PRESS RELEASE

CNOOC Limited Successfully Commenced Its Largest Independent Gas Field

(Hong Kong, September 23, 2003) CNOOC Limited (the "Company"; NYSE: CEO, SEHK: 883) today announced the successful commencement of Dongfang (DF) 1-1 Phase I, the Company's largest independent gas field.

About 110 kilometers offshore from Dongfang City of Hainan Province, DF 1-1 field is located in Yinggehai of Beibu Gulf in the Western South China Sea. The average water depth is about 70 meters.

DF1-1 is scheduled to be developed in two phases. Phase I consists of a central platform, a production platform and an onshore processing terminal. With 12 production wells, the designed production capacity of Phase I is about 154.8 million cubic feet per day. Phase II, however, is expected to increase the production capacity of the field to 232 million cubic feet per day upon its completion. Phase II development is currently subject to acceleration and is expected to be completed in 2006, rather than 2008 as originally contemplated.

Natural gas from DF 1-1 Phase I will be piped to Hainan Province for customers including fertilizer plant, power plant and city gas.

Mr. Wei Liucheng, Chairman and CEO of CNOOC Limited commented, "The startup of gas field DF1-1 represents another milestone in the successful execution of our gas strategy. The field will provide feedstock and clean energy to Hainan while adding production and cash flow to shareholders."

"It's a positive development for the Company. It helps us make up production shortfall from the other gas field we own," commented Mr. Zhou Shouwei, President of the Company.

CNOOC Limited is the operator and has a 100% interest in the field.

Notes to Editors:

CNOOC LIMITED - BACKGROUND

Incorporated in Hong Kong in August 1999, CNOOC Limited (SEHK: 883; NYSE: CEO) is the dominant producer of crude oil and natural gas offshore China. CNOOC Limited is also one of the largest independent crude oil and gas exploration and production companies in the world. As of December 31, 2002, its net proved reserves were 2.0 billion barrels-of-oil equivalents and its net production averaged 346,639 BOE per day in 2002.

CNOOC Limited has interests in 45 crude oil and gas properties in four major producing areas: Bohai Bay, Western South China Sea, Eastern South China Sea and East China Sea. The Company is a major oil and gas company in China with slightly over 1,000 employees. The Company has become the largest offshore producer in Indonesia after the acquisition of Indonesian assets.
