News Release**June 11, 2007****Financial reporting under US securities laws**

ICICI Bank Limited (NYSE: IBN) will shortly file its annual report in Form 20-F with the United States Securities Exchange Commission (SEC), incorporating consolidated financial statements under Indian GAAP including a reconciliation of profit after tax and networth under Indian GAAP to net income and stockholders' equity under US GAAP, approved by the Audit Committee of the Bank's Board of Directors. The consolidated profit after tax under Indian GAAP was Rs. 2,760 crore (US\$ 640 million) for the year ended March 31, 2007 (FY2007). As per the reconciliation statement between Indian GAAP and US GAAP, the net income (profit after tax) under US GAAP was Rs. 3,127 crore (US\$ 726 million) in FY2007, compared to Rs. 2,004 crore (US\$ 465 million) in the previous year. ICICI Bank's stockholders' equity at March 31, 2007 as per US GAAP was Rs. 24,098 crore (US\$ 5.6 billion) compared to the Indian GAAP consolidated net worth of Rs. 23,958 crore (US\$ 5.6 billion).

There are significant differences in the basis of accounting between US GAAP and Indian GAAP primarily relating to determination of allowance for loan losses (including for restructured loans & non-performing loans), unrealized gain on venture capital investments, amortization of fees and origination costs, accounting for business combinations, compensation cost, securitization and consolidation. Net income as per US GAAP for the year ended March 31, 2007 was higher than the consolidated profit after tax as per Indian GAAP primarily due to unrealized gains on venture capital investments accounted for in the income statement, lower losses for insurance subsidiaries due to release of actuarial reserves on policies which have lapsed in earlier years and gains on differences in accounting for securitization, under US GAAP, offset in part by amortization of loan origination fees net of costs, and compensation cost on employee stock options.

Pursuant to its issuance and listing of securities in the United States under registration statements filed with the SEC, ICICI Bank files annual reports in Form 20-F with the SEC as required by US securities laws and regulations. These regulations require that this annual report include financial statements prepared according to a comprehensive body of accounting principles with reconciliation to generally accepted accounting principles in the United States (US GAAP). When ICICI Bank first listed its securities in the United States in 2000, generally accepted accounting principles in India (Indian GAAP) were not considered a comprehensive body of accounting principles under US laws and regulations. Accordingly, ICICI Bank had included US GAAP financial statements in its annual reports in Form 20-F till fiscal year ended March 31, 2005. However, pursuant to a significant expansion of Indian accounting standards, Indian GAAP constitutes a comprehensive body of accounting standards. Accordingly, from fiscal year ended March 31, 2006 onwards ICICI Bank includes in its annual report in Form 20-F, consolidated financial statements according to Indian GAAP, with a reconciliation of

profit after tax and networth to net income and stockholders' equity under US GAAP and a description of significant differences between Indian GAAP and US GAAP.
