NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CONSOLIDATION

The accompanying consolidated financial statements include our accounts and the accounts of majority-owned domestic and foreign subsidiaries. Investment in an 80% owned joint venture is accounted for on the equity method due to provisions in the joint venture agreement that give minority shareholders the right to exercise control. All material intercompany balances and transactions have been eliminated. All material adjustments consisting only of normal recurring adjustments that, in the opinion of management are necessary for a fair statement of the results for the interim periods have been reflected. These interim financial statements should be read in conjunction with our annual consolidated financial statements.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATION OF PRIOR YEAR BALANCES

Certain prior year balances have been reclassified for consistent presentation. Depreciation and amortization expense is now included in cost of services on the "Consolidated Statements of Operations and Comprehensive Income".

RECENT ACCOUNTING PRONOUNCEMENTS

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143 (Asset Retirement Obligations). This standard requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a

Edgar Filing: VERITAS DGC INC - Form 10-Q

liability when those obligations are incurred with the liability being initially measured at fair value. We adopted the use of this accounting statement in August 2002. Adoption did not have a material effect on our financial position or results of operations.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144 (Accounting for the Impairment or Disposal of Long Lived Assets). This standard develops one accounting model for long-lived assets that are to be disposed of by sale, requiring such assets to be measured at the lower of book value or fair value less cost to sell. The standard also provides guidance on the recognition of liabilities for the obligations arising from disposal activities. We adopted the use of this accounting statement in August 2002. Adoption did not have a material effect on our financial position or results of operations.

In April 2002, the Financial Accounting Standards Board issued SFAS No. 145 (Rescission of FASB Statement No. 4, 44, and 64, Amendment of FASB Statement No. 13 and Technical Corrections as of April 2002). Among other things, this statement addresses how to report gains or losses resulting from the early extinguishment of debt. Previously, any gains or losses were reported as an extraordinary item. Upon adoption of SFAS No. 145, an entity is required to evaluate whether the debt extinguishment is truly extraordinary in nature, in accordance with Accounting Principles Board Opinion No. 30. We adopted the use of this accounting statement in August 2002. The adoption of this statement will likely preclude extraordinary classification of costs related to early debt extinguishment, and the effect in the first fiscal quarter was immaterial.

4

VERITAS DGC INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

In July 2002, the Financial Accounting Standards Board issued SFAS No. 146 (Accounting for Costs Associated with Exit or Disposal Activities). This standard requires recognition of costs associated with exit or disposal activities when they are incurred rather than when management commits to an exit or disposal plan. Examples of costs covered by this guidance include lease termination costs, employee severance costs that are associated with restructuring, discontinued operations, plant closings, or other exit or disposal activities. We will adopt the use of this accounting statement for all activities initiated after December 31, 2002 and do not expect adoption to have a material effect on our financial position or results of operations.

2. BUSINESS COMBINATIONS

On August 21 2002, we acquired Hampson-Russell Software Services Ltd. ("Hampson-Russell"), a Canadian provider of software tools and consulting services related to reservoir interpretation. Under the terms of the agreement, we acquired substantially all of the assets of Hampson-Russell in exchange for a cash payment of \$9,250,000, transfer of 589,623 shares of Veritas common stock (\$12.30 per share), and Hampson-Russell's right to receive a percentage of the revenues generated by the purchased assets over the five years following the closing of the transaction, provided that certain financial targets are obtained. The common stock price of \$12.30 was based on the average closing price for Veritas common stock for a short period up to the transaction close date. Our preliminary allocation of the \$16.5 million purchase price was based on fair value as follows: \$13.2 million to software, \$3.9 million to

Edgar Filing: VERITAS DGC INC - Form 10-Q

goodwill of which none is expected to be tax deductible, \$1.1 million to accrued liabilities, \$0.3 million to fixed assets and \$0.2 million to other assets. The software will be amortized over no more than five years. David B. Robson, Veritas DGC's Chairman and Chief Executive Officer, beneficially owns a controlling interest in Vada Industries Ltd., which was a 25% shareholder of Hampton-Russell at the time of the acquisition. The results of operations for Hampton-Russell began to be included in our results of operations as of August 21, 2002.

3. ASSET IMPAIRMENT

For the quarter ended 10/31/02, we incurred a \$1.8 million loss for the impairment of land equipment. It was determined the fair value of the equipment was zero. The impairment loss is included in cost of services in the "Consolidated Statements of Operations and Comprehensive income".

4. OTHER COSTS AND EXPENSES

Other costs and expenses consist of the following:

	THREE MONTHS ENDED OCTOBER 31,

Exercise price range	\$10.71 - \$55.125	\$14.5625 - \$55.125
Expiring through	March 2012	March 2011

6. OTHER ASSETS - SOFTWARE

Software available for sale is included in other assets. A portion of the software was developed internally and the remaining portion was obtained through the acquisition of Reservoir Characterization Research and Consulting, Inc. and Hampson-Russell Software Services Ltd. For internally developed software, we capitalize costs associated with the development of the product from the time the product reaches technological feasibility until it is ready for commercial release. The capitalized cost of the software, whether developed or purchased, is charged to cost of services in the period sales occur based on the percentage of total cost to total estimated sales multiplied by actual sales during the period. In no case is the cumulative amortization for a product allowed to fall below the amount that would be recorded using straight-line amortization for that product's estimated useful life. Estimated useful lives of our software products range from three to five years.

Amortization expense for the periods ended October 31, 2002 and October 31, 2001 was \$1.4 million and \$0.6 million, respectively. The carrying value of our software is as follows:

	OCTOBER 31, 2002	JULY 31, 2002
	-----	-----
GROSS		GROSS

6

VERITAS DGC INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(UNAUDITED)

7. LONG-TERM DEBT

Long-term debt is as follows:

	OCTOBER 31, 2002	JULY 31, 2002
	-----	-----
	(IN THOUSANDS)	
Senior Notes due October 2003, at 9 3/4%	\$ 130,050	\$ 135,000
Revolving credit agreement, balance due August 2003 ...	80,634	5,000
	-----	-----
Subtotal	\$ 210,684	\$ 140,000
Less Current Maturities on long-term debt	210,684	
	-----	-----
Total	\$ 0	\$ 140,000
	=====	=====

As of October 31, 2002, we had \$130.1 million in Senior Notes outstanding due in October 2003. The indenture relating to our Senior Notes contains covenants that, among other things, limit our ability to incur additional debt, pay dividends and complete mergers or sales of assets. Additionally the indenture contains a change of control provision allowing the holders to require us to call all or a portion of the notes under certain conditions.

We also have a revolving credit facility due August 2003 from commercial lenders that provides U.S. advances up to \$80.0 million and non-U.S. advances up to \$20 million. Advances bear interest, at our election, at LIBOR plus a margin or prime rate plus a margin. These margins are based on either certain of our financial ratios or our credit rating. At October 31, 2002 the LIBOR margin was 1.25% and the prime rate margin was 0%. As of October 31, 2002, there were \$80.6 million outstanding advances under the credit facility, and \$10.7 million of the credit facility was utilized for letters of credit. Beginning November 1, 2002, provisions in our Senior Notes preclude us from incurring any additional borrowings, other than issuance of letters of credit, due to our failure to meet a fixed charge coverage provision in the indenture.

We currently have a fully underwritten commitment from a major commercial bank for the purpose of allowing us to redeem the existing Senior Notes and replace the current revolving credit facility. We expect to close this financing during our second fiscal quarter, but we cannot assure that we will be able to

Edgar Filing: VERITAS DGC INC - Form 10-Q

obtain financing on terms acceptable to us. Should we not be able to obtain acceptable and adequate financing, we may incur higher interest costs and may need to take actions such as reducing or delaying capital expenditures, reducing costs, selling assets, and otherwise responding to the reduced liquidity.

8. HEDGE TRANSACTION

In March 2001, we entered into a contract requiring payments in Norwegian kroner to charter the seismic vessel M/V Seisquest. The contract requires 36 monthly payments commencing on June 1, 2001. To protect our exposure to exchange rate risk, we entered into multiple forward contracts as cash flow hedges effectively locking our exchange rate for Norwegian kroner to the U.S. dollar. The unrealized gain on the hedge transaction is summarized below:

	OCTOBER 31, 2002			JULY 31, 2001	
	FORWARD VALUE	UNREALIZED GAIN	FAIR VALUE	FORWARD VALUE	UNREALIZED GAIN
	(IN THOUSANDS)				
Forward contracts	\$ 4,938	\$ 906	\$ 5,844	\$ 6,032	\$ 794

7

VERITAS DGC INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

9. SEGMENT INFORMATION

We have two segments, land and marine operations, both of which provide geophysical products and services to the petroleum industry. The two segments have been aggregated, as they are similar in their economic characteristics and the nature of their products, production processes and customers. A reconciliation of the reportable segments' results to those of the total enterprise is given below.

	THREE MONTHS ENDED OCTOBER 31,			
	2002			
	SEGMENTS	CORPORATE	TOTAL	SEGMENTS
	(IN THOUSANDS)			
Revenue	\$ 137,507		\$ 137,507	\$ 121,000
Operating income	16,781	\$ (8,667)	8,114	22,000
Income (loss) before income taxes	15,677	(12,739)	2,938	23,000

10. SEVERANCE

In the first quarter of fiscal year 2002, we initiated a plan to reduce overhead in all divisions and affecting all levels of employees. As a result, we incurred \$1.0 million of severance cost during the quarter of which \$0.8 million was paid and \$0.2 million remains accrued. The total expense is included in general and administrative in the "Consolidated Statement of Operations and Comprehensive Income". The total number of employees terminated during the current quarter was 35. We expect further workforce reductions in the second and third fiscal quarters. Future termination costs have not been accrued, as the plans have not been finalized at October 31, 2002.

8

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors. These factors are more fully described in other reports filed with the Securities and Exchange Commission, including our fiscal year 2002 Form 10-K, and include changes in market conditions in the oil and gas industry as well as declines in prices of oil and gas.

OVERVIEW

While commodity prices for the quarter were relatively high on an historical basis, these have not resulted in increased spending by the oil companies on seismic services. The demand for contract data acquisition is considerably lower than current capacity and is keeping margins in that business depressed. One bright spot in the seismic market is high demand for advanced data processing, an area where Veritas has earned a leadership position. Our backlog of work in this area is high and our technological superiority over most competitors allows us to avoid competing solely on price, hence enjoying reasonable margins in this business. We have several well-funded multi-client projects in various stages of completion and have generated most of our multi-client revenue from these ongoing jobs. Shelf sales were slow during the quarter but are expected to increase toward the end of this calendar year.

We do not foresee any significant changes in the near future for the seismic business and are committed to generating free cash flow. We have reduced our capital budget to a maintenance level of about \$35 to \$40 million for fiscal 2003 and have taken steps to reduce overhead. We incurred \$1 million of severance cost during the quarter related to this effort and expect to incur additional amounts in the second and third fiscal quarters. We are not reducing our commitment to providing and utilizing leading edge technology and will continue to invest in research and development at our historical levels.

RESULTS OF OPERATIONS

THREE MONTHS ENDED OCTOBER 31, 2002 COMPARED WITH THREE MONTHS ENDED OCTOBER 31, 2001

Revenues. Revenues increased by 13%, from \$121.4 million to \$137.5 million.

Edgar Filing: VERITAS DGC INC - Form 10-Q

Multi-client revenues increased 8% due to high levels of pre-funding in Brazil and Norway partially offset by weak land shelf sales. Contract revenues increased 18% primarily due to a large land acquisition project in Peru and marine acquisition projects in Morocco and Trinidad.

Operating Income. Operating income as a percent of revenue decreased to 5.9% compared to 12.5% in the prior year's first quarter. Margins declined due to several operational disruptions in land acquisition and lower margins from multi-client shelf sales. The operational disruptions included two lightning strikes, two hurricanes, and civil unrest, all of which resulted in declarations of contractual force majeure provisions. Reduced revenue and increased expense associated with these projects reduced profit from our expectations by approximately \$2.1 million during the quarter. Additionally, we recognized the impairment of \$1.8 million of assets in the land acquisition business. General and administrative expense increased by \$1.8 million from the prior year's first quarter due to severance and other items.

Other expense (income). Other expense (income) decreased from income of \$0.9 million to expense of \$1.2 million. Interest income decreased from \$0.8 million to \$74,000. Equipment sales in the prior year generated a gain of \$0.3 million as opposed to a loss in the current quarter of \$0.2 million. In addition, our Indonesian joint venture incurred a loss of \$0.6 million in the current quarter as opposed to a loss of \$60,000 in the prior quarter.

Provision for income taxes. The provision for income taxes decreased from \$4.9 million to \$1.4 million due to the decrease in earnings in the current year. The effective income tax rate, excluding the effects of losses from the Indonesian joint venture, remained approximately the same year to year.

9

LIQUIDITY AND CAPITAL RESOURCES

SOURCES AND USES

Our internal sources of liquidity are cash, cash equivalents and cash flow from operations. External sources include public financing, equity sales, equipment financing and trade credit. We believe that these sources of funds are adequate to meet our liquidity needs for the remainder of fiscal 2003.

Net cash provided by operating activities decreased from \$25.5 million in the first quarter of 2002 to \$22.1 million in 2003. Net income decreased from \$7.6 million to \$1.6 million. Amortization of multi-client library increased from \$26.0 million to \$32.0 million due to increased amortization of land surveys. In addition, net cash used for working capital increased from \$19.0 million to \$27.5 million primarily the result of an increase in accounts receivable.

Net cash used by investing activities decreased from \$69.8 million in the first quarter of 2002 to \$56.0 million in 2003 due to lower capital and multi-client spending partially offset by the \$9.3 million cash portion of the purchase price of Hampson-Russell Software Services Ltd. Our revised capital expenditure budget for fiscal 2003 is approximately \$40.0 million, which is substantially allocated to replacement and upgrading of existing equipment. In fiscal year 2003, we are forecasting \$163.0 million in cash additions to our data library. We will require substantial cash flow to continue our investment in multi-client library, complete our capital expenditure and research and development programs and meet our principal and interest obligations with respect to outstanding indebtedness. All of these investing activities are contingent upon having sufficient sources of cash, both internally and

Edgar Filing: VERITAS DGC INC - Form 10-Q

externally.

Net cash provided by financing activities increased from \$0.6 million in the first quarter of 2002 to \$71.2 million in 2003. The current year includes net proceeds from the revolving credit facility of \$75.6 million offset by redemptions of our Senior Notes of \$5.0 million. As of October 31, 2002, we had \$130.1 million in Senior Notes outstanding due in October 2003. The indenture relating to our Senior Notes contains covenants that, among other things, limit our ability to incur additional debt, pay dividends and complete mergers or sales of assets. Additionally the indenture contains a change of control provision allowing the holders to require us to call all or a portion of the notes under certain conditions.

We have a revolving credit facility due August 2003 from commercial lenders that provides U.S. advances up to \$80 million and non-U.S. advances up to \$20 million. Advances bear interest, at our election, at LIBOR plus a margin or prime rate plus a margin. These margins are based on either certain of our financial ratios or our credit rating. At October 31, 2002 the LIBOR margin was 1.25% and the prime rate margin was 0%. As of October 31, 2002, there were \$80.6 million outstanding advances under the credit facility, and \$10.7 million of the credit facility was utilized for letters of credit. Beginning November 1, 2002, provisions in our Senior Notes preclude us from incurring any additional borrowings, other than issuance of letters of credit, due to our failure to meet a fixed charge coverage provision in the indenture.

While we believe that we have adequate sources of funds to meet our liquidity needs until the expiration of our existing credit facilities, our ability to meet our obligations depends on our future performance, which, in turn, is subject to many factors beyond our control. Key internal factors affecting future results include utilization levels of acquisition and processing assets and the level of multi-client data library licensing, all of which are driven by the external factors of exploration spending and, ultimately, underlying commodity prices. We currently have a fully underwritten commitment for the purpose of allowing us to redeem the existing Senior Notes and replace the current revolving credit facility. We expect to close this financing during our second fiscal quarter, but we cannot assure that we will be able to obtain financing on terms acceptable to us. Should we not be able to obtain acceptable and adequate financing, we may incur higher interest costs and may need to take actions such as reducing or delaying capital expenditures, reducing costs, selling assets, and otherwise responding to the reduced liquidity.

The following represents our financial contractual obligations and commitments for the fiscal period ending July 31, 2003 through 2007 and thereafter.

CONTRACTUAL CASH OBLIGATIONS	TOTAL	2003	2004	2005	2006
-----	-----	-----	-----	-----	-----

Forward exchange contracts ...	6,033	2,440	2,497		
Standby letters of credit	10,732	9,139	1,500	93	

Edgar Filing: VERITAS DGC INC - Form 10-Q

CRITICAL ACCOUNTING POLICIES

While all of our accounting policies are important in assuring that Veritas adheres to current accounting standards, certain policies are particularly important due to their impact on our financial statements. These are described in detail below.

MULTI-CLIENT DATA LIBRARY

In the portion of our business known as multi-client data library, we collect and process geophysical data for our own account and retain all ownership rights. We license the data to multiple clients on a non-transferable basis. We capitalize costs associated with acquiring and processing the multi-client data on a survey-by-survey basis (versus a pooled basis). The capitalized cost of multi-client data is charged to cost of services in the period revenue is recognized in an amount equal to the period revenue multiplied by the percentage of total estimated costs to total estimated revenue. Therefore, multi-client margins recognized in any given period are the product of estimated costs and estimated sales and may not reflect the ultimate cash margins recognized from a survey. Any costs remaining 36 months after completion of a survey are charged to cost of services over a period not to exceed 24 months. The maximum amortization period of sixty months represents the period over which the majority of revenues from these surveys are expected to be derived. We periodically review the carrying value of the multi-client data library to assess whether there has been a permanent impairment of value and record losses when it is determined that estimated sales will not be sufficient to cover the carrying value of the asset.

DEFERRED TAX ASSET

Deferred taxes result from the effect of transactions that are recognized in different periods for financial and tax reporting purposes. A valuation allowance is established when it is more likely than not that some portion or all of the deferred tax assets will not be realized. The valuation allowance is then adjusted when the realization of deferred tax assets becomes more likely than not. Adjustments are also made to recognize the expiration of net operating loss and investment tax credit carry-forwards, with equal and offsetting adjustments to the related deferred tax asset. Should the income projections result in the conclusion that realization of additional deferred tax assets is more likely than not, further adjustments to the valuation allowance are made.

OTHER ACCOUNTING POLICIES

Since our quasi-reorganization on July 31, 1991 with respect to Digicon Inc., the tax benefits of net operating loss carryforwards existing at the date of the quasi-reorganization have been recognized through a direct addition to additional paid-in capital, when realization is more likely than not. Additionally, the utilization of the net operating loss carry-forwards existing at the date of the quasi-reorganization is subject to certain limitations. For the three months ended October 31, 2002, we recognized \$2.3 million related to these benefits.

We receive some account receivable payments in foreign currency. We currently do not conduct a hedging program because we do not consider our current exposure to foreign currency fluctuations to be significant, although we have hedged certain future charter payments to be made in a foreign currency.

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143 (Asset Retirement Obligations). This standard requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred with the liability being initially

Edgar Filing: VERITAS DGC INC - Form 10-Q

measured at fair value. We adopted the use of this accounting statement in August 2002. Adoption did not have a material effect on our financial position or results of operations.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144 (Accounting for the Impairment or Disposal of Long Lived Assets). This standard develops one accounting model for long-lived assets that are to be disposed of by sale, requiring such assets to be measured at the lower of book value or fair value less cost to sell. The standard also provides guidance on the recognition of liabilities for the obligations arising from disposal activities. We adopted the use of this accounting statement in August 2002. Adoption did not have a material effect on our financial position or results of operations.

In April 2002, the Financial Accounting Standards Board issued SFAS No. 145 (Rescission of FASB Statement No. 4, 44, and 64, Amendment of FASB Statement No. 13 and Technical Corrections as of April 2002). Among other things, this statement addresses how to report gains or losses resulting from the early extinguishment of debt. Previously, any gains or losses were reported as an extraordinary item. Upon adoption of SFAS No. 145, an entity is required to evaluate whether

11

the debt extinguishment is truly extraordinary in nature, in accordance with Accounting Principles Board Opinion No. 30. We will adopt the use of this accounting statement in August 2002. The adoption of this statement will likely preclude extraordinary classification of costs related to early debt extinguishment, and the effect in the first fiscal quarter was immaterial.

In July 2002, the Financial Accounting Standards Board issued SFAS No. 146 (Accounting for Costs Associated with Exit or Disposal Activities). This standard requires recognition of costs associated with exit or disposal activities when they are incurred rather than when management commits to an exit or disposal plan. Examples of costs covered by this guidance include lease termination costs, employee severance costs that are associated with restructuring, discontinued operations, plant closings, or other exit or disposal activities. We will adopt the use of this accounting statement for all activities initiated after December 31, 2002 and do not expect adoption to have a material effect on our financial position or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES REGARDING MARKET RISK

At October 31, 2002, we had limited market risk related to foreign currencies. In March 2001, we entered into a contract requiring payments in Norwegian kroner to charter the seismic vessel M/V Seisquest. The contract requires 36 monthly payments commencing on June 1, 2001. To protect our exposure to exchange rate risk, we entered into multiple forward contracts as cash flow hedges fixing our exchange rates for Norwegian kroner to the U.S. dollar. The total fair value of the open forward contracts at October 31, 2002 in U.S. dollars is \$5.8 million.

ITEM 4. CONTROLS AND PROCEDURES

Our management, including the Chief Executive Officer and Chief Financial Officer, has conducted an evaluation of the effectiveness of disclosure controls and procedures within ninety days of the filing of this report pursuant to Exchange Act Rule 13a-14. Based on that evaluation, the Chief Executive Officer

Edgar Filing: VERITAS DGC INC - Form 10-Q

and Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission (SEC) rules and forms. There have been no significant changes in internal controls, or in factors that could significantly affect internal controls, subsequent to the date our management, including its Chief Executive Officer and Chief Financial Officer, completed its evaluation.

PART II. OTHER INFORMATION

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

a) EXHIBITS FILED WITH THIS REPORT:

EXHIBIT NO. -----	DESCRIPTION -----
10-1 --	Credit Agreement among Veritas DGC Inc., as borrower, and Wells Fargo, Inc., as a bank and agent for the banks named therein, dated July 19, 2001. (Exhibit 10-W to Veritas DGC Inc.'s Form 10-K for the year ended July 31, 2001 is incorporated herein by reference.)
10-2 --	Second Amendment to credit Agreement, effective as of July 1, 2002, by and among Veritas DGC Inc., Veritas DGC Limited, Veritas Energy Services Inc., Veritas Energy Services Partnership, certain Banks party thereto, Wells Fargo Bank Texas, N.A., as agent, and HSBC Bank Canada, as agent. (Exhibit 10.1 to Veritas DGC Inc.'s Current Report on Form 8-K dated September 27, 2002 is incorporated herein by reference.)
10-3 --	Asset Sale Agreement, dated August 15, 2002, by and among Veritas (and certain of its affiliates) and Hampson-Russell Software Services Ltd. (and certain of its affiliates). (Exhibit 10 to Veritas DGC Inc.'s Current Report on Form 8-K dated August 22, 2002 is incorporated herein by reference.)
*99.1 --	Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 by David B. Robson.
*99.2 --	Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 by Matthew D. Fitzgerald.

* FILED HEREWITH

b) REPORTS ON FORM 8-K

We filed a Current Report on Form 8-K, dated August 22, 2002, regarding the acquisition of substantially all of the assets of Hampson-Russell Software Services Ltd.

Edgar Filing: VERITAS DGC INC - Form 10-Q

We filed a Current Report on Form 8-K, dated September 27, 2002, regarding the Second Amendment to our Credit Agreement.

CERTIFICATIONS

I, David B. Robson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Veritas DGC Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - (a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this

Edgar Filing: VERITAS DGC INC - Form 10-Q

quarterly report (the "Evaluation Date"); and

(c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

(a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
