Chairman's
LETTER TO SHAREHOLDERS

I am pleased to report that for the six months ended June 30, 2005, your Fund continued to provide you with attractive monthly income from a diversified portfolio of quality preferred securities, convertible securities and high-yield debt. For more details about the management strategy and performance of your Fund, please see the Portfolio Managers' Comments and Performance Overview sections of this report.

As you'll see as you review this report, we continue to believe that your Fund provides a valuable source of regular monthly income, and that it also may provide an opportunity to reduce the overall risk of your entire investment portfolio. This

"WE CONTINUE TO BELIEVE THAT YOUR FUND PROVIDES A VALUABLE SOURCE OF REGULAR MONTHLY INCOME, AND THAT IT ALSO MAY PROVIDE AN OPPORTUNITY TO REDUCE THE OVERALL RISK OF YOUR ENTIRE INVESTMENT PORTFOLIO."

is because the price of your Fund's shares may move differently than the prices of other investments that you may own. Your financial advisor can explain the advantages of portfolio diversification in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

I also urge you to consider receiving future Fund reports and other Fund information faster by using e-mail and the Internet. Sign up is quick and easy - see the inside front cover of this report for step-by-step instructions.

Earlier in 2005, The St. Paul Travelers Companies, Inc., which owned 79% of Nuveen Investments, Inc. (the parent of your Fund's investment adviser), sold a substantial portion of its stake in Nuveen. More recently, St. Paul sold the balance of its shares in Nuveen to us or to others. Please be assured that these transactions only affect Nuveen's corporate structure, and they do not have any impact on the investment objectives or management of your Fund.

For more than 100 years, Nuveen has specialized in offering quality investments such as your Fund to those seeking to accumulate and preserve wealth. Our mission continues to be to assist you and your financial advisor by offering the investment solutions and services that can help you secure your long-term financial goals. We thank you for choosing us as a partner as you work toward that objective.

Nuveen Preferred and Convertible Income Funds (JPC, JQC)

Portfolio Managers'
COMMENTS

These Funds are subadvised by a team of specialists from Spectrum Asset Management, Froleys, Revy Investment Co., Inc., and Symphony Asset Management LLC, an affiliate of Nuveen Investments.

Spectrum, an affiliate of Principal CapitalSM, manages the preferred securities portion of each Fund's portfolio. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team.

Froleys, Revy, one of the oldest firms specializing in convertible securities, manages that portion of each Fund's portfolio. Their investment team is led by Andrea Revy O'Connell and Michael Revy, who each have more than 10 years' experience in convertible securities investing.

The Symphony team managing the high yield securities and other debt instruments in both Funds is led by Gunther Stein and Lenny Mason. Gunther and Lenny have more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield debt.

Here representatives from Spectrum, Froleys, Revy and Symphony talk about their management strategies and the performance of both Funds for the six-month period ended June 30, 2005.

WHAT WAS YOUR OVERALL MANAGEMENT STRATEGY FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2005?

In the preferred securities sleeve of each Fund's portfolio, our focus for this six-month period was on trying to maintain Fund income levels as much as possible without sacrificing quality in the face of a surprisingly strong bond market. Contrary to what many market observers predicted, intermediate- and long-term interest rates dropped significantly during the first six months of 2005 at the same time as the Federal Reserve was raising short-term rates. As might be expected in this type of environment, a number of the Funds' higher coupon preferred securities issues were called away and the proceeds generally had to be reinvested at lower current rates.

As the period progressed, we tried to turn some of this yield curve flattening to our advantage by shortening the average durations - and therefore reducing the interest rate risk - of the preferred securities holding within the Funds. We did this by purchasing securities with shorter effective maturities, since the flatter yield curve meant that we would give up less income to buy these less risky investments. Helping this process, certain sectors of both the \$1000

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

par capital securities market and the \$25 par listed securities market also afforded opportunities to reinvest in ways that provided more yield for a given level of interest rate risk.

4

Generally, as intermediate- and long-term bonds rallied during this reporting period, \$25 par preferred securities tended to lag behind. This was especially true during the first three months of 2005, when the \$25 par sector experienced one of its worst quarters ever, both on an absolute basis as well as relative to the general fixed-income markets. While this hurt the overall performance of the Funds, it also meant that many \$25 par securities were available at yields that were the most attractive relative to the corporate bond market since 2001. To take advantage of this situation, we reallocated a small percentage of each Fund's portfolios into the \$25 par sector by selling some \$1000 par capital securities.

Other parts of the preferred securities market that appeared very attractive to us were Dividends Received Deduction (DRD) and the Qualified Dividend Income (QDI) issues. Due to a recent change by Moody's in how they would evaluate an issuer's preferred securities, there was a large amount of issuance of this type of paper during this reporting period. In nearly all cases, the new issues were priced attractively to the current market and at levels that allowed investors to buy without giving up much income relative to fully taxable securities. Even though the Funds do not emphasize tax-advantaged income to either individuals or corporations as an objective, we increased our concentration in these types of issues since we believed that we were getting the tax advantages for little or no cost. Moreover, we believed that there were potential total return benefits that existed if these types of preferred investments ever begin to trade at levels that reflect their tax benefits.

The overall management strategy for the convertible sleeves of JPC and JQC remained consistent during this period. We continued to focus on the "balanced" portion of the convertible universe, which includes securities that capture the features of both bonds and stocks by being priced much like bonds while maintaining the upside potential of equities. We thought these securities had an attractive risk/reward trade off between equity sensitivity and downside risk. We had a slight bias towards yield-oriented convertibles while making sure that the convertible securities sleeves of both Funds maintained a minimum of 50% investment grade issues. The Funds' convertible securities sleeves also remained more equity sensitive than the Merrill Lynch All Convertibles Index (VXA0).

5

The first six months of 2005 were very difficult in the convertible securities market due to intense selling pressure from convertible arbitrage hedge funds. This resulted in four consecutive months of negative returns for the VXA0 Index. One reason behind the massive selling pressure was the large number of redemptions suffered by hedge funds as a result of weak performance in 2004 and early 2005. As the selling pressure mounted, many of both Funds' convertible securities holdings declined in value for reasons that we believed were unrelated to their fundamentals.

In addition to troubles in the convertible securities market, the credit default (CDO) market experienced a serious but short-lived crisis. Redemption worries were compounded by a general loosening of correlations between equity and debt.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

This was best exemplified with the almost simultaneous bid by investor Kirk Kerkorian for General Motors stock and the rating agencies' downgrade to junk of GM debt.

For the high yield debt portion of both portfolios, we continued to employ a value-oriented strategy, focusing on relatively higher-quality credits with strong fundamental business models, diversified revenue streams, and relatively low earnings volatility. Investing our assets across a variety of industry sectors and rating tiers also remains a priority. We continued to evaluate the entire group of holdings, eliminating positions that we believed had escalating credit issues, limited upside potential or significant downside risk.

HOW DID THE FUNDS PERFORM OVER THIS PERIOD?

The performance of each Fund, as well as the performance of a comparative benchmark, is shown in the accompanying table.

CUMULATIVE TOTAL RETURN ON NET ASSET VALUE For periods ended June 30, 2005

	6-MONTH	1-YEAR
JPC	-0.68%	9.65%
JQC	-0.80%	9.76%
Comparative Benchmark ¹	-1.27%	6.48%

For more information, please see the individual Performance Overview pages in this report.

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares.

For more information, please see the individual Performance Overview pages in this report.

1 Comparative benchmark performance is a blended return consisting 1) 60% of the Merrill Lynch Preferred Stock Hybrid Securities Index, an unmanaged index of investment-grade, exchange-traded preferred stocks with outstanding market values of at least \$30 million and at least one year to maturity; 2) 30% of the Merrill Lynch All U.S. Convertibles Index, consisting of approximately 575 securities with par value greater than \$50 million that were issued by U.S. companies or non-U.S. based issuers that have a significant business presence in the U.S.; and 3) 10% of the CSFB High Yield Index, which includes approximately \$375 billion of \$US-denominated high yield debt with a minimum of \$75 million in par value and at least one rating below investment-grade. Index returns do not include the effects of any sales charges or management fees. It is not possible to invest directly in an index.

For the six months ended June 30, 2005, both Funds outperformed an unmanaged, unleveraged comparative benchmark. One of the primary factors benefiting the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

performance of these Funds relative to that of the benchmark was the Funds' use of financial leverage. While leveraging can add volatility to a Fund's NAV and share price, especially during periods of rising interest rates, this strategy can also provide opportunities for additional income and total return for common shareholders when short-term interest rates remain relatively low and long-term rates fall or remain relatively constant.

While the Funds' performance was unremarkable in absolute terms, they did perform well when compared with their benchmark. Helping the performance of the Funds during this period was the decision to focus on some of the recent DRD and QDI issuance. These purchases produced positive results quickly as many of these offerings traded immediately to premiums. The Funds also benefited from the trades that took profits on a number of \$1000 par capital security positions such as Centaur, Abbey National and KN Energy, with the proceeds then reinvested in both fully taxable and QDI \$25 par securities. We sold our positions in Ameren, Keyspan, Public Service Enterprise and Alltel at significant gains after having enjoyed book yields of 8% or more from these issues over the past couple of years.

On the other hand, auto industry securities were a bad news story during the six month period. As of June 30, 2005, we had liquidated all of our holdings in GM and Delphi, and most of our holdings in Ford. In hindsight, we wish we had acted more quickly. The bonds and preferred securities of these issuers traded down considerably as market share concerns and unfunded pension and health care obligations took center stage in the press. Rating agency downgrades followed and even though most of our investments were in the senior debt of these companies, prices of all securities of these companies dropped as investors reacted to the unfavorable news.

In addition, the underperformance of the \$25 par sector relative to both the \$1000 par capital securities sector and the general bond market hurt the performance of the Funds. We believed this to be a temporary phenomenon, and we actually increased our concentrations in this sector. While we believe this may help the Funds over the longer term, it did constrain their performance over this six month period.

7

In the convertible securities portion of both Funds' portfolios, the energy sector was by far the best performer in the first half of 2005 as oil prices rose substantially. In addition, utilities had a strong second quarter after a slightly negative first quarter. As a result, four of the five best performing securities held for JPC and JQC were from the energy and utilities sectors.

Looking at JPC, the top convertible securities contributors to performance were Chesapeake Energy, FPL Group, Diamond Offshore, Corning Inc. (Telecomm Equipment/Fiber Optics Supplier) and Amerada Hess. The top contributors for JQC were Chesapeake Energy, Kerr-McGee Corp., Public Service Enterprises, Diamond Offshore, and Corning Inc. (Kerr-McGee and Corning were sold prior to June 30, 2005.)

Conversely, the convertible securities sector with the most negative impact was the consumer discretionary area, largely driven by autos. The technology and healthcare areas also had generally poor returns during this period. In JPC, the securities with the largest negative impact were Ford Motor Co., OSI Pharmaceuticals, Nortel Networks, Liberty Media/Viacom, and Comcast PCS. The primary performance detractors for JQC were General Motors, OSI Pharmaceuticals, Ford Motor Co., Tyco International, and Nortel Networks.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

Despite some volatility in the high yield debt market, several holdings in JPC and JQC performed well. The bond prices for Fisher Scientific, Warnaco, Cienna, Georgia Pacific all gained over 3%. At the same time, these sleeves within the Funds were hurt by their holdings of Affinia, an auto components supplier which was adversely affected by the GM and Ford downgrades. The bond price for Affinia dropped 9% in the quarter.

8

Distribution and Share Price INFORMATION

Each of these Funds uses financial leverage in an effort to enhance its dividend-paying capabilities. While this strategy adds volatility to a Fund's net asset value and share price, it generally enhances the amount of income the Fund has to distribute to its common shareholders. The extent of this benefit is tied in part to the short-term rates these Funds pay their FundPreferredTM shareholders. As short-term rates rose through this reporting period, the Funds paid higher dividends to their FundPreferred shareholders. As a result, the leveraging strategy - while still beneficial - did not provide as much income enhancement as it did before short-term interest rates began to rise. Over this reporting period, both JPC and JQC announced two reductions in their monthly distribution to shareholders.

Both Funds seek to pay stable distributions at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay distributions at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in distributions, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid distributions in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income in distributions to shareholders. As of June 30, both Funds had negative UNII balances for financial statement purposes and positive UNII balances for tax purposes.

In addition, due to normal portfolio management activity, common shareholders of the following Funds received capital gains and/or net ordinary income distributions at the end of December 2004 as follows:

	LONG-TERM CAPITAL GAINS (PER SHARE)	ORDINARY INCOME (PER SHARE)
JPC	\$0.0710	\$0.1626
JQC	\$0.0196	\$0.0001

The relatively large distributions from JPC represented important parts of this Fund's total return for this period. Generally, these types of distributions were generated by bond calls or by sales of appreciated securities that occurred in the course of normal portfolio management activities. The proceeds of these calls or sales then were reinvested in securities paying lower, current interest rates. On balance, this had a slight negative impact on the Funds' earning power and was a minor factor in the reductions noted above.

As of June 30, 2005, the Funds' shares were trading at discounts to their NAVs as shown in the accompanying chart:

Notes to
FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Preferred and Convertible Income Fund (JPC) and Nuveen Preferred and Convertible Income Fund 2 (JQC). The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies.

Each Fund seeks to provide high current income by investing primarily in a portfolio of preferred securities, convertible securities and, to a lesser degree, high yield securities. Each Fund may also invest in other debt instruments and common stocks acquired upon conversion of a convertible security.

The Board of Trustees of the Funds approved a change in the Funds' fiscal year end from July 31 to December 31 upon completion of the Funds' July 31, 2004 fiscal year.

Effective January 1, 2005, Nuveen Institutional Advisory Corp. ("NIAC") the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

Funds' previous adviser, and its affiliate, Nuveen Advisory Corp. ("NAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NIAC or NAC.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

Exchange-listed securities and instruments are generally valued at the last sales price on the exchange on which such securities or instruments are primarily traded. Securities or instruments traded on an exchange for which there are no transactions on a given day or securities or instruments not listed on an exchange are valued at the mean of the closing bid and asked prices. Futures contracts are valued using the closing settlement price or, in the absence of such a price, at the mean of the bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. The prices of fixed-income securities are generally provided by an independent pricing service approved by the Funds' Board of Trustees and based on the mean between the bid and asked prices. When price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular security or instrument, the Board of Trustees of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of securities of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustee's designee. Short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At June 30, 2005, Preferred and Convertible Income (JPC) and Preferred and Convertible Income 2 (JQC) had outstanding when-issued purchase commitments of \$2,000,000, and \$3,000,000, respectively.

Investment Income

Dividend income on securities purchased and dividend expense on securities sold short are recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Dividends to Common shareholders are declared monthly. With respect to the REIT securities held in the Funds' Portfolio of Investments, distributions received by the Funds are generally comprised of investment income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period is not known until after the fiscal year-end. For the twelve months ended December 31, 2004, the character of distributions to the Funds from the REITs was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)
2004		

Ordinary income*	83.15%	83.29%
Long-term and short-term capital gains	14.69	15.13
Return of REIT capital	2.16	1.58
=====		

* Ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

For the six months ended June 30, 2005, each Fund applied the actual percentages for the twelve months ended December 31, 2004, described above, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of ordinary income so calculated. Each Fund adjusts that estimated breakdown of income type (and consequently its net investment income) as necessary early in the following calendar year when the REITs inform their shareholders of the actual breakdown of income type. For the fiscal period ended December 31, 2004, each Fund applied the actual character of distributions reported by the REITs in which the Fund invests to its receipts from the REITs. If a REIT held in the portfolio of investments did not report the actual character of its distributions during the period, the Fund treated the distributions as ordinary income.

For the fiscal year ended July 31, 2004, each Fund applied a percentage estimate for the breakdown of income type, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of ordinary income so calculated. Each Fund adjusted that estimated breakdown of income type (and consequently its net investment income) as necessary in the following calendar year when the REITs informed their shareholders of the actual breakdown of income type.

With respect to the portion of each Fund's monthly distribution to its shareholders derived from the Fund's investments in REIT securities for the six months ended June 30, 2005, each Fund treated that portion of its distributions as being entirely from net investment income. The Funds will recharacterize those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, at the beginning of the subsequent year, based upon the income type breakdown information conveyed at

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

that time by the REITs whose securities are held in each Fund's portfolio. Consequently, the financial statements at June 30, 2005, reflect an over-distribution of net investment income that was at least partly attributable to the fact that some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Funds to shareholders from the portfolio REITs were treated as something other than ordinary income. For the fiscal period ended December 31, 2004, each Fund applied the actual character of distributions reported by the REITs in which the Fund invests to the distributions paid to each Funds shareholders.

With respect to the portion of each Fund's monthly distribution to its shareholders derived from the Fund's investments in REIT securities for the fiscal year ended July 31, 2004, each Fund treated that portion of its distribution as being entirely from net investment income. The Funds recharacterized those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, in the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities are held in each Fund's portfolio. Consequently, the financial statements for the fiscal year ended July 31, 2004, reflected an over-distribution of net investment income that was at least partly attributable to the fact that, as of the date of the financial statements, some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Funds to shareholders from the portfolio REITs were treated as something other than ordinary income.

FundPreferred Shares

The Funds have issued and outstanding FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The number of shares outstanding, by Series and in total, for each Fund is as follows:

Interest Rate Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of interest rate swap transactions is intended to mitigate the negative impact

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on Fund Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Futures Contracts

Each Fund may use futures contracts to hedge against changes in the values of securities the Fund owns. Each Fund bears the market risk arising from changes in the value of these financial instruments. At the time a Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses on futures contracts. Risk may arise from the potential inability of the counterparty to meet the terms of the contract. When a contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

Short Sales

The Funds are authorized to make short sales of securities if the Funds own at least an equal amount of such securities or securities convertible into securities of the same issuer. To secure its obligation to deliver securities sold short, the Funds have instructed the custodian to segregate assets in an equivalent amount of the securities sold short or securities convertible into or exchangeable for such securities. The Fund is obligated to pay to the party to which the securities were sold short, dividends declared on the stock by the issuer and records such amounts as expense in the Statement of Operations. Short sales are valued daily and the corresponding unrealized gains or losses are included in "Change in net unrealized appreciation (depreciation) of investments."

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Funds' policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

collateral may be delayed or limited.

Offering Costs

Costs incurred by Preferred and Convertible Income 2 (JQC) in connection with its offering of FundPreferred shares (\$19,728,655) were recorded as reductions to paid-in surplus.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to the recognition of income on certain securities which are treated as debt securities for income tax purposes and equity securities for financial statement purposes, and timing differences in recognizing certain gains and losses on security transactions.

At June 30, 2005, the cost of investments was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)
Cost of investments	\$2,129,873,755	\$2,967,788,600

	PREFERRED	PREFERRED
--	-----------	-----------

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

	AND CONVERTIBLE INCOME (JPC)	AND CONVERTIBLE INCOME 2 (JQC)
Undistributed net ordinary income *	\$8,790,389	\$11,988,764
Undistributed net long-term capital gains	3,341,644	6,828,270

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal periods ended December 31, 2004, the Funds' last fiscal period end, and July 31, 2004, was designated for purposes of the dividends paid deduction as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)
FIVE MONTHS ENDED DECEMBER 31, 2004		
Distributions from net ordinary income *	\$82,128,245	\$89,938,792

Distributions from net long-term capital gains	--	22,781

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser. As of July 31, 2005, the complex-level fee rate was .1899%.

The annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily Managed Assets of each Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible for the overall strategy and asset allocation decisions. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), Frole, Revy Investment Co., Inc. (Frole, Revy) and Symphony Asset Management, LLC ("Symphony"). Spectrum manages the portion of the Fund's investment portfolio allocated to preferred securities. Frole, Revy manages the portion of the investment portfolio allocated to convertible securities. Symphony manages the portion of the investment portfolio allocated to debt securities. Spectrum, Frole, Revy and Symphony are compensated for their services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first eight years of Preferred and Convertible Income's (JPC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING MARCH 31,		YEAR ENDING MARCH 31,

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. Transactions (C) and (D) above were settled in late July, which effectively reduced St. Paul Travelers' controlling stake in Nuveen and was deemed an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and the Adviser, which resulted in the automatic termination of each agreement under the 1940 Act. In anticipation of such deemed assignment, the Board of Trustees had approved new ongoing investment management agreements for each Fund and the submission of those agreements for approval by each respective Fund's shareholders, which shareholder approval was received prior to the settlement of transactions (C) and (D). The new ongoing management agreements took effect upon such settlement.

7. SUBSEQUENT EVENT -- DISTRIBUTIONS TO COMMON SHAREHOLDERS

The Funds declared Common share dividend distributions from their net investment income which were paid on August 1, 2005, to shareholders of record on July 15, 2005, as follows:

At the same time, the Funds declared capital gains distributions as follows:

ANNUAL INVESTMENT MANAGEMENT AGREEMENT APPROVAL PROCESS

At a meeting held on May 10-12, 2005, the Board of Trustees of the Funds, including the independent Trustees, unanimously approved the Investment Management Agreement between each Fund and NAM and the Sub-Advisory Agreement between NAM and Spectrum, Frolely, Revy and Symphony, respectively (each a "Sub-Adviser") (NAM and the Sub-Advisers are each a "Fund Adviser").

THE APPROVAL PROCESS

To assist the Board in its evaluation of an advisory contract with a Fund Adviser, the independent Trustees received a report in adequate time in advance of their meeting which outlined, among other things, the services provided by the Fund Adviser; the organization of the Fund Adviser, including the responsibilities of various departments and key personnel; the Fund's past performance as well as the Fund's performance compared to funds of similar investment objectives compiled by an independent third party (a "Peer Group") as described below and with recognized and/or customized benchmarks (as appropriate); the profitability of the Fund Adviser and certain industry profitability analyses for advisers to unaffiliated investment companies; the expenses of the Fund Adviser in providing the various services; the advisory

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

fees of the Fund Adviser, including comparisons of such fees with the management fees of comparable funds in its Peer Group as well as comparisons of the Fund Adviser's management fees with the fees the Fund Adviser assesses to other types of investment products or accounts, if any; the soft dollar practices of the Fund Adviser; and the expenses of each Fund, including comparisons of the Fund's expense ratios (after any fee waivers) with the expense ratios of its Peer Group. This information supplements that received by the Board throughout the year regarding Fund performance, expense ratios, portfolio composition, trade execution and sales activity.

In addition to the foregoing materials, independent legal counsel to the independent Trustees provided, in advance of the meeting, a legal memorandum outlining, among other things, the duties of the Trustees under the 1940 Act as well as the general principles of relevant state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; an adviser's fiduciary duty with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards of directors have fulfilled their duties and factors to be considered by the board in voting on advisory agreements.

At the Board meeting, NAM made a presentation to and responded to questions from the Board. In addition, the independent Trustees noted that each Sub-Adviser also previously made written or oral presentations to the Board providing the respective Sub-Adviser with the opportunity to explain its investment strategies, discuss market conditions, and highlight any material issues. Many of these presentations were part of site visits by the Board throughout the year. After the presentations and after reviewing the written materials, the independent Trustees met privately with their legal counsel to review the Board's duties in reviewing advisory contracts and consider the renewal of the advisory contract. It is with this background that the Trustees considered each advisory contract (which includes sub-advisory contracts) with a Fund Adviser. The independent Trustees, in consultation with independent counsel, reviewed the factors set out in judicial decisions and SEC directives relating to the renewal of advisory contracts. As outlined in more detail below, the Trustees considered all factors they believed relevant with respect to each Fund, including the following: (a) the nature, extent and quality of the services to be provided by the Fund Adviser; (b) the investment performance of the Fund and the Fund Adviser; (c) the costs of the services to be provided and profits to be realized by the Fund Adviser and its affiliates from the relationship with the Fund; (d) the extent to which economies of scale would be realized as the Fund grows; and (e) whether fee levels reflect these economies of scale for the benefit of Fund investors.

A. NATURE, EXTENT AND QUALITY OF SERVICES

In evaluating the nature, extent and quality of the respective Fund Adviser's services, the Trustees reviewed information concerning the types of services that a Fund Adviser or its affiliates provide and are expected to provide to the Nuveen Funds; narrative and statistical information concerning the Fund's performance record and how such performance compares to the Fund's Peer Group and recognized benchmarks and/or customized benchmarks (as described in further detail in Section B below); information describing the Fund Adviser's organization and its various departments, the experience and responsibilities of key personnel, and available resources. In the discussion of key personnel, the Trustees received materials regarding the changes or additions in personnel of the applicable Fund Adviser. The Trustees further noted the willingness of the personnel of NAM to engage in open, candid discussions with the Board. The Trustees further considered the quality of the Fund Adviser's investment process in making portfolio management decisions, including any refinements or improvements to the portfolio management processes, enhancements to technology and systems that are available to portfolio managers, and any additions of new personnel which may strengthen or expand the research and investment capabilities of the Fund Adviser. In their review of the advisory contracts for

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

the fixed income funds, the Trustees also noted that Nuveen won the Lipper Award for Best Fund Family: Fixed Income-Large Asset Class, for 2004. Given the Trustees' experience with the Funds, other Nuveen funds and the Fund Advisers, the Trustees noted that they were familiar with and continue to have a good understanding of the organization, operations and personnel of the Fund Advisers.

54

In addition to advisory services, the independent Trustees considered the quality of the administrative or non-advisory services provided. In this regard, NAM provides the Funds with such administrative and other services (exclusive of, and in addition to, any such services provided by others for the Funds) and officers and other personnel as are necessary for the operations of the respective Fund. In addition to investment management services, NAM and its affiliates provide each Fund with a wide range of services, including: preparing shareholder reports; providing daily accounting; providing quarterly financial statements; overseeing and coordinating the activities of other service providers; administering and organizing Board meetings and preparing the Board materials for such meetings; providing legal support (such as helping to prepare registration statements, amendments thereto and proxy statements and responding to regulatory inquiries); and performing other Fund administrative tasks necessary for the operation of the respective Fund (such as tax reporting and fulfilling regulatory filing requirements). In addition, in evaluating the administrative services, the Trustees considered, in particular, a Fund Adviser's policies and procedures for assuring compliance with applicable laws and regulations in light of the new SEC regulations governing compliance. The Trustees noted NAM's focus on compliance and its compliance systems. In their review, the Trustees considered, among other things, the additions of experienced personnel to NAM's compliance group and modifications and other enhancements to NAM's computer systems. In addition to the foregoing, the Trustees also noted that NAM outsources certain services that cannot be replicated without significant costs or at the same level of expertise. Such outsourcing has been a beneficial and efficient use of resources by keeping expenses low while obtaining quality services. Further, as the Funds utilize Sub-Advisers, the Trustees considered NAM's ability and procedures to monitor the respective Sub-Adviser's performance, business practices and compliance policies and procedures. In this regard, the Trustees noted the role of NAM's investment oversight committee, including its increased personnel, the responsibilities and experience of the staff, and procedures to monitor Sub-Advisers, including the use of site visits.

In addition to the above, in reviewing the variety of additional services that NAM or its affiliates must provide to closed-end funds, such as the Funds, the independent Trustees determined that Nuveen's commitment to supporting the secondary market for the common shares of its closed-end funds is particularly noteworthy. In this regard, the Trustees noted Nuveen's efforts to sponsor numerous forums for analysts and specialists regarding the various Nuveen closed-end funds, its creation of a new senior position dedicated to providing secondary market support services and enhancing communications with investors and analysts, and its advertising and media relations efforts designed to raise investor and analyst awareness of the closed-end funds.

In evaluating the services of the various Sub-Advisers, the independent Trustees noted that the Sub-Advisory Agreements were essentially agreements for portfolio management services only and the respective Sub-Adviser was not expected to supply other significant administrative services to the Funds.

Based on their review, the Trustees found that, overall, the nature, extent and

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

quality of services provided (and expected to be provided) to the respective Fund under the Investment Management Agreement or Sub-Advisory Agreement, as applicable, were of a high level and were quite satisfactory.

B. THE INVESTMENT PERFORMANCE OF THE FUND AND FUND ADVISERS

As previously noted, the Board received a myriad of performance information regarding each Fund and its Peer Group, if available. Among other things, the Board received materials reflecting a Fund's historic performance, the Fund's performance compared to its Peer Group (as available) and its performance compared to recognized and/or benchmarks (as applicable). The Trustees reviewed performance information including, among other things, total return information compared with a Fund's Peer Group as well as recognized and/or customized benchmarks (as appropriate) for the one-, three- and five-year periods (as applicable) ending December 31, 2004. This information supplements the Fund performance information provided to the Board at each of their quarterly meetings. Based on their review, the Trustees determined that the respective Fund's absolute and relative investment performance over time had been satisfactory.

C. FEES, EXPENSES AND PROFITABILITY

1. FEES AND EXPENSES

In evaluating the management fees and expenses that a Fund is expected to bear, the Trustees considered the Fund's current management fee structure, the sub-advisory fee arrangements and the Fund's expected expense ratios in absolute terms as well as compared with the fees and expense ratios of the unaffiliated funds in its Peer Group. The Trustees reviewed the financial information of the respective Fund Adviser, including its respective revenues, expenses and profitability. In reviewing fees, the Trustees, among other things, reviewed comparisons of the Fund's gross management fees (fees after fund-level and complex-wide level breakpoints but before reimbursement and fee waivers), net management fees (after breakpoints and reimbursements and fee waivers) and total expense ratios (before and after waivers) with those of the unaffiliated funds in its Peer Group and peer averages. In this regard, the Trustees noted that the relative ranking of the Nuveen funds on fees and expenses was aided by the significant level of fee reductions provided by the fund-level and complex-wide breakpoint schedules, and the fee waivers and reimbursements provided by Nuveen for certain funds launched since 1999. The complex-wide breakpoint schedule was instituted in 2004 and is described in further detail below in Section D entitled "Economies of Scale and Whether Fee Levels Reflect These Economies of Scale." In its review, the Trustees noted that all taxable closed-end exchange-traded Nuveen funds had net expense ratios below or within an acceptable range compared to peers.

2. COMPARISONS WITH THE FEES OF OTHER CLIENTS

The Trustees further compared the fees of NAM to the fees NAM or an affiliate thereof assessed for other types of clients (such as separate managed accounts as well as fees charged on funds that are not offered by Nuveen but are sub-advised by one of Nuveen's investment management teams). With respect to separately managed accounts, the advisory fees to such separate managed accounts are generally lower than those charged to the comparable Fund. The Trustees noted, however, the additional services that are provided and the costs incurred by Nuveen in managing and operating registered investment companies, such as the Funds, compared to individually managed separate accounts. For instance, as described above, NAM and its affiliates provide numerous

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

ANNUAL INVESTMENT MANAGEMENT AGREEMENT APPROVAL PROCESS (continued)

services to the Funds including, but not limited to, preparing shareholder reports; providing daily accounting; preparing quarterly financial statements; overseeing and coordinating the activities of other service providers; administering and organizing Board meetings and preparing the Board materials for such meetings; providing legal support; and administering all other aspects of the Fund's operations. Further, the Trustees noted the increased compliance requirements for funds in light of new SEC regulations and other legislation. These services are generally not required to the same extent, if at all, for separate accounts. In addition to the differences in services, the Trustees also considered, among other things, the differences in product distribution, investor profiles and account sizes. Accordingly, the Trustees believe that the nature and number of services provided to operate a Fund merit the higher fees than those to separate managed accounts.

In considering the fees of the Sub-Adviser, the Trustees also considered the pricing schedule the Sub-Adviser charges for similar investment management services for other fund sponsors or clients. With respect to Symphony, the Trustees also compared the sub-advisory fees to the significantly higher fees assessed to hedge funds advised by Symphony. Generally, the sub-advisory fees were at the lower end of the Sub-Adviser's fee schedule. In addition, the Trustees noted that such sub-advisory fees and arrangements with the unaffiliated Sub-Advisers were established through arms-length negotiations between the respective Sub-Adviser and NAM.

3. PROFITABILITY OF ADVISERS

In conjunction with its review of fees, the Trustees also considered the profitability of NAM (which incorporated Nuveen's wholly-owned subsidiaries, such as Symphony) as well as the profitability of the other Sub-Advisers. The Trustees reviewed the respective Fund Adviser's revenues, expenses and profitability margins (on both a pre-tax and after-tax basis). In reviewing profitability, the Trustees recognized that one of the most difficult issues in determining profitability is establishing a method of allocating expenses. Accordingly, the Trustees reviewed a Fund Adviser's assumptions and methodology of allocating expenses. In this regard, the methods of allocation used appeared reasonable but the Board noted the inherent limitations in allocating costs among various advisory products. The Trustees also recognized that individual fund or product line profitability of other advisers is generally not publicly available. Further, profitability may be affected by numerous factors including the types of funds managed, expense allocations, business mix, etc. and therefore comparability of profitability is somewhat limited. Nevertheless, to the extent available, the Trustees considered the respective Fund Adviser's profit margin compared to the profitability of various publicly-traded investment management companies and/or investment management companies that publicly disclose some or all of their financial results compiled by three independent third-party service providers. The Trustees also reviewed the revenues, expenses and profit margins of various unaffiliated advisory firms with similar amounts of assets under management for the last year prepared by NAM. Based on their review, the Trustees were satisfied that each Fund Adviser's level of profitability from its relationship with each Fund was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Trustees also considered any other revenues paid to a Fund Adviser as well as any indirect benefits (such as soft dollar arrangements, if any) the Fund Adviser and its affiliates are expected to receive that are directly attributable to their management of the Funds, if any. See Section E below for additional information. Based on their review of the overall fee arrangements of the applicable Fund,

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

the Trustees determined that the advisory fees and expenses of the respective Fund were reasonable.

D. ECONOMIES OF SCALE AND WHETHER FEE LEVELS REFLECT THESE ECONOMIES OF SCALE
In reviewing the compensation, the Trustees have long understood the benefits of economies of scale as the assets of a fund grows and have sought to ensure that shareholders share in these benefits. One method for shareholders to share in economies of scale is to include breakpoints in the advisory fee schedules that reduce fees as fund assets grow. Accordingly, the Trustees received and reviewed the schedules of advisory fees for each Fund, including fund-level breakpoints thereto. In addition, after lengthy negotiations with management, the Board in May, 2004 approved a complex-wide fee arrangement pursuant to which fees of the funds in the Nuveen complex, including the Funds, are reduced as the assets in the fund complex reach certain levels. The complex-wide fee arrangement was introduced on August 1, 2004 and the Trustees reviewed data regarding the reductions of fees for the Funds for the period of August 1, 2004 to December 31, 2004. In evaluating the complex-wide fee arrangement, the Trustees considered, among other things, the historic and expected fee savings to shareholders as assets grow, the amount of fee reductions at various asset levels, and that the arrangement would extend to all funds in the Nuveen complex. The Trustees also considered the impact, if any, the complex-wide fee arrangement may have on the level of services provided. Based on their review, the Trustees concluded that the breakpoint schedule and complex-wide fee arrangement currently was acceptable and desirable in providing benefits from economies of scale to shareholders.

56

E. INDIRECT BENEFITS

In evaluating fees, the Trustees also considered any indirect benefits or profits the respective Fund Adviser or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Trustees considered any benefits from soft dollar arrangements. The Trustees noted that although NAM manages a large amount of assets, it has very little, if any, brokerage to allocate. This is due to the fact that NAM typically manages the portfolios of the municipal funds in the Nuveen complex and municipal bonds generally trade on a principal basis. Accordingly, NAM does not currently have any soft dollar arrangements and does not pay excess brokerage commissions (or spreads on principal transactions) in order to receive research services. The Trustees also considered the soft dollar arrangements of the Sub-Advisers. The Trustees noted that Frole, Revy has engaged in soft dollar arrangements. With respect to such Sub-Adviser, the Trustees considered that the respective Sub-Adviser benefits from its soft dollar arrangements pursuant to which such Sub-Adviser receives research from brokers that execute the applicable Fund's portfolio transactions. The Trustees received and reviewed materials concerning such Sub-Adviser's brokerage practices, including its broker allocation policies and procedures, the types of research and brokerage services received, the brokers providing such services, and the dollar amount of commissions allocated to brokers for soft dollar arrangements for the last calendar year. In considering the types of research received, the Trustees noted that such Sub-Adviser either has already limited (or has agreed to modify its practices to limit) the use of soft dollars to research with intellectual content. The Trustees recognized that such Sub-Adviser's profitability may be lower if the Sub-Adviser was required to pay for this research with hard dollars. With respect to Symphony, the Trustees noted that such Sub-Adviser does not use soft dollar arrangements. The Trustees also noted that Spectrum does not use soft dollar arrangements. However, the Trustees also received materials and considered any revenues received by Spectrum in executing trades through its internal broker-dealer.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSRS

In addition to soft dollar arrangements, the Trustees also considered any other revenues, if any, received by NAM or its affiliates. In this regard, for Nuveen funds with outstanding preferred shares and new closed-end funds, the Trustees also considered revenues received by Nuveen for serving as agent for broker-dealers at its preferred trading desk and for acting as co-manager in the initial public offering of new closed-end exchange-traded funds.

F. OTHER CONSIDERATIONS

Nuveen, until recently, was a majority owned subsidiary of St. Paul Travelers Companies, Inc. ("St. Paul"). As noted, St. Paul earlier this year announced its intention to divest its equity stake in Nuveen. Nuveen is the parent of NAM. Pursuant to a series of transactions, St. Paul had begun to reduce its interest in Nuveen which would ultimately result in a change of control of Nuveen and therefore NAM. As mandated by the 1940 Act, such a change in control would result in an assignment of the Investment Management Agreement with NAM and the automatic termination of such agreement. Accordingly, the Board also considered the approval of a New Investment Management Agreement with each Fund in light of, and which would take effect upon, the anticipated change of control. More specifically, the Board considered for each Fund a New Investment Management Agreement on substantially identical terms to the existing Investment Management Agreement, to take effect after the change of control has occurred and the contract has been approved by Fund shareholders. In its review, the Board considered whether the various transactions necessary to divest St. Paul's interest will have an impact on the various factors they considered in approving NAM, such as the scope and quality of services to be provided following the change of control. In reviewing the St. Paul transactions, the Board considered, among other things, the impact, if any, on the operations and organizational structure of NAM; the possible benefits and costs of the transactions to the respective Fund; the potential implications of any arrangements used by Nuveen to finance certain of the transactions; the ability of NAM to perform its duties after the transactions; whether a Fund's fee structure or expense ratio would change; any changes to the current practices of the respective Fund; any changes to the terms of the advisory agreement; and any anticipated changes to the operations of NAM. Based on its review, the Board determined that St. Paul's divestiture would not affect the nature and quality of services provided by NAM, the terms of the Investment Management Agreement, including the fees thereunder, and would not materially affect the organization or operations of NAM. Accordingly, the Board determined that their analysis of the various factors regarding their approval of NAM would continue to apply after the change of control.

In addition to the foregoing, a change in control of NAM may be deemed an assignment of the Sub-Advisory Agreement between NAM and the respective Sub-Adviser. Further, Symphony is a wholly-owned subsidiary of Nuveen. Accordingly, the change of control of Nuveen would also result in a change of control of such Sub-Adviser resulting in the automatic termination of its existing Sub-Advisory Agreements. The Board therefore considered approval of a New Sub-Advisory Agreement with each Sub-Adviser in light of the anticipated change of control. More specially, the Board considered approval of each New Sub-Advisory Agreement on substantially identical terms as the respective Original Sub-Advisory Agreement, to take effect after the change of control has occurred and the agreement has been approved by Fund shareholders. In reviewing the impact of the St. Paul divestiture on the respective Sub-Adviser, the Board considered the same factors as outlined previously with respect to their review of NAM. As with NAM, the Board concluded that the St. Paul divestiture would not affect the nature and quality of services provided by the respective Sub-Adviser, the terms of the Sub-Advisory Agreement, including the fees paid thereunder, and would not materially affect the organization or operations of the Sub-Adviser. Accordingly, the Board determined that their analysis of the various factors regarding their review and approval of the respective Sub-Adviser would continue to apply following the change in control.

G. APPROVAL

The Trustees did not identify any single factor discussed previously as all-important or controlling. The Trustees, including a majority of independent Trustees, concluded that the terms of the Investment Management and Sub-Advisory Agreements were fair and reasonable, that the respective Fund Adviser's fees are reasonable in light of the services provided to each Fund, that the renewal of the NAM Investment Management Agreement and each Sub-Advisory Agreement should be approved, and that the new, post-change of control NAM Investment Management Agreement and the Sub-Advisory Agreements be approved and recommended to shareholders.

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Other Useful INFORMATION

In April, 2005, The St. Paul Travelers Companies, Inc. ('St. Paul Travelers") sold the majority of its controlling equity interest in Nuveen Investments, Inc. ('Nuveen") to the general public. Nuveen is the parent of Nuveen Asset Management ("NAM"), which is each Fund's investment manager. This sale was deemed to be an 'assignment" of the investment management agreement between each Fund and NAM and, if applicable, of the sub-advisory agreement between NAM and the Fund's sub-adviser. As required by law, the shareholders of each Fund were asked to approve a new investment management agreement and, if applicable, a new subadvisory agreement that reflected this change in ownership. The shareholders of each Fund voted this approval at a Shareholders' Meeting on July 26, 2005. There were no changes to the investment objectives or management of any Fund as a result of these actions.

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

The Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent 12-month period ended June 30, 2005, and (iii) a description of the policies and procedures that the Fund used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

MARKET YIELD: Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Funds' cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.
