Ratings shown are per Standard & Poor's Rating Group, Moody's Investor Services, Inc. or Fitch Ratings. Securities classified as NR are not rated. (For securities not rated by Standard & Poor's Rating Group, the rating by Moody's Investor Services, Inc. is provided. Likewise, for securities not rated by Standard & Poor's Rating Group and Moody's Investor Services, Inc., the rating by Fitch Ratings is provided.) All ratings are unaudited. The ratings apply to the credit worthiness of the issuers of the underlying securities and not to the Fund or its shares.

- \*\* Date and price of the earliest optional call or put provision. There may be other call provisions at varying prices at later dates. All optional call provisions are unaudited.
- \*\*\* Less than 0.1%
- (a) All or a portion of these securities have been physically segregated in connection with borrowings, unfunded commitments and reverse repurchase agreements . As of August 31, 2012, the total amount segregated was \$159,816,168.
- (b) Securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At August 31, 2012, these securities amounted to \$164,328,060, which represents 72.8% of net assets.
- (c) Non-income producing as security is in default.
- (d) Security is perpetual and thus does not have a predetermined maturity date.
- (e) Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.
- (f) The issuer of this security will accrue interest on the secured note at a rate of 12% per annum and will make interest payments as follows: (1) 10% in cash and (2) 2% payment-in-kind shares of the secured note.
- (g) The issuer of this security may elect to pay interest entirely in cash, entirely by issuing payment-in-kind shares by increasing the principal amount or issuing new notes equal to such payment-in-kind, or pay 50% of the interest in cash and 50% payment-in-kind shares.
- (h) Paid-in-kind toggle note. The issuer in each interest period has the option to pay interest in cash of to issue payment-in-kind shares of the note.
- (i) Illiquid security.
- (j) Floating or variable rate coupon. The rate shown is as of August 31, 2012.
- (k) Zero coupon bond.
- (l) Security is valued in accordance with Fair Valuation procedures established in good faith by management and approved by the Board of Trustees and is based, in part on significant unobservable inputs. The total market value of such securities is \$2,006,974 which represents 0.9% of net assets.
- (m) Security is a "Step-up" bond where the coupon increases or steps up at a predetermined date. The rate shown reflects the rate in effect at the end of the reporting period.
- (n) Term loans held by the Fund have a variable interest rate feature which is periodically adjusted based on an underlying interest rate benchmark. In addition, term loans may include mandatory and/or optional prepayment terms. As a result, the actual maturity dates of the loan may be different than the amounts disclosed in the portfolios of investments. Term loans may be considered restricted in that the Fund may be contractually obligated to secure approval from the Agent Bank and/or Borrower prior to the sale or disposition of loan.
- (o) The issuer of this security will accrue interest at a rate of 12.5% per annum and will make interest payments as follows: (1) 6.0% in payment-in-kind interest and (2) 6.5% in cash.
- (p) Non-income producing security.
- (q) All or a portion of this security position is segregated as collateral for written options.

GOF Guggenheim Strategic Opportunities Fund Portfolio of Investments August 31, 2012 (unaudited)

The Fund entered into credit default and interest rate swap agreements during the three months ended August 31, 2012 to potentially enhance return. Details of the swap agreements outstanding as of August 31, 2012 are as follows:

#### Credit Default Swap Agreements

Counterpart	ty Reference Entity	Buy/Sell Protection	Termination Date	Implied Credit Spread at August 31, 2012 (2)	Notional Amount (000s)	Receive Fixed Rate	Upfront Premium Received (Paid)	Unrealized Appreciation (Depreciation)
Goldman Sachs(1)	Basket of distinct corporate entities	Sell	09/20/14	7.04% \$	3,000	1.180% \$	\$	(371,363)

#### **Interest Rate Swap Agreements**

Counterparty	Floating Rate	Termination Date		Notional Amount (000s)	Receive Fixed Rate		App	nrealized preciation reciation)
Goldman Sachs (3)	3 Month LIBOR	01/04/38	\$	10,000	5.675%	!	\$	535,150
Goldman Sachs (3)	3 Month LIBOR	07/07/38		5,000	5.753%			325,717
						9	\$	860,867
Total Unrealized Appreciation for Swap Agreements						\$	489,504	

spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments

<sup>(1)</sup> The Fund receives a fixed rate based upon the notional amount of \$3 million and if a defined credit event occurs, pays cumulative losses in excess of a stated percentage on an underlying basket of distinct corporate entities. The maximum loss exposure is \$3 million.

<sup>(2)</sup> Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap

agreements on corporate issues of an emerging country as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit

required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's

credit soundless and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

(3) The Fund pays the floating rate and receives the fixed rate.

At August 31, 2012, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

Borrower	Principal Amount		Unrealized Appreciation (Depreciation)
Constellation Brands		1,000,000	\$ -
Cequel		800,000	-
Global Aviation		110,997	555
Serta Simmons		2,200,000	-
ServiceMaster Revolver		800,000	(44,000)
Wolverine		1,000,000	-
			\$ (43,445)

At August 31, 2012, the cost and related gross unrealized appreciation and depreciation on investments for tax purposes are as follows:

Net Tax Unrealized	Gross Tax	Gross Tax	
Appreciation on	Unrealized	Unrealized	Cost of Investments for Tax
Investments	Depreciation	Appreciation	Purposes
\$ 5,917,628	\$ (8,242,288)	\$ 14,159,916	\$310,339,394

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over-the-counter ("OTC") market in which such securities are traded, as of the close of regular trading on the New York Stock Exchange ("NYSE") on the day the securities are being valued or, if there are no sales, at the mean between the last available bid and asked prices on that day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price. Preferred stocks are valued at their sales price as of the close of the exchange on which they are traded. Preferred stocks for which the last sales price is not available are valued at the last available bid price. Debt securities (including asset-backed securities, collateralized mortgage obligations and term loans) are valued at the last available bid price. If bids are not available, debt securities are estimated using valuation models that incorporate market data that may include assumptions relating to current yields, timing of cash flows, dealer quotes, prepayment risk, value of underlying collateral, general market conditions, liquidity and prices of other debt securities with comparable coupon rates, maturities/duration, and credit quality. Municipal bonds are valued at the last available bid price for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality and type. Foreign securities are translated from the local currency into U.S. dollars using the current exchange rate. The Fund's securities that are primarily traded in foreign markets may be traded in such markets on days that the NYSE is closed. As a result, the net asset value of the Fund may be significantly affected on days when holders of common shares have no ability to trade common shares on the NYSE. Exchange traded funds are valued at the last sales price or official closing price on the exchange where the security is principally traded. Investment companies are valued at the last available closing price. The Fund values exchange-traded options and other derivative contracts at the mean of the best bid and asked prices at the close on those exchanges on which they are traded. Swaps are valued daily by independent pricing services or dealers using the mid price. Short-term securities with remaining maturities of 60 days or less, at the time of purchase, are valued at amortized cost, which approximates market value. The Fund values money market funds at net asset value.

For fixed income securities, fair valuations may include input from Guggenheim Partners Investment Management, LLC ("GPIM") utilizing a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity, rating, indications of value from security dealers, evaluations of anticipated cash flows or collateral, spread over Treasuries, and other information and analysis. GPIM also uses third party service providers to model certain securities using cash flow models to represent a fair market value.

For those securities where quotations or prices are not available, the valuations are determined in accordance with procedures established in good faith by management and approved by the Board of Trustees. Valuations in accordance with these procedures are intended to reflect each security's (or asset's) "fair value." Fair value is defined as the price that the Fund would receive to sell an

investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. Each such determination should be based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security's disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company's financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g., the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

There are three different categories for valuation. Level 1 valuations are those based upon quoted prices in active markets. Level 2 valuations are those based upon quoted prices in inactive markets or based upon significant observable inputs (e.g., yield curves; benchmark interest rates; indices). Level 3 valuations are those based upon unobservable inputs (e.g., discounted cash flow analysis; non-market based methods used to determine fair valuations).

The Fund values Level 1 securities using readily available market quotations in active markets. The Fund values Level 2 fixed income securities using independent pricing providers who employ matrix pricing models utilizing market prices, broker quotes and prices of securities with comparable maturities and qualities. In addition, the Fund values certain Level 2 fixed income securities using broker quotes. The Fund values Level 2 equity securities using various observable market inputs.

The following table represents the Fund's investments carried by caption and by level within the fair value hierarchy at August 31, 2012.

During the three months ended August 31, 2012, there were no transfers between levels.

### With regards to the Level 3 securities:

The Fund received the Alion Science and Technology Warrants, which have a penny per share exercise price, as part of the purchase of Alion Science and Technology 12% corporate bonds which mature on November 1, 2014. The company has two bonds outstanding with the longer dated of the two bonds trading at a distressed level. The warrant

and the underlying stock of the company are both unlisted securities. As a result of these factors, the Fund is assigning a price of \$0.00 to the warrants. If the warrants begin trading on an exchange, the price of the warrants could increase.

The Insurance Note Capital Term, Series 2005-1R1A is an A rated senior sequential tranche of a securitization of Regulation XXX excess reserves on term life insurance policies. The security pays a coupon rate of 1 month Libor + 0.32%. It is expected to mature in 2014 with an average life of 1.6 years, however, its repayment schedule is subject to a number of factors including regulatory approval. In May 2012, the issuer received regulatory approval to make repayments over the upcoming year at a rate slower than which was indicated by the transaction's cash flow. The current price of \$91.346 reflects the uncertainty of the repayment timing, the high complexity of analyzing XXX securitizations and a small investor base for the security. If additional information regarding the timing of the repayment becomes available, the price of the security could increase or decrease.

Blade Engine Securitization Ltd., Series 2006-1A is a BBB+ rated mezzanine tranche of a securitization of aircraft engine lease receivables managed by GE Capital Aviation Services. The security pays a coupon rate of 1 month Libor + 3.00%. The current price of \$75.13 reflects overall trends in the market for aircraft securities and the low liquidity and limited investor base for the security.

FCC Financing Subsidiary, LLC, Series 2010-1A is a BBB rated mezzanine tranche of a securitization of asset based loans managed by First Capital Corporation. The security pays a coupon rate of 12.99%. The current price of \$103.94 reflects the high coupon offset by the lack of liquidity and investor knowledge in the name and investor reluctance to pay high premiums for less liquid asset backed securities.

Deb Shops Term Loan is a 1st Lien Sr. Secured Term Loan for Deb Shops, a fashion apparel retailer focused on women between the ages 15-29. The current price of \$100.00 reflects the high yield of 12.50%, which is based on the small size of the issue (\$60mm) and lack of liquidity (only three holders). Because the term loan does not have any call premium a buyer would not be willing to pay above par for the loan.

Deb Shops Common Stock – This is the common equity of Deb Shops. We acquired this common stock in exchange for the cancelation of a portion of our pre-petition 1st lien term loan as part of the Company's exit from Bankruptcy in Q4 2011. Based on the enterprise value multiples of public comparables and giving effect to Deb Shops smaller size, the Fund assigned the price of \$13.32 per share.

Carey International, Inc. is a provider of chauffeured vehicle services and transportation management and logistics solutions. Based on an EBITDA projection model, the term loan is being priced at \$45.00.

The following table presents the activity for the Fund's investments measured at fair value using significant unobservable

inputs (Level 3 valuations) for the period ended August 31, 2012.
