Our total active membership premium in force increased approximately 2% during 2006 and represents the 14th consecutive year of increasing our membership fees. The membership persistency rate (defined as the number of memberships in force at the end of a 12 month period as a percentage of the total of memberships in force at the beginning of such period, plus new memberships sold during such period) was 71.4% for 2006.

Our fourth quarter 2006 corporate finance focus has again been on share repurchases. During the 4th quarter, we returned \$24.5 million to shareholders through the repurchase of 577,277 shares of common stock, at an average per share price of \$42.50. Since April 1999, we have returned \$296.0 million to shareholders through the purchase of 11.4 million shares, average price of \$26.02 per share, and \$17.1 million in dividends for a combined total of more than \$313 million representing more than 115 percent of our net earnings during the same timeframe. After our earnings conference call, we expect to continue our open market share purchases as we have remaining authorization and unused proceeds of approximately \$23 million from a term loan closed earlier in the year as well as additional funds that may be used for share purchases of approximately \$10 million which were generated during the last half of 2006. We have reduced the number of shares outstanding by approximately 42% from 23.6

million at March 31, 1999 to 13.6 million today.

We anticipate announcing our 2006 fourth quarter and yearly earnings on February 20, 2007 after the market closes and hosting a conference call to discuss such earnings on February 22, 2007.

Statements in this press release, other than purely historical information, regarding our future plans and objectives and expected operating results, dividends and share repurchases and statements of the assumptions underlying such statements, constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. The forward-looking statements contained herein are based on certain assumptions that may not be correct. They are subject to risks and uncertainties incident to our business that could cause actual results to differ materially from those described in the forward-looking statements. These risks and uncertainties are described in the reports and statements filed by us with the Securities and Exchange Commission, including (among others) those listed in our Form 10-K, Form 10-Q and Form 8-K, and include the risks that our membership persistency or renewal rates may decline, that we may not be able to continue to grow our memberships and earnings, that we are dependent on the continued active participation of our principal executive officer, that pending or future litigation may have a material adverse effect on us if resolved unfavorably to us, that we could be adversely affected by regulatory developments, that competition could adversely affect us, that we are substantially dependent on our marketing force, that our stock price may be affected by short sellers, that we have been unable to increase our employee group membership sales and that our active premium in force is not indicative of future revenue as a result of changes in active memberships from cancellations and additional membership sales. Please refer to pages 14 and 15 of our 2005 Form 10-K and pages 7 through 9 of our September 30, 2006 Form 10-Q for a more complete description of these risks.
