EXPLANATORY NOTE

This Amendment No. 1 on Form 20-F/A (this Amendment No. 1) to the Bank's annual report on Form 20-F for the year ended December 31, 2007, filed with the Securities and Exchange Commission (the SEC) on July 8, 2008 (the original filing), is filed to restate the Bank's Supplemental Consolidated Condensed Balance Sheets, Supplemental Consolidated Condensed Statement of Operations and Supplemental Consolidated Condensed Statements of Cash Flows prepared in accordance with U.S. GAAP and included in the Bank's consolidated financial statements filed in Item 18 of the Form 20-F/A.

During the preparation of the Bank's 2008 financial statements, the Bank reviewed certain of its service agreements with vehicles used to securitize the Bank's performing loans and reconsidered the analysis under SFAS 140 and concluded that such vehicles did not meet the definition of a qualified special-purpose entity under SFAS 140. Consequently, the Bank restated the Supplemental Consolidated Condensed Balance Sheets, Supplemental Consolidated Condensed Statements of Operations and the Supplemental Consolidated Condensed Statements of Cash Flows in order to consolidate the vehicles in which the Bank is the primary beneficiary under FIN 46R Consolidation of Variable Interest Entities (Revised).

In addition, the Bank restated the Supplemental Consolidated Condensed Statements of Cash Flows to correct errors related to (i) for all years presented, the inappropriate classification of the changes in the loan portfolio as operating activities rather than investing activities, (ii) for all years presented, clerical errors in the elimination and reclassification of cash flows related to the different accounting treatment for business combinations under Colombian GAAP and U.S. GAAP (see note 31 (m)), (iii) for the fiscal years ended on December 31, 2006 and 2007, the presentation of the effects of exchange rate changes on cash and cash equivalents. In addition, as noted above, the restatement relating to the treatment of vehicles used to securitize the Bank's performing loans also affects the Supplemental Consolidated Condensed Statements of Cash Flows for the years ended December 31, 2006 and 2007.

The foregoing restatements did not have affect Consolidated Net Income and Stockholders' Equity under U.S. GAAP for any of the years presented in the original filing. The effects of the corrections and reclassifications are being presented as restatements in Note 32 to the financial statements included in this Amendment No. 1.

This Amendment No. 1 also amends Item 15 in the original filing to update the opinion of the Bank's President Jorge Londono Saldarriaga and Finance Vice-President Jaime Alberto Velasquez Botero with respect to the effectiveness of the Bank's internal controls over financial reporting as of December 31, 2007, in light of the restatement described above and in Note 32 to the financial statements included in this Amendment No. 1. Accordingly, the Bank hereby amends Item 15 beginning on page 164 of the original filing by adding the language that appears in Part II of this Amendment No. 1 after the first paragraph of Item 15.

As a result of and to reflect the restatements described above, certain disclosures have been added to or amended in Item 18 *Financial Statements* and updated CEO and CFO Certifications have been included in *Item 19 Exhibits*.

The revisions mentioned above appear on the following pages or exhibits:

ITEM 19. EXHIBITS

The following exhibits are filed as part of this Annual Report.

- 12.1 CEO Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, dated June 29, 2009.
- 12.2 CFO Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, dated June 29, 2009.
- 13.1 CEO Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, dated June 29, 2009.
- 13.2 CFO Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, dated June 29, 2009.

Except for the certifications, this Amendment No. 1 speaks as of the filing date of the original filing. Other than as set forth above, this Amendment No. 1 does not, and does not purport to, amend, update or restate any other information or disclosure included in the original filing or reflect any events that have occurred after the filing date of the original filing. This amendment should be read in conjunction with the Bank's filings made with the SEC subsequent to the original filing, as information in such reports and documents may update or supersede certain information contained in this amendment. This amendment retains the page numbering of the original filing for ease of reference.

PART II

ITEM 15. CONTROLS AND PROCEDURES

In connection with this evaluation, Bancolombia's management, including President Jorge Londono Saldarriaga and Finance Vice-President Jaime Alberto Velasquez Botero, considered whether the restatement described in Note 32 to the financial statements included herein, would change management's previous assessments of disclosures controls and procedures and internal control over financial reporting, and has concluded that, considering both quantitative and qualitative factors, the restatement of the Supplemental Consolidated Condensed Balance Sheets, the Supplemental Consolidated Condensed Statement of Operations and the Supplemental Consolidated Condensed Statements of Cash Flows prepared in accordance with U.S.GAAP included in this Form 20-F/A, did not impact the conclusion that the Bank's disclosure controls and procedures are effective as of December 31, 2007.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of directors and shareholders of BANCOLOMBIA S.A.:

We have audited the accompanying consolidated balance sheets of Bancolombia S.A. and subsidiaries (the Bank) as of December 31, 2007 and 2006, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on the financial statements based on our audits. We did not audit the consolidated financial statements of Banagrícola, S.A. (a consolidated subsidiary acquired by the Bank on May 16, 2007) and its subsidiaries, which statements reflect total assets and income before taxes constituting 16.30% and 15.30%, respectively, of the related consolidated totals for the year ended December 31, 2007. Those statements, prepared in accordance with the accounting standards prescribed by the Superintendence of Financial System of El Salvador, were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Banagrícola, S.A. and its subsidiaries on such basis of accounting, is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements (including the Bank's conversion of the amounts in the financial statements of Banagrícola S.A. and its subsidiaries, prepared in conformity with accounting standards prescribed by the Superintendence of Financial System of El Salvador, to amounts in conformity with accounting principles generally accepted in Colombia and the regulations of the Colombian Superintendency of Finance (collectively Colombian GAAP) and accounting principles generally accepted in the United States of America (U.S. GAAP). An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditors, such consolidated financial statements present fairly, in all material respects, the financial position of Bancolombia S.A. and subsidiaries as of December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007, in conformity with Colombian GAAP.

Table of Contents

Colombian GAAP vary in certain significant respects from U.S. GAAP. Information relating to the nature and effect of such differences is presented in Note 31 to the consolidated financial statements.

Our audits also comprehended the translation of Colombian pesos amounts into U. S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2b. Such U.S. dollar amounts are presented solely for the convenience of readers in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Bank's internal control over financial reporting as of December 31, 2007, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management excluded from its assessment the internal control over financial reporting of Banagrícola, S.A. and its subsidiaries which was acquired on May 16, 2007. Our report dated July 7, 2008, and June 25, 2009 as to the effects of the restatements discussed in Note 32, expressed an unqualified opinion on the Bank's internal control over financial reporting excluding Banagrícola, S.A. and its subsidiaries.

As discussed in Note 32, the accompanying financial statements have been restated.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of BANCOLOMBIA S.A.:

We have audited the internal control over financial reporting of Bancolombia S.A. and subsidiaries (the Bank) as of December 31, 2007, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. As described in the Management’s Report on Internal Control Over Financial Reporting, management excluded from its assessment the internal control over financial reporting at Banagrícola S.A. and its subsidiaries, which was acquired on May 16, 2007 and whose financial statements constitute 16.15% of total assets and 10.2% of income before taxes of the consolidated financial statement amounts as of and for the year ended December 31, 2007. Accordingly, our audit did not include the internal control over financial reporting at Banagrícola S.A. and its subsidiaries. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Table of Contents

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2007 of the Bank and our report dated July 7, 2008 and June 25, 2009 as to the effects of the restatements discussed in Note 32, expressed an unqualified opinion on those financial statements and included explanatory paragraphs regarding to the nature and effect of differences between accounting principles generally accepted in Colombia and in the United States of America, and that our audit also comprehended the translation of Colombian Pesos amounts into U.S. dollars amounts in accordance with note 2b. of such consolidated financial statements.

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

(1) Organization and Background

Bancolombia S.A., previously known as Banco Industrial Colombiano S.A. is a private commercial bank incorporated under Colombian law on January 24, 1945. On April 3, 1998, Banco Industrial Colombiano S.A. merged with Banco de Colombia S.A. and the surviving entity was renamed Bancolombia S.A. The registered office and business address of Bancolombia S.A. is in Medellín, Colombia. Bancolombia S.A. and its subsidiaries are defined as the Bank.

On July 30, 2005, Conavi Banco Comercial y de Ahorros S.A. (Conavi) and Corporación Financiera Nacional y Suramericana S.A. (post-spin off) (Corfinsura) were merged into Bancolombia S.A. (the Conavi/Corfinsura merger). The Conavi/Corfinsura merger was approved at Bancolombia S.A. s ordinary shareholders meeting held on March 28, 2005 and was also duly approved at the annual shareholder meetings of Conavi and Corfinsura, respectively. The Superintendency of Finance approved the transaction on July 19, 2005. The Conavi/Corfinsura merger was formalized and registered in the Commercial Registry of the Medellín Chamber of Commerce on August 1, 2005. As a result of the Conavi/Corfinsura merger, Bancolombia S.A. acquired the entire property, rights and obligations of Conavi and Corfinsura, entities which were dissolved without being liquidated.

On March 1, 2007 Bancolombia S.A. s shareholders approved an amendment to its bylaws, which extended the number of directors serving on Bancolombia s Board of Directors to a total of nine (9) and eliminated substitute members.

Bancolombia S.A. s business purpose is to carry out all operations, transactions, acts and services inherent to the banking business, through banking establishments that carry its name and according to all applicable legislation.

The Bank had 24,836 employees of which 12,906 were employed directly by Bancolombia S.A. and operates through 888 branches, 57 Non-Banking Correspondent (*Corresponsales no Bancarios*) and 240 mobile branches (*Puntos de Atención Móviles*) in Colombia. Bancolombia S.A also has an agency in Miami, Florida, United States of America and a representation office in Madrid, Spain.

In May 2007, Bancolombia S.A. through its subsidiary Bancolombia Panamá S.A. acquired 89.15% of the Banagrícola S.A. (Banagrícola). Banagrícola s shareholders agreed to sell 16,817,633 of the total 18,865,000 outstanding shares. The purchase price was US\$47.044792 per share for a total of US\$ 791,182. Simultaneously with the acquisition, the Bank had signed an agreement with Bienes y Servicios S.A (BYSSA), former major Banagrícola s shareholder, which included a call and written put option. The options were exercised in December 2007 and as a consequence the Bank acquired the shares representing 9.59% of interest in Banagrícola. Bancolombia Panamá S.A. has continued purchasing shares from Banagrícola s minority shareholders and at December 31, 2007 held an interest of 98.90% of Banagrícola s total shareholder s equity.

Banagrícola is a holding company with several subsidiaries dedicated to banking, commercial and consumer activities, insurance, pension funds and brokerage, among which are Banco Agrícola S.A. in El Salvador and Banco Agrícola (Panamá) S.A. in Panama. The acquisition of Banagrícola intends to place the Bank as one of several key players in Central America boosting its income generation and also diversifying its loan portfolio mix, reducing risk and exposure concentration.

- (6) Company acquired in May 2007.
- (7) Companies acquired as a result of Banagrícola s acquisition in May 2007.

(2) Main Accounting Policies

(a) Basic Accounting and Consolidation Policy

Accounting practices and the preparation of financial statements of the Bank follow generally accepted accounting principles in Colombia and the special regulations of the Superintendency of Finance, collectively Colombian GAAP. For consolidated purposes, accounting policies relating to the application of adjustments for inflation were aligned with those established by the Superintendency of Finance for the Bank. By means of External Circular 014 issued April 17, 2001 by the Superintendency of Finance, the application of inflation adjustments was eliminated for accounting purposes as of January 1, 2001. This practice formed part of the generally-accepted accounting principles in Colombia until December 2006, when it was extended to all reporting entities with Decree 1536 issued May 7, 2007.

The financial statements of foreign subsidiaries were adjusted in order to adopt uniform accounting practices as required by Colombian GAAP. The major adjustments relates to investments, loans and leased assets.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

The Bank consolidates companies in which it holds, directly or indirectly, 50% or more of outstanding voting shares. As described below, some of the Bank's subsidiaries also consolidate their own subsidiaries. The Bank's subsidiary Bancolombia Panamá S.A. sub-consolidates Bancolombia Caymán, Sistema de Inversiones y Negocios S.A., Sinesa Holding Company Ltd., Future Net Inc., Suleasing Internacional USA Inc., Suleasing Internacional do Brasil Locacao de Bens S.A., Banagrícola S.A., Banco Agrícola Panamá S.A., Inversiones Financieras Banco Agrícola S.A., Banco Agrícola S.A., Arrendadora Financiera S.A., Credibac S.A. de CV, Bursabac S.A. de CV, AFP Crecer S.A., Aseguradora Suiza Salvadoreña S.A. and Asesuisa Vida S.A. The Bank's subsidiary Leasing Bancolombia S.A. sub-consolidates Renting Colombia S.A., Renting Perú S.A.C. and Tempo Rent a Car S.A. The Bank's subsidiary Banca de Inversión Bancolombia S.A. sub-consolidates Inmobiliaria Bancol S.A., Inversiones Valsimesa S.A., Inversiones CFNS Ltda., Valores Simesa S.A., Fundicom S.A., Todo Uno Colombia S.A. and Patrimonio Autónomo Renting Colombia. The Bank's subsidiary Valores Bancolombia S.A. sub-consolidates Suvalor Panamá S.A. The remaining companies are consolidated directly by the Bank.

Under Col GAAP, the results of operations of Almacén are excluded from the consolidated results of operation of the Bank in 2007.

The consolidated financial statements are prepared for the presentation to the stockholders, but are not taken as a basis for the distribution of dividends or appropriation of profits.

Intercompany operations and balances are eliminated upon consolidation.

(b) Conversion of Foreign Currency Transactions and Balances

As an authorized exchange dealer, the Bank and its Colombian Subsidiaries are authorized by the Superintendency of Finance to make direct foreign exchange purchases and sales on the exchange market.

Operations in foreign currencies other than U.S. Dollars are translated into U.S. Dollars using the exchange rate published by Reuters and then re-expressed in Colombian Pesos at the Representative Market Rate (RMR) calculated on the last business day of the month and certified by the Superintendency of Finance. The RMR at December 31, 2006 and 2007 was Ps 2,238.79 and Ps 2,014.76, respectively.

Foreign currency position is the difference between assets and liabilities denominated in foreign currency, recorded in and out of the balance, realized or contingent, including those that are settled in Colombian local currency, which correspond to the financial statements that include operations within the national territory.

Spot foreign currency position is the difference between assets and liabilities, denominated in foreign currency, based on the unique chart of accounts, excluding, investments available for sale in equity and debt securities, held to maturity and capital contributions in foreign branches and derivatives such as: next day operations, forward contracts, futures contracts, swaps and profit or loss in option valuation. Operations that can be settled in local currency are not included in this position.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Gross leverage position consists of all rights and obligations contained in term and future contracts denominated in foreign currency; cash transactions in foreign currency carried out between one (t+1) and two banking days (t+2) and the exchange exposure relating to debit and credit contingencies acquired in negotiating exchange options and derivatives.

The arithmetic average of three (3) business days of the Bank's position in any currency other than Pesos cannot exceed the equivalent in foreign currency of twenty percent (20%) of the Bank's technical capital and the minimum amount may be negative, without exceeding the equivalent in foreign currency of five per cent (5%) of the Bank's technical capital; and gross leverage position cannot exceed five hundred percent (500%) of the Bank's technical capital.

The maximum amount corresponding to the Bank's spot foreign currency position cannot exceed fifty percent (50%) of the Bank's technical capital and cannot be negative.

The assets, liabilities and stockholders' equity in foreign currency of the Subsidiaries outside Colombia included in the consolidated financial statements were converted into Colombian Pesos using the RMR calculated the last business day of the month.

The income accounts were converted at an average rate of Ps 2,357.98 and Ps 2,078.35 per U.S. Dollar for the years 2006 and 2007, respectively. These rates correspond to the average value of the representative market exchange rate on each business day in the period from January 1 to December 31 of each year.

(c) Comparability

The consolidated statements of operations for the year ended December 31, 2006 includes financial information of the Bancolombia S.A. and its subsidiaries. The consolidated statements of operations for the year ended December 31, 2007 also includes the operations of Banagrícola S.A. since June 1, 2007 and its subsidiaries since January 1, 2007. For this reason, the consolidated statements of operations for 2006 and 2007 should be read taking into account this impact.

(d) Cash and Cash Equivalents

The statement of cash flows was prepared using the indirect method. These cash flows were calculated by taking the net differences in the balances shown on the consolidated balance sheet on December 31, 2007 and 2006. Overnight funds sold with reselling agreements are considered to be cash equivalents for the purposes of this statement.

(e) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with Colombian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates are allowance for loan losses, accrued interest losses, allowance for foreclosed assets and valuation of investments and derivatives. Actual results could differ from those estimates.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

(f) Real Value Unit Rate (UVR)

The main operations that the Bank carries out with regard to mortgage loans are linked to the *Unidad de Valor Real* (the Real Value Unit or UVR) and adjusted on a daily basis according to the daily value of the UVR, as published by the Central Bank.

The values assigned by the Central Bank to the UVR, in Colombian pesos, on December 31, 2006 and 2007, were Ps 160.0161 and Ps 168.4997 respectively.

The UVR rate corresponds to the monthly variance of the IPC during the calendar month immediately prior to the month for which the UVR rate is being calculated. In light of the above, the annualized UVR rate at December 31, 2006 and 2007 was 0.63% and 2.95%, respectively.

(g) Overnight Funds

This represents the funds directly placed by the Bank in other financial institutions with or without investment collateral, using surplus liquidity, with or without a commitment to resell, at terms of up to 30 days. The account also includes overnight deposits with banks abroad using Bank funds deposited outside Colombia.

Transactions with collateral, not repaid within 30 days are classified as investments, loans or financial lease operations, as the case may be.

The difference between present value (cash received) and future value (resale price) is recorded as interest income on overnight funds statement of operations.

(h) Investment Securities

This includes investments acquired by the Bank to maintain secondary liquidity, to acquire direct or indirect control in a company, and if authorized by legislation, to satisfy requirements of law or regulation, or simply to eliminate or significantly reduce market risks to which assets, liabilities or other balance sheet items are exposed.

1. Classification

The investments are classified as trading investments , investments available for sale and investments held to maturity. The first two of these groups may include investments in debt or equity securities. The third group shall only include investments in debt securities.

Debt securities are those securities that make a holder the creditor of the issuer, whereas equity investments are those that make a holder a part-owner of the issuer.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Trading Securities

Trading investments are those acquired mainly for obtaining profits from fluctuations in short-term prices.

Held to Maturity

Investments held to maturity are debt securities acquired with the stated purpose and legal, contractual, financial and operational capacity to hold them until maturity or redemption. They may not be used for liquidity operations unless they are mandatory investments entered into on the primary market and provided that the counterparty for the operation is the Colombian Central Bank, the General Treasury Direction of Colombia, institutions overseen by the Superintendency of Finance or, in exceptional cases, as determined by the Superintendency of Finance.

Available for Sale

These are the investments which do not fall into either of the other two classifications, for which the investor has the stated intention and legal, contractual, financial, and operational capacity to hold them for at least one year from the date of classification.

This classification covers equity investments with low exchange turnover or which are unquoted and those held as parent or controlling stockholder of the issuer. There is no one-year minimum holding period required for sale.

2. Valuation

The purpose of valuation is to record the fair market value for a given investment at a determined date.

2.1. Debt Securities

Debt securities are valued daily and the result is recorded daily. The procedures are defined in 1995 External Circular 100, Chapter I, numeral 6.1 issued by the Superintendency of Finance.

The Bank determines the market value of trading debt securities and available for sale debt securities by using the prices, reference rates and margins that the *Bolsa de Valores de Colombia* (the Colombian Stock Exchange) calculates and publishes daily.

Investments in debt securities held to maturity are valued based on internal rate of return calculated on the purchase date.

2.2 Equity Securities

Section 5 of Chapter 1 of External Circular 100 of 1995 issued by the Superintendency of Finance provides for investments to be appraised on a daily basis; however, in the case of equity investments with low volume, or unquoted, whose only source of appraisal are the financial statements of the corresponding company, the Bank conducts monthly appraisals of said investments, recording the appraised amounts also on a monthly basis.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Equity investments are valued based on the level of exchange volume at the time of valuation, as follows:

High-volume: they are valued based on the daily weighted average trading price published by the exchange.

Medium-volume: they are valued based on the average price published by the exchange, being the weighted average trading price on the last five days on which securities are traded.

Low volume and unquoted: They are valued based on the increase or decrease according to the investor's share of the variations in equity value calculated based on the most recent audited financial statements that cannot be older than six months from the valuation date, or more recent statements, if available.

2.3 Securities Denominated in Foreign Currency, in UVR or in Other Units

The procedures are defined in 1995 External Circular 100, Chapter I, numeral 6.1.1 and 6.1.2 issued by the Superintendency of Finance. If the security is denominated in a currency other than the U.S. Dollar, the value of the security determined in its original currency is converted into U.S. Dollars using the foreign exchange translation rates authorized by the Superintendency of Finance. The value thus obtained is multiplied by the RMR effective on the valuation date and certified by the Superintendency of Finance or by the effective unit for the same day, as the case may be.

Foreign exchange gains or losses resulting from investment securities conversion are recorded as net foreign exchange in the consolidated statements of operations.

3. Recording

Investments are measured depends on the classification and must be recorded initially at their purchase cost. The subsequent measurement is recorded as follow:

3.1 Trading Investments

The difference between current and previous market value is adjusted to the value of the investment and is recorded as income or expense, respectively.

3.2 Investments Held to Maturity

Investments held to maturity are accounted for at historical cost plus accrued interest using the effective interest rate method. The effective interest rate is the internal rate of return calculated at the time of purchase of investment.

Interest accruals are recorded as interest income on investment securities.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(*Stated in millions of pesos and thousands of U.S. dollars*)

3.3 Investments Available for Sale

3.3.1 Debt Securities

Changes in the values of these securities are recorded using the following procedure:

The difference between the present value on the valuation date and the previous present value increases or decreases the value of the investment and is credited as income on income statement. The present value is calculated based on an internal rate of return established at the time of purchase.

The difference between the market value and the present value of the investment increases or decreases its value and is recorded in the equity account as gross unrealized net gain or loss.

3.3.2 Equity Investments

Changes to equity investments are recorded in accordance with the investment trading volume, as follows:

3.3.2.1 Investments in Securities with Low Volume or Unquoted Securities

If the investment value based on the investor's shares of the equity of the investee is greater than the value at which the investment is registered, the difference will affect the market value allowance account or devaluation in reappraisal of assets account until it runs out, and the excess is registered as a surplus in reappraisal of assets in stockholders' equity against reappraisal of assets account.

If the investment value based on the investor's shares of the equity of the investee is less than the value at which the investment is registered, the difference will affect the surplus for valuation of the corresponding investment until it runs out, and the excess is registered as devaluation of said investment within reappraisal of assets in equity, against a devaluation in the reappraisal of assets account.

When the dividends or profits are distributed in kind, including those from capitalizing the equity revaluation account, the portion recorded as valuation in reappraisal of assets must be recorded as dividend income, charged against the equity security and the reappraisal of assets must be reversed. When the dividends or profits are distributed in cash, the value recorded as valuation in reappraisal of assets must be recorded as dividend income, the valuation reversed and the excess amount of the dividends must be recorded as a lesser equity investment value.

3.3.2.2 Investment in Securities with High or Medium Volume

The update of the market value of these securities is recorded as gross unrealized net gain or loss on investments, within the equity accounts, crediting or debiting the investment securities.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Dividends or profits distributed in kind or in cash, including those from capitalizing the equity revaluation account, must be recorded as dividend income up to the amount corresponding to the investor over profits or equity revaluation that the issuer has recorded since the investment acquisition date, charged to accounts receivable.

4. Allowances or Losses due to Credit Risk Classification

The prices of trading and available for sale debt securities that do not have fair exchange prices, those classified as held to maturity and the price for equity securities with low or minimum volume or that are unquoted must be adjusted on each valuation date, based on the credit risk classification.

Internal or external debt securities issued or guaranteed by the Republic of Colombia or the Colombian Guarantee Fund for Financial Institutions (Fogafin) or issued by the Central Bank are not subject to this adjustment.

4.1 Securities Issued Abroad or with Foreign Ranking

Securities that are rated by a rating firm acknowledged by the Superintendency of Finance or securities issued by entities that are rated by those rating firms cannot be registered for an amount that exceeds the following percentages of their nominal net amortization value as of the valuation date:

<i>Long Term Ranking</i>	<i>Max. Amount %</i>
BB+, BB, BB-	Ninety (90)
B+, B, B-	Seventy (70)
CCC	Fifty (50)
DD, EE	Zero (0)

<i>Short Term Ranking</i>	<i>Max. Amount %</i>
3	Ninety (90)
4	Fifty (50)
5 and 6	Zero (0)

Provisions for investments classified as held to maturity, correspond to the difference between the recorded value and the fair exchange value.

4.2 Securities from Issues or Issuers without any Foreign Rating and Equity Securities

These securities are rated and classified according to the methodology defined by the Bank. The securities are categorized as A except there is a risk associated to them (Category B to E). The maximum value, as defined by the Superintendency of Finance, at which these investments are posted, according to their category is:

<i>Category</i>	<i>Max. Registered Amount %⁽¹⁾</i>	<i>Investment Characteristics</i>
B Acceptable risk, greater than normal	Eighty (80)	Present factors of uncertainty that could affect the capacity to continue adequately fulfilling debt service and weaknesses that could affect their financial situation.
C Appreciable risk	Sixty (60)	Present medium-high probabilities of non-fulfillment of timely payments of capital and interest in their financial situation that may compromise the recovery of the investment.
D Significant risk	Forty (40)	

E Unrecoverable

Zero (0)

Present non-fulfillment of agreed terms of the security and material deficiencies in their financial situation, the probability of recovering the investment is highly doubtful. Recovery highly improbable.

(1) On the net nominal amortization values as of the valuation date for debt securities or the acquisition cost less allowances for equity securities.

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

(i) Loans and Financial Lease

These accounts record loans and financial leases made by the Bank in the various modalities permitted. They are funded by the Bank's own capital, public deposits and other internal and external sources of funds.

Loans are recorded at face value, except for acquisition of accounts receivable (factoring operations) which are recorded at cost, and foreign currency operations, which are converted into local currency.

The Bank's subsidiary Bancolombia Panamá S.A., authorized by the Panama Superintendency of Banking, includes participating credit loans in its loan portfolio. These are loans for which the subsidiary assumes no credit risk, which, in spite of having been sold and 100% paid, are not taken out or omitted from the portfolio group. The profit in this business activity is recorded in the net interest margin between interest income received on the original loan portfolio and interest paid for the participated loan portfolio.

External Circular 040 dated October 23, 2003 modified the treatment of financial leases. Since January 1, 2004, they have been included as part of the loan portfolio.

The institutions overseen by the Superintendency of Finance must have a Credit Risk Administration System that sets forth policies, processes, models, and control mechanisms to enable risk identification, mitigation and measurement.

Credit risk evaluation is done pursuant to effective regulations, using an ongoing monitoring process and periodic portfolio classification.

For allowance for loans and financial leases losses, the Bank applies the regulations of the Superintendency of Finance as described below.

The 1995 External Circular 100 Chapter II issued by the Superintendency of Finance, sets forth guidelines for credit risk administration. This Circular defines the basic elements of the system for the management of credit risk (SARC) and contains reference models and a time schedule for submitting the internal models to the Superintendency of Finance, among others. The Bank has adopted all required modifications and will continue its development of the proposed schemes.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

1. Classification

Loans and financial lease contracts are classified as follows:

Mortgage Loans

These are loans, regardless of value, granted to individuals for the purchase of new or used housing or to build a home, all in accordance with Law 546 of 1999. These loans include loans denominated in UVR or local currency, that are guaranteed by a senior mortgage on the property and that are financed with a total repayment term of 5 to 30 years.

Consumer Loans

These are loans and financial leases, regardless of value, granted to individuals for the purchase of consumer goods or to pay for non-commercial or business services.

Small Business Loans

These are loans and financial leases granted to microbusinesses, whose total balance outstanding with the Bank does not exceed twenty-five (25) times the effective legal minimum monthly salaries (SMMLVs).

Microbusiness means any economic exploitation unit owned by an individual or corporate entity, in entrepreneurial, farming and livestock, industrial, commercial or service activities, whether rural or urban, whose staff does not exceed ten (10) workers and whose total assets are under five hundred (500) effective legal minimum monthly salaries (SMMLVs).

Commercial Loans

Commercial loans are loans and financial leases that are granted to individuals or companies in order to carry out organized economic activities; and not classified as small business loans.

Loan-related commissions and other receivables are classified within the accounts for the type of loan to which they are related.

For the purpose of consolidating of the financial statements in the year 2007, The Colombian Superintendency of Finance in a communication dated January 17, 2008 required the classification of the commercial loan portfolio for the debtors whose main economic activity is carried out outside Colombia, as is the case of debtors of Banco Agrícola S.A. in El Salvador, to be performed in accordance with rules substantially consistent with the rules applicable to Bancolombia in the year 2006.

2. Evaluation Frequency

The Bank makes continuous evaluations of their lending and financial lease operation risk, making all necessary modifications to the respective classifications when there are new analyses or data to justify such changes.

Table of Contents**BANCOLOMBIA S.A. AND SUBSIDIARIES****Notes to Consolidated Financial Statements***(Stated in millions of pesos and thousands of U.S. dollars)*

In addition the previous process, in the months of May and November, the Bank evaluates all loans and financial leases that are past due after having been restructured and that at the time of the evaluation exceed three-hundred (300) effective SMMLVs, as well as loans from debtors whose debt from the different loan types exceeds this threshold.

3. Evaluation Criteria

The Bank evaluates loans and financial leases using the criteria required by the Superintendency of Finance. In general, they evaluate the ability to pay of the debtor/co-debtors/guarantors or any other person directly or indirectly unconditionally liable for the debt, and project the cash flow for such entities, if any.

The minimum information required from the debtors are: the income and outgoing cash flows; economic solvency; information on its current and past compliance with its obligations, the financial and credit history of debtors in risk centers; the number of times loans have been restructured; possible financial risks to cash flow, legal, operational and strategic risks; and the possibility that the customer may be impact by changes in the economy or the industry.

4. Classification

The Bank classifies loans and financial leases on the basis of the above criteria into the following credit risk categories:

In the year 2007:

Category

- A Normal Risk
- B Acceptable Risk, Above Normal
- C Appreciable Risk
- D Significant Risk
- E Risk of Unrecoverability

Consumer

- Current and up to 1 month past due
- 1-2 months past due
- 2-3 months past due
- 3-6 months past due
- over 6 months past due

Category

- A Normal Risk
- B Acceptable Risk, Above Normal
- C Appreciable Risk
- D Significant Risk
- E Risk of Unrecoverability

Small Business Loans

- Current and up to 1 month past due
- 1-2 months past due
- 2-3 months past due
- 3-4 months past due
- over 4 months past due

Mortgage

- Current and up to 2 months past due
- 2-5 months past due
- 5-12 months past due
- 12-18 months past due
- over 18 months past due

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Commercial loans and financial leases were classified as follows in 2006:

<i>Category</i>	<i>Commercial</i>
A Normal Risk	Current and up to 1 month past due
B Acceptable Risk, Above Normal	1-3 months past due
C Appreciable Risk	3-6 months past due
D Significant Risk	6-12 months past due
E Risk of Unrec overability	over 12 months past due

As of July 2007, given the introduction of the MRC the commercial category was classified as follows:

<i>Category</i>	<i>Commercial</i>
AA	Current and up to 1 month past due
A	1-2 months past due
BB	2-3 months past due
B	3-4 months past due
CC	4-5 months past due
Risk of Unrecoverability	over 5 months past due

Rules of Alignment

The Bank would automatically classify all of that debtor's accounts in the maximum risk category, B, C, D or E, or BB, B, CC or Risk of Unrecoverability due the MRC application for any loan or financial lease, unless it can demonstrate to the Superintendency of Finance that the Bank has sound reasons for another risk classification.

Under the terms of the Colombian Commercial Code, financial institutions that are related parties will receive the same classification as the parent company unless the Superintendency of Finance is shown that there are good reasons for maintaining such entities in a lower risk category.

The Superintendency of Finance requires that entities align their classifications with other financial institutions when at least two of them have classified the debtor into a higher risk category, where the debt represents at least 20% of the debtor's total indebtedness according to the most recent information available from credit bureaus. In this event, there may not be more than one level of difference in risk classification.

The Superintendency of Finance can order reclassifications and re-ranking of the classifications assigned by financial institutions. It can also order loan portfolio reclassifications for an economic sector, geographical zone or for one debtor or a group of debtors, whose borrowings must be accrued pursuant to rules on individual debt limits.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
 Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

5. Suspension of Accruals

The Superintendency of Finance established that interest, UVR, lease payments and other items of income cease to be accrued in the statement of operations and begin to be recorded in memorandum accounts until effective payment is collected, after a loan is in arrears for more than a certain time:

<i>Type of loan and financial lease</i>	<i>Arrears in excess of:</i>
Mortgage	2 months
Consumer	2 months
Small business loans	1 month
Commercial	3 months

Bancolombia adopted a policy, in which all loans and financial leasing operations of any type, with the exception of mortgage loans that are more than 30 days past due, cease to accumulate interest on the statement of operations and instead are recorded in the memorandum accounts until such time the client proceeds with their payment.

Those loans that become past due and that at some point have stopped accruing interest, UVR, lease payments or other items of income, will stop accruing said income from their collection. Their entries will be recorded in memorandum accounts until such loans are collected.

6. Allowance for Loans and Financial Leases Losses

The Bank records allowance for loans and financial leases losses for each period as follows:

General Allowance:

The Bank sets up a general provision corresponding to one per cent (1%) of the total value of the gross loan portfolio, except on commercial loans. External Circular 039 of 2007 exempted the calculation of a general provision from the commercial classification. This rule also allowed for the general provision set up until that moment, to be used for part of the individual provisions required for the enforcement of the MRC.

The general provision, however, may be increased if approved by the general shareholders meeting, and is updated on a monthly basis according to the increases or decreases in the loan portfolio.

In the case of companies belonging to Banagrícola and its subsidiaries, the instructions prior to External Circular 039 of 2007 were applied, that is to say, a general provision was set up corresponding to a minimum of one per cent (1%) on the total amount of the gross loan portfolio.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Individual Allowance:

In compliance with instructions issued by the Superintendency of Finance, in External Circular 040 of 2007, for the consumer and small business classifications, the Bank must maintain at all times provisions corresponding to following minimum percentages, calculated on the outstanding balance.

<i>Category</i>	<i>Minimum provision percentage net of guarantees</i>	<i>Minimum provision percentage</i>
A	0%	1%
B	1%	2.20%

Minimum provision percentage net of guarantees is the percentage of the provision that shall be applied on the outstanding balance, deducting the value of the appropriate guarantees. Minimum provision percentage is the percentage of the provision that shall be applied on the outstanding balance, without deducting the value of the appropriate guarantees.

In any case, the individual provision for each rating must correspond to the sum of the provisions that result from applying the minimum provision percentage net of guarantees and the minimum provision percentage.

External Circular 040 of 2007 required that as of July 1, 2007, and until June 30, 2008, the provision for consumer loans in Categories A and B be increased, calculating this on the outstanding balance without deducting the value of the appropriate guarantees according to the following percentages. As of December 31, 2007, Bancolombia S.A. recognized the total provision permitted by the Circular.

<i>Category</i>	<i>Additional Provision</i>
A	0.60%
B	1.80%

Pursuant to Chapter II of the Basic Accounting Circular, companies may design and adopt their own internal models for estimating and/or measuring losses with regard to their commercial, consumer, housing and small business loans; or apply the reference models designed by the Superintendency of Finance for these same purposes. As of May 31, 2008, the Superintendency of Finance has issued reference models for commercial loans and consumer loans, the application of the first was mandatory in July 2007, and of the second one will be in July 2008.

The Bank adopted the Reference Model issued by the Superintendency of Finance in External Circular 035, 2006 for its commercial loans, whose application became mandatory as of July 2007, except for Banagrícola's subsidiaries which adopted the guidance effective to December 31, 2006. This model allows for components of expected losses to be determined, according to the following parameters:

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

1. Probability of Default (PD): This corresponds to the probability of the debtors within a specific portfolio of commercial loans defaulting on their obligations in a period of twelve (12) months (according to the cases described in subsection b of section 1.3.3.1 of Chapter II of the Basic Accounting Circular). The probability of default is defined according to matrixes issued by the Superintendency of Finance, which are updated every year in May and come into full force and effect as of the following July, based on the terms and conditions specified by the Superintendency.

For 2007, the matrixes governing individual provisions were as follows:

Matrix B

Commercial	Non-fulfillment			
	Corporate	Small Business	Medium Business	Individuals
AA	2.19%	7.52%	4.19%	8.22%
A	3.54%	8.64%	6.32%	9.41%
BB	14.13%	20.26%	18.49%	22.36%
B	15.22%	24.15%	21.45%	25.81%
CC	23.35%	33.57%	26.70%	37.01%
Non-fulfillment	100%	100%	100%	100%

2. The loss given default (LGD): This is defined as the economic deterioration sustained by a company should any of the events of default, as referred to in subsection b of section 1.3.3.1 of Chapter II of the Basic Accounting Circular, arise. The LGD for debtors classified in the default category would suffer a gradual increase according to the amount of days lapsing after being classified in said category. The LGD per type of guarantee is as follows:

Type of Collateral	LGD	Days after non-fulfillment	New LGD	Days after non-fulfillment	New LGD
Inadmissible guarantee	55%	270	70%	540	100%
Subordinate loans	75%	270	90%	540	100%
Admissible financial collateral	0-12%				
Residential and commercial real estate	40%	540	70%	1080	100%
Leased real estate	35%	540	70%	1080	100%
Leased assets different from real estate	45%	360	80%	720	100%
Other collaterals	50%	360	80%	720	100%
Collection rights	45%	360	80%	720	100%
No guarantee	55%	210	80%	420	100%

According to Decree 2360 of 1993, admissible guarantee means any guarantee with respect to which the Bank would have preference over other creditors and the collateral for which complies with certain parameters and objectives of the Superintendency of Finance.

3. Exposure at Default (EAD): Defined as the total balance outstanding, conformed by the principal, interests and any other concept owed by the debtor.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Based on the regulations issued by the Superintendency of Finance, the minimum allowances for mortgage portfolio must correspond to the following percentages:

Home Mortgage %

	Capital		Interest/Other
	On Guaranteed Portion	On Non- Guaranteed Portion	
A- Normal Risk	1	1	1
B- Acceptable Risk, Above Normal	3.2	100	100
C- Appreciable Risk	10	100	100
D- Significant Risk	20	100	100
E- Risk of Unrecoverability	30	100	100

In the case of the mortgage portfolio, if the loan has remained in Category E for 2 consecutive years the provision for the guaranteed portion is increased to 60% and if it remains for another year in this category, the provision is increased to 100%, unless there is any indication of a possible recovery by actions previously taken by the Bank.

In addition, the Bank has also recorded additional provisions for certain clients based on an individual analysis of loss and probabilities of recovery.

In the case of loans pertaining to the commercial category of Banagrícola s subsidiaries, minimum provisions were applied according to the following percentages:

Category	Commercial %	
	Capital	Interest/Other
A Normal Risk	1	1
B Acceptable Risk, Above Normal	3.2	3.2
C Appreciable Risk	20	100
D Significant Risk	50	100
E Risk of Unrecoverability	100	100

For categories such as consumer, small business and mortgage, apply the guidelines set forth in External Circular 040 of 2007 issued by the Superintendency of Finance.

7. The Effect of Guarantees on Allowances

In the case of commercial loans in Colombia, the effect of guarantees on allowances is determined in accordance with the parameters set by the Reference Model (MRC) for the applicable LGD, as shown in the tables above, and the respective provisions are calculated taking into account 100% of the value of the guarantees. For consumer loans, small business loans and mortgage loans the respective provisions are calculated based on seventy per cent (70%) of the guarantee value, and, in these cases, the guarantee value will not exceed the principal amount of the loan.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

In the case of Banagrícola's portfolio for consumer loans, small business loan, commercial loans and mortgages, the respective provisions are calculated taking into account up to seventy per cent (70%) of the guarantee value, and the guarantee value will not exceed the principal amount of the loan.

For Bancolombia Panamá the respective provisions for commercial loans are calculated using 100% of the value of the related guarantees.

Nevertheless, depending on whether the security is a mortgage or not and on the length of time the loan has been in arrears, the Bank may only take into consideration the percentages of the total security value indicated below:

<i>% Cover of security</i>	<i>Time elapsed from default date to security non-execution</i>	
	<i>Appropriate mortgage security/escrow</i>	<i>Non-mortgage security</i>
70	0-18 months	0 -12 months
50	18-24 months	12-24 months
30	24-30 months	
15	30-36 months	
	Over 36 months	Over 24 months

The security is perfected when it is formalized and if it has a professionally-established and objective value to provide effective legal backing to repayment of the secured loan, giving the lender or creditor preferential or prior rights to obtain payment, and if it is reasonably marketable.

Appreciation of mortgage collateral

The value of the collateral posted by the Bank is established based on parameters set forth in External Circular 034 of 2001 issued by the Superintendency of Finance and listed below:

In the case of mortgage collateral consisting of property to be used for housing purposes, the market value shall be the initial appraisal value of the collateral duly adjusted according to the housing price index published by the National Planning Department. The value shall be updated at least on a quarterly basis, using the aforementioned index.

In the case of mortgage collateral consisting of property different than housing, the market value shall be the appraisal value of the property given over in guarantee when the loan was issued or the new appraisal value as subsequently calculated on a periodic basis.

For the purpose of calculating provisions, the value of the collateral pledged on the debtor's commercial or industrial establishments is not taken into account. Also, the main real estate which forms part and the respective establishment or mortgages on property where the establishment operates or functions, are not taken into account, except in those cases where the financial institution shows that it is possible to split up the property of the establishment and that the market value of this property is not adversely affected by this division.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

The Bank does not base their lending decisions on the amount and/or type of collateral offered, since they understand that the source of payment of the loan or financing arrangement is provided by the capacity of the beneficiary of the loan to generate cash flows, whether this is an individual or a company. However, in the case of new projects and/or mid to long-term financing, alternative sources are required in order to recover the loan. Considering that the Bank has made inroads on the Small and Medium Enterprises (SME) segment, its policy is to obtain coverage with the Colombian National Guaranty Fund (*Fondo Nacional de Garantías* FNG, a Government entity responsible for issuing guaranties to micro-small and medium-sized businesses), and the Colombian Agricultural Guaranty Fund (*Fondo Agrícola de Garantías* FAG).

8. Mortgage debt relief

Mortgage relief originates from the large-scale process of reliquidating mortgage loans as a result of the change in the housing financing system, introduced by Law 546 of 1999. Credit institutions carried out this reliquidation process based on the difference between the *Depósito a Término Fijo* rate (Colombia's average of term deposits rate or DTF) and the *Unidad de Poder Adquisitivo Constante* rate (the Purchasing Power Unit Rate or UPAC), for the purpose of comparing how the UPAC rate is performing in comparison to the UVR rate's performance, so that these might be accorded the same reduction as that corresponding to the UPAC-linked credit. The Colombian government proceeded to credit to the value of the obligations the total amount of the difference produced by this reliquidation process and for the purpose of paying the amounts credited issued UVR-denominated Treasury Bonds (TES).

Decree 712 of 2001, which amended Decree 2221 of 2000, established grounds for returning the debt relief applied for credit institutions, to the Republic of Colombia through the Ministry of Finance and Public Credit, as follows:

Due to default on

- a) More than twelve (12) successive monthly payment installments, as of the date on which the amount is credited to the individual long-term mortgage loan, according to the provisions of Law 546 of 1999.

Due to failure to pay an

- b) If the credit institution has started collection proceeding against the mortgagor prior to the expiry of the term of default established in the prior section.
- c) Mortgage credits for more than one dwelling per person.
- d) Due to waiving the amount relieved to other loans
- e) Amounts credited are higher than those due

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

9. Loans to Regional Authorities

The evaluation of loans to regional authorities includes not only the criteria applicable to regular borrowers but also the provisions set forth in Law 358 of 1997 and Law 617 of 2000.

10. Restructured Loans

A restructured loan is a loan for which an agreement exists and whose purpose or effect is to modify some of the terms of the loan. This includes informal or non-moratorium agreements, Law 550 of 1999 agreements, Law 617 of 2000 agreements, and special restructuring as defined in the Superintendency of Finance Circular 39 of 1999.

Restructured loans shall not be considered to include the credit relief stipulated by law, as was the case of the relief stipulated in Law 546 of 1999, for the housing loan portfolio.

For the loans restructured as indicated above or using other restructuring methods which include the capitalization of interest recorded in memorandum accounts or balances written off, including capital, interest and other items, the amounts capitalized are recorded as deferred income in other liabilities and they are amortized in proportion to the amounts actually collected.

11. Charge-Offs

In June and December, the Bank writes off debtors classified as unrecoverable, based on the following criteria:

Provision of 100% of all amounts past due (capital, interest and other items).

One hundred eighty (180) days past due for consumer and small business loans.

Three hundred sixty (360) days past due for commercial loans.

One thousand six hundred twenty (1620) days past due for mortgage loans.

All charge-offs must be approved by the board of directors. Even if a loan is charged off, management remains responsible for its decisions in respect of the loan, and the Bank is not relieved of its obligations to pursue recovery as appropriate.

The recovery of charged-off loans is accounted for as income in the Consolidated Statements of Operations.

Charge-offs in Bancolombia Panamá S.A.

Bancolombia Panamá takes into account the regulation issued by Republic of Panama Superintendency of Banking, which requires charges-off all loans by the end of the fiscal period in which they were classified as unrecoverable.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

12. Securitized Loans

The Bank has securitized both performing housing loans indexed to UVR s and at a fixed rate, as well as non-performing loans.

The non-performing mortgage loan portfolio was securitized by the Bank in order to reduce the level of overdue loans, and as a result reduce the systemic risk presented given the concentration of long-term assets as compared to short-term liabilities, and to improve the Bank s financial indicators.

The securitization process carried out on the non-performing mortgage loan portfolio was made in accordance with subsection one of Article 12 of Law 546 of 1999. The Bank proceeded to completely separate and isolate from its equity the total amount of underlying assets that were securitized, pursuant to Article 2 of Resolution 775 of 2001 issued by the Superintendency of Finance by issuing A, B and C-rated credit securities to finance the building and purchase of housing. A- rated securities were sold to the securitizing party and the B- and C- rated securities were recorded as trust rights investments pursuant to instructions received from the Superintendency of Finance. All expenses incurred in taking possession of the guarantee are paid for by the Bank; in exchange the Bank receives the amount remaining after paying out the total amount of principal and interest on these securities. The Bank is the guarantor of the notes issued by in the securitization of non-performing loans in Banagrícola.

(j) Customer s Acceptances and Derivatives

Acceptances

The Bank issues local currency bank acceptances for up to 180 days for import or export operations or for local purchases of merchandise, pursuant to legal provisions.

They are treated as active loans and may not exceed the Bank s paid in capital and legal reserve. The asset and liability are initially recorded at the same time as Customer acceptances.

If unpaid at maturity, the asset is reclassified to a loan account and the liability to past due bank acceptances until it is paid, and as of maturity, these acceptances are subject to reserve requirements for on demand liabilities for payment within 30 days.

The term granted by the beneficiary abroad to the client in Colombia to pay for the goods is governed by International Chamber of Commerce rules and may exceed 180 days under the internationally-accepted deferred credit mode for up to one year. The ledgers may therefore contain foreign currency acceptances for more than 180 days.

Next Day Operations

These include all agreements or contracts entered into by two parties and to be fulfilled within two business days immediately following the date on which the agreement or contract is entered into and must be valued applying the methodology provided for by Chapter XVIII of 1995 External Circular 100.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Derivatives

The Bank records the amount of agreements between two or more parties to purchase or sell assets at a future date, whose compliance or settlement is agreed upon more than two business days following the operation initiation date, in order to provide or obtain hedging, in the terms defined by competent authorities. Therefore, these agreements create reciprocal and unconditional rights and obligations, which are recorded as assets, presenting the obligations with opposite nature. Operations are formalized by contract or letter of intent. The Bank has contracts for forwards, for options, swaps and futures.

Currency derivatives are designed to cover exchange exposure risks on structural or traded open positions by setting up a reciprocal operation or synthetic coverage for up to the maximum exposures allowed by the regulation and control agencies.

The difference between rights and obligations is recorded daily as income or expense from forward contracts in foreign currency, as the case may be.

Forward Contracts

A forward contract is any agreement or contract that meets the needs of two parties acting outside the market for the purpose of accepting or delivering a specific quantity of a product or underlying asset with defined specifications regarding price, date, place and means of delivery.

Future Contracts

These are standard contracts for future delivery, specifying due date, quantities, amounts, qualities, etc. The valuation is calculated pursuant to the stock market practices where the securities are traded.

Futures may be liquidated in cash, by a reciprocal operation prior to the due date, by physical delivery of a product or by liquidating against an index.

Swap Contracts or Financial Exchange Contracts

A swap contract or financial exchange contract is a contract between two parties that agree to exchange flows of money within the time set forth in the obligations, which is financially similar to a series of Forward Contracts whose objective is to reduce costs and risks due to variations in exchange rates or in interest rates.

Simultaneous Operations

Simultaneous operations are those that are set up as a result of purchase and sale agreements by virtue of which a person (original seller) sells fixed-income securities to another (original buyer), with the undertaking that the latter shall sell back to the former, at a later date and at a price established at the beginning of the operation, securities equivalent to those originally handed over. Likewise, the original seller is obligated to purchase the securities handed over to the original buyer, according to the terms and conditions that were expressly stipulated in the agreement or contract.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Option Contracts

In option contracts, the holder of an option has the right, but not necessarily the obligation, to purchase or sell a specific quantity of an asset at a given price on a given date or during a determined period. The Bank measures these operations, taking into account market risks, operational risks and legal risks.

Derivatives are accounted for at fair value on a daily basis and results of the valuation are recorded on the same basis.

The Bank records the assets received in guarantee of credits unpaid using the following criteria:

The initial value recorded is the value specified in the court award or the one agreed upon by the debtors.

When foreclosed assets are not in conditions to be immediately disposed of their cost increases with all those expenses required in order to get said assets ready for sale.

If the proceeds of the sale are more than the settlement value agreed upon with the debtor, that difference is recorded as accounts payable to the debtor. If the proceeds of sale are expected to be insufficient to cover the outstanding debt, the difference must be immediately recorded on the statement of operations as a non-operating expense.

Moveable assets received in payment corresponding to investment securities are valued by applying the criteria indicated in this note under letter (h) Investments, but taking into account provision requirements for the periods referred to below.

When the commercial value of the property is lower than its book value, a provision is recorded for the difference.

Legal term for the sale of Foreclosed Assets

Institutions must sell the foreclosed assets, in a period no later than two years after the foreclosing date, except when upon the board of directors' request, the Superintendency of Finance extends the term. However, in any event the extension may not exceed an additional period of two years.

Provisions for Foreclosed Assets

With the issuance of the Superintendency of Finance External Circular 034 of August 2003, (effective since October 2003) supervised banks must design and adopt their own internal models for the calculation of provisions for foreclosed assets, through which expected losses for all types of assets are estimated. The Bank does not have their own internal model for calculating provisions for foreclosed assets through which expected losses are estimated by type of asset and approved by the Superintendency of Finance.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Until such model is presented and approved by the Superintendency of Finance, provisions will be made following the parameters set forth below.

Real estate

The Superintendency of Finance requires a provision equal to 30% of the value of the asset at the time of receipt must be made in proportional monthly installments within the first year following receipt. This provision will increase an additional 30% in proportional monthly installments within the second year following receipt of the asset. Once the legal term for sale has expired without authorization to extend, the provision must be 80% of the value upon receipt. In case the term extension is granted, the remaining 20% of the provision may be constituted within said term.

Moveable Assets

The Superintendency of Finance requires a provision equal to 35% of the value of the asset at the time of acquisition must be made in proportional monthly installments within the first year following receipt. This provision must be increased an additional 35% in proportional monthly installments within the second year following receipt of the asset. Once the legal term for sale has expired without authorization to extend, the provision must be 100% of the book value of the asset prior to provisions. If the term extension is granted, the remaining 30% of the provision may be constituted within said term.

The value of moveable assets received in payment is calculated according to the criteria established by the Superintendency of Finance for appraising investments as set out in Chapter I of Circular 100 of 1995. Considering that said assets in the Bank's possession are provisioned for 100% of its value, this appraisal process is not required. Also, it is the Bank's policy, in the case of foreclosed assets that remain for more than 5 years in the Bank's possession as of the date when first recorded in the financial statements, for an adjustment to be applied to the provision, increasing the value up to 100% of its value in books. All property governed by a promissory bill of sale or an agreement is excluded from this practice.

(k) Loan Fees

Loan origination and commitment fees, as well as direct loan origination and commitment costs, are recorded in the consolidated statement of operations as collected or incurred.

(l) Loan Fees

Loan origination and commitment fees, as well as direct loan origination and commitment costs, are recorded in the consolidated statement of operations as collected or incurred.

(m) Property, Plant and Equipment

This account records tangible assets acquired or leased assets, constructed or in the process of importation or construction and permanently used in the course of the Bank's business which have a useful life exceeding one year. Property and equipment is recorded at the cost of acquisition, including direct and indirect costs and expenses incurred up to the time that the asset is in a usable condition.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Additions, improvements and non-routine repairs that significantly prolong the useful life of an asset are capitalized. Payments for routine maintenance and repairs are charged to expense in the period in which they are incurred. Depreciation is calculated on a straight-line basis over the estimated useful life of the asset. The annual depreciation rates for each asset item are:

Buildings	5%
Equipment, furniture and fittings	10%
Computer equipment	20%
Vehicles	20%
Monitors, laptops and CPU s	33%

The individual net book value of real estate (cost less accumulated depreciation) is compared against market values taken from independent professional appraisals. If the market value is higher, a reappraisal of assets is recorded; otherwise, the difference is charged to expenses as provision for other assets for the period. Valuations must be made at least every three years.

At December 31, 2006 and 2007, the Bank had insurance coverage for the acts of its employees which could affect the Bank as well as the financial risks and civil liability coverage for risks inherent to its business. Other policies protect assets against fire, earthquake, explosion, civil disturbance, riot, terrorism, damage to computers and vehicles.

Maintenance policy

There are corrective maintenance measures that consist of immediately repairing the parts, pieces or elements that could affect the property s safety and proper working order. Preventive maintenance consists of periodically checking each one of the parts; electrical and premise checks are carried out twice a year, whereas maintenance on furniture, equipment and fixtures are carried out three or four times a year. The maintenance expenses are recorded as Administrative and other expenses in the statements of operations.

(n) Prepaid Expenses and Deferred Charges

Prepaid expenses are payments made by the Bank in the normal course of business, the benefits of which are recovered over more than one period and are recoverable assuming continuous delivery of services. Deferred charges are goods and services received, for which the Bank expects to obtain future economic benefits.

Amortization of prepaid expenses and deferred charges is calculated from the date which they contribute to the generation of income, based on the following factors:

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Prepaid Expenses

Prepaid expenses include mainly the following monetary items: interest, amortized monthly during the period prepaid; insurance, over the life of the policy; rent, over the period prepaid; equipment maintenance, over the life of the contract; and other prepaid expenses over the period in which services are received or costs and expenses are incurred.

Deferred Charges

Deferred charges are non-monetary items:

Software is amortized over a maximum of three years.

The External Circular 034 issued in October 2006 by the Superintendency of Finance modified the instructions contained in Chapter XVII of the Basic Accounting Circular with regard to goodwill pertaining to new acquisitions and establishes that the value of the goodwill acquired shall be determined once the purchasing entity effectively obtains control over the acquired entity. This value must be distributed throughout each of the business segments, which must be fully identified, even at the book-keeping level. Acquired goodwill is not recorded in the case of acquisitions between controlling and controlled or subordinate entities, or between entities that have the same controller or controllers pursuant to Articles 260 and 261 in the Code of Commerce or between entities that make up a corporate group pursuant to Article 28 onwards of Law 222 of 1995.

Acquired goodwill is recorded as a deferred charge and amortized on a monthly basis on the administrative and other expenses account over a term of twenty (20) years, unless the supervised entity voluntarily selects a shorter period of amortization. Annual amortization is determined on an exponential basis. The different business lines is appraised on an annual basis using technical value appraisal methods performed by an expert, whose suitability and independence has been previously rated by the Superintendency of Finance.

In the case of goodwill already acquired by the Bank and its subordinates on the date when this regulation came into full force and effect, the current amortization term was maintained. With regard to the acquisition of equity securities, prior to the accounting, the Bank carried out an independent appraisal of each business, taking into account the period in which the investment is recovered, the amount of goodwill involved, and the impact of such goodwill on the income statement. Based on the aforementioned evaluation, the amortization period was determined, which does not in any case exceed the terms stipulated in the applicable rules and regulations.

Stationery is expensed when consumed.

Bonuses under the voluntary retirement plan are amortized as permitted by the Superintendency of Finance.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

The discount on the placement of investment securities is amortized over the term specified for the redemption of these same.

Contributions and affiliations are amortized over the period prepaid.

The Bank does not record deferred charges corresponding to studies and projects, institutional advertising and publicity. The value of the disbursements made in connection with these items is recorded directly on the statement of operations as administrative and other expenses.

(o) Operating Leases

Subsidiaries Leasing Bancolombia S.A. and Renting Colombia S.A. each posts all assets given over under operating leasing arrangements in its financial statements.

Depreciation is applied over either the asset's useful life or the term of the leasing agreement, whichever period is the shortest. The methodology used is the financial depreciation method (deducting the residual value) where depreciation on the leased assets bears an adequate relation to the income generated thereon.

The financial depreciation system requires that every month or fraction of a month, the depreciation expense is recorded and therefore depreciation methods involving grace periods are not admissible in this case nor are those that use non-market-based discount rates to estimate the depreciation value.

The assets are amortized upon to the amount of the estimated residual value and upon to the total, when the entity does not have a third party guaranteeing the residual value.

Likewise, a general provision of 1% shall continue to be set up on the value of these assets, without the total value of the accumulated depreciation and the general provision exceeding 100% of the value of the leased asset.

Instructions contained in Chapter II of External Circular 100 of 1995 are followed when evaluating and rating the leased assets.

(p) Trust

This corresponds to the rights arising from having entered into mercantile trust agreements which provide the Bank with the possibility of exercising such rights according to the specific agreement or the applicable law.

The transfer of one or more assets to a trust fund is carried out at its cost value, so that the actual handing over of the asset does not imply any profits for the party setting up the trust and these may only affect the results when the assets subject to the trust are transferred to third parties.

The rights in trusts are adjusted according to the nature of the assets being transferred, following the adjustment procedures for each one of these assets. According to the class of asset in question, an evaluation is carried out, provisions are set up, and legal limits are defined.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

(g) Reappraisals

This account records reappraisals of property and equipment, real state available for sale investments with low exchange volume or which are unquoted.

Valuations are subject to the accounting policy for each type of asset.

(r) Interbank Funds Purchased and Repurchase Agreements

The Bank records funds obtained by the Bank from other financial institutions to satisfy transient liquidity needs in overnight funds. These transactions have a maximum term of thirty (30) calendar days, except the operations with the Colombian Central Bank. Purchases not repaid within that term are reclassified as bank loans and other financial obligations.

The difference between present value (cash received) and future value (repurchase price) is recorded as interest expenses on overnight fund in statement of operations.

(s) Insurance reserves

The subsidiaries, Aseguradora Suiza Salvadoreña S.A. y Asesuisa Vida S.A, record the following insurance reserves on their financial statements:

Mathematical reserves

Mathematical reserves on long-term individual life insurance are calculated based on mortality tables, technical interest and actuarial formulas for each type of insurance. In calculating these reserves the mean reserve and deferred premiums are deducted. The total value of this reserve is certified by an authorized actuary.

Reserves for ongoing risk

In the case of short-duration contracts, a non-accrued premium reserve is calculated based on a percentage of the net retained premium for each type insurance contract. There is no reserve to the insurance contracts with monthly premiums (Debt and a portion of Fire and Foreseeable Lines) and which the premium does not cover any future risk.

Reserves to incurred but not reported claims

The reserve for incurred but not reported (IBNR) claims is calculated as the average value of the retained portion of the payments made over the last three (3) years on claims not reported for prior periods.

(Stated in millions of pesos and thousands of U.S. dollars)

(t) Deferred Income

This account records deferred income and income received in advance in the course of business. Amounts recorded in this account are amortized over the period to which they relate or in which the services are rendered.

The capitalization of yields on restructured loans that have been recorded in memorandum accounts or as charge off loan balances are included in this category as indicated in Note 2 (i) Loans and Financial Lease.

(u) Retirement Pensions

The Bank applies the provisions in Decree 1517 of 1998, which requires a distribution of charges to amortize the actuarial calculation by 2010. As of December 31, 2007, the Bank has amortized the total actuarial liability.

(v) Accrued Expenses

The Bank records provisions to cover estimated liabilities, such as fines, sanctions, litigations and lawsuits, provided that:

The Bank has acquired a right, and therefore has an obligation;

Payment may be demanded or is probable; and

The provision is justifiable, quantifiable and verifiable.

This account also records estimates for taxes.

(w) Additional Paid in Capital

This corresponds to the greater value paid by shareholders over the nominal value of the share. With regard to the issuance of ADRs abroad, the discount granted to the underwriting firms was registered as a lower value of the amount paid by the new shareholders.

(x) Recognition of Interest Revenue

Interest revenue is recognized in current earnings as it accrues. Interest is suspended when due and there is a doubt regarding its collectibility.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

(y) Contingent and Memorandum Accounts

Contingent accounts record operations in which the Bank acquires rights or assumes obligations conditioned by possible future events with varying degrees of probability, such as definite, possible or remote. Memorandum accounts record third party operations whose nature does not affect the financial situation of the Bank. Contingent and memorandum accounts are included in the caption memorandum accounts of the balance sheet.

(z) Net Income per Share

To determine net income per share, the Bank uses the weighted average of the number of shares outstanding during the accounting period.

(aa) Asset and liability management

The Bank evaluates its asset and liability management as well as its off-balance positions, estimating and controlling its degree of exposure to main risks prevalent on the market, this in order to protect these from eventual losses given fluctuations in their value (assets and liabilities).

(bb) Legal Reserve

According to Colombian law, credit institutions must constitute a legal reserve that amounts to at least fifty percent (50%) of the subscribed capital, formed with ten percent (10%) of the net income of each period.

(cc) Recognition of Insurance Income and Related expenses

Premiums from individual and group life insurance policies, property and liability contracts are recognized as income over the period to which the premiums relate, in proportion to the amount of insurance protection provided.

Acquisition costs that are primarily related to the acquisition of new and renewal insurance business, including commissions, underwriting and agency expenses are accounted for as incurred.

(dd) Policies Pension Fund Administrator

Each pension fund administrator must set up and maintain a Special Guarantee Contribution (AEG) for the purpose of protecting minimum returns for the fund being administered. This guarantee is calculated based on Executive Decree No. 13 Rules and Regulations for Managing the Special Guarantee Contribution which establishes a maximum 3% guarantee of the fund's assets. Therefore, each pension fund administrator may set up, using its own funds, guarantees, sureties and other financial instruments that allow for the protection of the established percentage, with financial institutions having the minimum rating required for issues subject to being acquired by pension funds.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

As of December 31, 2006 and 2007 the AEG was calculated based on 0.25% of the Pension Fund assets and is guaranteed by an administrative surety.

(ee) Reserve for Country Risk

Banco Agrícola S.A., Aseguradora Suiza Salvadoreña S.A. and Asesuisa Vida S.A. record, in their financial statements, reserves for country risk.

Reserves for country risk are set up to cover the placement of funds abroad. For this purpose, permanent investments in subsidiaries abroad are not included. This risk is attributed to the place of domicile of the debtor or the party who is obliged to pay, from whom a return on the invested funds is to be obtained, except when the controlling company is jointly responsible and/or when the guarantor is domiciled in a country with an investment rating.

Institutions that place or commit funds in other countries use the sovereign risk ratings for the country in question in order to determine the country risk. Said ratings are issued by well-known international risk rating agencies for long-term obligations.

Any increase in these reserves gives rise to a debit to the inappropriate earnings account profits from prior years and a credit in the restricted equity account profits from prior years. Drops in the reserves cause a reverse effect in the books.

(ff) Convenience Translation to U.S. Dollars

The Bank maintains its accounting records and prepares its financial statements in Colombian pesos. The U.S. Dollar amounts presented in the financial statements and accompanying notes have been converted from peso figures solely for the convenience of the reader at the exchange rate of Ps 2,014.76 per US\$ 1, which is approximately the exchange rate, calculated on December 31, 2007, the last business day of the year, by the Superintendency of Finance. This translation may not be construed to represent that the Colombian peso represents or has been, or could be converted into, U.S. Dollars at that or any other rate.

(gg) Income Tax Expenses Current and Deferred

The income tax is determined as follows: from the ordinary and extraordinary income realized in the period, that being susceptible of produce net increase of shareholders equity in the moment they incurred and, that have not been exempted, are reduced returns, reductions and discounts to obtain net income. As appropriate, realized costs that have a direct relation with income are subtracted to determine income before taxes. Deductions are applied to income before taxes to obtain the taxable income for the ordinary system.

For purposes of income tax, it is presumed that the taxable income is not lower than 6% of shareholder s equity at the last day of the immediately previous taxable period. The excess of taxable income determined under the ordinary system over presumed income becomes taxable income to which the statutory tax rate applies.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

When income tax is paid on presumed income, the difference between this and the income tax calculated under ordinary system can be adjusted in the subsequent five years.

Deferred income taxes are generally recognized for timing differences for commercial and manufacturing subsidiaries. For financial companies, the Superintendency of Finance has restricted inclusion of timing differences related to the amortization of fiscal losses and the excess of presumed income over ordinary income as a deferred tax asset.

For our Subsidiaries domiciled in Panama (Bancolombia Panamá and Subsidiaries, Banagrícola S.A. and Banco Agrícola Panamá S.A.) income tax is governed by the Panamanian Tax Code. Consequently, profits from transactions conducted outside the Republic of Panama, are not subject to tax and therefore the profits obtained by these companies are not subject to income tax within the Republic of Panama.

Our Subsidiaries incorporated in El Salvador pay income tax on revenues obtained in that country, according to the Income Tax Law of El Salvador, contained in Legislative Decree No. N°134 issued December 18, 1991, which became effective as of January 1, 1992.

(hh) Business Combination

Upon a business combination, the Colombian purchase method of accounting requires that (i) the purchase price be allocated to the acquired assets and liabilities on the basis of their book value, (ii) the statement of income of the acquiring company for the period in which a business combination occurs include the income of the acquired company as if the acquisition had occurred on the first day of the reporting period and (iii) the costs directly related to the purchase business combination not be considered as a cost of the acquisition, but deferred and amortized over a reasonable period as determined by management.

The pooling of interest method of accounting requires the aggregate of the shareholder's equity of the entities included in the business.

The Conavi and Corfinsura acquisition was accounted for using the pooling of interests method in accordance with the methodology suggested by the Superintendency of Finance. The Sufinanciamiento, Comercia (now Factoring Bancolombia), Sutecnología and Banagrícola acquisition was accounted for using the purchase method under Colombian GAAP.

The line merger effect in the consolidated statement of stockholder's equity under Colombian GAAP for 2005 includes the difference between the issuance of shares and the carrying amount of the net asset acquired from Conavi and Corfinsura.

(3) Transactions in Foreign Currency

The Colombian Superintendency of Finance defines limits on the amount of foreign-currency assets and liabilities. As of December 31, 2006 and 2007, the Bank was in compliance with these limits.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

(1) As of December 31, 2006 includes forward contracts known in Colombia as *operaciones carrusel*.

The Bank currently has an investment portfolio in local and foreign currencies that allows it to offer foreign exchange and interest rate coverage to its clients. By using derivatives, the Bank hedges exchange risk and protects its foreign-currency investment portfolio. These derivatives help protect the Bank against exchange-rate fluctuation and

increase the predictability of the Bank's yield on foreign-currency investments. The bank does not economically hedge the foreign exchange exposition of its investment in foreign subsidiaries, which is substantially U.S. Dollar.

The Bank's derivatives policy is to maintain active and passive positions with clients with the intent to reduce interest rate and exchange rate risk as much as possible. Within the credit limit granted to the Bank's clients, there is a portion for derivatives operations. For this reason, the Bank never carries out a derivatives transaction unless the client has the capacity to obtain credit from the Bank.

Under the rules of the Superintendency of Finance, the Bank's derivatives portfolio is marked to market daily and the fair value of the asset and liability legs of the derivatives are recorded as rights and commitments separately in the balance sheet. The changes in fair value are recorded in the statement of operations.

For forward contracts, the average cost of rights and commitments relating to the purchase of financial instruments is 9.66% with a maturity of eight days and the average yield from rights and commitments relating to the sale of investments securitized is 7.45% with a maturity of four days.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

The average yield from rights and commitments relating to the sale of foreign currency is 3.80% annually with a maturity of 67 days. The average yield from rights and commitments relating to the purchase of foreign currency is 3.90% annually with an average maturity of 63 days.

The rates and maturity indicated for forward contracts are the same as the futures contracts.

The average value of hedging portfolio during the years 2007 was US\$ 6,194 and the average yield was 5.27%.

(9) Accounts Receivable

Accounts receivable consisted of the following:

	2006 ⁽²⁾	2007 ⁽²⁾

(16) Reappraisal of Assets

The following table describes reappraisals of assets:

	2006	2007
Asset revaluations, net	Ps 348,364	Ps 520,788
Less: proportional equity revaluations	(179,651)	(167,069)
Less: minority interests	(28,020)	(34,073)
Total equity revaluations	Ps 140,693	Ps 319,646

The proportional equity revaluations refer to the acquisition of investment in Banca Inversión Bancolombia S.A., Almacén S.A. (for 2006), Valores Bancolombia S.A., Leasing Bancolombia S.A., Fiduciaria Bancolombia S.A., Sufinanciamiento S.A., Factoring Bancolombia S.A. and Inversiones Financieras Banco Agrícola S.A., and some of the affiliates of the entities mentioned above, calculated on the acquisition date. Consolidation rules require this value to be unchanged while the investment is held or no new acquisitions are made.

(17) Interbank Borrowings

Interbank borrowings, primarily denominated in U.S. Dollars, are summarized as follows:

	2006	2007
Foreign banks		
Short-term	Ps 679,105	Ps 454,878
Long-term	387,740	1,051,733
Total	Ps 1,066,845	Ps 1,506,611

For the purposes of this classification, short-term interbank borrowings, obtained from other banks for liquidity purposes, are unsecured and generally have maturities ranging from 90 to 180 days.

As of December 2006 and 2007, interest rates on U.S. dollar denominated short-term borrowings from foreign banks averaged 5.59% and 5.28%, respectively.

For long-term interbank borrowings, the average interest rate was 5.76% and 5.86% in 2006 and 2007, respectively.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

Maturities of interbank borrowings for the end of the year 2007 were as follows:

	2007
2008	Ps 1,112,032
2009	16,432
2010	70,408
2011	7,613
2012 and thereafter	300,126
	Ps 1,506,611

(18) Borrowings from Development and other domestic banks

The Colombia government has established programs to promote the development of specific sectors of the economy. These sectors include foreign trade, agriculture, tourism and many other industries. These programs are under the administration of the Colombian Central Bank and various government entities.

Under these programs, the Bank receives a loan request from an applicant operating in a designated economic sector. The Bank then performs a full credit analysis of the applicant based on its normal credit criteria. If the criteria are met, the Bank applies to the appropriate government agency for funding. The government agency reviews the loan application to determine compliance with the policy and objectives and may also perform an independent credit analysis of the applicant. Upon approval, the agency disburses funds to the Bank. The Bank, in turn, disburses the loan to its customer and assumes all credit risk.

These loans generally bear interest from 3% to 6% above the average rates paid by domestic banks on short-term Time Deposits. Loan maturities vary depending on the program (ranging from one to ten years). The bank funds approximately 0% to 15% of the total loan balance, with the remainder being provided by the respective government agencies. Loans to customers are in the same currency and maturity as the borrowings from the agencies.

Borrowings from Development bank received from certain Colombian government agencies and other domestic banks consisted of the following:

	2006	2007
Banco de Comercio Exterior de Colombia (Bancoldex)	Ps 732,617	Ps 1,190,028
Fondo para el Financiamiento del Sector Agropecuario (Finagro)	429,175	631,940
Findeter	753,200	1,035,910
Other ⁽¹⁾	534,589	486,757
Total	Ps 2,449,581	Ps 3,344,635

(1) Includes borrowings from commercial banks and other non-financial entities

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Interest rates on borrowings from development and other domestic banks averaged 6.58% and 9.8% in 2006 and 2007, respectively, in local currency and 6.47% and 6.82% in 2006 and 2007, respectively, in foreign currency. Maturities at December 31, 2007 were as follows:

2007	Ps	329
2008		740,971
2009		385,022
2010		839,417
2011		377,231
2012		565,364
2013 and thereafter		436,301
Total	Ps	3,344,635

(19) Other Liabilities

Other liabilities consisted of the following:

	2006	2007
Unearned income	Ps 20,579	Ps 33,779
Accrued severance Law 50, net of advances	17,269	21,028
Accrued severance pre-Law 50, net of advances to employees of Ps 11,360 and Ps 10,160 in 2006 and 2007, respectively	13,553	13,669
Accrued payroll and other severance benefits	43,649	48,308
Accrued pension obligations net of deferred cost	99,085	110,669
Negative goodwill	7,137	4,604
Deferred interest on restructured loans	50,549	45,956
Deferred tax liability	40,683	64,183
Advances	75,104	52,200
Insurance reserves		67,229
Deferred profit on sales of assets	11,039	12,787
Deferred paid standby letters	2,150	3,965
Other	6,900	25,056
Total	Ps 387,697	Ps 503,433

Unearned income fundamentally consists of prepayments of interest by customers. Terms for the prepayment of interest are established when the loan is originated. Unearned income is generally amortized on a straight-line basis over the term for which interest has been prepaid. Furthermore, unearned income includes commissions paid by clients and other rents.

Colombian labor law give the right to each employee hired before January 1, 1991 to a severance payment in an amount equal to such employee's last monthly salary multiplied by the number of years of service. The Bank increases the accrued liability for such severance benefits whenever an employee's salary is increased. To allow greater flexibility in labor contracts, the Colombian government enacted Law 50 in 1990, which, among other things, permits companies to negotiate a waiver of the retroactivity component of severance pay with their employees. In August 1994, the Bank and its executive employees agreed on a plan that waived the retroactivity component of

severance pay.

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

In accordance with the Colombian Labor Code, employers must pay retirement pensions to employees who fulfill certain requirements as to age and time of service. However, the Social Security Institute and other private funds have assumed the pension obligation for the majority of the Bank's employees.

Pension obligation

The following is an analysis of the Bank's pension obligations:

	<i>Projected pension liability</i>	<i>Deferred cost</i>	<i>Net</i>
<i>Balance at December 31, 2004</i>	Ps 87,138	Ps (785)	Ps 86,353
Balance at beginning of year (Corfinsura)	356		356
Decrease for Abocol sale	(5,292)	785	(4,507)
Reclassification	(51)		(51)
Adjustment per actuarial valuation	16,715	(16,715)	
Benefits paid	(10,184)		(10,184)
Pension expense		16,715	16,715
<i>Balance at December 31, 2005</i>	Ps 88,682	Ps	Ps 88,682
Adjustment per actuarial valuation	22,156	(22,156)	
Benefits paid	(11,753)		(11,753)
Pension expense		22,156	22,156
<i>Balance at December 31, 2006</i>	Ps 99,085	Ps	Ps 99,085
Adjustment per actuarial valuation	25,736	(25,736)	
Benefits paid	(12,652)		(12,652)
Settlement due to sale of Almacenar	(1,500)		(1,500)
Pension Expense		25,736	25,736
<i>Balance at December 31, 2007</i>	Ps 110,669	Ps	Ps 110,669

In compliance with Colombian law, the present value of the obligation for pensions was determined on the basis of actuarial calculations. The significant assumptions used in the actuarial calculations were the following:

2005	2006	2007
------	------	------

Discount rate	19.06%	16.53%	14.05%

Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

(20) Long Term-Debt

Companies are authorized by the Superintendency of Finance to issue or place ordinary bonds or general collateral bonds. Every time a new issuance is planned, the Superintendency of Finance must be informed of the total value, series, number of bonds, date of issuance, term and frequency of payment, the corresponding return and the place and form of payment of said return as duly provided for by applicable legislation.

The bonds issued are recorded in the National Register of Securities for all legal purposes and may be subject to a public offer without any need for further authorization from the Superintendency of Finance.

The term for repaying the bonds issued, either partially or totally, may not be less than one (1) year and these shall cease to yield a return as of the date established for collecting said payment.

The scheduled maturities of long term-debt at December 31, 2007 were as follows:

2008	448,636
2009	696,144
2010	321,431
2011	206,770
2012	168,152
2013 and thereafter	1,009,597
	Ps 2,850,730

Long-term debt consists of bonds issued by Bancolombia (unconsolidated), Banco Agrícola S.A., Leasing Colombia S.A., Sufinanciamiento S.A., Renting Colombia S.A. and by Fundicom S.A. bearing interest at the following rates:

Bancolombia S.A.***Peso Denominated***

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

On May 14, 2007, Bancolombia issued US\$ 400,000 of subordinated notes due 2017 (the Notes). The notes have a 10-year maturity term and a coupon of 6.99%, payable semi-annually on May 25 and November 25 of each year, beginning on November 25, 2007. The Notes were offered pursuant to an effective shelf registration statement filed with the SEC. The Notes offering settled on May 25, 2007.

On September 26, 2007, Bancolombia did a local public offering of the first issuance of Bancolombia's Ordinary Notes (Bonos Ordinarios Bancolombia). Bancolombia successfully completed the issuance for an aggregate principal amount of Ps 400,000.

The principal conditions of this issuance are described as follows:

<i>Issue</i>	<i>Maturity date</i>	<i>Payment term</i>	<i>Yield</i>	<i>Amount</i>

(22) Subscribed and Paid-in Capital

Subscribed and paid-in capital consisted of the following:

	2005	2006	2007
<i>Authorized shares</i>	1,000,000,000	1,000,000,000	1,000,000,000

Issued and outstanding:

Common shares with a nominal value of Ps 500 (in pesos)	509,704,584	509,704,584	509,704,584
Preference shares with a nominal value of Ps 500 (in pesos)	218,122,421	218,122,421	278,122,419

In May and June of 2007, the Bank conducted public offerings of non-voting, preferential shares, which was initially offered to the Bancolombia S.A. shareholders holding preferred shares in Colombia, and then, as part of a second offering, was exclusively offered to investors outside Colombia, the form of American Depository Shares (ADSs).

Out of the entire 60 million preferential shares offered, 21,307,238 were offered in the first round at a price of Ps 15,205 (in pesos) each for an approximate total of Ps 323,976.

With regard to the offering conducted outside Colombia, a total of 8,411,470 ADSs were placed, corresponding to 33,645,880 preferential shares, each ADS for a price of US\$ 33.25 (in US\$ dollar). Additionally, international placement agents exercised an option granted by the Bank, consisting of acquiring another 1,261,720 ADRs corresponding to 5,046,880 preferential shares to cover excess demand for the offer. The net funds received by the

Bank for this sale of ADSs amounted to US\$ 314,000.

F-69

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

As a result of these offerings, Bancolombia S.A. placed a total of 59,999,998 preferential shares, for which it received approximately Ps 927,612 (US\$ 480,000), of which Ps 30,000 were applied to increase the Bank's subscribed and paid-in capital and Ps 897,612 were recorded in the form of additional paid-in capital. See the Statement of Stockholders' Equity.

A partial amendment to the Bancolombia's by-laws, which was recorded in the Commercial Registry of the Medellin Chamber of Commerce on July 26, 2005, increases the Bancolombia's authorized capital from Ps 335,000 to Ps 500,000 divided into 1,000,000,000 shares of a par value of 500 pesos each, which may be of the following classes: (i) common shares, (ii) privileged shares, and (iii) shares with preferred dividend and no voting rights (preferred shares). Pursuant to Article 6 of the by-laws, all shares issued shall have the same nominal value.

As of December 31, 2007, Bancolombia had 509,704,584 common shares and 278,122,419 preferred shares outstanding and a capital stock of Ps 460,684 divided into 787,827,003 shares. No privileged shares have been issued by Bancolombia.

Under the Colombian Commerce Code, a company must, after payment of income taxes and appropriation of legal reserves, and after off-setting losses from prior fiscal years, distribute at least 50% of its annual net profits to all shareholders, payable in cash, or as determined by the shareholders, within a period of one year following the date on which the shareholders determine the dividends. If the total amount segregated in all reserves of a company exceeds its outstanding capital, this percentage is increased to 70%. The minimum common stock dividend requirement of 50% or 70%, as the case may be, may be waived by a favorable vote of the holders of 78% of a company's common stock present at the meeting.

Under Colombian law and Bancolombia's by-laws annual net profits are to be applied as follows:

- first, an amount to compensate for any losses that affected its capital;
- second, an amount equivalent to 10% of net profits is segregated to build a legal reserve until that reserve is equal to at least 50% of Bancolombia's paid-in capital;
- third, payment of the minimum dividend on the preferred shares; and
- fourth, allocation of the balance of the net profits is determined by the holders of a majority of the common shares entitled to vote on the recommendation of the board of directors and President and may, subject to further reserves required by the by-laws, be distributed as dividends.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Preferred shares will be entitled to receive a minimum preferred dividend equal to one percent (1%) of the initial offering price per preferred share for each fiscal year the Bank reports profits after the Bank deducts an amount to compensate for any losses that affected its capital and any necessary contribution to a reserve account that must be made by law, and in compliance with Colombian regulation, but before the Bank creates or increases any other reserve. In addition, the dividend per share paid on preferred share cannot be less than the dividend per share paid on ordinary share (and will be increased if a higher dividend on ordinary share is declared). The Bank does not recognize accumulation of dividends to holders of preferred shares.

Preferred shares grant its holder the right to participate in the shareholders' meetings and to vote solely on the matters provided for by law and in the by-laws, in the following events:

in the event that changes in the Bank's by-laws may impair the conditions or rights assigned to such shares and when the conversion of such shares into common shares is to be approved;

when voting the anticipated dissolution, merger or transformation of the corporation or change of its corporate purpose;

when the preferred dividend has not been fully paid during two consecutive annual terms. In this event, holders of such shares shall retain their voting rights until the corresponding accrued dividends have been fully paid to them;

when the general shareholders' meeting orders the payment of dividends with issued shares of the Bank; if at the end of a fiscal period, the Bank does not produce sufficient profits to pay the minimum dividend and the Superintendency of Finance, by its own decision or upon petition of holders of at least ten percent (10%) of preferred shares, determines that benefits were concealed or shareholders were misled with regard to benefits received from the Bank by the Bank's directors or officers decreasing the profits to be distributed, the Superintendency of Finance may resolve that holders of preferred shares should participate with speaking and voting rights at the general shareholders' meeting, in the terms established by law;

when the register of shares at the Colombian Stock Exchange or at the National Register of Securities is suspended or canceled. In this event, voting rights shall be maintained until the irregularities that resulted in such cancellation or suspension are resolved.

Holders of preferred shares are not entitled to vote for the election of directors or to influence the Bank's management policies.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Upon liquidation, holders of fully paid preferred shares will be entitled to receive in pesos, pari passu with any of the other shares with similar ranking, a liquidation distribution of an amount equal to the subscription price of those preferred shares before any distribution or payment may be made to holders of common shares and any other shares at that time ranking junior to the preferred shares and subsequently the preferred shareholders' participation in Bank's surplus assets. If, upon any liquidation, assets that are available for distribution among the holders of preferred shares and liquidation parity shares are insufficient to pay in full their respective liquidation preferences, then those assets will be distributed among those holders pro rata in accordance with the respective liquidation preference amounts payable to them.

A foreign capital institutional investment fund in Colombia has been formed to hold certain non-voting preferred shares issued by the Bank as custodian and American Depositary Shares (ADSs) related to those non-voting preferred shares have been issued abroad.

Pursuant to Colombian law, capital adequacy for banks is required to be not less than 9% of their total credit risk weighted assets and credit contingencies. Under Decree 1720 of 2001, the calculation of capital adequacy must incorporate market risk in addition to the credit risk. This risk for capital adequacy requirement was covered 100% in 2006 and 2007. Calculations are made each month on an unconsolidated basis and in June and December on consolidated accounts which include the Bank's financial Subsidiaries in Colombia and abroad.

On December 2006, the issuance of Decree 4648 introduced modifications to Decree 1720 of 2001 which established new rules for calculating currency obligations in the additional equity of credit institutions.

The specific requirements relating to capital adequacy for the Bank's Subsidiaries, are as follows:

Bancolombia Panamá S.A.: Pursuant to the Acuerdo 6, 1998, as amended, issued by the Superintendency of Banking of Panama, Bancolombia Panamá has to comply with the technical capital ratio required by the Superintendency of Finance of Colombia to its parent company in a consolidated way with financial subsidiaries (as set forth in Decree 1720 of 2001, as amended) in the way describe above;

Bancolombia Puerto Rico Internacional, Inc.: According to requirements established by the Oficina del Comisionado de Instituciones Financieras (OCIF) in Puerto Rico, total shareholder's equity of Bancolombia Puerto Rico has to amount at least 8% of total assets excluding demand deposits.

Banco Agrícola: According to requirements established by the Banking System of El Salvador, specially in the Article 41 of the Bank's Law (Ley de Bancos), Banco Agrícola's capital adequacy is required to be not less than 12% of their total weighted assets according to the Bank's Law; not less than 7% of their total liabilities and contingencies and not less than 100% of their paid-in capital as is explained in Article 36 of the Bank's Law.

In El Salvador, Capital Adequacy is known as Fondo Patrimonial. It is composed by the primary capital and the secondary capital, less: the amount of the resources invested in operations defined in the Article 23 of the Bank's Law, the amount of the equity investments in entities according with the Article 24 of this Law and the amount of other equity investments in other entities.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

As of December 31, 2006 and 2007 the Bank's capital adequacy ratio was 11.05% and 12.67%, respectively.

(23) Appropriated Retained Earnings

Pursuant to Colombian law, 10% of the net income of the Bank and its Colombian subsidiaries in each year must be appropriated through a credit to a legal reserve fund until its balance is equivalent to at least 50% of the subscribed capital. This legal reserve may not be reduced to less than the indicated percentage, except to cover losses in excess of undistributed earnings.

Appropriated retained earnings consist of the following:

	2005	2006	2007
Legal reserve ⁽¹⁾	Ps 886,159	Ps 1,405,733	Ps 1,172,799
Additional paid-in capital	268,005	268,005	1,165,617
Other reserves	611,834	639,869	1,021,188
Total	Ps 1,765,998	Ps 2,313,607	Ps 3,359,604

(1) Includes legal reserve and net income from previous years.

In addition, paid-in capital of Ps 268,005, Ps 268,005 and Ps 1,165,617 at December 31, 2005, 2006 and 2007, respectively, were recorded as part of the legal reserve and presented within the retained earnings, as required by the Superintendency of Finance.

(24) Dividends Declared

The dividends are declared and paid to shareholders based on the adjusted net income from previous year. The dividends were paid as indicated below:

	2006	2007	2008
Preceding year's unconsolidated earnings	Ps 737,389	Ps 582,365	Ps 804,261
Dividends in cash	508 pesos per share paid in four quarterly installments of 127 pesos per share from April 2006 on 509,704,584 and 218,122,421 common and preferred shares, respectively.	532 pesos per share payable in four quarterly installments of 133 pesos per share from April 2007 on 509,704,584 and 218,122,421 common and preferred shares, respectively. Additionally 266 pesos per share on 59,999,998 payable preferred shares	568 pesos per share payable in four quarterly installments of 142 pesos per share from April 2008 on 509,704,584 and 278,122,419 common and preferred shares, respectively

issued in June and
July 2007.

Total dividends declared	Ps	369,736	Ps	403,164	Ps	447,486
Dividends payable at December 31 ⁽¹⁾	Ps	98,340	Ps	111,842		

(1) The amount of the dividends payable at December 31, is recorded as accounts payable in the Consolidated Balance Sheets.

(2) The amount disclosed as Total Dividends Declared in the table for 2007 differs from those disclosed in the annual report of 2006, because Bancolombia S.A. paid dividends on 59,999,998 preferred shares issued during 2007.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

The Superintendency of Finance in El Salvador has different rules for the memorandum accounts if compared to the Colombian. As a consequence, the memorandum accounts may not present the consolidated position of the Bank for certain accounts.

(26) Commitments and Contingencies

For the years ended December 31, 2006 and 2007, the Bank registered allowances for probable contingencies of Ps 86,764 and Ps 92,395 respectively. The detail of the contingencies was as follows:

The Bank

a) Contingencies Covered by FOGAFIN:

During the privatization process of Banco de Colombia (which merged with and into the Bank in 1998), completed on January 31, 1994, Fogafin made a commitment to assume the cost of contingent liabilities resulting from events that occurred before the date when the stock was sold, which should be claimed within the five (5) subsequent years. Fogafin's guarantee covers eighty percent (80%) of the first Ps 10,000, not considering allowances, and thereafter, one hundred percent (100%), all annually adjusted according to the consumer price index.

At December 31, 2006 and 2007, the civil contingencies covered by the guarantee amounted to approximately Ps 957 and Ps 997, respectively, with allowances as of the same dates amounting to Ps 957 and Ps 166. At December 31, 2007 and 2006, labor contingencies amounted to Ps 345 and allowances amounted to Ps 173.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(Stated in millions of pesos and thousands of U.S. dollars)

b) Legal Processes

At December 31, 2006 and 2007, other than the litigation discussed under (a) above, there were labor-related claims against the Bank amounting to approximately Ps 14,506 and Ps 16,590, respectively (the final result of such litigations is not predictable due to the nature of the obligations). The allowances for contingencies on those dates amounted to Ps 7,479 and Ps 8,946, respectively and were recorded as accrued expenses in the consolidated balance sheets.

At December 31, 2006 and 2007, there were ordinary civil lawsuits, group actions, and civil actions within criminal and executive proceedings against the Bank with total claims for approximately Ps 733,525 and Ps 644,953, respectively and with allowances on the same dates of Ps 18,889 and Ps 30,456, respectively.

Allowances are recorded based on the likelihood of the losses and when proceedings are ruled in the first instance against the Bank or based on the opinion of management, the proceedings are likely to result in an unfavorable ruling.

At December 31, 2007, the Superintendency of Finance has imposed fines on the Bank amounting to Ps 1,357, for which complete allowances have been recorded.

Contingencies against the Bank greater to Ps 5,000, as of December 31, 2007, are:

<i>Process</i>	<i>Initial</i>		<i>Actual</i>		<i>Allowance</i>	<i>Likelihood</i>

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

**c) Contingencies Related to the Purchase of 51% of Former Banco de Colombia S.A. (Banco de Colombia)
Stock and Later Merger with Banco Industrial Colombiano (BIC , now Bancolombia)**

The Gilinski Case

Contingency asset; Contingency guarantee, former Banco de Colombia:

On March 30, 2006, the arbitration proceedings initiated by the Bank against Jaime Gilinski, as debtor, jointly and severally liable with the companies that sold the majority of the shares of the former Banco de Colombia S.A., resulted in a favorable award. The Bank had pursued various claims in these proceedings with a view to enforce a trust guarantee that was set up by the sellers in order to cover any contingencies arising with the bank thus sold. The value of this guarantee now amounts to US\$ 30,000, equivalent to Ps 60,443. The defendant was ordered to pay to the Bank Ps 63,216, including inflation adjustments and interest.

Jaime Gilinski challenged this award, in an annulment action held before the Superior Tribunal of Bogota. At December 31, 2007, the Bank had not posted any income relating to this award on its financial statements, nor had it received any payments with regard to such.

Contingency liability; Criminal Investigation:

On December 26, 2003, the Special Unit Attorney General's Office for Crime Against Public Administration formally rejected grounds for a criminal investigation against Jorge Londoño Saldarriaga and Federico Ochoa Barrera, President and Vice-president of the Bank, respectively; this criminal investigation arose as a result of a complaint filed by the Gilinski family. This decision was subsequently confirmed in the second instance by the Attorney General's Office Delegated Unit before the Supreme Court of Justice on July 8, 2004.

The Attorney General's Office found that the alleged crimes of fraud, unauthorized operations with shareholders and the illegal use of public funds had not been committed and consequently the Bank was fully exonerated from the indemnity claims filed by the plaintiffs.

In 2005, the Gilinskis filed an action for the protection of rights against the Attorney General's Office with the purpose of reopening the criminal investigation based on the argument that the evidence gathered abroad was not taken into account. This action was rejected on two occasions by the Supreme Court and was subsequently selected for review by the Constitutional Court, which ordered the investigation to be reopened so as to analyze the evidence in question. This decision, made by the Constitutional Court (*Sala de Revisión*), is subject to an annulment action that is being heard by the Constitutional Court (*Sala Plena*).

Notwithstanding the fact that the evidence presented did not produce any additional elements to be considered, the Attorney's Office in the first instance, modified the initial particulars of the investigation issuing on January 4, 2007 the following orders:

An order for a criminal judge to review the conduct of the Bank's officers, Messrs. Londoño Saldarriaga and Ochoa Barrera.

An order for the house arrest of the aforementioned officers as a preventive measure.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

An order for the embargo of all goods and property belonging to the officers involved.

An order for an investigation into the conduct of the members of the board of directors of Banco Industrial Colombiano at that time.

An order for an investigation into the conduct of the officers of the former Colombian Superintendencies of Banking and Securities (now Superintendency of Finance) and also the Central Bank.

A few days after issuing this ruling, on January 10, 2007, the Delegated Attorney's Office No. 8 officially revoked the house arrest order with regard to Messrs. Londoño and Ochoa.

On September 25, 2007, the Attorney General's Office (*Fiscal Delegado ante la Corte Suprema de Justicia*), in second instance, revoked the decision of first instance, dated January 4, 2007 and decided not to prosecute Bancolombia's officers as it relates to the events occurred during the acquisition of Banco de Colombia by BIC and its subsequent merger in 1998, ordering the Attorney General of first instance to consider the documentary and testimonial evidence in order to comply with the decision of the Constitutional Court which was disobeyed by the Attorney General on first instance.

In addition, the Attorney General's Office (*Fiscal Delegado ante la Corte Suprema de Justicia*) barred one of the financial crimes (unauthorized transactions with shareholders) for which Mr. Londoño and Mr. Ochoa were investigated, based on the lapse of the statute of limitations.

The Attorney General's Office when remanding the proceeding to the first instance, ordered that the respective Attorney General must exclusively consider the documentary evidence and must incorporate two testimonial pieces of evidence that are still pending as it was ordered by the Constitutional Court.

The Bank's administration considered the contingency remote, based on the following:

This decision does not affect the stability and solvency of the Bank's equity and it is improbable that the Bank will incur any financial responsibility.

During the acquisition process and the subsequent merger, the Bank and its officers acted with loyalty and transparency, and the transactions with the shareholders were in accordance with international customary standards and practices for this type of transactions, and in accordance with Colombian law.

The Bank's conduct in the acquisition and merger process has been thoroughly analyzed in different judicial and administrative venues, including the Supreme Court, the Council of State, the Contentious Administrative Tribunal of Cundinamarca, the Superior Court, the Superior Tribunal of Medellin and three Arbitration Tribunals, as well as the former Superintendency of Banking and the Superintendency of Securities (now the Superintendency of Finance) and was absolved, mostly of the same charges that the Attorney's Office recently formulated against the Bank's officers, in contradiction of all those rulings granted in the Attorney's Office previous first and second instances.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Additionally, on September 12, 2007 the Attorney General's Office No. 218 of the First Unit of Crimes against the Public Administration and Justice of Bogotá (Fiscal Delegada 218 de la Unidad Primera de Delitos contra la Administración Pública y de Justicia de Bogotá), revoked its July 31, 2006 decision which had precluded the investigation against the president of the Bank, Mr. Jorge Londoño Saldarriaga. These decisions were taken in the context of the preliminary investigation initiated against the officers of the former Superintendency of Banking and former Superintendency of Securities relating to the authorizations granted for the merger of Bancolombia and Banco de Colombia. The Attorney General's Office No. 218 of the First Unit of Crimes against the Public Administration and Justice of Bogotá, in the September 12, 2007 decision initiated a formal investigation of Mr. Jorge Londoño Saldarriaga and the board of directors of the Central Bank and the former Banco Industrial Colombiano (BIC) that had authorized the acquisition of the former Banco de Colombia by BIC and their subsequent merger.

Arbitration

On May 16, 2006, an award was issued in the arbitration proceedings filed by Jaime and Isaac Gilinski and certain foreign companies, against the Bank, its board of directors in 1997, its President, Mr. Jorge Londoño Saldarriaga and its Vice-President of Finance, Mr. Jaime Velásquez Botero, to resolve certain disputes relating to the acquisition of the former Banco de Colombia on the part of BIC and the subsequent merger of these two entities. The cause of action consists of the declaration of nullity (*ineficacia*) of the BIC's acquisition of a majority share in the capital of the former Banco de Colombia. This involved certain other additional claims, which together amounted to US\$ 675,000.

The Arbitration Tribunal, formed by Messrs. José Alejandro Bonivento Fernández, Cesar Hoyos Salazar and Jorge Santos Ballesteros ruled in favor of the Bank with regard to the majority of the charges involved. However, the Tribunal determined that the Bank had to pay an indemnification of Ps 15,360 that, together with damages for loss of profit, amounted to Ps 40,570, since it ruled that the Bank had not complied with certain secondary obligations, with regard to the development of the capitalization of 1998 derived from the Purchase and Sale Commitment Agreement signed between the plaintiffs and the former BIC on August 25, 1997.

The Arbitration Tribunal rejected all claims made against the Bank's officers and exonerated them from all responsibility, ordering the Gilinski family at the same time to pay the cost of these proceedings. In addition, the arbitration tribunal held that plaintiffs had failed to prove that Bancolombia and its senior managers committed any fraudulent operations or fraudulent representations regarding the above-mentioned agreement, and denied any moral damages in favor of the plaintiffs.

Against this award, the Bank filed an annulment action before the Superior Court on June 7, 2006, which is currently being heard. Although the annulment action is supported by objective arguments, the contingency with regard to this process is considered probable. Consequently, the Bank has set up a provision of Ps 27,988 while a definite decision is given.

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

These arbitration proceedings came as a consequence of an order given by the United States Court for the Southern District of New York where the claim was filed against the Bank, its officers and some of its executives in March 1999 and which was suspended while the arbitration proceedings agreed upon by the parties were duly conducted in Colombia. The plaintiffs requested the District Court to reopen the process, arguing that the Arbitration Tribunal in Colombia did not rule on all the charges presented.

On February 28, 2007, the United States Court for the Southern District of New York dismissed the complaint of the sellers of the former Banco de Colombia and based its ruling on the principle of *res judicata*.

The Court determined that the award of the Colombian arbitral tribunal, dated May 16, 2006, decided on the same grounds filed before the Court in New York and, therefore, put an end to the proceedings in New York.

The Court determined that the arbitral tribunal had decided on the merits of all the claims, and rejected the liability of the Bank and its managers.

The Court noted that the arbitral tribunal rejected the main three allegations of the plaintiffs. The arbitral tribunal found that (i) the Bank had not manipulated the price of ADRs on the New York Stock Exchange; (ii) the failure to raise US\$ 150,000, was neither a breach of an express contractual obligation nor unlawful, fraudulent or willful misconduct; and (iii) neither the Bank nor its managers did engage in transactions or conduct in violation of Colombian law and sound banking practices. However, the arbitral tribunal found that the Bank had breached certain secondary duties of conduct.

The District Court also determined that the arbitral tribunal had ruled on the merits of all the claims, and rejected the liability of the Bank and its managers. On March 23, 2007, the plaintiffs filed a notice of appeal of this decision.

Class Action Luis Alberto Durán Valencia

As of December 31, 2007, the decision of the Superior Tribunal of Bogota was still pending with respect to the special appeal for annulment filed by the Bank. The appeal sought to review the decision of the arbitration tribunal previously convened by the class action filed by Luis Alberto Durán Valencia and other shareholders of the former Banco de Colombia.

The appeal solely sought to declare null and void the portion of the award that is questioned, since the award carries a *res judicata* status with respect to the rulings regarding the rest of the claims.

Popular Action Maximiliano Echeverri M

In the popular action filed by the attorney Maximiliano Echeverri against the Bank and the Superintendency of Banking and Securities Superintendency (now known as the Superintendency of Finance) before the Contentious-Administrative Tribunal of Cundinamarca, a final ruling was pronounced on August 10, 2005, rejecting the claims of the plaintiff.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

The decision was upheld by the Third Section of the Council of State on June 7, 2006 in its ruling on an appeal filed by the plaintiff. The plaintiff filed an annulment action before the Contentious Administrative Tribunal of Cundinamarca, and on January 24, 2007 the Contentious Administrative Tribunal of Cundinamarca solved unfavorable to the plaintiff's interests. The contingency is considered remote.

Almacén S.A

In December, 2006, the spin off process of Almacén S.A., subsidiary of the Bank, was finalized. Due to the spin-off, two new non-financial companies were created named Inversiones Valores y Logística S.A. and LAB Investment & Logistics S.A. Subsequently, in 2007, the Bank sold to Portal de Inversiones S.A. its share holding in LAB Investment & Logistics S.A. and in Almacén S.A. Pursuant to this transaction, the Bank acquired the commitment for the contingencies that would have been caused before this transaction; specifically for the possible losses that would suffer Almacén relating to a fire that occurred in May 2005 in a warehouse located in Salomia, Cali.

As of December 31, 2007, Almacén has received claims from the insurance entities of its customers for an amount of Ps 92,048, notwithstanding the goods price amounted Ps 56,581, some of which Compañía Suramericana de Seguros S.A. will assume, pursuant to the insurance policy, the amount of Ps 45,000. The Bank has a provision of Ps 20,000 for the estimated probable loss.

Sierras del Chicó Ltda and Chicó Oriental Nro. 2 Ltda.

Fondo Nacional de Garantías FOGAFIN initiated a process against Bancolombia on July 21, 2005 before the Administrative Court of Cundinamarca (*Tribunal Administrativo de Cundinamarca*), claiming the 100% of the Bank's interest in Sierras del Chicó Ltda and Chicó Oriental Nro. 2 Ltda. on December 31, 1993.

This process was declared null on July 12, 2006. The plaintiff appealed this decision, action which was rejected on July 26, 2007 definitively.

d) National Tax and Customs Agency (DIAN)

Special Requirement

On December 27, 2007, the Bank received a special request by the Tax Administration of Medellín (*Administración de Impuestos de Medellín*) regarding the income tax (*impuesto de renta*) for the 2006 year, in which Ps 79,013 are disputed. The Bank and its tax advisors considered that the procedure of the income tax return of 2006 was in compliance with the applicable rules and regulations. Currently, the Bank and its advisors are analyzing the request.

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Industry and Commerce Tax corresponding to 1997 Conavi

Conavi filed its Industry and Commerce Tax return in Medellin on the basis of 1997 (for the fiscal year 1998 for subsequent payment in this same period) and included figures for taxable operating income which coincided with the information reported by the Superintendency of Finance to the Medellin City Council. The Municipal Tax Division notified Conavi of a special requirement, which increased Conavi's tax base by Ps 233 corresponding to income from other towns as well as Ps 45,981 corresponding to the value of nontaxable monetary correction. Subsequently the Division accepted Conavi's explanations regarding the increase in the tax base but maintained its position with regard to tax-exempt monetary correction and issued a Settlement Review Note. Conavi filed a motion to annul the decision. The Administrative Tribunal of Medellin abstained from hearing the motion. Conavi then filed an appeal to be heard by the Council of State. The Council of State, by its decision dated October 25, 2006, revoked the Tribunal's ruling and rejected Conavi's claims.

A provision of Ps 444 was set up for this tax contingency, which is considered probable.

Industry and Commerce Tax corresponding to 2001 Conavi

Currently, this case is in the initial stage, which is considered remote.

Fiduciaria Bancolombia S.A.

Executive proceedings have been filed against Fiduciaria Bancolombia S.A, the Bank's subsidiary that provides fiduciary and trust services. Management considers that these proceedings are not likely to result in unfavorable rulings or to negatively affect the Fiduciaria Bancolombia S.A., otherwise mentioned further ahead

The following is a summary of the executive proceedings:

a. Silvania Trust Seven proceedings are underway in the civil courts of the Bogota Circuit and in an Arbitration Tribunal which ruled in favor of Fiduciaria Bancolombia S.A. All of the proceedings arise from Fiducolumbia S.A.'s role (now Fiduciaria Bancolombia S.A.) as trustee in the guarantee mercantile trust agreement entered into on December 1, 1993, with Gallego Inmobiliaria S.A. The appraisal of the property was made by the entity Vector.

Two of the aforementioned proceedings were terminated. However, on December 11, 2003, a new ordinary proceeding was initiated against Fiducolumbia (now Fiduciaria Bancolombia S.A.), following a legal action filed during the month of September 2003. The Ninth Court of the Civil Circuit of Bogotá (*Juzgado Noveno Civil del Circuito de Bogota*) ordered all of the proceedings to be consolidated into the Tarazona Bermúdez Proceeding, and a judgement in the first instance is currently pending.

b. Invico Ltda. has a lawsuit pending against the Bank and Fiducolumbia S.A. (now Fiduciaria Bancolombia S.A.) in the Sixth Court of the Civil Circuit of Bogota (*Juzgado Sexto Civil del Circuito de Bogota*). The plaintiff seeks a ruling declaring that the Bank and Fiducolumbia S.A. (now Fiduciaria Bancolombia S.A.) must exercise the alternate right contained in Article 1948 of the Civil Code, in reference to the land lot denominated La Granjita, pursuant to the trust mandate. The claims amounted to Ps 4,000. On January 17, 2002, the court issued a ruling dismissing a defense presented by Fiduciaria Bancolombia S.A. and ordered it to pay the court fees. The discovery stage has finalized and Fiduciaria Bancolombia S.A. has presented its final legal conclusions on September 17, 2007. Since that date, the ruling is pending.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

c. With regard to the Santa Maria de La Calera Trust there are 7 ordinary proceedings initiated before different courts in which the plaintiffs are seeking the termination of the real estate sales agreements and damages for alleged defects in the property. Fiduciaria Bancolombia S.A. presented a joinder request to Destresa S.A., the company responsible for managing and building the real estate project, and who complied with all the legal formalities and proceedings required by the authorities in real estate projects. Currently, some of these proceedings are at a initial stage, some of the plaintiffs withdrew the evidence, in some the mandatory mediation hearings were unsuccessful as the parties failed to reach an agreement, others are pending for the final judgement, and one of them has final decision judgement in favor of Fiduciaria Bancolombia S.A. According to the legal counsel for Fiduciaria Bancolombia S.A. the sole process that has reached a final judgement was appealed by the plaintiff.

d. With regard to the Fopep Consortium there are two labor proceedings filed by John Freddy Bustos Lombana, who claims that he acted as attorney and assistant manager in two different agreements and therefore requests the payment of salaries and other employment benefits. He seeks to be compensated alleging that he did not freely resigned but that instead his resignation was a consequence of an insinuation made by the manager of the Fopep Consortium. In one of the proceedings, a judgement in the first instance was given in favor of Fiduciaria Bancolombia S.A. An appeal followed and a second instance judgement is pending. In the other proceedings, first and second instance judgments were given in favor of Fiduciaria Bancolombia S.A. and appeals before the Supreme Court of Justice were made by the plaintiff. Currently, these appeals are still pending.

Fiduciaria Bancolombia S.A. management considered probable that these proceedings may have an unfavorable outcome, due to different considerations or opinions of the administrators of justice. Fiduciaria Bancolombia S.A. has a provision of Ps 50 for the estimated probable loss.

e. With regard to the Santa Sofía Trust, there are three different types of proceedings that are taking place:

1. A class action filed by the co-owners of the Santa Sofia Housing Estate against the Bogota Mayor's Office, Fiducolumbia S.A. (now Fiduciaria Bancolombia S.A.) and others, claiming that the deterioration to the property was caused by flaws in the terrain, and therefore no building permit should have been issued. In October 2007, a Mediation hearing was held, but the plaintiffs did not assist. Currently, the proceedings are at a discovery stage. The management of Fiduciaria Bancolombia S.A. considered that the probability of liability is low.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

2. Criminal proceedings against Fiduciaria Bancolombia S.A. Legal Representative, based on the action filed by the co-owners of the Santa Sofia Housing Estate, claiming alleged Illegal Squatting and Fraud with regard to the urban development of the real estate project. These proceedings are at a discovery stage and Management based on initial assessment considered the loss low.
3. Ordinary process of major quantity for tort liability. Plaintiff asserts the joint and several liability of Fiduciaria Bancolombia S.A. and other defendants and, consequently order for the payment of the price of the property, including its improvements. Fiduciaria Bancolombia S.A. answered the complaint and denying all liability. As of December 31, 2007, procedd has not been served to all defendants.

f. There are currently two executive proceedings that were filed by Mr. Eugenio Segura Villarraga seeking payment of three checks that were countermanded according to instructions given by the Bank. Mr Segura Villarraga claims that the checks were drawn as a result of an unlawful act. These proceedings are currently suspended.

g. Gacen Ltda. filed an ordinary action against Fiduciaria Bancolombia S.A., alleging that the trust agreement be declared terminated based on the expiration of the agreement. On March 8, 2007, the plaintiff voluntarily withdrew the complaint and the court issued an order to that effect.

h. There is a criminal proceedings against one of Fiduciaria Bancolombia S.A. s legal representatives regarding the Chisa Lote 2C Trust filed by Carmela Guardo and Joaquín Atencio Niño claiming misrepresentation of facts in a public deed, procedural fraud, perturbation of ownership and fraud with regard to a court ruling by virtue of a public deed establishing the boundaries of a plot of land, signed by Fiduciaria Bancolombia S.A. on behalf of the Chisa Lote 2C Trust. These proceedings are at a discovery stage.

Before the two actions were joined, the Attorney General s Office No. 19 rejected the criminal investigation regarding the crimes of fraud to judicial award, invasion of lands and disturbance to the possession (Attorney General s Office No. 19, Bogotá), and continued for the crimes of fraud in public document and procedural fraud (Attorney General s Office No. 10, Bogotá).

The management of Fiduciarias Bancolombia S.A. considered that the probability of liability is low.

Likewise, there are two recovery processes (procesos reivindicatorios): Jose Fernando Ospino Barrios and Andrés Morales Díaz, in which the lawsuit was answered and presented the correspondent defense; and a process of acquisition by lapse of the statute of limitations (proceso de prescripcion adquisitiva) of Orlando Marrugo Robles. Process must be served to indeterminate persons.

Table of Contents

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

Regarding Jose Fernando Ospino Barrios' s process, the parties are currently negotiating a settlement. If a settlement is achieved the process would be terminated. The contingency is considered as remote.

With regard to the processes of Andrés Morales Díaz and Orlando Marrugo Robles, it is too early to qualify the contingency because of their early stage.

i. Ordinary proceedings were filed by Maria Rubby Mejía and other, against Fiduciaria Bancolombia S.A., claiming that Fiducolombia S.A. (now Fiduciaria Bancolombia S.A.) failed to carry out as administrator of the Titularización Ganadera Ganar 2000 A, certain contractual obligations such as collecting contributions and therefore seeks to be compensated. The judge denied the request of joinder of an insurance company to the process (*litisconsorcio necesario*). Currently, the process is pending a judgement to decide a motion presented by the plaintiff' s attorney regarding the existence of an arbitration clause in the agreement.

The management of Fiduciaria Bancolombia S.A. considered that the probability of liability is extremely low.

j. Trustee GROUP GRANCOLOMBIANO (liquidated on June 29, 1990) managed by Banco de Colombia S.A, has contingencies, including some labor and/or pension contingencies, for which had constituted reserves by the Trust Fund of Contingencies managed by Fiduciaria Bancolombia S.A. Some of them are from the former trustee Grupo Grancolombiano, especially to cover such contingencies. Currently, there are no legal processes related to this trustee. Notwithstanding, this contingency is taken into account because there is no statute of limitation relating to claims for pensions.

The Administration of Fiduciaria Bancolombia S.A. and its legal advisers considered that this process will not generate additional liabilities that should be assessed or, if presented, it will affect directly the reserve fund foreseen by the trustee Fund of Contingencies and not Fiduciaria Bancolombia S.A.

k. Propiedad Horizontal Torres Claras filed an ordinary proceeding against Fiduciaria Bancolombia S.A. requesting the termination of the agreement between Fiduciaria Bancolombia S.A. and Mr. Carlos Cajiao and the payment of the compensation of alleged damages derived from the nonpayment of the correspondents quotas. The award was favorable to Fiduciaria Bancolombia S.A.' s interests in first instance. Currently, is pending an appeal action filed by the plaintiff.

Though the decision ruled in first instance was favorable for the interests of Fiduciaria Bancolombia S.A., this contingency represents no liability.

l. El Olimpo Propiedad Horizontal filed a lawsuit against the trust Fideicomiso En Garantía Gabriela Upegui , which is managed by Fiduciaria Bancolombia S.A., the trustor and the lessee. Fiduciaria Bancolombia S.A. and the lessee answered the complaint.

Considering that the claims are against the trust, there is no contingency for Fiduciaria Bancolombia S.A. in case the final decision is unfavorable to the interests of Fiduciaria Bancolombia S.A.

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

m. Mr. Juan David, Angelica and Veronica Diez Herrera filed a complaint against Fiduciaria Bancolombia S.A. because the administration of three trustee orders opened in the Fondo Comun Especial SURENTABIC managed by SUFIBIC on behalf of them during the period that they under legal age. The plaintiffs request a declaration of breach of contract by the Trustee, and as a consequence the restitution of the funds (Ps 60) plus interest. Process was served to Fiduciaria Bancolombia S.A. in October 2007, and on November 8, 2007, answered the complaint.

The management of Fiduciaria Bancolombia S.A. considers that the performance of Fiduciaria Bancolombia S.A. has been in accordance with the law. Considering this contingency is remote.

n. The liquidation process of the trust agreement number 255 (*Contrato de Encargo Fiduciario No. 255*) entered into between Consortium FISCALUD (to which Fiduciaria Bancolombia S.A., Fiduciaria La Previsora and Fiducafe S.A are parties) and the Colombian Ministry of Public Health (*Ministerio de Protección Social*).

This is an agreement that had been completely performed. Nevertheless, there are some observations and discussions regarding some of the contractual commitments, to which the Consortium FISCALUD has presented its defense with the purpose of prevail or clarify the discussed contractual matters.

Currently, the Ministerio de Protección Social is reviewing the arguments, but the legal criteria regarding the arguments alleged by the Consortium FISCALUD are unknown, reason for which there are not foreseen losses. Once the legal criteria are known, this contingency will be reevaluated with the purpose of determine if this contingency is probable, remote or extremely low.

o. Contractual process by the Ministerio de Proteccion Social against the Consortium FIDUFOSYGA regarding four breaches. Fiduciaria Bancolombia S.A. and the Consortium FIDUFOSYGA s attorney presented a motion requesting the dismissal of the judicial action as an arbitral tribunal would be the appropriate forum.

Taking into account that there is an arbitration clause in the agreement, this contingency is considered as remote.

Leasing Bancolombia S.A.

As of December 31, 2007, Leasing Bancolombia has an allowance of Ps 480 with respect to an award in first instance of San Mateo Apostol s process, and on May 23, 2007 an appeal action has been admitted. The grounds of the litigation arise in the seizure by Dirección de Impuestos y Aduanas Nacionales (the Colombian Customs Authority) of 12 buses that were imported by Leasing Patrimonio and leased to a third party. The Colombian Customs Authority claimed that there were irregularities in the importation process. In 1999, the lessee of the vehicles filed a complaint against Leasing Colombia as it had in turn purchased the assets and liabilities of Leasing Patrimonio which is currently liquidated. The claims amounted to Ps 4,712. Leasing Bancolombia S.A. has a provision of Ps 810 for the estimated probable loss.

Compañía de Financiamiento Comercial Sufinanciamiento S.A.

Actions filed against Sufinanciamiento total an estimated amount of Ps 5,074.4. Only one of these actions represents a probable loss for the company, and a provision has been recorded for Ps 108.

Valores Bancolombia S.A.

Legal Processes, Fines and Lawsuits

As of December 31, 2007, Valores Bancolombia S.A. is a party to a proceeding to be decided by the Second Civil Court of the circuit of Medellin (Juzgado Civil del Circuito de Medellin). The process is at the discovery stage since November 22, 2007. Plaintiff is requesting compensation for damages for Ps 439.30. However, the management and general counsel of Valores Bancolombia S.A. consider this contingency as remote and believe that if the final decision is unfavorable to the company, the judgement could order damages of approximately Ps 5.

Additionally, Valores Bancolombia S.A. has a fine imposed by the Superintendency of Finance regarding a case of Cementos Argos S.A. This fine has been appealed. The total amount of this fine could be approximately of Ps 200.

Factoring Bancolombia S.A.

Factoring Bancolombia S.A. is currently party in the following proceedings:

A. Three complaints filed by the Central Bank to all the financial entities as a consequence of the lawsuits of debtors of commitments agreed under the UPAC System. These cases are being decided by administrative tribunals of the departments of Nariño, Sucre and Cauca.

There should not be any contingency with regard to these processes because Factoring have not had credit transactions under the UPAC System.

B. Process (proceso verbal de acción reivindicatoria) by Mr. Jairo Buriticá Burbano against FES S.A, acting on behalf of the trustee Comoderna S.A, Banco Santander S.A, Corporación Financiera Colombiana S.A, Banco de Bogotá and Factoring Bancolombia S.A Compañía de Financiamiento Comercial.

Process was served to Factoring Bancolombia S.A. on December 5, 2007. This contingency is considered remote.

C. Labor process by Mr. Jorge Franco against Factoring Bancolombia S.A. Compañía de Financiamiento Comercial before the Second Labor Court of Barranquilla (Juzgado Segundo Laboral del Circuito de Barranquilla). Plaintiff requests the payment of an amount of Ps 120 in legal fees. As of December 31, 2007, this process is in the stage of discovery. The final judgment was expected for March 11, 2008, but it has been postponed for June 10, 2008.

(Stated in millions of pesos and thousands of U.S. dollars)

AFP Crecer S.A

a. As of December 31, 2007, the entity has an administrative process PA-337-2004 for a supposed loss of US\$ 33, regarding the liquidation of Eurobonds 2032. Legal defenses and evidence were presented before Superintendency of Pensions of El Salvador requesting the dismissal of the administrative processes as the transactions were done with the purpose of preserving the interests of customers. The Superintendence of Pensions of El Salvador issued resolution A-AF-DO-072-2005 imposing fine for US\$ 1. On February 28, 2005 AFP Crecer S.A filed an appeal, which has been admitted and temporarily suspended the effects of fine, evidence has been presented, and a final decision is now expected. If the appeal is unsuccessful AFP Crecer S.A would probably argue that the statute of limitation has lapsed and/or try to use any other legal defenses. This would probably take approximately 2 additional years. Management believes the contingency is low.

b. According to resolution No. PA-016-2006 notified on February 13, 2006, the Superintendency of Pensions of El Salvador imposed a fine of US\$ 28, to AFP Crecer S.A, for omitting to give information regarding some commitments in a term of 5 days. On February 16, 2006, AFP Crecer S.A filed an appeal before the Superintendency of Pensions of El Salvador arguing that the information required was in duly given. This appeal was admitted on February 17, 2006, temporarily suspending the effects of the abovementioned resolution, and consequently, opening to the evidence stage. On March 6, 2006 the Superintendency of Pensions of El Salvador denied the appeal and ordered AFP Crecer S.A to pay the correspondent fine in the term specified on the Ley del Sistema de Ahorro para Pensiones . On March 31, 2006 AFP Crecer S.A filed a motion before the Contentious Administrative Court (*Sala de lo Contencioso Administrativo*) of the Supreme Court of Justice of El Salvador against this decision, which was admitted on May 31, 2006. The appealed decisions, were temporarily suspended and the fine will only be effective once is a definitive decision by the Supreme Court of El Salvador.

The opinion of the Attorney's General Office of the Republic of El Salvador is unfavorable. We expect the final decision in a period of one year approximately. Management believes the contingency is low.

c. According to resolution No. A-AF-DO-330-2004 issued on November 9, 2004, the Superintendency of Pensions of El Salvador ordered AFP Crecer S.A to calculate correctly the value of the complementary certificate of transfer, corresponding to the months of October and November of 2003, pursuant to the requirements of the above mentioned resolution, in order to compare the original value and establish the amount to return to the government of El Salvador and do the corresponding refund with its own funds, without affecting the *Cuenta Individual de Ahorro para Pensiones* of the pensioners.

BANCOLOMBIA S.A. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Stated in millions of pesos and thousands of U.S. dollars)

On September 27, 2007, AFP Crecer S.A requested the rectification of resolution No. A-AF-PE-195-2007 of the Superintendency of Pensions of El Salvador. AFP Crecer also requested that a procedure be followed, this procedure is known as the complementary payment for insufficiencies in the amount of the certificate of transfer and refund of payments in excess, established by the *Reglamento para la Emision y Pago del Certificado de Traspaso*. Pursuant to resolution A AF DO 243 2007, of December 10, 2007, the Superintendency of Pensions of El Salvador found that the request of AFP Crecer S.A. was groundless. As of December 31, 2007, AFP Crecer S.A is analyzing the further steps to be taken.

Before initiating a judicial process, the administration is searching for a solution with the opposing party, according to the regulation that governs the emissions in excess, with the purpose of eliminating the administrative process. Management believes the contingency is low.

Banco Agrícola S.A

As of December 31, 2007 and 2006, Banagrícola has the following judicial or administrative litigations:

- a. As of December 31, 2007, before the Fifth Mercantile Court of El Salvador (*Juzgado Quinto de lo Mercantil*) is a process for damages against BA for a supposed responsibility in the managing of an Executive Mercantile Judgment, filed in 1987 by Banagrícola against a customer, the process before the Fifth Mercantile Court of El Salvador is for an amount of Ps 443,247. As of December 31, 2007, Banagrícola has filed a constitutional action (*recurso de amparo*) before the Superior Civil Court of the Supreme Court of Justice (*Sala de lo Civil de la Corte Suprema de Justicia*). This action has been admitted, suspending the process until the constitutional action is decided. In opinion of Banagrícola s legal advisers, there are sufficient arguments for the claim to dismissed without liability from Banagrícola, which classifies this contingency as remote.
- b. As of December 31, 2007, BA has complaints filed against it by the Salvadorian Tax Authority (*Direccion General de Impuestos Internos*) before the Supreme Court of Justice, regarding a complementary determination of Tax to the Transfer of Personal property (*Impuesto a la Transferencia de Bienes Muebles*) and Tax of Services VAT (*Prestacion de Servicios-IVA*) related to the fiscal years of 2002 and 2003; and a process before the Court of Appeals of Internal Taxes and Customs against the Salvadorian Tax Authority, regarding the fiscal year 2002. The amounts of these processes amounted to US\$ 4,261 and US\$ 8,021, respectively. Management believes the contingency is probable however, the final resolution of these cases will not have significant effects in the financial situation or results of operations.

Fundicom S.A.

labor action against Fundicom S.A. existed at December 31, 2006 and 2007, in which various ex-employees are claiming damages for wrongful dismissal. This proceeding is being held before the Labor Court No. 11 of Bogota and is still in its initial stage. The estimated value of the contingency amounts to Ps 587 and Ps 441 in 2007 and 2006 respectively.
