Item 2.02 - Results of Operations and Financial Condition
and
Item 7.01 - Regulation FD Disclosure

Additional Loan Charges

On October 16, 2012, management of Park National Corporation (“Park”), in consultation with Park's Board of Directors, determined that additional charge-offs are likely to be required, as of the end of the third quarter of 2012, with respect to a loan relationship held by SE Property Holdings, LLC (“SEPH”), a wholly-owned non-bank subsidiary of Park, and a participation interest in that loan relationship held by The Park National Bank (“PNB”), a wholly-owned bank subsidiary of Park.

As a result of continued delays in the expected repayment of the loan relationship and additional information received during the third quarter of 2012, including recent events that have raised concern about the collectability of this receivable, Park's management determined that it may be appropriate for SEPH and PNB to charge-down the loan relationship by an amount of up to \$13 million (\$2.5 million at PNB and \$10.5 million at SEPH), in the aggregate (with a loan loss provision of the same amount). During the third quarter, management had expected significant pay downs on this loan relationship, which have not come to fruition as of the date of this Current Report on Form 8-K. Park's management is working to gain additional information concerning the repayment capacity of the borrower in order to determine the precise amount of the charge-off required to be recorded as of September 30, 2012. The majority of the loan relationship is secured by a significant third party receivable. However, the remaining loans at SEPH are generally fully secured by either real estate or personal property and have been previously written down (as needed) to the fair value of the underlying real estate or personal property determined by recent appraisals.

On October 16, 2012, Park issued a news release (the “News Release”) disclosing the determination by Park's management, in consultation with Park's Board of Directors, that additional charge-offs are likely to be required, as of the end of the third quarter of 2012, with respect to the loan relationship described above. The News Release is included as Exhibit 99.1 to this Current Report on Form 8-K and the portion of the News Release addressing the determination by Park's management described above is incorporated herein by reference.

Estimated Results for the Third Quarter of 2012

The tables below summarize the actual reported results for the first and second quarters of 2012 and the latest estimates of results (including the \$13 million charge-off discussed above) for the third quarter of 2012 for Park on a consolidated basis, PNB, Guardian Financial Services Company (“GFSC” or “Guardian”), a wholly-owned subsidiary of Park, and SEPH.

Management's most recent loan loss provision guidance, on page 60 of the Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2012, stated that the loan loss provision would be approximately \$24.4 million for the year ending December 31, 2012. The loan loss provision was \$13.6 million for the first six months of 2012; therefore, management had previously expected the provision for loan losses for the third and fourth quarters of 2012 to total approximately \$10.8 million, or \$5.4 million per quarter. If the charge-off of \$13 million (and loan loss provision of the same amount) were not included in the numbers in the table above, the projected loan loss provision for the third quarter would be in line with or better than management's most recent guidance.

Approximately 19 percent of the loan relationship described above under the caption “Additional Loan Charges” is held by PNB as a participation interest, with the other 81 percent held by SEPH. For purposes of the PNB and SEPH tables above, management has assumed a charge-off of \$2.5 million and \$10.5 million, respectively (and provision for loan loss of the same amount). It is possible that the actual charge-off (and loan loss provision) for the third quarter of 2012 will be less than \$13 million in the aggregate, as additional information could be received subsequent to the date of this Current Report on Form 8-K and prior to Park's earnings release for the third quarter of 2012, which is currently scheduled for October 29, 2012.

The following table summarizes the actual net income (loss) for “On-going Operations” (defined as PNB, GFSC, and the Parent Company), SEPH and Park on a consolidated basis, as well as diluted earnings per common share on a consolidated basis, for the first and second quarters of 2012 and the latest estimate of net income (loss) and diluted earnings per common share on a consolidated basis for the third quarter of 2012:

	Q1 2012	Q2 2012	Q3 2012 estimate	Total	
PNB	\$21,561	\$23,483	\$22,068	\$67,112

Earnings per common share	\$1.95	\$1.10	\$0.78	\$3.82	

Without the \$13 million charge-off (and loan loss provision) described in “Item 2.02 - Results of Operations” of this Current Report on Form 8-K, the latest estimate of results for the third quarter of 2012, for Park's on-going operations, SEPH and Park on a consolidated basis would be:

	Q1 2012	Q2 2012	Q3 2012 estimate	Total
PNB	\$21,561	\$23,483	\$23,695	\$68,739
