EATON VANCE MUNICIPAL INCOME TRUST

EATON VANCE MUNICIPAL INCOME TRUST AS OF MAY 31, 2002
LETTER TO SHAREHOLDERS

[PHOTO OF THOMAS J. FETTER]
Thomas J. Fetter
President

Of the many variables confronting the municipal bond investor, few are as crucial to performance as maintaining good call protection. Most municipal bonds include call provisions, which outline the terms under which the bond issuer can redeem the bond prior to its stated maturity date. While these provisions increase the issuer's financial flexibility, they create an ongoing challenge for municipal bond investors.

CALL PROTECTION IS CRITICAL TO DELIVERING A CONSISTENT DIVIDEND...

As most investors know, fund dividends are subject to changes in the prevailing interest rate level. As rates decline, fund dividends understandably reflect those fluctuations. However, call provisions permit bond issuers to refinance their outstanding debt, under specific terms and timing, in much the same way a homeowner refinances a mortgage. Not surprisingly, these calls can be disruptive for investors, who may be forced to re-invest the proceeds of a called bond at lower rates. Therefore, prudent investors strive to maintain adequate call protection in an effort to insulate the portfolio from these untimely disruptions and thereby provide a more predictable income stream.

AMPLE CALL PROTECTION ENHANCES THE POTENTIAL FOR CAPITAL APPRECIATION...

Price performance is another compelling reason to maintain adequate call protection. As most investors know, bond prices rise as interest rates decline. That is, bond investors will pay more for a bond as interest rates fall below the bond's existing coupon. Because it responds to declining rates, such a bond is said to have "positive convexity."

However, investors will NOT pay as much for a bond - even if rates are falling - if that bond is likely to be called. As a bond approaches the point where it is likely to be called, it tends to trade nearer its call price, usually par or a modest premium. As a result, this tends to impede the callable bond's upside performance. In effect, the callable bond has lost its positive convexity and is now said to have "negative convexity," meaning it will be significantly less responsive to declining interest rates.

[CHART]

The chart above demonstrates this relationship. Note that as yields decline

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

to point Y - the point where investors start to anticipate an imminent call - the price performance of the callable bond tends to "roll-off," and thus lag that of the non-callable bond. While it is difficult to pinpoint precisely when this "roll-off" will occur, bonds with ample call protection are generally considered less susceptible to this phenomenon than bonds with waning call protection.

CALL PROTECTION IS A MAJOR ADVANTAGE OF MUNICIPAL BOND MUTUAL FUNDS...

While call features can have a profound influence on income and price performance, these nuances may be overlooked by the individual investor, a fact that can put the individual at a serious disadvantage. At Eaton Vance, call provisions remain a prime strategic consideration for our fund managers and analysts. We monitor our portfolios and individual bonds and make periodic adjustments to update call protection, as necessary. Together with diversification, in-depth research and professional management, we believe that continuously updated call protection represents yet another major advantage for the mutual fund investor.

Sincerely,
/s/ Thomas J. Fetter

MANAGEMENT DISCUSSION

[PHOTO OF THOMAS M. METZOLD]
Thomas M. Metzold
Portfolio Manager

INVESTMENT ENVIRONMENT

- While the recession of 2001 proved shallow and of short duration, the economy has struggled in the first half of 2002 to generate a recovery of any significance. Companies have remained reticent to resume capital spending and have managed inventories very conservatively. Although consumer confidence has improved significantly, recent reports suggest that Americans are increasingly resigned to a slow-paced recovery.
- The Federal Reserve, which signaled late in 2001 that it would likely raise rates, has since suggested a less hawkish stance. That ambiguity has been reflected in the bond market, whose prices move in the opposite direction of interest rates. Against this backdrop, the municipal bond market has continued to register solidly positive returns. The Lehman Brothers Municipal Bond Index - a broad-based, unmanaged index of municipal bonds - posted a total return of 2.56% for the six months ended May 31, 2002.(1)

THE TRUST

PERFORMANCE FOR THE PAST SIX MONTHS

- Based on share price (traded on the New York Stock Exchange), the Trust had a total return of 9.46% for the six months ended May 31, 2002. That return was the result of an increase in share price from \$13.50 on November 30, 2001 to \$14.24 on May 31, 2002, and the reinvestment of \$0.491 in regular monthly dividends.(2)
- Based on net asset value, the Trust had a total return of 2.41% for the six months ended May 31, 2002. That return was the result of a decrease in net

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

asset value per share from \$12.93 on November 30, 2001 to \$12.76 on May 31, 2002, and the reinvestment of \$0.491 in regular monthly dividends.

- Based on the most recent dividend and a share price of \$14.24 the Trust had a market yield of 7.25% at May 31, 2002.(3) The Trust's market yield is equivalent to a taxable yield of 11.81%.(4)

MANAGEMENT DISCUSSION

- The municipal market responded well to the sluggish recovery. Municipal bonds have also benefited from the disappointing performance of the stock market and a less-than-robust outlook for equities in the coming year. Moreover, municipals have received an additional boost from efforts within Congress and a number of state legislatures to roll back previous tax cuts. With the possibility of higher tax rates, municipal bonds hold added appeal for investors.
- Hospital bonds remained a significant focus of the Trust's investment strategy. Because the national hospital market remains intensely competitive, the Trust focused on well-positioned institutions, while diversifying among issuers across the country.
- Industrial development revenue bonds (IDRs), particularly in the airline sector, provided some compelling opportunities for the Trust. In a weaker economy, management has remained very selective and emphasized diversification within the IDR segment.

PERFORMANCE (6)

Average Annual Total Returns (by market value, New York Stock Exchange)

One Year	22.21%
Life of Trust (1/29/99)	4.83%

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

Average Annual Total Returns (at net asset value)

One Year	9.95%
Life of Trust (1/29/99)	1.44%(3)

RATING DISTRIBUTION(5)
By total investments

[CHART]

AAA	40.8%
AA	5.9%
A	6.6%
BBB	17.6%
BB	0.7%
CCC	0.5%
Non-Rated	27.9%

- (1) It is not possible to invest directly in an Index.
 - (2) A portion of the Trust's income may be subject federal and state income tax and/or federal alternative minimum tax.
 - (3) The Trust's market yield is calculated by dividing the most recent dividend per share by the share price at the end of the period and annualizing the result.
 - (4) Taxable-equivalent yield assumes maximum 38.6% federal income tax rate. A lower rate would result in a lower tax-equivalent figure.
 - (5) Rating Distribution and 5 Largest Categories are determined by dividing the total market value of the holdings by the total net assets of the Trust. Rating Distribution and 5 Largest Categories are subject to change.
 - (6) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested.
- * Private insurance does not remove the risk of loss of principal associated with insured investments due to changes in market conditions.

Past performance is no guarantee of future results. Investment return and market price will fluctuate so that shares, when sold, may be worth more or less than their original cost.

AMT - Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

At May 31, 2002, the concentration of the Trust's investments in the various states, determined as a percentage of net assets, is as follows:

Texas	23.6%
Illinois	17.0%
California	10.9%
Colorado	10.4%
Others, representing less than 10% individually	97.6%

The Trust invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2002, 34.0% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by financial institutions ranged from 1.8% to 16.9% of total investments.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

- (1) The Trust has adopted the provisions of the revised AICPA Audit and Accounting Guide for Investment Companies and began using the interest method to amortize premiums on fixed-income securities. The effect of this change for the six months ended May 31, 2002 was to increase net investment income per share by \$0.005, increase net realized and unrealized losses per share by \$0.005, increase the ratio of net investment income to average net assets applicable to common shares from 9.77% to 9.86% and increase the ratio of net investment income to average total net assets from 6.01% to 6.06%. Per share data and ratios for the periods prior to December 1, 2001 have not been restated to reflect this change in presentation.
- (2) Computed using average common shares outstanding.
- (3) For the period from the start of business, January 29, 1999, to November 30, 1999.
- (4) Total return is calculated assuming a purchase at the current market price on the first day and a sale at the current market price on the last day of each period reported. Dividends and distributions, if any, are assumed reinvested at the net asset value on the reinvestment date. Total return is not computed on an annualized basis.
- (5) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets attributable to common shares reflect the Trust's leveraged capital structure.
- (6) Annualized.
- (7) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets, and dividing this by the number of preferred shares outstanding.
- (8) Plus accumulated and unpaid dividends.

11

EATON VANCE MUNICIPAL INCOME TRUST AS OF MAY 31, 2002

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1 Significant Accounting Policies

Eaton Vance Municipal Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The Trust was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated December 10, 1998. The Trust's investment objective is to achieve current income exempt from regular federal income tax by investing primarily in investment grade municipal obligations.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

- A Investment Valuation -- Municipal bonds are normally valued on the basis of valuations furnished by a pricing service. Taxable obligations, if any, for which price quotations are readily available are normally valued at the mean between the latest bid and asked prices. Futures contracts listed on the commodity exchanges are valued at closing settlement prices. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- B Investment Transactions -- Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Trust instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.
- C Income -- Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount. Effective December 1, 2001, the Trust adopted the provisions of the revised AICPA Audit and Accounting Guide for Investment Companies and began amortizing premiums on fixed-income securities using the interest method of amortization. Prior to December 1, 2001, the Trust amortized market premiums on fixed-income securities using the proportional method of amortization. The cumulative effect of this accounting change had no impact on the Trust's net assets, but resulted in a \$182,235 increase in cost of securities and a corresponding \$182,235 decrease in net unrealized appreciation, based on securities held on May 31, 2002.

The effect of this change for the six months ended May 31, 2002 was to increase net investment income by \$89,797, increase net realized loss by \$5,111, and increase net unrealized depreciation by \$84,686.

The statement of changes in net assets and financial highlights for prior periods have not been restated to reflect these changes.

- D Federal Income Taxes -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At November 30, 2001, the Trust, for federal income tax purposes, had a capital loss carryover of \$30,838,841 which will reduce the taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Trust of any liability for federal income or excise tax. Such capital loss carryover will expire on November 30, 2007 (\$10,949,210) November 30, 2008 (\$14,623,294) and November 30, 2009 (\$5,266,337). In addition, the Trust intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income taxes when received by the Trust, as exempt-interest dividends. The portion of such interest, if any, earned on private activity bonds issued after August 7, 1986, may be considered a tax preference item for investors.
- E Organization and Offering Costs -- Costs incurred by the Trust in connection with its organization have been expensed. Costs incurred by the Trust in connection with the offerings of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

shares.

F Financial Futures Contracts -- Upon the entering of a financial futures contract, the Trust is

12

EATON VANCE MUNICIPAL INCOME TRUST AS OF MAY 31, 2002

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) CONT'D

required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Trust (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by the Trust. The Trust's investment in financial futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, the Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

G Options on Financial Futures Contracts -- Upon the purchase of a put option on a financial futures contract by the Trust, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased option expires, the Trust will realize a loss in the amount of the cost of the option. When the Trust enters into a closing sale transaction, the Trust will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. When the Trust exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

H Interest Rate Swaps -- The Trust has entered into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates or as substitution for the purchase or sale of securities. Pursuant to these agreements, the Trust makes semi-annual payments at a fixed interest rate. In exchange, the Trust receives payments based on the interest rate of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Payments received or made at the end of a measurement period are recorded as realized gains and losses. The value of the swap is determined by changes in the relationship between two rates of interest. The Trust is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Trust does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates.

I Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

J Expense Reduction -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Trust maintains with IBT. All significant credit balances used to reduce the Trust's custodian fees are reported as a reduction of total expenses in the Statement of Operations.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

K Interim Financial Statements -- The interim financial statements relating to May 31, 2002 and for the six months then ended have not been audited by independent certified public accountants, but in the opinion of the Trust's management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

2 Auction Preferred Shares (APS)

The Trust issued 2,620 shares of Auction Preferred Shares Series A and 2,620 shares of Auction Preferred Shares Series B on March 1, 1999 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Effective July 10, 2001, a special dividend period of 364 days was set on the Series A shares. The dividend rate, which matures on July 9, 2002, is 2.80%. Dividend rates ranged from 1.10% to 1.85% for Series B Shares, during the six months ended May 31, 2002. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at

13

EATON VANCE MUNICIPAL INCOME TRUST AS OF MAY 31, 2002

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) CONT'D

least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws. The Trust pays annual fees equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

In accordance with the provisions of EITF D-98, "Classification and Measurement of Redeemable Securities", effective for the current period, the Trust has reclassified its APS Shares outside of permanent equity in the net assets section of the statement of assets and liabilities. In addition, distributions to APS shareholders are now classified as a component of the "Net increase in net assets from operations" on the statements of operations and statement of changes in net assets, and as a component of the "Total income (loss) from operations" in the financial highlights. Prior year amounts presented have been restated to conform to this period's presentation. This change has no impact on the net assets applicable to common shares of the Trust.

3 Distributions to Shareholders

The Trust intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding preferred shares. Distributions are recorded on the ex-dividend date. Distributions to

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the Auction Preferred Shares is generally seven days. Effective July 10, 2001, the Series A shares set a special dividend period of 364 days. The applicable dividend rate for the Auction Preferred Shares on May 31, 2002 was 2.80% and 1.50%, for Series A and Series B Shares, respectively. For the six months ended May 31, 2002, the Trust paid dividends to Auction Preferred shareholders amounting to \$922,778 and \$465,317 for Series A and Series B Shares, respectively, representing an average APS dividend rate for such period of 2.80% and 1.41%, respectively.

4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at an annual rate of 0.70% of the Trust's average weekly gross assets, was earned by Eaton Vance Management (EVM) as compensation for management and investment advisory services rendered to the Trust. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. For the six months ended May 31, 2002, the fee was equivalent to 0.70% of the Trust's average weekly gross assets and amounted to \$1,184,890. EVM also serves as the administrator of the Trust. An administration fee, computed at the annual rate of 0.20% of the average weekly gross assets of the Trust, is paid to EVM for managing and administering business affairs of the Trust. For the six months ended May 31, 2002, the administrative fee amounted to \$338,654.

Trustees of the Trust that are not affiliated with the Investment Adviser may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the six months ended May 31, 2002, no significant amounts have been deferred.

Certain officers and Trustees of the Trust are officers of EVM.

5 Investments

Purchases and sales of investments, other than U.S. Government securities and short-term obligations, aggregated \$31,891,175 and \$32,037,820, respectively, for the six months ended May 31, 2002.

6 Federal Income Tax Basis of Unrealized Appreciation (Depreciation)

The cost and unrealized appreciation (depreciation) in value of the investment owned by the Trust at May 31, 2002, as computed for Federal income tax purposes, are as follows:

AGGREGATE COST	\$342,488,870
<hr/>	
Gross unrealized appreciation	\$ 9,661,335
Gross unrealized depreciation	(16,102,500)
<hr/>	
NET UNREALIZED DEPRECIATION	\$ (6,441,165)
<hr/>	

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

7 Shares of Beneficial Interest

The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares. Transactions in common shares were as follows:

	SIX MONTHS ENDED	
	MAY 31, 2002 (UNAUDITED)	YEAR ENDED NOVEMBER 30, 2001
Shares issued pursuant to the Trust's dividend reinvestment plan	98,002	130,619
NET INCREASE	98,002	130,619

8 Financial Instruments

The Trust regularly trades in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

9 Annual Meeting of Shareholders

The Trust held its Annual Meeting of Shareholders on March 22, 2002. The following action was taken by the shareholders:

ITEM 1: The election of Norton H. Reamer, Lynn A. Stout and Jack L. Treynor as Trustees of the Trust for a three-year term expiring in 2005. Mr. Reamer was designated the Nominee to be elected solely by APS shareholders:

	NUMBER OF SHARES

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

Jack L. Treynor

16,024,541 196,597

15

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Trust's transfer agent, PFPC, Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC, Inc.

APPLICATION FOR PARTICIPATION IN DIVIDEND REINVESTMENT PLAN

This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D
