- ** Less than 0.1%
- † Value determined based on Level 1 inputs — See Note 2.
- †† Value determined based on Level 2 inputs — See Note 2.
- ††† Value determined based on Level 3 inputs — See Note 2.
- 1 All or a portion of these securities have been physically segregated in connection with borrowings, unfunded commitments and reverse repurchase agreements. As of August 31, 2014, the total amount segregated was \$372,761,816.
- 2 Security was fair valued by the Valuation Committee at August 31, 2014. The total market value of fair valued securities amounts to \$6,356,302, (cost \$7,319,948) or 1.9% of net assets.
- 3 Variable rate security. Rate indicated is rate effective at August 31, 2014.
- 4 Perpetual maturity.
- 5 Security is a 144A or Section 4(a)(2) security. The total market value of 144A or Section 4(a)(2) securities is \$178,627,246 (cost \$170,949,299), or 54.7% of total net assets.
- 6 Security represents cover for outstanding written options.
- 7 Security is a step up/step down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity.
- 8 Security has no stated coupon. However, it is expected to receive residual cashflow payments on deal defined payment dates.
- 9 Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.
- 10 The issuer of this security will accrue interest on the secured note at a rate of 12% per annum and will make interest payments as follows: (1) 10% in cash and (2) 2% payment-in-kind shares of the secured note.
- 11 Company has filed for protection in federal bankruptcy court.

plc Public Limited Company
REIT Real Estate Investment Trust

At August 31, 2014, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

Borrower††	Expiration Date	Principal Amount	Unrealized Appreciation
AlliedBartion Security	08/12/2021	\$ 273,973	\$ 148
IntraWest Holdings	12/10/2018	200,000	426
SI Organization	11/23/2019	40,889	10
			\$ 584

At August 31, 2014, the following forward exchange currency contracts were outstanding:

Edgar Filing: GUGGENHEIM STRATEGIC OPPORTUNITIES FUND - Form N-Q

	Contracts to Sell	Counterparty	Settlement Date	Settlement Value	Value at 8/31/14	Net Unrealized Appreciation/(Depreciation)	
AUD	1,200,000						
for USD	1,116,266	The Bank of New York Mellon	09/04/2014	\$ 1,116,266	\$ 1,120,424	\$ (4,158)	
EUR	2,500,000						
for USD	3,344,250	The Bank of New York Mellon	09/04/2014	3,344,250	3,285,137	59,113

GBP	350,000						
for USD	591,728	The Bank of New York Mellon	09/04/2014	591,728	581,077	10,651	
		Total unrealized appreciation for forward exchange currency contracts				\$	93,993

The Fund entered into swap agreements during the period ended August 31, 2014 to potentially enhance return. Details of the swap agreements outstanding as of August 31, 2014 were as follows:

Credit Default Swap Agreement

Counterparty	Reference Entity	Buy/Sell Protection	Termination Date	Implied Credit Spread at August 31, 2014 (2)	Notional Amount (000)	Receiving Fixed Rate	Upfront Premium Received (Paid)	Unrealized Appreciation
Goldman Sachs(1)	Basket of distinct corporate entities	Sell	09/21/14	0.16%	\$ 3,000	1.180%	\$ -	\$ 1,989

(1) The Fund receives a fixed rate based upon the notional amount of \$3 million and if a defined credit event occurs, pays cumulative losses in excess of a stated percentage on an underlying basket of distinct corporate entities. The maximum loss exposure is \$3 million.

(2) Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)

For information on the Guggenheim Strategic Opportunities Fund's (the "Fund") policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent semiannual or annual shareholder report.

1. Significant Accounting Policies

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") and are consistently followed by the Fund. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. All time references are based on Eastern Time.

The Board of Trustees of the Fund (the "Board") has adopted policies and procedures for the valuation of the Fund's investments (the "Valuation Procedures"). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim's investment management, fund administration, legal and compliance departments (the "Valuation Committee"), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund's securities or other assets.

Valuations of the Fund's securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed and will review the valuation of all assets which have been fair valued for reasonableness. The Fund's officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used by, and valuations provided by, the pricing services.

Equity securities listed on an exchange (New York Stock Exchange ("NYSE") or American Stock Exchange) are valued at the last quoted sales price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security is valued at the mean of the most recent bid and asked prices on such day.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker/dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition and repurchase agreements are valued at amortized cost, which approximates market value.

Typically loans are valued using information provided by an independent third party pricing service which uses broker quotes. If the pricing service cannot or does not provide a valuation for a particular loan or such valuation is deemed unreliable, such loan is fair valued by the Valuation Committee.

Listed options are valued at the Official Settlement Price listed in by the exchange, usually as of 4:00 p.m. Long options are valued using the bid price and short options are valued using the ask price. In the event that a settlement price is not available, fair valuation is enacted. Over-the counter options are valued using the average bid price (for long options), or average ask price (for short options) obtained from one or more security dealers.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currency are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and the Guggenheim Funds Investment Advisors, LLC (“GFIA or the “Adviser”) are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Investments for which market quotations are not readily available are fair valued as determined in good faith by the Adviser, subject to review by the Valuation Committee, pursuant to methods established or ratified by the Board.

Valuations in accordance with these methods are intended to reflect each security's (or asset's) "fair value." Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security's disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company's financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

2. Fair Value Measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3— significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

The following tables summarize the inputs used to value the Fund's investments as of August 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Assets:				
Corporate Bonds	\$-	\$ 129,597,511	\$ 3,858,950	\$ 133,456,461

Independent pricing services are used to value a majority of the Fund's investments. When values are not available from a pricing service, they will be determined under the valuation policies that have been reviewed and approved by the Board. In any event, values are determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with

comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Fund's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Fund may not have the transparency to view the underlying inputs which support the market quotations.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates. The Fund's fair valuation guidelines were recently revised to transition such monthly indicative quoted securities from Level 2 to Level 3.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

The following is a summary of significant unobservable inputs used in the fair valuation of assets and liabilities categorized within Level 3 of the fair value hierarchy:

Category	Ending Balance at 8/31/14	Valuation Technique	Unobservable Inputs
Corporate Bonds	\$ 2,705,950	Monthly Broker Quote	Indicative Quote
Corporate Bonds	\$ 1,153,000	Montly Model Price Monthly Broker Quote	Trade Price
Asset Backed Securities	\$ 7,481,230	Monthly Broker Quote	Indicative Quote
Collateralized Mortgage Obligations	\$ 2,349,956	Monthly Broker Quote	Indicative Quote
Senior Floating Rate Interests	\$ 3,233,299	Enterprise Value	Valuation Multiple*

*Valuation multiples utilized ranged from 4 to 27.

Significant changes in an indicative quote, trade price or valuation multiple would generally result in significant changes in the fair value of the security.

Any remaining Level 3 securities held by the Fund and excluded from the tables above, were not considered material to the Fund.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period. The Fund recognized transfers between the levels as of the beginning of the period. As of August 31, 2014, the Fund had securities with a total value of \$2,232,913 transferred from Level 2 to Level 3. The Fund had transfers into Level 3 due to changes in fair valuation guidelines. The Fund had securities with a total value of \$19,595,963 transferred from Level 3 to Level 2 due to availability of market price information at the period end. See the tables below for changes to Level 3.

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the period ended August 31, 2014:

Level 3 – Fair value measurement using significant unobservable inputs

Assets	Total
Beginning Balance at 5/31/14	\$ 34,120,469
Paydowns Received	(4,625,253)
Payment in kind Distributions Received	17,203
Realized Gain/Loss	105,116
Change in Unrealized Gain/Loss	700,019
Purchases	3,968,934
Transfers into Level 3	2,232,913
Transfers out of Level 3	(19,595,963)
Ending Balance at 8/31/14	\$ 16,923,438

3. Federal Income Taxes

As of August 31, 2014, cost and related gross unrealized appreciation and depreciation on investments for tax purposes are as follows:

Cost of Investments for Tax Purposes	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Net Tax Unrealized Appreciation
\$453,678,319	\$20,991,044	\$(10,804,493)	\$10,186,551

Item 2. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) as of a date within 90 days of the filing date of this report and have concluded, based on such evaluation, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected or is reasonably likely to materially affect the registrant's internal control over financial reporting.

Item 3. Exhibits.

A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2(a)), is attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
