**Notes to Consolidated Financial Statements**

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

NOTE 1 - BASIS OF PRESENTATION AND OPINION OF MANAGEMENT

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all of the information and financial statement disclosures necessary for a fair presentation of consolidated financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. In the opinion of management, the information furnished herein includes all adjustments necessary to reflect a fair statement of the interim periods reported. All adjustments are of a normal and recurring nature. The December 25, 2004 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

The Company has adopted a 52 or 53 week fiscal year ending the last Saturday in December. The results of operations for the three months ended March 26, 2005 and March 27, 2004 are for 13 week periods.

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

NOTE 2 - INVENTORIES

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

Inventories, which are stated at the lower of cost or market with cost determined using the first-in, first-out method, consist of the following:

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

Despite the additional revenues, overhead remained relatively constant as a percentage of net sales. The Company continued to implement perpetual inventory systems at its supply facilities which resulted in more accurate overhead absorption based upon the improved financial data.

&nbsp;

Delivery expenses remained relatively unchanged as a percentage of revenues despite higher fuel costs. These higher fuel costs were offset by the increased number of fleet units produced in the first quarter of 2005. Such products are generally not delivered by the Company but are picked up by the customers.

&nbsp;

Selling, general and administrative expenses increased by \$1.0 million but declined to 7.2% of net sales for the quarter ended March 26, 2005 compared to 7.4% for the quarter ended March 27, 2004. Selling expenses increased primarily due to a reduction in cooperative marketing funds the Company received from chassis manufacturers in the first quarter of 2005 versus the first quarter of 2004. These funds, used to offset marketing and promotional expenses, were reduced by the chassis manufacturers due to their improving business conditions. Additionally, the Company experienced higher sales commission expense as a result of the additional revenues recorded in the first quarter of 2005 compared to the first quarter of 2004. General and administrative expenses increased primarily as a result of additional compensation expense related to the Company's incentive bonus plan which is based on pretax earnings.

Interest expense for the quarter ended March 26, 2005 was \$.5 million compared to \$.2 million for the quarter ended March 27, 2004. The increase in interest expense was attributable to higher levels of borrowings and the rise in interest rates. The increased borrowings resulted from carrying higher levels of inventories and accounts receivable as well as borrowings to fund 2004 capital expenditures of \$11.8 million. The increase in inventories resulted from the elevated costs of our major commodities, as discussed throughout our 2004 reports, and also from the increased inventory quantities necessary to support the Company's sales backlog. The higher accounts receivable level reflected the increase in net sales.

&nbsp;

The Company's effective income tax rate was 36.0% for the first quarter of 2005 compared to 38.2% experienced in the first quarter of 2004. The decrease in the Company's effective tax rate is attributable to additional tax deductions allowed manufacturers resulting from the 2004 American Jobs Creation Act and certain tax benefits resulting from the formation of a captive insurance company. The manufacturers' deduction will lower the Company's effective tax rate by approximately one percent. In late 2004, after a review of insurance risk management alternatives, the Company restructured certain of its legal entities and formed a wholly owned captive insurance company which resulted in a further reduction in the Company's effective tax rate.

&nbsp;

Net income for the quarter ended March 26, 2005 was \$3.1 million compared to \$1.0 million for the quarter ended March 27, 2004. Basic and diluted earnings per share were \$.25 for the quarter ended March 26, 2005 compared to \$.08 per share for the quarter ended March 27, 2004.

Critical Accounting Policies and Estimates

&nbsp;

Management's discussion and analysis of its financial position and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The Company's significant accounting policies are discussed in Note 1 of the Notes to Consolidated Financial Statements included in the Annual Report on Form 10-K for the year ended December 25, 2004. In management's opinion, the Company's critical accounting policies include allowance for doubtful accounts, allowance for bad debts and obsolete inventories, inventory relief, accrued insurance and accrued warranty.

&nbsp;

**Allowance for Doubtful Accounts** - The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of customers to make required payments. If the financial condition of customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required which would affect future operating results.

&nbsp;

**Excess and Obsolete Inventories** - The Company must make estimates regarding the future use of products and provides a provision for obsolete or slow-moving inventories. If actual product life-cycles, product demand or market conditions are less favorable than those projected by management, additional inventory write-downs may be required which would affect future operating results.

&nbsp;

**Inventory Relief** - For monthly and quarterly financial reporting, cost of sales is recorded and inventories are relieved by the unit standard bills of material. Because of the customized nature of the Company's products, it is difficult to place full reliance on the unit standard bills of material for accurate relief of inventories. Although the Company continues to refine the process of creating accurate bills of material, manual adjustments, which are based on estimates, are necessary to assure correct relief of inventories for products. The estimate calculations consider the customized nature of products, historical inventory relief percentages, scrap variances and other factors which could impact inventory relief. The accuracy of the inventory relief is not known until completion of the annual physical inventories and it is not practical to consider more frequent physical inventories because of the sales order backlog and the costs associated with ceasing production for the purpose of conducting physical inventories. If the annual physical inventories show significant favorable or unfavorable adjustments, such adjustments will affect future operating results.

&nbsp;

Accrued Insurance - The Company has a self-insured retention against product liability claims with insurance coverage over a above the retention. The Company is also self-insured for a portion of its employee medical benefits and workers' compensati Product liability claims are routinely reviewed by the Company's insurance carrier and management routinely reviews other self-insurance risks for purposes of establishing ultimate loss estimates. In addition, management must determine estimated lia for claims incurred but not reported. Such estimates and any subsequent changes in estimates may result in adjustments to the Company's operating results in the future.

&nbsp;

&nbsp;

Accrued Warranty - The Company provides limited warranties for periods of up to five years from the date of retail sales. Esti warranty costs are provided for at the time of sale and are based upon historical experience.

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

Forward-Looking Statements

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

This report contains forward-looking statements, other than historical facts, which reflect the view of the Company's management with respect to future events. When used in this report, words such as "believe," "expect," "anticipate," "estimate," "intend," and similar expressions, as they relate to the Company or its plans or operations, identify forward-looking statements. Such forward-looking statements are based on assumptions made by and information currently available to the Company's management. Although management believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations are reasonable, and it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from such expectations include, without limitation, limitation on the availability of chassis on which the Company's product is dependent, availability of raw materials, raw material cost increases, and severe interest rate increases. Furthermore, the Company can provide no assurance that such raw material cost increases can be passed on to its customers through implementation of price increases for the Company's products. The forward-looking statements contained herein reflect the current views of the Company's management with respect to future events and are subject to those factors and other risks, uncertainties and assumptions relating to the operations, results of operations, cash flows and financial position of the Company. The Company assumes no obligation to update the forward-looking statements contained herein to update the reasons actual results could differ from those contemplated by such forward-looking statements.

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

Control Risks

&nbsp;

While the Company believes its control systems are effective, there are inherent limitations in all control systems, and misstatements due to error or fraud may occur and not be detected. The Company continues to take action to assure compliance with the internal controls, disclosure controls, and other requirements of the Sarbanes-Oxley Act of 2002. Our management, including our Chief Executive Officer and Chief Financial Officer, cannot guarantee that our internal controls and disclosure controls will prevent all possible errors or all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints, and the benefit of controls must be relative to their costs. Because of the inherent limitations
