SCOTT'S LIQUID GOLD-INC. & SUBSIDIARIES
Notes to Consolidated Financial Statements (Unaudited)

Note 1. Summary of Significant Accounting Policies

(a) Company Background

Scott's Liquid Gold-Inc. (a Colorado corporation) was incorporated on February 15, 1954. Scott's Liquid Gold-Inc. and its wholly owned subsidiaries (collectively, "we") manufacture and market quality household and skin care products. In the first quarter of 2001, we began acting as a distributor in the United States of beauty care products contained in individual sachets and manufactured by Montagne Jeunesse. Our business is comprised of two segments, household products and skin care products.

(b) Principles of Consolidation

Our consolidated financial statements include our accounts and our subsidiaries. All intercompany accounts and transactions have been eliminated.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include, but are not limited to, realizability of deferred tax assets, reserves for slow moving and obsolete inventory, customer returns and allowances, and bad debts. Actual results could differ from those estimates.

(d) Cash Equivalents

We consider all highly liquid investments with an original maturity of three months or less at the date of acquisition to be cash equivalents.

(e) Investments in Marketable Securities

We account for investments in marketable securities in accordance with Statement of Financial Accounting Standards ("SFAS") No. 115 "Accounting for Certain Investments in Debt and Equity Securities", which requires that we classify investments in marketable securities according to management's intended use of such investments. We invest our excess cash and have established guidelines relative to diversification and maturities in an effort to maintain safety and liquidity. These guidelines are periodically reviewed and modified to take advantage of trends in yields and interest rates. We consider all investments as available for use in our current operations and, therefore, classify them as short-term, available-for-sale investments. Available-for-sale investments are stated at fair value, with unrealized gains and losses, if any, reported net of tax, as a separate component of shareholders' equity and comprehensive income (loss). The cost of the securities sold is based on the specific identification method. Investments in corporate and government securities as of March 31, 2005, are scheduled to mature within one year.

(f) Inventories

Inventories consist of raw materials and finished goods and are stated at the lower of cost (first-in, first out method) or market. We record a reserve for slow moving and obsolete products and raw materials.

Inventories were comprised of the following at:

	March 31, 2005	December 31, 2004
Finished goods	\$ 3,466,000	\$ 2,256,100
Raw materials	1,553,800	993,200
Inventory valuation in reserve	(309,000)	(309,000)
	\$ 4,710,800	\$ 2,940,300

(g) Property, Plant and Equipment

Property, plant and equipment are recorded at historical cost. Depreciation is provided using the straight-line method over estimated useful lives of the assets ranging from three to forty-five years. Building structures and building improvements are estimated to have useful lives of 35 to 45 years and 3 to 20 years, respectively. Production equipment and production support equipment are estimated to have useful lives of 15 to 20 years and 3 to 10 years, respectively. Office furniture and office machines

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

are estimated to have useful lives 10 to 20 and 3 to 5 years, respectively. Carpeting, drapes and company vehicles are estimated to have useful lives of 5 to 10 years. Maintenance and repairs are expensed as incurred. Improvements that extend the useful lives of the assets or provide improved efficiency are capitalized.

(h) Financial Instruments

Financial instruments which potentially subject us to concentrations of credit risk include cash and cash equivalents, investments in marketable securities, and trade receivables. We maintain our cash balances in the form of bank demand deposits with financial institutions that management believes are creditworthy. We establish an allowance for doubtful accounts based upon factors surrounding the credit risk of specific customers, historical trends and other information. We have no significant financial instruments with off-balance sheet risk of accounting loss, such as foreign exchange contracts, option contracts or other foreign currency hedging arrangements.

The recorded amounts for cash and cash equivalents, receivables, other current assets, and accounts payable and accrued expenses approximate fair value due to the short-term nature of these financial instruments. The fair value of investments in marketable securities is based upon quoted market value. Our long-term debt bears interest at a variable rate, the lender's base rate, which approximates the prime rate. The carrying value of long-term debt approximates fair value as of March 31, 2005 and December 31, 2004.

(i) Long-Lived Assets

We account for long-lived assets in accordance with the provisions of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This Statement requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(j) Income Taxes

We account for income taxes in accordance with the provisions of SFAS No. 109, "Accounting for Income Taxes", which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective income tax bases. A valuation allowance is provided when it is more likely than not that some portion or all of a deferred tax asset will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the period in which related temporary differences become deductible. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

(k) Revenue Recognition

Revenue is generally recognized upon delivery of products to customers, which is when title passes. Reserves for estimated market development support, pricing allowances and returns are provided in the period of sale as a reduction of revenue. Reserves for returns and allowances are recorded as a reduction of revenue, and are maintained at a level that management believes is appropriate to account for amounts applicable to existing sales. Reserves for coupons and certain other promotional activities are recorded as a reduction of revenue at the later of the date at which the related revenue is recognized or the date at which the sales incentive is offered. At March 31, 2005 and December 31, 2004 approximately \$692,300 and \$862,600, respectively, had been reserved as a reduction of accounts receivable, and approximately \$110,000 and \$90,000, respectively, had been reserved as current liabilities. Co-op advertising, marketing funds, slotting fees and coupons are deducted from gross sales and total \$364,000 and \$515,100 at March 31, 2005 and 2004, respectively.

(l) Advertising Costs

We expense advertising costs as incurred.

(m) Stock-based Compensation

We have elected to follow Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" and related interpretations in accounting for our employee stock options. Under APB No. 25, employee stock options are accounted for based upon the intrinsic value, which is the difference between the exercise price and fair value of the underlying common stock. Generally, if the exercise price of employee stock options equals the market price of the underlying stock on the date of the grant, no compensation expense is recorded. We have adopted the disclosure only provisions of SFAS No. 123, "Accounting for Stock-based Compensation".

We granted 10,000 options for shares of our common stock during the three months ended March 31, 2005 with an exercise price equal to \$0.53. Had compensation cost been recorded based on the fair value of options granted by us, our pro-forma net loss and net loss per share for the quarters ended March 31, 2005 and 2004 would have been as follows:

	2005		2004	
	As Reported	Pro Forma	As Reported	Pro-Forma
Net loss	\$ (394,900)	\$ (396,900)	\$ (350,800)	\$ (367,100)
Basic loss per share	\$ (0.04)	\$ (0.04)	\$ (0.03)	\$ (0.04)
Diluted loss per share	\$ (0.04)	\$ (0.04)	\$ (0.03)	\$ (0.04)

The fair value of options granted has been estimated as of the date of grant using the following assumptions as of March 31:

	2005	2004
Dividend rate	\$ -	\$ -
Expected volatility	67%	169%
Risk-free interest rate	3.80%	3.04%

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

Expected life 4.5 years 4.5 years

(n) Comprehensive Income

We follow SFAS No. 130, "Reporting Comprehensive Income" which establishes standards for reporting and displaying comprehensive income and its components. Comprehensive income includes all changes in equity during a period from non-owner sources.

The following table is a reconciliation of our net loss to our total comprehensive loss for the quarters ended March 31, 2005 and 2004:

	2005	2004
	-----	-----
Net loss	\$ (394,900)	\$ (350,800)
Unrealized gain (loss) on investment securities	(1,500)	500
	-----	-----
Comprehensive loss	\$ (396,400)	\$ (350,300)
	=====	=====

(o) Operating Costs and Expenses Classification

Cost of sales includes costs associated with manufacturing and distribution including labor, materials, freight-in, purchasing and receiving, quality control, internal transfer costs, repairs, maintenance and other indirect costs, as well as warehousing and distribution costs. We classify shipping and handling costs comprised primarily of freight-out and nominal outside warehousing costs as a component of selling expense on the accompanying Consolidated Statement of Operations. Shipping and handling costs totaled \$398,600 and \$323,300 for the quarters ended March 31, 2005 and 2004 respectively.

Selling expenses consist primarily of shipping and handling costs, wages and benefits for sales and sales support personnel, travel brokerage commissions, promotional costs, as well as other indirect costs.

General and administrative expenses consist primarily of wages and benefits associated with management and administrative support departments, business insurance costs, professional fees, office facility related expenses and other general support costs.

(p) Recently Issued Accounting Pronouncements

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123, (revised 2004) "Share-Based Payment" ("SFAS 123(R)"). This statement is a revision of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" as amended ("SFAS 123"), and requires entities to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The cost will be recognized over the period during which an employee is required to provide services in exchange for the award (usually the vesting period). SFAS 123(R) covers various share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. SFAS 123(R) eliminates the ability to use the intrinsic value method of accounting for share options, as provided in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"). SFAS 123(R) is effective beginning January 1, 2006,

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

with early adoption encouraged. We are currently evaluating the statement's transition methods and does not expect this statement to have an effect materially different than that of the pro forma SFAS 123 disclosures provided in Note 1 to the our Consolidated Financial Statements included in "Item 8. Financial Statements and Supplementary Data" in our 2004 Annual Report on Form 10-K and in Note 1 above.

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 153, "Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29" ("SFAS 153"). This Statement amends APB Opinion No. 29 to permit the exchange of nonmonetary assets to be recorded on a carry over basis when the nonmonetary assets do not have commercial substance. This is an exception to the basic measurement principal of measuring a nonmonetary asset exchange at fair value. A nonmonetary asset exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. If we enter into significant nonmonetary asset exchanges in the future, SFAS 153 could have a material effect on our consolidated financial position, results of operations or cash flows.

In December 2003, the FASB issued Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51" ("FIN 46R"). FIN 46R requires a company to consolidate a variable interest entity, as defined, when the company will absorb a majority of the variable interest entity's expected losses, receive a majority of the variable interest entity's expected residual returns, or both. FIN 46R also requires certain disclosures relating to consolidated variable interest entities and unconsolidated variable interest entities in which a company has a significant variable interest. The provisions of FIN 46R are required for companies that have interests in variable interest entities or potential variable interest entities commonly referred to as special-purpose entities for periods ending after December 15, 2003. The provisions of FIN 46R are required to be applied for periods ending after March 15, 2004 for all other types of entities. We were required to perform this assessment at March 31, 2005, and consolidate any variable interest entities for which we would absorb a majority of the entities' expected losses or receive a majority of the expected residual gains. We do not have any variable interest entities as of March 31, 2005; therefore this assessment had no impact on our consolidated financial statements.

(q) Reclassifications

Certain reclassifications have been made to the December 31, 2004 balance sheet to conform to the current Period presentation.

Note 2. Basis of Preparation of Financial Statements

We have prepared these unaudited interim consolidated financial statements in accordance with the rules and regulations of the Securities and Exchange Commission. Such rules and regulations allow the omission of certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles as long as the statements are not misleading.

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

In the opinion of management, all adjustments necessary for a fair presentation of these interim statements have been included and are of a normal recurring nature. These interim financial statements should be read in conjunction with our financial statements included in our 2004 Annual Report on Form 10-K.

Note 3. Earnings per Share

Per share data was determined by using the weighted average number of common shares outstanding. Potentially dilutive securities, including stock options, are considered only for diluted earnings per share, unless considered anti-dilutive. The potentially dilutive securities, which are comprised of outstanding stock options of 1,115,500 and 1,134,000 at March 31, 2005 and 2004, were excluded from the computation of weighted average shares outstanding due to the anti-dilutive effect.

A reconciliation of the weighted average number of common shares outstanding for the three months ended March 31 follows:

	2005	2004
	-----	-----
Common shares outstanding, beginning of the year	10,471,000	10,356,000
Stock options exercised	-	-
	-----	-----
Weighted average number of common shares outstanding	10,471,000	10,356,000
Dilutive effect of common share equivalents	-	-
	-----	-----
Diluted weighted average number of common shares outstanding	10,471,000	10,356,000
	=====	=====

At March 31, 2005, there were authorized 50,000,000 shares of our \$.10 par value common stock and 20,000,000 shares of preferred stock issuable in one or more series. None of the preferred stock was issued or outstanding at March 31, 2005.

Note 4. Segment Information

We operate in two different segments: household products and skin care products. Our products are sold in the United States and internationally (primarily Canada), directly and through independent brokers, to mass merchandisers, drug stores, supermarkets, wholesale distributors and other retail outlets. Our Management has chosen to organize our business around these segments based on differences in the products sold. The household products segment includes "Scott's Liquid Gold" for wood, a wood cleaner which preserves as it cleans, and "Touch of Scent", a room air freshener. The skin care segment includes: "Alpha Hydrox", alpha hydroxy acid cleansers and lotions; a retinol product; "Diabetic Skin Care", a healing cream and moisturizer developed to address skin conditions of diabetics; and skin care and other sachets of Montagne Jeunesse distributed by us.

The following provides information on our segments for the three months ended March 31:

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

	2005		2004	
	Household Products	Skin Care Products	Household Products	Skin Care Products
Net sales to external customers	\$ 2,092,200	\$ 3,430,300	\$ 2,303,200	\$ 2,905,800

Identifiable assets	\$ 4,041,300	\$ 7,427,100	\$ 3,915,200	\$ 7,306,600

The following is a reconciliation of segment information to consolidated information for the three months ended March 31:

	2005	2004
Net sales to external customers	\$ 5,522,500	\$ 5,209,900
Loss before profit sharing, bonuses and income taxes	\$ (394,900)	\$ (350,800)
Identifiable assets	\$11,468,400	\$11,221,800
Corporate assets	12,457,900	13,599,000
Consolidated total assets	\$23,926,300	\$24,820,800

Corporate assets noted above are comprised primarily of our cash and investments, deferred income tax assets and property and equipment not directly associated with the manufacturing, warehousing, shipping and receiving activities.

Note 5. Subsequent Event

On May 4, 2005, our wholly-owned subsidiary, Neoteric Cosmetics, Inc. ("Neoteric"), entered into a new distribution agreement with Montagne Jeunesse International Ltd ("Montagne Jeunesse") covering our distribution of Montagne Jeunesse products. It replaces a distribution agreement in effect since 2000. In the new agreement, Montagne Jeunesse appoints Neoteric as its exclusive distributor to market and distribute Montagne Jeunesse products in the United States of America. The appointment is for a period of 18 months, commencing May 3, 2005, and continues in force until terminated by either party by giving to the other party no less than three months' notice in writing of a termination at the end of the initial term of 18 months or any time after the initial term.

The principal and controlling owner of Montagne Jeunesse, Gregory Butcher, owned beneficially, to our knowledge, at March 15, 2005 approximately 10.0% of our outstanding common stock. Our sales of Montagne Jeunesse products accounted in 2004 and to date in 2005 for a significant portion of our total net revenues.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

Results of Operations

During the first quarter of 2005, we experienced an increase in sales of our Montagne Jeunesse line of skin care products while experiencing a decrease in sales of our other skin care products and our line of household chemical products. Our net loss for the first quarter of 2005 was \$394,900 versus a loss of \$350,800 in the first quarter of 2004. The loss for 2005 was primarily due to a lower profit margin on the increased sales of our Montagne Jeunesse products and to the household chemical products sales decrease. Please see the discussion below regarding our new distribution agreement for Montagne Jeunesse products.

Our gross margins may not be comparable to those of other entities, since some entities include all of the costs related to their distribution network in cost of sales and others, like us, exclude a portion of them (freight out to customers and nominal outside warehouse costs) from gross margin, including them instead in the selling expense line item. Three Months Ended March 31, 2005
 Compared to Three Months Ended March 31, 2004

Consolidated net sales for the first quarter of the current year were \$5,522,500 versus \$5,209,000 for the first three months of 2004, an increase of \$313,500. Average selling prices for the first three months of the year 2005 were relatively unchanged over the comparable period of 2004. Co-op advertising, marketing funds, slotting fees, and coupons paid to retailers are deducted from gross sales, and totaled \$364,000 in the first quarter of 2005 versus \$515,100 in the same quarter in 2004, a decrease of \$151,100 or 29.3%.

During the first quarter of 2005, net sales of skin care products accounted for 62.1% of consolidated net sales compared to 55.8% for the same quarter of 2004. Net sales of these products for that period were \$3,430,300 in 2005 compared to \$2,905,800 in 2004, an increase of \$524,500 or 18.1%. We have continued to experience a drop in unit sales of our earlier-established alpha hydroxy acid products due at least in part to maturing in the market for alpha hydroxy acid-based skin care products and intense competition from producers of similar or alternative products, many of which are considerably larger than Neoteric Cosmetics, Inc. Sales of our Alpha Hydrox products (with and without alpha hydroxy acid) have also decreased during 2004 and the first quarter of 2005, due to reduced distribution of those products at retail stores, including our largest and other customers having reduced in prior quarters the number of types of those products carried on their shelves and discontinuation in 2003 of these products at certain retail chains. This change has resulted, and is likely to result in the future, in lower sales of those products. For the first quarter of 2005, the sales of our Alpha Hydrox products accounted for 9.6% of net sales of skin care products and 6.0% of total net sales, compared to 29.3% of net sales of skin care products and 16.4% of total net sales in the first quarter of 2004. We are in the early stages of introducing four new items in our Alpha Hydrox line of cosmetic products and will start shipping them in the second quarter of 2005.

For 2005, sales of Montagne Jeunesse products comprised a majority of net sales of our skin care products. Net sales of Montagne Jeunesse were approximately \$2,749,100 in 2005 compared to \$1,664,200 in 2004. We believe that this increase in sales of Montagne Jeunesse is attributable primarily to an increase in the number and type of Montagne Jeunesse sachets on retailers' shelves in the first quarter of 2005 versus 2004. We also believe there were fewer units of products left over from holiday sales at the end of 2004 versus 2003 thus creating a need to replenish retailer inventory early in 2005.

Edgar Filing: SCOTT'S LIQUID GOLD INC - Form 10-Q

In 2001, the Company commenced purchases of the skin care sachets from Montagne Jeunesse under a distribution agreement covering the United States. Montagne Jeunesse is the sole supplier of that product. On May 4, 2005, we entered into a new distribution agreement with Montagne Jeunesse International Ltd., which replaces the distribution agreement previously in effect. Sales of these products represent a significant source of the Company's revenues. If the Montagne Jeunesse distribution agreement were to be terminated, it would significantly reduce the Company's revenues, would have a material adverse effect on the Company's operating results and cash flow and, absent other developments, would result in the need for substantial reductions in the Company's expenses. The principal and controlling owner of Montagne Jeunesse is, to the knowledge of the Company, the beneficial owner at March 15, 2005 of approximately 10% of the Company's outstanding common stock.

Sales of household products for the first quarter of this year accounted for 37.9% of consolidated net sales compared to 44.2% for the same period of 2004. These products are comprised of Scott's Liquid Gold for wood, a wood cleaner which preserves as it cleans, and Touch of Scent, a room air freshener. During the quarter ended March 31, 2005, sales of household products were \$2,092,200 as compared to sales of \$2,303,200 for the same quarter of 2004. Sales of Scott's Liquid Gold for wood, were down by \$104,400, a decrease of 6.3%, which we believe is the result primarily of a decrease in advertising in the first quarter of 2005 versus 2004. Sales of Touch of Scent were down by \$106,600 or 16.6%, primarily due to a decrease in orders for, and distribution of, our Touch of Scent dispenser package. We are introducing a new wood care product under the Scott's Liquid Gold product line and will start shipping in the second quarter of 2005.

As sales of a consumer product decline, there is the risk that retail stores will stop carrying the product. The loss of any significant customer for any skin care products, "Scott's Liquid Gold" for wood or "Touch of Scent", could have a significant adverse impact on our revenues and operating results. We believe that our future success is highly dependent on favorable acceptance in the marketplace of Montagne Jeunesse products and the sales of our Alpha Hydrox products and "Scott's Liquid Gold" for wood.

On a consolidated basis, cost of goods sold was \$3,107,500 during the first three months of 2005 compared to \$2,750,600 for the same period of 2004, an increase of \$356,900 or 13.0%, on a sales increase of 6%. As a percentage of consolidated net sales, cost of sales was 56.3% in 2005 versus 52.8% in 2004, an increase of about 6.6%, which was essentially due to greater sales of Montagne Jeunesse products at a higher cost per unit, along with the increased cost of steel cans and the increase in the cost of petroleum based raw materials used in many of our products.

Operating Expenses, Interest Expense and Other Income

 Interest Income	 \$ 12,700	 \$ 10,700	 18.7%
 Interest Expense	 \$ 48,000	 \$ 45,800	 4.8%

Operating expenses, comprised of advertising, selling and general and administrative expenses, increased by \$500 in the first quarter of 2005 when compared to first quarter of 2004. The various components of operating expenses are discussed below.

Advertising expenses for the first three months of 2005 were \$276,500 compared to \$463,700 for the comparable quarter of 2004, a decrease of \$187,200 or 40.4%. A majority of that decrease, \$178,000, was due to a decrease in advertising expenses applicable to household chemical products.

Selling expenses for the first quarter of 2005 were \$1,475,300 compared to \$1,323,900 for the comparable three months of 2004, an increase of \$151,400 or 11.4%. That increase was comprised of an increase in freight expenses of \$69,300, an increase in salaries and fringe benefits and related travel expense of \$101,200 primarily because of an increase in personnel in 2005 versus 2004, offset by a net decrease in other selling expenses, none of which by itself is significant, of \$19,100.

General and administrative expenses for the first three months of 2005 were \$1,022,800 compared to \$986,500 for the comparable period of 2004, an increase of \$36,300 or 3.7%. That increase was primarily attributable to an increase in bad debt expense (\$27,000).

Interest expense for the first quarter of 2005 was \$48,000 versus \$45,800 for the comparable quarter of 2004. Interest income for the three months ended March 31, 2005 was \$12,700 compared to \$10,700 for the same period of 2004, which consists of interest earned on our cash reserves in 2005 and 2004.

During the first quarter of 2005 and of 2004, expenditures for research and development were not material (under 2% of revenues).

Liquidity and Capital Resources

On August 10, 2004 we obtained a \$1,500,000 line of credit from a bank to finance additional inventory and accounts receivable. The line of credit bears interest at a rate of .5% over the bank's base rate (5.75% at March 31, 2005) and matures on August 10, 2005. The line of credit is secured by inventory and accounts receivable. The covenants are the same as the bank loan described below. At March 31, 2005, the amount borrowed under this line of credit was \$660,000.

We have a bank loan for approximately \$2.6 million at the bank's base rate, adjustable annually each November (5.00% at November 2004), secured by our land and buildings, with principal and interest payable monthly through November 2007. The loan

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

agreement contains a number of covenants, including the requirement for maintaining a current ratio of at least 1:1 and a ratio of consolidated long-term debt to consolidated net worth of not more than 1:1. We may not declare any dividends that would result in a violation of either of these covenants. The foregoing requirements were met at the end of the first quarter of 2005.

During the first quarter of 2005 our working capital decreased by \$489,300, and concomitantly, our current ratio (current assets divided by current liabilities) decreased from 1.7:1 at December 31, 2004 to 1.6:1 at March 31, 2005. This decrease in working capital is attributable to a net loss in the first three months of 2005 of \$394,900, and a reduction in long-term debt of \$237,400, a decrease in deferred tax liabilities of \$32,900, a decrease in accumulated comprehensive income of \$1,500, offset by depreciation in excess of capital additions of \$174,700, and a decrease in other assets of \$2,700.

At March 31, 2005, trade accounts receivable were \$1,040,500 versus \$1,419,700 at year-end, largely because sales in the quarter ended March 31, 2005 were less than those of the quarter ended December 31, 2004. Accounts payable increased from the end of 2004 through March of 2005 by \$851,500 corresponding primarily with the increase in inventory over that period, as well as, an increase in advertising activity during the first quarter of 2005 when compared to the fourth quarter of 2004. At March 31, 2005 inventories were \$1,770,500 more than at December 31, 2004, due to the increase in Montagne Jeunesse inventory and household chemical products inventory to support sales of these products in the upcoming quarters. Accrued expenses decreased by \$15,100 from December 31, 2004 to March 31, 2005 primarily from a decrease in accrued salaries and related items of \$14,400.

We have no significant capital expenditures planned for 2005 and have no current plans for any external financing, other than our existing bank loans. We expect that our available cash and cash flows from operating activities will fund the next twelve months' cash requirements.

Our dependence on operating cash flow means that risks involved in our business can significantly affect our liquidity. Any loss of a significant customer, any further decreases in distribution of our skin care or household chemical products, any new competitive products affecting sales levels of our products, or any significant expense not included in our internal budget could result in the need to raise cash, such as through a bank financing. Except for the short-term line of credit described above, we have no arrangements for an external financing of debt or equity, and we are not certain whether any such financing would be available on acceptable terms. Please also see other risks summarized in "Forward Looking Statements" below. We expect our operating cash flows to improve if we achieve profitability in 2005.

Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss due to adverse changes in financial and commodity market prices and rates. We are not materially exposed to market risks regarding interest rates because the interest on our outstanding debt is at the lender's base rate, which approximates the prime rate, adjustable yearly. Our investments in debt and equity securities are

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

short-term and not subject to significant fluctuations in fair value. If interest rates were to rise 10% from year-end levels, the fair value of our debt and equity securities would have decreased by approximately \$11,800. Further, we do not use foreign currencies in our business. Currently, we receive payments for sales to parties in foreign countries in U.S. dollars. Additionally, we do not use derivative instruments or engage in hedging activities. As a result, we do not believe that near-term changes in market risks will have a material effect on results of operations, financial position or our cash flows.

There was no change in our internal control over financial reporting during the quarter ended March 31, 2005 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

5.4 The Distributor partner guarantees to purchase a minimum quantity of any new Product introduced by the Supplier, within six months of the Product being available.
