VOTING RIGHTS AND SOLICITATION

Voting

The record date for the annual meeting is October 4, 2007. Only stockholders of record as of the close of business on the record date are entitled to receive notice of the annual meeting and to vote at the annual meeting. As of the record date, 44,662,643 shares of common stock were outstanding and entitled to vote at the annual meeting. Each share of common stock is entitled to one vote.

Votes cast by proxy or in person at the annual meeting will be tabulated by the inspector of elections appointed for the annual meeting, who will also determine whether a quorum is present for the transaction of

business. Our bylaws provide that a quorum is present if the holders of a majority of the issued and outstanding shares of common stock entitled to vote at the meeting are present in person or represented by proxy. Abstentions will be counted as shares that are present and entitled to vote for purposes of determining whether a quorum is present. Shares held by nominees for beneficial owners will also be counted for purposes of determining whether a quorum is present if the nominee has the discretion to vote on at least one of the matters presented, even though the nominee may not exercise discretionary voting power with respect to other matters and even though voting instructions have not been received from the beneficial owner (a broker non-vote). Abstentions and broker non-votes are not counted in determining whether a proposal has been approved.

Under Delaware law, if a quorum exists, directors are elected by a plurality of the votes cast by the shares present in person or represented by proxy at the meeting and entitled to vote in the election. Accordingly, the five nominees receiving the highest number of affirmative votes of the votes represented at the annual meeting will be elected as directors.

Proxies

Whether or not you are able to attend the annual meeting, you are urged to complete and return the enclosed proxy card, which is solicited by the board of directors and which will be voted as you direct on your proxy card when properly completed. In the event no directions are specified, such proxies will be voted for the approval of the proposals described in the accompanying notice and this proxy statement and in the discretion of the proxy holders as to other matters that may properly come before the annual meeting. You may revoke or change your proxy at any time before the annual meeting. To do this, send a written notice of revocation or another signed proxy card with a later date to our Secretary at our principal executive offices before the beginning of the annual meeting. You may also revoke your proxy by attending the annual meeting and voting in person.

Solicitation of Proxies

Proxies solicited by this proxy statement may be exercised only at the annual meeting and any adjournment of the annual meeting and will not be used for any other meeting. Proxies solicited by this proxy statement will be returned to our Secretary and will be tabulated by an inspector of elections designated by our board of directors who will not be employed by us.

We will bear the entire cost of solicitation of proxies by mail on behalf of the board of directors. Proxies also may be solicited by personal interview or by telephone by directors, officers, and other employees of our company without additional compensation. We also have made arrangements with brokerage firms, banks, nominees, and other fiduciaries to forward proxy solicitation materials for shares of common stock held of record to the beneficial owners of such shares. We will reimburse such record holders for their reasonable out-of-pocket expenses.

Annual Report

Our annual report for the year ended December 31, 2006 has been mailed with this proxy statement and the notice of annual meeting to all stockholders entitled to notice of and to vote at the annual meeting. Our annual report is not incorporated into this proxy statement and is not considered proxy soliciting material.

MATTERS TO BE CONSIDERED AT THE ANNUAL MEETING

PROPOSAL 1:

ELECTION OF DIRECTORS

The board of directors recommends the following nominees for election as directors and urges each stockholder to vote FOR the nominees. Executed proxies in the accompanying form will be voted at the annual meeting in favor of the election as directors of the nominees named below, unless authority to do so is withheld.

At the annual meeting, five directors are to be elected. Each person nominated for election has agreed to serve if elected, and the board of directors has no reason to believe that any nominee will be unavailable or will decline to serve. In the event, however, that any nominee is unable or declines to serve as a director at the time of the annual meeting, the persons designated as proxies will vote for any nominee who is designated by our current board of directors to fill the vacancy.

Our board of directors, which currently consists of six members, is divided into three classes (designated CLASS I, CLASS II, and CLASS III), as nearly equal in number as possible, with each class serving three-year terms expiring at the third annual meeting of stockholders after their elections or until their respective successors have been elected and qualified. CLASS I currently consists of three directors whose terms were scheduled to expire in 2006 Robert Biehl, William Johnson and John Kang. Because successors to the current CLASS I directors have not yet been elected, CLASS I directors will be elected at the 2007 annual meeting. CLASS II currently consists of two directors, CK Cho and Dean Tanella, whose terms will also expire at the 2007 annual meeting. CLASS III currently consists of one director, Patrick Caruana, whose term will expire at the 2008 annual meeting of stockholders. Because our director classes are required to be as nearly equal in number as possible, our board of directors has moved William Johnson, from CLASS I to CLASS III effective immediately prior to the Annual Meeting, and Mr. Johnson's term will therefore also expire at the 2008 annual meeting.

At the annual meeting, two CLASS I directors will be elected to serve until their terms expire at the 2009 annual meeting of stockholders, two CLASS II directors will be elected to serve until their terms expire at the 2010 annual meeting of stockholders, and one CLASS III director will be elected to serve until his term expires at the 2008 annual meeting, or in each case until their respective successors have been elected and qualified. All of the nominees for director named below currently are directors of our company. The remaining director will continue to serve as a member of the board for the term set forth below. Directors are elected by a plurality of the votes cast (assuming a quorum is present at the annual meeting), meaning that the five nominees receiving the highest number of affirmative votes of the votes represented at the annual meeting will be elected as directors.

Set forth below is biographical information for each person nominated and each person whose term of office as a director will continue after the annual meeting.

BOARD OF DIRECTORS

Board Meetings and Director Independence

During 2006, our board of directors held twelve meetings. All directors attended at least 75% of the meetings of the board and of the committees on which they served during 2006. The board of directors also took certain actions by unanimous written consent in lieu of a meeting, as permitted by Delaware law. In addition, the independent directors met in executive session periodically in 2006.

We did not hold an annual stockholders meeting during 2006, and our company has not established a policy with regard to the attendance of board members at annual stockholders meetings.

Our board of directors presently has six members, and biographical information regarding these directors (five of whom are director nominees) is set forth above under the caption PROPOSAL 1: ELECTION OF DIRECTORS. Our board has determined that four of its members are independent directors as defined under the rules of the NASDAQ Stock Market, Inc. and Rule 10A-3(b)(i) under the Securities Exchange Act of 1934. These four independent directors are Robert Biehl, Dean Tanella, CK Cho, and Patrick Caruana.

Board Committees

The board of directors has established the following standing committees whose responsibilities are summarized as follows:

Audit Committee. Our board of directors has an Audit Committee that is currently comprised of Mr. Tanella and Mr. Biehl. All of the members of the Audit Committee are independent directors, as defined by the rules applicable to members of the Audit Committee.

The Audit Committee is responsible for reviewing the independence, qualifications, and activities of our independent certified accountants and our financial policies, control procedures, and accounting staff. The Audit Committee is also responsible for the review of transactions between us and any officer, director, or entity in which an officer or director of our company has a material interest. Our board of directors has determined that Mr. Tanella qualifies as audit committee financial expert as defined by the regulations of the Securities and Exchange Commission. In addition, our board of directors has determined that Mr. Tanella is an independent director within the meaning of the rules of the Securities and Exchange Commission and NASDAQ.

During 2006, the Audit Committee held 6 meetings. The Audit Committee is governed by a written charter approved by the board of directors. A copy of the Audit Committee's charter is posted on the Company's website at www.liquidmetal.com in the Investors section of the website.

Compensation Committee. The Compensation Committee is comprised of Mr. Cho and Mr. Biehl. All of the members of the Compensation Committee are independent directors, as defined by the rules applicable to members of the Compensation Committee. The Compensation Committee is responsible for establishing the compensation of our senior management, including salaries, bonuses, termination arrangements, and other executive officer benefits. The Compensation Committee also administers our equity incentive plans.

During 2006, the Compensation Committee held one meeting. The Compensation Committee is governed by a written charter approved by the board of directors. A copy of the Compensation Committee's charter is posted on the Company's website at www.liquidmetal.com in the Investors section of the website.

The Compensation Committee works with the Chairman of the Board and Chief Executive Officer and reviews and approves compensation decisions regarding senior management including compensation levels and equity incentive awards. The Compensation Committee also reviews and recommends to the full Board for its review and approval, the cash and equity incentive awards for the Chief Executive Officer, Chairman of the Board, non-employee directors, the Lead Director and Board committee chairs. The Compensation Committee has the power and authority to conduct or authorize studies, retain independent consultants, accountants or others, and obtain unrestricted access to management, the Company's internal auditors, human resources and accounting employees and all information relevant to its responsibilities.

Corporate Governance and Nominating Committee. A Corporate Governance and Nominating Committee was formed on February 18, 2003, and is comprised of Mr. Tanella and Mr. Biehl. All members of the Committee are independent directors, as defined by the rules applicable to members of the Committee. The Committee is generally responsible for adopting policies, procedures, and practices designed to help ensure that our corporate governance policies, procedures, and practices continue to assist the board and our management in effectively and efficiently promoting the best interests of our stockholders. The Committee is also responsible for selecting and recommending for approval by our board of directors and our stockholders a slate of director nominees for election at each of our annual meetings of stockholders, and otherwise for determining the board committee members and chairmen, subject to board ratification, as well as recommending to the board director nominees to fill vacancies or new positions on the board or its committees that may occur or be created from time to time, all in accordance with our Bylaws and applicable law.

The Corporate Governance and Nominating Committee's principal functions include:

developing and maintaining our corporate governance policy guidelines;

developing and maintaining our codes of conduct and ethics;

overseeing the interpretation and enforcement of our Code of Conduct and our Code of Ethics for Chief Executive Officer and Senior Financial and Accounting Officers;

evaluating the performance of our board, its committees, and committee chairmen and our directors; and

selecting and recommending a slate of director nominees for election at each of our annual meeting of the stockholders and recommending to the board director nominees to fill vacancies or new positions on the board or its committees that may occur from time to time.

During 2006, the Corporate Governance and Nominating Committee did not hold any formal meetings. Rather, because the membership of the Corporate Governance and Nominating Committee consisted of the Company's independent directors, the independent directors performed the functions of the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee is governed by a written charter approved by the board of directors. A copy of the Corporate Governance and Nominating Committee's charter is posted on the Company's website at www.liquidmetal.com in the Investors/Corporate Information section of the website.

In identifying potential independent board candidates with significant senior-level professional experience, the Corporate Governance and Nominating Committee solicits candidates from the board, senior management and others and may engage a search firm in the process. The Corporate Governance and Nominating Committee reviews and narrows the list of candidates and interviews the final nominees. The final candidate is also introduced and interviewed by the Board and the Lead Director.

In 2006, the Corporate Governance and Nominating Committee recommended Patrick Caruana to serve as a Class III director of the company to fill a vacancy created by James Kang's resignation. The board evaluated Mr. Caruana as a candidate including an inquiry into his background and qualifications. The board determined that Mr. Caruana was qualified to serve as an independent director of the company and, in October 2006, elected him to serve as a Class III Director of the company until the next election of the class or until his successor is duly elected and has qualified or until his earlier resignation or removal.

Compensation Committee Interlocks and Insider Participation

None of the members of our Compensation Committee serves, or has at any time served, as an officer or employee of our company or of any of our subsidiaries. In addition, none of our executive officers has served as a director or a member of the compensation committee (or other committee serving an equivalent function) of any other entity, one of whose executive officers served as a director of our company or a member of our Compensation Committee.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This compensation discussion describes the material elements of compensation awarded to, earned by, or paid to each of our executive officers who served as named executive officers during the last completed fiscal year. This compensation discussion focuses on the information contained in the following tables and related footnotes and narrative for primarily the last completed fiscal year, but we also describe compensation actions taken before or after the last completed fiscal year to the extent it enhances the understanding of our executive compensation disclosure.

Our Compensation Committee currently oversees the design and administration of our executive compensation program.

The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives in the form of stock options, other benefits and perquisites, post-termination severance and acceleration of stock option vesting for certain named executive officers upon termination and/or a change in control. Our other benefits and perquisites consist of reimbursement for certain automobile payments and health insurance benefits. Our philosophy is to position the aggregate of these elements at a level that is commensurate with our size and sustained performance.

Compensation Program Objectives and Philosophy

The objectives of our compensation programs are to:

attract, motivate and retain talented and dedicated executive officers;

provide our executive officers with both cash and equity incentives to further the interests of our company and our stockholders; and

provide employees with long-term incentives so we can retain them and provide stability during our growth stage.

Generally, the compensation of our executive officers is composed of a base salary, an annual incentive compensation award and equity awards in the form of stock options or stock grants. In setting base salaries, the Compensation Committee reviewed the individual contributions of the particular executive. The management incentive program for 2006 is a discretionary award determined by the Compensation Committee based on company performance. In addition, stock options are granted to provide the opportunity for long-term compensation based upon the performance of our common stock over time.

For each of our named executive officers, the Compensation Committee reviews and approves all elements of compensation taking into consideration recommendations from our principal executive officer (for compensation other than his own), as well as competitive market guidance provided at the request of the Compensation Committee.

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form DEF 14A

We have designed our management incentive program so that bonuses paid thereunder will qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). Given the compensation cost to us of awarding stock options under recent accounting pronouncements, we will consider the size and frequency of any future stock option awards under our long-term equity incentive program.

Base Salaries

We provide the opportunity for our named executive officers and other executives to earn a competitive annual base salary. We provide this opportunity to attract and retain an appropriate caliber of talent for the position, and to provide a base wage that is not subject to our performance risk. We review base salaries for our named executive officers annually in January and increases are based on our performance and individual performance. The salary of our principal executive officer is set by our Compensation Committee.

Cash Incentives

We provide the opportunity for our named executive officers and other executives to earn cash incentive awards. We provide this opportunity to attract and retain an appropriate caliber of talent for the positions and to motivate executives to achieve our annual business goals. We plan to review cash incentive awards for our named executive officers and other executives annually in March to determine award payments for the last completed fiscal year, as well as to establish award opportunities for the current fiscal year.

Awards are subject to the compensation committee's discretion and may take into account corporate performance measures, including, but not limited to, revenues, EBITDA and net income. The compensation committee establishes award criteria, generally, as a percentage of annual growth.

For the year ended December 31, 2006, John Kang, Chairman of our board of directors was eligible to receive cash awards under the 2006 management incentive program based on revenue and profit growth over 2005. Mr. Kang was eligible for cash awards of 5% of revenues that exceeded annual revenues in 2005. The awards were subject to final approval by the Compensation Committee based on the overall performance of our company. There were no such awards declared or paid to our named executive officers during 2006. Awards for 2007 will be discretionary for our executive officers for final approval by the Compensation Committee.

In setting the target bonus amounts, our board of directors takes into consideration the fact that our named executive officers have significant equity interests in our company through direct ownership of shares or prior option grants, which already provide them with performance incentives.

Equity-Based Compensation

Our equity-based awards to our executive officers consist principally of stock options granted from time to time under our 2002 Equity Incentive Plan and our 1996 Stock Option Plan. Stock option grants are based on various factors, including the executive officer's position, responsibility and tenure, each executive officer's ability to contribute to our future success, and the other elements of such executive officer's compensation. Generally, we use equity-based compensation to better align the interests of our executive officers with those of our stockholders.

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form DEF 14A

For our named executive officers, our stock option program is based on grants that are individually negotiated in connection with employment agreements and other grants to our executives. We have traditionally used stock options as our form of equity compensation because stock options provide a relatively straightforward incentive for our executives, result in less immediate dilution of existing stockholders' interests and, prior to our adoption of FAS 123(R), resulted in less compensation expense for us relative to other types of equity awards. During 2006, all grants of stock options to our employees were granted with exercise prices equal to or greater than the fair market value of our common stock on the respective grant dates.

We do not time stock option grants to executives in coordination with the release of material non-public information. Our stock options have a 10-year contractual exercise term or 5-year contractual term if the optionee owns more than 10% of voting power of our company. In general, the option grants are also subject to the following post-termination and change in control provisions:

Event	Award Vesting	Exercise Term
Termination by Us Reason Other than Cause, Disability or Death	Forfeit Unvested (1)	3 months from Date of Termination (1)
Disability or Death	Forfeit Unvested	12 months from Date of Termination
Termination for Cause	Forfeit Vested and Unvested	
Other Termination	Forfeit Unvested	90 days from Date of Termination
Change in Control	Accelerated (2)	Accelerated (2)

(1) Options granted under the 2002 Non-employee Director Option Plan will continue to vest and be exercisable for 12 months following the termination.

(2) The board of directors may, at its discretion, amend vesting rights including granting additional shares in case of mergers or reorganizations for anti-dilution purposes.

The vesting of certain of our named executive officers' stock options may be accelerated pursuant to the terms of their employment agreements in certain termination and/or change in control events. These terms are more fully described below in EXECUTIVE COMPENSATION Employment Agreements and EXECUTIVE COMPENSATION Potential Payments upon Termination or Change in Control.

Executive Benefits and Perquisites

We provide the opportunity for our named executive officers and other executives to receive certain perquisites and general health and welfare benefits. We also offer participation in our defined contribution 401(k) savings plan. We do not match employee contributions under our 401(k) plan. Participation in general health and welfare benefits and the 401(k) plan are voluntary and are available to all eligible employees of our company. We provide these benefits to provide an additional incentive for our executives and to remain competitive in the general marketplace for executive talent. For the last completed fiscal year, perquisites other than general health and welfare benefits consisted of car payment reimbursements provided to John Kang, Chairman of our board of directors, and CK Cho, one of our directors.

Set forth below is information regarding the compensation earned by or paid or awarded to the following executive officers of our company during the year ended December 31, 2006: (i) Larry Buffington, our President and Chief Executive Officer; (ii) Young Ham, our former Chief Financial Officer; and (iii) John Kang, Chairman of our board of directors, (iv) James Kang, a former founder and director of our company, and (v) Ricardo Salas, former President and Chief Executive Officer of our company, which persons are our principal executive officer, principal financial officer, and our three most highly compensated executives whose total compensation exceeded \$200,000 other than our principal executive officer and principal financial officer, who were serving as executive officers at December 31, 2006. Beginning January 1, 2007, the annual base salary which Mr. Kang is eligible to receive was increased to \$300,000 per year.

401(k) Savings Plan

We have adopted a tax-qualified employee savings and retirement plan, or 401(k) plan, that covers all of our employees. Pursuant to our 401(k) plan, participants may elect to reduce their current compensation, on a pre-tax basis, by up to 15% of their taxable compensation or of the statutorily prescribed annual limit, whichever is lower, and have the amount of the reduction contributed to the 401(k) plan. The 401(k) plan permits us, in our sole discretion, to make additional employer contributions to the 401(k) plan. However, we do not currently make employer contributions to the 401(k) plan and may not do so in the future. As such, contributions by employees or by us to the 401(k) plan, and the income earned on plan contributions, are not taxable to employees until withdrawn from the 401(k) plan, and we can deduct our contributions, if any, at the time they are made.

Pension Benefits

We do not sponsor any qualified or non-qualified defined benefit plans.

Nonqualified Deferred Compensation

We do not maintain any non-qualified defined contribution or deferred compensation plans. The compensation committee, which is comprised solely of outside directors as defined for purposes of Section 162(m) of the Code, may elect to provide our officers and other employees with non-qualified defined contribution or deferred compensation benefits if the compensation committee determines that doing so is in our best interests. We sponsor a tax qualified defined contribution 401(k) savings plan.

Potential Payments upon Termination or Change in Control

Potential payments payable to our executive officers upon termination of employment following a change in control of us is discussed under EXECUTIVE COMPENSATION Employment Agreements . The Compensation Committee of our board of directors may, at their discretion, amend or add benefits to these arrangements as they deem advisable.

The table below presents estimates of the amounts of compensation payable to each named executive officer upon a change in control and termination of the executive. The amounts shown assume that such a change in control and termination were both effective as of December 31, 2006. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with Related Persons

In June 2003, we entered into an exclusive, ten-year license agreement with LLPG, Inc. (LLPG), a corporation headed by Jack Chitayat, a former director of our company. Under the terms of the agreement, LLPG has the right to commercialize Liquidmetal alloys, particularly precious-metal based compositions, in jewelry and high-end luxury product markets. Our company, in turn, will receive royalty payments over the life of the contract on all Liquidmetal products produced and sold by LLPG. In conjunction with its technology licensing contract, LLPG purchased two proprietary Liquidmetal alloy melting machines and three proprietary Liquidmetal alloy casting machines for a total purchase price of \$2.0 million. We recognized \$0.1 million of revenues as minimum royalty fees under the license agreement during the year ended December 31, 2006.

In December 2006, we entered into an amended license agreement with LLPG, which extends the license agreement to fifteen years at reduced royalty rates. Additionally, the amended license agreement includes a \$0.4 million fee to be paid out in quarterly installments in 2007. The fee will be recognized as revenue when received in 2007.

We have a license agreement with California Institute of Technology (Caltech) under which we exclusively license from Caltech certain inventions and technology relating to amorphous alloys. Professor William Johnson, a member of our board of directors, is a professor at Caltech, and substantially all of the amorphous alloy technology licensed to us under the Caltech license agreement was developed in Professor Johnson's Caltech laboratory. Additionally, we reimburse Caltech for laboratory expenses incurred by Professor Johnson's Caltech laboratory, which during the years ended December 31, 2006 and 2005, amounted to \$0.1 million and \$20 thousand, respectively.

Additionally, we are a party to a consulting agreement with Mr. Johnson. Under this agreement, Mr. Johnson provides consulting services on an as-needed basis through 2004 as it relates to marketing and development of the Liquidmetal alloy. During 2005, the agreement continued on a month to month basis. In April 2006, we entered into an agreement with Mr. Johnson effective from January 1, 2006 through December 31, 2006. During the years ended December 31, 2006 and 2005, we incurred \$0.1 million and \$15 thousand in consulting fees from Mr. Johnson, respectively.

We are a party to a consulting agreement with Chitnis Consulting, Inc., which is owned 100% by Shekhar Chitnis, a former director and executive officer of our company. Under this agreement, we engaged Chitnis Consulting to provide consulting services on an as-needed basis through December 31, 2005. On January 1, 2006, the term of the agreement was extended to December 31, 2006 and on January 1, 2007, the term of the agreement was once again extended to December 31, 2007. During the years ended December 31, 2006, 2005 and 2004, we incurred \$0, \$0.1 million and \$0.1 million in consulting fees from Chitnis Consulting, respectively.

Soo Buchanan, the sister of John Kang and James Kang, was employed by us and was paid aggregate compensation of approximately \$0 and \$0.1 million during the years ended December 31, 2006 and 2005, respectively. Effective July 31, 2005, Ms. Buchanan was terminated as an employee and began providing services to us as a consultant. During 2006, 2005 and 2004, we incurred \$0.1 million, \$24 thousand and \$0, respectively, for her services as a consultant. Additionally, Otis Buchanan, the husband of Ms. Buchanan, was employed by us and was paid aggregate compensation of approximately \$32 thousand as of both March 31, 2007 and 2006, and \$0.1 million as of December 31, 2006, 2005 and 2004.

In November 2004, we entered into an agreement with John Kang, Chairman of our board of directors, in which Mr. Kang agreed that certain stock transactions by him in 2002 involving our common stock should have resulted in a liability under Section 16(b) of the Securities Exchange Act of 1934, as amended (Section 16(b)). These transactions include Mr. Kang s private sale of 285,715 shares of his personal Liquidmetal Technologies common stock to Growell Metal Co., Ltd. in February 2002, prior to our initial public offering. They also include Mr. Kang s subsequent indirect purchase and disposition of Liquidmetal Technologies common stock in order to satisfy a personal agreement Mr. Kang made to Growell Metal in February 2002 regarding the guaranteed minimum value of the stock purchased by Growell Metal in February 2002 (the purchases and dispositions incident to this agreement occurred in August and November 2002, respectively). Lastly, the transactions include open-market purchases of an aggregate of 89,300 shares of our company s common stock made by Mr. Kang in August 2002.

The Audit Committee of our board of directors conducted an independent inquiry into the above-described transactions with the aid of independent legal counsel and, as a result of such inquiry, the Audit Committee concluded that the transactions should have resulted in a liability to us under Section 16(b) in the amount of \$0.3 million. Mr. Kang has acknowledged this liability, and in an agreement negotiated between Mr. Kang and the Audit Committee and approved by the full board of directors, Mr. Kang will pay this liability through periodic installments in 2005 and 2006. As a result, we accrued for the \$0.3 million receivable in other assets and other income as of December 31, 2004. The above-described transactions involving Growell Metal was reported on a new Form 4 filed by Mr. Kang on November 15, 2004, and the open-market purchases were previously reported on a timely basis in August 2002. As of December 31, 2006, the outstanding amount of the receivable was \$0.2 million. Subsequent to December 31, 2006, \$0.1 million of Mr. Kang s base salary was applied against the receivable.

During the year ended December 31, 2005, we executed a \$0.2 million promissory note with CK Cho, a member of our board of directors, for working capital purposes. The note was due and paid in full as of June 20, 2005. The note had an annual rate of interest of 6% resulting in us paying approximately \$2 thousand in interest. Further, during the year ended December 31, 2005, Mr. Cho advanced approximately \$1.3 million to cover short-term liquidity needs. The advance were made without interest and were repaid as of December 31, 2005. As of both December 31, 2006 and 2005, Mr. Cho held \$0.6 million of Senior Convertible Notes and holds 92,584 exercisable warrants.

During the year ended December 31, 2005, Ricardo Salas, our former President and Chief Executive Officer, and Young Ham, our former Chief Financial Officer, advanced us \$0.1 million and \$0.1 million to cover short-term liquidity needs, respectively. The advances were made without interest and were repaid as of December 31, 2005. During the year ended December 31, 2006, Mr. Salas advanced us \$0.6 million to cover short-term liquidity needs. We paid \$0.1 million to Mr. Salas using 7.75% interest rate and, on December 1, 2006, the remaining balance of \$0.5 million and its accrued interest of \$9 thousand was converted into the 8% Unsecured Subordinated Notes. Effective January 1, 2007, Mr. Salas began providing services to us as a consultant. During the year ended December 31, 2006 Mr. Salas held \$0.3 million of Senior Convertible Notes and \$0.6 million of Unsecured Subordinated Notes as well as a total of 154,529 exercisable warrants.

During 2006, we purchased production supplies and molds from Grace Metal, Lead Metal, and SDM, which are controlled by an investor group which includes James Kang, a former director and officer of our company. Mr. Kang is also a brother of John Kang, Chairman of the board of directors of our company. We purchased a total of \$0.1 million for the three months ended March 31, 2007, of which \$0.1 million is included in accounts payable and accrued liabilities as of March 31, 2007. We purchased a total of \$0.5 million for the year ended December 31, 2006, of which, \$10 thousand is included in accounts payable and accrued liabilities at December 31, 2006. Effective October 20, 2006, Mr. Kang began providing services to our company as a consultant. During 2006, we incurred \$33 thousand for his services as consultant.

During the second quarter of 2007, we entered into a transaction with Grace Metal, a South Korean corporation (GM), under which (i) GM agreed to purchase from us various equipment (including die casting machines and vacuum induction melters) used in our bulk amorphous alloy business segment and (ii) we granted GM a 10-year exclusive license to manufacture products made from bulk Liquidmetal alloys for customers whose principal headquarters or whose major operations are located in the South Korea. The principal purposes

of the transaction (GM Transaction), which closed on June 1, 2007, were to raise capital for us, to shift the cost and burden of our South Korean manufacturing operations to a third party as we prepare to shift manufacturing activities to China, and to provide a way to dispose of older casting equipment as we prepare to implement next-generation casting equipment. Under an equipment purchase agreement between us and GM, GM agreed to buy the purchased equipment for a total purchase price of \$2.0 million, of which \$0.4 million is due in June 2007, with the balance being payable upon the commissioning of the purchased equipment, which we anticipate will be completed on or around the end of the first quarter of 2008. The equipment purchase agreement provides that delivery of the equipment can be delayed to accommodate our continuing manufacturing needs, and it also provides that we will retain a security interest in the purchased equipment until full payment of the purchase price.

In consideration of the license agreement with GM, we will be entitled to royalty of 10% of GM's net sales of licensed products (unless GM's margin on the products falls below specified levels, in which case a new royalty will be negotiated in good faith). The agreement provides that we may convert the license to a non-exclusive license in the event that the net sales in the second year of the contract or thereafter are not sufficient to result in royalties of \$0.5 million or more per year. The agreement also provides that GM will be required to purchase all alloy feedstock from us, and we will have the right to continue to manufacture Liquidmetal alloy products for South Korean customers until all purchased equipment has been commissioned.

Additionally, effective June 1, 2007, we discontinued our post-processing operation in Weihai, China and transferred our manufacturing staff and equipment in Weihai to GM under an amendment to the equipment purchase agreement with GM. Further, we transferred certain of our manufacturing staff from our South Korean plant to GM. As a result, GM assumed \$0.4 million of accrued severance liability for the transferred employees. GM was formed by an investor group that includes the former founder and director of our company, James Kang, who is also the brother of John Kang, Chairman of the board of directors of our company. We have also changed the name of our South Korean subsidiary to Liquidmetal Technologies Korea Co., Ltd, which was formerly Liquidmetal Korea Co., Ltd. GM will assume the name of Liquidmetal Korea to conduct business in South Korea.

We believe that each of the foregoing transactions was consummated on terms at least as favorable to us as we would expect to negotiate with unrelated third parties.

Review, Approval or Ratification of Transactions with Related Persons

Our policy is to require that any transaction with a related party required to be reported under applicable SEC rules, other than compensation-related matters, be reviewed and approved or ratified by our Audit Committee. Our Audit Committee has not adopted procedures for review of, or standards for approval of, these transactions, but instead reviews such transactions on a case by case basis. Our policy is to require that all compensation-related matters be recommended for board approval by our Compensation Committee. During the last fiscal year, no transactions with a related party have occurred that required a waiver of this policy nor have any transactions with a related party occurred in which we did not follow this policy.

INDEPENDENT PUBLIC ACCOUNTANTS

Choi, Kim & Park, LLP (CKP) served as our independent public accountants during the year ended December 31, 2006. In addition, CKP has been selected to serve as our independent public accountants for the 2007 fiscal year. We expect that representatives of CKP will be present at the annual meeting, will have an opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions from stockholders.

Change of Independent Public Accountants

Stonefield Josephson, Inc. (Stonefield) was engaged in May 2004 and served as our independent public accountants during the years ended December 31, 2003 and 2004, and through December 1, 2005.

On November 23, 2005, Stonefield notified us that it would resign as our independent registered public accounting firm upon the completion of its review of our interim unaudited financial statements as of and for the three and nine month periods ended September 30, 2005. Our interim unaudited financial statements as of and for the three and nine month periods ended September 30, 2005 were included in our report on Form 10-Q for the third quarter ended September 30, 2005 filed with the Securities and Exchange Commission on December 1, 2005, and our relationship with Stonefield was therefore effectively terminated as of December 1, 2005.

The reports of Stonefield with respect to our financial statements for the fiscal years ended December 31, 2003 and 2004 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles, except for an explanatory paragraph regarding our ability to continue as a going concern contained in Stonefield's report on our financial statements and for a disclaimer of opinion made by Stonefield with respect to our internal controls over financial reporting and our assessment of those controls as of December 31, 2004.

From May 21, 2004, the date Stonefield was appointed as our independent auditors, through the date of Stonefield's resignation, there were no disagreements between us and Stonefield on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Stonefield, would have caused Stonefield to make reference to the subject matter of the disagreements in connection with its report on our financial statements for such years.

There were no reportable events as described under Item 304(a)(1)(v) of Regulation S-K occurring within the fiscal years ended December 31, 2004 and 2003 or within the subsequent interim period through the date of Stonefield's resignation, except as follows:

Stonefield advised us that there were material weaknesses in our internal controls, mainly related to internal controls of our South Korean operations. Therefore, Stonefield expanded the scope of its review of the interim unaudited financial statements as of and for the three and nine month periods ended September 30, 2005. The material deficiencies in our internal controls over financial reporting included the following:

- a) Lack of adequate segregation of duties in our South Korean operations in accounts receivable, involving cash receipts, shipping, delivery of products, and customer invoice reconciliations;

- b) Lack of adequate segregation of duties in our Coatings Division in Texas in order processing and invoicing;

- c) Lack of adequate controls and documentation in our South Korean operations to evidence proper customer invoicing and revenue recognition in the proper period;

- d) Lack of progress in documenting, assessing and evaluating our internal controls in our South Korean Operations evidenced by the aforementioned deficiencies of which remediation would need to be completed as of December 31, 2005;

- e) Lack of sufficient controls over internal access to our SAP system of reporting by unauthorized users; and

- f) The manual performance of numerous procedures that could be automated using current reporting systems.

In connection with the foregoing, Stonefield also advised us that it believed that we had made insufficient progress in documenting, assessing, and evaluating our internal controls over financial reporting for purposes of timely complying with Section 404 of the Sarbanes-Oxley Act of 2002.

Our Audit Committee discussed with Stonefield the matters disclosed above regarding Stonefield's resignation. We authorized Stonefield to respond fully to the inquiries of our successor accountant concerning the matters disclosed above.

Upon Stonefield's resignation, our Audit Committee commenced an immediate search and on January 20, 2006, hired CKP as our new registered independent public accounting firm.

As of December 31, 2006, we had completed our documentation, assessment, and evaluation of our internal controls over financial reporting and had complied with Section 404 of the Sarbanes-Oxley Act of 2002.

Audit Committee Pre-Approval Policies

REPORT OF THE AUDIT COMMITTEE

The Audit Committee has:

- (1) reviewed and discussed the Company's audited financial statements with management;
- (2) discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 61, as amended; and
- (3) received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1, and has discussed with the independent accountant the independent accountant's independence.

Based on the review and discussions described above, the Audit Committee recommended to the board of directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.
