Waterhouse Auditores Independentes, referring to the year ended on December 31, 2001;

- 6.3 - the proposal of the Executive Board with favorable report from the Board of Directors on the allocation of the income for the year ended December 31, 2001, with the following text: "PROPOSAL FOR ALLOCATION OF INCOME FOR THE FISCAL YEAR ENDING ON DECEMBER 31, 2001. Directors. The Executive Board of Companhia Vale do Rio Doce, bearing in mind the provision in Article 192 of Law 6404/76 and Articles 31 to 36 of the Company Bylaws, hereby present to the Board of Directors a proposal to allocate the income calculated for the fiscal year ending on December 31, 2001. The net income for the year, demonstrated in the Income Statement, was R\$ 3.050.710.253,98 (three billion, fifty million, seven hundred and ten thousand, two hundred and fifty-three reais and ninety-eight cents), already having deducted the necessary reserves, pursuant to accounting practices stated in Law 6404/76. From the net income should be deducted R\$ 22.160.250,00 (twenty-two million, one hundred and sixty thousand, two hundred and fifty reais) reconciled by actuarial calculations of the pension fund pursuant to the CVM (Brazilian securities exchange commission) #371 dated December 13, 2000 made directly in the net equity as an adjustment of previous years plus revenue reserves payable of R\$ 438.097.116,95 (four hundred and thirty-eight million, ninety-seven thousand, one hundred and sixteen reais and ninety-five cents). The total of such values

3

Minutes of Ordinary and Extraordinary Shareholders Meetings held on April 29, 2002 - Continued

is R\$ 3.466.647.120,93 (three billion, four hundred and sixty-six million, six hundred and forty-seven thousand, one hundred and twenty reais and ninety-three cents) the proposed allocation of which is as follows: I - LEGAL RESERVE: Five percent of the net income for the year to the limit of 20% (twenty percent) of the Share Capital must be allocated to this reserve, pursuant to the provision in Article 193 of 6404/76 and Article 32 of the Company Bylaws, that is, R\$ 152.535.512,70 (one hundred and fifty-two million, five hundred and thirty-five thousand, five hundred and twelve reais and seventy cents). II - DIVIDENDS/INTEREST ON OWN CAPITAL: The mandatory dividend of 25%, prescribed in Article 202 of Law 6404/76 and Article 34 of the Company Bylaws, is determined based on the adjusted net income, for the year 2001 is R\$ 3.282.303.566,44 (three billion, two hundred and eighty-two million, three hundred and three thousand, five hundred and sixty-six reais and forty-four cents). It corresponds to the net income for the year of R\$ 3.050.710.253,98 (three billion, fifty million, seven hundred and ten thousand, two hundred and fifty-three reais and ninety-eight cents), deducting from the constituted legal reserve of R\$ 152.535.512,70 (one hundred and fifty-two million, five hundred and thirty-five thousand, five hundred and twelve reais and seventy cents), from the tax incentive reserve - ADA/ ADENE (Amazon Development Agency and Northeast Development Agency) of R\$ 53.968.291,79 (fifty three million, nine hundred and sixty-eight thousand, two hundred and ninety-one reais and seventy-nine cents) plus the realizations for the year of the future income reserve of R\$ 438.097.116,95 (four hundred and thirty-eight million, ninety-seven thousand, one hundred and sixteen reais and ninety-five cents). Thus, the minimum dividend of 25% of the adjusted net income would be R\$ 820.575.891,61 (eight hundred and twenty

million, five hundred and seventy-five thousand, eight hundred and ninety-one reais and sixty-one cents). Article 5 of the Company Bylaws provides that the preferred shares have priority in receiving a minimum annual dividend of 6% on the portion of capital constituted by this kind of share. On December 31, 2001, this reference value for the annual minimum dividend is R\$ 85.593.621,11 (eighty-five million, five hundred and ninety-three thousand, six hundred and twenty-one reais and eleven cents) and corresponds to R\$ 0,62 (sixty-two cents) per preferred share in circulation. However, considering the prerogative to pay interest on own capital, based on Article 32, sole paragraph, of the Company Bylaws, as well as the status of the Company cash, the Executive Board hereby

4

Minutes of Ordinary and Extraordinary Shareholders Meetings held on April 29, 2002 - Continued

proposes the ratification of the distribution proposed by the Executive Board and approved by the Board of Directors on November 22, 2001, to advance, as interest on own capital the sum of R\$ 1.773.475.629,40 (one billion, seven hundred and seventy-three million, four hundred and seventy-five thousand, six hundred and twenty-nine reais and forty cents), corresponding to R\$ 4,61 (four reais and sixty-one cents) per share in circulation, paid in two installments, the first being on December 10, 2001 and the second on April 30, 2002. III - TAX INCENTIVE RESERVE: The Company is beneficiary of income tax exemption on income from exploration regulated in Article 1, Decree law 1825/80, which instituted tax incentives for the Grande Carajas Program, today run by the Amazon Development Agency- ADA, in Article 22, of Decree-law 756/69, with regard to tax incentives assigned to the iron, manganese and gold projects of Igarape Bahia, run by the Northeast Development Agency-ADENE, and also, the provision in Article 13 of Law 4239/63, in relation to the tax incentives for the potash project. According to the Company records, the sum of income tax is R\$ 53.968.291,79 (fifty-three million, nine hundred and sixty-eight thousand, two hundred and ninetyone reais and seventy-nine cents). Under tax laws governing the incentive, in Article 545 of the Income Tax Rulings (RIR), the unpaid tax due to exemption cannot be distributed to the shareholders, and must be entered in a reserve to be used solely for increasing Share Capital or absorbing losses. Thus, although this reserve is not provided for in the Company Bylaws nor in corporate law, the allocation to it of the exempt tax value is mandatory in practical terms, pursuant to tax legislation, implying its nonformation in the waiver to exemption, with payment to the public treasury of the tax which would be due. From the aforementioned, we propose that the sum of R\$ 53.968.291,79 (fifty-three million, nine hundred and sixty-eight thousand, two hundred and ninety-one reais and seventy-nine cents) be allocated to this reserve. IV - EXPANSION RESERVE: It is proposed that the remaining balance of accumulated profits to the sum of R\$ 1.486.667.687,04 (one billion, four hundred and eighty-six million, six hundred and sixty-seven thousand, six hundred and eighty-seven reais and four cents) be allocated to the expansion reserve in order to attend the investment projects forecast in the budget of the Company. In pursuance of Article 196 of Law 6404/76, estimated investments for the year 2002, to a total of R\$ 2.438 million (US\$ 956 million), should be submitted to the Ordinary General Shareholders Meeting for approval. V - SUMMARY: The proposal herein allocates the net income for the year

hundred and sixty-eight thousand, two hundred and ninety-one reais and seventy-nine cents) without the issuance of new shares. Such incentives originate under Article 1 of Decree-Law # 1,825/80, which established tax incentives in the Greater Carajas Program, today administrated by the Amazonia Development Agency (ADA), under Article 22 of Decree-Law # 756/69, relating to tax incentives awarded to the Iron, Manganese and Gold Projects at Igarape-Bahia, administrated by the Northeast Development Agency (ADENE), and also under the provision of Article 13 of Law # 4,239/63, in relation to the tax incentives from the Potash Project. The legislation stated above determines that the income tax amount that is not paid by virtue of reduction of exemption based on this legislation may not be distributed to the partners or shareholders and shall constitute a corporate capital reserve that may only be used to absorb losses or increase Share Capital. Further, Article 199 of Law # 6,404/76 determines that the balance of the income reserves, except those for contingency and realizable income, may not exceed Share Capital. Once this limit is reached, the application of the excess in the paying-in or increase in capital stock, or in the distribution of dividends shall be deliberated at a shareholders meeting. After the distribution of the results for the year ended December 31, 2001, the income reserves exceed capital stock by R\$675,586,562.60 (six hundred and seventy-five million, five hundred and eighty-six thousand, five hundred and sixty-two reais and sixty cents). Accordingly, Management proposes the capitalization of the reserves below, without issuance of new shares: I) capitalization of the special monetary restatement reserve - Law # 8,200/91 in the amount of R\$440,258,156.02 (four hundred and forty million, two hundred and fifty-eight thousand, one hundred and fifty-six reais and two cents); II) capitalization of the tax incentives reserve (ADA/ADENE) in the amount of R\$53,968,291.79 (fifty-three million, nine hundred and sixty-eight thousand, two hundred and ninety-one reais and seventy-nine cents); III) capitalization of the income reserve in the exchange of shares R\$3,426,080.40 (three million, four hundred and twenty-six thousand, and eighty reais and forty cents);

## Edgar Filing: VALLEY OF THE RIO DOCE CO - Form 6-K

and IV) capitalization of part of the depletion reserve in the amount of R\$502,347,471.79 (five hundred and two million, three hundred and forty-seven thousand, four hundred and seventy-one reais and seventy-nine cents). Consequently, the Company's Share Capital of R\$4,000,000,000.00 (four billion reais), following capitalization of the aforementioned reserves, shall total R\$5,000,000,000.00 (five billion reais), as follows: current capital stock:
