EXECUTIVE COMPENSATION

The Company has not paid any compensation to any officer in the fiscal year ended February 28, 2001 and does not expect to pay any compensation to any officer in the current fiscal year.

COMPENSATION POLICY

The Company's compensation for any officer after February 28, 2002 is expected to consist of a base salary and annual bonus compensation. Salary and bonus payments will be discretionary with the Board of Directors and will be designed to reward current and past performance.

The Company's policy will emphasize performance-based compensation. Accordingly, a significant percentage of annual compensation may consist of bonus compensation. This ensures that compensation reflects the individual's specific contributions to the success of the Company. Bonus compensation is determined on the basis of the directors' subjective assessment of an executive's performance and not on any specific formula.

The Company may issue stock options to officers or directors who do not own as much as one percent of the Company's outstanding stock. Stock options are designed to provide strong incentive for superior long-term performance and are directly linked to shareholders' interests because the value of the awards will increase or decrease based upon the future price of the Common Shares. The Company may also adopt a Stock Option Plan designed to secure the services of persons capable of filling key management positions. The amount of stock options awarded will not be based on any specific formula, but rather on a subjective assessment of the person's performance by the Board of Directors.

The Company believes that, as it grows, its compensation program will enable it to attract, motivate and retain senior management by providing a competitive total compensation opportunity based on performance.

COMPENSATION OF DIRECTORS

The Company has not paid compensation to any director in the fiscal year ended February 28, 2001 and has made no arrangement to pay directors' fees in the current fiscal year. Only Allan Kornfeld and David Michael, among the present directors, will be eligible to receive stock options under the Company's policy of not granting options to any officer or director who already owns as much as 1% of the Company's outstanding stock.

11
