Preliminary Fourth Quarter and Financial Year 2011 Results

The Board of Frontline Ltd. (the “Company” or “Frontline”) announces a net loss attributable to the Company of \$343.7 million for the fourth quarter of 2011, equivalent to a loss per share of \$4.41, compared with a net loss attributable to the Company of \$166.2 million, equivalent to a loss per share of \$2.13, for the preceding quarter. The net loss attributable to the Company in the fourth quarter includes a loss on sale of assets and amortization of deferred gains of \$312.9 million, which includes a loss of \$307.0 million on the sale of ten vessels and five newbuilding contracts at fair market value to Frontline 2012 Ltd. (“Frontline 2012”), a loss of \$9.3 million on the termination of the long term charter party for Front Striver and deferred gains of \$1.8 million and \$2.0 million relating to the sales and leasebacks of Front Eagle and Front Shanghai, respectively. The net loss attributable to the Company in the third quarter includes a gain on sale of assets and amortization of deferred gains of \$3.8 million, which comprises the amortization of deferred gains of \$1.8 million and \$2.0 million relating to the sales and leasebacks of Front Eagle and Front Shanghai, respectively. The net loss attributable to the Company in the third quarter also includes a vessel impairment loss of \$121.4 million relating to five Suezmax vessels built between 1992 and 1996. Net loss attributable to the Company excluding losses and gains on sale of assets, amortization of deferred gains and vessel impairment loss was \$30.8 million and \$100.3 million in the fourth quarter and 2011 full year, respectively.

The average daily time charter equivalents (“TCEs”) earned in the spot and period market in the fourth quarter by the Company’s VLCCs, Suezmax tankers and Suezmax OBO carriers were \$19,100, \$13,900 and \$41,600, respectively, compared with \$17,000, \$9,500 and \$38,200, respectively, in the preceding quarter. The spot earnings for the

Company's double hull VLCCs and Suezmax vessels were \$16,800 and \$12,400, respectively, in the fourth quarter compared with \$12,600 and \$7,800, respectively, in the preceding quarter. The Gemini Suezmax pool had spot earnings of \$12,000 in the fourth quarter compared with \$7,600 in the preceding quarter. The Company's double hull VLCCs excluding the spot index time charter vessels had spot earnings of \$18,400 in the fourth quarter compared with \$14,600 in the third quarter.

Profit share in the fourth quarter related to the profit sharing agreement with Ship Finance International Limited ("Ship Finance") was income of \$0.3 million compared to income of \$1.6 million in the preceding quarter. The profit share expense is calculated on a year-to-date basis and the poor spot market in the third and fourth quarters resulted in a claw back in those quarters.

Ship operating expenses decreased by \$6.3 million compared with the preceding quarter primarily as a result of a decrease in drydocking costs of \$0.9 million, a decrease in running costs mainly due to recent sales and lease terminations and an increase in expected volume rebates.

---

Charter hire expenses decreased by \$2.0 million in the fourth quarter compared with the preceding quarter primarily as a result of vessel redeliveries in the fourth quarter and a decrease in the provision for loss making voyages.

Interest expense, net of capitalized interest, was \$37.2 million in the fourth quarter of which \$6.0 million relates to the Company's subsidiary Independent Tankers Corporation Limited ("ITCL").

Frontline announces a net loss attributable to the Company of \$529.6 million for the year ended December 31, 2011, equivalent to a loss per share of \$6.80. The average daily TCEs earned in the spot and period market in the year ended December 31, 2011 by the Company's VLCCs, Suezmax tankers and Suezmax OBO carriers were \$22,800, \$14,100 and \$36,700, respectively, compared with \$35,900, \$25,800 and \$47,400, respectively, in the year ended December 31, 2010. The spot earnings for the Company's double hull VLCCs and Suezmax vessels were \$20,200 and \$12,600, respectively, in the year ended December 31, 2011. The Gemini Suezmax pool had spot earnings of \$13,600 and the Company's double hull VLCCs excluding the spot index time charter vessels had spot earnings of \$21,800 in the year ended December 31, 2011.

As of December 31, 2011, the Company had total cash and cash equivalents of \$160.6 million and restricted cash of \$100.6 million. Restricted cash includes \$99.3 million relating to deposits in ITCL.

The Company estimates average total cash cost breakeven rates for 2012 on a TCE basis for VLCCs and Suezmax tankers of approximately \$23,900 and \$16,400, respectively.

#### Restructuring

The Company successfully completed a restructuring of its business in December 2011. The restructuring included the sale of five VLCC newbuilding contracts, six modern VLCCs, including one on time charter, and four modern Suezmax tankers to Frontline 2012 Ltd. ("Frontline 2012") at fair market value of \$1,120.7 million. In addition, Frontline 2012 assumed \$666.3 million in bank debt attached to the vessels and newbuilding contracts and \$325.5 million in remaining newbuilding commitments. The sale of these assets resulted in a loss of \$307.0 million, which was recorded in the fourth quarter. The Company will receive payment for the working capital related to the assets sold in the amount of \$10.5 million.

On December 16, 2011, Frontline 2012 completed a private placement of 100,000,000 new ordinary shares of \$2.00 par value at a subscription price of \$2.85, raising \$285.0 million in gross proceeds, subject to certain closing conditions. These conditions were subsequently fulfilled and Frontline 2012 was registered on the NOTC list in Oslo on December 30, 2011. The Company was allocated 8,771,000 shares, representing approximately 8.8 percent of the share capital of Frontline 2012.

Following the restructuring, the Company's sailing fleet, excluding the non recourse subsidiary ITCL, was reduced from 50 units to 40 units. In addition, newbuilding commitments were reduced from \$437.9 million to \$112.4 million relating to two Suezmax tanker newbuilding contracts. Bank debt was eliminated following a prepayment of \$13 million associated with a vessel which was not part of the transaction with Frontline 2012, and the prepayment of ITCL's \$33.0 million bank loan. The Company generated net cash proceeds of \$64 million from the transaction with Frontline 2012.

As part of the restructuring, Frontline has obtained agreements with its major counterparts whereby the gross charter payment commitment under existing chartering arrangements is reduced by approximately \$320 million in the period 2012-2015. Frontline will compensate the counterparties with 100 percent of any difference between the renegotiated rates and the actual market rate up to the original contract rates. Some of the counterparties will receive some additional compensation for earnings achieved above original contract rates.

Fleet Development

In October 2011, the Company agreed with Ship Finance to terminate the long term charter party for the OBO carrier Front Striver and Ship Finance simultaneously sold the vessel. The charter party terminated on October 27 and Frontline agreed a compensation payment to Ship Finance of \$8.1 million for the early termination of the charter. The transaction reduced the Company's obligations under capital leases by approximately \$10.7 million and the Company recorded a loss of \$9.3 million in the fourth quarter.

---

In the period October to December 2011, Frontline sold the four double hull Suezmax tankers Front Fighter, Front Hunter, Front Delta and Front Beta. All vessels were built in the period 1992-1996. Delivery to new owners took place during the fourth quarter. The sales resulted in a net cash outflow of approximately \$5.0 million after repayment of bank debt, and the Company recorded a vessel impairment loss of \$121.4 million in the third quarter for these vessels plus another double hull Suezmax tanker.

In December 2011, the Company left the Gemini Pool and established the Orion Tankers pool with Nordic American Tankers Limited. This Suezmax pool currently has 29 double hull Suezmax vessels and will bring the Company closer to the commercial operations and will not result in any disruption.

The Company redelivered the Suezmax tanker Front Warrior on December 12, 2011 at which time the Orion Pool took over its commercial management. The Company redelivered the VLCCs Front Commander, Front Chief and Front Crown on December 11, 2011, December 28, 2011 and January 11, 2012, respectively, at which times the Company took over commercial management of the vessels. All of these vessels had been on time charter in to the Company under operating leases.

#### Newbuilding Program

As of December 31, 2011, and following the restructuring described above, the Company's newbuilding program comprised two Suezmax tankers, which constitute a contractual cost of \$124.9 million. Installments of \$12.5 million have been made on the newbuildings and the remaining installments to be paid as of December 31, 2011, amount to \$112.4 million, with expected payments of \$25.0 million in 2012 and \$87.4 million in 2013.

### Strategy and Outlook

Following the restructuring completed in December 2011, the cash break even rates for the Company have been substantially reduced. Furthermore, cash at hand increased by \$64 million. Based on current forward rates Frontline should have significant strength to honor its obligations and meet the challenges created by the current very weak tanker market the next couple of years. Through the sale of a limited number of its assets, Frontline has avoided a heavy dilutive new equity offering and will thereby keep significant upside for the existing Frontline equity holders if the market recovers in the coming years.

Frontline will remain cautious and focus its resources on the present activities until a clearer sign of recovery can be seen in the tanker market.

### Forward Looking Statements

This press release contains forward looking statements. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including Frontline management's examination of historical operating trends. Although Frontline believes that these assumptions were reasonable when made, because assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, Frontline cannot give assurance that it will achieve or accomplish these expectations, beliefs or intentions.

Important factors that, in the Company's view, could cause actual results to differ materially from those discussed in this press release include the strength of world economies and currencies, general market conditions including fluctuations in charter hire rates and vessel values, changes in demand in the tanker market as a result of changes in OPEC's petroleum production levels and world wide oil consumption and storage, changes in the Company's operating expenses including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, and other important factors described from time to time in the reports filed by the Company with the United States Securities and Exchange Commission.

FRONTLINE LTD.

UNAUDITED NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

Frontline Ltd. (the "Company" or "Frontline") is a Bermuda based shipping company engaged primarily in the ownership and operation of oil tankers. The Company's ordinary shares are listed on the New York Stock Exchange, the Oslo Stock Exchange and the London Stock Exchange.

2. ACCOUNTING POLICIES

Basis of accounting

The condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. The condensed consolidated financial statements do not include all of the disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's annual financial statements as at December 31, 2010. Certain amounts in the consolidated statement of cash flows for the year ended December 31, 2010 have been reclassified to conform to the 2011 presentation.

Significant accounting policies

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2010.

On June 16, 2011, the Financial Accounting Standards Board issued Accounting Standards Update No. 2011-05, Presentation of Comprehensive Income. This standard requires an entity to present items of net income and other comprehensive income in one continuous statement — referred to as the statement of comprehensive income — or in two separate, but consecutive, statements. The standard is intended to enhance comparability between entities that report under accounting principles generally accepted in the U.S. and those companies that report under International Financial Reporting Standards, and to provide a more consistent method of presenting non-owner transactions that affect an entity's equity. The standard is effective for the Company beginning January 1, 2012.

3. RESTRUCTURING

The Company successfully completed a restructuring of its business in December 2011. The restructuring included the sale of five VLCC newbuilding contracts, six modern VLCCs, including one on time charter, and four modern Suezmax tankers to Frontline 2012 at fair market value of \$1,120.7 million. In addition, Frontline 2012 assumed \$666.3 million in bank debt attached to the vessels and newbuilding contracts and \$325.5 million in remaining newbuilding commitments. The sale of these assets resulted in a loss of \$307.0 million, which was recorded in the fourth quarter. The Company will receive payment for the working capital related to the assets sold in the amount of \$10.5 million.

On December 16, 2011, Frontline 2012 completed a private placement of 100,000,000 new ordinary shares of \$2.00 par value at a subscription price of \$2.85, raising \$285.0 million in gross proceeds, subject to certain closing conditions. These conditions were subsequently fulfilled and Frontline 2012 was registered on the NOTC list in Oslo on December 30, 2011. The Company was allocated 8,771,000 shares, representing approximately 8.8 percent of the share capital of Frontline 2012.

Following the restructuring, the Company's sailing fleet, excluding the non recourse subsidiary ITCL, was reduced from 50 units to 40 units. In addition, newbuilding commitments were reduced from \$437.9 million to \$112.4 million

relating to two Suezmax tanker newbuilding contracts. Bank debt was eliminated following a prepayment of \$13 million associated with a vessel, which was not part of the transaction with Frontline 2012, and the prepayment of ITCL's \$33.0 million bank loan. The Company generated net cash proceeds of \$64 million from the transaction with Frontline 2012.

As part of the restructuring, Frontline has obtained agreements with its major counterparts whereby the gross charter payment commitment under existing chartering arrangements is reduced by approximately \$320 million in the period 2012-2015. Frontline will compensate the counterparties with 100 percent of any difference between the renegotiated rates and the actual market rate up to the original contract rates. Some of the counterparties will receive some additional compensation for earnings achieved above original contract rates.

4. NEWBUILDINGS

Five VLCC newbuilding contracts were sold to Frontline 2012 in December 2011 (see Note 3), which left the Company with two Suezmax newbuilding contracts at December 31, 2011. The Company capitalized interest of \$0.7 million in the year ended December 31, 2011 on these remaining contracts.

5. FAIR VALUE OF FINANCIAL INSTRUMENTS

Marketable securities of \$0.7 million at December 31, 2011 (December 31, 2010: \$51.5 million) are measured at fair value on a recurring basis. The fair value of marketable securities is based on the quoted market prices. This fair value falls within the "Level 1" category of ASC 820-10 being "measurements using quoted prices in active markets for identical assets or liabilities".

6. DEBT

The Company's bank debt was eliminated in December 2011. Frontline 2012 assumed \$666.3 million of the Company's bank debt attached to the vessels and newbuilding contracts, the Company made a prepayment of \$13 million associated with a vessel, which was not part of the transaction with Frontline 2012, and the Company prepaid ITCL's \$33.0 million bank loan. See Note 3.

The conversion price of the Company's convertible bonds at December 31, 2010 was \$37.0483 per share. The Company declared a dividend of \$0.25 per share on November 24, 2010 and a dividend payment of \$0.10 on February 22, 2011. Together these dividend payments resulted in a calculated adjustment of the conversion price above the 1 percent adjustment threshold, triggering a new actual conversion price. The conversion price was adjusted from \$37.0483 to \$36.5567 effective March 7, 2011, which was the first date the shares traded ex-dividend of the latter dividend payment.
