**Item 2.01 Completion of Acquisition or Disposition of Assets.**

On March 22, 2010, we completed our follow-on cash tender offer to acquire up to an additional 1,295,836 common shares of our majority-owned subsidiary, Standard Diagnostics, Inc., a corporation organized under the laws of South Korea, or Standard Diagnostics. Standard Diagnostics is a Korean manufacturer and distributor of diagnostic reagents and devices for hepatitis, infectious disease, tumor markers, fertility and drugs of abuse, which had 2009 US GAAP adjusted revenues and income before income taxes of approximately \$58.4 million and \$24.4 million respectively.

Pursuant to the follow-on tender offer, we acquired approximately 1,029,120 common shares of Standard Diagnostics, which are in addition to the 4,767,025 common shares of Standard Diagnostics that we acquired on February 8, 2010 pursuant to an earlier tender offer for such shares. In the initial tender offer, we acquired approximately 61.9% of the issued and outstanding common shares of Standard Diagnostics, and the follow-on tender offer increased our ownership to approximately 74.8% of such issued and outstanding common shares. We paid an aggregate purchase price of approximately 41.16 billion South Korean Won, or approximately \$36.4 million, for the common shares tendered in the follow-on tender offer. We paid an aggregate purchase price of approximately 190.7 billion South Korean Won, or approximately \$166.3 million, for the common shares tendered in the initial tender offer.

Based on financial information for the fiscal year ended December 31, 2008, which as of the closing of the initial tender offer was the most recent year for which financial results had been reported, we determined that the acquisition of common shares of Standard Diagnostics in the initial tender offer did not involve a business that was significant for purposes of Rule 3-05 of Regulation S-X. However, based on our financial information for the fiscal year ended December 31, 2009, which we reported on March 1, 2010, the financial information of Standard Diagnostics for the year ended December 31, 2009 that has been made available to us, and the additional shares acquired in the follow-on tender offer, we have determined that the two transactions, considered together, involve a business that is significant for purposes of Rule 3-05.
