NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The use of the words we, us or our refers to NNN Healthcare/Office REIT, Inc. and our subsidiaries, including NNN Healthcare/Office REIT Holdings, L.P., except where the context otherwise requires.

1. Organization and Description of Business

NNN Healthcare/Office REIT, Inc., a Maryland corporation, was incorporated on April 20, 2006. We were initially capitalized on April 28, 2006, and therefore we consider that our date of inception. We intend to provide investors the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties that produce current income. We may also invest in real estate related securities. We intend to qualify as a real estate investment trust, or REIT, for federal income tax purposes for our taxable year ending December 31, 2007.

We are conducting a best efforts initial public offering, or our Offering, in which we are offering a minimum of 200,000 shares of our common stock aggregating at least \$2,000,000, or the minimum offering, and a maximum of 200,000,000 shares of our common stock for \$10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan, or the DRIP, at \$9.50 per share, aggregating up to \$2,200,000,000, or the maximum offering. Shares purchased by our executive officers and directors, by NNN Capital Corp., or our Dealer Manager, by NNN Healthcare/Office REIT Advisor, LLC, or our Advisor, or by its affiliates did not count towards the minimum offering. As of October 31, 2007, we had received and accepted subscriptions in our Offering for 18,059,074 shares of our common stock, or \$180,368,000, excluding shares issued under the DRIP.

We conduct substantially all of our operations through NNN Healthcare/Office REIT Holdings, L.P., or our Operating Partnership. We are externally advised by our Advisor, pursuant to an advisory agreement, or the Advisory Agreement, between us, our Advisor and Triple Net Properties, LLC, or Triple Net Properties, who is the managing member of our Advisor. The Advisory Agreement had a one-year term that expired on September 19, 2007 and was subject to successive one-year renewals upon the mutual consent of the parties. On September 18, 2007, our board of directors extended the Advisory Agreement on a month-to-month basis. On October 24, 2007, our board of directors authorized the renewal, for a term of one year ending on October 24, 2008, of our Advisory Agreement. Our Advisor supervises and manages our day-to-day operations and selects the properties and securities we acquire, subject to oversight by our board of directors. Our Advisor also provides marketing, sales and client services on our behalf. Our Advisor is affiliated with us in that we and our Advisor have common officers, some of whom also own an indirect equity interest in our Advisor. Our Advisor engages affiliated entities, including Triple Net Properties Realty, Inc., or Realty, to provide various services to us.

In the fourth quarter of 2006, NNN Realty Advisors, Inc., or NNN Realty Advisors, or our Sponsor, acquired all of the outstanding ownership interests of Triple Net Properties, NNN Capital Corp. and Realty. As a result, we consider NNN Realty Advisors to be our Sponsor. On May 22, 2007, NNN Realty Advisors entered into a definitive merger agreement with Grubb & Ellis Company, or Grubb & Ellis. The merger has been approved by the boards of directors of both NNN Realty Advisors and Grubb & Ellis. The combined company will retain the Grubb & Ellis name and will continue to be listed on the New York Stock Exchange under the ticker symbol GBE. The transaction is expected to close in the fourth quarter of 2007, subject to approval by stockholders of both companies and other customary closing conditions of transactions of this type.

As of September 30, 2007, we had purchased 14 properties comprising 1,547,000 square feet of gross leasable area, or GLA.

2. Summary of Significant Accounting Policies

Our interim unaudited condensed consolidated financial statements and accompanying notes are the representations of our management, who are responsible for their integrity and objectivity. The following accounting policies conform to accounting principles generally accepted in the United States of America, or GAAP, in all material respects, and have been consistently applied in preparing our accompanying interim unaudited condensed consolidated financial statements.

Basis of Presentation

Our accompanying interim unaudited condensed consolidated financial statements include our accounts and those of our Operating Partnership. We operate and intend to continue to operate in an umbrella partnership REIT structure in which our Operating Partnership, or wholly-owned subsidiaries of our Operating Partnership, will own substantially all of the properties acquired on our behalf. We are the sole general partner of our Operating Partnership and as of September 30, 2007 and December 31, 2006, we owned a 99.99% and 1.0%, respectively, general partnership interest therein. Our Advisor is the sole limited partner and as of September 30, 2007 and December 31, 2006, owned a 0.01% and 99.0%, respectively, limited partnership interest therein. Our Advisor is also entitled to certain subordinated distribution rights under the partnership agreement for our Operating Partnership. Because we are the sole general partner of our Operating Partnership and have unilateral control over its management and major operating decisions (even if additional limited partners are admitted to our Operating Partnership), the accounts of our Operating Partnership are consolidated in our consolidated financial statements. All significant intercompany accounts and transactions are eliminated in consolidation.

Interim Financial Data

Our accompanying interim unaudited condensed consolidated financial statements have been prepared by us in accordance with GAAP in conjunction with the rules and regulations of the Securities and Exchange Commission, or the SEC. Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, our accompanying interim unaudited condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. Our accompanying interim unaudited condensed consolidated financial statements reflect all adjustments, which are, in our opinion, of a normal recurring nature and necessary for a fair presentation of our financial position, results of operations and cash flows for the interim period. Interim results of operations are not necessarily indicative of the results to be expected for the full year; such results may be less favorable. Our accompanying interim unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and the notes thereto included in our 2006 Annual Report on Form 10-K, as filed with the SEC.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We believe that our critical accounting policies are those that require significant judgments and estimates. These estimates are made and evaluated on an on-going basis using information

that is currently available as well as various other assumptions believed to be reasonable under the circumstances. Actual results could differ from those estimates, perhaps in material adverse ways, and those estimates could be different under different assumptions or conditions.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

Restricted Cash

Restricted cash is comprised of impound reserve accounts for property taxes, insurance, capital improvements and tenant improvements.

Allowance for Uncollectible Accounts

Tenant receivables and unbilled deferred rent receivables are carried net of the allowances for uncollectible current tenant receivables and unbilled deferred rent. An allowance is maintained for estimated losses resulting from the inability of certain tenants to meet the contractual obligations under their lease agreements. Our determination of the adequacy of these allowances is based primarily upon evaluations of historical loss experience, individual tenant receivables considering the tenant's financial condition, security deposits, letters of credit, lease guarantees and current economic conditions and other relevant factors. As of September 30, 2007 and December 31, 2006, we had \$2,000 and \$0, respectively, in allowances for uncollectible accounts as determined to be necessary to reduce receivables to our estimate of the amount recoverable.

Purchase Price Allocation

In accordance with Statements of Financial Accounting Standards, or SFAS, No. 141, *Business Combinations*, we, with the assistance of independent valuation specialists, allocate the purchase price of acquired properties to tangible and identified intangible assets based on their respective fair values. The allocation to tangible assets (building and land) is based upon our determination of the value of the property as if it were vacant using discounted cash flow models similar to those used by independent appraisers. Factors considered by us include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. Additionally, the purchase price of the applicable property is allocated to the above or below market value of in-place leases, the value of in-place leases, tenant relationships and above or below market debt assumed.

The value allocable to the above or below market component of the acquired in-place leases is determined based upon the present value (using a discount rate which reflects the risks associated with the acquired leases) of the difference between: (i) the contractual amounts to be paid pursuant to the lease over its remaining term, and (ii) our estimate of the amounts that would be paid using fair market rates over the remaining term of the lease. The amounts allocated to above market leases are included in identified intangible assets, net and below market lease values are included in identified intangible liabilities, net in the accompanying condensed consolidated balance sheets and are amortized to rental income over the weighted-average remaining term of the acquired leases with each property.

The total amount of other intangible assets acquired is further allocated to in-place lease costs and the value of tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease and our overall relationship with that respective tenant. Characteristics considered by us in allocating these values include the nature and extent of the credit quality and expectations of lease renewals, among other factors.

The value allocable to above or below market debt is determined based upon the present value of the difference between the cash flow stream of the assumed fixed rate mortgage and the cash flow stream of a market fixed rate mortgage. The amounts allocated to above or below market debt are included in mortgage loan payables, net in the accompanying condensed consolidated balance sheets and are amortized to interest expense over the remaining term

of the assumed mortgage.

These allocations are subject to change based on information received within one year of the purchase related to one or more events identified at the time of purchase which confirm the value of an asset or liability received in an acquisition of property.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

Operating Properties

Operating properties are carried at the lower of fair market value or historical cost less accumulated depreciation. The cost of the operating properties includes the cost of land and completed buildings and related improvements. Expenditures that increase the service life of the properties are capitalized and the cost of maintenance and repairs is charged to expense as incurred. The cost of buildings is depreciated on a straight-line basis over the estimated useful lives of the buildings up to 39 years and for tenant improvements, the shorter of the lease term or useful life, ranging from two months to 120 months. When depreciable property is retired or disposed of, the related costs and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations.

An operating property is evaluated for potential impairment whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. Impairment losses are recorded on long-lived assets and tenant improvements used in operations. Impairment losses are recorded on an operating property when indicators of impairment are present and the carrying amount of the asset is greater than the sum of the future undiscounted cash flows expected to be generated by that asset. We would recognize an impairment loss to the extent the carrying amount exceeded the fair value of the property. As of September 30, 2007, there were no impairment losses recorded.

Other Assets

Other assets consist primarily of deferred rent receivables, leasing commissions, prepaid expenses, deposits and deferred financing costs. Costs incurred for property leasing have been capitalized as deferred assets. Deferred financing costs include amounts paid to lenders and others to obtain financing. Such costs are amortized using the straight-line method over the term of the related loan, which approximates the effective interest rate method. Amortization of deferred financing costs is included in interest expense in our accompanying condensed consolidated statements of operations. Deferred leasing costs include leasing commissions that are amortized using the straight-line method over the term of the related lease.

Revenue Recognition

In accordance with SFAS No. 13, *Accounting for Leases*, as amended and interpreted, minimum annual rental revenue is recognized on a straight-line basis over the term of the related lease (including rent holidays). Tenant reimbursement revenue, which is comprised of additional amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses, is recognized as revenue in the period in which the related expenses are incurred.

Concentration of Credit Risk

Financial instruments that potentially subject us to a concentration of credit risk are primarily cash and accounts receivable from tenants. We have cash in financial institutions that is insured by the Federal Deposit Insurance Corporation, or FDIC, up to \$100,000 per institution. As of September 30, 2007 and December 31, 2006, we had cash accounts in excess of FDIC insured limits. We believe this risk is not significant. Concentration of credit risk with respect to accounts receivable from tenants is limited. We perform credit evaluations of prospective tenants, and security deposits are obtained upon lease execution.

Organizational, Offering and Related Expenses

Our organizational, offering and related expenses are being paid by our Advisor and its affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee which generally represent 7.0% and 2.5% of our gross offering proceeds, respectively) to be paid by us in connection with our Offering. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense

reimbursements and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of our Offering. As of September 30, 2007 and December 31, 2006, expenses of \$990,000 and \$1,728,000, respectively, in excess of 11.5% of the gross proceeds of our Offering, has been incurred by our Advisor or Triple Net Properties and therefore these expenses are not recorded in our accompanying condensed consolidated financial statements as of September 30, 2007 and December 31, 2006. To the extent we raise additional proceeds from our Offering, these amounts may become our liability. See Note 10, Related Party Transactions Offering Stage, for a further discussion of these amounts during our offering stage.

Stock Compensation

We follow SFAS, No. 123(R), *Share-Based Payment*, to account for our stock compensation pursuant to our 2006 Incentive Plan and the 2006 Independent Directors Compensation Plan, a sub-plan of our 2006 Incentive Plan. See Note 12, Stockholders Equity (Deficit) 2006 Incentive Plan and Independent Directors Compensation Plan, for a further discussion of grants under our 2006 Incentive Plan.

Income Taxes

We intend to make an election to be taxed as a REIT, under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, or the Code, and we intend to be taxed as such beginning with our taxable year ending December 31, 2007. We intend to qualify as a REIT. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to currently distribute at least 90.0% of our ordinary taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could have a material adverse effect on our net income and net cash available for distribution to stockholders. Because of our intention to elect REIT status in 2007, we will not benefit from the loss incurred for the year ended December 31, 2006.

Per Share Data

We report earnings (loss) per share pursuant to SFAS No. 128, *Earnings Per Share*. Basic earnings (loss) per share attributable for all periods presented are computed by dividing net income (loss) by the weighted average number of shares of our common stock outstanding during the period. Diluted earnings (loss) per share is computed based on the weighted average number of shares of our common stock and all potentially dilutive securities, if any. Shares of restricted common stock give rise to potentially dilutive shares of common stock.

For the three months ended September 30, 2007 and 2006, we recorded a net loss of approximately \$1,933,000 and \$50,000, respectively. For the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we recorded a net loss of approximately \$3,669,000 and \$50,000, respectively. As of September 30, 2007 and 2006, 27,000 and 12,000 shares, respectively, of restricted common stock were outstanding, but were excluded from the computation of diluted earnings per share because such shares of restricted common stock were anti-dilutive during this period.

Segment Disclosure

The Financial Accounting Standards Board, or the FASB, issued SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, which establishes standards for reporting financial and descriptive information about an enterprise's reportable segments. We have determined that we have one reportable segment, with activities related to investing in medical office buildings, healthcare-related facilities and quality

commercial office properties. Our investments in real estate are geographically diversified and management evaluates operating performance on an individual property level. However, as each of our properties has similar economic characteristics, tenants, and products and services, our properties have been aggregated into one reportable segment for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006.

Recently Issued Accounting Pronouncements

In July 2006 the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, or FIN No. 48. This interpretation, among other things, creates a two-step approach for evaluating uncertain tax positions. Recognition (step one) occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more-likely-than-not to be sustained upon examination. Measurement (step two) determines the amount of benefit that more-likely-than-not will be realized upon settlement. Derecognition of a tax position that was previously recognized would occur when a company subsequently determines that a tax position no longer meets the more-likely-than-not threshold of being sustained. FIN No. 48 specifically prohibits the use of a valuation allowance as a substitute for derecognition of tax positions, and it has expanded disclosure requirements. FIN No. 48 was effective for fiscal years beginning after December 15, 2006, in which the impact of adoption should be accounted for as a cumulative-effect adjustment to the beginning balance of retained earnings in the year of adoption. Our adoption of FIN No. 48 as of the beginning of the first quarter of 2007 did not have any impact on our consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurement*, or SFAS No. 157. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 on January 1, 2008. We are evaluating SFAS No. 157 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS No. 159. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the fiscal year beginning on or before November 15, 2007, provided the provisions of SFAS No. 157 are applied. We will adopt SFAS No. 159 on January 1, 2008. We are evaluating SFAS No. 159 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

Leverage

In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with our first four acquisitions. The board of directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. As of November 13, 2007, our leverage does not exceed 300.0%. We may, with a majority of our independent directors authority, exceed our charter s leverage guidelines again during the early stages of our operations. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities.

We anticipate that the closing will occur in the fourth quarter of 2007; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of the St. Rita's Medical Center Portfolio.

The unsecured notes provided for maturity dates of July 22, 2007 and September 9, 2007, respectively. The \$7,500,000 and \$1,000,000 unsecured notes bore interest at a fixed rate of 6.86% and 6.84% per annum, respectively, and required monthly interest-only payments for the terms of the unsecured notes. The unsecured notes provided for default interest rates in an event of default equal to 8.86% and 8.84% per annum, respectively. On March 28, 2007, we repaid all outstanding principal and accrued interest on both unsecured notes using proceeds from our Offering.

On June 8, 2007, we entered into an unsecured loan with NNN Realty Advisors, evidenced by an unsecured promissory note in the principal amount of \$4,000,000. The unsecured note provided for a maturity date of December 8, 2007. The \$4,000,000 unsecured note bore interest at a fixed rate of 6.82% per annum and required monthly interest-only payments for the term of the unsecured note. The unsecured note provided for a default interest rate in an event of default equal to 8.82% per annum. On August 30, 2007 and September 5, 2007, we entered into unsecured loans with NNN Realty Advisors, evidenced by unsecured promissory notes in the principal amounts of \$1,300,000 and \$6,100,000, respectively. The unsecured notes provided for default interest rates in an event of default equal to 8.85% and 8.86% per annum, respectively. On September 4, 2007 and September 11, 2007, we repaid all outstanding principal and accrued interest on the \$1,300,000 and \$6,100,000 unsecured notes, respectively.

Because these loans were related party loans, the terms of the loans and the unsecured notes were approved by our board of directors, including a majority of our independent directors, and deemed fair, competitive and commercially reasonable by our board of directors.

7. Line of Credit

On September 10, 2007, we entered into a loan agreement, or the Loan Agreement, with LaSalle to obtain a secured revolving credit facility in an aggregate maximum principal amount of \$50,000,000, or the LaSalle Line of Credit. The proceeds of loans made under the Loan Agreement may be used to finance the purchase of properties or, provided no event of default has occurred and is continuing, may be used for any other lawful purpose. In addition to loans, our Operating Partnership may obtain up to \$10,000,000 of the credit available under the Loan Agreement in the form of letters of credit. The initial term of the Loan Agreement is three

years, which may be extended by one 12-month period subject to satisfaction of certain conditions, including payment of an extension fee equal to 0.20% of the principal balance of loans then outstanding.

The actual amount of credit available under the Loan Agreement is a function of certain loan to cost, loan to value and debt service coverage ratios contained in the Loan Agreement. The maximum principal amount of the Loan Agreement may be increased to \$120,000,000 subject to the terms of the Loan Agreement. Also, additional financial institutions may become lenders under the Loan Agreement.

At our option, loans under the Loan Agreement bear interest at per annum rates equal to (a) LIBOR plus a margin ranging from 1.45% to 1.60%, depending on the ratio of outstanding amounts under the Loan Agreement to the value of the collateral securing the Loan Agreement, (b) the greater of LaSalle's prime rate or the Federal Funds Rate plus 0.50%, or (c) a combination of these rates. Accrued interest under the Loan Agreement is payable monthly and at maturity. In addition to interest, we are required to pay a fee on the unused portion of the lenders' commitments under the Loan Agreement at a per annum rate equal to 0.20%, payable quarterly in arrears, beginning with the quarter ending December 31, 2007.

Our obligations with respect to the Loan Agreement are guaranteed by us and by our subsidiaries that own properties that serve as collateral for the Loan Agreement.

The Loan Agreement contains various affirmative and negative covenants that are customary for facilities and transactions of this type, including limitations on the incurrence of debt by us and our subsidiaries that own properties that serve as collateral for the Loan Agreement, limitations on the nature of our business, and limitations on distributions by us and our subsidiaries that own properties that serve as collateral for the Loan Agreement. The Loan Agreement also imposes the following financial covenants on us and our Operating Partnership, as applicable: (a) a minimum ratio of operating cash flow to interest expense, (b) a minimum ratio of operating cash flow to fixed charges, (c) a maximum ratio of liabilities to asset value, (d) a maximum distribution covenant and (e) a minimum net worth covenant, all of which are defined in the Loan Agreement. In addition, the Loan Agreement includes events of default that are customary for facilities and transactions of this type.

9. Commitments and Contingencies***Litigation***

We are not presently subject to any material litigation nor, to our knowledge, is any material litigation threatened against us, which if determined unfavorably to us, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Environmental Matters

We follow the policy of monitoring our properties for the presence of hazardous or toxic substances. While there can be no assurance that a material environmental liability does not exist at our properties, we are not currently aware of any environmental liability with respect to our properties that would have a material effect on our consolidated financial position, results of operations or cash flows. Further, we are not aware of any environmental liability or any unasserted claim or assessment with respect to an environmental liability that we believe would require additional disclosure or the recording of a loss contingency.

Organizational, Offering and Related Expenses

As of September 30, 2007 and December 31, 2006, expenses of \$990,000 and \$1,728,000, respectively, in excess of 11.5% of the gross proceeds of our Offering, has been incurred by our Advisor or Triple Net Properties and therefore these expenses are not recorded in our accompanying condensed consolidated financial statements as of September 30, 2007 and December 31, 2006. To the extent we raise additional proceeds from our Offering, these amounts may become our liability. See Note 2, Summary of Significant Accounting Policies – Organizational, Offering and Related Expenses for a further discussion.

Other

Our other commitments and contingencies include the usual obligations of real estate owners and operators in the normal course of business. In our opinion, these matters are not expected to have a material adverse effect on our

consolidated financial position, results of operations or cash flows.

For the three months ended September 30, 2007 and 2006, we incurred \$483,000 and \$0, respectively, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we incurred \$775,000 and \$0, respectively, in asset management fees to our Advisor or its affiliates, which is included in general and administrative in the accompanying condensed consolidated statements of operations.

On-site Personnel and Engineering Payroll

For the three months ended September 30, 2007 and 2006, Triple Net Properties incurred payroll for on-site personnel and engineering on our behalf of \$43,000 and \$0, respectively, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, Triple Net Properties incurred payroll for on-site personnel and engineering on our behalf of \$71,000 and \$0, respectively, which is included in rental expense on the condensed consolidated statements of operations.

Operating Expenses

We reimburse our Advisor or its affiliates for expenses incurred in rendering its services to us, subject to certain limitations on our operating expenses. However, we cannot reimburse our Advisor and affiliates for fees and costs that exceed the greater of: (1) 2.0% of our average invested assets, as defined in the Advisory Agreement, or (2) 25.0% of our net income, as defined in the Advisory Agreement, unless the board of directors determines that such excess expenses were justified based on unusual and non-recurring factors. For the twelve months ended September 30, 2007, our operating expenses exceeded this limitation by \$334,000. We raised the minimum offering and had funds held in escrow released to us to commence real estate operations in January 2007. At this early stage of our operations, our general and administrative expenses are relatively high compared with our funds from operations and our average invested assets. Our board of directors determined that the relationship of our general and administrative expenses to our funds from operations and our average invested assets was justified for the twelve months ended September 30, 2007 given the costs of operating a public company and the early stage of our operations.

For the three months ended September 30, 2007 and 2006, Triple Net Properties incurred on our behalf \$68,000 and \$0, respectively, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, Triple Net Properties incurred on our behalf \$494,000 and \$0, respectively, which is included in general and administrative in the accompanying condensed consolidated statements of operations or prepaid expenses on the accompanying condensed consolidated balance sheets, as applicable.

Liquidity Stage

Disposition Fees

Our Advisor or its affiliates will be paid, for services relating to a sale of one or more properties, a disposition fee up to the lesser of 1.75% of the contract sales price or 50.0% of a customary competitive real estate commission given the circumstances surrounding the sale, in each case as determined by our board of directors and will not exceed market norms. The amount of disposition fees paid, including real estate commissions paid to unaffiliated parties, will not exceed the lesser of the customary competitive disposition fee or an amount equal to 6.0% of the contract sales price. For the three months ended September 30, 2007 and 2006, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we did not incur such fees.

Subordinated Participation Interest

Subordinated Distribution of Net Sales Proceeds

Upon liquidation of our portfolio, our Advisor will be paid a subordinated distribution of net sales proceeds. The distribution will be equal to 15.0% of the net proceeds from the sales of properties, after subtracting distributions to our stockholders of (1) their initial contributed capital (less amounts paid to repurchase shares pursuant to our share repurchase program) plus (2) an annual cumulative, non-compounded return of 8.0% on average invested capital. Actual amounts depend upon the sales prices of properties upon liquidation. For the three months ended September 30, 2007 and 2006, and for the nine months ended September 30, 2007 and for

the period from April 28, 2006 (Date of Inception) through September 30, 2006, we did not incur such distributions.

Subordinated Distribution Upon Listing

Upon the listing of our shares of common stock on a national securities exchange, our Advisor will be paid a distribution equal to 15.0% of the amount by which (1) the market value of our outstanding common stock at listing plus distributions paid prior to listing exceeds (2) the sum of total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) and the amount of cash that, if distributed to stockholders as of the date of listing, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the date of listing. Actual amounts depend upon the market value of shares of our common stock at the time of listing, among other factors. For the three months ended September 30, 2007 and 2006, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we did not incur such distributions.

Subordinated Distribution Upon Termination

Upon termination of the Advisory Agreement, other than a termination by us for cause, our Advisor will be entitled to receive a distribution from our Operating Partnership in an amount equal to 15.0% of the amount, if any, by which (1) the fair market value of all of the assets of our Operating Partnership as of the date of the termination (determined by appraisal), less any indebtedness secured by such assets, plus the cumulative distributions made to us by our Operating Partnership from our inception through the termination date, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to redeem shares pursuant to our share repurchase plan) plus an annual 8.0% cumulative, non-compounded return on average invested capital through the termination date. However, our Advisor will not be entitled to this distribution if our shares have been listed on a national securities exchange prior to the termination of the Advisory Agreement.

Under the terms of our 2006 Incentive Plan, the aggregate number of shares of our common stock subject to options, shares of restricted common stock, stock purchase rights, stock appreciation rights or other awards, including those issuable under its sub-plan, the 2006 Independent Directors Compensation Plan, will be no more than 2,000,000 shares.

On September 20, 2006 and October 4, 2006, we granted an aggregate of 15,000 shares and 5,000 shares, respectively, of restricted common stock, as defined in the 2006 Incentive Plan, to our independent directors under the 2006 Independent Director Compensation Plan. On April 12, 2007, we granted 5,000 shares of restricted common stock to our newly appointed independent director. On June 12, 2007, in connection with their re-election, we granted 12,500 shares of restricted stock to our independent directors. Each of these restricted stock awards vested 20.0% on the grant date and 20.0% will vest on each of the first four anniversaries of the date of grant. The fair value of each share of restricted common stock was estimated at the date of grant at \$10.00 per share, the per share price of shares in our Offering, and is amortized on a straight-line basis over the vesting period. Shares of restricted common stock may not be sold, transferred, exchanged, assigned, pledged, hypothecated or otherwise encumbered. Such restrictions expire upon vesting. For the three months ended September 30, 2007 and 2006, we recognized compensation expense of \$19,000 and \$31,000, respectively, related to the restricted common stock grants, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we recognized compensation expense of \$77,000 and \$31,000, respectively, related to the restricted common stock grants. Such compensation expense is included in general and administrative on our accompanying condensed consolidated statements of operations. Shares of restricted common stock have full voting rights and rights to dividends.

As of September 30, 2007 and December 31, 2006, there was approximately \$247,000 and \$149,000, respectively, of total unrecognized compensation expense, net of estimated forfeitures, related to nonvested shares of restricted common stock. This expense is expected to be realized over a remaining weighted average period of 3.3 years.

As of September 30, 2007 and December 31, 2006, the fair value of the nonvested shares of restricted common stock was \$270,000 and \$160,000, respectively. A summary of the status of our shares of restricted common stock as of September 30, 2007 and December 31, 2006, and changes for the nine months ended September 30, 2007 is presented below:

13. Subordinated Participation Interest

Pursuant to our Agreement of Limited Partnership approved by our board of directors, upon termination of the Advisory Agreement, other than a termination by us for cause, our Advisor will be entitled to receive a distribution from our Operating Partnership in an amount equal to 15.0% of the amount, if any, by which (1) the fair market value of all of the assets of our Operating Partnership as of the date of the termination

(determined by appraisal), less any indebtedness secured by such assets, plus the cumulative distributions made to us by our Operating Partnership from our inception through the termination date, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to redeem shares pursuant to our share repurchase plan) plus an annual 8.0% cumulative, non-compounded return on average invested capital through the termination date. However, our Advisor will not be entitled to this distribution if our shares have been listed on a national securities exchange prior to the termination of the Advisory Agreement.

14. Business Combinations

As of September 30, 2007, we completed the acquisition of 14 consolidated properties, adding a total of approximately 1,547,000 square feet of GLA to our property portfolio. We purchased our 14 properties on the following dates:

Property	Date
Southpointe Office Parke and Epler Parke I	January 22, 2007
Crawfordsville Medical Office Park and Athens Surgery Center	January 22, 2007
The Gallery Professional Building	March 9, 2007
Lenox Office Park, Building G	March 23, 2007
Commons V Medical Office Building	April 24, 2007
Yorktown Medical Center and Shakerag Medical Center	May 2, 2007
Thunderbird Medical Plaza	May 15, 2007
Triumph Hospital Northwest and Triumph Hospital Southwest	June 8, 2007
Gwinnett Professional Center	July 27, 2007
1 and 4 Market Exchange	August 15, 2007
Kokomo Medical Office Park	August 30, 2007
St. Mary Physicians Center	September 5, 2007
2750 Monroe Boulevard	September 10, 2007
East Florida Senior Care Portfolio	September 28, 2007

Results of operations for the properties are reflected in our consolidated statements of operations for the three and nine months ended September 30, 2007 for the periods subsequent to the acquisition dates. The aggregate purchase price of the 14 consolidated properties was \$283,150,000 plus closing costs of \$9,795,000, of which \$144,368,000 was initially financed with mortgage loans, unsecured note payables to an affiliate or borrowings under the LaSalle Line of Credit.

In accordance with SFAS No. 141, we allocated the purchase price to the fair value of the assets acquired and the liabilities assumed, including the allocation of the intangibles associated with the in-place leases considering the following factors: lease origination costs and tenant relationships. Certain allocations as of September 30, 2007 are subject to change based on information received within one year of the purchase date related to one or more events at the time of purchase which confirm the value of an asset acquired or a liability assumed in an acquisition of a

property.

Assuming all of the acquisitions discussed above had occurred on April 28, 2006 (Date of Inception), for the nine months ended September 30, 2007, pro forma revenues, net income (loss) and net income (loss) per diluted share would have been \$23,672,000, \$(5,126,000) and \$(0.49), respectively. For the three months ended September 30, 2007, pro forma revenues, net income (loss) and net income (loss) per diluted share would have been \$7,648,000, \$(2,088,000) and \$(0.16), respectively. For the period from April 28, 2006 (Date of Inception) through September 30, 2006, pro forma revenues, net income (loss) and net income (loss) per diluted share would have been \$13,527,000, \$(1,914,000) and \$(0.21), respectively. For the three months ended September 30, 2006, pro forma revenues, net income (loss) and net income (loss) per diluted share

would have been \$7,977,000, \$(1,129,000) and \$(0.13). The pro forma results are not necessarily indicative of the operating results that would have been obtained had the acquisitions occurred at the beginning of the periods presented, nor are they necessarily indicative of future operating results.

Overview and Background

NNN Healthcare/Office REIT, Inc., a Maryland corporation, was incorporated on April 20, 2006. We were initially capitalized on April 28, 2006, and therefore we consider that our date of inception. We intend to provide investors the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties that produce current income. We may also invest in real estate related securities. We intend to qualify as a real estate investment trust, or REIT, for federal income tax purposes for our taxable year ending December 31, 2007.

We are conducting a best efforts initial public offering, or our Offering, in which we are offering a minimum of 200,000 shares of our common stock aggregating at least \$2,000,000, or the minimum offering, and a maximum of 200,000,000 shares of our common stock for \$10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan, or the DRIP, at \$9.50 per share, aggregating up to \$2,200,000,000, or the maximum offering. Shares purchased by our executive officers and directors, by NNN Capital Corp., or our Dealer Manager, by NNN Healthcare/Office REIT Advisor, LLC, or our Advisor,

or its affiliates did not count toward the minimum offering. As of October 31, 2007, we had received and accepted subscriptions in our Offering for 18,059,074 shares of our common stock, or \$180,368,000, excluding shares issued under the DRIP.

We conduct substantially all of our operations through NNN Healthcare/Office REIT Holdings, L.P., or our Operating Partnership. We are externally advised by our Advisor, pursuant to an advisory agreement, or the Advisory Agreement, between us, our Advisor and Triple Net Properties, LLC, the managing member of our Advisor. The Advisory Agreement had a one-year term that expired on September 19, 2007, and was subject to successive one-year renewals. On September 18, 2007, our board of directors extended the Advisory Agreement on a month-to-month basis. On October 24, 2007, our board of directors authorized the renewal, for one year ending on October 24, 2008, of our Advisory Agreement. Our Advisor supervises and manages our day-to-day operations and selects the properties and securities we acquire, subject to oversight by our board of directors. Our Advisor will also provide marketing, sales and client services on our behalf. Our Advisor is affiliated with us in that we and our Advisor have common officers, some of whom also own an indirect equity interest in our Advisor. Our Advisor engages affiliated entities, including Triple Net Properties Realty, Inc., or Realty, an affiliate of our Advisor, to provide various services to us.

In the fourth quarter of 2006, NNN Realty Advisors, Inc., or NNN Realty Advisors, or our Sponsor, acquired all of the outstanding ownership interests of Triple Net Properties, NNN Capital Corp. and Realty. As a result, we consider NNN Realty Advisors to be our Sponsor. On May 22, 2007, NNN Realty Advisors entered into a definitive merger agreement with Grubb & Ellis Company, or Grubb & Ellis. The merger has been approved by the Boards of Directors of both NNN Realty Advisors and Grubb & Ellis. The combined company will retain the Grubb & Ellis name and will continue to be listed on the New York Stock Exchange under the ticker symbol GBE. The transaction is expected to close in the fourth quarter of 2007, subject to approval by stockholders of both companies and other customary closing conditions of transactions of this type.

Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board, or the FASB, issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, or FIN No. 48. This interpretation, among other things, creates a two-step approach for evaluating uncertain tax positions. Recognition (step one) occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more-likely-than-not to be sustained upon

Table of Contents

examination. Measurement (step two) determines the amount of benefit that more-likely-than-not will be realized upon settlement. Derecognition of a tax position that was previously recognized would occur when a company subsequently determines that a tax position no longer meets the more-likely-than-not threshold of being sustained. FIN No. 48 specifically prohibits the use of a valuation allowance as a substitute for derecognition of tax positions, and it has expanded disclosure requirements. FIN No. 48 was effective for fiscal years beginning after December 15, 2006, in which the impact of adoption should be accounted for as a cumulative-effect adjustment to the beginning balance of retained earnings in the year of adoption. Our adoption of FIN No. 48 as of the beginning of the first quarter of 2007 did not have any impact on our consolidated financial statements.

In September 2006, the FASB issued Statements of Financial Accounting Standards, or SFAS, No. 157, *Fair Value Measurement*, or SFAS No. 157. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 on January 1, 2008. We are evaluating SFAS No. 157 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS No. 159. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the fiscal year beginning on or before November 15, 2007, provided the provisions of SFAS No. 159 are applied. We will adopt SFAS No. 159 on January 1, 2008. We are evaluating SFAS No. 159 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

Leverage

In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with our first four acquisitions. The board of directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. As of November 13, 2007, our leverage does not exceed 300.0%. We may, with a majority of our independent directors authority, exceed our charter s leverage guidelines again during the early stages of our operations. We will take action to reduce any such excess as soon as practicable. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities. The preceding calculation is generally expected to approximate 75.0% of the sum of (1) the aggregate cost of our properties before non-cash reserves and depreciation and (2) the aggregate cost of our securities assets.

Proposed Unaffiliated Third Party Acquisition

St. Rita s Medical Center Portfolio Lima, Ohio

On July 31, 2007, our board of directors approved the acquisition of the St. Rita s Medical Center Portfolio, located in Lima, Ohio. We anticipate purchasing the St. Rita s Medical Center Portfolio for a purchase price of \$25,750,000, plus closing costs, from an unaffiliated third party. We intend to finance the purchase using our secured revolving line of credit with LaSalle. We expect to pay our Advisor and its affiliate an acquisition fee of \$773,000, or 3.0% of the purchase price, in connection with the acquisition. We anticipate that the closing will occur in the fourth quarter of 2007; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of St. Rita s Medical Center.

Factors Which May Influence Results of Operations

Rental Income

The amount of rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space, to lease currently available space and space available from unscheduled lease terminations at the existing rental rates and the timing of the disposition of the properties. Negative trends in one or more of these factors could adversely affect our rental income in future periods.

Scheduled Lease Expirations

As of September 30, 2007, our consolidated properties were 91.5% leased. 1.8% of the leased GLA expires during the remainder of 2007. Our leasing strategy for 2007 focuses on negotiating renewals for leases scheduled to expire during the remainder of the year. If we are unable to negotiate such renewals, we will try

Table of Contents

to identify new tenants or collaborate with existing tenants who are seeking additional space to occupy. Of the leases expiring in 2007, we anticipate, but cannot assure, that all of the tenants will renew for another term.

Sarbanes-Oxley Act

The Sarbanes-Oxley Act of 2002, as amended, or the Sarbanes-Oxley Act, and related laws, regulations and standards relating to corporate governance and disclosure requirements applicable to public companies, have increased the costs of compliance with corporate governance, reporting and disclosure practices which are now required of us. These costs may have a material adverse effect on our results of operations and could impact our ability to continue to pay distributions at current rates to our stockholders. Furthermore, we expect that these costs will increase in the future due to our continuing implementation of compliance programs mandated by these requirements. Any increased costs may affect our ability to distribute funds to our stockholders. As part of our compliance with the Sarbanes-Oxley Act, we will have to provide management's assessment of our internal control over financial reporting as of December 31, 2007.

In addition, these laws, rules and regulations create new legal bases for potential administrative enforcement, civil and criminal proceedings against us in the event of non-compliance, thereby increasing the risks of liability and potential sanctions against us. We expect that our efforts to comply with these laws and regulations will continue to involve significant, and potentially increasing costs and, our failure to comply could result in fees, fines, penalties or administrative remedies against us.

Results of Operations

Our operating results are primarily comprised of income derived from our portfolio of properties.

We are not aware of any material trends or uncertainties, other than national economic conditions affecting real estate generally, that may reasonably be expected to have a material impact, favorable or unfavorable, on revenues or income from the acquisition, management and operation of properties other than those listed in Part II, Item 1A. Risk Factors.

If we fail to raise significant proceeds above our minimum offering, we will not have enough proceeds to invest in a diversified real estate portfolio. Our real estate portfolio would be concentrated in a small number of properties, resulting in increased exposure to local and regional economic downturns and the poor performance of one or more of our properties and, therefore, expose our stockholders to increased risk. In addition, many of our expenses are fixed regardless of the size of our real estate portfolio. Therefore, depending on the amount of offering proceeds we raise, we would expend a larger portion of our income on operating expenses. This would reduce our profitability and, in turn, the amount of net income available for distribution to our stockholders.

We had limited results of operations for the period from April 28, 2006 (Date of Inception) through September 30, 2006.

Liquidity and Capital Resources

We are dependent upon the net proceeds to be received from our Offering to conduct our proposed activities. The capital required to purchase real estate and real estate related securities will be obtained from our Offering and from any indebtedness that we may incur.

Our principal demands for funds will be for acquisitions of real estate and real estate related securities, to pay operating expenses and interest on our outstanding indebtedness and to make distributions to our stockholders. In addition, we will require resources to make certain payments to our Advisor and our Dealer Manager, which during our Offering include payments to our Advisor and its affiliates for reimbursement of certain organizational and offering expenses and to our Dealer Manager and its affiliates for selling commissions, non-accountable marketing support fees and due diligence expense reimbursements.

Generally, cash needs for items other than acquisitions of real estate and real estate related securities will be met from operations, future borrowings, and the net proceeds of our Offering. However, there may be a delay between the sale of shares of our common stock and our investments in properties and real estate related securities, which could result in a delay in the benefits to our stockholders, if any, of returns generated from our investment operations. We believe that these cash resources will be sufficient to satisfy our cash requirements for the foreseeable future, and we do not anticipate a need to raise funds from other than these sources within the next 12 months.

We currently anticipate that we will require up to \$5,331,000 for the next 12 months for capital expenditures. We have reserves with lenders for such capital expenditures of \$2,839,000 as of September 30, 2007. To the extent we purchase additional properties in the future, we may require funds for capital expenditures. To the extent funds from operations

are not sufficient to fund these expenditures, we would be required to borrow amounts.

Our Advisor evaluates potential additional investments and engages in negotiations with real estate sellers, developers, brokers, investment managers, lenders and others on our behalf. Until we invest the proceeds of our Offering in properties and real estate related securities, we may invest in short-term, highly liquid or other

Table of Contents

authorized investments. Such short-term investments will not earn significant returns, and we cannot predict how long it will take to fully invest the proceeds in properties and real estate related securities. The number of properties we may acquire and other investments we will make will depend upon the number of shares sold in our Offering and the resulting amount of net proceeds available for investment.

When we acquire a property, our Advisor prepares a capital plan that contemplates the estimated capital needs of that investment. In addition to operating expenses, capital needs may also include costs of refurbishment, tenant improvements or other major capital expenditures. The capital plan also sets forth the anticipated sources of the necessary capital, which may include a line of credit or other loans established with respect to the investment, operating cash generated by the investment, additional equity investments from us or joint venture partners or, when necessary, capital reserves. Any capital reserve would be established from the gross proceeds of our Offering, proceeds from sales of other investments, operating cash generated by other investments or other cash on hand. In some cases, a lender may require us to establish capital reserves for a particular investment. The capital plan for each investment will be adjusted through ongoing, regular reviews of our portfolio or as necessary to respond to unanticipated additional capital needs.

Cash Flows

Cash flows from operating activities for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, were \$2,963,000 and \$0, respectively. Such cash flows related primarily to operations from the properties. We anticipate cash flows from operating activities to continue to increase as we purchase more properties and have a full year of operations.

Cash flows used in investing activities for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006 were \$258,510,000 and \$0, respectively. In 2007, such cash flows related primarily to the acquisition of our 14 properties in the amount of \$253,574,000. We anticipate cash flows used in investing activities to continue to increase as we purchase more properties.

Cash flows from financing activities for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, were \$259,857,000 and \$202,000, respectively. In 2007, such cash flows related primarily to funds raised from investors in the amount of \$157,281,000, borrowings on mortgage loan payables and unsecured note payables to affiliate of \$106,210,000 and net borrowings under the line of credit of \$35,700,000 partially offset by principal repayments of \$19,921,000 on unsecured loans, offering costs of \$16,130,000 and distributions of \$1,638,000. Additional cash outflows related to debt financing costs of \$1,668,000 in relation to the acquisitions. In 2006, such cash flows related to \$2,000 from the sale of 200 shares of our common stock to our Advisor and \$200,000 invested in our Operating Partnership from our Advisor. We anticipate cash flows from financing activities to increase in the future as we raise additional funds from investors and incur additional debt to purchase properties.

Distributions

The amount of the distributions to our stockholders will be determined by our board of directors and are dependent on a number of factors, including funds available for payment of distributions, our financial condition, capital expenditure requirements and annual distribution requirements needed to maintain our status as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, or the Code.

We paid our first monthly distribution on February 15, 2007 for the period ended January 31, 2007.

On February 14, 2007, our board of directors approved a 7.25% per annum distribution to be paid to stockholders beginning with our February 2007 monthly distribution, which was paid in March 2007. Distributions are paid monthly.

If distributions are in excess of our taxable income, such distributions will result in a return of capital to our stockholders.

Table of Contents

For the nine months ended September 30, 2007, we paid distributions of \$1,638,000 from cash flow from operations of \$2,963,000 for the period. However, as of September 30, 2007, we owed \$632,000 to our Advisor and its affiliates for operating expenses, on-site personnel and engineering payroll and asset and property management fees, which will be paid from cash flow from operations in the future.

Our Advisor and its affiliates have no obligations to defer or forgive amounts due to them. As of September 30, 2007, no amounts due to our Advisor or its affiliates have been forgiven. In the future, if our Advisor or its affiliates do not defer or forgive amounts due to them and as a result if our cash flow from operations is less than the distributions to be paid, we would be required to pay our distributions, or a portion thereof, with proceeds from our Offering or borrowed funds. As a result, the amount of proceeds available for investment and operations would be reduced, or we may incur additional interest expense as a result of borrowed funds.

For the nine months ended September 30, 2007, our funds from operations, or FFO, was \$1,583,000. We paid distributions of \$1,638,000, of which \$1,583,000 was paid from FFO and the remainder from proceeds from our Offering. See our disclosure regarding FFO below.

Capital Resources

Financing

We anticipate that aggregate borrowings, both secured and unsecured, will not exceed 60.0% of all of our properties combined fair market values, as determined at the end of each calendar year beginning with our first full year of operations. For these purposes, the fair market value of each asset will be equal to the purchase price paid for the asset or, if the asset was appraised subsequent to the date of purchase, then the fair market value will be equal to the value reported in the most recent independent appraisal of the asset. Our policies do not limit the amount we may borrow with respect to any individual investment.

Our charter precludes us from borrowing in excess of 300.0% of the value of our net assets, unless approved by our independent directors and the justification for such excess borrowing is disclosed to our stockholders in our next quarterly report. In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with our first four acquisitions. The board of directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. As of November 13, 2007, our leverage does not exceed 300.0%. We may, with a majority of our independent directors' authority, exceed our charter's leverage guidelines during the early stages of our operations. We will take action to reduce any such excess as soon as practicable. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities.

default interest rates in an event of default equal to 8.85% and 8.86% per annum, respectively. On September 4, 2007 and September 11, 2007, we repaid all outstanding principal and accrued interest on both the \$1,300,000 and \$6,100,000 unsecured notes, respectively.

Because these loans were related party loans, the terms of the loans and the unsecured notes, were approved by our board of directors, including a majority of our independent directors, and deemed fair, competitive and commercially reasonable by our board of directors.

Line of Credit

On September 10, 2007, we entered into a loan agreement, or the Loan Agreement, with LaSalle to obtain a secured revolving credit facility in an aggregate maximum principal amount of \$50,000,000, or the LaSalle Line of Credit. The proceeds of loans made under the Loan Agreement may be used to finance the purchase of properties or, provided no event of default has occurred and is continuing, may be used for any other lawful purpose. In addition to loans, our Operating Partnership may obtain up to \$10,000,000 of the credit available under the Loan Agreement in the form of letters of credit. The initial term of the Loan Agreement is three years, which may be extended by one 12-month period subject to satisfaction of certain conditions, including payment of an extension fee equal to 0.20% of the principal balance of loans then outstanding.

The actual amount of credit available under the Loan Agreement is a function of certain loan to cost, loan to value and debt service coverage ratios contained in the Loan Agreement. The maximum principal amount of the Loan Agreement may be increased to \$120,000,000 subject to the terms of the Loan Agreement. Also, additional financial institutions may become lenders under the Loan Agreement.

At our option, loans under the Loan Agreement bear interest at per annum rates equal to (a) LIBOR plus a margin ranging from 1.45% to 1.60%, depending on the ratio of outstanding amounts under the Loan Agreement to the value of the collateral securing the Loan Agreement, (b) the greater of LaSalle's prime rate or the Federal Funds Rate plus 0.50%, or (c) a combination of these rates. Accrued interest under the Loan Agreement is payable monthly and at maturity. In addition to interest, we are required to pay a fee on the unused portion of the lenders' commitments under the Loan Agreement at a per annum rate equal to 0.20%, payable quarterly in arrears, beginning with the quarter ending December 31, 2007.

Our obligations with respect to the Loan Agreement are guaranteed by us and by our subsidiaries that own properties that serve as collateral for the Loan Agreement.

The Loan Agreement contains various affirmative and negative covenants that are customary for facilities and transactions of this type, including limitations on the incurrence of debt by us and our subsidiaries that own properties that serve as collateral for the Loan Agreement, limitations on the nature of our business, and limitations on distributions by us and our subsidiaries that own properties that serve as collateral for the Loan Agreement. The Loan Agreement also imposes the following financial covenants on us and our Operating Partnership, as applicable: (a) a minimum ratio of operating cash flow to interest expense, (b) a minimum ratio of operating cash flow to fixed charges, (c) a maximum ratio of liabilities to asset value, (d) a maximum distribution covenant and (e) a minimum net worth covenant, all of which are defined in the Loan Agreement. In addition, the Loan Agreement includes events of default that are customary for facilities and transactions of this type.

As of September 30, 2007 and December 31, 2006, borrowings under the LaSalle Line of Credit totaled \$35,700,000 and \$0, respectively. Borrowings as of September 30, 2007 bore interest at a weighted-average interest rate of 7.08% per annum.

REIT Requirements

In order to qualify as a REIT for federal income tax purposes, we are required to make distributions to our stockholders of at least 90.0% of REIT taxable income. In the event that there is a shortfall in net cash available due to factors including, without limitation, the timing of such distributions or the timing of the collections of receivables, we may seek to obtain capital to pay distributions by means of debt financing

through one or more third parties. We may also pay distributions from cash from capital transactions including, without limitation, the sale of one or more of our properties.

Commitments and Contingencies

Our organizational, offering and related expenses are being paid by our Advisor and their affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee which generally represent 7.0% and 2.5% of our gross offering proceeds, respectively) to be paid by us in connection with our Offering. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense reimbursement and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of our Offering. As of September 30, 2007 and December 31, 2006, our Advisor or its affiliates have incurred expenses of \$990,000 and \$1,728,000, respectively, in excess of 11.5% of the gross proceeds of our Offering, and therefore these expenses are not recorded in our accompanying condensed consolidated financial statements as of September 30, 2007 and December 31, 2006. To the extent we raise additional proceeds from our Offering, these amounts may become our liability. See Note 10, Related Party Transactions Offering Stage for a further discussion of these amounts during our offering stage.

Debt Service Requirements

One of our principal liquidity needs is the payment of interest on outstanding indebtedness. As of September 30, 2007, we had fixed and variable mortgage loan payables and the LaSalle Line of Credit outstanding secured by our properties, in the principal amount of \$159,133,000 (\$159,031,000, net of discount). As of September 30, 2007, the weighted-average interest rate on our outstanding debt was 6.77% per annum.

Off-Balance Sheet Arrangements

As of September 30, 2007, we had no off-balance sheet transactions, nor do we currently have any such arrangements or obligations.

Inflation

We will be exposed to inflation risk as income from future long-term leases is expected to be the primary source of our cash flows from operations. We expect that there will be provisions in the majority of our tenant leases that would protect us from the impact of inflation. These provisions include rent steps, reimbursement billings for operating expense pass-through charges, real estate tax and insurance reimbursements on a per

Table of Contents

square foot allowance. However, due to the anticipated long-term nature of the leases, among other factors, the leases may not re-set frequently enough to cover inflation.

Funds from Operations

One of our objectives is to provide cash distributions to our stockholders from cash generated by our operations. FFO is not equivalent to our net income or loss as determined under GAAP. Due to certain unique operating characteristics of real estate companies, the National Association of Real Estate Investment Trusts, or NAREIT, an industry trade group, has promulgated a measure known as FFO which it believes more accurately reflects the operating performance of a REIT such as us.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from sales of property but including asset impairment writedowns, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO.

We are disclosing FFO and intend to disclose FFO in future filings because we consider FFO to be an appropriate supplemental measure of a REIT's operating performance as it is based on a net income analysis of property portfolio performance that excludes non-cash items such as depreciation. The historical accounting convention used for real estate assets requires straight-line depreciation of buildings and improvements, which implies that the value of real estate assets diminishes predictably over time. Since real estate values historically rise and fall with market conditions, presentations of operating results for a REIT, using historical accounting for depreciation, could be less informative. The use of FFO is recommended by the REIT industry as a supplemental performance measure.

Presentation of this information is intended to assist the reader in comparing the operating performance of different REITs, although it should be noted that not all REITs calculate FFO the same way, so comparisons with other REITs may not be meaningful. Furthermore, FFO is not necessarily indicative of cash flow available to fund cash needs and should not be considered as an alternative to net income as an indication of our performance. Our FFO reporting complies with NAREIT's policy described above.

The following is the calculation of FFO for the three months ended September 30, 2007 and 2006, for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006:

Proposed Unaffiliated Third Party Acquisitions

Tucson Medical Center Tucson, Arizona

On October 24, 2007, our board of directors approved the acquisition of Tucson Medical Center, located in Tucson, Arizona. We anticipate purchasing the Tucson Medical Center for a purchase price of \$21,125,000, plus closing costs, from an unaffiliated third party. We intend to finance the purchase using the LaSalle Line of Credit. We expect to pay our Advisor and its affiliate an acquisition fee of \$634,000, or 3.0% of the purchase price, in connection with the acquisition. We anticipate that the closing will occur in the fourth quarter of 2007; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition Tucson Medical Center.

Northmeadow Medical Center Roswell, Georgia

On October 24, 2007, our board of directors approved the acquisition of Northmeadow Medical Center, located in Roswell, Georgia. We anticipate purchasing the Northmeadow Medical Center for a purchase price of \$11,850,000, plus closing costs, from an unaffiliated third party. We intend to finance the purchase using the LaSalle Line of Credit. Interest Rate Swaps

On October 12, 2007, we executed an interest rate swap agreement with Wachovia in connection with the \$14,500,000 secured loan on the 1 and 4 Market Exchange property, or the Market Exchange loan. Pursuant to the terms of the original promissory note, the Market Exchange loan bears interest, at our option, at a per annum rate equal to either: (a) 30-day LIBOR plus 1.35%; or (b) the Prime Rate, as announced by Wachovia Financial from time to time. As a result of the interest rate swap agreement, the Market Exchange loan bears interest at an effective fixed rate of 5.97% per annum from September 28, 2007 through September 28, 2010; and provides for monthly interest-only payments due on the first day of each calendar month commencing on November 1, 2007.

On October 19, 2007, we executed an interest rate swap agreement with KeyBank in connection with the \$30,500,000 secured loan on the EFSC property, or the EFSC loan. Pursuant to the terms of the original promissory note, the EFSC loan bears interest, at our option, at a per annum rate equal to either: (a) a rate equal to the greater of: (i) the prime rate, as established from time to time by KeyBank, or (ii) 1.0% in excess of the federal funds effective rate, as defined in the loan agreement; or (b) the Adjusted LIBOR Rate, as defined in the loan agreement. As a result of the interest rate swap agreement, the EFSC loan bears interest at an effective fixed rate of 6.01% per annum from November 1, 2007 through October 1, 2010; and provides for monthly principal and interest payments due on the tenth day of each calendar month commencing on November 10, 2007.

Line of Credit

As of November 13, 2007, we have repaid \$29,300,000 on the LaSalle Line of Credit and \$6,400,000 remains outstanding.

EFSC Loan

On October 22, 2007, we met the requirements of the EFSC loan and received the \$4,500,000 loan holdback held in escrow from KeyBank pursuant to the loan agreement.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

As of December 31, 2006, we had not commenced real estate operations and therefore had limited exposure to financial market risks. During the nine months ended September 30, 2007, we assumed or entered into fixed and variable rate mortgage loan payables and a secured line of credit secured by our 14 properties.

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business plan, we expect that the primary market risk to which we will be exposed is interest rate risk.

We may be exposed to the effects of interest rate changes primarily as a result of borrowings used to maintain liquidity and fund expansion and refinancing of our real estate investment portfolio and operations. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings, prepayment penalties and cash flows and to lower overall borrowing costs while taking into account variable interest rate risk. To achieve our objectives, we may borrow at fixed rates or variable rates. We may also enter into derivative financial instruments such as interest rate swaps and caps in order to mitigate our interest rate risk on a related financial instrument. We will not enter into derivative or interest rate transactions for speculative purposes.

In addition to changes in interest rates, the value of our properties is subject to fluctuations based on changes in local and regional economic conditions and changes in the creditworthiness of tenants, which may affect our ability to refinance our debt if necessary.

Our interest rate risk is monitored using a variety of techniques. The table below presents, as of September 30, 2007, the principal amounts and weighted-average interest rates by year of expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes.

	2007	2008	2009	Expected Maturity Date		Total	Fair Value
				2010	Thereafter		
Fixed rate debt - principal payments	\$ 14,000	\$ 150,000	\$ 8,588,000	\$ 545,000	\$ 73,636,000	\$ 82,933,000	\$ 81,728,000
Weighted-average interest rate on maturing debt	5.88%	5.74%	5.80%	5.68%	5.76%	5.77%	
Variable rate debt - principal payments				\$ 76,200,000		\$ 76,200,000	\$ 76,200,000
Weighted-average interest rate on maturing debt (based on rates in effect as of September 30, 2007)				6.77%		6.77%	

As of September 30, 2007, our debt consisted of fixed and variable mortgage loan payables in the principal amount of \$123,433,000 (\$123,331,000, net of discount), at a weighted-average interest rate of 6.01% per annum. As of

September 30, 2007, we had \$35,700,000 outstanding on our line of credit at a weighted-average interest rate of 7.08%.

An increase in the variable interest rate on the line of credit and our variable rate mortgage loan payables constitutes a market risk. As of September 30, 2007, for example a 0.5% increase in LIBOR would have increased our overall annual interest expense by \$381,000, or 7.38%.

Item 4T. Controls and Procedures.

(a) *Evaluation of disclosure controls and procedures.* We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to us, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control

objectives, as ours are designed to do, and we necessarily were required to apply our judgment in evaluating whether the benefits of the controls and procedures that we adopt outweigh their costs.

Attached as Exhibits 31.1 and 31.2 to this Quarterly Report on Form 10-Q are certifications of our chief executive officer and chief financial officer required in accordance with Section 302 of the Sarbanes-Oxley Act of 2002 and Rules 13a-14(a) and 15d-14(a) under the Exchange Act, or the Section 302 Certification. This portion of our Quarterly Report on Form 10-Q is our disclosure of the results of our disclosure controls evaluation referred to in paragraphs (4) and (5) of the Section 302 Certification and should be read in conjunction with the Section 302 Certification for a more complete understanding of the topics presented.

As of September 30, 2007, an evaluation was conducted under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, the chief executive officer and the chief financial officer concluded that the design and operation of these disclosure controls and procedures were effective.

(b) *Changes in internal control over financial reporting.* There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
