DILLARD'S, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
Note 1. Basis of Presentation
The accompanying unaudited interim condensed consolidated financial statements of Dillard's, Inc. (the "Company") have been prepared in accordance with the rules of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended October 31, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending January 30, 2016 due to, among other things, the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015 filed with the SEC on March 25, 2015.

Note 2. Business Segments
The Company operates in two reportable segments: the operation of retail department stores ("retail operations") and a general contracting construction company ("construction").

For the Company's retail operations, the Company determined its operating segments on a store by store basis. Each store's operating performance has been aggregated into one reportable segment. The Company's operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard's name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

Note 4. Commitments and Contingencies
Various legal proceedings, in the form of lawsuits and claims, which occur in the normal course of business, are pending against the Company and its subsidiaries. In the opinion of management, disposition of these matters, individually or in the aggregate, is not expected to have a material adverse effect on the Company's financial position, cash flows or results of operations.

At October 31, 2015, letters of credit totaling $\$ 28.1$ million were issued under the Company's revolving credit facility.

## Note 5. Benefit Plans

The Company has an unfunded, nonqualified defined benefit plan ("Pension Plan") for its officers. The Pension Plan is noncontributory and provides benefits based on years of service and compensation during employment. The Company determines pension expense using an actuarial cost method to estimate the total benefits ultimately payable to officers and allocates this cost to service periods. The actuarial assumptions used to calculate pension costs are reviewed annually. The Company contributed $\$ 1.4$ million and $\$ 2.9$ million to the Pension Plan during the three and nine months ended October 31, 2015, respectively, and expects to make additional contributions to the Pension Plan of approximately $\$ 1.1$ million during the remainder of fiscal 2015.

The components of net periodic benefit costs are as follows (in thousands):

|  | Three Months Ended |  | Nine Months Ended |  |
| :---: | :---: | :---: | :---: | :---: |
|  | $\begin{aligned} & \text { October 31, } \\ & 2015 \end{aligned}$ | $\begin{aligned} & \text { November 1, } \\ & 2014 \end{aligned}$ | $\begin{aligned} & \text { October 31, } \\ & 2015 \end{aligned}$ | $\begin{aligned} & \text { November 1, } \\ & 2014 \end{aligned}$ |
| Components of net periodic benefit costs: |  |  |  |  |
| Service cost | \$983 | \$1,099 | \$2,949 | \$3,297 |
| Interest cost | 1,684 | 1,911 | 5,052 | 5,733 |
| Net actuarial loss | 924 | 665 | 2,772 | 1,995 |
| Net periodic benefit costs | \$3,591 | \$3,675 | \$10,773 | \$ 11,025 |

Net periodic benefit costs are included in selling, general and administrative expenses.
Note 6. Revolving Credit Agreement

In May 2015, the Company entered into a new $\$ 1.0$ billion senior unsecured revolving credit facility ("credit agreement") replacing the Company's previous secured revolving credit facility. The new credit agreement matures on May 13, 2020 and is available to the Company for working capital needs and general corporate purposes. The Company pays a variable rate of interest on borrowings under the credit agreement and a commitment fee to the participating banks based on the Company's debt rating. The rate of interest on borrowings is LIBOR plus $1.375 \%$, and the commitment fee for unused borrowings is $0.20 \%$ per annum. To be in compliance with the financial covenants of the credit agreement, the Company's total leverage ratio

## Table of Contents

cannot exceed 4.0 to 1.0 and the coverage ratio cannot be less than 2.5 to 1.0. At October 31, 2015, the Company was in compliance with all financial covenants related to the credit agreement.

At October 31, 2015, $\$ 126.0$ million in borrowings were outstanding and letters of credit totaling $\$ 28.1$ million were issued under the credit agreement. The weighted average interest rate under the credit agreement at October 31, 2015 was $1.56 \%$.

Note 7. Stock Repurchase Programs
The Company's Board of Directors has authorized the Company to repurchase the Company's Class A Common Stock under open-ended stock repurchase plans. These authorizations permit the Company to repurchase its Class A Common Stock in the open market, pursuant to preset trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934 or through privately negotiated transactions. The authorizations have no expiration date. The following is a summary of share repurchase activity for the periods indicated (in thousands, except per share data):

Cost of shares repurchased
Number of shares repurchased
Average price per share

| Three Months Ended | Nine Months Ended |  |  |
| :--- | :--- | :--- | :--- |
| October 31, | November 1, | October 31, | November 1, |

| $\$ 92.45$ | $\$ 109.89$ | $\$ 102.52$ | $\$ 104.44$ |

All repurchases of the Company's Class A Common Stock above were made at the market price at the trade date. Accordingly, all amounts paid to reacquire these shares were allocated to Treasury Stock. As of October 31, 2015, $\$ 117.5$ million of authorization remained under the Company's stock repurchase plans.

Note 8. Income Taxes
During the three and nine months ended October 31, 2015 and November 1, 2014, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes.

Note 9. Reclassifications from Accumulated Other Comprehensive Loss ("AOCL")
Reclassifications from AOCL are summarized as follows (in thousands):

| Details about AOCL Components | Amount Reclassified from AOCL |  |  |  |  |

Note 13. Recently Issued Accounting Standards
Revenue from Contracts with Customers
In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), which stipulates that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance

## Edgar Filing: DILLARDS INC - Form 10-Q

obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract and (5) recognize revenue when (or as) the entity satisfies a performance obligation. This update was amended by ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which deferred the effective date for the Company from the first quarter of fiscal 2017 to the first quarter of fiscal 2018 with early adoption permitted. The Company is currently assessing the impact of this update on its consolidated financial statements.

Presentation of Financial Statements - Going Concern
In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40), which requires management to evaluate, at each annual and interim reporting period, whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date the financial statements are issued and provide related disclosures. This ASU is effective for annual periods ending after December 15, 2016 and interim periods thereafter. Early application is permitted. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

## Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, to amend ASC Topic 835. The amendment adds the requirement for an entity to present debt issuance costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset and to report amortization of the debt issuance costs as interest expense. This update will be effective for the Company beginning in the first quarter of fiscal 2016. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements
In August 2015, the FASB issued ASU No. 2015-15, Interest-Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements, to provide authoritative guidance related to line-of-credit arrangements, which were not addressed in ASU No. 2015-03. An entity may defer and present debt issuance costs related to line-of-credit arrangements as an asset. Subsequently, the debt issuance costs may be amortized as interest expense ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. This update will be effective for the Company beginning in the first quarter of fiscal 2016. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

## Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU No. 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes, to simplify the presentation of deferred taxes in the statement of financial position. Under this amendment, entities will no longer be required to separate deferred income tax liabilities and assets into current and noncurrent amounts in a classified statement of financial position. Rather, the amendment requires deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The amendments in this update are effective for financial statements issued for annual periods beginning after December 15, 2016, and early application is permitted as of the beginning of an interim or annual reporting period. The Company is currently assessing the impact of this update on its consolidated financial statements.

## EXECUTIVE OVERVIEW

The Company's third quarter performance of fiscal 2015 was disappointing, as sales were weaker than expected. During the three months ended October 31, 2015, comparable store sales decreased 4\% over last year's third quarter. Gross margin from retail operations improved 11 basis points of sales over last year's third quarter. Weaker retail sales contributed to an 86 basis points of sales increase in retail operations selling, general and administrative expenses. Net income decreased to $\$ 45.7$ million ( $\$ 1.19$ per share) for the current year third quarter from $\$ 55.2$ million ( $\$ 1.30$ per share) for the prior year third quarter.

Synchrony Financial ("Synchrony") owned and managed Dillard's private label credit cards under the Synchrony Alliance that expired in November 2014. Following that scheduled expiration, Wells Fargo Bank, N.A. ("Wells Fargo") purchased the Dillard's private label card portfolio from Synchrony and began managing Dillard's private label cards under a new 10-year agreement ("Wells Fargo Alliance"). Under the Wells Fargo Alliance, Wells Fargo establishes and owns private label card accounts for our customers, retains the benefits and risks associated with the ownership of the accounts, provides key customer service functions, including new account openings, transaction authorization, billing adjustments and customer inquiries, receives the finance charge income and incurs the bad debts associated with those accounts.

Pursuant to the Wells Fargo Alliance, we receive on-going cash compensation from Wells Fargo based upon the portfolio's earnings. The compensation earned on the portfolio is determined monthly and has no recourse provisions. The amount the Company receives is dependent on the level of sales on Wells Fargo accounts, the level of balances carried on Wells Fargo accounts by Wells Fargo customers, payment rates on Wells Fargo accounts, finance charge rates and other fees on Wells Fargo accounts, the level of credit losses for the Wells Fargo accounts as well as Wells Fargo's ability to extend credit to our customers. We participate in the marketing of the private label cards, which includes the cost of customer reward programs. We accept payments on the private label cards in our stores as a convenience to customers who prefer to pay in person rather than by paying online or mailing their payments to Wells Fargo. The Wells Fargo Alliance expires in fiscal 2024.

The Company received income of approximately $\$ 78.2$ million and $\$ 85.2$ million from the Wells Fargo Alliance and former Synchrony Alliance during the nine months ended October 31, 2015 and November 1, 2014, respectively.

During the nine months ended November 1, 2014, the Company received proceeds of $\$ 9.9$ million from the sale of a store location, resulting in a gain of $\$ 5.9$ million that was recorded in gain on disposal of assets. The cash proceeds from this sale were originally held in escrow for the acquisition of replacement property under like-kind exchange agreements. The escrow accounts were administered by an intermediary. Pursuant to the like-kind exchange agreements, the cash was restricted for a maximum of 180 days from the date of the property sale pending the acquisition of replacement property. Changes in restricted cash balances are reflected as an investment activity in the accompanying Condensed Consolidated Statements of Cash Flows. During the nine months ended October 31, 2015, payments of $\$ 7.3$ million were made from restricted cash for like-kind property.

During the nine months ended October 31, 2015 the Company received proceeds of $\$ 19.4$ million primarily from the sale of three store locations, resulting in a gain of $\$ 9.5$ million that was recorded in gain on disposal of assets.

Capital expenditures were $\$ 141.9$ million and $\$ 124.1$ million for the nine months ended October 31, 2015 and November 1, 2014, respectively. The current year expenditures were primarily for the construction of new stores and the remodeling of existing stores. Capital expenditures for fiscal 2015 are expected to be approximately $\$ 150$ million compared to actual expenditures of $\$ 152$ million during fiscal 2014.

In August, the Company opened its new 200,000 square foot location at Fashion Place in Murray, Utah. The store replaced a 190,000 square foot location at the same center. In October, the Company opened its 155,000 square foot store location at Liberty Center in Cincinnati, Ohio as well as its 126,000 square foot location at Fremaux Town Center in Slidell, Louisiana.

In May 2015, as part of our overall liquidity management strategy and for peak working capital requirements, the Company entered into a new $\$ 1.0$ billion senior unsecured revolving credit facility, replacing the secured credit facility. The new credit agreement matures on May 13, 2020 and is available to the Company for working capital needs and general corporate purposes. Currently, the the rate of interest on borrowings is LIBOR plus $1.375 \%$, and the commitment fee for unused borrowings is $0.20 \%$ per annum. To be in compliance with the financial covenants of the credit agreement, the Company's total leverage ratio cannot exceed 4.0 to 1.0 and the coverage ratio cannot be less than 2.5 to 1.0 .

At October 31, 2015, $\$ 126.0$ million in borrowings were outstanding and letters of credit totaling $\$ 28.1$ million were issued under the credit agreement. The weighted average interest rate under the credit agreement at October 31, 2015 was $1.56 \%$.

At October 31, 2015, $\$ 117.5$ million of authorization remained under the Company's stock repurchase plans. The ultimate disposition of the repurchased stock has not been determined.

During fiscal 2015, the Company expects to finance its capital expenditures and its working capital requirements, including stock repurchases, from cash on hand, cash flows generated from operations and utilization of the credit facility. Depending on conditions in the capital markets and other factors, the Company may from time to time consider other possible financing transactions, the proceeds of which could be used to refinance current indebtedness or for other corporate purposes.
