 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 MAY 31, 2015
 (unaudited)

1. BASIS OF PRESENTATION:

Unless the context otherwise requires, the terms “Company,” “CBI,” “we,” “our,” or “us” refer to Constellation Brands, Inc. and its subsidiaries. We have prepared the consolidated financial statements included herein, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission applicable to quarterly reporting on Form 10-Q and reflect, in our opinion, all adjustments necessary to present fairly our financial information. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles, have been condensed or omitted as permitted by such rules and regulations. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2015 (the “2015 Annual Report”). Results of operations for interim periods are not necessarily indicative of annual results.

2. INVENTORIES:

Inventories are stated at the lower of cost (computed in accordance with the first-in, first-out method) or market. Elements of cost include materials, labor and overhead and consist of the following:

(in millions)	May 31, 2015	February 28, 2015
Raw materials and supplies	\$98.4	\$106.0
In-process inventories	1,168.5	1,244.0
Finished case goods	516.8	477.2
	\$1,783.7	\$1,827.2

3. DERIVATIVE INSTRUMENTS:

Overview –

Our risk management and derivative accounting policies are presented in Notes 1 and 6 to our consolidated financial statements included in our 2015 Annual Report and have not changed significantly during the three months ended May 31, 2015.

Credit risk –

We are exposed to credit-related losses if the counterparties to our derivative contracts default. This credit risk is limited to the fair value of the derivative contracts. To manage this risk, we contract only with major financial institutions that have earned investment-grade credit ratings and with whom we have standard International Swaps and Derivatives Association agreements which allow for net settlement of the derivative contracts. We have also established counterparty credit guidelines that are regularly monitored. Because of these safeguards, we believe the risk of loss from counterparty default to be immaterial.

In addition, our derivative instruments are not subject to credit rating contingencies or collateral requirements. As of May 31, 2015, the estimated fair value of derivative instruments in a net liability position due to counterparties was \$75.9 million. If we were required to settle the net liability position under these derivative instruments on May 31, 2015, we would have had sufficient availability under our available liquidity on hand to satisfy this obligation.

Table of Contents

The aggregate notional value of outstanding derivative instruments is as follows:

	May 31, 2015	February 28, 2015
(in millions)		
Derivative instruments designated as hedging instruments

4. FAIR VALUE OF FINANCIAL INSTRUMENTS:

Authoritative guidance establishes a framework for measuring fair value and requires disclosures about fair value measurements for financial instruments. This guidance emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. It establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy includes three levels:

Level 1 inputs are quoted prices in active markets for identical assets or liabilities;

Level 2 inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset and liability, either directly or indirectly; and

Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

The methods and assumptions we use to estimate the fair value for each class of our financial instruments are presented in Notes 1 and 7 to our consolidated financial statements included in our 2015 Annual Report and have not changed significantly during the three months ended May 31, 2015. The carrying amounts of certain of our financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and notes payable to banks, approximate fair value as of May 31, 2015, and February 28, 2015, due to the relatively short maturity of these instruments. As of May 31, 2015, the carrying amount of long-term debt, including the current portion, was \$7,216.7 million, compared with an estimated fair value of \$7,559.7 million. As of February 28, 2015, the carrying amount of long-term debt, including the current portion, was \$7,295.6 million, compared with an estimated fair value of \$7,378.6 million.

The following table presents our financial assets and liabilities measured at estimated fair value on a recurring basis.

Our foreign currency contracts consist of foreign currency forward and option contracts which are valued using market-based inputs, obtained from independent pricing services, into valuation models. These valuation models require various inputs, including contractual terms, market foreign exchange prices, interest-rate yield curves and currency volatilities. Commodity derivative fair values are based on quotes from respective counterparties. Quotes are corroborated by using market data. Interest rate swap fair values are based on quotes from respective counterparties. Quotes are corroborated by using discounted cash flow calculations based upon forward interest-rate yield curves, which are obtained from independent pricing services. AFS debt securities are valued using market-based inputs into discounted cash flow models.

5. GOODWILL:

As of May 31, 2015, and February 28, 2015, we have accumulated impairment losses of \$232.2 million and \$231.0 million, respectively, within our Wine and Spirits segment.

Meiomi –

In June 2015, we signed a definitive agreement to acquire the Meiomi wine brand for approximately \$315 million, subject to customary closing conditions and adjustments. The transaction includes the acquisition of the Meiomi trademark, related inventories and certain grape supply contracts (“Meiomi”). The transaction is expected to close

around the beginning of August. The results of operations of Meiomì will be reported in the Wine and Spirits segment and will be included in our consolidated results of operations from the date of acquisition.

In addition, in April 2012, we entered into interest rate swap agreements which fixed our interest rates on \$500.0 million of our floating LIBOR rate debt at an average rate of 2.8% (exclusive of borrowing margins) through September 1, 2016.

Accounts receivable securitization facilities –

On September 29, 2014, we entered into an amended 364-day revolving trade accounts receivable securitization facility (the “CBI Facility”). Under the CBI Facility, trade accounts receivable generated by us and certain of our subsidiaries are sold by us to a wholly-owned bankruptcy remote single purpose subsidiary (the “CBI SPV”), which is consolidated by us for financial reporting purposes. The CBI Facility provides borrowing capacity of \$190.0 million up to \$290.0 million structured to account for the seasonality of our business, subject to further limitations based upon various pre-agreed formulas.

Also, on September 29, 2014, Crown Imports entered into a 364-day revolving trade accounts receivable securitization facility (the “Crown Facility”). Under the Crown Facility, trade accounts receivable generated by Crown Imports are sold by Crown Imports to its wholly-owned bankruptcy remote single purpose subsidiary (the “Crown SPV”), which is consolidated by us for financial reporting purposes. The Crown Facility provides

borrowing capacity of \$100.0 million up to \$160.0 million structured to account for the seasonality of Crown Imports' business.

As of May 31, 2015, our accounts receivable securitization facilities are as follows:

CBI Facility	\$—	—	% \$270.0
Crown Facility	\$—	—	% \$160.0

8. INCOME TAXES:

Our effective tax rate for the three months ended May 31, 2015, and May 31, 2014, was 31.5% and 32.5%, respectively. Our effective tax rates for the three months ended May 31, 2015, and May 31, 2014, were lower than the federal statutory rate of 35% primarily due to lower effective tax rates applicable to our foreign businesses. Our effective tax rate for the three months ended May 31, 2015, also benefited from a decrease in uncertain tax positions.

We are currently under examination by the Internal Revenue Service ("IRS"). Subsequent to May 31, 2015, we received a Revenue Agent's Report ("RAR") from the IRS proposing tax assessments for the 2010 and 2011 tax years. We disagree with certain assessments in this report and intend to submit a written protest stating our formal disagreement with the conclusions presented in the RAR. We believe that our position will be successfully sustained.

9. NET INCOME PER COMMON SHARE ATTRIBUTABLE TO CBI:

For the three months ended May 31, 2015, and May 31, 2014, net income per common share – diluted for Class A Common Stock has been calculated using the if-converted method. For the three months ended May 31, 2015, and May 31, 2014, net income per common share – diluted for Class B Convertible Common Stock is presented without assuming conversion into Class A Common Stock and is computed using the two-class computation method.

The computation of basic and diluted net income per common share is as follows:

(in millions, except per share data)	For the Three Months Ended May 31,	
	2015	2014
Net income attributable to CBI	\$238.6	\$206.7

11. CONDENSED CONSOLIDATING FINANCIAL INFORMATION:

The following information sets forth the condensed consolidating balance sheets as of May 31, 2015, and February 28, 2015, the condensed consolidating statements of comprehensive income for the three months ended May 31, 2015, and May 31, 2014, and the condensed consolidating statements of cash flows for the three months ended May 31, 2015, and May 31, 2014, for the parent company, our combined subsidiaries which guarantee our senior notes (“Subsidiary Guarantors”), our combined subsidiaries which are not Subsidiary Guarantors (primarily foreign subsidiaries) (“Subsidiary Nonguarantors”) and the Company. The Subsidiary Guarantors are 100% owned, directly or indirectly, by the parent company and the guarantees are joint and several obligations of each of the Subsidiary Guarantors. The guarantees are full and unconditional, as those terms are used in Rule 3-10 of Regulation S-X, except that a Subsidiary Guarantor can be automatically released and relieved of its obligations under certain customary

circumstances contained in the indentures governing our senior notes. These customary circumstances include, so long as other applicable provisions of the indentures are adhered to, the termination or release of a Subsidiary Guarantor's guarantee of other indebtedness or upon the legal defeasance or covenant defeasance or satisfaction and discharge of our senior notes. Separate financial statements for our Subsidiary Guarantors are not presented because we have

determined that such financial statements would not be material to investors. The accounting policies of the parent company, the Subsidiary Guarantors and the Subsidiary Nonguarantors are the same as those described for the Company in Note 1 to our consolidated financial statements included in our 2015 Annual Report. There are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to us in the form of cash dividends, loans or advances.

12. BUSINESS SEGMENT INFORMATION:

Our internal management financial reporting consists of two business divisions: (i) Beer and (ii) Wine and Spirits, and we report our operating results in three segments: (i) Beer, (ii) Wine and Spirits, and (iii) Corporate Operations and Other. In the Beer segment, we have an exclusive perpetual brand license to import, market and sell in the U.S. our Mexican beer portfolio. In the Wine and Spirits segment, we sell a large number of wine brands across all categories – table wine, sparkling wine and dessert wine – and across all price points – popular, premium, super-premium and fine wine, complemented by certain premium spirits brands. Amounts included in the Corporate Operations and

Other segment consist of costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations and global information technology. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in our chief operating decision maker's evaluation of the operating income performance of the other reportable segments. The business segments reflect how our operations are managed, how operating performance within the Company is evaluated by senior management and the structure of our internal financial reporting.

Table of Contents

In addition, management excludes items that affect comparability (“Comparable Adjustments”) from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segments. Segment operating performance and segment management compensation are evaluated based upon core segment operating income (loss). As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

We evaluate segment operating performance based on operating income (loss) of the respective business units. Comparable Adjustments that impacted comparability in our segment operating income (loss) for each period are as follows:

13. ACCOUNTING GUIDANCE NOT YET ADOPTED:

Revenue recognition –

In May 2014, the FASB issued guidance regarding the recognition of revenue from contracts with customers. Under this guidance, an entity will recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A five step process will be utilized to recognize revenue, as follows: (i) identify the contract with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract and (v) recognize revenue when (or as) the entity satisfies a performance obligation. Additionally, this guidance requires improved disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. We are required to adopt this guidance for our annual and interim periods beginning March 1, 2017, utilizing one of two methods: retrospective restatement for each reporting period presented at time of adoption, or retrospectively with the cumulative effect of initially applying this guidance recognized at the date of initial application. In April 2015, the FASB agreed to propose a one-year deferral of the revenue recognition standard's effective date for all entities. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Introduction

This MD&A provides additional information on our businesses, current developments, financial condition, cash flows and results of operations. It should be read in conjunction with our consolidated financial statements and notes thereto included herein (the "Financial Statements") and with our consolidated financial statements and notes included in our 2015 Annual Report. This MD&A is organized as follows:

- **Overview.** This section provides a general description of our business, which we believe is important in understanding the results of our operations, financial condition and potential future trends.

• **Strategy.** This section provides a description of our strategy on a business segment basis and a discussion of a recent development.

Results of operations. This section provides an analysis of our results of operations presented on a business segment basis. In addition, a brief description of transactions and other items that affect the comparability of the results is provided.

Financial liquidity and capital resources. This section provides an analysis of our cash flows and a discussion of the amount of financial capacity available to fund our ongoing operations and future commitments, as well as a discussion of other financing arrangements.

Overview

We are a leading international beverage alcohol company with a broad portfolio of consumer-preferred premium imported beer, wine and spirits brands complemented by other select beverage alcohol products. We are the third-largest producer and marketer of beer for the U.S. market and the world's leading premium wine company. We are the largest multi-category supplier (beer, wine and spirits) ("Multi-category Supplier") of beverage alcohol in the U.S., the leading producer and marketer of wine in Canada, and a leading producer and exporter of wine from New Zealand and Italy.

Our internal management financial reporting consists of two business divisions: (i) Beer and (ii) Wine and Spirits, and we report our operating results in three segments: (i) Beer, (ii) Wine and Spirits, and (iii) Corporate Operations and Other. In the Beer segment, we have an exclusive perpetual brand license to import, market and sell in the U.S. our Mexican beer portfolio. In the Wine and Spirits segment, we sell a large number of wine brands across all categories – table wine, sparkling wine and dessert wine – and across all price points – popular, premium, super-premium and fine wine, complemented by certain premium spirits brands. Amounts included in the Corporate Operations and Other segment consist of costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations and global information technology. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in our chief operating decision maker's evaluation of the operating income performance of the other reportable segments. The business segments reflect how our operations are managed, how operating performance is evaluated by senior management and the structure of our internal financial reporting.

Strategy

Our business strategy in the Beer segment includes the following: (i) continued focus on growing our premium Mexican beer portfolio in the U.S. through expanding distribution for key brands, as well as new product development and innovation within the existing portfolio of brands; (ii) completion of the required expansion of our brewery located in Nava, Coahuila, Mexico (the “Brewery”) from 10 million hectoliters production capacity to 20 million hectoliters production capacity by December 31, 2016, with a goal to complete the expansion in June

21

Table of Contents

2016; and (iii) incremental expansion of the Brewery from 20 million hectoliters production capacity to 25 million hectoliters production capacity by December 31, 2017. In addition, we are assessing the need for additional brewery production capacity beyond 25 million hectoliters.

Our business strategy in the Wine and Spirits segment is centered on continued focus on consumer-preferred premium wine brands, complemented by premium spirits. In this segment, we continue to focus on growing premium product categories. We have consolidated our U.S. distribution network in markets where it was feasible, which currently represents about 70% of our branded wine and spirits volume in the U.S., in order to obtain dedicated distributor selling resources which focus on our U.S. wine and spirits portfolio to drive organic growth. Throughout the terms of these contracts, we generally expect shipments on an annual basis to these distributors to essentially equal the distributors' shipments to retailers. In addition, we dedicate a large share of our sales and marketing resources to some of our well-known wine and spirits brands sold in the U.S., which comprise our U.S. Focus Brands ("Focus Brands"), as they represent a majority of our U.S. wine and spirits revenue and profitability, and generally have strong positions in their respective price segments. These brands include: Black Box, Clos du Bois, Estancia, Franciscan Estate, Inniskillin, Kim Crawford, Mark West, Mount Veeder, Robert Mondavi, Ruffino, Saved, Simi, SVEDKA Vodka, The Dreaming Tree and Wild Horse.

Marketing, sales and distribution of our products are managed on a geographic basis in order to fully leverage leading market positions. In addition, market dynamics and consumer trends vary across each of our markets. Within our primary market in the U.S., we offer a range of beverage alcohol products across the imported beer, branded wine and spirits categories, with separate distribution networks utilized for our imported beer portfolio and our wine and spirits portfolio. Within our next largest market, Canada, we offer a range of beverage alcohol products primarily across the branded wine category. The environment for our products is competitive in each of our markets.

We remain committed to our long-term financial model of growing sales, expanding margins and increasing cash flow in order to achieve earnings per share growth, reduce borrowings and pay quarterly cash dividends.

Recent Development

Meiomi

In June 2015, we signed a definitive agreement to acquire the Meiomi wine brand for approximately \$315 million, subject to customary closing conditions and adjustments. The transaction includes the acquisition of the Meiomi trademark, related inventories and certain grape supply contracts. The transaction is expected to close around the beginning of August. The results of operations of Meiomi will be reported in the Wine and Spirits segment and will be included in our consolidated results of operations from the date of acquisition.

Results of Operations

Financial Highlights

For the three months ended May 31, 2015 ("First Quarter 2016"), and May 31, 2014 ("First Quarter 2015"):

• Our Beer segment continued to drive improvement within our results of operations.

• Our net sales increased 7% primarily due to strong consumer demand within the Mexican beer portfolio.

- Operating income increased 9% primarily due to the strong consumer demand within the Mexican beer portfolio, partially offset by an increase in Comparable Adjustments.

Net income attributable to CBI and diluted net income per common share attributable to CBI both increased 15% primarily due to the items discussed above combined with lower interest expense.

Comparable Adjustments

Management excludes items that affect comparability from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segments. Segment operating performance and segment management compensation are evaluated based upon core segment operating income (loss). As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

As more fully described herein and in the related notes to the Financial Statements, the Comparable Adjustments that impacted comparability in our results for each period are as follows:

(in millions)	First Quarter 2016	First Quarter 2015
Cost of product sold		
Amortization of favorable interim supply agreement	\$(8.9) \$(7.6
Net gain (loss) on undesignated commodity derivative contracts	(5.2) 0.2

Total cost of product sold	(8.6) (7.9
Selling, general and administrative expenses		
Restructuring and related charges	(13.0) —
Integration and other acquisition-related costs	(5.3) (4.5
Total selling, general and administrative expenses	(18.3) (4.5
Comparable Adjustments	\$(26.9) \$(12.4

Cost of Product Sold

Favorable Interim Supply Agreement

In connection with the acquisition of the beer business, a temporary supply agreement was negotiated under a favorable pricing arrangement for the required volume of beer needed to fulfill expected U.S. demand in excess of the Brewery's capacity. Amortization of favorable interim supply agreement reflects amounts associated with non-Brewery product purchased from the date of acquisition which has been sold to our U.S. customers during the respective period.

Undesignated Commodity Derivative Contracts

Net gain (loss) on undesignated commodity derivative contracts represents a net gain (loss) from the changes in fair value of undesignated commodity derivative contracts. The net gain (loss) is reported outside of segment operating results until such time that the underlying exposure is recognized in the segment operating results. Upon settlement, the net gain (loss) from the changes in fair value of the undesignated commodity derivative contracts is reported in the appropriate operating segment, allowing our operating segments results to reflect the economic effects of the commodity derivative contracts without the resulting unrealized mark to fair value volatility.

Selling, General and Administrative Expenses

Restructuring and Related Charges

Restructuring and related charges consist primarily of employee termination benefit costs recognized in connection with our plan initiated in May 2015 to streamline and simplify processes, and shift resources and investment to long-term, profitable growth opportunities across the business.

23

Table of Contents

Integration and Other Acquisition-Related Costs

Integration and other acquisition-related costs were primarily associated with the continuing integration of the June 2013 beer business and the December 2014 glass production plant acquisitions.

24

Table of Contents

Wine and Spirits increased \$7.2 million primarily due to (i) branded wine volume growth due largely to the overlap of a planned reduction in inventory levels by one of our exclusive distributors in the U.S. for First Quarter 2015, (ii) favorable product mix shift (predominantly within the U.S. branded wine portfolio) and (iii) branded spirits portfolio growth; partially offset by (i) an unfavorable year-over-year foreign currency translation impact and (ii) the unfavorable overlap of the recognition of a contractually required payment for First Quarter 2015 from the previously discussed distributor equal to the approximate profit lost on the reduced sales associated with the inventory reduction.

Gross Profit

	First Quarter 2016	First Quarter 2015	% Increase	
(in millions)				
Beer	\$474.9	\$410.2	16	%
Wine and Spirits	270.8	267.8	1	%
Comparable Adjustments	(8.6) (7.9) 9	%
Consolidated gross profit	\$737.1	\$670.1	10	%

Gross profit increased \$67.0 million primarily due to an increase in Beer of \$64.7 million driven largely by the volume growth within our Mexican beer portfolio and the favorable impact from pricing in select markets. Wine and Spirits increased \$3.0 million primarily due to the favorable product mix shift and lower cost of product sold, partially offset by the unfavorable year-over-year foreign currency translation impact.

Gross profit as a percent of net sales increased to 45.2% for First Quarter 2016 compared to 43.9% for First Quarter 2015 primarily due to (i) the favorable impact from Beer pricing in select markets and (ii) lower Beer cost of product sold, partially offset by the unfavorable overlap of the payment associated with the reduction of the exclusive wine distributor's inventory levels.

Selling, General and Administrative Expenses

	First Quarter 2016	First Quarter 2015	% Increase	
(in millions)				
Beer	\$138.4	\$122.7	13	%
Wine and Spirits	126.6	124.6	2	%
Corporate Operations and Other	26.5	26.1	2	%
Comparable Adjustments	18.3	4.5	NM	
Consolidated selling, general and administrative expenses	\$309.8	\$277.9	11	%

NM = Not meaningful

Selling, general and administrative expenses increased \$31.9 million. This increase is primarily due to an increase in Beer of \$15.7 million and Comparable Adjustments of \$13.8 million. The increase in Beer is primarily due to an increase in advertising expenses of \$15.5 million, due largely to planned investment behind our Mexican beer portfolio.

Selling, general and administrative expenses as a percent of net sales increased to 19.0% for First Quarter 2016 as compared to 18.2% for First Quarter 2015 primarily due to the increase in Comparable Adjustments.

Table of Contents

Operating Income

	First Quarter 2016	First Quarter 2015	% Increase (Decrease)	
(in millions)				
Beer	\$336.5	\$287.5	17	%
Wine and Spirits	144.2	143.2	1	%
Corporate Operations and Other Comparable Adjustments	(26.5)	(26.1)	(2)	(%)
Consolidated operating income	\$427.3	\$392.2	9	%

Operating income increased \$35.1 million primarily due to the growth in our Beer segment as a result of the factors discussed above, partially offset by the increase in our Comparable Adjustments.

Interest Expense

Interest expense decreased to \$77.5 million for First Quarter 2016 from \$86.4 million for First Quarter 2015, a decrease of \$8.9 million, or (10%). This decrease was primarily due to lower average interest rates, partially offset by higher average borrowings.

Net Income Attributable to CBI

As a result of the above factors, net income attributable to CBI increased to \$238.6 million for First Quarter 2016 from \$206.7 million for First Quarter 2015, an increase of \$31.9 million, or 15%.

Financial Liquidity and Capital Resources

General

Our ability to consistently generate cash flow from operating activities is one of our most significant financial strengths. Our strong cash flows enable us to invest in our people and our brands, make appropriate capital investments, provide a quarterly cash dividend program, and from time-to-time, repurchase shares of our common stock and make strategic acquisitions that we believe will enhance stockholder value. Our primary source of liquidity has historically been cash flow from operating activities, except during annual grape harvests when we have relied on short-term borrowings. Our principal use of cash in our operating activities is for purchasing and carrying inventories and carrying seasonal accounts receivable. However, we expect our reliance on short-term borrowings to fund our annual grape harvests to be reduced given the historical cash flow from operating activities from the Beer segment. Historically, we have used cash flow from operating activities to repay our short-term borrowings and fund capital expenditures. We will continue to use our short-term borrowings, including our accounts receivable securitization facilities, to support our working capital requirements.

We have maintained adequate liquidity to meet working capital requirements, fund capital expenditures and repay scheduled principal and interest payments on debt. Absent deterioration of market conditions, we believe that cash flows from operating activities and financing activities, primarily short-term borrowings, will provide adequate resources to satisfy our working capital, scheduled principal and interest payments on debt, anticipated dividend payments and anticipated capital expenditure requirements for both our short-term and long-term capital needs, including our previously announced Brewery and glass production plant expansions.

Effect of exchange rate changes on cash and cash equivalents	(0.4) 5.0
Net increase in cash and cash equivalents	\$20.6	\$314.1

Operating Activities

Net cash provided by operating activities decreased \$26.6 million for First Quarter 2016. This decrease resulted primarily from higher income tax and interest payments, partially offset by an increase in cash provided by Beer due largely to strong volume growth in the Mexican beer portfolio. The higher income tax payments are predominantly due to the overlap of income tax refunds received in First Quarter 2015. The higher interest payments are primarily due to timing.

Financing Activities

Net cash used in financing activities increased \$266.5 million for First Quarter 2016 primarily from the following:

- Decreased short-term borrowings for First Quarter 2016 compared to First Quarter 2015;
- Increased scheduled principal payments of subsidiary long-term debt for First Quarter 2016; and
- Payment of quarterly cash dividends.

Debt

Total debt outstanding as of May 31, 2015, amounted to \$7,317.6 million, a decrease of \$30.4 million from February 28, 2015.

The majority of our outstanding borrowings as of May 31, 2015, consisted of fixed-rate senior unsecured notes, with maturities ranging from 2016 to 2024, and variable-rate senior secured term loan facilities under our 2014 Credit Agreement, with maturities ranging from 2018 to 2020.

We had the following borrowing capacity available under our 2014 Credit Agreement and our accounts receivable securitization facilities:

	Remaining Borrowing Capacity	
	May 31, 2015	June 30, 2015
(in millions)		
Revolving Credit Facility	\$834.7	\$834.8
CBI Facility	\$270.0	\$270.0
Crown Facility	\$160.0	\$160.0

The financial institutions participating in our 2014 Credit Agreement and our accounts receivable securitization facilities have complied with prior funding requests and we believe the financial institutions will comply with ongoing funding requests. However, there can be no assurances that any particular financial institution will continue to do so in

the future.

27

Table of Contents

As of May 31, 2015, we also have additional credit arrangements totaling \$426.8 million, with \$200.9 million outstanding under these arrangements. These arrangements primarily support the financing needs of our domestic and foreign subsidiary operations.

We have entered into interest rate swap agreements to manage our exposure to the volatility of the interest rates associated with our variable-rate senior secured term loan facilities. As a result of these agreements, we have fixed our interest rates on \$500.0 million of our floating LIBOR rate debt at an average rate of 2.8% (exclusive of borrowing margins) through September 1, 2016.

We and our subsidiaries are subject to covenants that are contained in the 2014 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, the payment of dividends, the making of certain investments, prepayments of certain debt, transactions with affiliates, agreements that restrict our non-guarantor subsidiaries from paying dividends, and dispositions of property, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to a minimum interest coverage ratio of 2.5x and a maximum net debt coverage ratio of 5.5x, both as defined in the 2014 Credit Agreement.

Our indentures relating to our outstanding senior notes contain certain covenants, including, but not limited to: (i) a limitation on liens on certain assets, (ii) a limitation on certain sale and leaseback transactions and (iii) restrictions on mergers, consolidations and the transfer of all or substantially all of our assets to another person.

As of May 31, 2015, we were in compliance with all of our covenants under both our 2014 Credit Agreement and our indentures, and have met all debt payment obligations.

For a complete discussion and presentation of all borrowings and available sources of borrowing, refer to Note 12 to our consolidated financial statements included in our 2015 Annual Report.

Common Stock Dividends

On June 30, 2015, our Board of Directors declared a quarterly cash dividend of \$0.31 per share of Class A Common Stock, \$0.28 per share of Class B Convertible Common Stock and \$0.28 per share of Class 1 Common Stock payable on August 25, 2015, to stockholders of record of each class on August 11, 2015.

We currently expect to pay quarterly cash dividends on our common stock in the future, but such payments are subject to approval of our Board of Directors and are dependent upon our financial condition, results of operations, capital requirements and other factors, including those set forth under Item 1A “Risk Factors” of our 2015 Annual Report.

Share Repurchase Programs

Our Board of Directors authorized the repurchase of up to \$1.0 billion of our Class A Common Stock and Class B Convertible Common Stock in April 2012 (the “2013 Authorization”). Share repurchases under the 2013 Authorization may be accomplished at management’s discretion from time to time based on market conditions, our cash and debt position, and other factors as determined by management. Shares may be repurchased through open market or privately negotiated transactions. We may fund future share repurchases with cash generated from operations, proceeds from borrowings under the accounts receivable securitization facilities or proceeds from revolver borrowings under our senior credit facility. Any repurchased shares will become treasury shares. As of May 31, 2015, we have \$703.3 million available for share repurchases under the 2013 Authorization.

For additional information, refer to Note 15 to our consolidated financial statements included in our 2015 Annual Report.

Information Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from those set forth in, or implied by, such forward-looking statements. All statements other than statements of historical fact included in this Quarterly Report on Form 10-Q, including without limitation (I) the statements under Part I – Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding (i) our business strategy, future financial position, prospects, plans and objectives of management, (ii) information concerning expected or potential actions of third parties, (iii) timing and source of funds for operating activities, (iv) the duration of the share repurchase implementation and source of funds for share repurchases, and (v) the amount and timing of future dividends, (II) the statements regarding the expansions of our Brewery and our glass production plant, including anticipated costs and timeframes for completion, and (III) the statements regarding the acquisition of Meiommi and its timing are forward-looking statements. When used in this Quarterly Report on Form 10-Q, the words “anticipate,” “intend,” “expect,” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words. All forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. In addition to the risks and uncertainties of ordinary business operations and conditions in the general economy and markets in which we compete, our forward-looking statements contained in this Quarterly Report on Form 10-Q are also subject to the risk and uncertainty that (i) the actual demand for our products will vary from current expectations due to, among other reasons, actual shipments to distributors and actual consumer demand, (ii) the amount and timing of and source of funds for any share repurchases may vary due to market conditions, our cash and debt position, the impact of the acquisition of the beer business, Brewery and glass production plant expansions and other factors as determined by management from time to time, (iii) the amount and timing of future dividends may differ from our current expectations if our ability to use cash flow to fund dividends is affected by unanticipated increases in total net debt, we are unable to generate cash flow at anticipated levels, or we fail to generate expected earnings, (iv) the timeframe and actual costs associated with the expansions of our Brewery and our glass production plant may vary from management’s current expectations due to market conditions, our cash and debt position, receipt of all required regulatory approvals by the expected dates and on the expected terms, and other factors as determined by management, and (v) the actual date of consummation of the Meiommi acquisition may vary from management’s current expectations due to the actual date of receipt of the required regulatory approval. The Meiommi acquisition is subject to the satisfaction of certain closing conditions including receipt of any necessary regulatory approvals. For additional information about risks and uncertainties that could adversely affect our forward-looking statements, please refer to Item 1A “Risk Factors” of our 2015 Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a result of our global operating, acquisition and financing activities, we are exposed to market risk associated with changes in foreign currency exchange rates, commodity prices and interest rates. To manage the volatility relating to these risks, we periodically purchase and/or sell derivative instruments including foreign currency forward and option contracts, commodity swap agreements and interest rate swap agreements. We use derivative instruments to reduce earnings and cash flow volatility resulting from shifts in market rates, as well as to hedge economic exposures. We do not enter into derivative instruments for trading or speculative purposes.

Foreign Currency and Commodity Price Risk

Foreign currency derivative instruments are or may be used to hedge existing foreign currency denominated assets and liabilities, forecasted foreign currency denominated sales/purchases to/from third parties as well as intercompany sales/purchases, intercompany principal and interest payments, and in connection with acquisitions or joint venture investments outside the U.S. As of May 31, 2015, we had exposures to foreign currency risk primarily related to the Mexican peso, euro, New Zealand dollar and Canadian dollar. Approximately 65% of our balance sheet exposures and forecasted transactional exposures for the remaining nine months of fiscal 2016 were hedged as of May 31, 2015.

Commodity derivative instruments are or may be used to hedge forecasted commodity purchases from third parties as either economic hedges or accounting hedges. As of May 31, 2015, exposures to commodity price risk which we are currently hedging primarily include diesel fuel, corn, aluminum and natural gas prices. Approximately 66% of our forecasted transactional exposures for the remaining nine months of fiscal 2016 were hedged as of May 31, 2015.

We have performed a sensitivity analysis to estimate our exposure to market risk of foreign exchange rates and commodity prices reflecting the impact of a hypothetical 10% adverse change in the applicable market. The volatility of the applicable rates and prices is dependent on many factors which cannot be forecasted with reliable accuracy. Losses or gains from the revaluation or settlement of the related underlying positions would substantially offset such gains or losses on the derivative instruments. The aggregate notional value, estimated fair value and sensitivity analysis for our open foreign currency and commodity derivative instruments are summarized as follows:

	Aggregate		Fair Value,		Increase (Decrease)	
	Notional Value		Net Asset (Liability)		in Fair Value – Hypothetical 10% Adverse Change	
	May 31, 2015	May 31, 2014	May 31, 2015	May 31, 2014	May 31, 2015	May 31, 2014
(in millions)						
Foreign currency contracts	\$1,482.3	\$1,659.7	\$(29.7) \$19.1	\$46.3	\$(47.1
Commodity derivative contracts	\$195.8	\$168.0	\$(26.0) \$0.7	\$16.8	\$(16.9

Interest Rate Risk

The estimated fair value of our fixed interest rate debt is subject to interest rate risk, credit risk and foreign currency risk. In addition, we also have variable interest rate debt outstanding (primarily LIBOR-based), certain of which includes a fixed margin subject to the same risks identified for our fixed interest rate debt.

As of May 31, 2015, and May 31, 2014, we had an outstanding cash flow designated interest rate swap agreement which fixed LIBOR interest rates (to minimize interest rate volatility) on \$500.0 million of our floating LIBOR rate debt at an average rate of 2.8% (exclusive of borrowing margins) through September 1, 2016. In addition, we had

offsetting undesignated interest rate swap agreements.

We have performed a sensitivity analysis to estimate our exposure to market risk of interest rates reflecting the impact of a hypothetical 1% increase in the prevailing interest rates. The volatility of the applicable rates is

dependent on many factors which cannot be forecasted with reliable accuracy. The aggregate notional value, estimated fair value and sensitivity analysis for our outstanding fixed and variable interest rate debt, including current maturities, and open interest rate derivative instruments are summarized as follows:

Fixed interest rate debt	\$4,395.5	\$4,097.6	\$(4,640.7)	\$(4,403.6)	\$(204.4)	\$(190.6)
Variable interest rate debt	\$2,923.2	\$3,099.9	\$(3,019.9)	\$(2,965.3)	\$(95.2)	\$(110.0)

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Our Chief Executive Officer and our Chief Financial Officer have concluded, based on their evaluation as of the end of the period covered by this report, that the Company's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) are effective to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

In connection with the foregoing evaluation by our Chief Executive Officer and our Chief Financial Officer, no changes were identified in the Company's "internal control over financial reporting" (as defined in the Securities Exchange Act of 1934 Rules 13a-15(f) and 15d-15(f)) that occurred during our fiscal quarter ended May 31, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
