BEAR STEARNS REPORTS THIRD QUARTER 2003 EARNINGS OF \$2.30 PER SHARE, UP 87.0% FROM THIRD QUARTER 2002

**Net income up 90.6% to \$313.4 million,
nearly doubling from \$164.4 million in third quarter 2002**

Pre-tax profit margin hits 32.5%

Quarterly ROE 21.3% : Trailing 12-Month ROE 19.0%

NEW YORK, New York September 18, 2003 The Bear Stearns Companies Inc. (NYSE:BSC) reported today earnings per share (diluted) of \$2.30 for the third quarter ended August 31, 2003, up 87.0% from \$1.23 per share (diluted) for the quarter ended August 31, 2002. Net income for the third quarter of 2003 was \$313.4 million, up 90.6% from \$164.4 million for the third quarter of 2002. Net revenues were \$1.49 billion for the third quarter, up 28.6% from \$1.15 billion for the third quarter of 2002. Annualized after-tax return on average common stockholders' equity for the current quarter was 21.3% and for the trailing 12-month period ended August 31, 2003 was 19.0%.

James E. Cayne, chairman and chief executive officer of Bear Stearns, commented, "Our firm takes great pride in its ability to prosper through the recent business cycles and our third quarter earnings illustrate our ability to do just that. A significant increase in revenues, combined with continued rigorous cost control measures, resulted in substantial improvement in our year-over-year profitability. Our solid and diverse fixed income franchise continued to perform remarkably well, while our equity businesses demonstrated improved results as those markets recover. The equity market recovery is also evident in Global Clearing Services net interest revenues, as margin debt balances and customer short balances increased. Progress in the development of the Wealth Management segment can be seen in a number of initiatives, including our successful recruiting effort of Private Client Services brokers and the significant steps we have taken in Bear Stearns Asset Management to diversify its alternative investment product range."

Details of the firm's three major business segments with comparative information follow:

CAPITAL MARKETS

Net revenues for the Capital Markets segment were \$1.2 billion for the quarter ended August 31, 2003, up 42.0% from \$859.5 million for the third quarter of last year.

- Institutional Equities net revenues were \$200.5 million for the third quarter of 2003, a 30.5% decrease from \$288.6 million for the comparable prior year quarter. A decline in market volatility and average daily trading volumes served to reduce institutional commission revenues and convertible arbitrage revenues.
- Fixed Income net revenues were \$720.1 million, up 76.8% from \$407.3 million reported for the quarter ended August 31, 2002. A steep yield curve, tightening corporate credit spreads and a continued low interest rate environment fueled another strong quarter in the Fixed Income Division. Despite a sharp rise in treasury yields and drop in the federal funds rate, the mortgage-backed securities, high yield and interest rate product areas continued to perform exceptionally well.
- Investment Banking net revenues were \$299.7 million for the quarter ended August 31, 2003, up 83.2% from \$163.6 million for the quarter ended August 31, 2002. Included in these results are Merchant Banking revenues of \$92.0 million. Merchant Banking revenues in the quarter are principally attributable to the secondary offering in July 2003 of approximately 6.5 million shares of Aeropostale and an increase in the market value of the remaining investment of 3.8 million shares. Equity, high yield and municipal underwriting were extremely active during the quarter, even as merger and acquisition activity continued to reflect difficult market conditions.

GLOBAL CLEARING SERVICES

Net revenues for Global Clearing Services were \$200.9 million for the quarter ended August 31, 2003, up 4.9% from \$191.5 million for the quarter ended August 31, 2002. Net interest revenues increased due to higher customer margin debt balances and customer short balances. Average customer margin debt balances were \$42.1 billion during the quarter ended August 31, 2003, up from \$33.7 billion in the comparable quarter of fiscal 2002. Customer short balances averaged \$67.3 billion for the third quarter of 2003, as compared with \$52.1 billion for the third quarter of 2002. Commission activity declined reflecting reduced trading activity levels of prime brokerage customers.

WEALTH MANAGEMENT

Wealth Management net revenues for the quarter ended August 31, 2003 were \$126.4 million, an increase of 1.9% from \$124.0 million for the quarter ended August 31, 2002.

- Private Client Services revenues were \$98.4 million in the third quarter of 2003, an increase of 7.9% from \$91.2 million in the prior year quarter. The increase was primarily due to improved customer activity levels and the increase in broker headcount due to the success of the ongoing recruiting efforts.
- Asset Management net revenues were down 15.0% to \$27.9 million for the third quarter of 2003, from \$32.9 million in the prior year quarter, reflecting reduced performance fees on proprietary hedge fund products.
- Total assets under management stood at \$25.7 billion on August 31, 2003, up 10.8% from \$23.2 billion on August 31, 2002.

EXPENSES

Non-interest expenses rose 10.3% to \$1.0 billion during the August 2003 quarter from \$909.2 million in the August 2002 quarter. Compensation as a percentage of net revenues was 45.9% for the third quarter as compared with 51.6% in the quarter ended August 31, 2002.

Non-compensation expenses were \$321.1 million for the quarter ended August 31, 2003, up 2.4% from \$313.6 million for the comparable prior year period. The significant increase in revenues combined with a stable cost base resulted in an increase in the third quarter 2003 pre-tax profit margin to 32.5% from 21.2% in the third quarter of 2002.

As of August 31, 2003, total capital, including stockholders' equity and long-term borrowings, was \$34.4 billion. Book value as of August 31, 2003 was \$45.46 per share, based on 146,662,752 shares outstanding.
