor their own interests to the detriment of us and our other common unitholders; our partnership agreement restricts the remedies available to holders of our common units for actions taken by our general partner that might otherwise constitute breaches of fiduciary duty;

holders of our common units have limited voting rights and are not entitled to elect our general partner or its directors; our tax treatment depends on our status as a partnership for U.S. federal income tax purposes, as well as our not being subject to a material amount of entity level taxation by individual states;

changes at any time (including on a retroactive basis) in the tax treatment of publicly traded partnerships or an investment in our common units;

our unitholders will be required to pay taxes on their share of our taxable income even if they do not receive any cash distributions from us;

the effects of future litigation; and

other factors discussed elsewhere in this Form 10-Q.

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this Form 10-Q may not in fact occur. Accordingly, investors should not place undue reliance on those statements.

Our forward-looking statements speak only as of the date of this Form 10-Q. Except as required by applicable law, including the securities laws of the United States, we undertake no obligation to update or revise any forward-looking statements. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing.

1. DESCRIPTION OF THE BUSINESS AND BASIS OF PRESENTATION

PBF Logistics LP ("PBFX" or the "Partnership") is a Delaware limited partnership formed in February 2013. PBF Logistics GP LLC ("PBF GP" or "our general partner") serves as the general partner of PBFX. PBF GP is wholly-owned by PBF Energy Company LLC ("PBF LLC"). PBF Energy Inc. ("PBF Energy") is the sole managing member of PBF LLC and as of June 30, 2015 owned 94.3% of the total economic interest in PBF LLC. In addition, PBF LLC is the sole managing member of PBF Holding Company LLC ("PBF Holding"), a Delaware limited liability company and affiliate of PBFX. On May 14, 2014, PBFX completed its initial public offering (the "Offering") of 15,812,500 common units (including 2,062,500 common units issued pursuant to the exercise of the underwriters' over-allotment option). PBF LLC holds a 53.8% limited partner interest in PBFX and owns all of PBFX's incentive distribution rights ("IDR"), with the remaining 46.2% limited partner interest owned by public unit holders as of June 30, 2015.

PBFX engages in the receiving, handling and transferring of crude oil and the receipt, storage and delivery of crude oil, refined products and intermediates. The Partnership does not take ownership of or receive any payments based on the value of the crude oil or products that it handles and does not engage in the trading of any commodities. PBFX's assets are integral to the operations of PBF Energy's refineries located in Toledo, Ohio, Delaware City, Delaware and Paulsboro, New Jersey. Subsequent to the Offering, PBFX generates all of its revenues from transactions with PBF Holding.

In connection with the Offering, PBF LLC contributed the assets, liabilities and results of operations of certain crude oil terminaling assets to the Partnership. The assets were owned and operated by PBF Holding's subsidiaries, Delaware City Refining Company LLC ("DCR") and Toledo Refining Company LLC ("TRC"), and were contributed to the Partnership in connection with the Offering. PBF Holding, together with its subsidiaries, owns and operates three oil refineries and related facilities in North America. PBF Energy, through its ownership in PBF LLC, controls all of the business affairs of PBFX and PBF Holding.

PBFX's initial assets consisted of the Delaware City Rail Unloading Terminal ("DCR Rail Terminal"), which was part of PBF Holding's Delaware City, Delaware refinery, and the Toledo Truck Unloading Terminal ("Toledo Truck Terminal"), which was part of PBF Holding's Toledo, Ohio refinery, which together with the DCR Rail Terminal, we refer to as the IPO Assets. In connection with the Offering, the IPO Assets were distributed from PBF Holding to PBF LLC. The DCR Rail Terminal consists of a double loop track and ancillary pumping and unloading equipment. Construction of the DCR Rail Terminal began in July 2012 and it commenced operations in February 2013. The Toledo Truck Terminal commenced operations in December 2012 with one lease automatic custody transfer ("LACT") unit. Two additional LACT units were made operational in May 2013. In July 2013, a fourth LACT unit was purchased that had previously been owned and operated at the Toledo Truck Terminal by a vendor in connection with a crude oil supply agreement. The IPO Assets, along with the LACT units placed into service in June 2014, operate within the totality of the Toledo refinery and adjacent to the Delaware City refinery. The IPO Assets did not generate third party or affiliate revenue prior to the Offering. However, subsequent to the Offering, both of the IPO Assets have generated affiliate revenue.

On September 30, 2014, the Partnership acquired from PBF LLC the Delaware City West Heavy Unloading Rack (the "DCR West Rack"), a heavy crude oil rail unloading facility at the Delaware City refinery with total throughput capacity of at least 40,000 barrels per day ("bpd"). In addition, on December 11, 2014, the Partnership acquired from PBF LLC a tank farm and related facilities located at PBF Energy's Toledo refinery, including a propane storage and loading facility (the "Toledo Storage Facility"). Furthermore, on May 14, 2015, the Partnership acquired from PBF LLC a 23.4 mile, 16-inch interstate petroleum products pipeline with capacity in excess of 125,000 bpd (the "Delaware City

Products Pipeline") and a 15-lane, 76,000 bpd capacity truck loading rack (the "Delaware City Truck Rack") located at PBF Holding's Delaware City, Delaware refinery. The Delaware City Products Pipeline and the Delaware City Truck Rack are collectively referred to as the "Delaware City Products Pipeline and Truck Rack." These transactions are collectively referred to as "Acquisitions from PBF." Subsequent to the Acquisitions from PBF, the DCR Rail Terminal, Toledo Truck Terminal, DCR West Rack, Toledo Storage

PBF LOGISTICS LP NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT PER BARREL AND UNIT DATA)

Facility and Delaware City Products Pipeline and Truck Rack are collectively referred to as the "Contributed Assets."

The Acquisitions from PBF were a transfer of assets between entities under common control. Accordingly, the accompanying financial statements and related notes of the PBF MLP Predecessor (the "Predecessor"), our predecessor for accounting purposes, and the Partnership have been retrospectively adjusted to include the historical results of the DCR West Rack, Toledo Storage Facility and Delaware City Products Pipeline and Truck Rack for all periods presented prior to the effective date of each transaction. The financial statements of our Predecessor, the DCR West Rack, Toledo Storage Facility and Delaware City Products Pipeline and Truck Rack have been prepared from the separate records maintained by subsidiaries of PBF Energy and may not necessarily be indicative of the conditions that would have existed or the results of operations if they were operated as an unaffiliated company. Portions of certain expenses represent allocations made from corporate expenses applicable to PBF Energy as a whole. See Note 2 of the Notes to Condensed Consolidated Financial Statements in this Form 10-O for further discussion. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, PBFX has included all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and the results of operations and cash flows of PBFX and the Predecessor, as applicable, for the periods presented. The results of operations for the three and six months ended June 30, 2015 and 2014 are not necessarily indicative of the results that may be expected for the full year.

The financial statements presented in this Form 10-Q include the condensed consolidated financial results of the Predecessor for the period presented prior to May 13, 2014, and the condensed consolidated financial results of PBFX for the period beginning after May 14, 2014, the completion date of the Offering. The Predecessor did not historically operate its respective assets for the purpose of generating revenues independent of other PBF Energy businesses prior to the Offering or for assets acquired in the Acquisitions from PBF, with the exception of the Delaware City Products Pipeline, prior to the effective dates of each transaction. All intercompany accounts and transactions have been eliminated. The balance sheet as of June 30, 2015 presents solely the consolidated financial position of PBFX.

Recent Accounting Pronouncements

In April 2015, the FASB issued ASU No. 2015-03, "Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs" ("ASU 2015-03"), which requires debt issuance costs related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the debt liability rather than as an asset. The standard is effective for interim and annual periods beginning after December 15, 2015 and early adoption is permitted. The Partnership is currently evaluating the impact of this new standard on its condensed consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-06, "Earnings Per Share (Topic 260): Effects on Historical Earnings per Unit of Master Limited Partnership Dropdown Transactions" ("ASU 2015-06"), which specifies that for purposes of calculating historical earnings per unit under the two-class method, the earnings (losses) of a transferred business before the date of a dropdown transaction should be allocated entirely to the general partner. The standard is effective for interim and annual periods beginning after December 15, 2015 and early adoption is permitted. The Partnership believes that its current methodology for calculating earnings per unit is in compliance with the requirements of ASU 2015-06, but will continue to evaluate whether the adoption will have any impact on its consolidated financial statements or disclosures.

2. ACQUISTIONS

During 2014, following the Offering, PBFX completed two acquisitions from PBF LLC, pursuant to which PBFX acquired from PBF LLC the following assets:

the DCR West Rack, which consists of a heavy crude oil rail unloading facility at the Delaware City refinery with total throughput capacity of at least 40,000 bpd (the "DCR West Rack Acquisition"); and

the Toledo Storage Facility, which consists of a tank farm and related facilities, including a propane storage and loading facility, located at PBF Energy's Toledo refinery (the "Toledo Storage Acquisition").

See the Annual Report on Form 10-K for the year ended December 31, 2014 of PBF Logistics LP for additional information regarding the 2014 acquisitions from PBF LLC and the commercial agreements executed in connection with these acquisitions.

On May 5, 2015, the Partnership entered into a contribution agreement between the Partnership and PBF LLC (the "Contribution Agreement"). Pursuant to the Contribution Agreement, PBF LLC contributed to the Partnership all of the issued and outstanding limited liability company interests of Delaware Pipeline Company LLC ("DPC") and Delaware City Logistics Company LLC ("DCLC"), whose assets collectively consist of the Delaware City Products Pipeline and Truck Rack, for total consideration to PBF LLC of \$143,000, consisting of \$112,500 of cash and \$30,500 of Partnership common units, or 1,288,420 common units (the "Delaware City Products Pipeline and Truck Rack Acquisition"). The cash consideration was funded by the Partnership with \$88,000 in proceeds from the Partnership's 6.875% Senior Notes due 2023, sale of approximately \$700 in marketable securities and \$23,800 in borrowings under the Partnership's Revolving Credit Facility (as defined in Note 4). The Delaware City Products Pipeline and Truck Rack Acquisition closed on May 14, 2015. The Partnership borrowed an additional \$700 under its Revolving Credit Facility to repay \$700 of its Term Loan (as defined in Note 4) in order to release the \$700 in marketable securities that had collateralized the Term Loan.

The Delaware City Products Pipeline consists of a 23.4 mile, 16-inch interstate petroleum products pipeline with in excess of 125,000 bpd of capacity located at PBF Holding's Delaware City, Delaware refinery. The pipeline transports refined petroleum products from the Delaware City refinery to Sunoco Logistics Partners, L.P.'s ("Sunoco Logistics") Twin Oaks pump station at Delaware County, PA, with connections to Buckeye Partners, L.P.'s Laurel pipeline and Sunoco Logistics' northeast pipeline systems that serve Western Pennsylvania and New York. The Delaware City Truck Rack consists of a 15-lane, 76,000 bpd capacity truck loading rack utilized to distribute gasoline and distillates. Total transaction costs of approximately \$530 associated with the Delaware City Products Pipeline and Truck Rack Acquisition were expensed as incurred. In connection with such acquisition, the Partnership entered into two commercial agreements with PBF Holding. See Note 11—Related Party Transactions, for a summary of the terms of these agreements.

As the Delaware City Products Pipeline and Truck Rack Acquisition was considered a transfer of businesses between entities under common control, the Delaware City Products Pipeline and Truck Rack was transferred at its historical carrying value, which was \$15,975 as of May 14, 2015. The historical financial statements have been retrospectively adjusted to reflect the results of operations, financial position, and cash flows of the Delaware City Products Pipeline and Truck Rack as if it was owned by the Partnership for all periods presented. Net income attributable to the Delaware City Products Pipeline and Truck Rack prior to the effective Date was allocated entirely to PBF GP as if only PBF GP had rights to that net loss, therefore there is no retrospective adjustment to net income per unit. The following tables present the Partnership's statement of financial position and results of operations after giving effect to the Acquisitions from PBF. For the three and six months ended June 30, 2015 and 2014, respectively, the consolidated results of the DCR West Rack prior to the DCR West Rack Acquisition are included under "DCR

West Rack," the consolidated results of the Toledo Storage Facility prior to the Toledo Storage Acquisition are included under "Toledo Storage Facility," and the consolidated results of the Delaware City Products Pipeline and Truck Rack prior to the Delaware City Products Pipeline and Truck Rack Acquisition are included under "Delaware City Products Pipeline and Truck Rack." The previously reported consolidated results of the DCR Rail Terminal, Toledo Truck Rack, DCR West Rack, Toledo Storage Facility and Delaware City Products Pipeline and Truck Rack subsequent to each acquisition are included in "PBF Logistics LP."

4. DEBT

On May 14, 2014, in connection with the closing of the Offering, the Partnership entered into agreements for a five-year, \$275,000 senior secured revolving credit facility (the "Revolving Credit Facility") and a three-year, \$300,000 term loan facility (the "Term Loan"), each with Wells Fargo Bank, National Association, as administrative agent, and a syndicate of lenders. The Partnership has the ability to increase the maximum amount of the Revolving Credit Facility

up to a total facility size of \$600,000, subject to receiving increased commitments

PBF LOGISTICS LP NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT PER BARREL AND UNIT DATA)

from lenders or other financial institutions and satisfaction of certain conditions. The Revolving Credit Facility was increased from \$275,000 to \$325,000 in December 2014.

The Revolving Credit Facility is available to fund working capital, acquisitions, distributions and capital expenditures and for other general partnership purposes. The Partnership has the ability to increase the maximum amount of the Revolving Credit Facility by an aggregate amount of up to \$275,000, to a total facility size of \$600,000, subject to receiving increased commitments from lenders or other financial institutions and satisfaction of certain conditions. The Revolving Credit Facility includes a \$25,000 sublimit for standby letters of credit and for swingline loans. Obligations under the Revolving Credit Facility and certain cash management and hedging obligations designated by the Partnership are guaranteed by its restricted subsidiaries, and are secured by a first priority lien on the Partnership's assets (including the Partnership's equity interests in its restricted subsidiaries) and the assets of the Partnership's restricted subsidiaries other than excluded assets (as defined in the Revolving Credit Facility) and a guaranty of collection from PBF LLC. The maturity date of the Revolving Credit Facility may be extended for one year on up to two occasions, subject to certain customary terms and conditions. Borrowings under the Revolving Credit Facility bear interest at either a Base Rate (as defined in the Revolving Credit Facility) plus an applicable margin ranging from 0.75% to 1.75%, or at LIBOR plus an applicable margin ranging from 1.75% to 2.75%. The applicable margin will vary based upon the Partnership's Consolidated Total Leverage Ratio, as defined in the Revolving Credit Facility. The Term Loan was used to fund distributions to PBF LLC and is guaranteed by a guaranty of collection from PBF LLC and secured at all times by cash or U.S. Treasury securities in an amount equal to or greater than the outstanding principal amount of the Term Loan. Borrowings under the Term Loan bear interest either at Base Rate (as defined in the Term Loan), or at LIBOR plus an applicable margin equal to 0.25%.

At June 30, 2015, PBFX had \$24,500 of secured indebtedness and \$2,000 of letters of credit outstanding under the Revolving Credit Facility and \$234,200 outstanding under the Term Loan. Both the Revolving Credit Agreement and Term Loan contain covenants that limit or restrict the Partnership's ability to make cash distributions. The Partnership is required to maintain certain financial ratios, each tested on a quarterly basis for the immediately preceding four quarter period.

Senior Secured Notes

On May 12, 2015, the Partnership entered into an Indenture (the "Indenture") among the Partnership, PBF Logistics Finance Corporation, a Delaware corporation and wholly-owned subsidiary of the Partnership ("PBF Finance," and together with the Partnership, the "Issuers"), the Guarantors named therein and Deutsche Bank Trust Company Americas, as Trustee, under which the Issuers issued \$350,000 in aggregate principal amount of 6.875% Senior Notes due 2023 (the "2023 Notes"). The initial purchasers in the offering purchased \$330,090 aggregate principal amount of 2023 Notes pursuant to a private placement transaction conducted under Rule 144A and Regulation S of the Securities Act of 1933, as amended, and certain of PBF Energy's officers and directors and their affiliates and family members purchased the remaining \$19,910 aggregate principal amount of 2023 Notes in a separate private placement transaction. The Issuers received net proceeds of approximately \$343,000 from the offering after deducting the initial purchasers' discount and estimated offering expenses, and used such proceeds to pay \$88,000 of the cash consideration due in connection with Delaware City Products Pipeline and Truck Rack Acquisition and to repay \$255,000 of outstanding indebtedness under the Revolving Credit Facility.

The 2023 Notes are guaranteed on a senior unsecured basis by Delaware City Terminaling, Toledo Terminaling Company LLC ("Toledo Terminaling"), DPC and DCLC (each, a "Guarantor"). In addition, PBF LLC agreed to a limited guarantee of collection of the principal amount of the 2023 Notes, but is not otherwise subject to the covenants of the Indenture. The 2023 Notes are general senior unsecured obligations of the Issuers and are equal in right of payment with all of the Issuers' existing and future senior indebtedness, including amounts outstanding under the Revolving Credit Facility and Term Loan. The 2023 Notes will be senior to any future subordinated indebtedness the Issuers may incur. The 2023 Notes are effectively subordinated to all of the Issuers' and the Guarantors' existing and future secured

debt, including the Revolving Credit Facility and Term Loan, to the extent of the value of the assets securing that secured debt and will be structurally subordinated to all indebtedness of the

Partnership's subsidiaries that do not guarantee the 2023 Notes. The Partnership will pay interest on the 2023 Notes semi-annually in cash in arrears on May 15 and November 15 of each year, beginning on November 15, 2015. The 2023 Notes will mature on May 15, 2023.

The Indenture contains customary terms, events of default and covenants for an issuer of non-investment grade debt securities. These covenants include limitations on the Partnership's and its restricted subsidiaries' ability to, among other things: (i) make investments, (ii) incur additional indebtedness or issue preferred units, (iii) pay dividends or make distributions on units or redeem or repurchase our subordinated debt, (iv) create liens, (v) incur dividend or other payment restrictions affecting subsidiaries, (vi) sell assets, (vii) merge or consolidate with other entities and (viii) enter into transactions with affiliates. These covenants are subject to a number of important limitations and exceptions.

At any time prior to May 15, 2018, the Issuers may on any one or more occasions redeem up to 35% of the aggregate principal amount of the 2023 Notes in an amount not greater than the net cash proceeds of certain equity offerings at a redemption price equal to 106.875% of the principal amount of the 2023 Notes, plus any accrued and unpaid interest to the date of redemption. On or after May 15, 2018, the Issuers may redeem all or part of the 2023 Notes, in each case at the redemption prices described in the Indenture, together with any accrued and unpaid interest to the date of redemption, prior to May 15, 2018, the Issuers may redeem all or part of the 2023 Notes at a "make-whole" redemption price described in the Indenture, together with any accrued and unpaid interest to the date of redemption. In addition, prior to May 15, 2018, the Issuers may redeem all or part of the 2023 Notes at a "make-whole" redemption price described in the Indenture, together with any accrued and unpaid interest to the date of redemption. If the Partnership undergoes certain change of control events, holders of the 2023 Notes will have the right to require the Issuers to purchase all or any part of the 2023 Notes at a price equal to 101% of the aggregate principal amount of the 2023 Notes, together with any accrued and unpaid interest to the date of reinvest such net cash proceeds) to make an offer to purchase the 2023 Notes at 100% of the principal amount, together with any accrued and unpaid interest to the date of purchase.

The Issuers may issue additional 2023 Notes from time to time pursuant to the Indenture.

Fair Value Measurement

A fair value hierarchy (Level 1, Level 2, or Level 3) is used to categorize fair value amounts based on the quality of inputs used to measure fair value. Accordingly, fair values derived from Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities. Fair values derived from Level 2 inputs are based on quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are either directly or indirectly observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Debt or equity securities are classified into the following reporting categories: held-to-maturity, trading or available-for-sale securities. While PBFX does not routinely sell marketable securities prior to their scheduled maturity dates, some of PBFX's investments may be held and restricted for the purpose of funding future capital expenditures and acquisitions. Such investments are classified as available-for-sale marketable securities as they may occasionally be sold prior to their scheduled maturity dates due to the unexpected timing of cash needs. The carrying value of these marketable securities approximates fair value and is measured using Level 1 inputs. The terms of the marketable securities range from one to three months and are classified on the balance sheet as non-current assets. The gross unrecognized holding gains and losses as of June 30, 2015 and December 31, 2014 were not material. As of June 30, 2015, these investments are used as collateral to secure the Term Loan and are intended to be used only to fund future capital expenditures.

The estimated fair values of the Revolving Credit Facility and Term Loan approximates their carrying values, categorized as a Level 2 measurement, as these borrowings bear interest based upon short-term floating market interest rates. The estimated fair value of the 2023 Notes, categorized as a Level 2 measurement, was calculated based on the present value of future expected payments utilizing implied current market interest rates based on quoted prices

of the 2023 Notes and approximates their carrying values at June 30, 2015. The carrying value and

fair value of our debt was approximately \$608,700 and \$510,000 as of June 30, 2015 and December 31, 2014, respectively. The carrying and fair values of our debt do not include the unamortized issuance costs associated with our total debt.

5. EQUITY

PBFX had 15,864,388 common units held by the public outstanding as of June 30, 2015. PBF Energy owns 2,572,944 of PBFX's common units and 15,886,553 of PBFX's subordinated units constituting an aggregate of 53.8% of PBFX's limited partner interest. In accordance with PBFX's partnership agreement, PBF Energy's subordinated units will convert into common units on a one-for-one basis once PBFX has met specified distribution targets and successfully completed other tests set forth in PBFX's partnership agreement.

Issuance of Additional Interests

PBFX's partnership agreement authorizes PBFX to issue an unlimited number of additional partnership interests for the consideration and on the terms and conditions determined by PBFX's general partner without the approval of the unitholders. In the second quarter of 2015, 59,507 of the Partnership's phantom units issued under the PBFX 2014 long-term incentive plan vested into common units held by members of management and directors. In addition, on May 14, 2015, PBFX partially funded the Delaware City Products Pipeline and Truck Rack Acquisition with \$30,500 of Partnership common units, or 1,288,420 common units. It is possible that PBFX will fund future acquisitions through the issuance of additional common units, subordinated units or other partnership interests. Holders of any additional common units PBFX issues will be entitled to share equally with the then-existing common unitholders in PBFX's distributions of available cash.

Equity Activity

The summarized changes in the carrying amount of our equity during the six months ended June 30, 2015 are as follows:

	Net Investment	Common Units - Public	Common Units - PBF	Subordinated Units - PBF	IDR	Total	
Balance at December 31, 2014 Net income attributable to	\$15,713	\$336,369	\$(167,787)) \$(288,875)		\$(104,580)

Balance at June 30, 2015	\$—	\$332,786	\$(250,314)) \$(282,383)	\$(30)	\$(199,941)	

Allocations of Net Income

PBFX's partnership agreement contains provisions for the allocation of net income and loss to the unitholders. For purposes of maintaining partner capital accounts, PBFX's partnership agreement specifies that items of income and loss shall be allocated among the partners in accordance with their respective percentage interest. Normal allocations according to percentage interests are made after giving effect, if any, to priority income allocations in an amount equal to incentive cash distributions allocated 100% to PBF LLC.

Cash distributions

PBFX's Partnership Agreement, as amended, sets forth the calculation to be used to determine the amount and priority of cash distributions that the common and subordinated unitholders and general partner will receive. On March 4, 2015, we paid a quarterly cash distribution, based on the results of the fourth quarter of 2014, totaling \$10,885, or \$0.33 per unit to unitholders of record on February 23, 2015. On May 20, 2015, we paid a quarterly cash distribution, based on the results of the first quarter of 2015, totaling \$12,026, or \$0.35 per unit to unitholders of record on May 15, 2015.

The allocation of total quarterly cash distributions to general and limited partners is as follows in the table below for the three and six months ended June 30, 2015 and 2014. The Partnership's distributions are declared subsequent to quarter end; therefore, the table represents total cash distributions applicable to the period in which the distributions are earned:

	Three Months Ended June 30,20152014		Six Months Endee 2015	d June 30, 2014	
IDR - PBF LLC	\$151	\$—	\$181	\$—	
Limited partners' distributions:					
Common – public	6,049	2,573	11,773	2,573	
Common – PBF LLC	952	12	1,853	12	
Subordinated – PBF LLC	5,878	2,542	11,438	2,542	
Total distributions	13,030	5,127	25,245	5,127	
Total cash distributions ⁽¹⁾	\$12,852	\$5,084	\$24,878	\$5,084	

⁽¹⁾ Excludes phantom unit distributions which are accrued and paid upon vesting.

6. UNIT-BASED COMPENSATION

PBF GP's board of directors adopted the PBF Logistics LP 2014 Long-Term Incentive Plan (the "LTIP") in connection with the completion of the Offering. The LTIP is for the benefit of employees, consultants, service providers and non-employee directors of the general partner and its affiliates.

In 2014 and 2015, PBFX issued phantom unit awards under the LTIP to certain directors, officers and employees of our general partner or its affiliates as compensation. The fair value of each phantom unit on the grant date is equal to the market price of PBFX's common units on that date. The estimated fair value of PBFX's phantom units is amortized over the vesting period of four years, using the straight-line method.

In 2015, upon retirement of certain of PBF GP's officers, phantom units held by these individuals accelerated vesting pursuant to the terms of their grant agreements.

Unit-based compensation expense related to the Partnership that was included in general and administrative expense in the Partnership's condensed consolidated statements of operations was \$683 and \$1,613, inclusive of \$0 and \$510 associated with the accelerated vesting of certain phantom units described above, for the three and six month period ended June 30, 2015.

7. NET INCOME PER UNIT

Net income per unit is calculated for the Partnership only for periods after the Offering as no units were outstanding prior to May 14, 2014. Earnings in excess of distributions are allocated to the limited partners based on their respective ownership interests. Payments made to PBFX's unitholders are determined in relation to actual distributions declared and are not based on the net income (loss) allocations used in the calculation of net income (loss) per unit. Diluted net income per unit includes the effects of potentially dilutive units of PBFX's common units that consist of unvested phantom units. For the three and six months ended June 30, 2015 there were 437,485 and 442,375 anti-dilutive phantom units, respectively. For the three and six months ended June 30, 2014 there were 264,000 anti-dilutive phantom units. Basic and diluted net income per unit applicable to subordinated limited partners are the same because there are no potentially dilutive subordinated units outstanding.

In addition to the common and subordinated units, PBFX has also identified the general partner interest and incentive distribution rights as participating securities and uses the two-class method when calculating the net income per unit applicable to limited partners that is based on the weighted-average number of common units outstanding during the period. The Partnership issued 1,210,471 additional common units in 2014 and 1,288,420 in 2015 to PBF LLC in conjunction with the Acquisitions from PBF.

PBF LOGISTICS LP NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT PER BARREL AND UNIT DATA)

When calculating basic earnings per unit under the two-class method for a master limited partnership, net income for the current reporting period is reduced by the amount of available cash that has been or will be distributed to the general partner, limited partners, and IDR holders for that reporting period. The following table shows the calculation of earnings less distributions:

		Three Months Ended June 30,			Six Months Ended June 30,				
		2015		2014		2015		2014

8. COMMITMENTS AND CONTINGENCIES

The DCR Rail Terminal and DCR West Rack are collocated with the Delaware City refinery, and are located in Delaware's coastal zone where certain activities are regulated under the Delaware Coastal Zone Act. On June 14, 2013, two administrative appeals were filed by the Sierra Club and Delaware Audubon (collectively, the "Appellants") regarding an air permit DCR obtained to allow loading of crude oil onto barges. The appeals allege that both the loading of crude oil onto barges and the operation of the DCR Rail Terminal violate the Delaware Coastal Zone Act. The first appeal is Number 2013-1 before the State Coastal Zone Industrial Control Board (the "CZ Board"), and the second appeal is before the Environmental Appeals Board ("EAB") and appeals Secretary's Order No. 2013-A-0020. The CZ Board held a hearing on the first appeal on July 16, 2013, and ruled in favor of DCR and the State of Delaware and dismissed the Appellants' appeal for lack of standing. Sierra Club and Delaware Audubon appealed that decision to the Delaware Superior Court, New Castle County, Case No. N13A-09-001 ALR, and DCR and the State of Delaware filed cross-appeals. A hearing on the second appeal before the EAB, case no. 2013-06, was held on January 13, 2014, and the EAB ruled in favor of DCR and the State of Delaware and dismissed the appeal for lack of jurisdiction. The Appellants also filed a Notice of Appeal with the Superior Court appealing the EAB's decision. On March 31, 2015 the Superior Court affirmed the decisions by both the CZ Board and the EAB stating they both lacked jurisdiction to rule on the Appellants' appeals. The Appellants have appealed to the Delaware Supreme Court and briefing on the case is scheduled to continue into the third quarter of 2015. If the Appellants in one or both of these matters ultimately prevail, the outcome may have an adverse material effect on PBFX's financial condition, results of operations, cash flows and ability to make distributions to its unitholders.

Environmental Matters

PBFX's assets, along with PBF Energy's refineries, are subject to extensive and frequently changing federal, state and local laws and regulations, including, but not limited to, those relating to the discharge of materials into the environment or that otherwise relate to the protection of the environment, waste management and the characteristics and the composition of fuels. Compliance with existing and anticipated laws and regulations can increase the overall

cost of operating the Partnership's assets, including remediation, operating costs and capital costs to construct, maintain and upgrade equipment and facilities.

PBF LOGISTICS LP NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT PER BARREL AND UNIT DATA)

In connection with PBF Holding's acquisition of the DCR assets, Valero Energy Corporation ("Valero") remains responsible for certain pre-acquisition environmental obligations up to \$20,000 and the predecessor to Valero in ownership of the refinery retains other historical obligations.

In connection with its acquisition of the DCR assets and the Paulsboro refinery, PBF Holding and Valero purchased ten year, \$75,000 environmental insurance policies to insure against unknown environmental liabilities at each site. In connection with PBF Energy's Toledo refinery acquisition, Sunoco Inc. (R&M) remains responsible for environmental remediation for conditions that existed on the closing date for twenty years from March 1, 2011, subject to certain limitations.

9. RELATED PARTY TRANSACTIONS

Commercial Agreements

PBFX currently derives all of its revenue from long-term, fee-based agreements with PBF Holding, supported by fee escalations for inflation adjustments and certain increases in operating costs. PBFX believes the terms and conditions under these agreements, as well as the omnibus and services agreements with PBF Holding described below, are generally no less favorable to either party than those that could have been negotiated with unaffiliated parties with respect to similar services.

2014 Commercial Agreements

The commercial agreements entered into during the year ended December 31, 2014 with PBF Holding have initial terms ranging from approximately seven to ten years and include:

•a rail terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which the Partnership provides terminaling services at the DCR Rail Terminal;

•a truck unloading and terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which the Partnership provides terminaling services at the Toledo Truck Terminal;

•a terminaling services agreement, with an initial term of approximately seven years, under which the Partnership provides rail terminaling services to PBF Holding at the DCR West Rack; and

•a storage and terminaling services agreement, with an initial term of ten years, under which the Partnership provides storage and terminaling services to PBF Holding at the Toledo Storage Facility.

Each of these commercial agreements contain minimum volume commitments. Additionally, the storage and terminaling services agreement contains minimum requirements for the amount of storage contracted by PBF Holding. The fees under each commercial agreement are indexed for inflation and the agreements give PBF Holding the option to renew for two additional five-year terms following the expiration of the initial term. 2015 Commercial Agreements

On May 15, 2015, PBF Holding and DPC entered into an approximately ten year pipeline services agreement (the "Delaware Pipeline Services Agreement") under which the Partnership, through DPC, will provide pipeline services to PBF Holding. PBF Holding also entered into an approximately ten year terminaling services agreement with DCLC (the "Delaware Truck Loading Services Agreement") under which the Partnership, through DCLC, will provide terminaling services to PBF Holding. The Delaware Pipeline Services Agreement and Delaware Truck Loading Services Agreement (collectively, the "Delaware City Pipeline and Terminaling Agreements") can be extended by PBF Holding for two additional five-year periods. Under the Delaware City Pipeline and Terminaling Agreements, the Partnership will provide PBF Holding with pipeline and terminaling services in return for throughput fees.

PBF LOGISTICS LP NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT PER BARREL AND UNIT DATA)

The minimum throughput commitment for the Delaware City Products Pipeline will be 50,000 bpd for a fee equal to \$0.5266 per barrel of product throughputted up to the minimum throughput commitment and in excess of the minimum throughput commitment. If PBF Holding does not throughput the aggregate amounts equal to the minimum throughput commitment described above, PBF Holding will be required to pay a shortfall payment equal to the shortfall volume multiplied by the fee of \$0.5266 per barrel. The minimum throughput commitment for the Delaware City Truck Rack will be 30,000 bpd for refined clean products with a fee equal to \$0.462 per barrel and 5,000 bpd for LPGs with a fee equal to \$2.52 per barrel of product loaded up to the minimum throughput commitment and for volumes in excess of the minimum throughput commitment. If PBF Holding does not throughput the aggregate amounts equal to the minimum throughput commitment described above, PBF Holding does not throughput the aggregate amounts equal to the minimum throughput commitment. If PBF Holding does not throughput the aggregate amounts equal to the minimum throughput commitment described above, PBF Holding will be required to pay a shortfall payment equal to the shortfall volume multiplied by the applicable fee.

The Partnership is required to maintain the Delaware City Products Pipeline and Truck Rack in a condition and with a capacity sufficient to handle a volume of PBF Holding's products at least equal to their current operating capacity as a whole subject to interruptions for routine repairs and maintenance and force majeure events. Failure to meet such obligations may result in a reduction of fees payable under the Delaware City Pipeline and Terminaling Agreements.

Other Agreements

In addition to the commercial agreements described above, the Partnership also entered into an omnibus agreement with PBF GP, PBF LLC and PBF Holding, which addresses the payment of an annual fee, in the amount of \$2,350 per year, for the provision of various general and administrative services, among other matters, and an operations and management services and secondment agreement with PBF Holding and certain of its subsidiaries under which PBFX reimburses PBF Holding for the provision of certain operational services to the Partnership in support of its operations, including operational services performed by certain of PBF Holding's field-level employees. The omnibus agreement and operations and management services and secondment agreement were amended on May 15, 2015 to include the Delaware City Products Pipeline and Truck Rack.

Predecessor Transactions

Related-party transactions of the Predecessor were settled through division equity.

Summary of Transactions

A summary of revenue and expense transactions with our affiliates, including expenses directly charged and allocated to our Predecessor, is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,		
	2015	2014	2015	2014	
Revenues	\$34,868	\$10,168	\$67,713	\$12,350	
Operating and maintenance expenses	1,134	264	2,290	625	
General and administrative expenses	1,234	523	2,470	1,062	

10. SEGMENT INFORMATION

The Partnership's operations are organized into two reportable segments, Transportation and Terminaling; and Storage. Operations that are not included in the Transportation and Terminaling and Storage segments are included in Corporate. Intersegment transactions are eliminated in the consolidated financial statements and are included in Eliminations.

Prior to the acquisition of the Delaware City Products Pipeline and Truck Rack, the Transportation and Terminaling segment was referred to as the Terminaling segment.

Edgar Filing: PBF Logistics LP - Form 10-Q

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT PER BARREL AND UNIT DATA)

Our Transportation and Terminaling segment consists of the following assets:

•the DCR Rail Terminal, which serves PBF Energy's Delaware City and Paulsboro refineries and has an unloading capacity of 130,000 bpd;

•the DCR West Rack, which serves PBF Energy's Delaware City refinery with total throughput capacity of at least 40,000 bpd;

•the Toledo Truck Terminal, which serves PBF Energy's Toledo refinery, comprised of six LACT units and has unloading capacity of 22,500 bpd;

•a propane truck loading facility, located within the Toledo Storage Facility, which is part of PBF Energy's Toledo, Ohio refinery, with a throughput capacity of approximately 11,000 barrels bpd;

•the Delaware City Products Pipeline, which consists of a23.4 mile, 16-inch interstate petroleum products pipeline with capacity in excess of 125,000 bpd located at DCR; and

•the Delaware City Truck Rack, which consists of a 15-lane, 76,000 bpd capacity truck loading rack utilized to distribute gasoline, distillates and LPGs.

Our Storage segment consists of the following asset:

•the Toledo Storage Facility, excluding the propane truck loading facility, which services the Toledo refinery and consists of 30 tanks for storing crude oil, refined products and intermediates. The aggregate capacity of the Toledo Storage Facility is approximately 3.9 million barrels, of which 1.3 million barrels are dedicated to crude oil storage and 2.6 million barrels are allocated to refined products and intermediates.

Revenues are generated from commercial agreements entered into with PBF Holding under which PBF Holding pays the Partnership fees for transportation, terminaling and storage of crude oil and refined products. The commercial agreements with PBF Holding are described in Note 9 of the Condensed Consolidated Financial Statements in this Form 10-Q. The Partnership does not have any foreign operations.

The operating segments adhere to the accounting polices used for the consolidated financial statements, as described in Note 2 of the Consolidated Financial Statements in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2014. The Partnership's operating segments are strategic business units that offer different services in different geographical locations. PBFX has evaluated the performance of each operating segment based on its respective operating income. Certain general and administrative expenses and interest and financing costs are included in Corporate as they are not directly attributable to a specific operating segment. Identifiable assets are those used by the operating segment, whereas assets included in Corporate are principally cash, deposits and other assets that are not associated with a specific operating segment.

11. SUBSEQUENT EVENTS

Cash distribution

On July 30, 2015, PBF GP's board of directors declared a cash distribution, based on the results of the second quarter of 2015, of \$0.37 per unit. The distribution is payable on August 31, 2015 to PBFX unit holders of record at the close of business on August 14, 2015.

Edgar Filing: PBF Logistics LP - Form 10-Q

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

You should read the following discussion and analysis of our financial condition and results of operations together with the unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Form 10-Q. The following information and such unaudited condensed consolidated financial statements should also be read in conjunction with the audited consolidated financial statements and related notes, together with our discussion and analysis of financial condition and results of operations in our 2014 Form 10-K. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about our business and operations. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this report. Our actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors. You should read "Risk Factors" in our 2014 Form 10-K and "Cautionary Note Regarding Forward-Looking Statements" in this Form 10-Q. In this Item 2, all references to "we," "us," "our," the "Partnership," "PBFX" or similar terms for periods prior to the Offering refer to the Predecessor or for assets acquired in the Acquisitions from PBF prior to the effective date of each acquisition. For periods subsequent to the Offering or effective date of each Acquisition from PBF, these terms refer to the Partnership and its subsidiaries.

Overview

PBFX is a fee-based, growth-oriented, Delaware master limited partnership formed in February 2013 by subsidiaries of PBF Energy to own or lease, operate, develop and acquire crude oil and refined petroleum products terminals, pipelines, storage facilities and similar logistics assets. On May 14, 2014, PBFX completed the Offering of 15,812,500 common units (including 2,062,500 common units issued pursuant to the exercise of the underwriters' over-allotment option). PBFX filed a registration statement on Form S-1, with respect to the Offering, with the SEC which was declared effective on May 8, 2014. On May 9, 2014, PBFX's common units began trading on the New York Stock Exchange under the symbol "PBFX". PBF GP is our general partner and is wholly-owned by PBF LLC. PBF Energy is the sole managing member of PBF LLC and as of June 30, 2015 owned 94.3% of the total economic interest in PBF LLC. PBF LLC holds a 53.8% limited partner interest in PBFX and owns all of PBFX's incentive distribution rights, with the remaining 46.2% limited partner interest operations of certain crude oil and refined product terminaling, pipeline, and storage assets, previously operated and owned by PBF Holding's subsidiaries, DCR and TRC, which were acquired in a series of transactions during 2014 and 2015.

In connection with the Offering, pursuant to a contribution agreement and conveyance agreement, PBF LLC contributed a light crude oil rail unloading terminal at the Delaware City refinery that can also service the Paulsboro refinery (which we refer to as the "DCR Rail Terminal") and a crude oil truck unloading terminal at the Toledo refinery (which we refer to as the "Toledo Truck Terminal"). Prior to completion of the Offering, the assets, liabilities and results of operations of the aforementioned assets related to our Predecessor.

On September 30, 2014, the Partnership acquired from PBF LLC the DCR West Rack, a heavy crude oil rail unloading facility (also, capable of unloading light crude oil) at the Delaware City refinery with total throughput capacity of at least 40,000 barrels per day ("bpd"). Also, on December 11, 2014, the Partnership acquired from PBF LLC the Toledo Storage Facility, a tank farm and related facilities located at PBF Energy's Toledo refinery, including a propane storage and loading facility. In addition, on May 14, 2015, the Partnership acquired from PBF LLC the Delaware City Products Pipeline, a 23.4 mile, 16-inch interstate petroleum products pipeline with capacity in excess of 125,000 bpd and the Delaware City Truck Rack, a 15-lane, 76,000 bpd capacity truck loading rack located at PBF Holding's Delaware City, Delaware refinery. Delaware City Products Pipeline and Delaware City Truck Rack are collectively referred to as the "Delaware City Products Pipeline and Truck Rack."

The condensed consolidated financial statements presented in this Form 10-Q include the consolidated financial results of our Predecessor, for periods presented through May 13, 2014, and the consolidated financial

results of PBFX for the period beginning May 14, 2014, the date of the completion of the Offering. The balance sheet as of June 30, 2015 presents solely the consolidated financial position of PBFX. We recorded the Acquisitions from PBF at PBF Energy's historical book value, as the Acquisitions from PBF were treated as a reorganization of entities under common control. We have retrospectively adjusted the financial information of the Predecessor and PBFX contained herein to include the historical results of the DCR West Rack, Toledo Storage Facility and the Delaware Products Pipeline and Truck Rack prior to the effective date of each transaction.

Our Predecessor did not historically operate its assets for the purpose of generating revenues independent of other PBF Energy businesses that we support. Upon closing of the Offering and the Acquisitions from PBF, we entered into commercial and service agreements with subsidiaries of PBF Energy under which we operate our assets for the purpose of generating fee-based revenues. We receive, handle and transfer crude oil and refined products from sources located throughout the United States and Canada and store crude oil, refined products and intermediates for PBF Energy in support of its three refineries located in Toledo, Ohio, Delaware City, Delaware and Paulsboro, New Jersey. Our assets consist of the DCR Rail Terminal, the Toledo Truck Terminal, the DCR West Rack, the Toledo Storage Facility and the Delaware City Products Pipeline and Truck Rack (collectively referred to as the "Contributed Assets"), which are integral components of the crude oil and refined products delivery and storage operations at all three of PBF Energy's refineries.

Agreements with PBF Energy

Commercial Agreements

The Partnership has various long-term, fee-based commercial agreements with PBF Holding under which PBFX provides rail, trucking, pipeline, terminal distribution and storage services to PBF Holding, and PBF Holding commits to provide the Partnership with minimum monthly throughput volumes of crude oil and refined products. If, in any calendar quarter, PBF Holding fails to meet its minimum volume commitments under these agreements, it will be required to pay a shortfall payment. The Partnership believes the terms and conditions under these agreements, as well as other agreements with PBF Holding described below, are generally no less favorable to either party than those that could have been negotiated with unaffiliated parties with respect to similar services.

2014 Commercial Agreements

The commercial agreements entered into during the year ended December 31, 2014 with PBF Holding have initial terms ranging from approximately seven to ten years and include:

•a rail terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which the Partnership provides terminaling services at the DCR Rail Terminal;

•a truck unloading and terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which the Partnership provides terminaling services at the Toledo Truck Terminal;

•a terminaling services agreement, with an initial term of approximately seven years, under which the Partnership provides rail terminaling services to PBF Holding at the DCR West Rack; and

•a storage and terminaling services agreement, with an initial term of ten years, under which the Partnership provides storage and terminaling services to PBF Holding at the Toledo Storage Facility.

Each of these commercial agreements contain minimum volume commitments. Additionally, the storage and terminaling services agreement contains minimum requirements for the amount of storage contracted by PBF Holding. The fees under each commercial agreement are indexed for inflation and the agreements give PBF Holding the option to renew for two additional five-year terms following the expiration of the initial term.

2015 Commercial Agreements

On May 15, 2015, in connection with the Delaware City Products Pipeline and Truck Rack Acquisition, PBF Holding and DPC entered into an approximately ten-year pipeline services agreement (the "Delaware Pipeline Services Agreement") under which the Partnership, through DPC, will provide pipeline services to PBF Holding. PBF Holding also entered into an approximately ten-year terminaling services agreement with Delaware City Logistics Company LLC ("DCLC") (the "Delaware Truck Loading Services Agreement") under which the Partnership, through DCLC, will provide terminaling services to PBF Holding. The Delaware Pipeline Services Agreement and Delaware Truck Loading Services Agreement (collectively, the "Delaware City Pipeline and Terminaling Agreements") can be extended by PBF Holding for two additional five-year periods. Under the Delaware City Pipeline and Terminaling Agreements, the Partnership will provide PBF Holding with pipeline and terminaling services in return for throughput fees. The minimum throughput commitment for the Delaware City Products Pipeline will be 50,000 bpd for a fee equal to \$0.5266 per barrel of product throughputted up to the minimum throughput commitment and in excess of the minimum throughput commitment. If PBF Holding does not throughput the aggregate amounts equal to the minimum throughput commitment described above, PBF Holding will be required to pay a shortfall payment equal to the shortfall volume multiplied by the fee of \$0.5266 per barrel. The minimum throughput commitment for the Delaware City Truck Rack will be 30,000 bpd for refined clean products with a fee equal to \$0,462 per barrel and 5,000 bpd for LPGs with a fee equal to \$2.52 per barrel of product loaded up to the minimum throughput commitment and for volumes in excess of the minimum throughput commitment. If PBF Holding does not throughput the aggregate amounts equal to the minimum throughput commitment described above, PBF Holding will be required to pay a shortfall payment equal to the shortfall volume multiplied by the applicable fee.

The Partnership is required to maintain the assets acquired in the Delaware City Products Pipeline and Truck Rack Acquisition in a condition and with a capacity sufficient to handle a volume of PBF Holding's products at least equal to their current operating capacity as a whole subject to interruptions for routine repairs and maintenance and force majeure events. Failure to meet such obligations may result in a reduction of fees payable under the Delaware City Pipeline and Terminaling Agreements.

Other Agreements

In addition to the commercial agreements described above, the Partnership also entered into an omnibus agreement with PBF GP, PBF LLC and PBF Holding, which addresses the payment of an annual fee, in the amount of \$2.35 million per year, for the provision of various general and administrative services, among other matters, and an operations and management services and secondment agreement with PBF Holding and certain of its subsidiaries under which PBFX reimburses PBF Holding for the provision of certain operational services to the Partnership in support of its operations, including operational services performed by certain of PBF Holding's field-level employees. The omnibus agreement and operations and management services and secondment agreement agreement were amended on May 15, 2015 to include the Delaware City Products Pipeline and Truck Rack.

Factors Affecting the Comparability of Our Financial Results

Our future results of operations may not be comparable to our historical results of operations for the reasons described below:

Revenues. There are differences in the way our Predecessor historically reported revenues for services provided to PBF Energy and the way we record revenues subsequent to the closing of the Offering and effective dates of the Acquisitions from PBF. Our assets have historically been a part of the integrated operations of PBF Energy, and the operation of our assets did not generate third-party or inter-entity revenue, with the exception of the Delaware City Products Pipeline. Prior to August 2013, DPC generated third party revenue by charging fees for transporting refined products pursuant to an agreement with Morgan Stanley Capital Group ("MSCG"). Upon completion of this contract, only inter-entity revenue from DCR was recognized.

Following the closing of the Offering and effective dates of the Acquisitions from PBF, revenues are generated from the commercial agreements that we entered into with PBF Holding under which we receive revenues for logistics services. These contracts contain minimum volume commitments and fees that are indexed for inflation. General and Administrative Expenses. Historically, our general and administrative expenses included direct monthly charges for the management and operation of our logistics assets and certain expenses allocated by PBF Energy for general corporate services, such as treasury, accounting and legal services. These expenses were allocated to us based on the nature of the expenses and our proportionate share of employee time and headcount. Following an increase in the annual fee payable under the omnibus agreement described above, PBF Energy charges us an annual fee of \$2.35 million for the provision of various centralized administrative services. Additionally, we reimburse our general partner and its affiliates, including subsidiaries of PBF Energy, for the salaries and benefits costs of employees who devote more than 50% of their time to us, which we currently estimate will be approximately \$2.5 million annually. We also expect to incur \$4.5 million of incremental annual general and administrative expense as a result of being a publicly traded partnership.

Financing. We have made, and intend to make, cash distributions to our unitholders at a minimum distribution rate of \$0.30 per unit per quarter (\$1.20 per unit on an annualized basis). As a result, we expect to fund future capital expenditures primarily from the sale of U.S. Treasury or other investment grade securities used as collateral to secure obligations under our three-year, \$300,000 term loan facility (the "Term Loan"), external sources including borrowings under our five-year, \$325,000 senior secured revolving credit facility (the "Revolving Credit Facility"), and issuances of equity and debt securities. In connection with the closing of the Offering, we entered into the Revolving Credit Facility and the Term Loan. On May 12, 2015, the Partnership and its wholly-owned subsidiary PBF Logistics Finance Corporation, closed on \$350.0 million aggregate principal amount of 6.875% Senior Notes due 2023 (the "2023 Notes"). We received net proceeds from the 2023 Notes offering of approximately \$343.0 million, after deducting the initial purchasers' discount and estimated offering expenses. We used the net proceeds to pay \$88.0 million of the cash consideration payable by us in the Delaware City Products Pipeline and Truck Rack Acquisition and to repay \$255.0 million of the outstanding indebtedness under the Revolving Credit Facility. We also used \$20.1 million of cash on hand to pay down the Revolving Credit Facility prior to the completion of the Delaware City Products Pipeline and Truck Rack Acquisition. In addition, in connection with the Delaware City Products Pipeline and Truck Rack Acquisition, we reborrowed \$24.5 million under the Revolving Credit Facility to pay the remaining portion of the cash consideration and related transaction costs. At June 30, 2015, we had \$24.5 million outstanding under the Revolving Credit Facility, \$234.2 million outstanding under the Term Loan and \$350.0 million outstanding under our 2023 Notes.

Other Factors That Will Significantly Affect Our Results

Supply and Demand for Crude Oil and Refined Products. We generate revenue by charging fees for receiving, handling, transferring, storing and throughputting crude oil and refined products. All of our revenues are derived from fee-based commercial agreements with subsidiaries of PBF Energy with initial terms ranging from approximately seven to ten years, which enhances the stability of our cash flows. The volume of crude oil and refined products that is throughputted depends substantially on PBF Energy's refining margins. Refining margins are dependent mostly upon the price of crude oil or other refinery feedstocks and the price of refined products.

Factors driving the prices of petroleum based commodities include supply and demand in crude oil, gasoline and other refined products. Supply and demand for these products depend on numerous factors outside of our control, including changes in domestic and foreign economies, weather conditions, domestic and foreign political affairs, production levels, logistics constraints, availability of imports, marketing of competitive fuels, crude oil price differentials and government regulation. Please read "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 Form 10-K").

Acquisition Opportunities. We may acquire additional logistics assets from PBF Energy or third parties. Under our omnibus agreement with PBF GP, PBF LLC and PBF Holding, subject to certain exceptions, we have a right of first offer on certain logistics assets retained by PBF Energy to the extent PBF Energy decides to sell,

transfer or otherwise dispose of any of those assets. We also have a right of first offer to acquire additional logistics assets that PBF Energy may construct or acquire in the future. Our commercial agreements provide us with options to purchase certain assets at PBF Energy's Delaware City and Toledo refineries related to our business in the event PBF Energy permanently shuts down either the Delaware City refinery or the Toledo refinery. In addition, our commercial agreements provide us with the right to use certain assets at PBF Energy's Delaware City or Toledo refineries in the event of a temporary shutdown. Furthermore, we may pursue strategic asset acquisitions from third parties to the extent such acquisitions complement our or PBF Energy's existing asset base or provide attractive potential returns. We believe that we are well-positioned to acquire logistics assets from PBF Energy and third parties should such opportunities arise, and identifying and executing acquisitions is a key part of our strategy. However, if we do not make acquisitions on economically acceptable terms, our future growth will be limited, and the acquisitions we do make may reduce, rather than increase, our cash available for distribution. These acquisitions could also affect the comparability of our results from period to period. We expect to fund future growth capital expenditures primarily from a combination of cash-on-hand, borrowings under our Revolving Credit Facility and the issuance of additional equity or debt securities. To the extent we issue additional units to fund future acquisitions or expansion capital expenditures, the payments of distributions on those additional units may increase the risk that we will be unable to maintain or increase our per unit distribution level.

Third-Party Business. As of June 30, 2015, PBF Holding accounts for all of our revenues. We are examining further diversification of our customer base by potentially developing third-party throughput volumes in our existing system and expanding our asset portfolio to service third-party customers. Unless we are successful in attracting third-party customers, our ability to increase volumes will be dependent on PBF Holding, which has no obligation under our commercial agreements to supply our facilities with additional volumes in excess of its minimum volume commitments. If we are unable to increase throughput volumes, future growth may be limited.

How We Evaluate Our Operations

Our management uses a variety of financial and operating metrics to analyze our performance. These metrics are significant factors in assessing our operating results and profitability and include but are not limited to volumes, including terminal and pipeline volumes; operating and maintenance expenses; and EBITDA and distributable cash flow. We define EBITDA and distributable cash flow below.

Volumes. The amount of revenue we generate primarily depends on the volumes of crude oil and products that we throughput at our terminaling and pipeline operations. These volumes are primarily affected by the supply of and demand for crude oil and refined products in the markets served directly or indirectly by our assets. Although PBF Energy has committed to minimum volumes under the commercial agreements described above, our results of operations will be impacted by:

PBF Energy's utilization of our assets in excess of the minimum volume commitments;

our ability to identify and execute accretive acquisitions and organic expansion projects, and capture PBF Energy's incremental volumes or third-party volumes; and

our ability to increase throughput volumes at our facilities and provide additional ancillary services at those terminals and pipeline.

Operating and Maintenance Expenses. Our management seeks to maximize the profitability of our operations by effectively managing operating and maintenance expenses. These expenses are comprised primarily of labor expenses, outside contractor expenses, utility costs, insurance premiums, repairs and maintenance expenses and related property taxes. These expenses generally remain relatively stable across broad ranges of throughput volumes but can fluctuate from period to period depending on the mix of activities performed during that period and the timing of these expenses. We will seek to manage our maintenance expenditures on our assets by scheduling maintenance overtime to avoid significant variability in our maintenance expenditures and to minimize their impact on our cash flow. EBITDA and Distributable Cash Flow. We define EBITDA as net income (loss) before net interest expense, income tax expense, depreciation and amortization expense. We define distributable cash flow as EBITDA plus

Edgar Filing: PBF Logistics LP - Form 10-Q

non-cash unit-based compensation expense, less net cash paid for interest, maintenance capital expenditures and income taxes. Distributable cash flow will not reflect changes in working capital balances. Distributable cash flow and EBITDA are not presentations made in accordance with U.S. generally accepted accounting principles ("GAAP"). EBITDA and distributable cash flow are non-GAAP supplemental financial measures that management and external users of our consolidated financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess:

our operating performance as compared to other publicly traded partnerships in the midstream energy industry, without regard to historical cost basis or, in the case of EBITDA, financing methods;

the ability of our assets to generate sufficient cash flow to make distributions to our unitholders;

our ability to incur and service debt and fund capital expenditures; and

the viability of acquisitions and other capital expenditure projects and the returns on investment of various investment opportunities.

We believe that the presentation of EBITDA provides useful information to investors in assessing our financial condition and results of operations. We believe that the presentation of distributable cash flow will provide useful information to investors as it is a widely accepted financial indicator used by investors to compare partnership performance and provides investors with an enhanced perspective of the operating performance of our assets and the cash our business is generating. EBITDA and distributable cash flow should not be considered alternatives to net income, operating income, cash from operations or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA and distributable cash flow have important limitations as analytical tools because they exclude some but not all items that affect net income and net cash provided by operating activities. Additionally, because EBITDA and distributable cash flow may be defined differently by other companies in our industry, our definition of EBITDA may not be comparable to similarly titled measures of other companies, thereby diminishing its utility. EBITDA and distributable cash flow are reconciled to net income (loss) and net cash provided by (used in) operating activities in "—Results of Operations" below.

Results of Operations

A discussion and analysis of the factors contributing to our results of operations is presented below. The accompanying combined financial statements for the period prior to May 14, 2014, represent our Predecessor's results of operations, while the consolidated financial statements for the period subsequent to May 14, 2014, represent the results of operations for the Partnership. The financial statements, together with the following information, are intended to provide investors with a reasonable basis for assessing our historical operations, but should not serve as the only criteria for predicting our future performance.

Combined Overview. The following tables summarize our results of operations and financial data for the three and six months ended June 30, 2015 and 2014. The following data should be read in conjunction with our condensed consolidated financial statements and the notes thereto included elsewhere in this Form 10-Q.

	Three Months Ended June 30,		Six Months End	ed June 30,	l June 30,	
	2015	2014*	2015	2014*		
	(In thousands)					
Revenue from affiliates	\$34,868	\$10,168	\$67,713	\$12,350		
Operating costs and expenses:						
Operating and maintenance expenses	4,768	4,817	13,202	9,665		
General and administrative expenses	3,729	1,609	6,791	2,406		
Depreciation and amortization	1,637	868	3,270	1,729		
Total costs and expenses	10,134	7,294	23,263	13,800		
Income (loss) from operations	24,734	2,874	44,450	(1,450)	
Other income (expense):						
Interest expense, net and other financing costs	(4,624)	(285) (6,418)	(283)	
Amortization of loan fees	(306)	(73) (467)	(73)	
Net income (loss)	19,804	2,516	37,565	(1,806)	
Less: Net income (loss) attributable to	221	(2,901) 1,274	(7,223)

* Prior-period financial information has been retrospectively adjusted for the Acquisitions from PBF.

Reconciliation of Non-GAAP Financial Measures

As described in "How We Evaluate Our Operations," our management uses EBITDA and distributable cash flow to analyze our performance. The following table presents a reconciliation of net income (loss) to EBITDA and distributable cash flow, the most directly comparable GAAP financial measure on a historical basis, for the periods indicated.

	Three Months Ended June 30,		Six Months Ended June 30,		
	2015	2014*	2015	2014*	
Net income (loss)	\$19,804	\$2,516	\$37,565	\$(1,806)	
Interest expense, net	4,624	285	6,418	283	
Amortization of loan fees	306	73	467	73	
Depreciation and amortization	1,637	868	3,270	1,729	
EBITDA	26,371	3,742
