Item 2.02. Results of Operations and Financial Condition

On January 30, 2007, Pinnacle West Capital Corporation (the Company or Pinnacle West) issued a press release regarding its financial results for its fiscal quarter and fiscal year ended December 31, 2006. A copy of the press release is attached hereto as Exhibit 99.9.

Certain of the Information referenced in Item 7.01 below relates to the Company's results of operations for its fiscal quarter and fiscal year ended December 31, 2006. This Information is attached hereto as Exhibits 99.2, 99.3, 99.7, 99.9, and 99.10.

Exhibit 99.9 to this report contains certain non-GAAP financial measures, as defined in Item 10(e) of Regulation S-K of the Exchange Act. We describe these non-GAAP financial measures as on-going earnings and on-going earnings per share. Exhibit 99.9 contains a table that reconciles each of these non-GAAP financial measures to net income, which is the most directly comparable financial measure calculated and presented in accordance with accounting principles generally accepted in the United States of America (GAAP). We believe on-going earnings provide investors with a useful indicator of our results that is comparable among periods because it excludes the effects of unusual items that may occur on an irregular basis. Investors should note that these non-GAAP financial measures involve judgments by management, including whether an item is classified as an unusual item. We use on-going earnings, or similar concepts, to measure our performance internally in reports for management.

Financial and Business Information**

The Company is providing quarterly consolidated statistical summaries, earnings variance explanations, and a glossary of relevant terms (collectively, Information) to help interested parties better understand its business (see Exhibits 99.1, 99.2, 99.3, 99.4, 99.5, 99.6, 99.7, 99.8 and 99.10). This Information is concurrently being posted to the Company's website at www.pinnaclewest.com. The Information may not represent all of the factors that could affect the Company's operating or financial results for various periods. Some of the Information is preliminary in nature and could be subject to significant adjustment. Some of the Information is based on information received from third parties and may contain inaccuracies. The Company is not responsible for any such inaccuracies. Although the Company may update or correct the Information if it is aware that such Information has been revised or is inaccurate, the Company assumes no obligation to update or correct the Information and reserves the right to discontinue the provision of all or any portion of the Information at any time or to change the type of Information provided.

2007 Earnings Outlook

In this discussion, earnings per share amounts are after income taxes and are based on diluted common shares outstanding. The earnings guidance in this Form 8-K supersedes all previous earnings guidance provided by Pinnacle West.

Our earnings forecasts are subject to numerous risks, including those described under Forward-Looking Statements below and under Business Outlook in Part I, Item 2 of our Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2006 (the September 2006 Form 10-Q). Our estimates as to how several of these risks and other factors may affect future earnings follow:

Arizona Public Service Company (APS) has a general retail rate case pending before the Arizona Corporation Commission (the ACC). The rate request includes, among other things, an overall increase of \$434.6 million (20.4%) in annual retail electricity revenues, of which

Table of Contents

\$314.4 million (14.8%) represents an increase in the base fuel rate. We are not able to predict the outcome of the rate case, when the ACC will make a decision in this case, or the specific date when a rate increase will become effective. (For detailed information regarding the rate case, see APS General Rate Case in Note 5 of Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of the September 2006 Form 10-Q.)

We assume that APS fuel and purchased power costs will be recovered through base rates or under APS power supply adjustor (PSA) or will be deferred for future recovery under the PSA, excluding such costs not recoverable pursuant to the 90/10 sharing provision under the PSA.

We assume that revenues will continue to be collected under the interim PSA adjustor (\$0.007 per kilowatt-hour) until rates become effective as a result of APS pending general rate case. (See our Report on Form 8-K dated December 8, 2006 regarding ACC approval of continuation of the interim PSA adjustor.)

We currently estimate that net income for 2007 from our real estate subsidiary, SunCor Development Company (SunCor), will be between \$30 million and \$35 million. This estimate reflects a slowdown in the western United States residential real estate markets.

We estimate that our base level of consolidated earnings for 2007, before considering any potential earnings benefit derived from a base rate increase effective at any time during 2007, will be within a reasonable range of \$2.45 per share.

Assuming APS retail rate request is granted effective May 1, 2007, we expect consolidated earnings for 2007 to be within a reasonable range of \$3.00 per share. We estimate that APS earnings contribution included in such 2007 consolidated earnings will be within a reasonable range of \$2.70 per share (equivalent to a return on APS average common equity of 8%). Under these assumptions, we estimate that 2007 earnings will include \$55 million (\$0.55 per share) related to the retail rate decision, consisting of \$15 million (\$0.15 per share) in the second quarter, \$25 million (\$0.25 per share) in the third quarter, and \$15 million (\$0.15 per share) in the fourth quarter.

Forward-Looking Statements

This Form 8-K contains forward-looking statements regarding our 2007 earnings outlook. Neither the Company nor APS assumes any obligation to update these statements or make any further statements on any of these issues, except as required by applicable law. These forward-looking statements are often identified by words such as estimate, predict, hope, may, believe, anticipate, plan, expect, require, intend, assume and similar words. Because actual results may differ materially from expectations, we caution readers not to place undue reliance on these statements. A number of factors could cause future results to differ materially from historical results, or from results or outcomes currently expected or sought by Pinnacle West or APS. In addition to the Risk Factors described in Item 1A of the Pinnacle West/APS Annual Report on Form 10-K for the fiscal year ended December 31, 2005, these factors include, but are not limited to, state and federal regulatory and legislative decisions and actions, including the outcome and timing of APS retail rate proceedings pending before the ACC; the timely recovery of PSA deferrals, including such deferrals in 2005 and 2006 associated with unplanned Palo Verde outages and reduced power operations that are the subject of ACC prudence reviews; the

ongoing restructuring of the electric industry, including the introduction of retail electric competition in Arizona and decisions impacting wholesale competition; the outcome of regulatory, legislative and judicial proceedings, both current and future, relating to the restructuring; market prices for electricity and natural gas; power plant performance and outages; transmission outages and constraints; weather variations affecting local and regional customer energy usage; customer growth and energy usage; regional economic and market conditions, including the results of litigation and other proceedings resulting from the California energy situation, volatile fuel and purchased power costs and the completion of generation and transmission construction in the region, which could affect customer growth and the cost of power supplies; the cost of debt and equity capital and access to capital markets; current credit ratings remaining in effect for any given period of time; our ability to compete successfully outside traditional regulated markets (including the wholesale market); the performance of our marketing and trading activities due to volatile market liquidity and any deteriorating counterparty credit and the use of derivative contracts in our business (including the interpretation of the subjective and complex accounting rules related to these contracts); changes in accounting principles generally accepted in the United States of America and the interpretation of those principles; the performance of the stock market and the changing interest rate environment, which affect the value of the assets in the trusts holding our nuclear decommissioning, pension, and other postretirement benefit plans assets, the amount of required contributions to Pinnacle West's pension plan and contributions to APS' nuclear decommissioning trust funds, as well as the reported costs of providing pension and other postretirement benefits; technological developments in the electric industry; the strength of the real estate market in SunCor's market areas, which include Arizona, Idaho, New Mexico and Utah; and other uncertainties, all of which are difficult to predict and many of which are beyond the control of Pinnacle West and APS.
