Press Release

**CVRD wins competition to explore potash in Argentina**

Rio de Janeiro, November 16, 2004 Companhia Vale do Rio Doce (CVRD) informs that it was the winner of an international competition for the research, evaluation and exploration of a potash deposit in the Neuquen Province, on the Colorado River banks, Argentina.

The area to be explored is located in one of the last unexplored potash basins in the world, and has potential world-class deposits. CVRD will develop studies during the next two years to identify and evaluate such deposits. If the feasibility of the project is proved, its production will be directed to the Brazilian and Argentine markets.

CVRD has been a player in the fertilizer market since 1992 through the production and marketing of potash from the Taquari-Vassouras Mine, located in Sergipe state, Brazil. It has a nominal production capacity of 600,000 tons of potash per year, which is being expanded to 850,000 tons by the second half of 2005. All the potash produced in Taquari-Vassouras, the only potash mine under operation in Brazil, is sold in the Brazilian market, which consumes around 6.3 million tons of potash per year.

The Neuquem project enables CVRD to remain in the potash business, and, at the same time, to increase its international operations. CVRD's entrance in mining in Argentina will generate benefits for both countries, consolidating its commercial relationship.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
