Item 3. Source and Amount of Funds or Other Consideration

The source and amount of funds used in purchasing the Stock were as follows:

Purchaser	Source of Funds	Amount
SCM	Funds under Management	\$7,274,488

Item 4. Purpose of Transaction

The Reporting Persons purchased the Common Stock of the Issuer for investment purposes. The Reporting Persons intend to exercise fully their rights as stockholders.

The Reporting Persons are engaged in the investment advisory business. In pursuing this business, the Reporting Persons will routinely monitor the Issuer with regard to a wide variety of factors that affect their investment considerations, including, without limitation, current and anticipated future trading prices for the Issuer's Common Stock and other securities, the Issuer's operations, assets, prospects, financial position, and business development, Issuer's management, Issuer-related competitive and strategic matters, general economic, financial market and industry conditions, as well as other investment considerations.

Depending on their evaluation of various factors, including those indicated above, the Reporting Persons may take such actions with respect to their holdings in the Issuer as they deem appropriate in light of circumstances existing from time to time. Such actions may include the purchase of additional shares of Common Stock in the open market, through privately negotiated transactions with third parties or otherwise, or the sale at any time, in the open market, through privately negotiated transactions with third parties or otherwise, of all or a portion of the shares of Common Stock now owned or hereafter acquired by any of them. In addition, the Reporting Persons may from time to time enter into or unwind hedging or other derivative transactions with respect to the Common Stock or otherwise pledge their interests in the Common Stock of the Issuer as a means of obtaining liquidity. The Reporting Persons may from time to time cause any of Stadium Capital Partners, L.P. and Stadium Capital Qualified Partners, L.P. (the "Stadium Capital Funds") to distribute in kind to their respective investors shares of Common Stock of the Issuer owned by such Stadium Capital Funds. In addition, from time to time the Reporting Persons and their representatives and advisers may communicate with other stockholders, industry participants and other interested parties concerning the Issuer. Further, the Reporting Persons reserve the right to act in concert with any other stockholders of the Issuer, or other persons, for a common purpose should they determine to do so, and/or to recommend courses of action to the Issuer's management, the Issuer's Board of Directors and the stockholders of the Issuer. Any of the foregoing actions could involve one or more of the events referred to in paragraphs (a) through (j), inclusive, of Item 4 of Schedule 13D, including, potentially, one or more mergers, consolidations, sales or acquisitions of assets, change in control, issuances, purchases, dispositions or pledges of securities or other changes in capitalization.

On August 10, 2010, the Reporting Persons filed a complaint in the Delaware Chancery Court titled Stadium Capital Qualified Partners, L.P., and Stadium Capital Partners, L.P., v. Cerberus APB Investor LLC et. al, alleging, among other things, that Cerberus' tender offer to acquire the remaining outstanding shares of the Issuer (the "Cerberus Offer") violates the fiduciary duties owed by Cerberus and the directors of the Issuer to the Stadium Capital Funds. In particular, the Complaint alleged that Cerberus violated its fiduciary duties to the Stadium Capital Funds and other minority shareholders of the Company by making an offer that was substantially below the intrinsic value of the Company and by failing to disclose material information concerning the Company and its value to the Stadium Capital Funds and the Company's other minority shareholders. A copy of the Complaint was attached as Exhibit B to that initial Statement.

On August 18, 2010, the Reporting Persons sent a letter to the Special Committee of the Board of Directors of the Issuer ("Special Committee"). The letter sets forth in more detail several specific reasons why the Reporting Persons believe that the Cerberus Offer is significantly below the intrinsic value of the Issuer and is an attempt to coerce the Stadium Capital Funds and the Company's other minority shareholders to tender into the Offer. In particular, the letter demonstrates that under traditional valuation methodologies, and using the Company's own projections and multiples consistent with prior years, the Company's intrinsic value could range between \$24.16-\$39.78 per share—i.e. more than 7x the Cerberus offer. The letter also notes that if an estimate for the market value of the Company's real estate assets is substituted for such assets' current book value, then the net asset value of the Company per share is also significantly greater than the Cerberus' offer. The letter further states that because the Cerberus Offer substantially undervalues the Company, SCM will not support or tender into this or any offer which is not consistent with the Company's intrinsic value and urges the Special Committee to use all of the resources available to it, including a shareholder rights plan, to prevent consummation of an inadequate offer. The letter concludes by reiterating SCM's confidence in BlueLinx's business, management team, and long-term prospects and recommends that the Special Committee reject any proposal to acquire the Company at a value that is not consistent with BlueLinx's intrinsic value, and instead allow the

Company to achieve appropriate value over time. A copy of the letter is included as Exhibit B to this Statement, which is incorporated in its entirety by reference herein.

Except as set forth in this Statement, the Reporting Persons do not presently have any additional plans or proposals that relate to or would result in any of the transactions, events or actions described in subparagraphs (a) through (j) of Item 4 of Schedule 13D.

Item 5. Interest in Securities of the Issuer

The beneficial ownership of the Stock by each Filer at the date hereof is reflected on that Filer's cover page.

The Filers effected the following transactions in the Stock in open market transactions on the dates indicated, and such transactions are the only transactions in the Stock by the Filers since August 10, 2010:

Name	Purchase or Sale	Date	Number of Shares	Price Per Share
------	------------------	------	------------------	-----------------

NONE

EXHIBIT B

Letter From Stadium Capital Management, LLC

August 18, 2010

Special Committee of the Board of Directors of BlueLinx Holdings Inc.

Richard B. Marchese

Alan H. Schumacher

Richard S. Grant

4300 Wildwood Parkway

Atlanta, GA 30339

Dear Sirs:

We represent Stadium Capital Management, LLC (“SCM”), which as you know is the largest minority shareholder of BlueLinx Holdings Inc. (“BlueLinx” or the “Company”). The purpose of this letter is to set forth our further analysis of the tender offer

commenced on August 2, 2010 (the “Offer”), and related Form SC TO-T filed on August 2, 2010 (the “Offer Document”) by Cerberus ABP Investor LLC (“CAI”) and its affiliates (collectively “Cerberus”).

As detailed in the complaint we filed on August 10, 2010 in the Delaware Chancery Court (the “Complaint”), Cerberus’ Offer is flawed from both a procedural and substantive point of view. Simply put, the Offer is far below any measure of BlueLinx’s intrinsic value, and appears designed to coerce BlueLinx’s minority stockholders to tender into the Offer by, among other things, failing to disclose adequate information to allow BlueLinx’s minority stockholders to make an informed decision, and not even allowing the Special Committee sufficient time to determine for itself the Company’s value and available alternatives to the Offer.

Specifically, our analysis leads us to the following conclusions:

1. CAI’s proposed two-step freeze-out transaction is coercive and unfair, and smacks of significant self-dealing. We also believe that CAI and Cerberus have breached their duties of full and fair disclosure.
2. The Offer price is significantly lower than the Company’s true value as calculated by any reasonable analysis. The Company’s own documents and public comments clearly support the notion that the tender offer price of \$3.40 per share is far below BlueLinx’s intrinsic value per share. We believe this intrinsic value should be based on an estimate of the Company’s future value, subsequent to the kind of reasonable homebuilding recovery described by BlueLinx’s management in its “Company Operating Plan” delivered to Cerberus in February 2010 as described in the Offer Document. The current Offer price falls far below this threshold and is even a significant discount to the value of the Company’s assets net of its liabilities. Specifically:
  - a. BlueLinx’s public filings recognize that the Board of Directors of BlueLinx and the Company’s management team believe that the current real estate construction market is depressed, but demonstrate that BlueLinx is well positioned to realize significant earnings and cash flow – and a concomitant increase to the market value of the Company’s equity – when the real estate construction market recovers over the next few years.
  - b. BlueLinx’s management projects that the Company will earn revenues of \$4,369.3 million and EBITDA of \$170.5 million when new housing starts recover to 1.3 million units per year (which is projected to occur in 2014,

according to the Company Operating Plan included in the Offer Document and prepared by BlueLinx for review by Cerberus and CAI in February 2010). These EBITDA levels are similar to what the Company achieved in its 2004 and 2005 fiscal years, during which time BlueLinx's total enterprise value was consistently valued in the range of approximately 6.5x to 9.5x EBITDA. Employing this range of 6.5x to 9.5x EBITDA multiple and BlueLinx's projected 2014 EBITDA of \$170.5 million results in a total enterprise value of \$1,108 million to \$1,620 million. Deducting the Company's projected 2014 net debt of \$318.4 million results in an equity value of \$790 million to \$1,301 million, or approximately \$24.16 to \$39.78 per share – i.e., more than 7.1x to 11.7x the current \$3.40 per share Offer price.

- c. BlueLinx has publicly reported that as of July 3, 2010 it had, at book value, total assets of \$644 million, total liabilities of \$610 million, and shareholders equity of \$34 million. With 32,701,062 shares of common stock outstanding, BlueLinx's book value per share was approximately \$1.04. One reason BlueLinx has such a low book value is because the book value of its real estate assets is far below their actual market value. In its presentation titled "BlueLinx Quarterly Review – 2nd Quarter 2010" dated August 5, 2010, the Company reported, just three days after the commencement of the Offer, that the real estate assets used to secure its outstanding mortgage were appraised at \$370 million in June 2006. The estimated book value of these mortgage assets as of July 3, 2010 (used in the above calculation) was \$113 million. If the appraised value of these assets is used instead of their stated book value, the calculation of BlueLinx's book-value shareholder equity would increase from \$34 million to \$291 million, or approximately \$8.90 per share – i.e., more that 2.62x the current \$3.40 per share Offer price.

We believe that Cerberus and BlueLinx's Board of Directors have access to detailed property data necessary to thoroughly analyze and determine the true market value of BlueLinx's real estate assets, information that is not available to us. However, the Moodys/REAL Commercial Property Price Index suggests that industrial property values in the United States dropped by 25-30% between June 2006 and April 2010. Conservatively using the high end of this estimate (i.e. 30%), the value of the BlueLinx property holdings that were appraised at \$370 million would have decreased to approximately \$259 million as of July 2010, and use of that value in calculating BlueLinx's book-value shareholder equity would result in a shareholder equity figure of \$180 million, or approximately \$5.51 per share – i.e., more that 1.62x the current \$3.40 per share offer price.

3. Cerberus has refused at least two requests by the Special Committee to allow the Special Committee to have the time the Special Committee believes is necessary for it to form an independent and informed judgment.

We note that the Special Committee's powers and authority appear to provide it with the ability to respond appropriately to the Offer. We hope that the Special Committee will use these powers to ensure that it has adequate time and information to make an informed judgment with respect to any Cerberus offer, including using a shareholder rights plan as necessary to prevent the consummation of an inadequate offer.

We also wish to make clear that based upon our analysis we believe that the current Offer is significantly below BlueLinx's intrinsic value. SCM will not support or tender into an offer which is not consistent with BlueLinx's intrinsic value, and we believe a perfectly reasonable alternative for the Special Committee to consider is for no transaction to take place at all. We own our position in BlueLinx even during this severe building cycle because we have great faith in the company's market position and management team. Undoubtedly like other minority shareholders of the Company, we therefore remain prepared to wait for appropriate value to be achieved over time.

We are not activists by orientation, and our firm does not have a history of public posturing or litigating. Nevertheless, we have a fiduciary responsibility to respond forcefully to situations that we believe are sufficiently egregious. This tender offer, both by process and price, is rife with self-dealing and conflicts of interest, and it has left us no choice but to take appropriate legal action, and to convey our profound concerns directly to the Special Committee.

Sincerely,

Stadium Capital Management, LLC
