Company Overview

We are a premier distributor of specialty food products in the United States. We are focused on serving the specific needs of chefs who own and/or operate some of the nation's leading menu-driven independent restaurants, fine dining establishments, country clubs, hotels, caterers, culinary schools and specialty food stores. We believe that we have a distinct competitive advantage in serving these customers as a result of our extensive selection of distinctive and hard-to-find specialty food products, our product knowledge and our customer service.

We define specialty food products as gourmet foods and ingredients that are of the highest grade, quality or style as measured by their uniqueness, exotic origin or particular processing method. Our product portfolio includes over 11,500 stock-keeping units, or SKUs, and is comprised primarily of imported and domestic specialty food products, such as artisan charcuterie, specialty cheeses, unique oils and vinegars, hormone-free protein, truffles, caviar and chocolate. We also offer an extensive line of broadline food products, including cooking oils, butter, eggs, milk and flour. Our core customers are chefs, and we believe that, by offering a wide selection of both distinctive and hard-to-find specialty products, together with staple broadline food products, we are able to differentiate ourselves from larger, traditional broadline foodservice distributors, while simultaneously enabling our customers to utilize us as their primary foodservice distributor.

Since the formation of our predecessor in 1985, we have expanded our distribution network, product selection and customer base both organically and through acquisitions. From fiscal 2009 to fiscal 2010, net revenues, net income and earnings before interest, taxes, depreciation and amortization, or EBITDA, increased approximately \$59.0 million, \$6.9 million and \$8.7 million, respectively, to \$330.1 million, \$15.9 million and \$24.6 million, respectively. Net revenues, net income and EBITDA for the three months ended March 25, 2011 were \$83.2 million, \$1.0 million and

\$5.5 million, respectively, increases of \$13.2 million, \$0.7 million and \$1.8 million, respectively, over the comparable period in fiscal 2010. Pro forma net income for fiscal 2010 and the three months ended March 25, 2011 was \$ and \$, respectively. See footnote 3 to the Summary Consolidated Financial Data for a reconciliation of EBITDA to adjusted EBITDA and the information under the caption Unaudited Pro Forma Condensed Consolidated Financial Statements beginning on page F-21 for the calculation of pro forma net income for fiscal 2010 and the three months ended March 25, 2011. During these periods and in prior years, our sales to both new and existing customers have increased as a result of an increase in the breadth and depth of our product portfolio, our commitment to customer service, the efforts of our experienced and sophisticated sales professionals, the increased use of technology in the

Table of Contents

operations and management of our business and our ongoing consolidation of the fragmented specialty foodservice distribution industry, including acquisitions in San Francisco, Washington, D.C., Miami and New York City since 2007.

Our Market Opportunity

The United States foodservice distribution industry recorded sales of \$191.0 billion in 2009, according to industry sources. The industry, which includes more than 16,500 distributors, is highly fragmented, with the largest broadline distributors, Sysco Corporation and U.S. Foodservice, Inc., accounting for only 17% and 9%, respectively, of total industry sales. These 16,500 distributors service an equally fragmented end-market which is comprised of more than 550,000 customer locations, including chain and non-chain, independent restaurants, country clubs, hotels, caterers, hospitals, schools, military installations, correctional facilities and other institutional customer locations. The largest customer segment for the foodservice distribution industry is restaurants, which accounted for an estimated \$110.0 billion of distribution sales in 2009. The restaurant segment is dominated by large chain restaurants, the top 100 of which accounted for 55.9% of retail sales in 2009. Conversely, smaller chain and nonchain, independent restaurants, which we define as our target market, accounted for 44.1% of retail sales in 2009.

Competitive Strengths

We believe that, during our 26-year history, we have achieved, developed and/or refined the following strengths which provide us with a distinct competitive position in the foodservice distribution industry and also the opportunity to achieve superior margins relative to most large broadline foodservice distributors:

Leading Distributor of Specialty Food Products in Many of the Key Culinary Markets. Based on our management's industry knowledge and experience, we believe we are the largest distributor of specialty food products in the New York, Washington, D.C., San Francisco and Los Angeles metro markets as measured by net sales. We believe these markets, along with a number of other markets we serve, including Las Vegas, Miami, Philadelphia, Boston and Napa Valley, create and set the culinary trends for the rest of the United States and provide us with valuable insight into the latest culinary and menu practices. Furthermore, we believe our established relationships with many of the top chefs, culinary schools and dining establishments in these key culinary markets have benefited us when we entered into new markets where we believe that chefs at our potential customers were generally knowledgeable of our brand and commitment to quality and excellence from their experience working in other markets which we serve or through their personal relationships throughout the culinary industry.

Expansive Product Offering. We offer an extensive portfolio of high-quality specialty food products, ranging from basic ingredients and staples, such as milk and flour, to delicacies and specialty ingredients sourced from North America, Europe, Asia and South America, which we believe helps our customers distinguish their menu items. We carry more than 11,500 SKUs, including approximately 7,000 that are in-stock every day, and we constantly evaluate our portfolio and introduce new products to address regional trends and preferences and ensure that we are on the leading edge of broader culinary trends. Through our importing division, we provide our customers with access to a portfolio of exclusive items, including regional olive oils, truffles and charcuterie from Italy, Spain, France and other Mediterranean countries. In addition, and as evidence of our commitment to aid our customers in creating unique and innovative menu items, we regularly utilize our sourcing relationships and industry insights to procure additional products that we do not regularly carry but that our customers specifically request. We believe that the breadth and depth of our product portfolio facilitates our customers' ability to distinguish and enhance their menu offerings and differentiates us from larger traditional broadline foodservice distributors. For example, we provide a selection of more than 125 different varieties of olive oil, while large broadline foodservice distributors only carry, on average, 5-10 types of olive oil.

Critical Route-to-Market for Specialty Food Suppliers. We currently distribute products from more than 1,000 different suppliers, with no single supplier currently representing more than 5% of our total disbursements. Our suppliers are located throughout North America, Europe, Asia and South America and include numerous small, family-owned entities and artisanal food producers. We are the largest customer for many of our suppliers. As a result, our experienced and sophisticated sales professionals, customer relationships and distribution platform are critical to these suppliers' route-to-market, which provides us with greater leverage in our relationships with the suppliers and also enables us to offer a wide range of products on an exclusive basis.

Expanding Base of Premier Customer Relationships. Our breadth and depth of product offerings coupled with our highly regarded customer service has allowed us to develop and retain a loyal customer base that is comprised of

Table of Contents

chefs who own or work at more than 7,000 of the nation's leading menu-driven independent restaurants, fine dining establishments, country clubs, hotels, caterers, culinary schools and specialty food stores. Our focus on product selection, product knowledge and customer service has rewarded us with a number of long-term customer relationships, which often begin when chefs are introduced to us while attending the nation's leading culinary schools, including The Culinary Institute of America and The French Culinary Institute, both of which have been customers of ours for more than five years.

Collaborative Professional and Educational Relationships with our Customers. We employ a sophisticated and experienced sales force of approximately 125 sales professionals, the majority of whom have formal culinary training, degrees in the culinary arts or prior experience working in the culinary industry. Equipped with advanced culinary and industry knowledge, our sales professionals seek to establish a rapport with our customers so that they can more fully understand and anticipate the needs of and offer cost-effective food product solutions to the chefs that own or operate these businesses. We believe that the specialized knowledge base of our sales professionals enables us to take a more collaborative and educational approach to selling our gourmet foods and ingredients and to further differentiate ourselves from our traditional broadline competitors.

Expertise in Logistics and Distribution. We have built a first-class, scalable inventory management and logistics platform that enables us to efficiently fill an average of 11,000 orders each week and to profitably meet our customers needs for varying drop sizes, high service levels and timely delivery. Our average distribution service level, or the percentage of in-stock items ordered by customers that were delivered by the requested date, was in excess of 99% in 2010, which we believe is among the highest rates in the foodservice distribution industry. With distribution centers located in New York, Los Angeles, San Francisco, Washington D.C., Las Vegas and Miami, we are able to leverage our geographic footprint and reduce our inbound freight costs. This scale enables us to maintain a portfolio of more than 11,500 SKUs through the operation of our sophisticated information technology, inventory management and logistics systems, which we believe allows us to provide our customers with the highest level of customer service and responsiveness in our industry.

Experienced and Proven Management Team. Our senior management team has demonstrated the ability to grow the business through various economic environments. With collective experience of more than 60 years at The Chefs Warehouse and its predecessor, our founders and senior management are experienced operators and are passionate about our future. Our senior management team is comprised of our founders as well as experienced professionals with expertise in a wide range of functional areas, including finance, sales and marketing, information technology and human resources. We believe our management team and employee base is, and will remain, highly motivated as they will continue to own approximately % of our common stock upon consummation of this offering.

Our Growth Strategies

We believe substantial organic growth opportunities exist in our current markets through increased penetration of our existing customers and the addition of new customers, and we have identified new markets that we believe also present opportunities for future expansion. Key elements of our growth strategy include the following:

Increase Penetration with Existing Customers. We intend to sell more products to our existing customers by increasing the breadth and depth of our product selection and increasing the efficiency of our sales professionals, while at the same time continuing to provide excellent customer service. We are a data-driven and goal-oriented organization, and we are highly focused on increasing the number of unique products we distribute to each customer and our weekly gross profit contribution from each customer. Based on our management's industry experience and our relationships and dealings with our customers, we believe we are the primary distributor of specialty food products to the majority of our customers, and we intend to maintain that position while adding to the number of customers for which we serve as their primary distributor of specialty food products.

Expand our Customer Base Within our Existing Markets. As of December 24, 2010, we served more than 7,000 customer locations in the United States. We plan to expand our market share in the fragmented specialty food distribution industry by cultivating new customer relationships within our existing markets through the continued penetration of independent restaurants, fine dining establishments, country clubs, hotels, caterers, culinary schools and specialty food stores. We believe we have the opportunity to continue to gain market share in our existing markets by offering an extensive selection of specialty food products as well as traditional broadline staple food products through our unique, collaborative and educational sales efforts and efficient, scalable distribution solution.

Table of Contents

Continue to Improve our Operating Margins. As we continue to grow, we believe we can improve our operating margins by continuing to leverage our inventory management and logistics platform and our general and administrative functions to yield both improved customer service and profitability. Utilizing our fleet of delivery trucks, we fill an average of 11,000 customer orders each week, usually within 12-24 hours of order placement. We intend to continue to offer our customers this high level of customer service while maintaining our focus on realizing efficiencies and economies of scale in purchasing, warehousing, distribution and general and administrative functions which, when combined with incremental fixed-cost leverage, we believe will lead to continued improvements in our operating margin.

Pursue Selective Acquisitions. Throughout our 26-year history, we have successfully identified, consummated and integrated multiple new market and tuck-in acquisitions. We believe we have improved the operations and overall profitability of each acquired company by leveraging our sourcing relationships to provide an expanded product portfolio, implementing our tested sales force training techniques and metrics and installing improved warehouse management and information systems. We believe we have the opportunity to capitalize on our existing infrastructure and expertise by continuing to selectively pursue opportunistic acquisitions in order to expand the breadth of our distribution network, increase our operating efficiency and add additional products and capabilities.

Recent Developments

On June 24, 2011, we purchased the inventory of Harry Wils & Co. and certain intangible assets, including Harry Wils & Co.'s customer list and certain intellectual property. Harry Wils & Co. is a specialty foodservice distribution company headquartered in the New York City metropolitan area, and we believe that the purchase of these assets will allow us to increase the number of customers we service in the New York metropolitan area. The purchase price paid to Harry Wils & Co. was approximately \$7.7 million for the intangible assets, plus approximately \$1.2 million for inventory on hand. We assumed no liabilities in connection with the transaction and have relocated the inventory we purchased to our Bronx, New York distribution facility. We financed the purchase price for these assets with borrowings under our existing senior secured credit facilities.

Reorganization Transaction

Prior to the effectiveness of this registration statement, we will complete a transaction in which we will convert Chefs Warehouse Holdings, LLC into The Chefs Warehouse, Inc. Specifically, immediately prior to the time at which the registration statement of which this prospectus is part is declared effective, Chefs Warehouse Holdings, LLC, a Delaware limited liability company, will convert into The Chefs Warehouse, Inc., a Delaware corporation, and the members of Chefs Warehouse Holdings, LLC will receive shares of our common stock in exchange for their membership interests in Chefs Warehouse Holdings, LLC.

It is expected that our existing investors will own approximately % of our outstanding shares of common stock upon consummation of this offering. As a result, we will issue shares of common stock in our reorganization transaction and each of the holders of our Class B units and Class C units will receive shares of our common stock for each unit of membership interest in Chefs Warehouse Holdings, LLC owned by them at the time of the conversion. Of the total number of shares we issue in the reorganization transaction, shares will be restricted shares of our common stock issued upon conversion of our Class C units that have not vested as of the date we consummate the reorganization transaction.

Refinancing Transactions

In connection with our redemption of all of our outstanding Class A units in October 2010, we entered into our existing \$100.0 million senior secured credit facilities with a syndicate of lenders. The existing senior secured credit facilities provide for (i) a \$75.0 million term loan facility and (ii) a revolving credit facility under which we may borrow up to \$25.0 million. We also issued \$15.0 million of our senior subordinated notes due 2014.

In connection with this offering, we have entered into a commitment letter, which we expect will be replaced by definitive loan documentation simultaneously with the closing of this offering, with JPMorgan Chase Bank, N.A. with respect to new senior secured credit facilities. Pursuant to the commitment letter, our new senior secured credit facilities will provide for (i) a four year, \$30.0 million term loan facility maturing in 2015, and (ii) a four year, \$50.0 million revolving credit facility maturing in 2015. We intend to use the net proceeds of this offering, together with a portion of borrowings under our new senior secured credit facilities, to repay all of our loans outstanding

Table of Contents

under our existing senior secured credit facilities and redeem or repurchase all of our outstanding senior subordinated notes due 2014.

Risk Factors

An investment in our common stock involves a high degree of risk. Before you invest in our common stock, you should carefully read and consider, among other things, the following risks as well as those described under the caption Risk Factors beginning on page 12 of this prospectus:

Our success depends to a significant extent on general economic conditions, including changes in disposable income levels and consumer spending trends;

Conditions beyond our control could materially affect the cost and/or availability of our specialty food products and/or interrupt our distribution network;

Our business is low-margin in nature and our profit margins are sensitive to inflationary and deflationary pressures;

Because our foodservice distribution operations are principally concentrated in six culinary markets, we are susceptible to economic and other developments, including adverse weather conditions, in these areas;

Damage to our reputation or lack of acceptance of our specialty food products and/or the brands we carry in existing and new markets could materially and adversely impact our business, financial condition or results of operations;

Our profit margins may be negatively affected if group purchasing organizations are successful in adding our independent restaurant customers as members;

A significant portion of our future growth is dependent upon our ability to expand our operations in our existing markets and to penetrate new markets, including through acquisitions; and

We may have difficulty managing and facilitating our future growth.
