This proxy statement and the accompanying form of proxy card are being mailed to our stockholders on or about May 20, 2003.

GENERAL INFORMATION

Annual Report. Our annual report for the year ended December 31, 2002, is enclosed with this proxy statement.

Voting Securities. Only common stockholders of record as of the close of business on April 24, 2003, will be entitled to vote at the meeting and any adjournment thereof. As of that date, there were 22,693,984 shares of our common stock, par value \$.001 per share, issued and outstanding, all of which are entitled to vote with respect to all matters to be acted upon at the annual meeting. Common stockholders may vote in person or by proxy. Each stockholder of record as of that date is entitled to one vote for each share of common stock held by him or her on the proposals presented in this proxy statement. Our bylaws provide that a majority of all of the shares of our capital stock entitled to vote, whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at the meeting. Votes for and against, abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum. Our Series A Preferred Stock is not entitled to vote on any matter to be voted on by the stockholders, except as otherwise required by law, and is not entitled to vote at this meeting.

Solicitation of Proxies. We will bear the cost of soliciting proxies. We will solicit stockholders by mail, through our regular employees, and will also request banks and brokers, and other custodians, nominees and fiduciaries, to solicit their customers who have our stock registered in the names of such persons, and will reimburse them for their reasonable, out-of-pocket costs. We may use the services of our officers, directors and others to solicit proxies, personally or by telephone, without additional compensation. In addition, we have retained Regan & Associates, Inc., a proxy solicitation firm, for assistance in connection with the annual meeting at a cost of approximately \$3,500.

Voting of Proxies. All valid proxies received prior to the meeting will be voted. All shares represented by a proxy will be voted, and where a stockholder specifies by means of the proxy a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specification so made. If no choice is indicated on the proxy, the shares will be voted in favor of the proposal. A stockholder giving a proxy has the power to revoke his or her proxy, at any time prior to the time it is voted, by delivering to the Secretary of the Company at our principal offices located at 4281 Technology Drive, Fremont, California 94538, a written instrument revoking the proxy or a duly executed proxy with a later date, or by attending the meeting and voting in person.

Table of Contents**PROPOSAL NUMBER ONE****ELECTION OF DIRECTORS**

We have a classified board of directors, which currently consists of a total of five directors, two of whom are Class I directors, two of whom are Class II directors, and one who is a Class III director. Class II, Class III and Class I directors serve until the annual meeting of stockholders to be held in 2003, 2004 and 2005, respectively. All directors serve until their respective successors are duly elected and qualified. Directors in a class are elected for a term of three years to succeed the directors in that class whose terms expire at such annual meeting.

The terms of each Class II director will expire on the date of the upcoming meeting. Accordingly, two persons are to be elected to serve as Class II directors. Management's nominees for election by the stockholders to Class II of our board of directors are Jesse Chen and Donald L. Tatzin, the current Class II members of the board of directors. If elected, the nominees will serve as directors until our annual meeting of stockholders in 2006, and until their successors are elected and qualified. If either nominee declines to serve or becomes unavailable for any reason, or if a vacancy occurs before the election, the proxies may be voted for substitute nominees as the board of directors may designate, although management knows of no reason why this would occur.

Mr. B.J. Moore resigned from the Board of Directors effective February 4, 2003. The Board of Directors, on the recommendation of the Nominating and Corporate Governance Committee, elected Mr. Leonard J. LeBlanc as a class III director effective April 21, 2003 to fill the vacancy created by Mr. Moore's resignation.

Vote Required and Board of Directors Recommendation

If a quorum is present and voting at the annual meeting of stockholders, the two nominees for Class II director receiving the highest number of votes cast will be elected as Class II directors. Abstentions and broker non-votes will have no effect on the outcome of the vote. Shares of Series A Preferred Stock are not entitled to vote on this matter.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE NOMINEES LISTED ABOVE.

OPTION GRANTS IN LAST FISCAL YEAR

The following table provides the specified information concerning grants of options to purchase our common stock made during the fiscal year ended December 31, 2001 to the persons named in the Summary Compensation Table. All of these options were granted under our 1997 Stock Option Plan and have a term of ten years. All options are subject to early termination in the event the optionee's services to the Company cease:

Name	Individual Grants				Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term(1)	
	Number of Shares Underlying Options Granted(2)(3)	% of Total Options Granted to Employees in Fiscal Year(4)	Exercise Price Per Share(5)	Expiration Date	5%	10%
Morris S. Young	126,000	12.67%	\$2.19	11/22/12	\$173,537	\$439,777
Davis Zhang	108,000	10.86%	\$2.19	11/22/12	\$148,746	\$376,952
Donald L. Tatzin	72,000	7.24%	\$2.19	11/22/12	\$99,164	\$251,301
Gordon Liu	90,000	9.05%	\$2.19	11/22/12	\$123,955	\$314,127

- (1) Potential realizable values are net of exercise price, but before taxes associated with exercise, and are based upon the assumption that our common stock appreciates at the annual rate shown (compounded annually) from the date of grant until the expiration of the ten-year option term. These amounts represent hypothetical gains that could be achieved for the respective options if exercised at the exercise price and sold at the end of the option term, at the appreciated price. The assumed 5% and 10% rates of stock price appreciation are provided in accordance with rules of the Securities and Exchange Commission and do not represent our estimate or projection of the future common stock price. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock, overall market conditions and the option holders' continued employment through the vesting period. This table does not take into account any appreciation in the price of the common stock from the date of grant to the current date.

No compensation intended to serve as incentive for performance to occur over a period longer than one fiscal year was paid pursuant to a long-term incentive plan during fiscal 2001 to any persons named in the Summary Compensation Table. We do not have any defined benefit or actuarial plan under which benefits are determined primarily by final compensation or average final compensation and years of service with any of the persons named in the Summary Compensation Table.

Compensation of Non-Employee Directors

During 2002, each of our non-employee directors received \$1,500 per board meeting and \$1,500 per committee meeting held on any non-scheduled board meeting date. Also, each non-employee director was reimbursed for reasonable expenses. The non-employee directors are eligible to receive option grants pursuant to our 1997 Stock Option Plan.

Options granted to non-employee directors are not intended to qualify as incentive stock options under the Internal Revenue Code. Commencing Fiscal 2003, each non-employee director of the Company will be paid an annual retainer of \$15,000, plus a fee of \$1,500 per board or committee meeting attended, and will be issued such number of shares of restricted common stock at each annual meeting date of our stockholders equal to the fair market value of our stock on such date divided by \$10,000. During the year ended December 31, 2002, options to purchase 41,000 shares of our common stock were granted to each of Messrs. Chen and Chang.

Section 16(a) Beneficial Ownership Reporting Compliance

Edgar Filing: AXT INC - Form DEF 14A

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission. These persons are required by

Table of Contents

Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) forms that they file.

Based solely on our review of the forms furnished to us and written representations from certain reporting persons, we believe that all filing requirements applicable to our executive officers, directors and persons who beneficially own more than 10% of our common stock were complied with in fiscal 2002.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

On November 22, 2002, the Board of Directors, on the recommendation of the Compensation Committee, adopted a second form of standard stock option agreement for use in connection with grants of stock options made to employees pursuant to our 1997 Stock Option Plan. This form of standard agreement provides that in the event of a change in control, as defined therein, and termination of employment or resignation for good reason as defined therein, of the individual's employment, within twelve months after the change in control, the vesting and exercisability of the option will accelerate such that the option will become immediately exercisable and vested in full as of the date of termination or resignation. Options granted to all of our employees during 2002, including options granted to our executive officers and directors, include these provisions which provide for acceleration in full upon a change of control event in which the employee is terminated or constructively dismissed within 12 months after the change in control. Options granted to our directors accelerate in full upon the change in control event, whether or not there is a termination of their service to the Company. All options so accelerated remain exercisable for the earlier of the term of the option or six months after the effective date of the termination. On November 22, 2002, our executive officers, Messrs. Young, Zhang, Tatzin and Liu were granted stock options for 126,000, 108,000, 72,000, and 90,000 shares respectively, under our 1997 Stock Option Plan and subject to a stock option agreement that includes this acceleration provision. On November 22, 2002, our outside directors, Messrs. Chen and Chang were granted stock options for 36,000, and 36,000 shares respectively, under our 1997 Stock Option Plan and subject to a stock option agreement that includes the acceleration provision.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

During fiscal year 2002, the Compensation Committee was comprised of David C. Chang, Jesse Chen, and B. J. Moore, each a non-employee member of the board of directors. Mr. Moore resigned from the board and from the Compensation Committee on February 4, 2003. The Compensation Committee is responsible for setting and monitoring policies governing compensation of executive officers. The Compensation Committee reviews the performance and compensation levels for executive officers and sets salary and bonus levels and option grants under our 1997 Stock Option Plan. The objectives of the Committee are to correlate executive compensation with our business objectives and performance, and to enable us to attract, retain and reward executive officers who contribute to our long-term success.

As the industry in which the Company operates can be extremely competitive, the Compensation Committee believes that the compensation programs for executive officers should be designed to retain and motivate talented executives responsible for the success of the Company, and should be determined within the competitive environment within which the Company is situated and based on the achievement of business objectives, individual contribution, and financial performance. The Committee's goals are to provide a total compensation package that considers the compensation practices of companies with which the Company competes for executive officers, provides variable compensation that is linked to achievement of financial, division, and individual performance goals, and aligns the interests of the executive officers with those of the company by providing them with an equity stake in the Company. The components of the Company's compensation policies for executive officers consists of base salary and benefits, bonuses and long-term stock option incentives.

Table of Contents

Salary

The Compensation Committee annually assesses the performance and sets the salary of the Company's president and chief executive officer, Morris S. Young, and the Company's other executive officers. At the beginning and midpoint of the fiscal year, base salaries were established by the board of directors based on competitive compensation data, top executive's job responsibilities, experience, individual performance and contributions to the business. No specific formula was applied to determine the weight of each factor.

The board's decision with regard to Dr. Young's compensation as president and chief executive officer was based on compensation paid to presidents and chief executive officers of comparably sized companies. In addition, the Compensation Committee considers certain incentive objectives based on the Company's performance as it relates to revenue levels and earnings per share levels.

In determining the salaries for the Company's other executive officers, the Compensation Committee reviews recommendations from Dr. Young, which includes information from salary surveys, performance evaluations and the financial condition of the Company. The Compensation Committee also establishes both financial and operational-based objectives and goals in determining executive officer salaries. These goals and objectives include sales and spending forecasts for the upcoming year and published executive compensation literature for comparably sized companies.

For more information regarding the compensation and employment arrangements of Dr. Young and other executive officers, see EXECUTIVE COMPENSATION AND OTHER MATTERS.

Bonuses

Incentive bonuses are intended to reflect the board's belief that a significant portion of the compensation of each executive officer should be contingent on the performance of the Company, as well as the individual contribution of each executive officer. In consultation with the chief executive officer, the Compensation Committee semi-annually determines the total amount of cash bonuses available for executive officers and certain other management employees. For fiscal 2002, bonus awards were contingent on the Company's attainment of revenue and operating profit targets, set by the Compensation Committee in consultation with the chief executive officer. Additionally, awards may be weighted so that executives would receive proportionately higher awards when performance targets are met and proportionately smaller awards when performance targets are not met.

Stock Options

The Compensation Committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for our stockholders and, therefore, periodically grants stock options under our stock option plan. Stock options are granted at the current market price and will only have value if our stock price increases over the exercise price. It is the belief of the board that stock options directly motivate an executive to maximize long-term stockholder value.

The Compensation Committee determines the size and frequency of option grants for executive officers, after consideration of recommendations from the chief executive officer. Recommendations for options are based upon the relative position and responsibilities of each executive officer, previous and expected contributions of each officer to the Company and previous option grants to each executive officer.

Compensation of Chief Executive Officer

Morris S. Young has served as the Company's president and chief executive officer since 1989. Early in 2003, the Compensation Committee reviewed Dr. Young's performance with regard to performance objectives set by the board of directors in 2002, weighted among specific personal and corporate objectives, in determining his eligibility for bonus compensation. Dr. Young did not receive a bonus for fiscal 2002. The board of directors granted Dr. Young options to purchase 126,000 shares of AXT's common stock based on attainment of predetermined financial and other corporate goals.

Section 162(m) of the Internal Revenue Code

The Company has considered the provisions of Section 162(m) of the Internal Revenue Code and related Treasury Department regulations which restrict deductibility of executive compensation paid to the Company's chief executive officer and each of the four other most highly compensated executive officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under the statute or regulations. Income from options granted under the 1997 Option Plan would generally qualify for an exemption from these restrictions so long as the options are granted by a committee whose members are non-employee directors. The Company expects that the compensation committee will generally be comprised of non-employee directors, and that to the extent such committee is not so constituted for any period of time, the options granted during such period will not be likely to result in compensation exceeding \$1,000,000 in any year.
