Board Meetings and Committees of the Board of Directors

The Board held six meetings in fiscal 2007. We expect each director to attend each meeting of the Board and the committees on which he or she serves, and also expect them to attend the annual meeting. In fiscal 2007, each director attended 100% of the meetings of the Board and the committees on which he or she served, and all of the then-sitting directors attended the 2007 Annual Meeting.

The Board of Directors has five standing committees: Audit, Compensation, Nominating and Governance, Finance and Executive. The authority and responsibility of each committee is summarized below. A more detailed description of the functions of the Audit, Compensation, Nominating and Governance, and Finance Committees is included in each committee charter as adopted by the Board of Directors. All committee charters can be found in the Corporate Governance section of the Company's corporate website www.jackinthebox.com.

Committee Member Independence. The Board has determined that each current and anticipated member of the Audit, Compensation, Nominating and Governance, and Finance Committees is independent as defined under the requirements of the New York Stock Exchange, as well as under the additional Independence Guidelines adopted by the Board. In addition, the members of the Audit Committee are all independent as required under Section 10A(m)(3) of the Securities Exchange Act of 1934, and the members of the Compensation Committee are independent as required under Section 162(m) of the Internal Revenue Code. Independence determinations reflect upon both the membership of the above committees as presently constituted and after February 15, 2008.

Audit Committee. As more fully described in its charter, included as Exhibit B to this Proxy Statement, the Audit Committee assists the Board of Directors with overseeing the integrity of the Company's financial reports; the Company's compliance with legal and regulatory requirements; the independent registered public accountant's performance, qualifications and independence; the performance of the Company's internal auditors and the Company's processes for identifying, evaluating and addressing major financial risks. The Audit Committee has sole authority to select, evaluate and, when appropriate, replace the Company's independent registered public accountants. The Audit

Committee meets each quarter with the Company's independent registered public accountants, KPMG LLP (KPMG), the Company's Director of Internal Audit, and management to review the Company's annual and interim consolidated financial results before the publication of quarterly earnings press releases and the filing of quarterly and annual reports with the Securities and Exchange Commission. The Audit Committee also meets separately each quarter with each of KPMG, management and the Director of Internal Audit. The Board of Directors has determined that all members of the Audit Committee satisfy the financial literacy requirements of the New York Stock Exchange and that each member of the Audit Committee qualifies as an audit committee financial expert as defined by Securities and Exchange Commission (SEC) rules. The Audit Committee held six meetings in fiscal 2007.

Table of Contents

Compensation Committee. As more fully described in its charter, the Compensation Committee assists the Board in discharging the Board's responsibilities relating to director and executive officer compensation and oversees the evaluation of management. The Compensation Committee reviews and approves the Company's compensation philosophy, each of the compensation components, equity and benefit plans, and compensation of executive officers, including performance goals and objectives. The Committee approved the disclosures in the Company's *Compensation Discussion and Analysis* beginning on page 13 of this Proxy Statement. The Compensation Committee held five meetings in fiscal 2007.

Executive Committee. The Executive Committee is authorized to exercise all the powers of the Board in the management of the business and affairs of the Company while the Board is not in session. The Executive Committee did not meet in fiscal 2007.

Finance Committee. The Finance Committee assists the Board in advising and consulting with management concerning financial matters of importance to the Company. Topics considered by the Committee include the Company's capital structure, financing arrangements, stock repurchase programs, capital investment policies, oversight of the Company's pension and 401(k) plans, the budget process and the financial implications of major acquisitions and divestitures. The Finance Committee held six meetings in fiscal 2007.

Nominating and Governance Committee. The Nominating and Governance Committee assists the Board in identifying and recommending to the Board qualified candidates to become directors, including: considering nominees properly submitted by stockholders; developing and recommending to the Board a set of corporate governance guidelines; providing oversight with respect to the annual evaluation of Board, Committee and individual director performance; and recommending to the Board director nominees for each Board committee. All nominees for election as Directors currently serve on the Board of Directors and are known to the Nominating and Governance Committee in that capacity. The Nominating and Governance Committee also assists the Board in its oversight of the Corporation's insider trading compliance program. The Nominating and Governance Committee held six meetings in fiscal 2007.

Policy Regarding Consideration of Candidates for Director. The Nominating and Governance Committee has the responsibility to identify, screen and recommend qualified candidates to the Board. The Nominating and Governance Committee will evaluate any recommendation for director candidates proposed by a stockholder. In order to be evaluated in connection with the Nominating and Governance Committee's established procedures, stockholder recommendations for candidates for the Board must be sent in writing to the following address at least 120 days prior to the anniversary of the date Proxy Statements were mailed to stockholders in connection with the prior year's annual meeting of stockholders:

Nominating and Governance Committee of the Board of Directors
c/o Office of the Corporate Secretary
Jack in the Box Inc.
9330 Balboa Avenue
San Diego, CA 92123

Stockholder recommendations should include the name of the candidate, age, contact information, present principal occupation or employment, qualifications and skills, background, last five year's employment and business experience, a description of previous service as a director of any corporation or organization, and other relevant biographical information. There are no stated minimum criteria for director candidates. However, in evaluating director candidates, the Nominating and Governance Committee considers the following factors:

The appropriate size of the Board.

The needs of the Company with respect to particular talents and experience.

The knowledge, skills and experience of candidates in light of the knowledge, skills and experience already possessed by other members of the Board.

Experience with accounting rules and practices, and executive compensation.

Applicable regulatory and listing requirements, including independence requirements.

Table of Contents

The benefits of constructive working relationships among directors.

The desire to balance the considerable benefit of continuity with the periodic injection of fresh perspective provided by new members.

The Nominating and Governance Committee may also consider such other factors as it may deem are in the best interests of the Company and its stockholders. The Nominating and Governance Committee believes it appropriate for at least one member of the Board to meet the criteria for an audit committee financial expert as defined by SEC Rules, and for a majority of the Board to meet the definition of independence under the listing standards of the New York Stock Exchange. The Nominating and Governance Committee also believes it appropriate for certain key members of management to participate as members of the Board.

The Committee considers all candidates regardless of the source of the recommendation. In addition to stockholder recommendations, the Committee considers recommendations from current directors, Company personnel and others. From time to time the Committee may engage the services of outside search firms to help identify candidates. During fiscal year 2007, the Company engaged one such search firm, the Alexander Group, and paid approximately \$1,800 in connection with identification of possible candidates.

After initial screening of a potential candidate's qualifications, the Committee determines appropriate next steps, including requests for additional information, reference checks and interviews with potential candidates. All candidates must submit a completed form of the Company's Directors and Officers Questionnaire as part of the consideration process.

Corporate Governance

The Board of Directors is committed to promoting ethical business practices and believes that strong corporate governance is important to ensure that the Company is managed for the long-term benefit of its stockholders. The Company regularly monitors developments in the area of corporate governance and may modify its Principles and Practices as warranted. Any modifications are reflected on the Jack in the Box Inc. website. (www.jackinthebox.com) The following Corporate Governance documents appear on the Company's website under the Investors, Corporate Governance tabs. These materials are also available in print to any stockholder upon request.

Corporate Governance Principles and Practices.

The Company actively promotes ethical behavior by all employees. The Company's Director of Ethics conducts regular training sessions for all levels of employees and officers. The Company also provides significant vendors with its Code of Ethics, as well as procedures for the communication of any concerns. The Company intends to satisfy the disclosure requirements of SEC Regulation S-K Item 406(d) regarding any amendment to, or waiver of, a provision of the Code of Ethics that applies to the Company's principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions, by posting such information on the Company's website. Among other matters, the Corporate Governance Principles and Practices include the following items concerning the Board:

1. *Meetings of Non-Management Directors.* The non-management directors of the Company meet separately on a regular basis in executive session. The Lead Director is responsible for setting the agenda and presiding at the meetings.

Table of Contents

2. *Lead Director.* The non-management directors appoint a lead director each year to set the agenda for and preside at the executive sessions of the Board. The lead director acts as the primary communication channel between the Board and the CEO, and determines the format and the adequacy of information required by the Board. For fiscal 2008, the non-management directors have appointed Murray Hutchison as lead director.

3. *Limitation on Other Board Service.* The Company's Corporate Governance Principles and Practices set forth the Board's policy limiting non-management directors to simultaneous service on no more than four public companies, including Jack in the Box Inc. The Board has an approval process that generally limits each of our officers to serving on no more than one public company's board outside of Jack in the Box Inc. affiliates. The approval process considers both the time commitment and potential business conflicts and is administered by the Nominating and Governance Committee.

4. *Retirement Policy.* The Board has adopted a retirement policy under which directors may not stand for election or be appointed after age 73. Dr. Alice Hayes, current Chairman of the Compensation Committee and member of the Nominating and Governance Committee, has informed the Board that she intends to retire from the Board effective February 15, 2008.

5. *Board, Committee and Individual Director Evaluations.* Each year the Directors complete an evaluation process focusing on an assessment of Board operations as a whole and the service of each director. Additionally, each of the Audit, Compensation, Finance and Nominating and Governance Committees conducts a separate evaluation of its own performance and the adequacy of its Charter. The Nominating and Governance Committee coordinates the evaluation of individual directors and of the Board operations and reviews and reports to the Board on the annual self-evaluations completed by the committees.

6. *New-Director Orientation and Continuing Education.* The Board works with management to schedule new-director orientation programs and continuing education programs for directors. Orientation is designed to familiarize new directors with the Company and the restaurant industry as well as Company personnel, facilities, strategies and challenges. Continuing education programs may include in-house and third-party presentations and programs.

7. *Attendance at Annual Meetings.* The Company's Corporate Governance Principles and Practices sets forth the Board's policy on director attendance at our Annual Meeting of stockholders. It states that all directors shall make every effort to attend the Annual Meeting.

8. *Stock Ownership Guidelines.* The Board has established stock ownership guidelines for non-management directors to appropriately link their interests with those of other stockholders. These guidelines provide that within a three-year period following appointment or election, the director should attain and hold an investment position of \$150,000 in defined total stock value, exclusive of any outstanding stock options but including directly and indirectly held shares and the equivalent number of shares derived from deferral of director compensation. The Board has established ownership guidelines for senior officers as described in the *Compensation Discussion and Analysis* section of this Proxy Statement.

REPORT OF THE AUDIT COMMITTEE

The following is the report of the Audit Committee with respect to Jack in the Box Inc.'s audited financial statements for the fiscal year ended September 30, 2007.

The Audit Committee of the Board of Directors (the "Audit Committee") is composed of the three directors named below, each of whom is an independent director as defined in the applicable listing standards of the New York Stock Exchange. Our Board has determined that each of the members of the Audit Committee is an audit committee financial expert as defined by the Securities and Exchange Commission. The duties of the Audit Committee are summarized in this Proxy Statement under *Board Meetings and Committees of the Board of Directors* on page 5 and are more fully described in the Audit Committee charter adopted by the Board of Directors attached hereto as Exhibit B. The Audit Committee reviews and assesses the adequacy of its charter each fiscal year. The Audit Committee Charter can be found under the Investors/Corporate Governance/Committee Charters tabs on the Jack in the Box Inc. website at www.jackinthebox.com.

As more fully described in its charter, one of the Audit Committee's primary responsibilities is to assist the Board in its general oversight of Jack in the Box Inc.'s financial reporting, internal controls and audit functions. Management is responsible for the following: the Company's accounting and financial reporting principles; and establishing, maintaining and evaluating the effectiveness of disclosure controls and procedures as well as internal controls over financial reporting and the preparation, presentation, and integrity of the Company's consolidated financial statements. KPMG, the Company's independent registered public accountants, is responsible for performing an independent audit of the Company's consolidated financial statements in accordance with the Standards of the Public Company Accounting Oversight Board (United States) (the "PCAOB") and expressing an opinion on the conformity of those audited consolidated financial statements with U.S. generally accepted accounting principles as well as expressing an opinion on (i) management's assessment of the effectiveness of internal control over financial reporting and (ii) the effectiveness of internal control over financial reporting.

Jack in the Box Inc. has an Internal Audit Department that reports to the Audit Committee and the Company's General Counsel. The Internal Audit Department's responsibilities include reviewing and evaluating the Company's internal controls. The function of the Audit Committee is not to duplicate the activities of management, or the internal or external auditors, but to serve a Board-level oversight role in which it provides advice, counsel, and direction to management and the auditors.

The Audit Committee has sole authority to select, evaluate, approve fees, and when appropriate, to replace the Company's independent registered public accountants. The Committee also pre-approves all audit and non-audit services performed by the independent auditors. The Audit Committee has appointed KPMG as the Company's independent registered public accountants for fiscal year 2008 and has requested stockholder ratification of its appointment.

During the course of fiscal 2007, the Committee met and discussed with representatives of management, the Internal Audit Department staff and the independent auditors the matters over which the Committee has been delegated oversight responsibility. The Committee met regularly in separate private sessions with representatives of management, the Internal Audit Department staff and the independent auditors. The Audit Committee reviewed and discussed with management and KPMG the disclosures made in Management's Discussion and Analysis of Financial Condition and Results of Operations and the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2007. The Audit Committee reviewed and discussed management's report on the effectiveness of the Company's internal control over financial reporting and KPMG's Report of Independent Registered Public Accounting Firm included in the Company's Annual Report on

Form 10-K related to its audit of (i) the consolidated financial statements, and (ii) the effectiveness of internal control over financial reporting.

The Committee discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61, Communications with Audit Committees, as amended and PCAOB Auditing Standard No. 2, An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements. In addition, the Audit Committee received the written disclosures and the letter from KPMG required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and discussed with KPMG its independence from the Company.

The Audit Committee has discussed with management and KPMG such other matters and received such assurances from them as the Audit Committee deemed appropriate.

Registered Public Accountants Independence. The Audit Committee has considered whether the provision of the above-noted services is compatible with maintaining the principal registered public accountant's independence and has determined that the provision of such services has not adversely affected the registered public accountant's independence.

Policy on Audit Committee Pre-Approval. The Company and its Audit Committee are committed to ensuring the independence of the independent registered public accountants, both in fact and in appearance. In this regard, the Audit Committee has established a pre-approval policy in accordance with applicable Securities rules. COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis provides information on our compensation objectives and philosophy, the components of our compensation program and the reasons we provide each component. We also discuss how we determine targeted compensation and the basis of our pay decisions for the executive officers of the Company, including the amounts paid to the named executive officers (NEO) as shown in the *Summary Compensation Table* .

Oversight of the Executive Compensation Program

Role of the Compensation Committee. The Compensation Committee (the Committee) acts pursuant to a written charter and is comprised entirely of independent directors. The Committee administers the Company s executive compensation program on behalf of the Board and reviews and approves the Company s compensation philosophy, each of the compensation components, equity and benefits plans, and compensation of executive officers, including performance goals and objectives. Discussions regarding the compensation of Ms. Lang, our Chairman and Chief Executive Officer (CEO) occur during executive session when only Committee members are present. The Committee recommends the CEO s compensation to the full Board for final consideration and approval. Ms. Lang does not participate in these discussions.

Role of the Chief Executive Officer in Compensation Decisions. The CEO discusses the performance of the executive officers with the Committee on an annual basis and provides recommendations on compensation actions for executive officers other than herself. Additionally, she provides her perspective and recommendations to the Committee on compensation and benefit plan design and strategies, financial goals and criteria for the annual incentive, and the amount of long-term incentive awards.

Role of the Independent Compensation Consultant. To assist the Committee with its responsibilities, the Committee has retained the services of Towers Perrin, a nationally recognized compensation consulting firm, to serve as its independent compensation consultant for comparative information, advice and perspective on matters related to CEO and executive officer compensation. The compensation consultant provides the Committee with objective information and expertise to make informed decisions on executive compensation. Towers Perrin maintains no other direct or indirect business relationships with the Company.

Towers Perrin performs an annual review of competitive compensation practices for all officer positions and based on that assessment provides advice regarding changes to base salaries, annual incentives, and long-term incentives. Market data is obtained from a variety of sources, including a national executive compensation database, restaurant industry survey, and proxy data of our industry peer group companies. We refer to these three sources collectively as our comparative benchmark group. The consultant attends the Compensation Committee meetings as requested, and in fiscal year 2007 attended four of the five Committee meetings.

Executive Compensation Philosophy and Objectives. Our compensation philosophy, reviewed annually by the Compensation Committee, is to provide *average pay for average performance* and *exemplary pay for exemplary performance*. We define average pay as the median (50th percentile) of market pay, and exemplary pay as pay above the median. Throughout this proxy, when we use the term market pay or market , we are referring to the pay levels or practices of similar executive positions among our comparative benchmark group.

We target our base pay, annual incentive, and long-term incentives (collectively, direct compensation) at the median market pay. The guiding principle in the design and administration of our compensation program is built on this philosophy and serves the following objectives:

Attract, engage, and retain highly talented and skilled executives to execute our strategies.

Link pay to Company annual and long-term financial performance by aligning a significant portion of an executive's direct compensation with the achievement of annual incentive goals and increases in the long term market value of the Company.

Provide a comprehensive total compensation package that is competitive with our industry peer group and general industry companies of similar size with which we compete for executive talent.

Promote an ownership mindset by requiring ownership of Jack in the Box stock by the named executive officers and other key executive officers.

NOTE: Stock Split On August 3, 2007, the Board of Directors approved a two-for-one split of our common stock, that was effected in the form of a 100% stock dividend on October 15, 2007. All historical share and per share data in our proxy reflects this two-for-one stock split, unless otherwise noted.

Components and Analysis of Total Compensation

Our total compensation program for executive officers consists of a combination of base salary, annual incentive, long-term incentives, benefits, and limited perquisites. The program is designed to provide an appropriate balance between annual and long-term performance of the Company, as well as between fixed and variable (at-risk) compensation. Each year, the Committee s independent consultant provides the Committee and management with a comparison of the executive officers direct compensation with the direct compensation paid to executive officers of the organizations in the Company s comparative benchmark group. Upon review of the information, the Committee makes its own assessments and decisions with respect to each of the compensation components described in more detail below.

Base salaries provide regularly-paid fixed cash compensation and enable the Company to attract and retain executives that are critical to our long-term success and have the knowledge and skills necessary to successfully fulfill their job duties and responsibilities. Each November, the CEO makes recommendations to the Committee on salary increases for the executive officers, as determined based on the factors described below.

To determine the appropriate salary level of an executive, the Company considers the performance of the executive during the fiscal year, time in position, the criticality of the role to the Company and the difficulty in replacing the executive. Individual performance is measured by what is achieved (results) as well as how it is achieved (behaviors). The Committee assesses the performance of the Chief Executive Officer, and the Chief Executive Officer assesses the performance of each of the other executive officers. The CEO, in consultation with the Company s compensation department, determines the salary increase amount for each executive officer (other than herself) and subsequently provides the Committee with her assessment of their performance and recommended salary increase.

In November 2006, the Committee approved pay increases for the named executive officers to compensate them for their services rendered during the year. The increases, effective November 2006, ranged from 3% to 7% and were consistent with the percentage increases given to other employees in the Company. Base salaries of the named executive officers in fiscal 2007 averaged 96% of the 2007 market pay. Based on the assessment of the factors described above, the Committee believed the pay levels were appropriate relative to the market. In fiscal 2007 the CEO s salary was approximately 1.4 times higher than the salary of the President & Chief Operating Officer (COO). The table below shows the 2007 annualized base salary of each named executive officer.

Executive Officer	Salary
Linda A. Lang	\$ 750,000
Jerry P. Rebel	\$ 391,000
Paul L. Schultz	\$ 512,000
Lawrence E. Schauf	\$ 365,000
David M. Theno	\$ 342,000

Annual incentive is cash compensation based on achievement of annual operating goals. As such, an executive will only receive payment if certain performance goals are achieved. We provide an annual incentive to

motivate and reward for the achievement of Company financial performance goals in earnings-per-share (EPS) and return-on-invested-capital (ROIC). Earnings-per-share is our primary metric (75% weight) because it is a key driver of shareholder return over the long-term and ROIC (25% weight) reflects how efficiently and effectively management deploys capital. The formula we use to calculate ROIC is earnings from operations, less taxes, divided by stockholders equity plus financial debt. The annual incentive is based solely on Company performance because we believe all executive officers, key management and staff should be focused on the same goals, and work together to achieve those goals.

Setting Annual Incentive Performance Goals. The Committee approves annual incentive performance goals at the conclusion of the Company s annual financial planning process and subsequent to the Board s approval of the Company s financial plan and budget for the fiscal year. At such time, the

Table of Contents

Company assesses the future operating environment inside and outside the Company and develops projections of anticipated results. If the Company achieves the budget for the fiscal year, then the annual incentive payout will pay at targeted bonus levels (median 50 percentile of market data). If the Company outperforms budget, then the annual incentive payout will be above the median of the market, and if it is below budget, payouts will be below the median. Each year the Committee approves goals that are considered to be challenging for the Company to achieve and generally reflect performance above the prior year.

In 2007, the EPS performance goal at budget (target) was 12% above prior fiscal year performance (FY 2006) and the goal at the maximum incentive payout level was 16.7% above prior fiscal year performance (FY 2006). As certified by the Committee, our performance results significantly exceeded budget and the annual incentive payouts were at the maximum level, as shown in the table below.

(2) Reflects the maximum percentage of annualized base salary at the end of the fiscal year.

Annual Target Bonus Percentage for fiscal year 2008. An extensive review of our financial performance and compensation practices relative to our industry peer group was conducted in 2007. As a result of the review, the Committee concluded that the target bonus percentages on average for the CEO, President & COO, and Executive Vice President (EVP) & Chief Financial Officer (CFO) were below market. To ensure competitive target bonus percentages consistent with our pay philosophy, and for retention purposes, the Committee approved an adjustment to the target percentage for these positions beginning in fiscal year 2008.

The change in the target bonus percentage correspondingly affected the maximum bonus percentage as shown in the following table:

Bonus Payout Percentages

	FY 2007			FY 2008

Long-term incentives in the form of non-qualified stock options are designed to reward the executives for achieving longer term increases in shareholder value through appreciation in the price of Jack in the Box common stock. We believe that annual grants of non-qualified stock options align the personal financial interests of our executives with those of our stockholders. Our executives only receive a benefit from the options if the market value of Jack in the Box stock increases. In addition, options facilitate ownership in the Company, and serve to retain executives since options have a multi-year vesting schedule.

In 2007, the Committee's compensation consultant provided stock option grant guidelines at market 50th percentile and 75th percentile based on total direct compensation (includes the total of base, bonus, and long-term incentives) of the comparative benchmark group. To determine the actual percentile at which to grant options, the Committee considered the Company's overall fiscal year

Table of Contents

performance and recommendations from the Chairman & CEO on each executive's individual performance. For fiscal 2007, the Committee approved grants to the following NEOs, the CEO, President & COO and EVP & CFO, at approximately market 75th percentile to reflect the Company's exemplary performance relative to our industry peer group in several key financial areas.

Option awards were granted effective September 14, 2007, with an exercise price equal to the closing price of Jack in the Box stock on the date of grant. The options vest at a rate of 33% per year over a three-year period, and have a seven-year term. This reflects a change in the vesting and term of prior grants, and is intended to better align with market practices as well as reducing option expense in the long term. The majority of options granted in prior years vest at a rate of 25% per year over a four-year period and have a ten-year term.

David M. Theno	30,000	42,000	30,000

- (1) Grant at 75th percentile with no offset applied under executive stock ownership program to compensate for lower base salary relative to market median.
- (2) Reflects reduction to grant award after applying offset under executive stock ownership program.
- (3) Mr. Schauf did not receive a grant as he retired on September 30, 2007, the last day of fiscal year 2007.

Timing of Regular Annual Stock Option Grants. The regular annual stock option grant date is the date of the Committee's regularly scheduled September meeting, and all grants are approved by resolution of the Committee. The dates of Board and committee meetings are scheduled years in advance of the actual date of the meeting. All stock options are granted with an exercise price equal to the closing price of Jack in the Box Inc. common stock on the date of grant.

Health & Welfare Benefits are an important component of the total compensation package and are commonplace among our comparative benchmark group and generally available to other employees in the Company. We provide both company-subsidized and voluntary benefit programs to our employees that generally include medical, dental, life insurance and disability coverage. In addition to the coverage provided in the regular plans, the executive officers participate in an executive health reimbursement program, for which the executives pay an additional premium, that provides for out-of-pocket healthcare expenses that exceed coverage under the regular plans, not to exceed \$30,000 for the CEO and COO, \$20,000 for the CFO, \$15,000 for Senior Vice Presidents (SVPs), and \$10,000 for other officers. The company also provides employer-paid term life insurance with a maximum value of \$770,000. We provide this additional coverage so that our total benefits package enables us to recruit and retain talented executive officers.

In connection with Mr. Schauf's retirement at the end of September 2007, the Company provided a one-time lump sum payment of \$54,122 to assist in covering the cost of Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) and personal health insurance premiums until eligible for Medicare coverage.

Perquisites are limited and are typical of those provided to senior executives of our comparative benchmark group. We believe the perquisites denoted below are conservative but still allow us to compete for executive talent. The value of each perquisite is provided in the Summary Compensation Table.

Table of Contents

Perquisite	Named Executive Officer	Other Executive Officers	Purpose
Annual Car Allowance (paid on bi-weekly basis)	ü	ü	To provide a benefit that enhances our ability to attract and retain executive talent.
Financial Counseling	ü	ü (SVP and above)	To identify the financial and tax implications of our compensation and benefit programs.

Retirement Plans provide an opportunity for our employees, including our named executive officers, to achieve retirement income security as well as serving as a means to retain employees. Our named executive officers are participants in a tax-qualified defined benefit plan (Retirement Plan), along with our employees generally, in addition to a Supplemental Executive Retirement Plan (SERP). The SERP is a non-tax qualified pension plan and was established in response to the Internal Revenue Code limitations on pension benefits (based on an annual compensation limit) that can be accrued under our tax-qualified defined benefit pension plan. The SERP compensates participants in an equitable fashion for the reductions in their pension benefits resulting from these limitations. The Company has purchased corporate owned life insurance policies to offset its obligations under the SERP, which represents an unsecured claim against the Company.

In September 2007, the Committee evaluated the retirement benefits provided to participants in the SERP and the long term costs the Company bears in maintaining such a plan. Subsequent to this evaluation, the Committee approved freezing the SERP for new participants effective January 1, 2007. In lieu of the SERP, all new officers will receive an additional contribution of 4% of base salary and bonus to their non-qualified executive deferred compensation account for up to 10 years, as described below.

Non-qualified Deferred Compensation Plan. The Executive Deferred Compensation Plan (EDCP) is available to all executive officers and other employees who are excluded from participating in our qualified 401(k) plan in order to meet the Internal Revenue Service (IRS) requirements. Participants may defer up to 50% of base salary and up to 100% of their annual cash bonus. The matching and vesting provisions are as follows:

Matching Contribution**Vesting**

100% of the first 3% of deferred base and bonus

4 years / 25% vesting per year

All of the named executive officers are participants in the EDCP. Prior to 1990, two of the named executive officers were eligible to participate in the qualified Jack in the Box Inc. EasySaver Plus (the E\$P) Plan which includes a cash-or-deferred arrangement under Section 401(k) of the Internal Revenue Code. Executive officers and certain other highly compensated employees were excluded from participating in the E\$P Plan after 1989. Executive officers with existing cash balances in the E\$P Plan as of 1989 are able to maintain their balances in the E\$P Plan; however, they can no longer make deferrals into the Plan.

Review of Compensation Benchmarking Executive Compensation

Each component of compensation for our executive officers discussed above is based on external market comparisons and internal comparisons of positions with similar scope of responsibility. For most executive positions, there are two

primary sources of compensation survey data: 1) Towers Perrin executive compensation database for general industry data, and 2) Chain Restaurant Compensation survey for industry-specific data of our industry peer group. Proxy data for executive positions in our industry peer group is also used for the named executive officer positions. When analyzing the data, Towers Perrin typically uses regression analysis to adjust the data for differences in company size.

The companies in the industry peer group are reviewed periodically and changes made if necessary. In 2007, the Committee approved a change in the industry peer group to emphasize companies with short and long-term growth potential and market capitalization more similar to Jack in the Box Inc., and a high level of brand recognition. The Committee also considered the companies with which we compete for business and executive talent. The new industry peer group was part of the comparative benchmark group used to establish

base, annual incentive, and long-term incentive targets for fiscal year 2008. The median revenue of the 2008 industry peer group is over 30% higher than the 2007 peer group (from \$1.5 Billion to \$2.0 Billion) and more closely approximates the annual revenue of Jack in the Box Inc. than the 2007 industry peer group.

Review of Compensation Tally Sheets

Each year, the Committee reviews the various components of CEO and other executive officers' compensation. In fiscal year 2007 the Committee reviewed tally sheets including components of cash compensation, equity-based compensation, and retirement and welfare benefits. Compensation tally sheets detailing the compensation components were prepared by management and reviewed by the Committee for each of the named executive officers, with the exception of Mr. Schauf who retired on the last day of fiscal year 2007, September 30, 2007. The Committee believes that executive compensation in fiscal 2007 was reasonable in its totality.

Executive Stock Ownership Requirements

A key objective of our executive compensation program is alignment with the long-term interests of our stockholders. To this end, in 2002, the Company adopted stock ownership guidelines for all named executive officers and other officers at the senior vice president level and above. The guidelines are intended to encourage retention and align the financial interests of these executives with those of our stockholders. Both shares directly owned by the executive and restricted shares awarded to the executive apply toward fulfillment of stock ownership guidelines.

Each September, the Committee reviews the share ownership of each executive officer and facilitates meeting ownership requirements by granting restricted shares. Each grant of restricted shares reduces the value of future stock option grants over a five year period. For new hires and promotions to an eligible executive position, the restricted stock grants are presented to the Committee for approval generally at the next meeting following the date of hire or promotion.

Restricted shares are held in an escrow account maintained by the Company and vesting is subject to the executive officer's continued employment with the Company. Vested shares are determined and issued only upon termination.

Company stock ownership guidelines are the lesser of a fixed number of shares or a multiple of salary, as follows:

Position	Shares	Value as Multiple of Salary
Chairman & CEO	330,000	500%
President & COO	180,000	400%
Executive Vice President & CFO	110,000	300%
Senior Vice President	60,000	200%

Termination of Service

The named executive officers do not have employment or severance agreements, except in the event of a change of control as described in the Compensation and Benefits Assurance Agreement section below. When a named executive officer terminates employment with the Company, the executive will receive amounts according to the specific terms and provisions of each compensation or benefits plan as described below.

Amounts contributed under the Company's qualified and non-qualified deferred compensation plans.

Amounts accrued and vested through the Company's Pension Plans (Retirement Plan and SERP).

Any non-equity incentive award if terminated after the end of the fiscal year but before payment.

If eligible to retire under a Company-sponsored retirement plan, in addition to the above, under the terms of the award agreement, the executive is entitled to the following:

Accelerated vesting of options equal to 5% additional vesting for each full year of service with the Company, and accelerated vesting of stock awards in accordance with the vesting schedule of each award.

A prorated annual incentive award based on the number of full fiscal year periods completed prior to the effective date of retirement.

If an executive dies while employed by the Company, under the terms of the stock award agreement, all outstanding options and stock awards will become 100% vested on the date the executive terminates employment with the Company on account of death.

The values of additional potential payments to the NEOs are provided in the section titled *Potential Payments Upon Termination or Change in Control* in this Proxy Statement.

Compensation & Benefits Assurance Agreements

Each of the NEOs, and three other executive officers, are subject to a Compensation & Benefits Assurance Agreement that provides compensation in the form of a lump sum and other benefits for the coverage periods set forth in the section titled *Potential Payments Upon Termination or Change in Control* of this proxy. The list of covered

executives is reviewed periodically by the Committee. We believe these agreements are important to provide continuity of management and provide the incentive to remain with the Company and continue to focus on running the business in the event of a pending or actual change in control event. Each agreement has a term of two years, and is subject to automatic extension for additional two year terms unless either party to the agreement gives notice of intent not to renew.

A detailed discussion of the provisions of the Compensation & Benefits Assurance Agreements and the associated monetary values is provided in the section titled *Compensation & Benefits Assurance Agreements* on page 26 of this Proxy Statement.

Tax and Accounting Information

Compensation decisions for executive officers are made with consideration of the Internal Revenue Code Section 162(m) implications. Section 162(m) places a limit of one-million (\$1.0M) dollars on the amount of compensation that Jack in the Box can deduct in any one year for the named executive officers.

Table of Contents

Since performance-based pay is excluded from this limit, we have designed our compensation program to provide the largest portion of an executive's compensation through our annual cash incentive plan and long-term incentive plan in the form of stock options. Restricted stock awards are not considered performance-based under Section 162(m) and, accordingly, are subject to the \$1.0 million limit on deductibility. Under Code Section 409A, amounts deferred by an employee under a non-qualified deferred compensation plan (such as the SERP and EDCP) may be included in gross income when deferred and subject to a 20% additional federal tax, unless the plan complies with certain requirements related to the timing of deferral election and distribution decisions. Stock options may be exempt from Section 409A if the exercise price is not less than the fair market value on the grant date, the number of shares subject to option is fixed on the grant date, and there is no subsequent deferral feature under the option. We administer the SERP, the EDCP and stock option awards consistent with Section 409A requirements.

We account for option expensing under Statement of Financial Accounting Standards (SFAS) 123R and use a binomial valuation model prepared annually by AON Consulting to determine the fair value of our stock options at grant.

COMPENSATION COMMITTEE REPORT

Management of the Company has prepared the Compensation Discussion and Analysis of the Company's compensation programs. The Compensation Committee of the Board of Directors has reviewed and discussed with management and the Board the Compensation Discussion and Analysis contained in this proxy statement. Retirement Plan. The Company offers retirement benefits under a company-funded defined benefit plan. The Retirement Plan provides the same benefit available to other employees employed in an administrative, clerical, or restaurant hourly position who have reached age 21 and completed one year of service with at least 1,000 hours of service. The Plan provides that a participant retiring at age 65 will receive an annual benefit, as follows:

1. One-percent (1%) of Final Average Pay multiplied by Benefit Service, plus
2. 0.4% of Final Average Pay in excess of Covered Compensation multiplied by Benefit Service (maximum of 35 years of service).

Benefits are subject to grandfathered minimum benefit accruals under the previous plan as of December 31, 1988. Final Average Pay is defined as the highest five consecutive calendar years of pay (base and bonus) out of the last ten years of eligible service as an eligible employee. Pay excludes deferrals into the Executive Deferred Compensation Plan. Pay that can be taken into account for purposes of the formula is subject to an annual limit under the federal tax laws; the limit for 2007 is \$225,000. Benefit Service is defined as the entire period of employment in calendar years and months while an eligible employee. Participants are credited with one full year of vesting service for a Plan year during which 1,000 hours are worked. Participants are 100% vested after completing 5 years of vesting service or reaching Normal Retirement Age. Participants are 0% vested until they are 100% vested.

The Employee Retirement Income Security Act of 1974 (ERISA) and various tax laws may cause a reduction in the annual retirement benefit payable under the Retirement Plan. Although normal retirement age is 65, benefits may begin as early as age 55 if participants meet the service requirements defined in the Retirement Plan; benefits payable are reduced 5/12 of 1% for each month benefits begin before normal retirement age. Retirement Plan benefits are not permitted to be paid to participants while they are actively employed with Jack in the Box Inc. Retirement Plan benefits are typically paid in the form of a monthly annuity. Participants may not elect a lump sum payment under the Retirement Plan.

Supplemental Executive Retirement Plan. The SERP was established in 1990 for selected executives in response to legislation restricting qualified plan benefits for highly compensated employees. The SERP provides for a percentage of replacement income based on Service and Final Average Compensation. Final Average Compensation for purposes of the SERP is defined as the average of the five highest calendar years of pay (base salary and bonus) out of the last ten years of employment with the Company. Benefit Service is defined as the entire period of employment in calendar years and months while an eligible employee.

The SERP provides that a participant retiring at age 62 will receive an annual benefit, as follows:

1. The target replacement income from all Company funded sources, based on a maximum of 20 full years of service, is 60% of Final Average Compensation.

Table of Contents

2. For eligible officers with less than 20 years of service, the target percentage of 60% is reduced by applying a factor determined by dividing the number of years of actual service (maximum of 20 years) by 20.

In order to be eligible for a retirement benefit under the SERP, the participant must attain the earlier of age 62 or age 55 and ten years of service while employed at Jack in the Box or while disabled. Death benefits are payable if the participant dies while employed. Although normal retirement age is age 62, benefits may begin as early as age 55 reduced 5/12 of 1% for each month benefits begin before age 62. SERP benefits are not permitted to be paid to participants while they are actively employed with Jack in the Box Inc. Benefits are typically paid in the form of a monthly annuity. Participants may not elect a lump sum payment under the Plan. The SERP is unfunded and represents an unsecured claim against the Company.

Before 2007, each of the executive officers, including the named executive officers, could participate in the Company's defined benefit plan and Supplemental Executive Retirement Plan if they met certain eligibility requirements. In 2007, the Committee evaluated the retirement benefits provided to participants in the SERP and the long term costs the Company bears in maintaining such a plan. Based on this evaluation, the Committee approved freezing the SERP to new participants effective January 1, 2007, and instead providing that new officers will receive an additional Company contribution of 4% of base salary and bonus to their EDCP account for up to ten years.

Pension Benefits Table

The pension table below shows the actuarial present value of the accumulated benefits of each named executive officer as of the end of the measurement year, including years of credited service, under the Retirement Plan and Supplemental Executive Retirement Plan. Present values were calculated using the interest rate and mortality assumptions used in the Company's financial statements.

Participants are assumed to retire at the latest of

current age and age 62, the plan's earliest retirement date with unreduced benefits. No pre-retirement mortality, retirement or termination has been assumed for the present value factors.

- (2) As of the end of the measurement period (June 30, 2007), Mrs. Lang, Mr. Rebel and Mr. Schultz are not yet vested in the SERP.
- (3) As of the end of the measurement period (June 30, 2007), Mr. Rebel is the only NEO not vested in the Retirement Plan
- (4) Mr. Schauf retired September 30, 2007.

Executive Deferred Compensation Plan. The EDCP was adopted in 1990 for all executive officers and other employees excluded from participation in the Easy\$aver Plus 401k Plan (E\$P Plan) and is a non-qualified deferred compensation plan. The EDCP is unfunded, and participants' accounts represent unsecured claims against the Company.

Participants may defer up to 50% of base salary and up to 100% (less applicable taxes) of bonus pay. The Company matches 100% of the first 3% of the participant's compensation that is deferred into the EDCP. Participants receive full and immediate vesting of their own contributions and vest in the matching contributions at the rate of 25% per year, becoming fully vested only after they have completed four full years of service with the Company.

As described above, beginning in January 1, 2007, new officers who otherwise would have been eligible for the SERP, receive an additional Company contribution for up to ten years, of 4% of base salary and bonus in their EDCP account. Participants vest 25% per year in the additional Company contributions.

The EDCP provides for a choice of 18 funds in an array of asset classes made available by the Company and selected by the participant. Benefits under this plan include an earnings component based upon theoretical investment options (they are designed to match the performance of actual investments). Investment options do not provide preferential earnings.

A participating officer elects when plan year balances are distributed, while employed and/or upon separation from service. All distributions are subject to the requirements of Section 409A of the Internal Revenue Code. In general, the following refers to non-vested balances and amounts deferred after January 1, 2005;

1. A participant may elect when making a deferral election to receive distributions from the EDCP, called Scheduled In-Service Withdrawals, while employed. Vested company contributions are excluded this type of withdrawal. Scheduled In-Service Withdrawals permit a participant to receive a specific plan year's deferral balance as early as 2 years after the end of the plan year. Scheduled In-Service Withdrawals are paid in January of the year as designated by the officer in the form of a lump sum. These withdrawals may not be

accelerated. Election changes are subject to a five year delay in the start of benefit payments from the former scheduled withdrawal date.

2. During each open enrollment, a participant may elect the method in which deferrals are paid upon termination of employment. Participants may select from two to ten annual installments or a lump sum. Although elections are carried forward year to year, a different payment method may be selected for a new plan year. Election changes are subject to a five year delay in the start of benefit payments from termination as defined under IRC 409A.

Amounts deferred and vested before January 1, 2005, are grandfathered and are not subject to IRC 409A (including, the five year delay rule and the specified employee rule).

Compensation & Benefits Assurance Agreements. The Company considers Compensation & Benefits Assurance (CIC) agreements it has entered into with key executives to be in the best interest of its stockholders to foster the continuous employment of key management without potential distraction or

Table of Contents

personal concern if the Company were to be acquired by another company (change in control). These agreements help facilitate successful performance by key executive officers during an impending change in control, by protecting them against the loss of their positions following a change in the ownership or control of the Company, and ensuring that their expectations for long-term incentive compensation arrangements will be fulfilled. Generally, under the agreements, a change in control is defined to include (i) the acquisition by any person or group of 50% or more of the combined voting power of the Company (excluding acquisitions by the Company benefit plans or certain affiliates), (ii) individuals constituting our board of directors generally cease to constitute a majority of the board, (iii) certain mergers, consolidations, sales of assets or a stockholder-approved liquidation of the Company.

These agreements provide certain specified benefits if, within twenty-four full (24) calendar months from the effective date of a change in control event, their employment is terminated (i) involuntarily other than for cause, death, or disability or (ii) voluntarily for good reason. Voluntary termination for good reason is defined as (i) the assignment of the executive officer to duties or responsibilities inconsistent with the executive's status or a reduction or alteration in the nature or status of the executive's duties or responsibilities in effect as of ninety (90) days prior to the change in control event, (ii) the acquiring company's requirement that an executive be based at a location in excess of fifty (50) miles from the executive's location immediately prior to a change in control, (iii) a reduction in base salary in effect on the effective date of the change in control or failure by the company to increase annual base salary from time to time, (iv) failure of the acquiring Company to keep in effect any of the Company's compensation, health and welfare, or retirement benefit plans, or any perquisites unless an alternative plan is provided of at least a comparable value, or (v) any breach by the acquiring Company of its obligations under this agreement. These terms are defined as a Qualifying Termination. CIC agreement benefits are not provided for terminations by reason of death, disability, voluntary termination without Good Reason, or the Company's involuntary termination of the Executive's employment for Cause.

In the event of a change in control of the Company and Qualifying Termination of an executive covered under a Compensation & Benefits Assurance agreement, the executive is entitled to the following severance benefits:

1. A lump-sum cash payment equal to the executive's unpaid annualized base salary, accrued vacation pay, and unreimbursed business expenses.
2. A lump sum cash amount equal to a multiple of the executive's then-current annual base salary.

Officer	Position	Multiple of Salary
Linda A. Lang	Chairman & CEO	3.0
Jerry P. Rebel	EVP & CFO	2.5
Paul L. Schultz	President & COO	2.5
Lawrence E. Schauf	EVP, Secretary	2.5
David M. Theno	SVP, Quality & Logistics	1.5

3. A lump sum cash incentive award equal to the greater of the average bonus percentage for the last three fiscal years prior to the change in control effective date times the lump sum cash amount described in #2 above, or the average dollar amount of bonus paid for the last three fiscal years prior to the change in control. If an executive doesn't have three full years of incentive awards, the Company will apply the target incentive award percentage for each missing year.
4. Continuation of health insurance coverage at the same cost and same coverage level as in effective of an executive's Qualifying Termination (subject to changes in coverage levels applicable to all employees

generally) for a specified coverage period. This coverage runs concurrently with any coverage provided under the COBRA. If this requires a monthly payment amount, the Company will pay the required amount adjusted on a pre-tax basis. If an executive receives health insurance coverage with a subsequent employer prior to the end of 18 months, the continuation of health insurance coverage under this agreement will be discontinued.

Officer	Position	Coverage Period
Linda A. Lang	Chairman & CEO	36 months

5. The executive officer shall receive standard outplacement services, at Company expense, from a nationally recognized outplacement firm selected by the executive officer, for a period of up to one (1) year from the date of Qualifying Termination.
6. All unvested restricted stock and stock options become fully vested, subject to the terms of the applicable Company Stock Incentive Plan.
7. In the event that any portion of the payments and benefits provided for under the agreement are considered excess parachute payments under section 280G of the Internal Revenue Code and are thus subject to the 20% excise tax imposed by Section 4999 of the Internal Revenue Code, the agreement provides for a conditional gross-up payment to reimburse the executive for the excise tax and additional taxes resulting from the imposition of the excise tax. The gross-up payment will be made, however, only if the amounts treated as parachute payments under Section 280G exceed the maximum amount payable under Section 280G (the Section 280G Limit) by more than 10%. If the parachute payments exceed the Section 280G limit by 10% or less, then the payments to the executive officer will be reduced to an amount that is one dollar less the Section 280G limit. The potential tax gross up payment is only applicable in the event of a change of control of the Company and, in the Committee's view, is an appropriate method for the Company to insulate the executives from excise tax imposed under Section 1999 of the Code.

The following tables show potential payments to our named executive officers under our existing CIC agreement assuming a September 30, 2007 termination date and, where applicable, using the closing price of our common stock of \$32.42 on September 28, 2007 (the last NYSE trading day in the fiscal year).

Supplemental Executive Retirement Plan. In the event of a change in control and an involuntary termination not for cause or a voluntary termination for good reason, in accordance with the SERP, the named executive officer shall receive, in the form of three annual installments commencing on termination, the actuarial equivalent of his/her accrued early retirement benefit. Distributions under the SERP are subject to guidelines as listed under Section 409A of the Internal Revenue Code.

Non-Qualified Deferred Compensation. In the event of a change in control, in accordance with the Executive Deferred Compensation Plan, participants shall become 100% vested. Accounts shall be distributed in accordance with the participant's existing distribution election (on termination of employment or under a scheduled in-service withdrawal). Distributions under the EDCP are subject to guidelines as listed under Section 409A of the Internal Revenue Code.

Potential Payments Upon Termination or Change in Control

The following table shows potential payments to our named executive officers in the event of both (i) a change in control and (ii) either an involuntary termination not for cause or a voluntary termination for good reason under our Compensation and Benefits Assurance agreement, assuming a September 30, 2007 effective date and, where

applicable, using the closing price of our common stock of \$32.42 on September 28, 2007 (the last NYSE trading day in the fiscal year). The numbers shown in the table reflect additional payments resulting from the double trigger of a change in control and involuntary termination not for cause or voluntary termination for good reason. The number of vested shares and payments under the qualified pension plan and non-qualified deferred compensation plan are included in the tables disclosed earlier in this proxy titled *Outstanding Equity Awards at Fiscal Year End 2007* , *Pension Benefits Table* , and *Non-Qualified Deferred Compensation Table* , respectively.

In the event of a termination not related to a change in control, named executive officers will receive amounts under the terms and provisions of the specific plans in which they are a participant. The amounts shown in the table below reflect additional compensation that would become payable under existing plans and arrangements if the named executive officer's employment had terminated on September 30, 2007. The

- (A) Ms. Lang, Mr. Rebel, and Mr. Schultz are not eligible to retire under any company sponsored plan as the end of fiscal 2007.
- (B) No estimated benefits and payments are provided as Mr. Schauf retired effective 9/30/2007.
- (C) Mr. Theno is eligible to retire under a company sponsored retirement plan.
- (1) Reflects multiple of annualized base salary and annual incentive value as described in the Compensation and Benefits Assurance Agreement section of this proxy.
- (2) The value of the equity awards presented in this table is based on the fiscal year end closing price of Jack in the Box common stock on 9/30/07, \$32.42. The numbers represent the unvested portion that would be accelerated upon termination. The calculation of accelerated vesting of stock awards assume that the

Table of Contents

executive would be eligible to retire under a company sponsored retirement plan at the time of termination with the Company.

- a) **Stock Awards** Upon termination not related to a change in control, if eligible to retire under a company sponsored retirement plan, determination of shares vested is based on a schedule of the greater of a) 30% of the award vesting three years from the date of grant, and 10% vesting for each year of service thereafter as of the date of retirement, or b) such vesting as would have occurred had 10% of the Award vested for each year of service with the Company, or c) in such greater amount as may be determined by the Board in its sole discretion. If not eligible to retire under a company sponsored retirement plan, determination of shares vested is based on a schedule of 15% vesting on or after 3 years from the grant date, and 5% vesting for each year of service thereafter as of the termination date. Stock awards vest 100% in the event of death or disability, and 100% in the event of termination resulting from a change in control.
 - b) **Option Awards** Upon termination not related to a change in control, and if eligible to retire under a company sponsored retirement plan, determination of shares vested here is based on a formula of 5% additional vesting for each year of service with the Company. There is no acceleration of Option Awards if not eligible to retire under a company sponsored retirement plan. Option awards will vest 100% in the event of Death, and on Disability is based on the number of shares which would have been vested as of twelve months following the Optionee's first day of absence from work with the Company. For purposes of this table, no additional vesting is applied in the event of a Disability.
- (3) Annual benefit amounts listed for each NEO are subject to the vesting provisions of the SERP. Please review the Pension Benefits section for plan and vesting information. All values shown for SERP represent present values with the exception of disability. Disability benefits shown are annual amounts paid to the executive over their lifetime. Mrs. Lang, Mr. Rebel, and Mr. Schultz are not vested in the SERP. Mr. Theno is 100% vested. Values presented for Non-Qualified Pension benefits are based on the following:
- a) In the event of a voluntary/involuntary termination or death, benefit values are based on accrued benefits as of fiscal year end payable at normal retirement and were calculated based on a discount rate of 6.50% as of June 30, 2007 and the RP-2000 Mortality Table, projected to 2010 combined for employees and annuitants, separate for males and females with white collar adjustment using scale AA. In the event of death while actively employed, the amount of the survivor benefit shall be one (1) times the participant's compensation and shall be defined as annualized current base salary plus the average of the bonuses paid for the three (3) most recent completed fiscal years. If, however, the date of death is at age 55 or later, the amount of the survivor benefit shall be the greater of one (1) times the participant's compensation or the actuarial equivalent lump sum present value of the participant's supplemental retirement benefit. Such benefit shall not be subject to any reduction of benefits.
 - b) Disability benefits shown assume an NEO terminates employment with Company due to disability and remains continuously disabled until reaching early retirement age. Benefit values are based on accrued benefits as of the NEO's earliest retirement age and were calculated based on a discount rate of 6.50% as of June 30, 2007 and the RP-2000 Mortality Table, projected to 2010 combined for employees and annuitants, separate for males and females with white collar adjustment using scale AA.
 - c) In the event of a change in control, participants become 100% vested. Benefit values are based on accrued benefits as of fiscal year end and were calculated based on a discount rate of 6% and the RP-2000 Mortality Table, projected to 2010 combined for employees and annuitants, separate for males and females with white collar adjustment using scale AA.

- (4) Reflects benefits continuation as described on page 27 of this proxy and an outplacement estimate of \$10,000.
- (5) If any portion of the payments and benefits provided for in an agreement would be considered excess parachute payments under Section 280G(b)(1) of the Internal Revenue Code and subject to excise tax, then the agreement provides for a conditional gross up provision whereby excise taxes are grossed up. In the event that the parachute payment exceeds the excise tax threshold by 10% or less, the executive severance is reduced to \$1.00 below the threshold so that executives are not subject to excise taxes.

DIRECTOR COMPENSATION AND STOCK OWNERSHIP GUIDELINES

The Compensation Committee recommends to the Board the form and amount of compensation for non-employee directors. Only non-employee directors are paid for serving as directors. The Board believes that level of director compensation generally should be competitive with that paid to directors of other corporations of similar size in the United States.

Annual Retainer

Each non-employee director is entitled to receive an annual cash retainer of \$30,000. The lead director of the Board receives an additional \$10,000 retainer. The Company reimburses non-employee directors for actual travel and out-of-pockets expenses incurred in connection with attendance at Board and committee meetings.

Committee Retainer and Meeting Fees

In addition to the annual retainer, each non-employee director who serves as a committee chair receives a retainer for such service in the amount of \$10,000 for the Chair of the Audit Committee and \$5,000 for all other committees of the Board, including the Compensation, Nominating and Governance, and Finance committees. Non-employee directors also receive a meeting fee of \$2,500 for attendance at the annual shareholder meeting, \$2,500 for attendance at each Board of Directors meeting, and \$1,500 for attendance at each Committee meeting. Effective February 2008, the annual retainer for the Chair of the Compensation Committee will increase from \$5,000 to \$10,000.

Deferred Compensation Plan

Non-Employee directors may elect to defer all or a portion of their annual retainer and fees in the form of common stock equivalent units under the Jack in the Box Inc. Deferred Compensation Plan for Non-Management Directors. The number of common stock equivalents credited to a non-employee director's account is based on a per share price equal to the average of the closing price of Jack in the Box Inc. stock on the NYSE during the ten (10) trading days immediately preceding the date of crediting. Amounts credited to the accounts are settled in an equal number of shares of common stock when the Director retires or terminates service from the Board. The deferred compensation plan is a non-qualified plan.

Equity Awards

Each non-employee director may receive an annual stock option grant at the Board's September meeting under the 2004 Stock Incentive Plan. The number of stock options granted is based on a targeted total direct compensation value at the 50th percentile of market data for companies with a market cap similar to Jack in the Box. These stock options vest six months after the grant date and have an exercise price equal to the closing price of Jack in the Box Inc. common stock on the date of grant.

Initial Stock Option Grant Dates for Newly-Elected Non-Employee Directors

Upon joining the Board of Directors, non-employee directors are granted an initial stock option award under the 2004 Stock Incentive Plan, a shareholder approved Plan. The number of stock options granted is determined by multiplying the number of shares awarded in the most recent annual grant to non-employee directors by two. These options fully vest six months from the grant date and have an exercise price equal to the closing price of Jack in the Box common stock on the date of grant. George Fellows, newly-elected on November 9, 2006, was granted an initial stock option grant of 18,400 shares on the date of his election to the Board.

Director Stock Ownership Guidelines

The Board believes that all directors should have a meaningful ownership interest in Jack in the Box Inc. to align their interests with those of our stockholders. Prior to August 2007, non-management directors were expected to hold at least 10,000 shares of Jack in the Box common stock within three years of joining the Board. In fiscal 2007, the ownership guidelines were reviewed with requirements of other companies in our peer group and a revision was made to the Corporate Governance Principles and Practices to change the ownership expectation to \$150,000 in defined total value of stock within three years of joining the Board, exclusive of any stock options. Direct or indirect holdings and the equivalent number of Company shares

derived from any compensation that is deferred in the Non-Management Employee Deferred Compensation Plan are counted toward meeting stock ownership guidelines.

The following table provides information regarding compensation for each of the Company's non-employee directors for fiscal year 2007. The Company's non-employee director compensation program is comprised of cash (board and committee retainers and fees) and equity (deferred stock units and stock options).

(1) Mr. Payne retired from the Board effective 2/15/2007.

(2) Mr. Fellows received a new hire grant at the beginning of his term of service on 11/09/2006.

(3) Because the Company inadvertently neglected to provide a new hire grant to Ms. Gust at the beginning of her term of service in 2003, Ms. Gust received an additional grant of 30,000 shares in November 2006.

(4) The amount reported in the Fees Earned or Paid In Cash column reflects total cash compensation paid to each director in 2007 and includes amounts deferred at the director's election.

(5) The amount reported in the Option Awards column reflects stock option grants under the 2004 Stock Incentive Plan. The stock options vest 100% at six months from the date of grant. This column represents the dollar amount expensed in the Company's financial statement in 2007 for options awards pursuant to SFAS 123R, using a fair value of \$13.75 and \$13.41 for options granted on 11/09/2006 and 9/14/2007, respectively. Refer to note 8 of the Company's financial statements in the Form 10-K for valuation assumptions. There were no forfeitures during the year by non-employee directors. The table below sets forth the number of stock options awarded in 2007 and the aggregate number of shares underlying stock options outstanding at the end of 2007.

Name	2007 # Shares Granted	Aggregate Number of Stock Options Outstanding at 9/30/07

Dr. Hayes	19,200	83,400
Mr. Hutchison	19,200	100,600
Mr. Murphy	19,200	48,400
Mr. Payne	9,200	150,600
Mr. Tehle	19,200	48,400

(6) Non-employee directors received two stock option grants in 2007 due to a change in the timing of Board grants from November of each year to an annual grant in September of each year. This aligns the granting of Board grants with those of executive officers of the Company.
