SAPIENS ANNOUNCES FIRST QUARTER 2005 RESULTS

Reports losses on its way to return to profitability

Research Triangle Park, N.C. May 10, 2005 Sapiens International Corporation N.V. (NASDAQ and TASE: SPNS) announced today unaudited financial results for its fiscal 2005 first quarter ended March 31, 2005. For the quarter, the company posted revenues of \$10.1 million compared with \$12.0 million in the fourth quarter of 2004. Gross profit was \$3.5 million, with gross profit margin of 34.6%, compared with 36.4% in the fourth quarter of 2004. The Company reported an operating loss of \$2.3 million, compared with an operating loss of \$0.8 million in the fourth quarter of 2004. Net loss for the quarter was \$2.6 million, compared with a net loss of \$1.7 million in the fourth quarter of 2004.

Itzick Sharir, President and Chief Executive Officer of Sapiens, commented: "As we had projected at the end of 2004, the first quarter of 2005 represents low revenues as a result of the long sale-cycle in the insurance industry and seasonally low first quarter revenues. In addition, we recorded a one-time expense of \$0.76 million relating to previously announced restructuring costs.

"We continue to believe in our financial projections and our plans to return to operational profitability in the coming quarters, as a result of growing revenues coupled with reduced expenses, highlighted by the recent restructuring.

"Our Sapiens INSIGHT™ suite of insurance solutions continues to gain market recognition. Sapiens INSIGHT™ has been praised by analysts for its innovation and has been categorized as a leading solution for the insurance industry. We believe that we are finally seeing the early signs of market penetration, as we gain access to new customers in the industry. We continue to make progress in our long-term business turn-around and we thank our customers, shareholders, investors and employees for their continued confidence and support, in spite of the short term complexity."
