COMMERCIAL FEDERAL CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF AND FOR THE THREE MONTHS ENDED MARCH 31, 2003

(Unaudited)

(Columnar Dollars in Footnotes are in Thousands Except Per Share Amounts)

A. BASIS OF CONSOLIDATION AND PRESENTATION:

The unaudited condensed consolidated financial statements are prepared on an accrual basis and include the accounts of Commercial Federal Corporation (the Corporation), its wholly-owned subsidiary, Commercial Federal Bank, a Federal Savings Bank (the Bank), and all majority-owned subsidiaries of the Corporation and Bank. All significant intercompany balances and transactions have been eliminated. Certain amounts in the prior year periods have been reclassified for comparative purposes including real estate held for investment totaling \$11,474,000 at December 31, 2002, reclassified from Real Estate to Other Assets in the Consolidated Statement of Financial Condition.

The accompanying interim condensed consolidated financial statements have not been audited by independent auditors. In the opinion of management, all adjustments considered necessary to fairly present the financial statements have been included. The consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Corporation s Annual Report on Form 10-K for the year ended December 31, 2002. The results of operations for the three months ended March 31, 2003, are not necessarily indicative of the results which may be expected for the entire calendar year 2003.

B. STOCK-BASED COMPENSATION:

The Corporation applies APB Opinion No. 25 Accounting for Stock Issued to Employees, and related Interpretations in accounting for its stock option plans. No compensation cost was recognized for stock options granted, as all stock options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. The effect on the Corporation s net income and earnings per share is presented in the following table as if compensation cost was determined based on the fair value at the grant dates for stock options awarded pursuant to the provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation.

	Three M	Three Months Ended

.59

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model. The Black-Scholes option-pricing model calculates the fair value of stock options awarded based on subjective assumptions. Changes to these assumptions can materially affect the fair value calculation by the model. Therefore, management does not consider these fair value amounts to be a true reflection of the amount of stock based compensation for the Corporation.

As reported

Pro forma

C. MORTGAGE BANKING ACTIVITIES:

The Corporation services real estate loans for investors that are not included in the accompanying condensed consolidated financial statements. Mortgage servicing rights are established based on the cost of acquiring the right to service mortgage loans or the allocated fair value of servicing rights retained on loans originated by the Bank and subsequently sold in the secondary market. Mortgage servicing rights are included in the Consolidated Statement of Financial Condition under the caption Other Assets. The activity of mortgage servicing rights for the periods indicated and the ending balances of mortgage servicing rights and the respective fair values at the periods ended are summarized as follows:

	Three Mor	nths Ended	
	Marc	March 31,	
	2003	2002	
Beginning balance	\$ 88,353	\$ 114,146	
Mortgage servicing rights retained through loan sales	16,753	9,614	
Purchase of mortgage servicing rights	6,758		
Amortization expense	(12,062)	(6,668)	
Balance before valuation adjustments	99,802	117,092	
Valuation adjustments	(13,528)	529	
Ending balance	\$ 86,274	\$ 117,621	
Fair value at the periods ended	\$ 86,274	\$ 124,841	

The Corporation is exposed to interest rate risk relating to the potential decrease in the value of mortgage servicing rights due to increased prepayments on mortgage servicing loans resulting from declining interest rates. As part of its overall strategy to manage the level of exposure to the risk of interest rates adversely affecting the value of mortgage servicing rights, the Corporation uses interest rate floor agreements to protect the fair value of the mortgage servicing rights. These derivatives do not qualify as hedges under Statement of Financial Accounting Standards No. 133 (SFAS No. 133), and therefore, receive a no hedging designation. The fair value gains of the interest rate floor agreements totaled \$10,468,000 and \$1,692,000, respectively, at March 31, 2003 and 2002.

The following compares the key assumptions used in measuring the fair values of mortgage servicing rights at the periods presented:

Ma	arch 31, 2003	March 31, 2002	
Conventional	Governmental	Conventional
