AMERICAN PHYSICIANS SERVICE GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2005
(Unaudited)

1. GENERAL

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The consolidated

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

financial statements for the three months ended March 31, 2005 and 2004 reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. Such adjustments consist of only items of a normal recurring nature. These consolidated financial statements have not been audited by our independent registered public accounting firm. The operating results for the interim periods are not necessarily indicative of results for the full fiscal year.

The notes to consolidated financial statements appearing in our Annual Report on Form 10-K for the year ended December 31, 2004 filed with the Securities Exchange Commission should be read in conjunction with this Quarterly Report on Form 10-Q. There have been no significant changes in the information reported in those notes other than from normal business activities.

Certain reclassifications have been made to amounts in prior periods to be consistent with the 2005 presentation.

2. MANAGEMENT'S ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. CONTINGENCIES

The Internal Revenue Service ("the IRS") has examined our federal income tax return for the year ended December 31, 2003. On April 13, 2005 we received notification that the IRS disagrees with the timing of bad debt expenses deducted for tax purposes in 2003 related to worthless loans receivable. Although we received no payments on such receivable, the debtor

- 9 -

continued to operate after 2003. Even though the debtor ultimately went out of business during the quarter ended March 31, 2005, the IRS' position is that it was not determinable that the loans were worthless in 2003. We believe the significant insolvency of the debtor, the presence of debt senior to our own, and the lack of value in the assets or the operations of the debtor were clear indications that our loans would not be repaid and support our deduction in 2003. Although the deduction would be allowed for the 2005 tax year, interest on the perceived underpayment in the 2003 year would be approximately \$82,000. We are evaluating our course of action, including challenging the findings of the IRS and, accordingly, have made no provision for this matter in our financial statements as of and for the period ended March 31, 2005.

We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

4. GAIN ON SALE OF ASSETS

During the three months ended March 31, 2005, we recognized \$122,000 of deferred gain related to the November 2001 sale and subsequent leaseback of real

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

estate to Prime Medical. Due to our continuing involvement in the property, we deferred recognizing approximately \$2,400,000 of the approximately \$5,100,000 gain and are recognizing it in earnings, as a reduction of rent expense, monthly through November 2006. A total of \$813,000 remains to be recognized in the coming twenty months. In addition, 15% of the gain (\$760,000) related to our then 15% ownership in the purchaser, was deferred. As our ownership percentage in Prime declines through our sales of Prime common stock, we recognize these gains proportionately to our reduction of our interest in Prime. During the first three months of 2005 we recognized \$35,000 of these deferred gains, leaving a balance of approximately \$144,000 remaining to be recognized.

5. GAIN ON SALE OF INVESTMENTS

The gains resulted from the sale of available-for-sale equity securities. During the three months ended March 31, 2005, we received net cash proceeds of approximately \$1,154,000 and recognized gains of \$630,000 resulting from these sales.

6. LOSS ON IMPAIRMENT OF INVESTMENT

On June 4, 2003 we purchased from Financial Industries Corporation ("FIC") (OTC: FNIN.PK) and a foundation 339,879 shares of FIC's common stock as an investment. Earlier in 2003 we had purchased 45,121 FIC shares in the open market. The 385,000 shares represent an approximate 4% ownership in FIC. The aggregate purchase price was approximately \$5,647,000, which was all sourced from our cash reserves. The shares purchased from FIC and the foundation are not registered, but are subject to a registration rights agreement requiring FIC's best efforts to register them within one year of the transaction. Due to FIC's delay in filing its 2003 Form 10-K and its subsequent 10-Q's and 10-K, it has not been able to register these shares and was delisted from the NASDAQ exchange in July, 2004.

- 10 -

During 2004, the value of our investment in FIC had declined significantly. On October 12, 2004, we determined that this decline in market price should be considered "other than temporary" as defined in Statements of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities, as amended. Consequently, we recorded pretax charges to earnings totaling \$2,567,000 during the third and fourth quarters of 2004. These charges reduced our cost basis in FIC from \$5,647,000, or \$14.67 per share, to \$3,080,000, or \$8.00 per share which is equal to the quoted market price of FIC shares on December 31, 2004. As discussed in our Form 10-K dated December 31, 2004, we believe the decline in the market price of FIC has been brought about by its failure to file its 2003 Form 10-K and its subsequent de-listing from the NASDAQ Stock Market. We had expected FIC to bring its filings current and pursue restoring its exchange listing by March 31, 2005. These events have not yet occurred. As a result, we chose to take an additional pretax charge to earnings during the current period of \$39,000, further reducing our cost basis in FIC to \$3,042,000, or \$7.90 per share which is equal to the quoted market price of FIC shares on March 31, 2005. While we currently continue to have the ability and the intent to hold the stock indefinitely, we concluded that the additional uncertainty created by the late filings together with the lack of current financial information dictated that the decline should be viewed as other than temporary.

7. GAIN ON FORGIVENESS OF DEBT

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

We recorded \$0 and \$63,000 during the three months ended March 31, 2005 and 2004, respectively, as gain on forgiveness of debt. This represents that amount of liability that was released in the respective period by participants in our loan to an affiliate, net of \$15,000 interest due them from prior period payments made by Uncommon Care. Due to poor operating results, Uncommon Care was in default and not making scheduled payments under its loan agreement with us in which the participations had been sold. As a result, the loan participants released us from any obligations under the participation agreements.

8. INVESTMENT IN AVAILABLE-FOR-SALE EQUITY SECURITIES

A significant portion of this balance sheet account is comprised of our investment in FIC common stock. As mentioned in Footnote 6 above, during the current quarter, we recognized an "other than temporary" impairment loss and, accordingly, our cost basis in the 385,000 shares of FIC common stock we own was reduced from \$8.00 per share to \$7.90 per share. We classify all of these shares as securities available-for-sale and record temporary unrealized changes in their value, net of tax, in our balance sheet as part of Accumulated Other Comprehensive Income (Loss) in Stockholders' Equity. The effect of the "other than temporary" impairment loss of \$39,000 was to reclassify from accumulated other comprehensive income the unrealized losses to realized losses in the statement of operations.

As part of this transaction we were granted options to purchase an additional 323,000 shares of FIC's common stock at \$16.42 per share. There is a significant revenue-related performance requirement that must be met before these options are exercisable. There are presently no registered FIC shares available to issue upon the exercise of these options. We have assigned no value to these options.

- 11 -

9. INVESTMENT IN AVAILABLE-FOR-SALE FIXED INCOME SECURITIES

We have invested primarily in U.S. government-backed securities with maturities varying from one to three years, as well as three corporate bonds with Standard and Poor's ratings of no lower than B (investment grade).

10. ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consists of the following:

	March 31 2005	December 31 2004
Commissions payable	\$ 823,000	\$ 1,260,000
Taxes payable	250,000	205,000
Vacation	153,000	153,000
401(k) plan matching	83,000	169,000
Other accrued liabilities	96,000	55,000
	<u>\$ 1,404,000</u>	<u>\$ 1,842,000</u>
	=====	=====

11. NET INCOME PER SHARE

Basic income per share is based on the weighted average shares outstanding without any dilutive effects considered. Diluted income per share

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

reflects dilution from all contingently issuable shares, such as options and convertible debt. A reconciliation of earnings and weighted average shares outstanding used in the calculation of basic and diluted earnings per share from operations follows:

	For the Three Months Ended March 31, 2005		
	Income (Numerator)	Shares (Denominator)	Per Share Amount
Basic EPS			
Net income	\$ 853,000	2,642,000	\$ 0.32
			=====
Diluted EPS			
Effect of dilutive securities	--	225,000	
Net income	\$ 853,000	2,867,000	\$ 0.30
	=====	=====	=====

- 12 -

	For the Three Months Ended March 31, 2004		
	Income (Numerator)	Shares (Denominator)	Per Share Amount
Basic EPS			
Net income	\$ 694,000	2,473,000	\$ 0.28
			=====
Diluted EPS			
Effect of dilutive securities	--	296,000	
Net income	\$ 694,000	2,769,000	\$ 0.25
	=====	=====	=====

12. SEGMENT INFORMATION

The Company's segments are distinct by type of service provided. Comparative financial data for the three and three month periods ended March 31, 2005 and 2004 are shown as follows:

	Three months ended March 31,	
	2005	2004

	=====	=====

13. STOCK-BASED COMPENSATION

We have adopted the disclosure-only provisions of Statement of Accounting Standards No. 123, Accounting for Stock-Based Compensation ("SFAS 123"), as amended by SFAS 148, "Accounting for Stock-Based Compensation - Transition and Disclosure", but measure compensation expense for our stock-based employee compensation plans using the intrinsic value method prescribed by APB Opinion No. 25, Accounting for Stock Issued to Employees. Proforma disclosures of net income and earnings per share as if the fair value-based method prescribed by SFAS 123 had been applied in measuring compensation expense follow. For purposes of the proforma disclosures, the estimated fair value of the options is amortized to expense over the option's vesting periods.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

	=====	=====

- 14 -

14. RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS 153, Exchanges of Nonmonetary Assets, an amendment of APB No. 29, Accounting for Nonmonetary Transactions. SFAS 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. SFAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not expect the adoption of this standard to have a material effect on its financial position, results of operations or cash flows.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 123 (revised 2004), "Share-Based Payment". Statement 123(R) will provide investors and other users of financial statements with more complete and neutral financial information by requiring that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments used. Statement 123(R) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. Statement 123(R) replaces FASB Statement No. 123, Accounting for Stock-Based Compensation, and

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. Statement 123, as originally issued in 1995, established as preferable a fair-value-based method of accounting for share-based payment transactions with employees. However, that Statement permitted entities the option of continuing to apply the guidance in Opinion 25, as long as the footnotes to financial statements disclosed what net income would have been had the preferable fair-value-based method been used. Public entities (other than those filing as small business issuers) will be required to apply Statement 123(R) as of the first interim or annual reporting period that begins after December 31, 2005. We are currently evaluating the effect of adoption of SFAS 123(R) will have on our overall results of operations and financial position

- 15 -

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FORWARD-LOOKING STATEMENTS

Our statements contained in this report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, hopes, intentions or strategies regarding the future. You should not place undue reliance on forward-looking statements. All forward-looking statements included in this report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could differ materially from those in the forward-looking statements. In addition to any risks and uncertainties specifically identified in the text surrounding the forward-looking statements, you should consult our reports on Forms 10-K and our other filings under the Securities Act of 1933 and the Securities Exchange Act of 1934, for factors that could cause our actual results to differ materially from those presented.

The forward-looking statements included herein are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors and legislative, judicial and other governmental authorities and officials. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Any of these assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate.

GENERAL

We provide (1) financial services, including brokerage and investment services to individuals and institutions, and (2) insurance services, including management and agency services to medical malpractice insurance companies.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

FINANCIAL SERVICES. We provide investment and investment advisory services to institutions and individuals throughout the United States through the following subsidiaries:

- 16 -

- o APS Financial. APS Financial is a fully licensed broker/dealer that provides brokerage and investment services primarily to institutional and high net worth individual clients. APS Financial also provides portfolio accounting, analysis, and other services to insurance companies, banks and public funds. We recognize commissions revenue, and the related compensation expense, on a trade date basis.
- o Asset Management. Asset Management manages fixed income and equity assets for institutional and individual clients on a fee basis. We recognize fee revenues monthly based on the amount of funds under management.

INSURANCE SERVICES. Through Insurance Services we provide management and agency services to medical malpractice insurance companies through the following subsidiary:

- o FMI. APS Facilities Management, Inc., dba APMC Insurance Services, Inc., or FMI, provides management and administrative services to APIE, a regional insurance exchange that sells medical professional liability insurance only to its physician subscribers, who pay annual insurance premiums and maintenance fees to APIE. APIE is governed by a physician board of directors. Pursuant to a management agreement and the direction of this board, FMI manages and operates APIE, including performing policy issuance, claims investigation and settlement, and all other management and operational functions. As a management fee, FMI receives a percentage of APIE's earned premiums and a portion of APIE's profit, subject to a cap based on premium levels. We recognize revenues for the management fee portion based on a percentage of earned premium on a monthly basis, and we recognize revenues for the management fee portion based on profit sharing in the fourth quarter, when it is certain the managed company will have an annual profit. FMI's assets are not subject to APIE policyholder claims.

In addition, as of March 31, 2005, we have the following significant investments accounted for as available-for-sale securities: (1) we own approximately 451,000 shares of HealthTronics (formerly Prime Medical) common stock, representing about 1% of its outstanding common stock, and (2) we own 385,000 shares of Financial Industries Corporation, representing approximately 4% of its outstanding common stock. We account for these investments as available-for-sale securities, which means they are reflected on our consolidated balance sheets at fair value, and fluctuations in fair value are recognized as unrealized gains or losses excluded from earnings and reported as a separate component of stockholders' equity, net of income taxes. As discussed later in this report, we recorded an "other than temporary" impairment loss from market value declines in our FIC holdings totaling \$39,000 in the first quarter of 2005.

- 17 -

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates, including those related to, impairment of assets; bad debts; income taxes; and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies and estimates affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. We periodically review the carrying value of our assets to determine if events and circumstances exist indicating that assets might be impaired. If facts and circumstances support this possibility of impairment, our management will prepare undiscounted and discounted cash flow projections, which require judgments that are both subjective and complex. Management may also obtain independent valuations.

Our financial services revenues are composed primarily of commissions on securities trades and asset management fees. Revenues related to securities transactions are recognized on a trade date basis. Asset management fees are recognized as a percentage of assets under management during the period based upon the terms of agreements with the applicable customers.

Our insurance services revenues are primarily related to management fees based on the earned premiums of the managed company and include a profit sharing component, as defined in the management agreement, related to the managed company's annual earnings. Management fees are recorded, based upon the terms of the management agreement, in the period the related premiums are earned by the managed company. The managed company recognizes premiums as earned ratably over the terms of the related policy. The profit sharing component is recognized when it is certain the managed company will have an annual profit, and, historically, has been recognized during the fourth quarter following the completion of a loss reserve analysis by outside actuaries.

- 18 -

On June 4, 2003 we purchased from Financial Industries Corporation ("FIC") (OTC: FNIN.PK) and a foundation 339,879 shares of FIC's common stock as an investment. Earlier in 2003 we had purchased 45,121 FIC shares in the open market. The 385,000 shares represents an approximate 4% ownership in FIC. The aggregate purchase price was approximately \$5,647,000, which was all sourced from our cash reserves. The shares purchased from FIC and the foundation are not registered, but are subject to a registration rights agreement requiring FIC's best efforts to register them within one year of the transaction. Due to FIC's delay in filing its 2003 Form 10-K and its subsequent 10-Q's and 10-K, it has not been able to register these shares and was delisted from the NASDAQ exchange in July, 2004.

During 2004, the value of our investment in FIC has declined significantly. On October 12, 2004, we determined that this decline in market

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

price should be considered "other than temporary" as defined in Statements of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities, as amended. Consequently, we recorded a pretax charge to earnings of \$2,567,000 in 2004. The charge reduced our cost basis in FIC from \$5,647,000, or \$14.67 per share, to \$3,080,000, or \$8.00 per share which is equal to the quoted market price of FIC shares on December 31, 2004. As discussed in our Form 10-K dated December 31, 2004, we believe the decline in the market price of FIC has been brought about by its failure to file its 2003 Form 10-K and its subsequent de-listing from the NASDAQ Stock Market. We had expected FIC to bring its filings current and pursue restoring its exchange listing during 2004. These events have not yet occurred. As a result, we recorded an additional pretax charge to earnings of \$39,000 in the first quarter of 2005. The charge reduced our cost basis in FIC from \$3,080,000, or \$8.00 per share, to \$3,041,000, or \$7.90 per share which is equal to the quoted market price of FIC shares on March 31, 2005. While we currently continue to have the ability and the intent to hold the stock indefinitely, we concluded that the additional uncertainty created by the late filings together with the lack of current financial information dictated that the decline should be viewed as other than temporary. We will continue to closely monitor FIC's situation.

- 19 -

RESULTS OF OPERATIONS

REVENUES

Revenues from operations decreased \$628,000 (9%) in the three months ended March 31, 2005 compared to the same period in 2004. Our income from operations before interest, income taxes and minority interest increased \$152,000 (15%) in the current year three months compared to the same period in 2004. Our net income increased \$159,000 (23%) in the current year three months compared to the same period in 2004. Lastly, our diluted net income per share increased \$0.05 (20%) in the current year three compared to the same period in 2004. The reasons for these changes are described below.

FINANCIAL SERVICES

Our financial services revenue decreased \$565,000 (15%) in the first three months of 2005 compared to the same period in 2004. Lower commission revenues were earned at APS Financial, the broker/dealer, which derives most of its revenue from transactions in the fixed income market, in both investment and non-investment grade securities. The investment climate continued to be soft as the Federal Reserve raised rates 50 basis points during the quarter, continuing the trend started in June 2004 (rates have risen 175 basis points total). Inflationary pressures were fueled by rising oil/gas prices which set a record in March of this quarter. Additionally, the high yield market which had been viewed as over valued, finally began a sharp correction led predominately by the automotive sector. Many of our customers have chosen to stay relatively liquid, reducing their commitment of funds in the fixed income securities where we earn the bulk of our commissions.

Our financial services expenses decreased \$291,000 (9%) in the three months ended March 31, 2005 compared to the same period in 2004. The primary reason for the current quarter decrease is a \$335,000 (16%) decrease in commission expense in the current year three months compared to the same period in 2004 resulting from the decrease in commission income mentioned above. In

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

addition, incentive compensation costs were zero in 2005 compared to \$145,000 in the first three months of 2004 primarily as a result of lower profits at APS Financial for 2005. Partially offsetting these decreases was an increase in payroll expense of \$111,000 (38%) in the three months ended March 31, 2005 compared to the same period in 2004. Payroll was up as a result of normal annual merit raises as well as the hiring of two new full-time positions. Also, professional fees increased \$67,000 (151%) in the three months ended March 31, 2005 compared to the same period in 2004 as a result of fees incurred related to Sarbanes Oxley compliance.

- 20 -

INSURANCE SERVICES

Our insurance services revenues from our premium-based insurance management segment, APS Insurance Services, decreased \$63,000 (2%) in the three months ended March 31, 2005 compared to the same period in 2004. Current year declines in commission income and in risk management fees were the reasons for this decrease in revenues. Commission income was down \$273,000 (20%) as a result of a decrease in written premium totaling \$2,300,000 (12%) in the first three months in 2005 resulting primarily from a timing difference in the renewal of our largest insured group. As noted in the following paragraph, commissions paid to third party independent agents decreased by an equivalent amount, resulting in no impact on net income. Risk management fees decreased in the three months ended March 31, 2005 compared to the same period in 2004 as a result of one of our large group's risk rating being upgraded this year which resulted in their not having to pay risk management fees in 2005. Partially offsetting these decreases was a \$289,000 (15%) increase in management fee revenues in the three months ended March 31, 2005 compared to the same period in 2004. The primary reason for this increase comes from fees earned resulting from new business written in 2004, much of whose revenue is earned in 2005.

Insurance services expenses decreased \$105,000 (4%) in the three months ended March 31, 2005 compared to the same period in 2004. The current year decrease is primarily due to the above-mentioned \$273,000 (20%) decrease in commissions paid to third party independent agents. Partially offsetting this decrease were increases in payroll expenses and professional fees. Payroll was up \$38,000 (5%) on normal annual merit raises. Professional fees increased \$160,000 (881%) in the first three months of 2005 compared to the same period in 2004 as a result of fees incurred related to Sarbanes Oxley compliance.

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses increased \$140,000 (40%) in the three months ended March 31, 2005 compared to the same period in 2004. The primary reason for this increase is a \$76,000 (174%) increase in outside professional fees resulting mainly from fees incurred related to Sarbanes Oxley compliance. In addition, incentive compensation expense is \$46,000 (32%) higher in the current year as a result of additional bonuses that will be paid on the gains from the sale of HealthTronics common stock made in the first three months of 2005.

- 21 -

GAIN ON SALE OF ASSETS

During the three months ended March 31, 2005, we recognized \$122,000 of deferred gain related to the November 2001 sale and subsequent leaseback of real estate to Prime Medical. Due to our continuing involvement in the property, we deferred recognizing approximately \$2,400,000 of the approximately \$5,100,000 gain and are recognizing it in earnings, as a reduction of rent expense, monthly through November 2006. A total of \$813,000 remains to be recognized in the coming twenty months. In addition, 15% of the gain (\$760,000) related to our then 15% ownership in the purchaser, was deferred. As our ownership percentage in Prime declines through our sales of Prime common stock, we recognize these gains proportionately to our reduction of our interest in Prime. During the first three months of 2005 we recognized \$35,000 of these deferred gains, leaving a balance of approximately \$144,000 remaining to be recognized.

GAIN ON SALE OF INVESTMENTS

The increase in the current quarter is due to the sale of a greater number of available-for-sale equity securities in 2005 than were sold in the first three months of 2004.

LOSS ON IMPAIRMENT OF INVESTMENT

The loss recorded in the first quarter of 2005 represents a write-down of our investment in Financial Industries ("FIC") common stock. During the current quarter, we determined that the decline in market value of FIC common stock should be considered "other than temporary" and we recorded a pretax charge to earnings of \$39,000. This charge reduced our cost basis in FIC from \$3,080,000, or \$8.00 per share, to \$3,041,000, or \$7.90 per share which is equal to the quoted market price of FIC shares on March 31, 2005. We believe the decline in the market price of FIC has been brought about by its failure to file its 2003 Form 10-K and its subsequent de-listing from the NASDAQ Stock Market. We had expected FIC to bring its filings current and pursue restoring its exchange listing but these events have not yet occurred. While we currently continue to have the ability and the intent to hold the stock indefinitely, we concluded that the additional uncertainty created by the late filings together with the continued lack of current financial information dictated that the decline should be viewed as other than temporary. As mentioned in our 2004 annual report on Form 10-K, we will continue to monitor and evaluate the situation at FIC and further determine if changes in fair market value of the investment are temporary or "other than temporary".

- 22 -

GAIN ON FORGIVENESS OF DEBT

During the three months ended March 31, 2004, we recorded \$63,000 as a gain on forgiveness of debt. This represented that amount of liability that were released by participants in our loan to this affiliate, net of \$15,000 in expenses associated with these releases. Due to poor operating results, Uncommon Care was in default and not making scheduled payments under its loan agreement with us in which the participations had been sold. As a result, the loan participants released us from any obligations under the participation

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

agreements. For the three months ended March 31, 2005, no further releases of liabilities have been acquired, therefore no gains were recorded.

INTEREST INCOME

Our interest income increased \$39,000 (47%) in the three month period ended March 31, 2005 compared to the same period in 2004. The current year three month increase was due to interest earned on a larger balance of interest-bearing fixed income securities purchased after March 31, 2004.

OTHER INCOME (LOSS)

Our other income rose \$63,000 for the three months ended March 31, 2005 compared to the same period in 2004. The increase in the current year represents primarily inventory gains of \$18,000 on securities held at APS Financial during 2005 compared to inventory losses of \$29,000 in 2004.

LIQUIDITY AND CAPITAL RESOURCES

WORKING CAPITAL

Our net working capital was \$9,630,000 and \$10,673,000 at March 31, 2005 and December 31, 2004, respectively. The decrease in the current year was due in part to cash used to purchase long-term available-for-sale fixed income securities. Partially offsetting this was cash received from the sale of available-for-sale equity securities. Historically, we have maintained a strong working capital position and, as a result, we have been able to satisfy our operational and capital expenditure requirements with cash generated from our operating and investing activities. These same sources of funds have also allowed us to pursue investment and expansion opportunities consistent with our growth plans.

- 23 -

Although there can be no assurance our operating activities will provide positive cash flow in 2005, we are optimistic that our working capital requirements will be met for the foreseeable future for the following reasons: (1) our current cash position is very strong, with a balance of approximately \$4.4 million comprising 16 percent of our total assets; (2) our investments in available-for-sale equity and fixed income securities could provide an additional \$17.8 million should the need arise; and (3) we renewed a line of credit in April 2004 that is described below.

LINE OF CREDIT

During April 2004, we renewed a \$3.0 million line of credit that was originally established in November 2003 with PlainsCapital Bank. The loan called for interest payments only to be made on any amount drawn until April 15, 2005, when the entire amount of the note, principal and interest then remaining unpaid, became due and payable. At March 31, 2005, there were no draws taken against this line of credit. We are in compliance with the covenants of the loan agreement, including requirements for a minimum of \$5.0 million of unencumbered liquidity and a minimum 2 to 1 net worth ratio.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

CAPITAL EXPENDITURES

Our capital expenditures for equipment were \$94,000 in the three months of 2005. The majority of these expenditures were necessary to upgrade our reporting software at our insurance services subsidiary. At March 31, 2005, our reporting software upgrade is considered to be "in progress" with anticipated implementation in phases during the rest of 2005 and 2006. Those the assets purchased during 2005 that have not been placed in service, are appropriately not being depreciated. We expect capital expenditures in 2005 to be approximately \$500,000, including \$200,000 in improvements to our business intelligence reporting software. Our 2005 capital expenditure budget is expected to be funded through cash on hand.

- 24 -

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS 153, Exchanges of Nonmonetary Assets, an amendment of APB No. 29, Accounting for Nonmonetary Transactions. SFAS 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. SFAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not expect the adoption of this standard to have a material effect on its financial position, results of operations or cash flows.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 123 (revised 2004), "Share-Based Payment". Statement 123(R) will provide investors and other users of financial statements with more complete and neutral financial information by requiring that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments used. Statement 123(R) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. Statement 123(R) replaces FASB Statement No. 123, Accounting for Stock-Based Compensation, and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. Statement 123, as originally issued in 1995, established as preferable a fair-value-based method of accounting for share-based payment transactions with employees. However, that Statement permitted entities the option of continuing to apply the guidance in Opinion 25, as long as the footnotes to financial statements disclosed what net income would have been had the preferable fair-value-based method been used. Public entities (other than those filing as small business issuers) will be required to apply Statement 123(R) as of the first interim or annual reporting period that begins after December 31, 2005. We are currently evaluating the effect of adoption of SFAS 123(R) will have on our overall results of operations and financial position.

- 25 -

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES
ABOUT MARKET RISK

We have exposure to changes in interest rates and the market values of our investments but have no material exposure to fluctuations in foreign currency.

INTEREST RATE RISK

Our exposure to market risk for changes in interest rates relates to both our investment portfolio and our revenues generated through commissions at our financial services segment. All of our marketable fixed income securities are designated as available-for-sale and, accordingly, are presented at fair value on our balance sheets. Fixed rate securities may have their fair market value adversely affected due to a rise in interest rates, and we may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates.

Changes in interest rates could have an impact at our broker/dealer subsidiary, APS Financial. The general level of interest rates may trend higher or lower in 2005, and this move may impact our level of business in different fixed-income sectors. If a generally improving economy is the impetus behind higher rates, then while our investment grade business may drop off, our high yield business might improve with improving credit conditions. A volatile interest rate environment in 2005 could also impact our business as this type of market condition can lead to investor uncertainty and their corresponding willingness to commit funds.

As we currently have no debt and do not anticipate the need to take on any debt in 2005, interest rate changes will have no impact on our financial position as it pertains to interest expense.

INVESTMENT RISK

As of March 31, 2005, our recorded basis in debt and equity securities was approximately \$17.8 million. We regularly review the carrying value of our investments and identify and record losses when events and circumstances indicate that such declines in the fair value of such assets below our accounting basis are other-than-temporary. See Footnote 6 to this report on Form 10-Q for a detailed description of charges to earnings in the prior year and the current quarter that were considered to be "other than temporary".

We also have an investment of 451,000 shares of common stock of HealthTronics, Inc. Although we have an unrealized gain of approximately \$2,587,000 as of March 31, 2005, this investment can also be at risk should market or economic conditions change

- 26 -

for the worse or should adverse situations occur at HealthTronics, such as a major product line becoming obsolete. The remainder of our corporate equity and fixed income investments share the same risks as HealthTronics but our exposure is much lower.

Item 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As of the end of the period covered by this report, and under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of these disclosure procedures. Based on this evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in reaching a reasonable level of assurance of achieving management's desired controls and procedures objectives.

There have been no changes in internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

As part of a continuing effort to improve our business processes we are evaluating our internal controls and may update certain controls to accommodate any modifications to our business processes or accounting procedures.

- 27 -

PART II

OTHER INFORMATION

- 28 -

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10-Q

Item 1. LEGAL PROCEEDINGS

We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

Item 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

Items 2(a) through(d) are inapplicable.

(e) Stock Repurchases

Period	(a) Total Number of shares Purchased (1)	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs
-----	-----	-----	-----
Jan 1, 2005 - Jan 31, 2005	7,612	\$ 10.43	7,612
Febr 1, 2005 - Febr 28, 2005	104	\$ 11.39	104
March 1, 2005 - March 31, 2005	14,708	\$ 12.07	14,708

(1) Of the total shares purchased 22,412 were purchased in open market transactions and 12 were purchased in private transactions. Our share repurchase program was announced August 17, 2004 and authorizes the purchase of up to \$2 million of common stock.
