Internet Gold Acquires 50% of TIPO, Israel's Leading Children's Portal

Tuesday August 23, 1:00 am ET

PETACH TIKVA, Israel, August 23 /PRNewswire-FirstCall/ -- Internet Gold (NASDAQ: IGLD - News) today announced that Goldmind, Internet Gold's subsidiary, has acquired a 50% interest of Hype Active Media Ltd ordinary shares ("Hype") and 50.1% of Hype's management shares. Hype is the owner and operator of TIPO (tipo.co.il), Israel's leading children's portal. In July 2005, TIPO achieved approximately 30 million page views, making it Israel's highest rated portal targeting children aged 8-15. Hype's founders will continue to hold the remaining of Hype's shares, and to take an active role in its operations. Mr. Eli Holtzman, CEO of Internet Gold, has been named the company's new chairman.

"This acquisition is another step in our efforts to expand Internet Gold's leadership position in Israel's rapidly growing Internet Advertising market," said Mr. Eli Holtzman, CEO of Internet Gold, who has been named the company's new chairman. "With Internet Advertising already accounting for about 4% of Israel's total advertising expenditures, advertisers are recognizing the benefits of this highly-targeted media, and TIPO offers them a superb channel for reaching a highly desirable demographic. By bringing Internet Gold's experienced sales organization to this proven channel, we believe we will be able to expand the revenues of both organizations significantly."

Launched in 2003, TIPO offers a broad selection of exciting content and youth-oriented applications, including web-based e-mail, instant messaging, chat-rooms and forums, as well as personal website building and hosting services. During July 2005, approximately 551,000 individual users visited TIPO.

Mr. Holtzman added, "In addition to advertising, TIPO has established additional revenue streams, including the sale of cellular content to its users. This ideally positions TIPO to address the growing icon and ringtone download market, which we believe will continue to experience rapid growth -- especially in Israel where the penetration of cellular phones is above 100%. We are confident that TIPO will immediately begin to contribute to our revenues and profits in the third quarter and are very pleased with this acquisition."

About Internet Gold

Internet Gold is a communications company that provides Internet access and related value-added services, international telephony, e-advertising, content and e-Commerce services throughout Israel to both residential and business customers.

Internet Gold's operations are carried out through four subsidiaries. Through MSN Israel, its (50.1% owned) joint-venture with Microsoft Corp. (49.9% owned), the Company operates several of Israel's Internet portals. Its fully-owned subsidiary, Internet Gold International, specializes in the provision of international Internet and communication services. Its fully-owned subsidiary,

Edgar Filing: INTERNET GOLD GOLDEN LINES LTD - Form 6-K

GoldMind, focuses on the provision of Internet value-added services. Through GoldTrade, its fully-owned e-commerce subsidiary, the Company has established itself as one of Israel's leading e-commerce providers.
