GEORGIA-PACIFIC CORPORATION--GEORGIA-PACIFIC GROUP

CANADIAN EMPLOYEES STOCK PURCHASE PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2001 AND 2000

1. GENERAL

The Georgia-Pacific Corporation--Georgia-Pacific Group Canadian Employees Stock Purchase Plan (the "Plan"), formerly the Fort James Corporation Canadian Employees Stock Purchase Plan, was originally adopted by the board of directors of the Fort James Corporation ("Fort James") for the benefit of the employees of certain operating subsidiaries of Fort James located in Canada (the "Participating Companies"). As of December 31, 1999, the Participating Companies included Fort James Marathon, Ltd. ("Marathon") and Fort James Canada, Inc. ("FJ Canada"). On January 31, 2000, Fort James sold Marathon to a joint venture between Tembec, Inc. and Kruger, Inc., and as a result, FJ Canada was the only Participating Company as of December 31, 2000.

As a result of the sale of Marathon, the Marathon employees were no longer eligible to participate in the Plan as of January 22, 2000. The account balances of Marathon participants were distributed to such participants by March 22, 2000 in one of the following forms of distribution: (i) cash, (ii) share certificates, or (iii) transfer of shares to a participant's brokerage account.

On November 27, 2000, Fort James was acquired by Georgia-Pacific Corporation ("G-P"). As part of the acquisition, G-P exchanged \$29.60 in cash and .2644 shares of Georgia-Pacific Group common stock ("G-P Group Stock"), par value \$.80 per share, for each outstanding share of Fort James common stock ("FJ Stock"), par value \$.10 per share.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates.

Cash

Substantially all contributions to the Plan are initially invested in an interest-bearing account pending their investment in G-P Group Stock. Interest earned on such cash balances is credited to the participants' accounts. Cash balances are stated at cost, which approximates market value.

-2-

Investment Valuation

The investments include G-P Group Stock and Crown Vantage Inc. common stock ("CV Stock") (Note 3). The investments in G-P Group Stock and CV Stock are stated at market value, based on the closing price on the New York Stock Exchange Composite Tape (the Over-the-Counter Bulletin Board for CV Stock) on the last trading day of the period. The closing market value per share of G-P Group Stock was \$27.61 and \$31.125 on December 31, 2001 and 2000, respectively. The closing market value per share of the CV Stock was \$.01 and \$.02 on December 31, 2001 and 2000, respectively.

Security Transactions and Related Investment Income

Security transactions are accounted for as of the trade date, and dividend income is recorded as of the date of declaration. The cost of securities sold is determined on an average cost basis. The assets of the Plan are held by Canada Trust ("the Trustee") under a trust agreement dated August 23, 1989.

Contributions and Deposits

Participant and employer contributions are recorded on an accrual basis as of the date the participants' contributions are withheld from the participants' compensation. Participant and employer contributions are transferred to the Trustee on a monthly basis. The Trustee uses such contributions to periodically purchase shares of G-P Group Stock, which are allocated to each participant's account. Residual cash amounts held by the Trustee are carried forward to the next month.

Foreign Currency Remeasurement

The functional currency of the Plan is the U.S. dollar. Assets and liabilities of the Plan (except investments in common stock, which are stated at the U.S. dollar market value) are remeasured from Canadian dollars to U.S. dollars at the applicable year-end exchange rate. The cost of investments in common stock and the related unrealized appreciation or depreciation are remeasured at applicable historical exchange rates. Investment income, contributions and deposits, and withdrawals and expenditures are remeasured at average exchange rates for the three years ended December 31, 2001. Foreign currency remeasurement gains and losses are included in the statements of changes in net assets available for benefits.

Withdrawals

Participants may elect, at any time, to either withdraw whole shares of common stock or have their shares

sold and have the net cash proceeds distributed to them. A participant who elects an in-service withdrawal will not be allowed to make contributions to the Plan for a period of three months from the date of the withdrawal. Additionally, the participant will not receive an "Additional Employer Contribution" (as defined in Note 3), if the participant elects an in-service withdrawal from his/her "Restricted Account" (as defined in Note 3) within the preceding two calendar years before such Additional Employer Contribution is made to the Plan. Withdrawals of common stock from the Plan by participants are accounted for at the average historical cost of the common stock distributed plus cash paid in lieu of fractional shares, where applicable. Withdrawals in cash or in connection with shares sold for distributions of fractional shares are accounted for at the fair market value of the related common stock. Any participant contributions, which have not yet been applied to the purchase of common stock, will also be paid to each withdrawing participant.

Administrative Costs

The Plan is reimbursed by the Participating Companies for its administrative and operating costs, except for brokerage fees. Brokerage fees are included in the cost of acquiring common stock and thus are borne by the participants.

-3-

Risks and Uncertainties

Investment securities, in general, are exposed to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur and that such changes could materially affect the amounts reported in the financial statements.

3. DESCRIPTION OF PLAN

The Plan was originally established to enable eligible employees of certain Fort James subsidiaries located in Canada to acquire an ownership interest in Fort James, the ultimate holding company. Employees become eligible to participate in the Plan after 30 days of employment. On November 27, 2000, G-P assumed sponsorship of the Plan and continues to maintain the Plan to allow for the investment in G-P Group Stock by employees of Fort James Canada.

On August 28, 1995, Fort James spun off part of its Communications Papers business, as well as the specialty paper-based portion of its Packaging Business, into a new company, Crown Vantage, Inc. ("Crown Vantage"). On August 25, 1995, Fort James shareholders received one share of CV Stock for each ten shares of FJ Stock held by the shareholder. Following the spin-off, the Plan was amended to allow for the inclusion of CV Stock as an investment. However, participants were not permitted to direct the investment of their future contributions in CV Stock. A participant may receive a distribution, at any time, of all or a portion of CV Stock credited to the participant's account in accordance with the withdrawal provisions of the Plan.

Participants may elect to contribute into the Plan, through payroll deductions, from 1% to 10% of their compensation to be used to purchase G-P Group Stock for their benefit. One hundred percent of a participant's contributions are invested in G-P Group Stock. Participant contributions of up to 6% of compensation ("Basic Member Contributions") are matched by the Participating Companies ("Basic Employer Contributions") based on the following schedule:

Participant's Contributions	Participating Company's Contributions as a Percentage of Participant's Contributions
1% of compensation	100%
2% of compensation	65%
3% to 6% of compensation	50%

The Participating Companies make no contributions with respect to a participant's contribution in excess of 6% of the participant's compensation.

The Participating Companies make Additional Employer Contributions on or before the March 31 of each calendar year with respect to each participant in its employ, on the preceding December 31, who has not withdrawn any common stock from his Restricted Account (hereinafter defined) during either of the two immediately preceding calendar years. The amount of the Additional Employer Contribution allocated to the participant's account equals 10% of the participant's aggregate Basic Employer Contributions made during the two preceding calendar years.

Each participant's Restricted Account includes the Basic Member Contributions and Basic Employer Contributions made at any time during the current or immediately preceding calendar year, and any G-P Group Stock or CV Common Stock purchased with such contributions

The Additional Employer Contribution receivable reflected on the statement of net assets available for benefits as of December 31, 2001 represents the accrued contribution related to the 2000 Basic

-4-

Employer Contributions of qualifying participants to be paid to the Plan by March 31, 2002. The Additional Employer Contribution accrued as of December 31, 2000, which related to the 1999 Basic Employer Contributions of qualifying participants, was paid to the Plan before March 31, 2001.

Each participant is fully vested in his/her contributions, Basic Employer Contributions, Additional Employer Contributions, and any earnings thereon at all times.

6. TAX STATUS
