BANKENGINE COMPLETES ACQUISITION OF SYSCAN, INC.

San Jose, CA, April 2, 2004 - BankEngine Technologies, Inc. (OTC Bulletin Board: SYII) today announced that it has completed the acquisition of 100% of the issued and outstanding capital stock of Syscan, Inc. and has acquired an option to purchase 100% of the issued and outstanding capital stock of Syscan Manufacturing Limited. In connection with the acquisition of the capital stock of Syscan, Inc. the Company has changed its name to Syscan Imaging, Inc., has effected a 1-for-10 reverse split of its common stock and has issued 20,859,459 shares of its common stock to the sole shareholder of Syscan, Inc., Syscan Imaging Limited, which is a wholly-owned subsidiary of Syscan Technology Holdings Limited a Hong Kong Stock Exchange listed company.

Effective with the opening of trading today, the Company's new trading symbol on the OTC Bulletin Board will be SYII.

Darwin Hu has been appointed Chairman, President and Chief Executive Officer of the Company, and Wai Cheung, Peter Mor and Lawrence Liang have been appointed as directors of the Company and Stephen Yim has been appointed Chief Financial Officer. Michael Xirinachs, former Chairman and CEO of BankEngine will remain as a director of the Company.

About Syscan, Inc.

Syscan Inc. was founded in Silicon Valley in 1995 to develop and manufacture a new generation of CIS (CMOS- Complimentary Metal Oxide Silicon) imaging sensor devices. During the late 1990's, the company established many technical milestones and was granted numerous patents based on their linear imaging technology (Contact Image Sensors). Syscan's patented CIS and mobile imaging scanner technology provides very high quality images but at extremely low power consumption, allowing it to manufacture very compact scanners in a form ideally suited for the mobile computer user who needs to scan documents while away from their office.

Edgar Filing: BANKENGINE TECHNOLOGIES INC - Form 8-K

This "enabling" technology is found in a variety of applications such as documents management, ID card and passport security scanners, bank note/check verification, business card readers, scanning 2D bar codes and optical mark readers used in lottery terminals. Syscan has grown to be one of the largest OEM -- private label manufacturers of mobile scanning systems for a large number of major brands such as PENTAX, COREX, DIGIMARC, VISIONEER, DATACOLOR, SCANSOFT, NORTEK and OMRON. Syscan's vertically integrated design and manufacturing model allows rapid time-to-market for these leading companies. Syscan's manufacturing is completed at an affiliated China-based facility which provides a low-cost manufacturing base for these industrial and consumer products.

In 2002, Syscan began to design a line of innovative new products targeted toward the flat-panel display market. These products dramatically improved the video image quality on LCD displays implementing advanced digital image processing and display control techniques. Much of the technology within these display imaging products have commonality with the linear imaging devices, providing strong technical overlap of personnel and resources. This new display control technology creates a tremendous value point in the flat-panel television entertainment and video-centric markets, which Syscan intends to target.

"Safe Harbor" statement under the Private Securities Litigation Reform Act of 1995: Except for historical information, all of the statements, expectations and assumptions contained in the foregoing are forward looking statements that involve a number of risks and uncertainties. It is possible that the assumptions made by management are not necessarily the most likely and may not materialize and there can be no assurance that the Company will acquire Syscan Manufacturing Limited. In addition, other important factors that could cause actual results to differ materially include the following: business conditions and the amount of growth in the computer industry and general economy; competitive factors; ability to attract and retain personnel, including key sales and management personnel; the price of the Company's stock; and the risk factors set forth from time to time in the Company's SEC reports, including but not limited to its annual report on Form 10-KSB and its quarterly reports on Forms 10-QSB; and any reports on Form 8K. The Company takes no obligation to update or correct forward-looking statements.
