CSP Inc. Reports 18% Year-Over-Year Revenue Growth for First-Quarter
of Fiscal 2011

Reports \$0.11 Earnings Per Diluted Share in Q1 Compared with Loss of \$0.21 in Year-Earlier Period;

MODCOMP Gross Margins Climb 300 bps as Company Makes Progress on Strategy to Grow Consulting and
Managed Service Business

BILLERICA, MA, February 7, 2011 - CSP Inc. (NASDAQ: CSPI), a provider of IT solutions, systems integration services and dense cluster computing systems, today reported financial results for the first quarter of fiscal 2011 ended December 31, 2010.

For the first quarter of fiscal 2011, total sales increased 18% to \$22.1 million from \$18.7 million in the first quarter of fiscal 2010. Gross profit for the first quarter increased 97% to \$4.5 million and gross profit margin increased 800 basis points to 20% from 12%. Net income for the first quarter of fiscal 2011 was \$0.4 million, or \$0.11 per diluted share, compared with a net loss of \$0.7 million, or \$0.21 per share, in the first quarter of fiscal 2010.

The Company's cash and short-term investments increased by approximately \$0.4 million to \$16 million at December 31, 2010 compared with \$15.5 million for the fiscal year ended September 30, 2010. CSP purchased approximately \$200,000 of common stock during the quarter. CSP's cash position may vary significantly from quarter to quarter due to the high working capital requirements needed to fund large projects at both its Systems and its Services and Systems Integration segments.

Management Comments

"We began the fiscal year with solid top- and bottom-line financial results in the first quarter," said CSP Chairman and Chief Executive Officer Alexander R. Lupinetti. "Revenue grew by 18%, driven by 11% growth at our Service and Systems Integration business and a triple-digit increase at our Systems business."

"We also performed well on the bottom-line, reporting \$0.11 per diluted share for the quarter," said Lupinetti. "Our strong bottom-line results benefitted from \$1.4 million in royalties from Lockheed Martin for the E2D Advanced Hawkeye intelligence, surveillance and reconnaissance (ISR) aircraft. In addition, we grew gross margins at Service and Systems Integration as a result of a greater number of smaller, higher-margin deals in the U.S., a larger portion of newer products that carry higher-margins, as well as increased services utilization in Germany."

"Looking forward, we plan to continue to make progress at our Service and Systems Integration segment in attracting higher-margin consulting, as well as solutions and managed services business. We are pleased with our progress thus far, and expect this effort to contribute positively to our margin performance for the remainder of fiscal 2011 and beyond. At our Systems segment, we are well positioned with innovative new products to capitalize on the military's network-centric warfare priorities, as well as supporting the next Low Rate Initial Production Phases of the E2D program. In addition to driving organic growth through investment in new technologies, we also are committed to accelerating revenues by executing on our acquisition strategy."
