Data

In the third quarter, 4,181 line equivalents for data transmission were added, 97.4% lower than the third quarter of 2001 as a result of a circuit consolidation process with the main telecommunications operators. For the nine months, 266,856 line equivalents were added, 39.0% lower than the same period of last year. At September 30, 2002 TELMEX had 1,840,750 line equivalents for data transmission, an annual increase of 28.3%.

During the quarter, 85,560 Internet access accounts were added, 0.7% higher than the same period of last year and 187.8% higher than the second quarter. For the nine months, 188,491 Internet access accounts were added, 10.9% lower than the same period of last year. At September 30, 2002 TELMEX had 1,101,618 Internet access accounts in operation, 30.3 % more than in 2001.

Even though there was growth in line equivalents, the data market is very competitive and TELMEX is offering packages of products and services in order to maintain the company's position in the market. As a result, revenues generated by the data transmission business for the third quarter were 3,098 million pesos, 1.5% higher than the third quarter of 2001 and 2.5% more than the second quarter. For the nine months, data transmission revenues totaled 8,972 million pesos, 1.8% higher than the same period of the previous year. In the end of the third quarter, the data business contributed 11.1% of TELMEX's total revenues and 10.9% in the nine months.

TELMEX financial results

In the third quarter, total revenues decreased 5.1% compared with the previous year as a result of lower local, interconnection, domestic and international long distance traffic growth rhythm and the reduction of rates in real terms. For the nine months, the decrease was 4.5% compared with the same period of 2001.

Operating costs and expenses increased 5.3% compared with last year's third quarter and for the nine months they increased 0.3%. If costs related with interconnection and depreciation were put aside, costs would show a decrease of 2.4% in the third quarter and 3.0% in the nine months.

This is the result of a reduction in cost of sales and services of 0.4% in the third quarter an increase of 0.1% for the nine months. Commercial, administrative and general expenses decreased 5.3% compared with the same period of last year and for the nine months, they decreased 7.5%.

In the third quarter, EBITDA totaled 14,479 million pesos, a decrease of 9.7% and operating income was 9,206 million pesos, a decrease of 20.9%. For the nine months, EBITDA decreased 8.1% and operating income decreased 12.5%, totaling 43,292 million pesos and 28,403 million pesos, respectively.

In spite of a high level of volatility in the exchange rate during the third quarter, the net impact on the value of the peso was a loss of only 20.5 Mexican cents. In light of that, the company reduced hedges by an average of approximately 2.8 billion dollars related to an exchange rate of 10.07 pesos per dollar. The resulting gain of 265.5 million pesos partially offset losses related to \$5.645 billion dollars of foreign-denominated debt. At the end of the quarter, hedges were 2.107 billion dollars.

During the third quarter, comprehensive financing cost had a charge of 1,551 million pesos, resulting from an exchange loss of 896 million pesos and a net interest charge of 1,312 million pesos. The exchange loss was mainly due to the fluctuation of the peso against the dollar, partially offset by hedges made by the company. A gain of 657 million pesos was generated in the monetary position during the quarter. For the nine months, comprehensive financing cost rose to 5,579 million pesos.

Net income for the third quarter was 4,449 million pesos, 7.5% lower than the same period of last year. For the nine months, net income decreased 22.5% compared with the same period of the previous year totaling 14,060 million

pesos. TELMEX's earnings per share for the third quarter, based on the number of shares outstanding at period end, were 0.35 pesos, 2.8% lower than the same period of the previous year, and for the nine months were 1.09 pesos, 19.8% lower than the same period of 2001.

Comments on local service financial results

The local service income statement, prepared in accordance with accounting separation principles, shows that revenues for the third quarter decreased 5.3%. The decrease in revenues was mainly due to lower dynamics in local and interconnection traffic, the reduction of interconnection rates and the depreciation of local rates in real terms.

Operating costs and expenses increased 3.2% compared with the third quarter of 2001. The reduction of 3.3% in cost of sales and services and 7.9% reduction in commercial, administrative and general did not offset the effect of the increase of 21.6% in depreciation and 11.1% in interconnection costs, compared with the third quarter of 2001.

EBITDA and operating income decreased 9.4% and 21.2% respectively compared with the same period of the previous year. For the nine months, EBITDA decreased 10.5% and operating income decreased 15.3%.

Comments on long distance financial results

The long distance income statement prepared in accordance with accounting separation principles shows that long distance revenues in the third quarter decreased 10.6% compared with last year's third quarter. The decrease in revenues was due to a lower volume of domestic long distance traffic and the reduction of long distance rates in real terms.

For the nine months, operating costs and expenses increased 1.1% compared with the same period of last year. This increase was mainly due to higher depreciation costs of 29.3% in the third quarter.

EBITDA decreased 21.0% and operating income decreased 31.0% in the third quarter. For the nine months, EBITDA decreased 16.2%. and operating income decreased 22.0%.
