State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

GrafTech International Ltd. (the "Company") is unable to file its Form 10-K for the fiscal year ended December 31, 2015 within the prescribed time period without unreasonable effort and expense because of the significant time and resources that were devoted to the purchase price allocation pursuant to the acquisition on August 14, 2015 by an affiliate of Brookfield Asset Management Inc. ("Brookfield") of a majority of the Company's outstanding common stock. These activities delayed the completion of the Company's Form 10-K.

The Company also engaged new independent auditors in the third quarter of fiscal year 2015. As a result of the acquisition by Brookfield, PricewaterhouseCoopers LLP determined that it would no longer satisfy the

independence requirements and on August 14, 2015 resigned as the Company's independent registered public accounting firm. On October 1, 2015, the Company appointed Deloitte & Touche, LLP as its independent registered public accounting firm

The Company is working diligently to complete the process of finalizing its financial statements and intends to file the Form 10-K within the 15-day extension provided under Rule 12b-25 of the Securities Exchange Act of 1934, as amended.

---------------------------	----------------------	--------------------------------

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed ? If answer is no, identify report(s). Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof ? Yes No

The Company expects to report net sales of approximately \$687 million (\$438 million in the period prior to acquisition and \$249 million in the period subsequent to acquisition) for the fiscal year ended December 31, 2015, as compared to \$1,085 million for the fiscal year ended December 31, 2014. The decrease in net sales is primarily due to a 23% decrease in volumes in our graphite electrode business caused by softening demand in the steel markets. The Company expects to report a net loss of \$121 million for the period prior to the August 2015 acquisition and a net loss of \$34 million in the period subsequent to the August 2015 acquisition, as compared to a net loss of \$285 million for the fiscal year ended December 31, 2014. The expected lower net loss for the fiscal year ended December 31, 2015 as compared to 2014 resulted primarily from decreased impairment charges versus 2014, partially offset by proxy contest and acquisition fees incurred in 2015.

The financial results presented above for the fiscal year ended December 31, 2015 reflect preliminary estimates of the Company's results of operations and anticipated changes for the corresponding prior period as of the date of the filing of the Form 12b-25. These estimates are subject to change upon the completion of the reporting process and audit of the Company's financial statements, and actual results may vary significantly from these estimates.
