Concentration Policy

The Fund has adopted a concentration policy that permits it to concentrate its investments in any industry or group of industries in the IPC Index (or any successor or comparable index as determined by the Board of Directors to be an appropriate measure of the Mexican market) if, at the

Edgar Filing: MEXICO FUND INC - Form N-30B-2

time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%.

Currently, the only industry group that represents 20% or more of the value of the securities included in the IPC Index is the communications industry group. This industry category includes local, long-distance, and cellular telephone companies, as well as broadcast and media companies. Approximately 86% of this industry group is comprised of stocks of telecommunications companies. As of the end of the Fund's third fiscal quarter, 26.89% of the Fund's net assets were invested in the communications sector. This is compared with the communications industry group's weighting of 41.15% of the IPC Index. The Fund's investment adviser will continue to evaluate the concentration in this industry and may choose not to concentrate in this industry group in the future or to concentrate in other industries subject to the concentration policy described above.

Periodic Repurchase Offer Policy

The Fund has a fundamental policy to conduct periodic in-kind repurchase offers at no less than 98% of NAV for between one and one hundred percent of the Fund's outstanding shares. This policy is intended to provide additional liquidity to Fund shares and to reduce the discount at which Fund shares have been trading on the NYSE. Under this policy which was approved by stockholders and is the subject of exemptive relief granted by the Securities and Exchange Commission, the Fund offers to repurchase no less than five percent of the Fund's outstanding shares each fiscal year, based on the number of shares outstanding at the beginning of the fiscal year. Repurchase offers are in-kind and conducted at least once each fiscal year, but not more frequently than quarterly. The Board can set or reset the periodic interval between repurchase offers at three, six or 12 months.

The Fund anticipates conducting its next repurchase offer in January 2004.

The repurchase offers are not part of a plan to liquidate the Fund. Stockholder participation in the repurchase offers is not mandatory. Stockholders can continue to purchase and sell Fund shares in cash transactions on the New York Stock Exchange. The Fund continues to provide a convenient professionally managed vehicle for investing in Mexico.
