PART I

ITEM 1. DESCRIPTION OF BUSINESS

Overview

History of the Company. Omni U.S.A., Inc. (the "Company"), a Nevada corporation, through its wholly-owned subsidiary, Omni U.S.A., Inc., a Washington corporation ("Omni-Washington") and Omni-Washington's wholly-owned subsidiary, Omni Resources, Ltd., a Hong Kong company ("Omni Resources"), through its wholly-owned manufacturing facility, Shanghai Omni Gear Co., Ltd. ("Shanghai Omni Gear"), designs, develops, manufactures and distributes power transmissions (also known as "gearboxes" or "enclosed geardrives") for use in agricultural, industrial, "off-highway" and construction equipment. The Company, through another wholly-owned subsidiary, Butler Products Corporation, designs, develops, manufactures and distributes trailer and implement jacks and couplers, which include light and heavy-duty jacks and couplers used in a variety of trailers. The Company's products are distributed to original equipment manufacturers and distributors in North America and in several foreign countries including Argentina, Australia, Brazil, Canada, France, Mexico, New Zealand, South Africa and Thailand. The Company began procuring the manufacture of its products by Chinese manufacturers in China in 1980, and since 1986 substantially all of its geardrives have been manufactured in China; 30% of its trailer and implement products are manufactured in China and approximately 70% of its trailer and implement products are manufactured in the United States.

Omni-Washington, the Company's primary operating subsidiary, was incorporated in 1961 and in 1974, began distributing power transmissions in the U.S., and later established Omni Resources to distribute its products in certain foreign markets. In 1988, Omni-Washington acquired the outstanding minority ownership interest in Omni Resources and thereafter operated it as a wholly owned subsidiary.

Effective July 1, 1988, Ed Daniel, the then sole shareholder, exchanged all of the outstanding stock of Omni-Washington for 6,650,000 shares of voting Common Stock of Triste Corporation, a Nevada corporation incorporated in 1988 ("Triste"), giving him a 42.5% interest in Triste. Triste thereafter changed its name to Omni U.S.A., Inc. ("Omni" or the "Company").

In December 1994, Omni Resources formed Shanghai Omni Gear, a Cooperative Joint Venture Limited Liability Company (the "Joint Venture"), with a Chinese manufacturing company that owns a multi-building manufacturing complex in Shanghai for the purpose of manufacturing planetary and industrial geardrives.

The Articles of Association of the Joint Venture provide that each joint venturer's liability for the obligations of the Joint Venture is limited to such joint venturer's investment. The Joint Venture has a thirty-year term, which can be extended for an additional ten years by consent of the joint venturers. The Joint Venture may be liquidated in the event of either party's failure to perform its obligations under the Joint Venture Agreement. Shanghai Omni Gear manufactures the Company's planetary and helical geardrive product lines. The facility is being used for assembly of planetary drives, helical geardrives and inspection of drives produced in other Chinese manufacturing facilities.

Shanghai Omni Gear was formed in accordance with the Law of the People's Republic of China on Cooperative Joint Ventures, and its activities are governed by all laws, decrees, rules and regulations of the People's Republic of China, including, but not limited to, labor and employment, tax, foreign exchange and insurance laws and regulations. Shanghai Omni Gear is obligated to

Edgar Filing: OMNI USA INC - Form 10KSB

contribute five percent of its after-tax profits per year, up to a maximum of 50% of the registered capital of the Company (or \$1,312,500) to a reserve enterprise development and welfare fund for staff and workers.

The Chinese manufacturer contributed to the Joint Venture the use of land and factory space in its manufacturing complex under a 30-year facilities lease; Omni Resources agreed to contribute an aggregate of \$2,625,000 in working capital, leasehold improvements, machinery and other assets required to establish a fully operational manufacturing facility, and, as of the date hereof, has contributed approximately \$3,270,000 to the Joint Venture. Omni Resources controls Shanghai Omni Gear, as it appoints a majority of Shanghai Omni Gear's Board of Directors and also appoints the General Manager of the Joint Venture. The Chinese manufacturer has a single representative on Shanghai Omni Gear's Board of Directors and does not participate in the profits of Shanghai Omni Gear; its only return from Shanghai Omni Gear being a rental fee from the facilities lease.

2

On October 1, 1996, the Company acquired 100% of the common stock of Butler Products Corporation ("Butler"). Consideration paid to the shareholders of Butler included \$225,000 in cash, \$500,000 in junior subordinated notes. Located in Butler, Kentucky, Butler is a long-standing manufacturer of jack and trailer products typically sold to manufacturers and distributors of heavy-duty trailers.

Commencing July 1, 1997, all towing products designed, developed, manufactured and sold by the Company are marketed under the "Butler" name and associated trademarks; all power transmission products designed, developed, manufactured and sold by the Company are marketed under the "Omni Gear" name and associated trademarks.

On July 16, 1999, Butler acquired the assets of Piecemaker, Inc. ("Piecemaker"), a manufacturer of horse, agricultural and utility trailer components located in Madill, Oklahoma. Subsequent to the Piecemaker acquisition, Butler consolidated its small jack and coupler manufacturing facilities with that of Piecemaker in Madill, OK. During fiscal year 2003, Piecemaker divested itself of approximately \$253,000 in inventory held for resale but not manufactured by Piecemaker.

On June 14, 2001, the Company effected a reduction in the number of authorized shares of common stock and a corresponding one-for-three reverse stock split of its common stock at a special meeting of the Board of Directors. In addition, all holders of options or warrants to purchase future shares of the Company's common stock were reduced on an equal basis of three to one. The par value of the common stock was unchanged. The move was initiated to raise the Company's share price above the \$1.00 minimum level, which would enable Omni's stock to meet the requirements and continue to trade on the NASDAQ SmallCap Market.

On June 7, 2002, June 19, 2002 and September 10, 2002, the Company received notification from NASDAQ that the Company's stock would be removed from the NASDAQ listing as Omni's share price had fallen below the minimum required ask price of \$1.00 per share and as the Company's Minimum Value of Publicly Held Securities had fallen below the minimum of \$1,200,000. As of November 12, 2002 the Company is no longer listed on the NASDAQ exchange and is currently listed and traded on the Over the Counter (OTC) Bulletin Board.

Since the Company began selling power transmission products in 1974, it

Edgar Filing: OMNI USA INC - Form 10KSB

has achieved a number of competitive advantages including:

- (i) Strong customer relationships and a reputation for quality products at a good value;
- (ii) Recognition as the low cost producer in the industry resulting from the Company's extensive Chinese manufacturing capability with Chinese contract manufacturers and with Shanghai Omni Gear;
- (iii) Substantial market penetration in the agricultural implement market with right-angle gear boxes;
- (iv) Reputation for responsive customer service;
- (v) Recognition for design innovation in response to customers needs; and
- (vi) The accumulation of a substantial body of technical and industry specific knowledge.

The Company plans to build on this base of strategic advantages in its attempt to achieve growth in both sales and profits in the power transmission segment. To achieve this objective the Company has developed a growth strategy encompassing the following:

- (i) Expand market share in the planetary and industrial markets for power transmission components;
- (ii) Continued improvement in operating efficiencies in Shanghai Omni Gear;
- (iii) New product innovation and development; and
- (iv) Evaluate new business opportunities, asset acquisitions and potential sales that maximize shareholder value and benefit the Company.

Products

3

OMNI GEAR

Power Transmission Components. Power transmissions (also known as "enclosed geardrives" or "gearboxes") are configurations of gears enclosed in a housing or casing that transfer or transmit power from one point to another. Omni Gear currently distributes a standard product line of over 300,000 gearbox configurations. As a percentage of revenues, Omni Gear's power transmission components are its most significant product, representing 83% and 79% of the Company's revenues in fiscal years 2003 and 2002.

Although Omni Gear distributes power transmissions for numerous applications and purposes, the majority of its sales revenues are derived from sales of power transmission components manufactured for three distinct applications:

Agricultural equipment. Omni Gear distributes power transmissions for tractor powered implements with capacities ranging from 3 to 300 horsepower for use in agricultural equipment, including post hole

Edgar Filing: OMNI USA INC - Form 10KSB

diggers, which are accessories attached to tractors used to dig post holes for fencing and tree planting; rotary cutters, which are large, heavy-duty mowers for use in agriculture and highway right-of-way and recreational area maintenance; grain augers, which convey grain to the top of grain silos; and geardrives for fertilizer spreader and roto-tiller applications.

Irrigation systems. Omni Gear distributes right-angle gearboxes for vertical turbine pumps and electro-mechanical drivetrain components for mechanized irrigation. Omni Gear supplies both helical gear and worm gear primary drive units, some of which are integrated with electric motors, as well as worm gear and planetary gear final drives.

Construction, mobile off-highway, industrial and utility equipment. Omni Gear distributes planetary drive power transmissions for use in construction, mobile off-highway (which includes a wide variety of equipment designed for use in rugged terrain, construction sites, or undeveloped areas), industrial, and utility equipment, such as four-wheel drive forklifts, skid steer loaders, telephone and power cable installation and replacement equipment, road rollers and dirt compactors. Planetary geardrives utilize more complex configurations of gears and are used in applications where transmission of high torque at low speeds is needed. Omni Gear believes that it can expand its share of the market of planetary drives, and Omni Gear's goal of increased production of these products was a primary factor in the Company's decision to establish a manufacturing facility in China.

BUTLER

Trailer and Implement Components. Butler manufactures a wide variety of jacks with capacities ranging from 1,000 lbs. to 220,000 lbs. These jacks are used to level and lift various trailers, agricultural implements and equipment for recreational, utility, construction, agricultural and trucking industries as well as for military applications. Butler's products include heavy-duty implement jacks, spring return jacks, stabilizing jacks and wheel chocks for semi-trailers, a series of high density polyethylene lubricating plates for the trucking industry and a complete line of bumper-pull and gooseneck couplers for trailers with gross weights up to 30,000 lbs. Butler's Oklahoma facility manufactures component parts for horse, livestock and utility trailers. Their products include greaseable gate and hinge sleeves, back gate handles and extensions, roller pin assemblies, spring loaded latches, butt bars and plates, hinge assemblies and roof bows. As a percentage of revenues, trailer and implement component sales represented 17% and 21% of the Company's net sales in fiscal years 2003 and 2002.

New Products. The Company continues to improve its products and expand product application. Currently, the Company is designing gearboxes to expand its agricultural, universal, bevel, irrigation, planetary, commercial turf and mobile utility geardrive product lines and Butler product lines.

Product Manufacturing

Current Manufacturing Arrangements. A majority of the Company's geardrives are assembled incorporating raw materials and components manufactured or produced in China by four manufacturers, some of whom the Company has been doing business with since 1980. The Company believes that these manufacturers can be relied upon to provide a reliable source of quality manufactured goods for the foreseeable future. The Company and certain manufacturers have from time to time memorialized their working relationships in written memoranda. In the Company's experience, business relationships in China are not established and

Edgar Filing: OMNI USA INC - Form 10KSB

are not governed by written agreements of contract, and the Chinese legal system is not

4

sufficiently developed to provide for the enforcement of contracts or remedies to an aggrieved party in the event of a breach of contract. Rather, business in China is conducted primarily upon the basis of personal relationships among the parties, and commercial disputes are resolved almost entirely through negotiation. The Company believes that it has established solid working relationships with these factories. These relationships are and will continue to be critical to the Company's ability to obtain quality manufactured products on acceptable terms.

The Company owns a 35,000 square foot facility in Butler, Kentucky where all jacks from 10,000 lbs. to 220,000 lbs. capacities are manufactured. The light-duty jacks and bumper pull and gooseneck couplers are manufactured in China in accordance with Butler's quality specifications, as are certain components of its coupler line which are assembled at Butler's 20,000 sq. ft. leased facility in Madill, OK.

Availability of Raw Materials and Components. Product components and raw materials are currently purchased from numerous suppliers in the U.S. and China, selected by the Company on the basis of available production capacity, reputation for quality, and relative costs. The Company believes that there are sufficient supplies of raw materials and components in China to meet its needs for the foreseeable future, and the Company's suppliers have generally been able to meet the Company's specifications and schedules. However, in the few instances in which resources of sufficient quality have not been available in China, the Company has generally encountered little difficulty in locating substitutes outside China and importing them for production. Based on the number of potential suppliers in China, the Company does not believe that the loss of any supplier would have a material adverse effect on the Company.

Manufacturing Capacity. At this time, the Company has the ability to expand its Shanghai Omni Gear facility to accommodate customer demand. The contract manufacturers it currently employs possess sufficient excess capacity to meet the Company's production requirements for the foreseeable future. Based on the number of potential manufacturers in China and excess capacity of manufacturers currently used, the Company does not believe that the loss of services of any single manufacturer would have a material adverse effect on the Company.

Distribution, Sales and Marketing

Distribution. The Company distributes its products primarily to original equipment manufacturers and distributors. Customers with limited requirements, and most of the Company's North American customers, typically purchase Omni Gear product from inventories. Omni Resources, including Shanghai Omni Gear, on the other hand, ships parallel shaft and planetary geardrive products, marketed under Omni Gear, directly from the factory to U.S. customers and foreign customers located primarily in Australia, Europe, South America and Japan, or to other customers that purchase entire containers or production runs of Omni Gear products. Butler distributes its products to after-market distributors, trailer OEMs and export brokers. All products are shipped from Butler's manufacturing facility in Butler, Kentucky or from Butler's facility in Madill, Oklahoma. Sales are divided between Omni Gear, Omni Resources, and Butler based on product line, location of the customer and size of the orders, with the majority of the sales to customers in the United States.

Edgar Filing: OMNI USA INC - Form 10KSB

On October 3, 1994, the Company and its subsidiaries signed an exclusive ten-year distribution agreement (the "Distribution Agreement") with the Braden Winch division of PACCAR Inc. ("PACCAR"), an international manufacturer, marketer and distributor of winches and planetary gear drives located in Broken Arrow, Oklahoma. The Distribution Agreement was modified and amended on September 9, 1999. The amendment extended the Distribution Agreement to 2014. Under the terms of the Distribution Agreement, PACCAR will market and distribute throughout the world (except Japan and China) planetary drives, parts and accessories designed and manufactured by the Company. The drives and parts will be marketed by PACCAR under the "Braden" trademark and trade name owned by PACCAR. The Company retained the rights to sell its products in Japan and China, and also retained the right to market its planetary drives under its own name to certain original equipment manufacturers that it now services and to all current and potential pivot irrigation makers or after-market resellers for products designed exclusively for the irrigation market. By agreement dated April 30, 2001, the distribution agreement was modified to allow the Company to distribute planetary drives, parts and accessories designed and manufactured by the Company in the world market. PACCAR may continue to represent the Company on an exclusive customer basis at the Company's option.

5

The Company previously had a long time distribution agreement with Champion Gear. In December 2002, the Company purchased all the assets of Champion Gear, including customer and market information and all rights under the product distribution agreement for \$75,000, forgiveness of notes receivable of \$25,328 and settlement of all claims made by and counterclaims against the Company. The purchase has been recorded in other assets.

Sales. The Company's sales are influenced by a variety of seasonal, economic and climatic factors affecting its customers, many of which are difficult to predict. Since a large proportion of the Company's products are utilized in the agriculture industry, the Company's sales are lower during the fall and winter months while farming and ranching activity is slower. Drought, flooding, commodity prices, government subsidies and U.S. Agricultural Department policies that affect farmers also impact demand for the Company's products. The Company believes that the seasonality in its sales will become less pronounced as it increases its market share in the construction, off-highway and utility equipment markets.

The Company does not currently hold any government contracts, nor does it sell more than an insignificant portion of its products to any governmental agency. Accordingly, none of its contracts and subcontracts or purchase orders are subject to governmental re-negotiation or cancellation.

Marketing. The Company distributes product catalogs to prospects, as well as soliciting sales directly from new customers. From time to time, the Company has also acquired customer lists which it uses as a basis for solicitation of new customers, as well as solicited sales by manufacturer's representatives, distributors, direct marketing and trade shows. Sales to new customers are rarely an effort by a salesperson alone and Company engineers are often required to consult with prospective customers, assist in identifying, designing and developing products that fulfill a new customer's particular requirements. After a sale is made, Company engineers continue to consult with the customer on product improvements and modifications. Power transmissions are usually manufactured according to a customer's specific applications and specification. Because incorporating a power transmission manufactured by a different supplier may require changes in product design or expensive retooling,

Edgar Filing: OMNI USA INC - Form 10KSB

customers often do not replace a current supplier's product with a standard product of another manufacturer and therefore do not frequently change suppliers of power transmissions. Accordingly, while the Company regularly solicits additional sales from new customers, a large portion of its sales are made to existing customers with minimal marketing effort.

Inventories, Firm Orders and Backlogs. The Company maintains approximately \$1,755,000 in inventory at the Houston, Texas facility, approximately \$223,000 at the Butler, Kentucky facility, approximately \$730,000 at the Madill, Oklahoma facility, approximately \$828,000 at the Shanghai, China facility, approximately \$126,000 in Brazil and approximately \$352,000 in transit. Additionally, the Company has access to inventory located in bonded warehouses and vendor facilities. The Company forecasts sales 12 months in advance and maintains a three month rolling production schedule, which permits the Company to maintain sufficient inventories to meet projected requirements of its customers yet avoids excessive investments in inventory. The Company expects that current inventory and production levels in the next fiscal year will adequately supply product to fulfill the Company's backlog of orders.

As of June 30, 2003, the Company's backlog was approximately \$6,773,000. The Company determines the amount of backlog by estimating purchases to be made by established customers with blanket purchase orders with the Company. Average delivery time for the Company's power transmission equipment varies depending upon the product. The Company can often fill and ship an order from inventory in twenty-four hours; orders for products that require minimal modification to an existing product can often be shipped in a few days; and custom products requiring extensive design and retooling for production can require a six month production schedule. The Company believes that virtually its entire backlog is shippable in the next fiscal year.

Competition. The power transmission market is supplied by numerous American and foreign manufacturers, ranging from conglomerates that distribute broad product lines to customers around the world, to small manufacturers that produce a limited number of products for specific applications to limited markets. Accordingly, the market for power transmissions is difficult to define. The Company identifies its competition according to power transmission and trailer and implement components.

6

Power Transmission Components. In sales of power transmissions for 1) rotary cutter, 2) tractor-powered implement and 3) universal geardrive product lines, Omni Gear competes with a number of U.S. and foreign companies, including Comer S.p.A. and Bondioli & Pavesi, each of which are Italian companies, and Curtis Machine, Inc., Superior Gearbox Mfg., Inc., Hub City and Durst (both divisions of Regal-Beloit Corporation), and ITG, all of which are American companies, together with geardrives which are self-produced by certain OEM's. Published statistics of the size of the market are not readily available.

In sales of the irrigation geardrive market, Omni Gear's most significant competitors in the marketplace are Durst and Ohio Gear (both divisions of Regal-Beloit Corporation), U.S. Motors (a division of Emerson Electric), and Universal Motion Components, together with irrigation geardrives which are self-produced by certain OEM's.

The Company estimates that the North American market for planetary gearboxes with torque capacities up to 120,000 lbs. that Omni Gear can currently supply is approximately \$150,000,000 in sales per year, and that this market is currently dominated by Auburn Gear, Fairfield Manufacturing and Eskridge

Edgar Filing: OMNI USA INC - Form 10KSB

Manufacturing, all American companies. Other companies which supply planetary geardrives in these rated torque capacities as a part of their overall planetary products include Gear Products (a division of Blount), DP Manufacturing, Tulsa Winch (a division of Dover), all American companies, and Brevini, Bosch Rexroth AG, KYB, Carraro, Regiana & Riddutori, Teijin Seiki, and Trasmital Bonfiglioli, all foreign companies. Omni Gear believes that it can increase its share in this market in the future in spite of weak demand for construction and off-highway equipment by providing quality product at reduced prices.

Trailer and Implement Components. In sales of Butler light duty product lines, Butler competes with a number of U.S. and foreign companies, including Atwood, Fulton and Hammerblow. Butler's heavy-duty product lines compete with a number of U.S. and foreign companies, including Kaiser Austin Westran, Jost, Holland/Binkley, and Sudisa.

The Company's most important competitive advantage is its competitive pricing afforded by inexpensive Chinese labor and manufacturing costs. The Company believes that it is competitive in its industry with respect to warranty and return matters, payment terms, and product quality.

Other

Employment. The Company currently employs approximately one hundred ninety-four persons worldwide; (i) one hundred forty-four by Shanghai Omni Gear, (ii) eighteen at the Company's Houston, Texas facility, (iii) twenty-three at the Company's facilities in Butler, Kentucky, and (iv) nine at the Company's facility in Madill, OK. Fifteen of Butler's thirty-two employees are unionized. No other Company employees are unionized or attempting to unionize. Management believes its relations with its employees, union and non-union, are good.

Research and Development. The Company currently employs two full-time engineers who design products to meet new customer specification or applications and to make refinements in product manufacturing processes and product quality. Research and development expenses, unless otherwise specified, are reflected in the Company's financial statements as part of operating expenses.

Intangible Properties. The Company manufactures, advertises and sells its products under numerous trademarks. Omni(R), Omni USA(R), Omni Gear(R), and Butler(TM) trademarks are the primary marks under which the Company's products are sold. The Company also owns other trademarks under which gearbox products are sold such as RC-20(R), RC-30(R), RC-51(R), RC-61(R), RC-61T(R), RC-65T(R), RC-71(R), RC-81(R), RC-91(R), RC-110(R), RCD-101(R), PHD-26HD(R), PHD-50A(R), PHD-75(R), IR-15(R), IR-50(R), OFD-50(R), RC-130(TM), RC-25(TM), Irri-Torq(TM), Voyager(R), Galaxy(TM), Enforcer(TM), Enforcer II(TM), Slick Disc(TM), and Slider(R). Management believes that the Company's trademarks are well known in its markets, are valuable and that their value is increasing with the development of its business. The Company is not dependent on any one such trademark. The Company vigorously protects its trademarks against infringement. The Company has registered its trademarks in the appropriate jurisdictions.

Environmental Matters. The Company is not a party to any legal or regulatory proceedings seeking to impose liability or responsibility for any environmental damages or violations of any environmental laws or regulations, nor is it aware of any circumstances in which its activities in China or in the United States have created any basis for any environmental liability or responsibility for damages.

Edgar Filing: OMNI USA INC - Form 10KSB

Government Regulation. The Company is not subject to governmental regulations other than those that typically apply to businesses importing foreign manufactured goods into the United States and other countries, such as customs laws and regulations. The Joint Venture is subject to certain Chinese laws and regulations governing labor and employment, taxation, insurance, foreign exchange, and other business matters, but the Company does not regard these laws and regulations as significantly different in form or effect as those that apply to the Company generally.

8

ITEM 2. DESCRIPTION OF PROPERTY

The Company currently leases facilities located in Houston, Texas; Madill, Oklahoma; and China, and owns a 35,000 square foot manufacturing facility in Butler, Kentucky.

The Houston facility is a combination office/warehouse facility of approximately 40,000 square feet, which the Company uses as its headquarters and as an Omni Gear assembly center, inventory warehouse, warranty repair, quality control, testing and inspection, and distribution center. The Houston facility is leased from Phenix Investment Company, a real estate investment company located in Houston, Texas under a long-term lease expiring July 2005, at a rate of \$8,500 per month.

Butler owns a 35,000 sq. ft. manufacturing facility in Butler, Kentucky and leases a combination office/warehouse of approximately 20,000 sq. ft. in Madill, Oklahoma under a long-term lease expiring July 2004, at a rate of \$5,700 per month, less \$1,425 for a sublease of 6,000 sq.ft.

Shanghai Omni Gear leases buildings in a manufacturing complex containing approximately 130,000 square feet pursuant to a 30-year lease at a rate of approximately \$10,000 per month. The existing space is sufficient for the activities currently conducted there; however, Shanghai Omni Gear has the ability to acquire additional space in the complex if needed to expand future operations.

The Company believes that its facilities are adequate for its needs in the foreseeable future. In the event that any of the facilities became unavailable for use by the Company for any reason, the Company believes that alternative facilities are available on terms and conditions acceptable to the Company.

ITEM 3. LEGAL PROCEEDINGS

The Company, from time to time, is a party to various legal proceedings that constitute ordinary routine litigation incidental to the Company's business. In the opinion of management, all such matters are either adequately covered by insurance or are not expected to have a material adverse effect on the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the security holders of the Company during the quarter or fiscal year ended June 30, 2003.

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's Common Stock trades on the NASDAQ Over-The-Counter tier of the NASDAQ Stock Market under the symbol "OUSA".

The following table sets forth in the periods indicated the range of low and high sales prices per share of the Company's Common Stock traded as reported by the NASDAQ Stock Market (amounts have been restated to account for the reverse stock split):

Quarter Ending -----	Low ---	High ----
06/30/01	0.84	1.98
09/30/01	1.00	1.73
12/31/01	0.78	1.12
03/31/02	0.75	0.97
06/30/02	0.86	1.16
09/30/02	0.55	1.20
12/31/02	0.25	1.05
03/31/03	0.25	0.35
06/30/03	0.35	1.01

On September 10, 2002, the Company received notification from NASDAQ that the Company's stock would be removed from the NASDAQ listing as Omni's share price had fallen below the minimum required ask price of \$1.00 per share and as the Company's Minimum Value of Publicly Held Securities had fallen below the minimum of \$1,000,000. On September 10, 2002, The Board of Directors approved a stock repurchase plan to repurchase up to 500,000 shares of Omni stock in efforts to improve its stock price in response to the notification received from NASDAQ noted above and in consideration that the Company's common stock represents an unusual value given the Company's overall business and value. In fiscal year 2003, the Company repurchased 36,100 shares of Omni stock.

As of September 22, 2003, the closing price of the Company's Common Stock was \$1.70 per share. As of June 30, 2003, there were approximately 550 holders of record of the Company's Common Stock.

The Company has never paid cash dividends on its Common Stock. As a result of net losses in prior fiscal years, the Company has a cumulative retained deficit of \$2,391,717 as of June 30, 2003; accordingly, the Company may be prohibited by legal restrictions on capital from paying cash dividends for the foreseeable future. In addition, the Company's revolving line of credit facility prohibits the payment of dividends. While any determination as to the payment of cash dividends will depend upon the Company's earnings, general

Edgar Filing: OMNI USA INC - Form 10KSB

financial condition, capital needs, and other factors, the Company presently intends to retain any earnings to finance working capital needs and expand its business, and therefore does not expect to pay cash dividends in the foreseeable future.

10

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Liquidity and Capital Resources

The Company's primary capital requirements are for routine working capital needs that are generally met through a combination of internally generated funds, revolving line of credit facilities and credit terms from suppliers. The Company's line of credit facilities had an outstanding balance of \$2,740,030 at June 30, 2003. The Company had working capital of \$2,108,437 as of June 30, 2003 and \$1,632,585 as of June 30, 2002; an increase of \$475,852 during the fiscal year ended June 30, 2003. The change in working capital was due primarily to increases in accounts receivable and decreases in accounts payable and borrowings on the Company's lines of credit and current notes payable, which were offset by decreases in inventory and increases in accrued expenses in the fiscal year ended June 30, 2003.

The Company's had negative cash flow of \$112,314 which resulted in a cash balance of \$709,230 at the year ended June 30, 2003, compared to the June 30, 2002 cash balance of \$821,544. The negative cash flow was generated by increases in payments to the line of credit and notes payable.

The inventory balance as of June 30, 2003 was \$4,014,108; a decrease of \$154,418 compared to the June 30, 2002 inventory of \$4,168,526. Inventories have decreased from the prior year end in due to Piecemaker selling approximately \$253,000 in inventory held for resale but not manufactured by Piecemaker.

The Company's cash used in investing activities for the year ended June 30, 2003 of \$(355,792) consisted primarily of capital expenditures for fixed assets and the acquisition of other assets from Champion Gear, compared to \$50,956 for the year ended June 30, 2002. This increase is mostly attributed to Shanghai Omni Gear's need to increase manufacturing capacity to keep production parallel with our customers' demands. The Company believes that its present facilities and planned capital expenditures are sufficient to provide adequate capacity for operations in the next fiscal year.

Net cash used from financing activities for the year ended June 30, 2003 of (\$659,275) consisted of net payments on the revolving line of credit of \$110,240, payments on long-term debt of \$506,105 and purchases of treasury stock of \$42,930.

The Company's current ratio was 1.31 as of June 30, 2003, which is an 7% increase when compared to the June 30, 2002 current ratio of 1.23.

The Company believes that between its access to the line of credit facilities and its anticipated ability to generate funds internally, it has adequate capital resources to meet its working capital requirements for the next fiscal year, given its current working capital requirements, known obligations, and assuming current levels of operations. If however, operations do not remain at current levels and the Company is unable to access or renew its line of credit facilities or service its long term debt facilities, the Company will be required to reduce its operations accordingly which may have a negative impact on the Company to meet the needs of it customers, suppliers and credit

Edgar Filing: OMNI USA INC - Form 10KSB

providers. In addition, the Company believes that it has the ability to raise additional financing in the form of debt to fund additional capital expenditures, if required.

Results of Operations

Fiscal year ended June 30, 2003, compared to fiscal year ended June 30, 2002. The Company's business is cyclical and dependent on industrial spending levels and is impacted by the strength of the economy and other factors. The Company had net sales of \$19,963,387 for the year ended June 30, 2003. This represents an increase of 11% compared to the year ended June 30, 2002 net sales of \$18,051,928. The following table indicates the Company's net sales comparison and percentage of change for the years ended June 30, 2003 and 2002:

NET SALES	YEAR ENDED 6/30/03	% OF TOTAL	YEAR ENDED 6/30/02	% OF TOTAL
Power Transmission Components	\$ 16,530,045	83%	\$14,236,785	79%
Trailer and Implement Components	3,433,342	17%	3,815,143	21%
Consolidated	\$ 19,963,387	100%	\$18,051,928	100%

The increase was primarily due to increased sales volume from new customers.

Gross profit for the year ended June 30, 2003 increased \$1,101,360 to \$4,432,942, compared to gross profit for the year ended June 30, 2002 of \$3,331,582. The increase in gross profit is due primarily to the increase in sales. Gross profit as a percentage of net sales was 22% for the year ended June 30, 2003, compared with 18% for the year ended June 30, 2002. This change in gross margin percentage is primarily attributable to improved product mix of sales for the year with higher margins and bulk purchase pricing incentives providing decreasing costs.

Selling, general and administrative expenses increased \$505,913 to \$3,981,376 in the year ended June 30, 2003 from \$3,475,463 in the year ended June 30, 2002. Selling, general and administrative expenses as a percentage of sales were 19% for both years ended June 30, 2003 and 2002. The increases in selling, general and administrative expenses are due to increased sales..

Income (loss) from operations for the Company increased \$595,447 to \$451,566 for the year ended June 30, 2003, compared to (\$143,881) for the year ended June 30, 2002. This increase is primarily the result of increased sales volumes in the year ended June 30, 2003.

Interest expense increased \$27,017, to \$420,027 for the year ended June 30, 2003 from \$393,010 for the year ended June 30, 2002. The increase resulted from increased borrowings occurring within the year which was partially offset by declining interest rates and favorable terms on new and refinanced debt.

Other income (expense) was income of \$363,921 for the year ended June

Edgar Filing: OMNI USA INC - Form 10KSB

30, 2003 compared to an income of \$69,009 for the year ended June 30, 2002. The change was mostly attributable to the VAT refund in the Shanghai manufacturing facility.

The Company's net income increased \$824,873 to \$364,153, or \$0.31 per share, for the year ended June 30, 2003 compared to (\$460,720), or (\$0.38) per share, for the year ended June 30, 2002.

INDEPENDENT AUDITOR'S REPORT

To the Stockholders and
Board of Directors of
Omni U.S.A., Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Omni U.S.A., Inc. and Subsidiaries as of June 30, 2003 and 2002, and the related consolidated statements of operations and comprehensive loss, changes in stockholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Omni U.S.A., Inc. and Subsidiaries at June 30, 2003 and 2002, and the results of their operations and their cash flows for the years then ended, in conformity with generally accepted accounting principles in the United States.

NOTE 1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - Omni U.S.A., Inc. (the Company) is incorporated in the state of Nevada. The Company's consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries Omni U.S.A., Inc. (a Washington Company), Omni Resources, Ltd. (a Hong Kong Corporation), Butler Products Corporation (a Kentucky Corporation) and Omni Gear de Brazil (a Brazilian Company). The financial statements of Omni Resources, Ltd. include the activity of its wholly-owned subsidiary, Shanghai Omni Gear Co., Ltd. located in Shanghai, China. All material inter-company transactions and balances have

Edgar Filing: OMNI USA INC - Form 10KSB

been eliminated in consolidation.

Organization and Business - The Company designs, develops, manufactures and distributes power transmission components and trailer and implement components, used primarily for agricultural, material handling, mobile off-highway and industrial purposes, to original equipment manufacturers and distributors worldwide. The Company's manufacturing and distribution system involves locating qualified domestic or foreign manufacturers of products, (in the case of contract manufacturing) contracting with such manufacturers, and distribution to an ultimate third party customer. The Company also self-produces products using both domestic and foreign components. Since 1986, the Company's power transmission products have been manufactured primarily in China and approximately 70% of the Company's towing products are manufactured in the United States. In 2002, the Company formed Omni Gear de Brazil to distribute its products in Brazil and South America. Currently, its operations have been minimal and limited to sales to primarily one customer.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition - The Company adopted The Securities and Exchange Commission Staff Accounting Bulletin (SAB) 101 in the fourth quarter of the fiscal year ended June 30, 2001 and the Company's revenue recognition policies are in compliance with SAB 101. The Company's acceptance provisions, as some products are manufactured to customer specifications, are that customers must approve engineered drawings in advance, place a firm purchase order with the Company for manufacture of the products and initially approve a representative sample prior to manufacture. Costs of shipping and handling for the Company are generally accounted for as a component of cost of sales with revenues recorded gross. The Company recognizes revenues upon shipment to the customer.

Warranties - The Company's policy for warranties stipulates that Omni Gear's products and Butler Products' products are warranted to be free of defects in material and workmanship and to meet Omni Gear's and Butler Products' specifications at the time of sale. The Company accounts for warranties by accruing a liability for warranty provision based on the Company's historical analysis of warranty costs. To date, however, actual return rates have been very low and incremental costs associated with those returns have been historically immaterial to the Company. The Company has a policy for sales returns, whereby the customer may apply for and be granted the right to return product for warranty consideration. Once returned, the product is inspected for warranty qualification and, if granted, warranty work is performed and the product generally returned to the customer.

Edgar Filing: OMNI USA INC - Form 10KSB

NOTE 1

BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentration of Credit Risk - Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of trade receivables and cash. The Company places its cash with high credit quality financial institutions. Cash in financial institutions located abroad totaled \$560,493 and \$130,548 in 2003 and 2002, respectively.

Trade accounts receivable consist of receivables from both domestic and foreign customers in various industries and geographic regions worldwide, with more than one half of consolidated sales being to customers in the Southern and Central United States. Generally, no collateral or other security is required to support customer receivables. An allowance for doubtful accounts is established as needed based upon factors surrounding the credit risk of specific customers, historical trends and other information.

As of June 30, 2003, one customer accounted for 28% of consolidated receivables. As of June 30, 2002 one customer accounted for 19% of consolidated receivables.

Notes receivable result from sales made with extended credit terms and are payable in monthly installments and carry interest.

The Company has inventory located in China of approximately \$827,846 and \$615,680 at June 30, 2003 and 2002, respectively and Brazil of approximately \$125,831 at June 30, 2003.

Inventories - Inventories are stated at the lower of cost or market using the weighted average cost for inventories on hand and the specific identification method for any other inventory. The Company records inventory and any related obligation at the time title to the goods passes to the Company based on the specific terms of the transaction.

Property, Equipment, Depreciation and Amortization - Property and equipment are stated at cost. Depreciation and amortization are computed over the estimated useful lives of the assets using the straight-line method for financial reporting purposes as follows:

	Estimated useful lives (years) -----
Warehouse, manufacturing and office equipment	3 to 10
Leasehold improvements	5 to 10
Tooling costs	5 to 10

The costs of repairs and maintenance are charged to operations when incurred. Major renewals or improvements are capitalized. When properties are sold or retired, the cost and related accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is included in the results of operations.

NOTE 1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible Assets and Organizational Costs - Intangible assets consist of goodwill from the Butler Products acquisition, engineering plans, designs, trademarks and patents. Amortization is provided on a straight-line basis over five to fifteen year periods. The Company adopted SFAS No. 142 effective July 1, 2001. At June 30, 2003 and 2002, the Company had \$168,000 in intangible goodwill that will no longer be amortized under this statement. Management believes that there is no impairment to goodwill at June 30, 2003 and 2002.

Foreign Currency Translation - There are significant operations in Mainland China and some operations in Brazil; however, the functional exchange rate for those operations is the U.S. dollar. The foreign currency translation adjustment primarily arises from the translation of amounts from operations in Hong Kong in which the functional currency is that of the foreign location. Income and expense amounts are translated at the average rates of exchange for the periods. These translation adjustments are reported separately as a component of stockholders' equity. Current year changes are included in comprehensive income.

Earnings Per Share - Basic earnings per share (EPS) is computed by dividing consolidated net income available to common shareholders by the weighted-average number of common shares outstanding for the year. Diluted EPS reflects the potential dilution that could occur if dilutive securities and other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the consolidated net income of the Company.

Fair Value of Financial Instruments - The fair values of financial instruments approximate their reported carrying amounts at June 30, 2003 and 2002 due to their relative short lives for current assets and liabilities and long-term liabilities are at interest rates comparable to current market rates. As of June 30, 2003 and 2002, the Company does not have any derivatives and has experienced no impact from adoption of SFAS No. 133.

Other income - Other income includes value added tax subsidies received from the Chinese government for export sales outside of China as well as income received from sales of scrap inventory and gains and losses on the sales of assets.

New Accounting Pronouncements -

In June 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 146 (SFAS 146), Accounting for Costs Associated with Exit or Disposal Activities. This statement addresses financial accounting and reporting for costs and recognition of liabilities associated with exit or disposal activities. This statement is effective for exit or disposal activities initiated after December 31, 2002. For an exit activity initiated under an exit plan prior to the initial application of SFAS 146, prior generally accepted accounting

Edgar Filing: OMNI USA INC - Form 10KSB

principles continue to apply. The adoption of SFAS 146 did not have a material impact on the consolidated financial statements.

In November 2002, the FASB issued Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. This interpretation clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and initial measurement provisions of this Interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The disclosure requirements in this Interpretation are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of this interpretation did not have a material impact on the consolidated financial statements.

22

NOTE 1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148 (SFAS 148), Accounting for Stock-Based Compensation - Transition and Disclosure, an amendment of FASB Statement No. 123, to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of FASB Statement No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company anticipates no material impact on the consolidated financials from adoption of SFAS 148.

In May 2003, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" (SFAS 150). This Statement prescribes how an issuer classifies and measures certain financial instruments. Financial instruments within the scope of SFAS 150 are required to be classified as liabilities (or assets in some circumstances). Many of those instruments were previously classified as equity. SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective for the Company July 1, 2003. There was no impact to the Company from adopting SFAS 150.

NOTE 2 ACQUISITIONS AND DISPOSITIONS OF ASSETS

The Company previously had a long time distribution agreement with Champion Gear. In December 2002, the Company purchased all the assets of Champion Gear, including customer and market information and all rights under the product distribution agreement for \$75,000, forgiveness of notes receivable of \$25,328 and settlement of all claims made by and counterclaims against the Company. The purchase has been recorded in other assets.

NOTE 7 REVOLVING LINES OF CREDIT

The Company has a revolving line of credit with a financing company which provides for maximum borrowings of \$4,000,000 as determined by a formula based on trade accounts receivable and inventory. The line of credit matures June 2003, bears interest at prime plus 1%-2% depending upon certain financial ratios, requires the maintenance of certain levels of income and tangible net worth and is secured by essentially all of the U.S. assets of the Company. The Company has signed a letter of intent with a domestic bank to refinance the outstanding domestic line of credit and anticipates comparable terms. Outstanding borrowings amounted to \$2,515,461 and \$2,662,945 at June 30, 2003 and June 30, 2002, respectively. At June 30, 2002, the Company was not in compliance with the required minimum nine months earnings requirement. At June 30, 2003, the Company was in compliance with its minimum financial reporting covenants.

The Company also maintains a line of credit with a foreign financial institution which provides for maximum borrowings of \$750,000 based on the creditworthiness of the Company's customers serviced by the Company's foreign subsidiary. Outstanding borrowings amounted to \$224,569 and \$187,325 at June 30, 2003 and June 30, 2002, respectively. The line of credit matures November 30, 2003 and bears interest at 5.625%.

At June 30, 2003, the Company had issued 1,227,079 shares with 1,171,812 shares outstanding and 55,267 treasury shares. In September and November 2002, The Company repurchased 8,500 and 27,600 shares of stock, respectively, for a total of 36,100 shares of stock. The Company has never paid cash dividends on its Common Stock. As a result of net losses in the prior fiscal years, the Company has a cumulative retained deficit of \$2,391,717 as of June 30, 2003; accordingly, the Company may be prohibited by legal restrictions on capital from paying cash dividends for the foreseeable future. In addition, the Company's revolving line of credit facility prohibits the payment of dividends.

On June 7, 2002, June 19, 2002 and September 10, 2002, the Company received notification from NASDAQ that the Company's stock would be removed from the NASDAQ listing as Omni's share price had fallen below the minimum required ask price of \$1.00 per share and as the Company's Minimum Value of Publicly Held Securities had fallen below the minimum of \$1,200,000. As of November 12, 2002 the Company is no longer listed on the NASDAQ exchange and is currently listed and traded on the Over the Counter (OTC) Bulletin Board.

NOTE 10 WARRANTS TO PURCHASE COMMON STOCK

The Company has Class B Warrants that entitle the holder to purchase shares of common stock as follows:

	Expiration Date	Per Pri
	-----	---
Class B Series 2 (PACCAR, Inc.)	July 1, 2009	6.

On September 23, 1999, the Company entered into a \$1,000,000 loan agreement with PACCAR Inc. (PACCAR). Under the terms of the loan, PACCAR received 166,667 warrants to purchase shares of the Company's common stock. The warrants may be exercised through July 2009 at \$6.00 per share. The warrants to purchase stock may be reduced to 116,667 upon the occurrence of certain subsequent events.

NOTE 11 STOCK OPTION PLANS

The Company maintains a Non-Qualified Stock Option Plan (the "NQSOP") and a 1996 Incentive Stock Option Plan (the "1996 ISOP"). The NQSOP covers 200,000 shares of Common Stock and the 1996 ISOP covers 300,000 shares of Common Stock. The purpose of the NQSOP and 1996 ISOP, under the discretion of the Company's Board of Directors, is to offer eligible employees of the Company and its

Edgar Filing: OMNI USA INC - Form 10KSB

subsidiaries an opportunity to acquire or increase their proprietary interests in the Company and provide additional incentive to contribute to its performance and growth.

The Board of Directors has reserved 500,000 shares under the Plans.

SFAS No. 123 and 148, "Accounting for Stock-Based Compensation," encourages, but does not require, companies to record compensation costs for stock-based employee compensation plans at fair value. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related Interpretations. Accordingly, compensation costs for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee must pay to acquire the stock. No options were granted in the fiscal years ended June 30, 2003 and 2002 and there was no effect to the income statement under SFAS 123 and 148.

INCOME TAXES

Income tax (expense) benefit is comprised of the following:

	2003	
	-----	-----
Current -state	\$ -	\$
Deferred - Current	(40,393)	
Deferred - Long-term	-	
	-----	-----
	\$ (40,393)	\$
	=====	=====

Deferred income taxes result from timing differences in reporting income and expenses for financial statement and income tax purposes. The primary sources of deferred income taxes result from: (1) the use of different methods of depreciation for income tax and financial statement purposes, (2) the uniform capitalization of inventory for income tax purposes, (3) inventory obsolescence reserves, (4) direct write-off of bad debts for income tax purposes and (5) foreign losses.

Edgar Filing: OMNI USA INC - Form 10KSB

NOTE 13

INCOME TAXES (continued)

The components of the Company's deferred tax assets and liabilities at June 30 are as follows:

	2003
Current deferred tax assets:	
Accounts receivable	\$ 71,000
Inventory	60,000
Domestic net operating loss carry-forwards	144,000
Foreign subsidiary net operating loss carry-forwards	528,000
	803,000
Deferred tax assets	803,000
Non-current deferred tax liabilities:	
Depreciation	(77,000)
	726,000
Net deferred income tax assets	726,000
Valuation allowance	(726,000)
	-
Net deferred income taxes	\$ -

The valuation allowance decreased \$30,107 and increased \$148,000 during 2003 and 2002, respectively due to losses. At June 30, 2003 the Company had \$423,000 of domestic net operating losses, which expire in 2022.

The Company has not provided for income taxes on the undistributed earnings of its foreign subsidiaries because it intends to reinvest these earnings in the continuing operations of these subsidiaries. In determining the value of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. Management considers the scheduled reversals of deferred tax assets and liabilities, projected future taxable income, if any, and the tax planning strategies in determining this value. Management does not believe it is more likely than not that the Company will realize the benefits of its deferred tax assets, net of existing valuation allowances at June 30, 2003. The cumulative amount of undistributed losses of its foreign subsidiaries is approximately \$1,500,000 at June 30, 2003.

The difference between the effective rate of income tax expense at June 30, 2003 and 2002 and the amounts which would be determined by applying the statutory U.S. income tax rate of 34% to income before income tax expense, are explained below according to the tax implications of various items of income or expense.

Total	\$3,190,192
	=====

Rent expense was approximately \$303,400 and \$252,600 during the years ended June 30, 2003 and 2002, respectively.

Insurance Coverage - The Company is self-insured against product liability and completed operations. This situation, while not unique to the Company or its industry, may subject the Company to some future liability. The Company maintains in force and effect, product liability insurance for the trailer and implement segment, with coverage up to \$1,000,000 per occurrence and in aggregate, as well as completed operations insurance held by Butler Products Corporation at the time of acquisition.

Employment - Forty-seven percent of one of the subsidiary's employees, (specifically, fifteen of thirty-two Butler employees) are unionized and are covered by a collective bargaining agreement. The collective bargaining agreement expires June 13, 2005.

Employee Benefits - The Company maintains a 401(k) plan, which covers substantially all employees. Contributions by the Company are discretionary. During the years ended June 30, 2003 and 2002, the Company made no contributions to the plan.

Letters of Credit - The Company has \$250,000 in unused letters of credit outstanding at both June 30, 2003 and 2002.

Litigation - The Company continues to aggressively protect its

Edgar Filing: OMNI USA INC - Form 10KSB

trademarks. From time to time the Company files suit to enforce its trademark and other intellectual property. Historically, the Company has been successful in preventing others from using Omni's trademarks or trade dress or in seeking other relief.

30

NOTE 15 MAJOR CUSTOMERS AND SUPPLIERS

The Company and its subsidiaries had consolidated sales in its power transmission component segment of \$4,622,482 and \$3,783,000 to one customer representing 22% and 21% of total consolidated sales in fiscal 2003 and 2002, respectively.

Approximately 65% and 57% of the Company's inventory purchases were from two companies in China in 2003 and 2002, respectively.

NOTE 16 SUPPLEMENTAL CASH FLOW INFORMATION AND NONCASH INVESTING AND FINANCING ACTIVITIES

The Company converted \$466,000 in accounts payable into notes payable and acquired \$33,000 in automobiles through direct financing in 2003.

Due to net operating losses and net operating loss carryforwards, the Company was not required to pay any income taxes in 2003 and 2002.

The Company paid interest of \$401,230 and \$464,146 during the fiscal years ended June 30, 2003 and 2002 respectively.

No other executive officer's salary or bonus exceeded \$100,000 for the three most recent fiscal years ended June 30, 2003.

None of the executive officers are employed by the Company pursuant to any employment contract or other agreement, and there are no arrangements or understandings for the payment of bonuses or other payments upon a termination of employment, or otherwise.

STOCK OPTION PLANS AND STOCK OPTIONS

The Company maintains a 1994 Non-Qualified Stock Option Plan (the "1994 NQSOP") and a 1996 Incentive Stock Option Plan (the "1996 ISOP"). The NQSOP covers 200,000 shares of Common Stock and the 1996 ISOP covers 300,000 shares of Common Stock. The purpose of the NQSOP and 1996 ISOP, under the discretion of the Company's Board of Directors, is to offer eligible employees of the Company and its subsidiaries an opportunity to acquire or increase their proprietary interests in the Company and provide additional incentive to contribute to its performance and growth.

On June 6, 1997, the Board, upon recommendation from the Compensation Committee, repriced all options granted and existing to current Company employees under the 1996 ISOP and NQSOP from \$12.00 per share to \$3.00 per share. The repriced options vest 50% twelve (12) months from date of grant and 50% twenty-four (24) months from date of grant.

On June 6, 1997, the Board, upon recommendation of the Compensation Committee, granted options to purchase 45,333 shares of Common Stock at \$3.00 per share to each Jeffrey K. Daniel and Craig L Daniel, and granted options to purchase 22,667 shares of Common Stock at \$3.00 per share to Michael A. Zahorik, all such options to vest three (3) years from date of grant.

On January 25, 1999, the Board, under the NQSOP, granted 3,333 options to purchase Company Common Stock at \$4.875 per share to James L. Davis, John F.

Edgar Filing: OMNI USA INC - Form 10KSB

Lillicrop, and W. Wayne Patterson. All director options were immediately vested.

On January 3, 2000, the Board, under the NQSOP, granted 3,333 options to purchase Company Common Stock at \$3.564 per share to James L. Davis, John F. Lillicrop, and W. Wayne Patterson. All director options were immediately vested.

On March 8, 1999, under the 1996 ISOP, David M. Sallean was granted options to purchase 10,000 shares of Common Stock at an exercise price of \$3.564, vesting 100% three (3) years from date of grant.

On February 24, 2000, under the 1996 ISOP, David M. Sallean was granted options to purchase 10,000 shares of Common Stock at an exercise price of \$3.1875, vesting 100% three (3) years from date of grant.

Effective October 1, 2001, Michael A. Zahorik was terminated as an employee of Omni USA, Inc. By operation of the ISOP Agreement, Mr. Zahorik's options were not exercised, and accordingly all 46,000 options were cancelled.

Effective October 24, 2001, David M. Sallean was terminated as an employee of Omni USA, Inc. By operation of the ISOP Agreement, Mr. Sallean's options were not exercised, and accordingly all 20,000 options were cancelled.

35

The following table provides repricing information for options held by the Company's five most highly compensated executive officers. The repricing was implemented in 1997 on the recommendation of the Compensation Committee to conform the options to prevailing market prices and provide an incentive for which the options were designed.
