Dreyfus Strategic Municipal Bond Fund, Inc.

LETTER FROM THE CHAIRMAN

Dear Shareholder:

We present this annual report for Dreyfus Strategic Municipal Bond Fund, Inc., covering the 12-month period from December 1, 2001 through November 30, 2002. Inside, you'll find valuable information about how the fund was managed during the reporting period, including a discussion with the fund's portfolio manager, James Welch.

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

In an otherwise turbulent year, municipal bonds have provided relatively attractive and stable returns. Indeed, tax-exempt bond prices were boosted further in November when the Federal Reserve Board (the "Fed") reduced short-term interest rates by another 0.50 percentage points. As a result, the performance of high-quality municipal bonds to date in 2002 has been substantially better than many other asset classes.

Will highly rated municipal bonds continue to provide higher returns than stocks? While no one can know for sure, many analysts currently believe that the Fed's next move may be toward higher interest rates, which is likely to put downward pressure on prices of many bonds. History suggests that investing only in fixed-income securities probably won't provide the long-term returns most investors need. Instead, we believe that holding the right mix of stocks, bonds and cash that fits their overall financial circumstances is an important consideration for investors. We suggest you talk regularly with your financial advisor to ensure that your portfolio reflects your investment needs, long-term goals and attitudes toward risk.

Thank you for your continued confidence and support.

Sincerely,

/s/Stephen E. Canter

DISCUSSION OF FUND PERFORMANCE

James Welch, Portfolio Manager

How did Dreyfus Strategic Municipal Bond Fund, Inc. perform during the period?

For the 12-month period ended November 30, 2002, the fund achieved a total return of 4.53%. (1) During the same period, the fund provided aggregate income dividends of \$0.5604 per share, which is equal to a distribution rate of 7.11% .. (2)

The fund has continued to perform well despite the effects of falling interest rates on long-term bond yields. The fund's leveraging strategy, which is based on the issuance of short-term auction-rate preferred notes, has continued to benefit performance as borrowing costs have declined. However, ongoing credit concerns affecting some of the fund's corporate-backed municipal securities detracted from the fund's otherwise strong performance.

What is the fund's investment approach?

The fund seeks high current income exempt from federal income tax by investing in long-term, tax-exempt municipal bonds.

In so doing, we look for bonds that we believe can provide high current income. We strive to find such opportunities through analysis of individual bonds' structures. Within the context of our bond structure analyses, we pay particularly close attention to each bond's maturity and early redemption features.

Over time, many of the fund's older, higher-yielding bonds have matured or were

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

redeemed by their issuers. We have generally attempted to replace those bonds with new securities that offered currently higher than average income payments. We have also sought to upgrade the fund with newly issued bonds that, in our opinion, have better structural or income characteristics than existing holdings. When such opportunities arise, we usually sell bonds that are close to

The Fund

DISCUSSION OF FUND PERFORMANCE (CONTINUED)

their optimal redemption date or maturity. In addition, we conduct credit analysis of our holdings in an attempt to avoid potential defaults on interest and principal payments.

What other factors influenced the fund's performance?

The reporting period was characterized by a generally disappointing economic recovery and falling interest rates. The Federal Reserve Board (the "Fed") began the reporting period with a 0.25 percentage-point rate cut, the last of 11 such reductions implemented during 2001. The Fed subsequently held interest rates steady through the first 10 months of 2002, while it waited for the economic recovery to gain momentum. When the economy failed to respond, the Fed stepped in with an additional rate cut of 0.50 percentage points in November

These influences benefited many of the fund's higher-yielding holdings, which experienced price appreciation as yields on newly issued bonds declined. Heightened demand from risk-averse investors seeking an alternative to the stock market also supported municipal bond prices and kept yields low.

Despite generally favorable market conditions, we maintained a relatively conservative investment posture throughout the reporting period as we continued to rebalance the fund in an attempt to make it less sensitive to credit concerns and interest-rate trends. With interest rates already at a 40-year low, we believed that it made little sense to position the fund for further rate cuts. Similarly, we attempted to reduce the fund's holdings of lower-rated securities because of the ongoing fiscal deterioration of most states and municipalities. Accordingly, as existing holdings matured or were redeemed early by their issuers, we generally reinvested the proceeds in highly rated securities, including those carrying third-party insurance.(3)

Despite our efforts to reduce lower-rated corporate-backed municipal securities, bonds issued on behalf of steel companies and airlines proved difficult to sell at reasonable prices, and price erosion among these bonds detracted from the fund's overall performance.

Finally, as we reported six months ago, the fund has continued to benefit from low rates on the fund's auction-rate preferred shares. By extending maturities to as long as one year, we have effectively locked in today's historically low borrowing costs on money that we put to work in the municipal bond market on our shareholders' behalf.

What is the fund's current strategy?

We have maintained the fund's defensive posture as we continue to rebalance the fund. In our view, this strategy should benefit performance if and when the economy gains momentum and the Fed begins to raise short-term interest rates. Although there is no way of knowing when this will occur, we recently have seen signs of a potentially stronger recovery, including a rallying stock market.

In the meantime, we have attempted to take advantage of opportunities to acquire high-quality bonds at relatively attractive prices. For example, toward the end

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

of the reporting period, California came to market with more than \$13 billion of bonds, some of which were issued to reimburse the state treasury for outlays related to the 2001 energy crisis. These bonds were offered with attractive yields to heighten investor interest outside of California, and we participated by purchasing some of the newly issued securities for the fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 1--Significant Accounting Policies:

Dreyfus Strategic Municipal Bond Fund, Inc. (the "fund") is registered under the

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

Investment Company Act of 1940, as amended (the "Act"), as a diversified closed-end management investment company. The fund's investment objective is to maximize current income exempt from federal income tax to the extent believed by the fund's investment adviser to be consistent with the preservation of capital. The Dreyfus Corporation ("Dreyfus") serves as the fund's investment adviser and administrator. Dreyfus is a direct subsidiary of Mellon Bank, N.A., which is a wholly-owned subsidiary of Mellon Financial Corporation ("Mellon"). Boston Safe Deposit and Trust Company (the "Custodian") acts as the fund's custodian. The Custodian is a wholly-owned subsidiary of Mellon. PFPC Global Fund Services ("PFPC"), a subsidiary of PNC Bank ("PNC"), serves as the fund's transfer agent, dividend-paying agent, registrar and plan agent. The fund's Common Stock trades on the New York Stock Exchange under the ticker symbol DSM.

The fund has outstanding 2,480 shares of Series A, Series B and Series C for a total of 7,440 shares of Auction Preferred Stock ("APS"), with a liquidation preference of \$25,000 per share (plus an amount equal to accumulated but unpaid dividends upon liquidation). APS dividend rates are determined pursuant to periodic auctions. Deutsche Bank, as Auction Agent, receives a fee from the fund for its services in connection with such auctions. The fund also compensates broker-dealers generally at an annual rate of .25% of the purchase price of the shares of APS placed by the broker-dealer in an auction.

The fund is subject to certain restrictions relating to the APS. Failure to comply with these restrictions could preclude the fund from declaring any distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of APS at liquidation value.

The Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The holders of the APS, voting as a separate class, have the right to elect at least two directors. The holders of the APS vote as a separate class on certain other matters, as required by law. The fund has designated Robin A. Pringle and John E. Zuccotti to represent holders of APS on the fund's Board of Directors.

The fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

(A) PORTFOLIO VALUATION: Investments in municipal debt securities (excluding options and financial futures on municipal and U.S. Treasury securities) are valued on the last business day of each week and month by an independent pricing service ("Service") approved by the Board of Directors. Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Options and financial futures on municipal securities and U.S. Treasury securities are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales price on the national securities market on the last business day of each week and month.

(B) SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded on a trade date basis. Realized gain and loss from securities transactions are recorded on the identified cost basis. Interest income,

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

adjusted for amortization of discount and premium on invest

ments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date.

(C) DIVIDENDS TO SHAREHOLDERS OF COMMON STOCK ("COMMON SHAREHOLDER(S)": Dividends are recorded on the ex-dividend date. Dividends from investment income-net are declared and paid monthly. Dividends from net realized capital gain, if any, are normally declared and paid at least annually. To the extent that net realized capital gain can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gain.

For Common Shareholders who elect to receive their distributions in additional shares of the fund, in lieu of cash, such distributions will be reinvested at the lower of the market price or net asset value per share (but not less than 95% of the market price) as defined in the dividend reinvestment plan.

On November 29, 2002, the Board of Directors declared a cash dividend to Common Shareholders of \$.0467 per share from investment income-net, payable on December 30, 2002 to Common Shareholders of record as of the close of business on December 13, 2002.

(D) DIVIDENDS TO SHAREHOLDERS OF APS: For APS, dividends are currently reset annually for Series A and B and every 7 days for Series C. The dividend rates in effect at November 30, 2002 were as follows: Series A - 2.07%, Series B - 1.625% and Series C - 1.30% .

(E) FEDERAL INCOME TAXES: It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax exempt dividends, by complying with the applicable provisions of the Internal Revenue Code of 1986 as amended, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes

The Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

At November 30, 2002, the components of accumulated earnings on a tax basis were as follows: accumulated capital losses \$28,514,620 and unrealized depreciation \$9,876,120.

The accumulated capital loss carryover is available to be applied against future net securities profits, if any, realized subsequent to November 30, 2002. If not applied, \$9,312,230 of the carryover expires in fiscal 2003, \$3,964,163 expires in fiscal 2007, \$5,542,712 expires in fiscal 2008, \$442,201 expires in fiscal 2009 and \$9,253,314 expires in fiscal 2010.

The tax character of distributions paid to shareholders during the fiscal periods ended November 30, 2002 and November 30, 2001, respectively, were as follows: tax exempt income of \$30,331,952 and \$32,385,555.

During the period ended November 30, 2002, as a result of permanent book to tax differences, the fund decreased accumulated undistributed investment income-net by \$256,777, increased net realized gain (loss) on investments by \$4,496,663 and decreased paid-in capital by \$4,239,886. Net assets were not affected by this reclassification.

NOTE 2--Bank Line of Credit:

The fund participates with other Dreyfus-managed funds in a \$100 million unsecured line of credit primarily to be utilized for temporary or emergency

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

purposes. Interest is charged to the fund based on prevailing market rates in effect at the time of borrowings. During the period ended November 30, 2002, the fund did not borrow under the line of credit.

NOTE 3--Investment Advisory Fee, Administration Fee and Other Transactions With Affiliates:

(A) The fee payable by the fund, pursuant to the provisions of an Investment Advisory Agreement with Dreyfus, is payable monthly based on an annual rate of .50 of 1% of the value of the fund's average weekly net assets. The fund also has an Administration Agreement with Dreyfus, a Custody Agreement with the Custodian and a Transfer

Agency and Registrar Agreement with PFPC. The fund pays in the aggregate for administration, custody and transfer agency services a monthly fee based on an annual rate of .25 of 1% of the value of the fund's average weekly net assets; out-of pocket transfer agency and custody expenses are paid separately by the fund.

(B) Each director who is not an "affiliated person" as defined in the Act receives from the fund an annual fee of \$2,500 and an attendance fee of \$500 per meeting. The Chairman of the Board receives an additional 25% of such compensation and the Director Emeritus receives 50% of such compensation.

NOTE 4--Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended November 30, 2002, amounted to \$264,155,985 and \$263,429,116, respectively.

At November 30, 2002, the cost of investments for federal income tax purposes was \$599,566,790; accordingly, accumulated net unrealized depreciation on investments was \$9,876,120, consisting of \$23,903,556 gross unrealized appreciation and \$33,779,676 gross unrealized depreciation.

NOTE 5--Change in Accounting Principle:

(A) As required, effective December 1, 2001, the fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing discount or premium on a scientific basis for debt securities on a daily basis. Prior to December 1, 2001, the fund amortized premiums on debt securities on a scientific basis but recognized market discount upon disposition. The cumulative effect of this accounting change had no impact on total net assets of the fund, but resulted in a \$156,114 increase in accumulated undistributed investment income-net and a corresponding \$156,114 decrease in accumulated net unrealized appreciation (depreciation), based on securities held by the fund on November 30, 2001.

The Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The effect of this change for the period ended November 30, 2002 was to increase net investment income by \$100,662, increase net unrealized appreciation (depreciation) by \$3,163 and decrease net realized gains (losses) by \$103,825. The statement of changes in net assets and financial highlights for prior periods have not been restated to reflect this change in presentation.

(B) Effective December 1, 2000, the fund adopted the classification requirement of EITF D-98, Classification and Measurement of Redeemable Securities. EITF D-98 requires that preferred stock for which its redemption is outside of the fund's control should be presented outside of net assets in the statement of assets and

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

liabilities. The redemption of the fund's preferred stock is outside of the control of the fund because of provisions in the fund's Articles Supplementary Creating Three Series of Auction Preferred Stock relating to compliance with rating agency guidelines. In adopting EITF D-98, the fund's net assets as of December 1, 2000 in the statement of changes in net assets is restated by excluding preferred stock valued at \$186,000,000 at that date. The adoption also resulted in dividends on preferred stock being reclassified from distributions on the statement of changes in net assets to a separate line item within the statement of operations. This resulted in a decrease of \$3,420,665 and \$5,551,745 to net assets from operations for the periods ended November 30, 2002 and November 30, 2001, respectively. As part of the adoption, per share distributions of dividends on preferred stock was reclassified from distributions to amounts from investment operations for each period presented in the financial highlights.

REPORT OF INDEPENDENT AUDITORS

Shareholders and Board of Directors Dreyfus Strategic Municipal Bond Fund, Inc.

We have audited the accompanying statement of assets and liabilities of Dreyfus Strategic Municipal Bond Fund, Inc., including the statement of investments, as of November 30, 2002, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the years indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included verification by examination of securities held by the custodian as of November 30, 2002 and confirmation of securities not held by the custodian by correspondence with others. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Dreyfus Strategic Municipal Bond Fund, Inc. at November 30, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated years, in conformity with accounting principles generally accepted in the United States.

The Fund

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby designates all the dividends

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

paid from investment income-net during the fiscal year ended November 30, 2002 as "exempt-interest dividends" (not generally subject to regular federal income tax).

As required by federal tax law rules, shareholders will receive notification of their portion of the fund's taxable ordinary dividends and capital gain distributions paid for the 2002 calendar year on Form 1099-DIV which will be mailed by January 31, 2003.

ADDITIONAL INFORMATION (Unaudited)

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Under the fund's Dividend Reinvestment Plan (the "Plan"), a holder of Common Stock ("Common Shareholder") who has fund shares registered in his name will have all dividends and distributions reinvested automatically by PFPC Global Fund Services, as Plan agent (the "Agent"), in additional shares of the fund at the lower of prevailing market price or net asset value (but not less than 95% of market value at the time of valuation) unless such Common Shareholder elects to receive cash as provided below. If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price or if a dividend or other distribution payable only in cash is declared, the Agent, as agent for the Plan participants, will buy fund shares in the open market. A Plan participant is not relieved of any income tax that may be payable on such dividends or distributions.

A Common Shareholder who owns fund shares registered in the name of his broker/dealer or other nominee (i.e., in "street name") may not participate in the Plan, but may elect to have cash dividends and distributions reinvested by his broker/dealer or other nominee in additional shares of the fund if such service is provided by the broker/dealer or other nominee; otherwise such dividends and distributions will be treated like any other cash dividend or distribution.

A Common Shareholder who has fund shares registered in his name may elect to withdraw from the Plan at any time for a \$5.00 fee and thereby elect to receive cash in lieu of shares of the fund. Changes in elections must be by direct mail to PFPC Global Fund Services, Attention: Closed-End funds, Post Office Box 8030, Boston, Massachusetts 02266, or by telephone at 1-800-331-1710, and should include the shareholder's name and address as they appear on the Agent's records. Elections received by the Agent will be effective only if received prior to the record date for any distribution.

The Agent maintains all Common Shareholder accounts in the Plan and furnishes written confirmations of all transactions in the account. Shares in the account of each Plan participant will be held by the Agent in non-

ADDITIONAL INFORMATION (Unaudited) (CONTINUED)

certificated form in the name of the participant, and each such participant's proxy will include those shares purchased pursuant to the Plan.

The fund pays the Agent's fee for reinvestment of dividends and distributions. Plan participants pay a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchases in connection with the reinvestment of dividends or distributions.

The fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to Plan participants at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by the Agent on at

Edgar Filing: DREYFUS STRATEGIC MUNICIPAL BOND FUND INC - Form N-30D

least 90 days' written notice to Plan participants.

MANAGED DIVIDEND POLICY

The fund's dividend policy is to distribute substantially all of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more consistent yield to the current trading price of shares of Common Stock of the fund, the fund may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the fund for any particular month may be more or less than the amount of net investment income earned by the fund during such month. The fund's current accumulated but undistributed net investment income, if any, is disclosed in the Statement of Assets and Liabilities, which comprises part of the Financial Information included in this report.

BENEFITS AND RISKS OF LEVERAGING

The fund utilizes leverage to seek to enhance the yield and net asset value of its Common Stock. These objectives cannot be achieved in all interest rate environments. To leverage, the fund issues Preferred Stock, which pays dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the fund's Common Stock. In order to benefit Common Shareholders, the yield curve must be positively sloped: that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders. If either of these conditions change, then the risk of leveraging will begin to outweigh the benefits.

SUPPLEMENTAL INFORMATION
