President and CEO

BANNER CORPORATION REPORTS FOURTH QUARTER AND FULL YEAR RESULTS

Walla Walla, WA February 5, 2003 Banner Corporation (Nasdaq: BANR), the parent company of Banner Bank, today reported a net loss of \$1.6 million, or \$(0.14) per diluted share for the fourth quarter, compared to net income of \$3.7 million, or \$0.32 per diluted share, in the fourth quarter of 2001. For the year ended December 31, 2002, net income was \$9.3 million, or \$0.82 per diluted share, compared to \$7.5 million, or \$0.64 per diluted share, for the year ended 2001.

Asset Quality

"We announced on December 20, 2002, that a portion of our loan portfolio was experiencing signs of deterioration, which would require us to substantially increase the quarterly loan loss provision to bolster reserves," said D. Michael Jones, President and Chief Executive Officer. "Subsequent to that announcement, additional deterioration has become evident and the Puget Sound economy has continued to weaken. In light of these events, we have increased the provision for loan losses to \$10.0 million for the quarter ended December 31, 2002. We are hopeful that this additional provision will allow us to return to a more normal level of provision in 2003."

Non-performing assets increased to \$42.2 million, or 1.86% of total assets, at December 31, 2002. The allowance for loan losses was \$26.5 million, or 1.69% of total loans outstanding, at December 31, 2002, compared to \$17.6 million, or 1.10% of loans, a year earlier. Net charge-offs to average loans outstanding improved to 0.16% for the quarter ended December 31, 2002, from 0.32% in the fourth quarter of 2001. For the year ended December 31, 2002, net charge-offs were 0.78%, compared to 0.75% for the prior year. "The problem loans are primarily due from borrowers located in the Puget Sound region, and are the result of poor risk assessment at the time they were originated coupled with weakened economic conditions in that area," said Jones. "We continue to direct significant efforts toward overall asset quality and managing non-performing loans, and we have substantially upgraded our risk-assessment procedures.

"2002 was a very difficult year for Banner Corporation. While we have been successful in building a new management team, adding a number of seasoned commercial lending officers, growing our Bank's deposit portfolio, improving the Company's balance sheet liquidity and augmenting our capital structure, the continuing deterioration of the quality of our loan portfolio and the resulting impact on our earnings performance is very disappointing," said Jones.

Income Statement Review

Revenues (net interest income before the provision for loan losses plus other operating income) for the quarter ended December 31, 2002, increased 12%, to \$25.1 million compared to \$22.4 million for the same quarter a year earlier. For the year ended December 31, 2002, revenues increased 11% to \$94.2 million compared to \$85.2 million for 2001.

Net interest margin was 3.86% in the fourth quarter of 2002, a six basis point improvement from the 3.80% margin generated in the fourth quarter of 2001. Net interest margin for the year ended December 31, 2002 was 3.91%, an 18 basis point improvement from a year ago. "Funding costs have declined as interest rates remain extraordinarily low, and we continue to grow our deposit base. This decline in costs has contributed to an improvement in our interest margin. However, the Federal Reserve's most recent rate cut, combined with the Bank's increase in non-performing assets, has placed pressure on asset yields and compressed our net interest margin during the last half of the quarter," said Jones.

Mortgage banking activities for both purchases and refinancing continue to contribute to other operating income as housing markets remain strong. Real estate loan production for the year, including construction loans, surpassed \$1 billion for the first time in the Company's history. Other operating income increased 42% to \$5.2 million in the fourth quarter of 2002, from \$3.7 million in the same quarter a year ago. Income from mortgage banking operations grew to \$2.7 million while deposit fees totaled \$1.5 million during the quarter compared to \$1.2 million and \$1.5 million, respectively, in the same quarter a year ago. For the year ended December 31, 2002, other operating income reached \$15.9 million, an 18% improvement over the \$13.5 million generated in the previous year.

(more)

<PAGE>

"We have expanded our franchise through the acquisition of Oregon Business Bank in January 2002 and de novo branches in Spokane and Pasco, Washington," Jones said. "We also have added commercial lending centers in Portland, Seattle, Spokane and the Tri-Cities, and staffed them with a number of experienced commercial bankers; and we have embarked on a regional advertising and marketing campaign. We anticipate increased contributions from each of these efforts in the coming year."

Other operating expenses were \$18.0 million for the fourth quarter of 2002, compared to \$13.1 million in the fourth quarter of 2001. Other operating expenses were \$60.4 million for all of 2002, compared to \$59.6 million for 2001. Fourth quarter 2002 expenses increased because of a number of seasoned commercial lending officers that have been added to staff but have not yet had time to convert their long-term customers to Banner Bank. Additionally, expenses were increased when compared to the fourth quarter of 2001 due to significant increases in incentive compensation caused by excellent fourth quarter mortgage banking results along with elevated compensation and collection expenses related to management of the Bank's problem loan portfolio.

Following the adoption of Financial Accounting Standards No. 142, Banner Bank no longer amortizes goodwill associated with intangible assets from acquisitions. Consequently, goodwill amortization expenses have been significantly lower this year compared to comparable periods a year earlier. Goodwill amortization expense was \$795,000 in the fourth quarter of 2001 and \$3.2 million for the year ended December 31, 2001.

Balance Sheet Review

Total assets increased 8% to \$2.26 billion at December 31, 2002, from \$2.09 billion at December 31, 2001, while stockholders' equity declined to \$190.4 million from \$192.3 million over the same period. Book value per share at

December 31, 2002, increased to \$17.64 per share from \$17.40 per share a year earlier. Tangible book value per share at December 31, 2002, was \$14.24 per share compared to \$14.55 per share at December 31, 2001. During the fourth quarter 58,000 shares were repurchased by the Company, bringing the total shares repurchased during 2002 to 423,000.

Banner's loan portfolio declined slightly to \$1.55 billion at December 31, 2002. "Commercial and agricultural loans continue to represent a larger portion of the total loan portfolio as production of these types of loans increases and term real estate loans decline through sales to the secondary market and refinancing activity," said Jones. Commercial and agricultural loans increased 12% and now represent 25% of the loan portfolio. Residential construction and development lending remained strong, contributing significantly to revenue growth throughout the year as average balances exceeded prior year levels, although the December 31, 2002 balance of these types of loans was nearly unchanged from a year earlier.

Deposits increased 16% to \$1.5 billion at December 31, 2002, from \$1.3 billion a year earlier, which substantially improved balance sheet liquidity. Largely as a result of the strong customer deposit growth, the Company increased its investment in interest bearing deposits, federal funds sold, and securities, while also repaying a portion of its borrowings. As a result, cash and securities increased 48% to \$567.4 million at December 31, 2002, compared to \$384.4 million at December 31, 2001, and borrowings declined by \$31.8 million, or 5%, to \$547.0 million at December 31, 2002, compared to \$578.7 million at December 31, 2001. In addition, during the year the Company significantly strengthened its capital position by issuing \$40 million of Trust Preferred Securities.

Conference Call

The Company will host a conference call today, February 5, 2003 at 1:30 p.m. PST, to discuss fourth quarter and year end results. The conference call can be accessed live by telephone at 303-205-0033 or from the Company's website at www.banrbank.com, or www.companyboardroom.com. Institutional investors may access the call via www.streetevents.com. An archived recording of the call can be accessed by dialing 303-590-3000, access code 522830 until February 19, 2003, or via the Internet at www.companyboardroom.com through February 26, 2003.

Banner Corporation is the parent of Banner Bank, a commercial bank which operates a total of 41 branch offices and seven loan offices in 19 counties in Washington, Oregon and Idaho. Banner serves the Pacific Northwest region with a full range of deposit services and business, commercial real estate, construction, residential, agricultural and consumer loans. Visit Banner Bank on the Web at www.banrbank.com.

Statements concerning future performance, developments or events, expectations for earnings, growth and market forecasts, and any other guidance on future periods, constitute forward-looking statements, which are subject to a number of risks and uncertainties that are beyond the Company's control and might cause actual results to differ materially from the expectations and stated objectives. Factors which could cause actual results to differ materially include, but are not limited to, regional and general economic conditions, changes in interest rates, deposit flows, demand for mortgages and other loans, real estate values, competition, loan delinquency rates, changes in accounting principles, practices, policies or guidelines, changes in legislation or regulation, other economic, competitive, governmental, regulatory and technological factors affecting operations, pricing, products and services, Banner's ability to successfully resolve outstanding credit issues and recover check kiting losses, and the Company's stock repurchase activity. Accordingly, these factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements. Banner undertakes no responsibility to update or revise any forward-looking statements.
