**DATA STORAGE CORPORATION AND SUBSIDIARY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**NINE MONTHS ENDED SEPTEMBER 30, 2017 AND 2016**

**Note 1 - Basis of presentation, organization and other matters**

Headquartered in Melville, NY, Data Storage Corporation (“DSC” or the “Company”) offers its solutions and services to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government sectors. The Company focuses on cyber security solutions, cloud solutions and compliance services. DSC provides Infrastructure as a Service, Disaster Recovery as a Service and Email Archival and Compliance Solutions. DSC’s mission: Protecting client data, ensuring business continuity, assisting in their compliance requirements and providing better control over their digital information.

DSC maintains equipment for cloud storage and cloud computing in our data centers in New York State and Massachusetts. DSC delivers its solutions over highly reliable, redundant and secure fiber optic networks with separate and diverse routes to the Internet. DSC’s network and geographical diversity is important to clients seeking storage hosting and disaster recovery solutions, ensuring protection of data and continuity of business in the case of a network interruption.

*Liquidity*

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the nine months ended September 30, 2017, the Company has generated revenues of \$6,387,499 and achieved a net income attributable to common shareholders of \$345,133.

**Note 2 - Summary of Significant Accounting Policies**

*Stock Based Compensation*

The Company follows the requirements of FASB ASC 718-10-10, *Share-Based Payments* with regards to stock-based compensation issued to employees. The Company has stock-based incentives for consultants and employees that over achieve. This plan is discretionary. The expense for this stock-based compensation is equal to the fair value of the stock that was determined by using closing price on the day the stock was awarded multiplied by the number of shares awarded. The Company records its options at fair value using the Black-Scholes valuation model.

#### *Equity Investments*

Equity investments in which the Company exercises significant influence but does not control and is not the primary beneficiary are accounted for using the equity method. The Company's share of its equity method investee's earnings or losses is included in other income in the accompanying Consolidated Statements of Operations.

#### *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

### *Estimated Fair Value of Financial Instruments*

The Company's financial instruments include cash, accounts receivable, and accounts payable, line of credit and due to related parties. Management believes the estimated fair value of these accounts at September 30, 2017 approximate their carrying value as reflected in the balance sheets due to the short-term nature of these instruments or the use of market interest rates for debt instruments. The carrying values of certain of the Company's notes payable and capital lease obligations approximate their fair values based upon a comparison of the interest rate and terms of such debt given the level of risk to the rates and terms of similar debt currently available to the Company in the marketplace.

### *Cash, Cash Equivalents and Short-Term Investments*

The Company considers all highly liquid investments with an original maturity or remaining maturity at the time of purchase, of three months or less to be cash equivalents.

### *Recently Issued and Newly Adopted Accounting Pronouncements*

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASU 2014-09"), which requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The new guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. In July 2016, the FASB voted to delay the effective date of ASU 2014-09 by one year to the first quarter of 2018 to provide companies sufficient time to implement the standards. Early adoption will be permitted, but not before the first quarter of 2017. Adoption can occur using one of two prescribed transition methods. In March and April 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net)" and ASU 2016-10, "Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing" which provide supplemental adoption guidance and clarification to ASC 2014-09. ASU 2016-08 and ASU 2016-10 must be adopted concurrently with the adoption of ASU 2014-09.

On May 28, 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," and issued subsequent amendments to the initial guidance contained within ASU 2017-13, ASU 2016-20, ASU 2016-12, ASU 2016-10 and ASU 2016-08. Previous revenue recognition guidance in U.S. GAAP comprised broad revenue recognition concepts together with numerous revenue requirements for particular industries or transactions, which sometimes resulted in different accounting for economically similar transactions. The core principle of the guidance is that an entity should

recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, ASU 2014-09 expands and enhances disclosure requirements which require disclosing sufficient information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. This includes both qualitative and quantitative information. The amendments in ASU 2014-09 are effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is permitted. The guidance permits two methods of adoption: full retrospective in which the standard is applied to all of the periods presented or modified retrospective where an entity will have to recognize the cumulative effect of initially applying the standard as an adjustment to the opening balance of retained earnings. The Company is currently in the process of concluding on which transition approach it will utilize and the impact of adopting ASU 2014-09 and subsequent updates will have on its consolidated financial statements and related disclosures. The Company will adopt these standards with an effective date of January 1, 2018.

On August 2015, FASB issued Accounting Standards Update No. 2014-15, “Presentation of Financial Statements - Going Concerns (Subtopic 205-40): Disclosures of Uncertainties about an Entity’s Ability to continue as a Going Concern. The amendments require management to assess an entity’s ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management’s plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management’s plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The Company adopted this ASU effective January 1, 2017. The adoption of ASU 2014-15 did not have a material impact on our financial position or results of operations.

In April 2016, the Financial Accounting Standards Board (FASB) issued ASU 2016-05, “Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement.” This ASU provides clarification on whether a cloud computing arrangement includes a software license. If a software license is included, the customer should account for the license consistent with its accounting of other software licenses. If a software license is not included, the arrangement should be accounted for as a service contract. This ASU is effective for annual reporting periods beginning after December 15, 2016, and interim periods within those years. Adoption of ASU 2016-05 did not have a material impact on our financial position or results of operations.

During February 2016, the FASB issued ASU No. 2016-02, “Leases” (“ASU 2016-02”). The standard requires lessees to recognize a lease liability and a lease asset for all leases, including operating leases, with a term greater than 12 months on its balance sheet. The update also expands the required quantitative and qualitative disclosures surrounding leases. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the impact of the new standard.

In March 2016, FASB issued ASU No. 2016-09, “Improvements to Employee Share-based Payment Accounting” (“ASU 2016-09”). ASU 2016-09 simplifies several aspects of the accounting for employee share-based payment transactions for both public and nonpublic entities, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. ASU 2016-09 is effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In January 2017, FASB issued ASU No. 2017-04, “Intangibles—Goodwill and Other Simplifying the Accounting for Goodwill” (ASU 2017-04”), which requires goodwill impairment loss to be measured as the excess of a reporting unit’s carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). The new guidance eliminates Step 2, which an entity used to measure goodwill impairment loss by comparing the implied fair value of a reporting unit’s goodwill with the carrying amount of that goodwill. “In computing the implied fair value of

goodwill under Step 2, an entity had to perform procedures to determine the fair value at the impairment testing date of its assets and liabilities (including unrecognized assets and liabilities) following the procedure that would be required in determining the fair value of assets acquired and liabilities assumed in a business combination,” the ASU is effective for the company on January 1, 2020. The Company will adopt the standard on that date.

In August 2016, the FASB issued ASU 2016-15, “Statement of Cash Flows: Clarification of Certain Cash Receipts and Cash Payments”, which eliminates the diversity in practice related to the classification of certain cash receipts and payments in the statement of cash flows, by adding or clarifying guidance on eight specific cash flow issues. ASU 2016-15 is effective for annual and interim reporting periods beginning after December 15, 2017 and early adoption is permitted. ASU 2016-15 provides for retrospective application for all periods presented. The Company is assessing the impact of ASU 2016-15 and will adopt it when effective.

*Concentration of Credit Risk and Other Risks and Uncertainties*

Financial instruments and assets subjecting the Company to concentration of credit risk consist primarily of cash and cash equivalents, short-term investments and trade accounts receivable. The Company's cash and cash equivalents are maintained at major U.S. financial institutions. Deposits in these institutions may exceed the amount of insurance provided on such deposits.

The Company's customers are primarily concentrated in the United States.

The Company provides credit in the normal course of business. The Company performs ongoing credit evaluations of its customers and maintains allowances for doubtful accounts on factors surrounding the credit risk of specific customers, historical trends, and other information.

For the nine months ended September 30, 2017 and the nine months ended September 30, 2016 DSC did not have any customer concentrations.

*Accounts Receivable/Allowance for Doubtful Accounts*

Accounts receivables are due within 30 days. The allowance for doubtful accounts reflects the estimated accounts receivable that will not be collected due to credit losses and allowances. Provisions for estimated uncollectible accounts receivable are made for individual accounts based upon specific facts and circumstances including criteria such as their age, amount, and customer standing. Provisions are also made for other accounts receivable not specifically reviewed based upon historical experience. Clients are invoiced in advance for services as reflected in deferred revenue on the Company's balance sheet.

*Property and Equipment*

Property and equipment is recorded at cost and depreciated over their estimated useful lives or the term of the lease using the straight-line method for financial statement purposes. Estimated useful lives in years for depreciation are 5 to 7 years for property and equipment. Additions, betterments and replacements are capitalized, while expenditures for repairs and maintenance are charged to operations when incurred. As units of property are sold or retired, the related

cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income.

### *Income Taxes*

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At September 30, 2017, the Company had a full valuation allowance against its deferred tax assets.

Per FASB ASC 740-10, disclosure is not required of an uncertain tax position unless it is considered probable that a claim will be asserted and there is a more-likely-than-not possibility that the outcome will be unfavorable. Using this guidance, as of September 30, 2017 and September 30, 2016, the Company has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Company's 2015, 2013 and 2012 Federal and State tax returns remain subject to examination by their respective taxing authorities. Neither of the Company's Federal or State tax returns are currently under examination.

### *Goodwill and Other Intangibles*

In accordance with GAAP, the Company tests goodwill and other intangible assets for impairment on at least an annual basis. Goodwill impairment exists if the net book value of a reporting unit exceeds its estimated fair value. The impairment testing is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. To determine the fair value of these intangible assets, the Company uses many assumptions and estimates using a market participant approach that directly impact the results of the testing. In making these assumptions and estimates, the Company uses industry accepted valuation models and set criteria that are reviewed and approved by various levels of management.

### *Revenue Recognition*

The Company's revenues consist principally of cloud storage and cloud computing revenues, SaaS and IaaS. Storage revenues consist of monthly charges related to the storage of materials or data (generally on a per unit basis). Sales are generally recorded in the month the service is provided. For customers who are billed on an annual basis, deferred revenue is recorded and amortized over the life of the contract. Set up fees charged in connection with storage contracts are deferred and recognized on a straight-line basis over the life of the contract.

Our revenue is also derived from equipment sales for cyber security, storage and managed service solutions. Revenue for equipment sales is recognized when persuasive evidence that an arrangement exists, installation has occurred, selling price is fixed or determinable, and collection is reasonably assured.

### *Impairment of Long-Lived Assets*

In accordance with FASB ASC 360-10-35, we review our long-lived assets for impairment whenever events and circumstances indicate that the carrying value of an asset might not be recoverable. An impairment loss, measured as the amount by which the carrying value exceeds the fair value, is recognized if the carrying amount exceeds estimated undiscounted future cash flows.

### *Advertising Costs*

The Company expenses the costs associated with advertising as they are incurred. The Company incurred \$119,574 and \$106,865 for advertising costs for the years ended September 30, 2017 and 2016, respectively.

### *Net Income (Loss) Per Common Share*

In accordance with FASB ASC 260-10-5 Earnings Per Share, basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed by dividing net income (loss) adjusted for income or loss that would result from the assumed conversion of potential common shares from contracts that may be settled in stock or cash by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding

during each period. The inclusion of the potential common shares to be issued have an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. Potentially dilutive securities at September 30, 2017 include 133,334 warrants.

**Note 3 - Property and Equipment**

Property and equipment, at cost, consist of the following:

	<b>September 30,</b>	<b>December 31,</b>
	<b>2017</b>	<b>2016</b>
Storage equipment	\$2,100,932	2,100,932

### **Company Overview**

Data Storage Corporation (“DSC” or “the Company”) focuses on cyber security solutions, cloud solutions and compliance services. DSC provides Hybrid Cloud, Infrastructure as a Service, Disaster Recovery as a Service and Email Archival and Compliance Solutions. Over 35% of our revenue is derived from equipment sales for cyber security, storage and managed service solutions. Our mission: Protecting our client’s data, ensuring business continuity, assisting in their compliance requirements and providing better control over their digital information. The Company’s October 2016 acquisition of the assets of ABC Services, Inc. and ABC Services II, Inc. (collectively, “ABC”), and its acquisition of the remaining 50% of the assets of Secure Infrastructure and Services LLC supports the Company’s strategy. These acquisitions accelerated our strategy into managed services, expanded cyber security solutions and our hybrid cloud solutions with the ability to provide equipment and expanded technical support.

The Company provides its solutions through its business development team and contracted distribution channels. DSC owns intellectual property with our proprietary email archival and data analytics software, Message Logic. DSC is marketing Message Logic on the Amazon AWS Marketplace and IBM’s cloud marketplace including the ability to subscribe for services on the DSC website. DSC’s contracted approved distributors have the ability to provide Recovery and Hybrid Cloud solutions, cloud solutions without capital investment lowering their barrier of entry in providing these solutions to their client base.

## Edgar Filing: Data Storage Corp - Form 10-Q

Headquartered in Melville, NY, with additional offices in Warwick, RI, DSC offers solutions and services to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government industries.

DSC derives its revenues from subscription services and solutions, managed services, software and maintenance, equipment and onboarding provisioning. DSC maintains infrastructure and storage equipment in several technical centers in New York and Massachusetts.

DSC services clients from its staffed technical offices in New York and Rhode Island, which consist of modern offices and a technology suite adapted to meet the needs of a technology based business.

DSC varies its use of resources, technology and work processes to meet the changing opportunities and challenges presented by the market and the internal customer requirements. The Company supports clients twenty-four hours a day, 365 days a year.

## RESULTS OF OPERATIONS

### *For the three months ended September 30, 2017 as compared to the three months ended September 30, 2016*

*Net Sales.* Net sales for the three months ended September 30, 2017 were \$2,036,299, an increase of \$1,113,380, or 120.64% compared to \$922,919 for the three months ended September 30, 2016. The increase is attributable to the acquisitions of ABC Services Inc. and ABC Services II Inc (collectively, "ABC").

*Cost of Sales.* For the three months ended September 30, 2017, cost of sales were \$1,226,430, an increase of \$580,066, or 89.74% compared to \$646,364 for the three months ended September 30, 2016. The increase is attributable to the acquisition of ABC.

*Operating Expenses.* For the three months ended September 30, 2017, operating expenses were \$741,503, an increase of \$351,819, or 90.28%, as compared to \$389,684 for the three months ended September 30, 2016. The increase is attributable to the acquisition of ABC.

*Other Income (Expense).* Interest income for the three months ended September 30, 2017 increased \$2 to \$2 from \$0 for the three months ended September 30, 2016. Interest expense for the three months ended September 30, 2017 decreased \$35,483 to \$34,748 from \$70,231 for the three months ended September 30, 2016. This decrease is a result of the Company entering into conversion agreements for outstanding convertible debt.

*Net Income (loss).* Net income for the three months ended September 30, 2017 was \$33,620 an increase of \$219,342, or 118.10%, as compared to a net loss of (\$185,722) for the three months ended September 30, 2016. We believe that continual cost cutting based on synergies, as well as economies of scale, will further improve our profit and margins.

### *For the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016*

*Net Sales.* Net sales for the nine months ended September 30, 2017 were \$6,387,499, an increase of \$3,475,346, or 119.34%, compared to \$2,912,153 for the nine months ended September 30, 2016. The increase is attributable to the acquisition of ABC.

*Cost of Sales.* For the nine months ended September 30, 2017, cost of sales were \$3,766,448, an increase of \$1,835,660, or 95.07%, compared to \$1,930,788 for the nine months ended September 30, 2016. The increase is attributable to the acquisition of ABC.

*Operating Expenses.* For the nine months ended September 30, 2017, operating expenses were \$2,090,706, an increase of \$805,561, or 62.68%, as compared to \$1,285,145 for the nine months ended September 30, 2016. The increase is attributable to the acquisition of ABC.

*Other Income (expense).* Interest income for the nine months ended September 30, 2017 increased \$34 to \$34 from \$0 for the nine months ended September 30, 2016. Interest expense for the nine months ended September 30, 2017 decreased \$103,817 to \$100,650 from \$204,467 for the nine months ended September 30, 2016. This decrease is a result of the Company entering into conversion agreements for outstanding convertible debt.

*Net Profit (loss).* Net profit for the nine months ended September 30, 2017 was \$431,907 an increase of \$941,218 as compared to net loss of (\$509,311) for the nine months ended September 30, 2016.

## LIQUIDITY AND CAPITAL RESOURCES

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. Furthermore, we believe that the Company will continue its trend of profitability throughout November 2018 and the foreseeable future. Historically, the Company has been successful in raising money as needed. Accordingly, we may need to engage in equity or debt financings to secure additional funds. If we raise additional funds through future issuances of equity or convertible debt securities, our existing stockholders could be dilution, and any new equity securities we issue could have rights, preferences and privileges superior to those of holders of our common stock. Any debt financing that we secure in the future could involve restrictive covenants relating to our capital raising activities and other financial and operational matters, which may make it more difficult for us to obtain additional capital and to pursue business opportunities, including potential acquisitions. We may not be able to obtain additional financing on terms favorable to us, if at all. If we are unable to obtain adequate financing or financing on terms satisfactory to us when we require it, our ability to continue to support our business growth and to respond to business challenges could be impaired, and our business may be affected. Further it is the intention of management to continue to raise money through stock issuances to continue on their growth path in creating value.

To the extent we are successful in growing our business, identifying potential acquisition targets and negotiating the terms of such acquisition, and the purchase price includes a cash component, we plan to use our working capital and the proceeds of any financing to finance such acquisition costs. Our opinion concerning our liquidity is based on current information. If circumstances change, we may not be able to meet our liquidity needs.

During the nine months ended September 30, 2017 the Company's cash decreased \$99,512 to \$156,305 from \$255,817 at December 31, 2016. Net cash of \$561,957 was provided by the Company's operating activities. Net cash of \$661,469 was used in the Company's financing activities, primarily due to refinancing of old capital leases and additional capital lease financing to refresh equipment and derive anticipated reduced costs for our company and clients.

DSC's working capital deficit was \$2,507,571 at September 30, 2017, increasing \$15,595 or 0.625% from \$2,491,976 at December 31, 2016. The increase is attributable to an increase in sales, planned economies of scale, operation efficiencies and overall synergies in several areas which have led to an operating profit.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

#### **Interest Rate Sensitivity**

Interest due on the Company's loans is based upon the applicable stated fixed contractual rate with the lender. Interest earned on DSC bank accounts is linked to the applicable base interest rate. For the nine months ended September 30, 2017 and 2016, DSC had interest expense, net of interest income, of \$100,616 and \$204,467 respectively. DSC believes that its results of operations are not materially affected by changes in interest rates.

DSC's exposure to market risk is confined to its cash and cash equivalents, all of which have maturities of less than three months and bear and pay interest in U.S. dollars. Since DSC invests in highly liquid, relatively low yield investments, we do not believe interest rate changes would have a material impact on us.

DSC does not hold any derivative instruments and does not engage in any hedging activities.

### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures.**

As of the end of the period covered by this Report, under the supervision and with the participation of DSC's management, including its principal executive officer and principal financial officer, DSC conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, DSC's principal executive officer and principal financial officers have concluded that DSC's disclosure controls and procedures are not effective to ensure that information required to be disclosed by DSC in the reports it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (the "SEC") rules based on the material weakness described below.

The material weaknesses identified during management's assessment were (i) a lack of sufficient internal accounting expertise to provide reasonable assurance that our financial statements and notes thereto are prepared in accordance with GAAP and (ii) a lack of segregation of duties to ensure adequate review of financial statement preparation. In

light of these material weaknesses, management has concluded that, as of September 30, 2017, DSC did not maintain effective internal control over financial reporting. As defined by the Public Company Accounting Oversight Board Auditing Standard No. 5, a material weakness is a deficiency or a combination of deficiencies, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected. In order to ensure the effectiveness of DSC's disclosure controls in the future DSC intends on adding financial staff resources to our internal accounting and finance department.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

**Changes in Internal Control Over Financial Reporting.**

There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II - OTHER  
INFORMATION**

**Item 1. Legal Proceedings.**

We are currently not involved in any litigation that we believe could have a materially adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our company or any of our subsidiaries, threatened against or affecting DSC, its common stock, any of its subsidiaries or of DSC's or DSC's subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

**Item 1A. Risk Factors.**

As a smaller reporting company, we are not required to provide disclosure pursuant to this item.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

**Item 3. Defaults Upon Senior Securities.**

There were no defaults upon senior securities during the period ended September 30, 2017.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information.**

As previously reported, on November 1, 2017, the Company issued a press release announcing its formation of Nexxis Inc., a new majority-owned subsidiary of the Company which will focus on the development of next-generation voice and data services.

On November 13, 2017, the Company entered into a Stockholders Agreement (the “Stockholders Agreement”) with Nexxis Inc. (“Nexxis”), a majority-owned subsidiary of the Company, and John Camello (the “Minority Stockholder”), pursuant to which Nexxis agreed to issue 100% of its initial issued and outstanding shares (the “Nexxis Shares”) to the Company and the Minority Stockholder pursuant to subscription agreements entered into contemporaneously with the Stockholders Agreement. After giving effect to the respective issuances of the Nexxis Shares to the Company and the Minority Stockholder, the Company owns 80% of the Nexxis Shares and the Minority Stockholder owns 20% of the Nexxis Shares, resulting in the Company owning 80% of Nexxis and the Minority Stockholder owning 20% of Nexxis. Pursuant to the Stockholders Agreement, the Company may acquire all of the shares of Nexxis held by the Minority Stockholder at any time after the 18-month anniversary of the filing of the Nexxis articles of incorporation based on a certain formula of 4.5 times Nexxis’s EBITDA. Annual post-audit profit distributions (the “Annual Distributions”) will be issued to the Nexxis stockholders in connection with the revenue of Nexxis (i) on a pro-rata basis, (ii) based on no less than 50% of each stockholder’s ownership of Nexxis and (iii) based on and comprised of available cash, provided, however, if cash is not available to issue Annual Distributions, any unissued Annual Distributions will accrue and be issued within 30 days of the requisite cash becoming available in connection with such unissued Annual Distributions. At the sole discretion of the Board of Directors of Nexxis, which will initially consist of three (3) directors, Annual Distributions may be issued to the Nexxis stockholders based on no more than 50% of each stockholder’s ownership of Nexxis. As additional cash of Nexxis may become available, additional distributions may be made to the Nexxis stockholders based on no less than 50% of each stockholder’s ownership of Nexxis. No Nexxis stockholder will have priority over any other stockholder either as to the return of his, her, or its capital infusions or as to any distributions made by Nexxis. In addition, during the term of the Stockholders Agreement the Company will provide certain services and resources to Nexxis, as set forth in the Stockholders Agreement. Additionally, the Minority Stockholder may not transfer any Nexxis Shares owned by the Minority Stockholder without the express written consent of the Company. Further, if the Company proposes to transfer its Nexxis Shares to a third-party buyer, the Company has the drag-along right to force the Minority Stockholder to participate in the transfer of such shares to the third-party buyer on the same terms, and if the Company proposes to sell any of its Nexxis Shares then the Minority Stockholder may include its Nexxis Shares in such sale. The Stockholders Agreement contains and other covenants and provisions customary for agreements of a type similar to the Stockholders Agreement.

On November 13, 2017, the Company entered into an Executive Employment Agreement (the “Camello Agreement”) with Nexxis Inc. (“Nexxis”), a majority-owned subsidiary of the Company, and John Camello, pursuant to which John Camello will serve as the President of Nexxis for a term of three (3) years (the “Term”). Pursuant to the Camello Agreement, Mr. Camello’s initial compensation will consist of (1) monthly distributions comprised of 100% of the adjusted gross profit of Nexxis (the “Initial Monthly Distributions”), and (2) an initial salary from the Company in the approximate amount of \$46,000 (the “Initial Salary”). In addition to the Initial Salary, Mr. Camello will receive access to the Company’s benefits programs. Upon Mr. Camello achieving Initial Monthly Distributions in the amount of \$16,667 per month for three (3) consecutive months (a) the Initial Monthly Distributions will cease being issued to Mr. Camello, (b) the Initial Salary will cease being paid to Mr. Camello and (c) Mr. Camello will be placed on an annual base salary from Nexxis in the amount of \$150,000 (the “Base Salary”). Throughout the Term, Mr. Camello will also be entitled to an issuance of common stock options to acquire shares of common stock of the Company (the “Options”) in accordance with the stock incentive plan of the Company. The amount of such Options is currently being considered by the Board of Directors of the Company. During the Term, Mr. Camello will be entitled to receive (i) a management bonus comprised of twenty five percent (25%) of any Nexxis net profits which are available each quarter and (ii) additional compensation as may be granted to Mr. Camello by the Nexxis Board of Directors in its sole discretion. During the Term, Mr. Camello will be eligible to receive an executive bonus pursuant to which Mr. Camello may earn an additional bonus in the amount of \$50,000 per annum which may be issued to Mr. Camello in the form of common stock options of the Company, cash or a combination thereof, upon Nexxis achieving certain milestones and/or benchmarks in accordance with the Nexxis business plan and objectives. At the sole discretion of the Board of Directors of the Company, Mr. Camello will be entitled to earn certain common stock options (the “Benchmark Options”) to acquire shares of common stock of the Company in accordance with a “Revenue Benchmark Program” and related vesting schedule, pursuant to which the Benchmark Options will be issued to Mr. Camello on a semi-annual basis for the first two (2) years of Mr. Camello’s employment upon Nexxis achieving certain milestones determined by the parties (the “Benchmarks”) in connection with the Revenue Benchmark Program, as set forth in the Camello Agreement.
