10. Effective at the beginning of 2007, the Company adopted the provisions of FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. The adoption of FIN 48 resulted in no adjustment to beginning retained earnings.

At the beginning of 2007, the Company's liability for uncertain tax positions was \$5.5 million. Unrecognized tax benefits of \$4.9 million would affect the Company's effective tax rate if recognized. The Company records penalties and accrued interest related to uncertain tax positions in income tax expense. At the beginning of 2007, approximately \$0.6 million was included in the liability for uncertain tax positions for the possible payment of interest and penalties. There were no significant changes in components of the liability in the first quarter of 2007.

With few exceptions, the Company is no longer subject to U.S. federal, state and local, or foreign income tax examinations by tax authorities for years prior to 2001. The Company's U.S. income tax returns for 2004 and 2005 are currently under examination by the IRS. An estimate of the range of possible changes that may result from the examination cannot be made at this time.

Approximately \$1 million of unrecognized tax benefits relate to items that are affected by expiring statute of limitations within the next 12 months.

Item 2.

GRACO INC. AND SUBSIDIARIES

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Results of Operations

First quarter net earnings of \$33.7 million were 5 percent below net earnings in the first quarter last year. The decrease resulted from a lower gross margin rate and higher expenses, which more than offset the favorable impact of a 3 percent increase in sales.

Results include the operations of Lubriquip, which was acquired in July 2006. The integration of Lubriquip is on track for completion by the end of the year and the consolidation of Gusmer operations was completed in the first quarter. Costs and expenses related to the integration and consolidation activities totaled approximately \$1 million in the first quarter of 2007.

Foreign currency translation rates had a favorable impact on first quarter sales and net earnings. Translated at consistent exchange rates, sales increased 1 percent and net earnings decreased 8 percent.

Net Sales

Sales by reportable segment and geographic area were as follows (in thousands):

	<u>Thirteen Weeks Ended</u>	
	<u>March 20, 2007</u>	<u>March 31, 2006</u>
By Segment		
Industrial	\$105,065	\$100,160
Contractor	69,751	74,352
Lubrication	22,679	17,704
	<hr/>	<hr/>
Consolidated	\$197,495	\$192,216
	<hr/>	<hr/>
By Geographic Area		
Americas ¹	\$120,546	\$132,212
Europe ²	49,377	39,546
Asia Pacific	27,572	20,458
	<hr/>	<hr/>
Consolidated	\$197,495	\$192,216
	<hr/>	<hr/>

¹ North and South America, including the U.S.

² Europe, Africa and Middle East

Industrial segment sales increased 5 percent. A decrease in the Americas was more than offset by double-digit percentage increases in Europe and Asia Pacific.

Contractor segment sales decreased 6 percent. Segment sales in Europe increased 40 percent while sales were lower in the Americas and Asia Pacific. In the Americas, growth in the home center channel was not enough to offset the decline in the professional paint stores channel.

Lubrication segment sales increased 28 percent due to sales of Lubriquip products, acquired in mid-2006. Sales in this segment increased in all geographic areas.

Gross Profit

Gross profit as a percentage of sales was 53.1 percent compared to 53.7 percent for the first quarter last year. The decrease was due mainly to lower margin rates on Lubriquip products and higher production and material costs, offset somewhat by the favorable impacts of currency translation and pricing.

Operating Expenses

Total operating expenses increased \$4 million including approximately \$1.5 million related to Lubriquip. The Contractor segment incurred approximately \$1 million of expenses related to the market testing of a new line of sprayers in the home center channel.

Income Taxes

The effective tax rate of 35 percent was the same as last year's rate for the first quarter.

Liquidity and Capital Resources

Significant uses of cash in the first quarter of 2007 included \$24 million for purchases and retirement of Company common stock, \$13 million for capital additions and \$11 million for payment of dividends. During the first quarter of 2006, significant uses of cash included \$17 million for purchases and retirement of Company common stock and \$10 million for dividends.

At March 30, 2007, the Company had various lines of credit totaling \$145 million, of which \$115 million was unused. Internally generated funds and unused financing sources provide the Company with the financial flexibility to meet liquidity needs.

Outlook

First quarter sales fell short of expectations due mostly to soft demand in the North American Industrial and Contractor businesses. Management expects that 2007 will continue to be a challenging sales growth environment in North America. Spending over the remainder of the year will be adjusted accordingly, however, the Company will continue to invest for the future by funding key growth strategies.
