Press Release

CVRD Acquires Anglo's Stake on Salobo

Rio de Janeiro, May 8, 2002 - Companhia Vale do Rio Doce (CVRD), through its subsidiaries Itabira Rio Doce Company Limited and Caulim do Brasil Investimentos S/A, and Anglo American plc (Anglo) have signed a purchase and sale contract for the transfer of Anglo's stake in Salobo Metais S/A (Salobo). CVRD is acquiring from Anglo 44,172,369 common shares, corresponding to 50% of Salobo's equity capital, for US\$ 50.9 million. The deal is still subject to the implementation of the usual conditions in this type of transaction. After its conclusion, CVRD will own, directly or indirectly

Edgar Filing: VALLEY OF THE RIO DOCE CO - Form 6-K

through its wholly-owned subsidiaries, 100% of Salobo's equity capital.

Salobo's mineral resources are estimated to have 784 million tons of ore with a 0.96% copper content and 0.6 grams of gold per ton. The exploration of the existing synergies in the Carajas mineral province, state of Para, Brazil - derived from an efficient logistics and electrical energy infrastructure - provides an additional incentive for developing Salobo. The availability of these synergies contributes to make CVRD's copper projects to be among the best in the world, in terms of capex cost per ton and operational costs as well.

CVRD will give priority to the pre-feasibility study of the Salobo project. One of the key issues is to confirm the technological route to be applied to the copper production process. This will allow some decisions to be made until yearend in order to meet the goal of starting production in 2007.

CVRD Carajas copper projects will consolidate the Company's position as one of the largest and most competitive global producers of this metal. They are world class assets and are included in its strategy to create shareholder value through the exploitation of profitable organic growth opportunities. In this regard, CVRD has already begun the construction works for the development of the Sossego copper project, which is expected to be commissioned in 2004.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Comissao de Valores Mobiliarios and the U.S. Securities and Exchange
