Notes to Consolidated Financial Statements

Note 1. Organization, Merger, Description of Business and Basis of Presentation

Warp Technology Holdings, Inc. (collectively with its subsidiaries, the Company), operating under the name Halo Technology Holdings, is a Nevada corporation with its principal executive office in Greenwich, Connecticut.

The Company is a holding company whose subsidiaries operate enterprise software and information technology businesses. In addition to holding its existing subsidiaries, the Company's strategy is to pursue acquisitions of businesses which either complement the Company's existing businesses or expand the industries in which the Company operates.

On January 31, 2005, the Company completed the acquisition of Gupta Technologies, LLC (together with its subsidiaries, Gupta). Gupta is now a wholly owned subsidiary of the Company, and Gupta's wholly owned subsidiaries, Gupta Technologies GmbH, a German corporation, and Gupta Technologies Ltd., a U.K. company, have become indirect subsidiaries of the Company.

Gupta develops, markets and supports software products that enable software programmers to create enterprise class applications, operating on either the Microsoft Windows or Linux operating systems that are used in large and small businesses and governmental entities around the world. Gupta's products include a popular database application and a well-known set of application development tools. The relational database product allows companies to manage data closer to the customer, where capturing and organizing information is becoming increasingly critical. This product is designed for applications being deployed in situations where there are little or no technical resources to support and administer databases or applications.

Gupta recently released its Linux product line. Compatible with its existing Microsoft Windows-based product line, the Linux line of products will enable developers to write one application to run in both Microsoft Windows and Linux operating systems.

Gupta has headquarters in California, and has a regional office in Munich and sales offices in London and Paris.

Warp Solutions, Inc. a wholly owned subsidiary of the Company, produces a series of application acceleration products that improve the speed and efficiency of transactions and information requests that are processed over the internet and intranet network systems. The subsidiary's suite of software products and technologies are designed to accelerate network applications, reduce network congestion, and reduce the cost of expensive server deployments for enterprises engaged in high volume network activities.

On July 6, 2005 the Company purchased Kenosia Corporation (Kenosia). Kenosia is a software company whose products include its DataAlchemy product line. DataAlchemy is a sales and marketing analytics platform that is utilized by global companies to drive retail sales and profits through timely and effective analysis of transactional data. Kenosia's installed customers span a wide range of industries, including consumer packaged goods, entertainment, pharmaceutical, automotive, spirits, wine and beer, brokers and retailers.

On October 26, 2005, the Company completed the acquisition of Tesseract and four other software companies, DAVID Corporation, Process Software, ProfitKey International, and Foresight Software, Inc. (collectively Process and Affiliates).

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended December 31, 2005 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2006. For further information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-KSB for the year ended June 30, 2005.

Note 2. Summary of Significant Accounting Policies**Reclassification.**

Certain reclassifications have been made to the 2004 financial statements to conform to the 2005 presentation.

Loss Per Share

Basic and diluted net loss per share information for all periods is presented under the requirements of SFAS No. 128, Earnings Per Share. Basic loss per share is calculated by dividing the net loss attributable to common stockholders by the weighted-average common shares outstanding during the period. Diluted loss per share is calculated by dividing net loss attributable to common stockholders by the weighted-average common shares outstanding. The dilutive effect of preferred stock, warrants and options convertible into an aggregate of approximately 46,642,643 and 2,049,170 of common shares as of December 31, 2005 and December 31, 2004, respectively, are not included as the inclusion of such would be anti-dilutive for all periods presented.

Stock-Based Compensation

The Company uses the intrinsic value method to account for stock-based compensation in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and have adopted the disclosure-only provisions of SFAS No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. Accordingly, no compensation cost has been recognized for fixed stock option grants. Had compensation costs for the Company's stock option grants been determined based on the fair value at the grant dates for awards under these plans in accordance with SFAS No. 123, the Company's net loss and loss per share would have been increased to the pro forma amounts as follows:

	Three Months Ended		Six Months Ended

Basic and diluted net loss per share attributable to common stockholders pro forma	\$ (1.82)	\$ (0.99)	\$ (2.80)	\$ (4.60)

Pro forma information regarding net loss is required by SFAS No. 123, and has been determined as if Warp had accounted for its employees' stock options under the fair value method provided by this statement. The fair value for these options was estimated at the date of grant using the Black-Scholes option-pricing model. Option pricing models require the input of highly subjective assumptions. Because the Company's employee stock has characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires an entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. SFAS No. 123 (R) will be effective for the period beginning January 1, 2006. The impact on this new standard, if it had been in effect on the net loss and related per share amounts of our three and six months ended December 31, 2005 and 2004 is disclosed above in Note 2 Summary of Significant Accounting Policies-Stock Based Compensation. We believe the adoption will have an effect on our results of operations.

On March 29, 2005, the Staff of the Securities and Exchange Commission (SEC or the Staff) issued Staff Accounting Bulletin No. 107, *Share-Based Payment* (SAB 107). Although not altering any conclusions reached in SFAS 123R, SAB 107 provides the views of the Staff regarding the interaction between SFAS 123R and certain SEC rules and regulations and, among other things, provide the Staff's views regarding the valuation of share-based payment arrangements for public companies. The Company intends to follow the interpretative guidance on share-based payment set forth in SAB 107 during the Company's adoption of SFAS 123R.

Note 7. Credit Agreement

On August 2, 2005, the Company entered a Credit Agreement (the "Credit Agreement"), with Fortress Credit Corp. as original lender (together with any additional lenders, the "Lenders"), and Fortress Credit Corp. as Agent (the "Agent"). In addition, the Company entered into a \$10,000,000 Promissory Note (the "Note") with the Lenders, an Intercreditor Agreement with the Lenders, the Agent and certain subordinated lenders (the "Intercreditor Agreement"), a security agreement with the Agent (the "Security Agreement"), Pledge Agreements with the Lender (the "Pledge Agreements"), and a Warrant Agreement with the Agent (the "Warrant Agreement").

Collectively the Credit Agreement, such other agreements and the subsidiary security agreements referenced below are referred to as the "Financing Documents".

The Credit Agreement and the other Financing Documents have the following material terms:

Subject to the terms and conditions of the Credit Agreement, the Lenders agreed to make available to the Company a term loan facility in three Tranches, Tranches A, B and C, in an aggregate amount equal to \$50,000,000.

The maximum amount of loans under Tranche A of the credit facility is \$10,000,000. The purpose of amounts borrowed under Tranche A is to refinance certain of the Company's existing debt and to pay certain costs and expenses incurred in connection with the closing under the Credit Agreement.

The maximum amount of loans under Tranche B of the credit facility is \$15,000,000. Amounts borrowed under Tranche B may be used only to partially fund the acquisition by the Company of one or more companies, the acquisition costs related thereto, and other costs and expenses incurred in connection with the Credit Agreement and to finance an agreed amount of working capital for the companies being acquired.

The maximum amount of loans under Tranche C of the credit facility is \$25,000,000. Amounts borrowed under Tranche C may be used only to partially fund the acquisition by the Company of one or more publicly-traded companies, the acquisition costs related thereto, and other costs and expenses incurred in connection with the Credit Agreement and to finance an agreed amount of working capital for the companies being acquired.

The Company has borrowed \$10,000,000 under Tranche A of the credit facility to pay-off its existing senior indebtedness, in the aggregate principal amount of \$6,825,000, plus accrued interest thereon, as well as certain existing subordinated indebtedness, in the aggregate principal amount of \$1,500,000. In addition, amounts

Table of Contents

borrowed under this Tranche A were used to pay certain closing costs, including the Lender's legal fees, commitment fees, and other costs and expenses under the Credit Agreement amounting to \$1,083,872. These closing costs have been deferred, and will be amortized over 4 years. \$67,743 and \$112,904 was amortized for the three and six months ended December 31, 2005, respectively. The remaining balance of \$664,003 was used for working capital needs.

The obligation to repay the \$10,000,000 principal amount borrowed at the closing, along with interest as described below, is further evidenced by the Note.

Advances under Tranche B and Tranche C must be approved by the Lenders, and are subject to the satisfaction of all conditions precedent required by the Lenders including the condition that a default not occur under the loans as a result of the advance.

The rate of interest (the Interest Rate) payable on the Loan for each calendar month (an Interest Period) is a floating percentage rate per annum equal to the sum of the LIBOR for that period plus the Margin. For these purposes, LIBOR means for any Interest Period the rate offered in the London interbank market for U.S. Dollar deposits for the relevant Interest Period; provided, however, that for purposes of calculating the Interest Rate, LIBOR shall at no time be less than a rate equal to 2.65%. For these purposes, Margin means 9% per annum. Interest is due and payable monthly in arrears.

Provided there has been no event of default under the Loan, an amount of interest equal to 4% per annum that would otherwise be paid in cash instead may be paid in kind (PIK) by such amount being added to the principal balance of the Loan on the last day of each month. Such PIK amount will then accrue interest and be due and payable on the same terms and conditions as the Loan. The Company may, at its option, elect to terminate the PIK interest arrangement and instead pay such amount in cash. As of December 31, 2005, the Company accrued and expensed \$279,136 in relation to the PIK interest.

If any sum due and payable under the credit facility is not paid on the due date therefore, the Company shall be liable to pay interest on such overdue amount at a rate equal to the then current Interest Rate plus 3% per annum.

Principal amounts due under the Loans begin to be amortized eighteen months after the closing date of the Credit Agreement, with the complete Loan to be repaid in full no later than the Maturity Date which is four years after the closing.

A mandatory prepayment is required if, prior to the date which is 9 months after the Closing Date, (i) the Company has not borrowed under Tranche B, and (ii) the Company has not acquired (without the incurrence of any indebtedness) 100% of the equity interests of any new subsidiary which at the time of acquisition had a twelve month trailing EBITDA of greater than \$1,000,000. If prepayments are required due to this reason, the amount of the prepayment is 85% of the Excess Cash Flow which means, cash provided by operations by the Company and its subsidiaries determined quarterly less capital expenditures for such period, provided that the Company shall at all times be allowed to retain a minimum of \$1,500,000 of cash for operating purposes. In addition, the Company must prepay the loan in full no later than the date which is 21 months after the Closing Date.

The Credit Agreement contains certain financial covenants usual and customary for facilities and transactions of this type. In the event the Company completes further acquisitions, the Company and the Agent and lenders will agree upon modifications to the financial covenants to reflect the changes to the Company's consolidated assets, liabilities, and expected results of operations in amounts to be mutually agreed to by the parties.

The Company's obligations are guaranteed by the direct and indirect subsidiaries of the Company, including, without limitation, Gupta Technologies, LLC, Kenosia Corporation, and Warp Solutions, Inc.

The Company and its subsidiaries granted first priority security interests in their assets, and pledged the stock or equity interests in their respective subsidiaries, to the Agent as security for the financial obligations under the Credit Agreement and the Financing Documents. In addition, the Company has undertaken to complete certain matters, including the delivery of stock certificates in subsidiaries, and the completion of financing statements perfecting the security interests granted under the applicable state or foreign jurisdictions concerning the security interests and rights granted to the Lenders and the Agent.

As additional security for the lenders making the loans under the Credit Agreement, certain subsidiaries of the Company have entered into Security Agreements with Fortress Credit. Corp. relating to their assets in the U.K., and have pledged their interests in the subsidiaries organized under English law, Gupta Technologies Limited and Warp Solutions Limited, by entering into a Mortgages of Shares with Fortress. All warrants will have an exercise price of \$0.01 per share. The warrants have an exercise price of \$.01 per share, have a cashless exercise feature, and are exercisable until December 10, 2010. As further advances are made to the Company under Tranche B, the Company will issue additional warrants in proportion to the advances received. Additionally, if the unused total commitments attributable to Tranche A and Tranche B are cancelled in accordance with the Credit Agreement, warrants shall be used for the number of shares based on the Pro Rata Portion of the Total Commitments attributable to Tranche A or Tranche B which are cancelled. The proceeds from the Tranche A were allocated to the fair value of the warrants and Tranche A. Based on the fair market value, \$1,599,615 was allocated to the warrants and the remainder of \$8,400,385 was allocated to Tranche A. The fair value of the warrants was determined by utilizing Black-Scholes method. The discount to Tranche A will be accreted over 48 months. Further information on these agreements is in Note 14 Subsequent Event.

Also on September 20, 2005, the Company issued to DCI Master LDC a Warrant to Purchase 181,818 Shares of Common Stock, par value \$0.00001 per share of the Company. The Warrant was issued in connection with the Promissory Note described above. The exercise price for the Warrant Shares is \$1.375, subject to adjustment as provided in the Warrant. The Warrant is exercisable until September 20, 2010. The Warrant contains an automatic exercise provision in the event that the warrant has not been exercised but the Fair Market Value of the Warrant Shares (as defined in the Warrant) is greater than the exercise price per share on the expiration date. The Warrant also contains a cashless exercise provision. The Warrant also contains a limitation on exercise which limits the number of shares of Common Stock that may be acquired by the Holder on exercise to that number of shares as will insure that, following such exercise, the total number of shares of Common Stock then beneficially owned by such Holder and its affiliates will not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. This provision is waivable by the Holder on 60 days notice.

The proceeds from the Promissory Note were allocated to the fair value of the warrants and Promissory Note. Based on the fair market value, \$276,606 was allocated to the warrants and the remainder of \$223,394 was allocated to Promissory Note. The fair value of the warrants was determined by utilizing Black-Scholes method. The discount to the Promissory Note will be accreted over 3 months. For the three and six months ended December 31, 2005, \$245,872 and \$276,606 was accreted and charged to interest expense respectively.

On October 14, 2005, one of the Company's directors, David Howitt, made a short-term loan to the Company for \$150,000. This loan will be converted into equity under the Subscription Agreement described under *Convertible Promissory Notes and Effect on Previously Issued Convertible Notes* in Note 14 Subsequent Events.

On October 21, 2005, the Company entered into certain Convertible Promissory Notes in the aggregate principal amount of One Million Dollars (\$1,000,000). Interest accrues under the Notes at the rate of ten percent (10%) per annum. The principal amount of the Notes, together with accrued interest, is due and payable 90 days after the date it was entered into, unless the Notes are converted into debt or equity securities of the Company in the Company's next financing involving sales by the Company of a class of its preferred stock or convertible debt securities, or any other similar or equivalent financing transaction. During the three months ended December 31, 2005, interest of \$19,444 was accrued and charged to interest expense. The principal and accrued interest may be converted to Series E Stock per the Subscription Agreements reached on January 11, 2006. Further information on these agreements is in Note 14

Subsequent Event. The Company also issued warrants (the Warrants) to purchase an aggregate of 363,636 Shares of Common Stock, par value \$0.00001 per share of the Company in connection with the Convertible Promissory Notes described above. The exercise price for the Warrant Shares is \$1.375, subject to adjustment as provided in the Warrant. The Warrants are exercisable for five years after the date of the Warrants. Based on the fair market value, \$512,691 was allocated to the warrants and the remainder of \$487,309 was allocated to the Convertible Promissory Notes. The fair value of the warrants was determined by utilizing Black-Scholes method. The discount to Convertible Promissory Notes will be accreted over 3 months. For the three months ended December 31, 2005, \$404,461 was accreted and charged to interest expense.

On October 26, 2005, as part of the Merger Consideration under the Merger Agreement, the Company issued a Promissory Note in the amount of \$1,750,000 to Platinum. The principal under the Promissory Note accrues interest at a rate of 9.0% per annum. The principal and accrued interest under the Promissory Note are due on March 31, 2006.

Interest is payable in registered shares of common stock of the Company, provided that until such shares are registered, interest shall be paid in cash. During the three months ended December 31, 2005, interest of \$28,875 was accrued and charged to interest expense. The Promissory Note contains certain negative covenants including that the Company will not incur additional indebtedness, other than permitted indebtedness under the Promissory Note. Under the Promissory Note, the following constitute an Event of Default: (a) the Company shall fail to pay the principal and interest when due and payable; (b) the Company fails to pay any other amount under the Promissory Note when due and payable; (c) any representation or warranty

of the Company was untrue or misleading in any material respect when made; (d) there shall have occurred an acceleration of the state maturity of any indebtedness for borrowed money of the Company or any Subsidiary of \$50,000 or more in aggregate principal amount; (e) the Company shall sell, transfer, lease or otherwise dispose of all or any substantial portion of its assets in one transaction or a series of related transactions, participate in any share exchange, consummate any recapitalization, reclassification, reorganization or other business combination transaction or adopt a plan of liquidation or dissolution or agree to do any of the foregoing; (f) one or more judgments in an aggregate amount in excess of \$50,000 shall have been rendered against the Company or any subsidiary; (g) the Company breaches any covenant set forth in Section 4 of the Promissory Note; or (h) an Insolvency Event (as defined in the Promissory Note) occurs with respect to the Company or a subsidiary. Upon an Event of Default, the Holder may, at its option, declare all amounts owed under the Promissory Note to be due and payable. The agreement also provided for a Working Capital Adjustment of \$1,000,000 to be paid no later than November 30, 2005. If not paid by such date, at the option of the Seller, the Working Capital Adjustment may be converted into up to 1,818,181 shares of Series D Preferred Stock. Additionally, if the Working Capital Adjustment is not paid on or before November 30, 2005, the Company must pay Platinum a monthly transaction advisory fee of \$50,000 per month, commencing December 1, 2005. As of December 31, 2005, the Working Capital Adjustment has not been paid or converted to Series D Preferred Stock. As such, the Company accrued \$50,000 for the advisory fee as of December 31, 2005.

Note 9. Registration Rights

The Company agreed, within forty-five (45) days after the closing of the Series C notes, Bridge Notes and Subordinated notes financing, to complete all required audits and make all related filings concerning the acquisition of Gupta. Within fifteen (15) days after the end of such 45-day period, the Company agreed to file a registration statement for the purpose of registering all of the Conversion Shares for resale, and to use its best efforts to cause such registration statement to be declared effective by the Securities and Exchange Commission (the Commission) at the earliest practicable date thereafter.

If (i) the registration statement has not been filed with the Commission by the filing deadline or (ii) the registration statement has not been declared effective by the Commission before the date that is ninety (90) days after the filing deadline or, in the event of a review of the Registration Statement by the Commission, one hundred and twenty (120) days after the filing deadline, or (iii) after the registration statement is declared effective, the registration statement or related prospectus ceases for any reason to be available to the investors and noteholders as to all Conversion Shares the offer and sale of which it is required to cover at any time prior to the expiration of the effectiveness period (as defined in the Investors Agreement) for an aggregate of more than twenty (20) consecutive trading days or an aggregate of forty (40) trading days (which need not be consecutive) in any twelve (12) month period, the Company will pay to the Investors an amount in cash equal to 2% of the face value of the Series C Stock issued under the Subscription Agreement or upon conversion of the Bridge Notes, and 2% in cash of the principal amount of the Senior Notes and Subordinated Notes, and will continue to pay such 2% monthly penalties every thirty days until such registration statement is filed, declared effective and available to the investors at the earliest practicable date thereafter. The registration statement was filed after the date due. Accordingly, the Company may have incurred a penalty. The Company is seeking an acknowledgement from the affected investors that no penalty has yet incurred and that no such penalty will be incurred so long as the registration statement is declared effective within the applicable time period. If such acknowledgement is not forthcoming, the Company will seek a waiver of the penalty. As there can be no assurance it will receive an acknowledgement or waiver, the Company accrued \$386,000 for the fiscal year ended June 30, 2005.

Note 10. Series C Subscription Agreement.

On January 31, 2005, the Company entered into certain Series C Subscription Agreements (collectively, the Subscription Agreement), with the Investors. Since the Series C Notes were not converted by March 17, 2005, due to a delay in receiving approval required before effecting the Amendment to the Company's Articles of Incorporation, the Company may be required to pay to the Investors a penalty in cash equal to ten percent (10%) of the principal amount of the Series C Notes. Accordingly, the Company anticipates that it will need to obtain a waiver or an acknowledgment that the penalties do not apply. The Company intends to work with the Investors to obtain waiver of this penalty or an acknowledgment that no penalty is due, and has received such waiver and acknowledgment from

certain Investors. However, there is no assurance that the Company will receive sufficient waivers or acknowledgements from other Investors. As such the Company accrued \$647,500 for this penalty for the fiscal year ended June 30, 2005.

Table of Contents***Legal Proceedings.***

On May 6, 2005, the Company received notice of a demand for arbitration before the American Arbitration Association from attorneys representing Michael Liss, a former employee of the Company who had the title Chief Operating Officer. Mr. Liss disputes the circumstances surrounding the termination of his employment and claims that he is entitled to severance benefits, other compensation and damages totaling approximately \$187,000 in addition to attorneys fees and statutory damages. The Company believes that Mr. Liss's claim is without merit and intends to vigorously defend itself. The Company has accrued \$50,000 for legal cost related to this matter.

Lease of Office Space for Principal Executive Offices

The Company entered into a lease for office space in Greenwich, Connecticut, where the Company has relocated its principal executive offices.

The lease commenced on August 29, 2005 and expires on August 14, 2009. Under the terms of the lease, the Company will pay an aggregate rent over the term of the lease of \$313,362.

Note 12. Acquisition of InfoNow

On December 23, 2005, the Company entered into a Agreement and Plan of Merger (the Merger Agreement) with WTH Merger Sub, Inc. (Merger Sub), a wholly-owned subsidiary of the Company, and InfoNow Corporation (InfoNow) in a transaction valued at \$7.2 million (the Merger). Pursuant to the Merger Agreement, Merger Sub will be merged with and into InfoNow, with InfoNow surviving the merger as a wholly-owned subsidiary of the Company.

Under the terms of the Merger Agreement, which was approved by both companies' boards of directors, each share of InfoNow's common stock outstanding immediately prior to the Merger will be converted into the right to receive approximately \$0.71 in a combination of cash and common stock of the Company. The amount of cash per share to be received in the Merger by InfoNow stockholders will be determined by the amount of InfoNow's cash on hand and net working capital available to it three days prior to the closing. The lesser of the two amounts will be paid in cash by the Company pro rata in proportion to each stockholder's ownership in InfoNow at the closing of the Merger. The remainder of the approximately \$0.71 per share Merger consideration will be paid in shares of the Company's common stock, the value of which will be deemed to be the greater of \$1.00 or the average closing price of the Company's common stock as reported on the over-the-counter bulletin board for the twenty consecutive trading days ending two trading days prior to the closing of the Merger (the HALO Conversion Price). The Merger is intended to qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code of 1986, as amended.

In addition, each InfoNow common stock option outstanding at the closing with an exercise price less than \$0.71 per share will be converted into the right to receive cash and the Company common stock to the extent that the approximately \$0.71 per share merger consideration exceeds the applicable exercise price. The amount of cash and the Company common stock to be issued in respect of the outstanding in-the-money stock options as described above will be calculated based upon the relative proportions of the cash and the Company common stock issued in the Merger in respect of the outstanding Company common stock.

The Company will also issue a contingent value right (a CVR) in respect of each share of the Company's common stock issued in the Merger. The CVRs will be payable on the 18-month anniversary of the closing date, and will entitle each holder thereof to an additional cash payment if the trading price of the Company's common stock (based on a 20-day average) is less than the HALO Conversion Price. The CVRs will expire prior to the 18-month payment date if during any consecutive 45-day trading period during that time when the volume of the Company's common stock is not less than 200,000 per day, the stock price is 175% of the HALO Conversion Price. The shares of the Company common stock and related CVRs to be issued in the Merger are expected to be registered with the Securities and Exchange Commission (SEC).

The Merger Agreement includes representations and warranties regarding, among other things, InfoNow's corporate organization and capitalization, the accuracy of its reports and financial statements filed under the Securities Exchange Act of 1934, as amended (the Exchange Act), the absence of certain changes or events relative to InfoNow since September 30, 2005, and InfoNow's receipt of a fairness opinion regarding the Merger from its financial advisor. Similarly, the Company makes representations and warranties regarding, among other things, its corporate organization and capitalization and the accuracy of its reports and financial statements filed under the Exchange Act. The Merger Agreement also includes covenants governing, among other things, InfoNow's and the Company's

Mr. Finkel may terminate his employment at any time for Good Reason (as defined in the employment agreement) or upon 120 days written notice without Good Reason. Mr. Finkel is eligible for up to 12 months severance if he is terminated by the Company without Cause or terminates his employment with Good Reason. A copy of the employment agreement was attached as Exhibit 10.111 to the Company's Current Report on Form 8-K filed January 4, 2006.

Pursuant to the terms of the employment agreement, Mr. Finkel was also required to execute the Company's standard form of Non-Competition Agreement and Confidential Information Agreement. The options granted to Mr. Finkel have a ten year term. 25% of these options vest on the first anniversary of the award, provided Mr. Finkel remains in his position through that date, and the remaining

options vest ratably over the following 36 months, provided that Mr. Finkel remains with the Company.
Convertible Promissory Notes and Effect on Previously Issued Convertible Notes

Table of Contents

On January 11, 2006, the Company entered into certain convertible promissory notes (the Notes) in the aggregate principal amount of Seven Hundred Thousand Dollars (\$700,000). Interest accrues under the Notes at the rate of ten percent (10%) per annum. The Notes will automatically convert into (i) such number of fully paid and non-assessable shares of the Company s Series E Preferred Stock (the Series E Stock) equal to the aggregate outstanding principal amount due under the Notes plus the amount of all accrued but unpaid interest under the Notes divided by \$1.25, and (ii) warrants (the Warrants) to purchase a number of shares of the Company s Common Stock equal to 40% of such number of shares of Series E Stock issued to the holder. This automatic conversion will occur upon the effectiveness of the filing of the Certificate of Designations, Preferences and Rights (the Certificate of Designations) pertaining to the Company s Series E Preferred Stock. In the event that the Certificate of Designations is not filed 30 days after the notes were entered into (February 10, 2006) then the holders of the Notes may demand that the Company pay the principal amount of the Notes, together with accrued interest. No demand for payment has been made, and the Company expects the holders to convert their notes into equity. A copy of the form of the Notes is attached as Exhibit 4.14 to the Company s Current Report on Form 8-K filed January 18, 2006, and is incorporated herein by reference. The foregoing description of the Notes is qualified in its entirety by reference to the full text of the Notes. Also on January 11, 2006, the Company entered into certain Subscription Agreements (the Subscription Agreements) for the sale of Series E Stock and Warrants. In addition to the conversion of the principal and interest under the Notes, investors (the Investors) under the Subscription Agreements agreed to invest \$150,000 and committed to convert the principal and interest due under certain promissory notes issued by the Company in the aggregate principal amount of \$1,000,000. Of these notes, an aggregate of \$500,000 in principal amount was issued on September 20, 2005 and described in the Company s current report on Form 8-K filed on September 26, 2005, and an aggregate of \$500,000 in principal amount was issued in October 21, 2005 and described in the second Current Report on Form 8-K filed by the Company on October 27, 2005. Accordingly, these notes were amended by the Subscription Agreement. Also under the Subscription Agreement, an investor agreed to convert \$67,500 in certain advisory fees due from the Company into Series E Stock and Warrants.

The material terms of the Subscription Agreements are as follows. The Company designates the closing date. The closing is anticipated to occur when the Series E Certificate of Designations becomes effective. The obligations of the investors under the Subscription Agreement are irrevocable, provided that if the closing has not occurred within 30 days of the date of the agreement, the investors may revoke the agreement.

No later than seventy five (75) days after the completion of the offering, the Company agreed to file with the SEC a registration statement covering the Common Stock underlying the Series E Stock and the Warrants, and any Common Stock that the Company may elect to issue in payment of the dividends due on the Series E Stock.

Upon the completion of this offering, with a full round of investment of \$10,000,000, the Investors will have the right for 15 months to invest, in the aggregate, an additional \$10,000,000 in Common Stock of the Company, at \$2.00 per share of Common Stock (as adjusted for stock splits, reverse splits, and stock dividends) or a 20% discount to the prior 30 day trading period, whichever is lower. Each Investor s right shall be his, her or its pro rata amount of the initial offering.

In the event that the Company completes or enters into agreements to sell equity securities on or before February 15, 2006, the Investor may convert the Securities received under the Subscription Agreement into such other equity securities as if the Investor had invested the amount invested in such securities. The Company will provide the Investor will five business days notice of such right. The Investor will be required to execute and deliver all such transaction documents as required by the Company in order to convert the Securities into such other securities. If the Investor so converts, all rights in the Securities shall cease.

Certain of these transactions were entered into by Mr. David Howitt, a director of the Company. Mr. Howitt invested \$350,000 under the Notes, and agreed to invest another \$150,000 under the Subscription Agreement. Mr. Howitt recused himself from the Board of Directors decisions approving these transactions.

A copy of the form of the Subscription Agreement is attached as Exhibit 10.115 to the Company s Current Report on Form 8-K filed January 18, 2006.

Convertible Promissory Notes in the Principal Amount of \$1,375,000

On January 27 and on January 30, 2006, the Company entered into certain convertible promissory notes (the Notes) in the aggregate principal amount of One Million Three Hundred Seventy-Five Thousand Dollars (\$1,375,000). The principal amount of the Notes, together with accrued interest, shall be due and payable on demand by the Lender on any date which is no earlier than sixty (60) days after the date of the Notes (the Original Maturity Date), unless the Note is converted into Common Stock and Warrants as described below. In the event that the Notes are not converted by the Original Maturity Dates of the Notes, interest will begin to accrue at the rate of ten percent (10%) per annum. Each Note shall convert into (i) such number of fully paid and non-assessable shares of the Company's Common Stock (the Common Stock) equal to the aggregate outstanding principal amount due under the Note plus the amount of all accrued but unpaid interest on the Note divided by \$1.25, and (ii) warrants (the Warrants) to purchase a number of shares of the Company's Common Stock equal to 75% of such number of shares of Common Stock. The Notes shall so convert automatically (Mandatory Conversion) and with no action on the part of the Lender on the Original Maturity Date to the extent that upon such conversion, the total number of shares of Common Stock then beneficially owned by such Lender, does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. For such purposes, beneficial ownership shall be determined in accordance with Section 13(d) of the Exchange Act and the rules and regulations promulgated thereunder. In the event that a portion of the principal and interest under the Notes has not been converted on the first Mandatory Conversion (and the Lender has not demanded payment), there will be subsequent Mandatory Conversions until all of the principal and interest has been converted, provided that at each such Mandatory Conversion the total number of shares of Common Stock then beneficially owned by such Lender does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. Prior to any Mandatory Conversion the Lender may at its option exercisable in writing to the Company, convert all or a portion of the principal and interest due hereunder into Common Stock and Warrants provided that at each such conversion the total number of shares of Common Stock then beneficially owned by such Lender does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. By written notice to the Company, each Lender may waive the foregoing limitations on conversion but any such waiver will not be effective until the 61st day after such notice is delivered to the Company.

A copy of the form of the Notes was attached as Exhibit 4.15 to the Company's Current Report on Form 8-K filed February 2, 2006.

Also on January 27 and January 30, 2006, the Company entered into certain Subscription Agreements (the Subscription Agreements) for the sale of the Notes and the underlying Common Stock and Warrants.

The material terms of the Subscription Agreements are as follows. The Company and the investors (the Investors) under the Subscription Agreements made certain representations and warranties customary in private financings, including representations from the Investors that they are accredited investors as defined in Rule 501(a) of Regulation D (Regulation D) under the Securities Act.

The Company undertakes to register the shares of Common Stock issuable upon conversion of the Notes, and upon conversion of the Warrants (together, the Registrable Shares) via a suitable registration statement pursuant to the registration rights set forth in the Subscription Agreement. If a registration statement covering the Registrable Shares

has not been declared effective no later than 180 days from the closing, the holders shall receive a number of shares of Common Stock equal to 1.5% of the number of shares received upon conversion of the Notes for each 30 days thereafter during which the Registrable Shares have not been registered, subject to a maximum penalty of 9% of the number of shares received upon conversion of the Notes.

Table of Contents

The Subscription Agreement allows the Investors to piggyback on the registration statements filed by the Company. The Company agreed that it will maintain the registration statement effective under the Securities Act until the earlier of (i) the date that all of the Registrable Shares have been sold pursuant to such Registration Statement, (ii) all Registrable Shares have been otherwise transferred to Persons who may trade such shares without restriction under the Securities Act, or (iii) all Registrable Shares may be sold at any time, without volume or manner of sale limitations pursuant to Rule 144(k) under the Securities Act.

Upon the completion of the offering under the Subscription Agreements, with a full round of investment of \$10,000,000, the Investors in the Offering, together with the investors who participated in the Company's offering of Series E Preferred Stock and Warrants (the Series E Offering) as described initially in the Company's current report on Form 8-K filed on January 18, 2006, will have the right for 15 months after the final closing of the Offering, to invest, in the aggregate (together with any investors in such Series E offering), an additional \$10,000,000 in Common Stock of the Company. The price of such follow-on investment will be \$2.00 per share of Common Stock or a 20% discount to the prior 30 day trading period, whichever is lower; provided that the price per share shall not be less than \$1.25. The aggregate amount which may be invested pursuant to this follow-on right will be equivalent to the aggregate amount invested by the Investor in the Offering or in the Series E Offering. Each Investor's right shall be his, her or its pro rata amount of the initial offering.

Once the Company has raised a total of \$5,000,000 in this Offering and the Series E Offering, the Investors will be able to invest up to 50% of the amount which they may invest pursuant to this follow-on right; subsequent to the completion of the full round of \$10,000,000 the Investors may invest the remainder of the amount which they may invest pursuant to this follow-on right.

Notwithstanding anything to the contrary in the Subscription Agreements, the number of shares of Common Stock that may be acquired by the Investor upon any exercise of this follow-on right (or otherwise in respect hereof) shall be limited to the extent necessary to insure that, following such exercise (or other issuance), the total number of shares of Common Stock then beneficially owned by such Investor and its Affiliates and any other Persons whose beneficial ownership of Common Stock would be aggregated with the Investor's for purposes of Section 13(d) of the Exchange Act, does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. By written notice to the Company, the Investor may waive the provisions of this Section but any such waiver will not be effective until the 61st day after such notice is delivered to the Company.

Agreement to Acquire InfoNow Corporation

On December 23, 2005, the Company entered into a Agreement and Plan of Merger with InfoNow Corporation (InfoNow) in a transaction valued at \$7.2 million. Upon the closing under the Merger Agreement, InfoNow will become a wholly-owned subsidiary of the Company.

InfoNow is a public enterprise software company, headquartered in Denver, Colorado. InfoNow provides channel visibility and channel management solutions, in the form of software and services, to companies that sell their products through complex networks of distributors, dealers, resellers, retailers, agents or branches (i.e., channel partners). Companies use InfoNow's software and services to collaborate with their channel partners to create demand, increase revenues, lower operating costs and maximize the return on investment of their channel strategies. InfoNow's clients are generally companies with extensive channel partner networks, and include companies such as Apple, Hewlett-Packard, Juniper Networks, NEC Display Solutions of America, The Hartford, Visa, and Wachovia Corporation.

Under the terms of the Merger Agreement, which was approved by both companies' boards of directors, each share of InfoNow's common stock outstanding immediately prior to the Merger will be converted into the right to receive approximately \$0.71 in a combination of cash and common stock of the Company.

In addition, each InfoNow common stock option outstanding at the closing with an exercise price less than \$0.71 per share will be converted into the right to receive cash and the Company common stock to the extent that the approximately \$0.71 per share merger consideration exceeds the applicable exercise price. The amount of cash and the Company's common stock to be issued in respect of the outstanding in-the-money stock options as described above will be calculated based upon the relative proportions of the cash and the Company common stock issued in the Merger in respect of the outstanding Company common stock.

The Company will also issue a contingent value right (a CVR) in respect of each share of the Company's common stock issued in the Merger. The CVRs will be payable on the 18-month anniversary of the closing date, and will entitle each holder thereof to an additional cash payment if the trading price of the Company's common stock (based on a 20-day average) is less than the average closing price for the twenty consecutive trading days ending two trading days prior to the closing of the Merger (the HALO Conversion Price). The CVRs will expire prior to the 18-month payment date if during any consecutive 45-day trading period during that time when the volume of the Company's common stock is not less than 200,000 per day, the stock price is 175% of the HALO Conversion Price.

Consummation of the InfoNow transaction is subject to several closing conditions, including, among others, approval by a majority of InfoNow's common shares entitled to vote thereon, negotiation of the final terms of the CVR

agreement and the effectiveness of a registration statement on Form S-4 to be filed by the Company, registering the shares of the Company's common stock and related CVRs to be issued in the Merger. In addition, the Merger Agreement contains certain termination

rights allowing InfoNow, the Company or both parties to terminate the agreement upon the occurrence of certain conditions, including the failure to consummate the Merger by July 31, 2006.

Agreement to Acquire Executive Consultants, Inc.

Upon the closing under the Merger Agreement, ECI will become a wholly owned subsidiary of the Company. The total merger consideration for all of the equity interests in ECI (the Purchase Price) will be \$603,571 in cash and cash equivalents and 330,668 shares of the Company s Common Stock (the Halo Shares), subject to adjustment based on the Net Working Capital (as defined in the Merger Agreement) on the Closing Date. Following completion of the transaction, ECI will be combined with Empagio, a subsidiary of the Company. The acquisition of ECI s clients, will enhance Empagio s human resources software offerings. The Merger is scheduled to close in February 2006, subject to customary closing conditions.

Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123(R), Share-Based Payment , which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires an entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. SFAS No. 123 (R) will be effective for the period beginning January 1, 2006. The impact on this new standard, if it had been in effect on the net loss and related per share amounts of our three and six months ended December 31, 2005 and 2004 is disclosed above in Note 2 Summary of Significant Accounting Policies-Stock Based Compensation. We believe the adoption will have an effect on our results of operations.

On March 29, 2005, the Staff of the Securities and Exchange Commission (SEC or the Staff) issued Staff Accounting Bulletin No. 107, Share-Based Payment (SAB 107). Although not altering any conclusions reached in SFAS 123R, SAB 107 provides the views of the Staff regarding the interaction between SFAS 123R and certain SEC rules and regulations and, among other things, provide the Staff s views regarding the valuation of share-based payment arrangements for public companies. The Company intends to follow the interpretative guidance on share-based payment set forth in SAB 107 during the Company s adoption of SFAS 123R.

Critical Accounting Policies

The discussion and analysis of the Company s financial condition and results of operations is based on the Company s consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent liabilities.

On an on-going basis, we evaluate our estimates, including those related to revenue recognition and accounting for intangible assets. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

We have identified the accounting policies below as the policies critical to the Company s business operations and the understanding of the Company s results of operations. We believe the following critical accounting policies and the related judgments and estimates affect the preparation of the Company s consolidated financial statements:

Revenue Recognition

The Company recognizes revenue in accordance with the American Institute of Certified Public Accountants Statement of Position (SOP) 97-2, Software Revenue Recognition.

Revenues are derived from the licensing of software, maintenance contracts, training, and other consulting services.

In arrangements that include rights to multiple software products and/or services, the Company allocates and defers revenue for the undelivered items, based on vendor-specific objective evidence of fair value, and recognizes the difference between the total arrangement fee and the amount deferred for the undelivered items as revenue. In arrangements in which the Company does not have vendor-specific objective evidence of fair value of maintenance,

and maintenance is the only undelivered item, the Company recognizes the total arrangement fee ratably over the contractual maintenance term.

Table of Contents

Software license revenues are recognized upon receipt of a purchase order and delivery of software, provided that the license fee is fixed or determinable; no significant production, modification, or customization of the software is required; and collection is considered probable by management. For licensing of Gupta's software through its indirect sales channel, revenue is recognized when the distributor sells the software to its end-users, including value-added resellers. For licensing of software to independent software vendors, revenue is recognized upon shipment to the independent software vendors.

Service revenue for maintenance contracts is deferred and recognized ratably over the term of the agreement. Revenue from training and other consulting services is recognized as the related services are performed.

Business Combinations and Deferred Revenue.

In accordance with business combination accounting, we allocate the purchase price of acquired companies to the tangible and intangible assets acquired, and liabilities assumed, based on their estimated fair values. We engage third-party appraisal firms to assist management in determining the fair values of certain assets acquired and liabilities assumed. Such a valuation requires management to make significant estimates and assumptions, especially with respect to intangible assets and deferred revenue.

Management makes estimates of fair value based upon assumptions believed to be reasonable. These estimates are based on historical experience and information obtained from the management of the acquired companies and are inherently uncertain. Critical estimates in valuing certain of the intangible assets include but are not limited to: future expected cash flows from license sales, maintenance agreements, consulting contracts, customer contracts and acquired developed technologies and patents; the acquired company's brand awareness and market position, as well as assumptions about the period of time the acquired brand will continue to be used in the combined company's product portfolio; and discount rates. Unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

We have acquired several software companies in fiscal 2006, and we plan to make more acquisitions in the future. Acquired deferred revenue is recognized at fair value to the extent it represents a legal obligation assumed by us in accordance with EITF 01-03, Accounting in a Business Combination for Deferred Revenue of an Acquiree. Under this guidance, the Company estimates fair values of acquired deferred revenue by adding an approximated normal profit margin to the estimated cost required to fulfill the obligation underlying the deferred revenue. As a result of this valuation, the deferred revenues of the acquired companies normally decrease substantially. In the enterprise software industry, this reduction averages between forty to sixty percent of the original balance. The reduction of the deferred revenue has a negative effect on the recognized revenue until the deferred revenue balance builds up to a normal level of the acquired business. The length of this effect depends on contracts underlying the deferred revenue. As the Company continues to acquire more businesses in the enterprise software industry, the effect of this deferred revenue valuation will have significant effect on the Company's results of operations.

Product Development Costs

Product development costs incurred in the process of developing product improvements and enhancements or new products are charged to expense as incurred. Statement of Financial Accounting Standards (SFAS) No. 86, Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed, requires capitalization of certain software development costs subsequent to the establishment of technological feasibility. Based on the Company's product development process, technological feasibility is established upon the completion of a working model. Costs incurred by the Company between the completion of the working model and the point at which the product is ready for general release has been insignificant.

Table of Contents*Intangible assets and Goodwill*

Intangible assets are primarily comprised of customer relationships, developed technology, trade names and contracts. Goodwill represents acquisition costs in excess of the net assets of businesses acquired. In accordance with SFAS 142, Goodwill and Other Intangible Assets goodwill is no longer amortized; instead goodwill is tested for impairment on an annual basis. We assess the impairment of identifiable intangibles and goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider to be important which could trigger an impairment review include the following:

Significant underperformance relative to expected historical or projected future operating results;

Significant changes in the manner of use of the acquired assets or the strategy for the overall business; and

Significant negative industry or economic trends.

When we determine that the carrying value of intangibles and other long-lived assets may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, we record an impairment charge. We measure any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent in the current business model. Significant management judgment is required in determining whether an indicator of impairment exists and in projecting cash flows. Trade names are considered to have indefinite life. All other intangibles are being amortized over their estimated useful life of three to ten years.

We have recorded a significant amount of goodwill on our balance sheet. As of December 31, 2005, goodwill was approximately \$29 million, representing approximately 46% of our total assets and approximately 52% of our long-lived assets subject to depreciation, amortization and impairment. In the future, goodwill may increase as a result of additional acquisitions we will make. Goodwill is recorded on the date of acquisition and is reviewed at least annually for impairment. Impairment may result from, among other things, deterioration in the performance of our business, adverse market conditions and a variety of other circumstances. Any future determination requiring the write-off of a significant portion of the goodwill recorded on our balance sheet could have an adverse effect on our financial condition and results of operations.

Stock-Based Compensation

The Company uses the intrinsic value method to account for stock-based compensation in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and have adopted the disclosure-only provisions of SFAS No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. Accordingly, no compensation cost has been recognized for fixed stock option grants. Had compensation costs for the Company's stock option grants been determined based on the fair value at the grant dates for awards under these plans in accordance with SFAS No. 123, the Company's net loss and loss per share would have been reduced to amounts disclosed in Note 2 to the financial statements under caption Summary of Significant Accounting Policies Stock Based Compensation. SFAS No. 123 (R) will be effective for the period beginning January 1, 2006. The adoption of this standard will generally result in increased compensation expense as it values any unvested options previously not recognized by APB 25.

Services revenue increased \$5.7 million to \$5.8 million for the six months ended December 31, 2005 from \$53,000 for the six months ended December 31, 2004. The total service revenue increase of \$3.9 million for the three months ended December 31, 2005 was primarily due to the acquisitions of Gupta, \$1.8 million, Kenosia, \$178,000, Tesseract, \$736,000, and Process and Affiliates, \$1.2 million. The total revenue increase of \$5.8 million for the six months ended December 31, 2005 was primarily due to the acquisitions of Gupta, \$3.5 million, Kenosia, \$378,000, Tesseract, \$736,000, and Process and Affiliates, \$1.2 million.

Because of the reduction of deferred revenue after an acquisition under generally accepted accounting principles, which has the effect of reducing the amount of revenue recognized in a given period from what would have been recognized had the acquisition not occurred, past reported periods should not be relied upon as predictive of future performance. Additionally, the Company's operating strategy is to continue to acquire technology companies. Each of such transactions will cause a change to our future financial results. The Company believes such transactions will have a positive effect on the Company's revenues and income (loss) before interest.

Cost of Revenue

Total cost of revenue increased by \$919,000 to \$959,000 for the three months ended December 31, 2005 from \$40,000 for the three months ended December 31, 2004. The total cost of revenue increase of \$1.3 million for the six months ended December 31, 2005 was primarily due to the acquisitions of Gupta, \$525,000, Kenosia, \$164,000, Tesseract, \$179,000, and Process and Affiliates, \$403,000.

The principal components of cost of license fees are manufacturing costs, shipping costs, and royalties paid to third-party software vendors. The total cost of license fees

Table of Contents

increase of \$200,000 for the six months ended December 31, 2005 was primarily due to the acquisitions of Gupta, \$92,000, Kenosia, \$8,000, Tesseract, \$0, and Process and Affiliates, \$100,000.

Gross profit margins increased to 85% for the six months ended December 31, 2005, compared to 80% for the six months ended December 31, 2004. The gross margin increase was mainly due to the change in the product mix (increase in the proportion of maintenance and services revenue) the Company sells from the new subsidiaries during 2005.

Operating Expenses*Research and Development*

Research and development expense consists primarily of salaries and other personnel-related expenses for engineering personnel, expensable hardware and software costs, overhead costs and costs of contractors. This increase was almost entirely attributable to an increase in employee compensation, and third party off shore consulting costs. The increase of \$1.5 million for the three months ended December 31, 2005 was mainly resulted from the acquisition of Gupta, \$793,000, Kenosia, \$60,000, Tesseract, \$237,000, and Process and Affiliates, \$438,000. The increase of \$2.5 million for the six months ended December 31, 2005 was mainly resulted from the acquisitions of Gupta, \$1.7 million, Kenosia, \$125,000, Tesseract, \$237,000, and Process and Affiliates, \$438,000. General and administrative expenses increased by approximately \$4.2 million to \$5.5 million for the six months ended December 31, 2005 from \$1.2 million for the six months ended December 31, 2004. The increase is attributable to increased headcount to

manage the increasing size and complexity of the Company's operations, as the Company has acquired new subsidiaries, as well as professional services fees associated with the acquisitions and securities laws and tax compliance. For the three months ended December 31, 2005, general and administrative expenses increased by \$2.7 million was directly attributable to the acquisitions of Gupta, \$1.1 million, Kenosia, \$160,000, Tesseract, \$446,000, and Process and Affiliates, \$957,000. Interest expense increased by \$2.2 million to \$ 2.3 million for the three months ended December 31, 2005 from \$46,000 for the three months ended December 31, 2004. Interest expense increased by \$3.5 million to \$3.6 million for the six months ended December 31, 2005 from \$46,000 for the six months ended December 31, 2004. The increase was primarily due to the following: accretion of fair values of warrants issued in connection with the Company's debt, amortization of deferred financing costs (such as legal fees, due diligence fees, etc), and cash interest. The accretion of the fair values of the warrants accounted for approximately \$1.1 million and \$1.8 million for the three and six months ended December 31, 2005, respectively. The amortization of the deferred financing costs accounted for \$139,000 and \$374,000 for the three and six months ended December 31, 2005, respectively. And, the cash interest and the conversion of interest into common stock accounted for \$1.0 million and \$1.3 million for the three and six months ended December 31, 2005, respectively.

Net Operating Loss Carryforwards

The Company has a U.S. Federal net operating loss carryforward of approximately \$41,128,000 as of December 31, 2005, which may be used to reduce taxable income in future years through the year 2025. The deferred tax asset primarily resulting from net operating losses was approximately \$16,700,000. Due to uncertainty surrounding the realization of the favorable tax attributes in future tax returns, the Company has placed a full valuation allowance against its net deferred tax asset. At such time as it is determined that it is more likely than not that the deferred tax asset is realizable, the valuation allowance will be reduced. Furthermore, the net operating loss carryforward may be subject to further limitation pursuant to Section 382 of the Internal Revenue Code.

The Company has foreign subsidiaries based in the United Kingdom, Canada and Germany and is responsible for paying certain foreign income taxes. As a result, there is an income tax provision of \$34,325 and \$86,488 for the three and six months ended December 31, 2005 as compared to \$0 and \$0 for the three and six months ended December 31, 2004.

The Company entered into a \$50,000,000 credit facility with Fortress Credit Opportunities LP and Fortress Credit Corp. on August 2, 2005. On October 26, 2005, in connection with the closings of the acquisitions of Tesseract, DAVID Corporation, Process Software, ProfitKey International, and Foresight Software, Inc., the Company entered into Amendment Agreement No. 1 (Amendment Agreement) between the Company, Fortress Credit Opportunities LLP (Lender) and Fortress Credit Corp., as Agent (the Agent) relating to the Credit Agreement dated August 2, 2005 between the Company, the Subsidiaries of the Company listed in Schedule 1 thereto (the Subsidiaries), Fortress Credit Corp., as original lender (together with any additional lenders, the Original Lenders), and the Agent under which the Lender made an additional loan of \$15,000,000 under Tranche B of the credit facility under the Credit Agreement, as more fully described below.

On October 26, 2005, in connection with the Purchase Agreement and the Merger Agreement, the Company entered into Amendment Agreement No. 1 (Amendment Agreement) between the Company, Fortress Credit Opportunities LLP (Lender) and Fortress Credit Corp., as Agent (the Agent) relating to the Credit Agreement dated August 2, 2005 between the Company, the Subsidiaries of the Company listed in Schedule 1 thereto (the

Subsidiaries), Fortress Credit Corp., as original lender (together with any additional lenders, the Original Lenders), and the Agent. Pursuant to this Amendment Agreement, the Lender made a loan of \$15,000,000 under Tranche B of the credit facility under the Credit Agreement. The rate of interest (the Interest Rate) payable on the loan for each calendar month (an Interest Period) is a floating percentage rate per annum equal to the sum of the LIBOR for that period plus the Margin . For these purposes, LIBOR

means for any Interest Period the rate offered in the London interbank market for U.S. Dollar deposits for the relevant Interest Period; provided, however, that for purposes of calculating the Interest Rate, LIBOR shall at no time be less than a rate equal to 2.65%. For these purposes, Margin means 9% per annum. Interest is due and payable monthly in arrears. The terms of the Credit Agreement regarding repayment, and the terms under which the maturity of outstanding amounts may be accelerated or amounts due increased, and the other recourse terms, remain unchanged from the terms of the Credit Agreement and have been previously reported in the Company's Annual Report on Form 10-KSB for the fiscal year ended June 30, 2005, and in the Current Report on Form 8-K filed on August 8, 2005.

On October 26, 2005, as part of the acquisition of Tesseract, the Company issued a Promissory Note in the amount of \$1,750,000 to Platinum. The principal under the Promissory Note accrues interest at a rate of 9.0% per annum. The principal and accrued interest under the Promissory Note are due on March 31, 2006. Interest is payable in registered shares of common stock of the Company, provided that until such shares are registered, interest shall be paid in cash. The Promissory Note contains certain negative covenants including that the Company will not incur additional indebtedness, other than permitted indebtedness under the Promissory Note. Under the Promissory Note, the following constitute an Event of Default: (a) the Company shall fail to pay the principal and interest when due and payable; (b) the Company fails to pay any other amount under the Promissory Note when due and payable; (c) any representation or warranty of the Company was untrue or misleading in any material respect when made; (d) there shall have occurred an acceleration of the state maturity of any indebtedness for borrowed money of the Company or any Subsidiary of \$50,000 or more in aggregate principal amount; (e) the Company shall sell, transfer, lease or otherwise dispose of all or any substantial portion of its assets in one transaction or a series of related transactions, participate in any share exchange, consummate any recapitalization, reclassification, reorganization or other business combination transaction or adopt a plan of liquidation or dissolution or agree to do any of the foregoing; (f) one or more judgments in an aggregate amount in excess of \$50,000 shall have been rendered against the Company or any subsidiary; (g) the Company breaches any covenant set forth in Section 4 of the Promissory Note; or (h) an Insolvency Event (as defined in the Promissory Note) occurs with respect to the Company or a subsidiary. Upon an Event of Default, the Holder may, at its option, declare all amounts owed under the Promissory Note to be due and payable.

On October 21, 2005, the Company entered into certain convertible promissory notes to various accredited investors (the Notes) in the aggregate principal amount of One Million Dollars (\$1,000,000). Interest accrues under the Notes at the rate of ten percent (10%) per annum. The principal amount of the Notes, together with accrued interest, is due and payable 90 days after the date it was entered into, unless the Notes are converted into debt or equity securities of the Company in the Company's next financing involving sales by the Company of a class of its preferred stock or convertible debt securities, or any other similar or equivalent financing transaction. The terms of such conversion have not yet been determined. Also on October 21, 2005, the Company issued warrants (the

Warrants) to purchase an aggregate of 363,636 Shares of Common Stock, par value \$0.00001 per share of the Company. The Warrants were issued in connection with the Notes described above. The exercise price for the Warrant Shares is \$1.375, subject to adjustment as provided in the Warrant. The Warrants are exercisable for five years after the date of the Warrants, October 21, 2010. The Warrants contain an automatic exercise provision in the event that the warrant has not been exercised but the Fair Market Value of the Warrant Shares (as defined in the Warrant) is greater than the exercise price per share on the expiration date. The Warrants also contain a cashless exercise provision. The Warrants also contain a limitation on exercise which limits the number of shares of Common Stock that may be acquired by the Holder on exercise to that number of shares as will insure that, following such exercise, the total number of shares of Common Stock then beneficially owned by such Holder and its affiliates will not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. This provision is waivable by the Holder on 60 days notice.

On October 14, 2005, one of the Company's directors, David Howitt, made a short-term loan to the Company for \$150,000. Edgar Filing: WARP TECHNOLOGY HOLDINGS INC - Form 10QSB

During the same period, the Company paid approximately \$507,000 in cash as part of consideration to acquire Kenosia and approximately \$15,867,102 in cash as part of consideration to purchase Tesseract, Process, David, Profitkey, and Foresight from Platinum Equity, LLC.

Table of Contents

As of December 31, 2005, the Company had debt that matures in the next 12 months in the amount of \$4,950,000. This consist of \$500,000 of note payable to Bristol Technology, Inc (seller of Kenosia), \$2,750,000 payable to Platinum Equity, LLC (seller of Tesseract, Process, David, Profitkey, and Foresight), \$1,700,000 notes payable to other investors. As of the date hereof, the \$500,000 note payable to Bristol Technology, Inc has been paid off. The Company has also taken additional debt in the amount of \$700,000 and \$1,375,000 in January 2006, both of which are expected to be paid in equity securities.

The Company continues to evaluate strategic alternatives, including opportunities to strategically grow the business, enter into strategic relationships, make acquisitions or enter into business combinations. The Company can provide no assurance that any such strategic alternatives will come to fruition and may elect to terminate such evaluations at any time.

The Company's future capital requirements will depend on many factors, including cash flow from operations, continued progress in research and development programs, competing technological and market developments, and the Company's ability to maintain its current customers and successfully market its products, as well as any future acquisitions it undertakes. The Company intends to meet its cash needs, as in the past, through cash generated from operations, the proceeds of privately placed equity issuances and debt. Even without further acquisitions, in order to meet its financial obligations including repayment of outstanding debt obligations, the Company will have to issue further equity and engage in further debt transactions. There can be no guarantee that the Company will be successful in such efforts. In the absence of such further financing, the Company will either be unable to meet its debt obligations or will have to significantly restructure its operations, or a combination of these two actions. Such actions would significantly negatively affect the value of the Company's common stock.

Subsequent Events***Options Granted to Mark Finkel***

In connection with his employment by the Company, and under the Halo Technology Holdings 2005 Equity Incentive Plan, on January 4, 2006, Mr. Finkel received stock options for 600,000 shares of the Company's Common Stock. The options were awarded pursuant to the form of Stock Option Agreement which was attached as Exhibit 10.91 to the Company's third Current Report on form 8-K filed on October 27, 2005, and hereby incorporated by reference. The exercise price for Mr. Finkel's options is \$1.22 per share (the Fair Market Value on the date of grant by the Compensation Committee). The options granted to Mr. Finkel have a ten year term. 25% of these options vest on the first anniversary of the award, provided Mr. Finkel remains in his position through that date, and the remaining options vest ratably over the following 36 months, provided that Mr. Finkel remains with the Company.

Convertible Promissory Notes and Effect on Previously Issued Convertible Notes

On January 11, 2006, the Company entered into certain convertible promissory notes (the "Notes") in the aggregate principal amount of Seven Hundred Thousand Dollars (\$700,000). Interest accrues under the Notes at the rate of ten percent (10%) per annum. The Notes will automatically convert into (i) such number of fully paid and non-assessable shares of the Company's Series E Preferred Stock (the "Series E Stock") equal to the aggregate outstanding principal amount due under the Notes plus the amount of all accrued but unpaid interest under the Notes divided by \$1.25, and (ii) warrants (the "Warrants") to purchase a number of shares of the Company's Common Stock equal to 40% of such number of shares of Series E Stock issued to the holder. This automatic conversion will occur upon the effectiveness of the filing of the Certificate of Designations, Preferences and Rights (the "Certificate of Designations") pertaining to the Company's Series E Preferred Stock. In the event that the Certificate of Designations is not filed 30 days after the notes were entered into

Table of Contents

No demand for payment has been made, and the Company expects the holders to convert their notes into equity. A copy of the form of the Notes is attached as Exhibit 4.14 to the Company's Current Report on Form 8-K filed January 18, 2006, and is incorporated herein by reference. Also on January 11, 2006, the Company entered into certain Subscription Agreements (the "Subscription Agreements") for the sale of Series E Stock and Warrants. In addition to the conversion of the principal and interest under the Notes, investors (the "Investors") under the Subscription Agreements agreed to invest \$150,000 and committed to convert the principal and interest due under certain promissory notes issued by the Company in the aggregate principal amount of \$1,000,000. Of these notes, an aggregate of \$500,000 in principal amount was issued in September, 2005 and described in the Company's current report on Form 8-K filed on September 26, 2005, and an aggregate of \$500,000 in principal amount was issued in October, 2005 and described in the second Current Report on Form 8-K filed by the Company on October 27, 2005. Accordingly, these notes were amended by the Subscription Agreement. Also under the Subscription Agreement, an investor agreed to convert \$67,500 in certain advisory fees due from the Company into Series E Stock and Warrants.

The material terms of the Subscription Agreements are as follows. The Company designates the closing date. The closing is anticipated to occur when the Series E Certificate of Designations becomes effective. The obligations of the investors under the Subscription Agreement are irrevocable, provided that if the closing has not occurred within 30 days of the date of the agreement, the investors may revoke the agreement.

No later than seventy five (75) days after the completion of the offering, the Company agreed to file with the SEC a registration statement covering the Common Stock underlying the Series E Stock and the Warrants, and any Common Stock that the Company may elect to issue in payment of the dividends due on the Series E Stock.

Upon the completion of this offering, with a full round of investment of \$10,000,000, the Investors will have the right for 15 months to invest, in the aggregate, an additional \$10,000,000 in Common Stock of the Company, at \$2.00 per share of Common Stock (as adjusted for stock splits, reverse splits, and stock dividends) or a 20% discount to the prior 30 day trading period, whichever is lower. Each Investor's right shall be his, her or its pro rata amount of the initial offering.

In the event that the Company completes or enters into agreements to sell equity securities on or before February 15, 2006, the Investor may convert the Securities received under the Subscription Agreement into such other equity securities as if the Investor had invested the amount invested in such securities. The Company will provide the Investor will five business days notice of such right. The Investor will be required to execute and deliver all such transaction documents as required by the Company in order to convert the Securities into such other securities. If the Investor so converts, all rights in the Securities shall cease.

Certain of these transactions were entered into by Mr. David Howitt, a director of the Company. Mr. Howitt invested \$350,000 under the Notes, and agreed to invest another \$150,000 under the Subscription Agreement. Mr. Howitt recused himself from the Board of Directors decisions approving these transactions.

A copy of the form of the Subscription Agreement is attached as Exhibit 10.115 to the Company's Current Report on Form 8-K filed January 18, 2006.

Convertible Promissory Notes in the Principal Amount of \$1,375,000

On January 27 and on January 30, 2006, the Company entered into certain convertible promissory notes (the Notes) in the aggregate principal amount of One Million Three Hundred Seventy-Five Thousand Dollars (\$1,375,000). The principal amount of the Notes, together with accrued interest, shall be due and payable on demand by the Lender on any date which is no earlier than sixty (60) days after the date of the Notes (the Original Maturity Date), unless the Note is converted into Common Stock and Warrants as described below. In the event that the Notes are not converted by the Original Maturity Dates of the Notes, interest will begin to accrue at the rate of ten percent (10%) per annum.

Each Note shall convert into (i) such number of fully paid and non-assessable shares of the Company's Common Stock (the Common Stock) equal to the aggregate outstanding principal amount due under the Note plus the amount of all accrued but unpaid interest on the Note divided by \$1.25, and (ii) warrants (the Warrants) to purchase a number of shares of the Company's Common Stock equal to 75% of such number of shares of Common Stock. The Notes shall so convert automatically (Mandatory Conversion) and with no action on the part of the Lender on the Original Maturity Date to the extent that upon such conversion, the total number of shares of Common Stock then beneficially owned by such Lender, does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. For such purposes, beneficial ownership shall be determined in accordance with Section 13(d) of the Exchange Act and the rules and regulations promulgated thereunder. In the event that a portion of the principal and interest under the Notes has not been converted on the first Mandatory Conversion (and the Lender has not demanded payment), there will be subsequent Mandatory Conversions until all of the principal and interest has been converted, provided that at each such Mandatory Conversion the total number of shares of Common Stock then beneficially owned by such Lender does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. Prior to any Mandatory Conversion the Lender may at its option exercisable in writing to the Company, convert all or a portion of the principal and interest due hereunder into Common Stock and Warrants provided that at each such conversion the total number of shares of Common Stock then beneficially owned by such Lender does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. By written notice to the Company, each Lender may waive the foregoing limitations on conversion but any such waiver will not be effective until the 61st day after such notice is delivered to the Company.

A copy of the form of the Notes was attached as Exhibit 4.15 to the Company's Current Report on Form 8-K filed February 2, 2006.

Also on January 27 and January 30, 2006, the Company entered into certain Subscription Agreements (the Subscription Agreements) for the sale of the Notes and the underlying Common Stock and Warrants.

The material terms of the Subscription Agreements are as follows. The Company and the investors (the Investors) under the Subscription Agreements made certain representations and warranties customary in private financings, including representations from the Investors that they are accredited investors as defined in Rule 501(a) of Regulation D (Regulation D) under the Securities Act.

The Company undertakes to register the shares of Common Stock issuable upon conversion of the Notes, and upon conversion of the Warrants (together, the Registrable Shares) via a suitable registration statement pursuant to the registration rights set forth in the Subscription Agreement. If a registration statement covering the Registrable Shares has not been declared effective no later than 180 days from the closing, the holders shall receive a number of shares of Common Stock equal to 1.5% of the number of shares received upon conversion of the Notes for each 30 days thereafter during which the Registrable Shares have not been registered, subject to a maximum penalty of 9% of the number of shares received upon conversion of the Notes.

The Subscription Agreement allows the Investors to piggyback on the registration statements filed by the Company. The Company agreed that it will maintain the registration statement effective under the Securities Act until the earlier of (i) the date that all of the Registrable Shares have been sold pursuant to such Registration Statement, (ii) all Registrable Shares have been otherwise transferred to Persons who may trade such shares without restriction

under the Securities Act, or (iii) all Registrable Shares may be sold at any time, without volume or manner of sale limitations pursuant to Rule 144(k) under the Securities Act.

Table of Contents

Upon the completion of the offering under the Subscription Agreements, with a full round of investment of \$10,000,000, the Investors in the Offering, together with the investors who participated in the Company's offering of Series E Preferred Stock and Warrants (the Series E Offering) as described initially in the Company's current report on Form 8-K filed on January 18, 2006, will have the right for 15 months after the final closing of the Offering, to invest, in the aggregate (together with any investors in such Series E offering), an additional \$10,000,000 in Common Stock of the Company. The price of such follow-on investment will be \$2.00 per share of Common Stock or a 20% discount to the prior 30 day trading period, whichever is lower; provided that the price per share shall not be less than \$1.25. The aggregate amount which may be invested pursuant to this follow-on right will be equivalent to the aggregate amount invested by the Investor in the Offering or in the Series E Offering. Each Investor's right shall be his, her or its pro rata amount of the initial offering.

Once the Company has raised a total of \$5,000,000 in this Offering and the Series E Offering, the Investors will be able to invest up to 50% of the amount which they may invest pursuant to this follow-on right; subsequent to the completion of the full round of \$10,000,000 the Investors may invest the remainder of the amount which they may invest pursuant to this follow-on right.

Notwithstanding anything to the contrary in the Subscription Agreements, the number of shares of Common Stock that may be acquired by the Investor upon any exercise of this follow-on right (or otherwise in respect hereof) shall be limited to the extent necessary to insure that, following such exercise (or other issuance), the total number of shares of Common Stock then beneficially owned by such Investor and its Affiliates and any other Persons whose beneficial ownership of Common Stock would be aggregated with the Investor's for purposes of Section 13(d) of the Exchange Act, does not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. By written notice to the Company, the Investor may waive the provisions of this Section but any such waiver will not be effective until the 61st day after such notice is delivered to the Company.

A copy of the form of the Subscription Agreement is attached as Exhibit 10.116 to the Company's Current Report on Form 8-K, and is incorporated herein by reference. The foregoing description of the Subscription Agreement is qualified in its entirety by reference to the full text of the Subscription Agreement.

Acquisition of Executive Consultants, Inc.

On January 30, 2006, the Company entered into a Merger Agreement (the Merger Agreement) with ECI Acquisition, Inc., a Maryland corporation and wholly owned subsidiary of the Company (Merger Sub), Executive Consultants, Inc., a Maryland corporation (ECI), and certain stockholders of ECI (the Sellers). Under the terms of the Merger Agreement, the Merger Sub shall be merged with and into ECI (the Merger) and ECI shall be the surviving corporation. The total merger consideration for all of the equity interests in ECI (the Purchase Price) shall be \$603,571 in cash and cash equivalents and 330,668 shares of the Company's Common Stock (the Halo Shares), subject to adjustment based on the Net Working Capital (as defined in the Merger Agreement) on the Closing Date.

The Purchase Price shall be paid as follows:

At the Closing, Halo shall make available for delivery to the ECI Stockholders \$603,571 in cash and cash equivalents and 330,668 Halo Shares.

Not later than thirty (30) days after the Closing Date, Halo shall calculate the Net Working Capital as of the Closing Date and shall provide Sellers with a written copy of such calculation. Such calculation shall be definitive and binding upon the parties unless Sellers shall give Halo written notice of any objection to such calculation within thirty (30) days after the receipt thereof (an Objection Notice). If Sellers deliver an Objection Notice, the parties shall negotiate in good faith to resolve all disputes regarding the Net Working Capital. If the parties can not resolve such a dispute they shall mutually agree upon a nationally or regionally recognized accounting firm to determine the Net Working Capital, whose decision, absent manifest error, shall be binding upon the parties.

To the extent the Net Working Capital as of the Closing Date is less than \$0 (the amount of any such difference referred to as the Purchase Price Reduction Amount), the Purchase Price, shall be reduced, dollar for dollar and share for share (based on the per share closing valuation), by the Purchase Price Reduction Amount. To the extent the Net Working Capital as of the Closing Date is greater than \$0 (the amount of any such difference referred to as the

Purchase Price Increase Amount) the Purchase Price, shall be increased, dollar for dollar and share for share (based on the per share closing valuation), by such amount. The amount due under the Net Working Capital adjustment shall be

paid within five (5) business days of the final determination of the Purchase Price Reduction Amount or Purchase Price Increase Amount, as the case may

be, by wire transfer of immediately available funds and transfer of Halo Shares. To the extent the calculation of Net Working Capital results in a Purchase Price Reduction Amount, the Sellers shall be responsible for this amount, although the Sellers may make arrangements among the ECI Stockholders to allocate this obligation pro rata among all ECI Stockholders.

Under the Merger Agreement, the Sellers made certain customary representations and warranties to the Company concerning ECI and the Company made certain customary representations and warranties to the Sellers. The Merger Agreement contains indemnity terms which provide that each party shall indemnify the other party for breaches of representations and warranties and covenants made under the agreement, provided that neither party shall be required to pay any damages unless the aggregate amount of all damages exceeds certain limits and provided further that neither party shall be liable for damages in excess of certain limits, other than for breaches by the Seller of representations relating to authority to enter into the agreement, capitalization, subsidiaries, certain liabilities, taxes and brokers fees.

The Merger is scheduled to close in February 2006, subject to customary conditions precedent including accuracy of representations and warranties at the closing date, and satisfaction of all closing conditions, but in no event later than February 28, 2006.

A copy of the Merger Agreement is attached as Exhibit 10.117 to the Company's Current Report on Form 8-K, and is incorporated herein by reference. The foregoing description of the Merger Agreement is qualified in its entirety by reference to the full text of the Merger Agreement.

CAUTIONARY LANGUAGE CONCERNING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words believe, anticipate, expect, estimate, intend, project, plan, will be, will likely continue, will likely r phrases with similar meaning. All of these forward-looking statements are based on estimates and assumptions made by our management that, although we believe to be reasonable, are inherently uncertain. Forward-looking statements involve risks and uncertainties, including, but not limited to, economic, competitive, governmental and technological factors outside of our control, that may cause our business, strategy or actual results to differ materially from the forward-looking statements. We operate in a changing environment in which new risks can emerge from time to time. It is not possible for management to predict all of these risks, nor can it assess the extent to which any factor, or a combination of factors, may cause our business, strategy or actual results to differ materially from those contained in forward-looking statements. Factors you should consider that could cause these differences include, among other things: general economic and business conditions, including exchange rate fluctuations; our ability to identify acquisition opportunities and effectively and cost-efficiently integrate acquisitions that we consummate; our ability to maintain effective internal control over financial reporting; our ability to attract and retain personnel, including key personnel; our success in developing and introducing new services and products; and, competition in the software industry, as it relates to both our existing and potential new customers.

ITEM 3. Controls And Procedures

As of December 31, 2005, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including Rodney A. Bienvenu, Jr., the Company's chief executive officer, and Mark Finkel, the Company's principal financial officer, of the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15(d)-15(e) of the Securities Exchange Act of 1934 (the Exchange Act) pursuant to Rule 13a-15(d) and 15(e) of the Exchange Act. Based upon that evaluation, Messrs. Bienvenu and Finkel have each concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files, furnishes or submits under the Exchange Act is recorded, processed, summarized and reported on a timely basis.

There were no changes in our internal control over financial reporting identified in management's evaluation during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 1. Legal Proceedings

On May 6, 2005, the Company received notice of a demand for arbitration before the American Arbitration Association from attorneys representing Michael Liss, a former employee of the Company who had the title Chief Operating Officer. Mr. Liss disputes the circumstances surrounding the termination of his employment and claims that he is entitled to severance benefits, other compensation and damages totaling approximately \$187,000 in addition to attorneys fees and statutory damages. The Company believes that Mr. Liss's claim is without merit and intends to vigorously defend itself. The Company has accrued \$50,000 for legal cost related to this matter.

ITEM 2. Unregistered Sales of Equity Securities and use of Proceeds.

On August 2, 2005, in connection with the Credit Agreement (the "Credit Agreement") between the Company, the Subsidiaries of the Company listed in Schedule 1 thereto, Fortress Credit Corp. as original lender (together with any additional lenders, the "Lenders"), and Fortress Credit Corp. as Agent (the "Agent"), the Company entered into a Warrant Agreement with the Agent (the "Warrant Agreement").

Pursuant to this Warrant Agreement, the Company agreed to issue warrants to acquire up to an aggregate of 7% of the fully diluted stock of the Company if the Lenders make all the advances under the total commitments of the credit facility.

Warrants to acquire an aggregate of 5% of the fully diluted stock of the Company (2,109,042 shares of Common Stock, par value \$.00001 per share) are issuable upon the Company receiving advances under Tranche A or B of the credit facility ("Tranche A/B Available Shares") in proportion to the amount of the advance compared with the total \$25,000,000 in commitments under Tranche A and B.

Pursuant to the Warrant Agreement, since the Company borrowed \$10,000,000 under Tranche A at the closing, warrants to acquire 40% of the Available Tranche A/B Shares (843,617 shares of the Company's Common Stock) were issued at closing to the Lenders. Since the Company borrowed \$15,000,000 under Tranche B on October 26, 2005, warrants to acquire of the remaining 60% of the Available Tranche A/B Shares (1,265,425 shares of the Company's Common Stock) were issued to the Lenders. All these warrants have an exercise price of \$.01 per share, have a cashless exercise feature, and are exercisable until December 10, 2010.

Warrants to acquire an aggregate of 2% of the fully diluted stock of the Company (843,617 shares of Common Stock) are issuable upon the Company receiving advances under Tranche C of the credit facility ("Tranche C Available Shares") in proportion to the amount of the Tranche C advance compared with the total \$25,000,000 in commitments under Tranche C.

On September 20, 2005, the Company issued to DCI Master LDC a Warrant to Purchase 181,818 Shares of Common Stock, par value \$.00001 per share of the Company. The Warrant was issued in connection with the Note described under Note 8 "Promissory Note" to the financial statements included in this Report. The Note is also described in Item 2.03 of the Company's Current Report on Form 8-K filed September 26, 2005 and incorporated herein by reference. The exercise price for the Warrant Shares is \$1.375, subject to adjustment as provided in the Warrant. The Warrant is exercisable until September 20, 2010. The Warrant contains an automatic exercise provision in the event that the warrant has not been exercised but the Fair Market Value of the Warrant Shares (as defined in the Warrant) is greater than the exercise price per share on the expiration date. The Warrant also contains a cashless exercise provision. The Warrant also contains a limitation on exercise which limits the number of shares of Common Stock that may be acquired by the Holder on exercise to that number of shares as will insure that, following such exercise, the total number of shares of Common Stock then beneficially owned by such Holder and its affiliates will not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. This provision is waivable by the Holder on 60 days notice. A copy of the Warrant is attached as Exhibit 10.89 to the Company's Current Report on Form 8-K filed September 26, 2005 and is incorporated herein by reference. The foregoing description of the Warrant is qualified in its entirety by reference to the full text of the Warrant.

On October 21, 2005, the Company issued warrants (the "Warrants") to purchase an aggregate of 363,636 Shares of Common Stock, par value \$.00001 per share of the Company. The Warrants were issued in connection with the

Notes described in the Company's second Current Report on Form 8-K filed October 27, 2005, and incorporated herein by reference. The exercise price for the Warrant Shares is \$1.375, subject to adjustment as provided in the Warrant. The Warrants are exercisable for five years after the date of the Warrants, October 21, 2010. The Warrants contain an automatic exercise provision in the event that the warrant has not been exercised but the Fair Market Value of the Warrant Shares (as defined in the Warrant) is greater than the exercise price per share on the expiration date. The Warrants also contain a cashless exercise provision. The Warrants also contain a limitation on exercise which limits the number of shares of Common

Stock that may be acquired by the Holder on exercise to that number of shares as will insure that, following such exercise, the total number of shares of Common Stock then beneficially owned by such Holder and its affiliates will not exceed 9.99% of the total number of issued and outstanding shares of Common Stock. This provision is waivable by the Holder on 60 days notice.
