HANMI FINANCIAL CORPORATION

**UNAUDITED PRO FORMA CONDENSED COMBINED
FINANCIAL STATEMENTS**

On April 30, 2004, Hanmi completed its merger with Pacific Union Bank (PUB), and Hanmi and PUB combined operations.

The following unaudited pro forma condensed combined financial statements reflect the effects of the merger on the historical financial position and results of operations of Hanmi and PUB. The unaudited pro forma condensed combined statement of income combines the historical consolidated financial statements of Hanmi and PUB, giving effect to the merger as if it had occurred on January 1, 2003. The unaudited pro forma condensed combined balance sheet combines the historical consolidated balance sheets of Hanmi and PUB, giving effect to the merger as if it had occurred on December 31, 2003. We have adjusted the historical financial information to give effect to pro forma events that are directly attributable to the merger, factually supportable, and, with respect to the statement of income, expected to have a continuing effect on combined results. This information has been prepared from, and should be read in conjunction with:

the accompanying Notes to the Unaudited Pro Forma Condensed Combined Financial Statements;

the separate historical financial statements of Hanmi as of and for the year ended December 31, 2003 included in Hanmi's Annual Report on Form 10-K for the year ended December 31, 2003; and

the separate historical financial statements of PUB as of and for the year ended December 31, 2003 included in PUB's Annual Report on Form 10-K for the year ended December 31, 2003.

The unaudited pro forma condensed combined financial statements included in this document are presented for informational purposes only and are not a measure of performance calculated in accordance with generally accepted accounting principles. This information includes various estimates and may not necessarily be indicative of the financial condition or results of operations that would have occurred if the merger had been completed on the date or at the beginning of the period indicated or which may be obtained in the future.

We anticipate that the merger will provide the combined company with financial benefits that include reduced operating expenses. The unaudited pro forma condensed combined financial statements, while helpful in illustrating the financial characteristics of the combined company under one set of assumptions, do not reflect the benefits of expected cost savings or opportunities to earn additional revenue, nor do they reflect business integration costs which Hanmi expects to incur, and, accordingly, do not attempt to predict or suggest future results.

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

Note 1 Basis of Presentation

The merger will be accounted for using the purchase method of accounting.

Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*, requires use of the purchase method of accounting for business combinations. SFAS No. 142, *Goodwill and Other Intangible Assets* establishes standards for goodwill acquired in a business combination and sets forth methods to periodically evaluate goodwill for impairment at least annually. The purchase method of accounting for business combinations requires that the assets acquired and liabilities assumed are recorded at their respective estimated fair values as of the closing date. The excess of the total acquisition cost over the sum of the assigned fair values of the tangible and identifiable intangible assets acquired, less liabilities assumed, should be recorded as goodwill and evaluated for impairment thereafter at least annually. Financial statements of Hanmi issued after the consummation of the merger are required to reflect those values, as well as the results of operations of the combined company beginning after the closing date of the merger. Financial statements of Hanmi issued prior to the consummation of the merger will not be restated to reflect PUB s historical financial condition or results of operations.

The unaudited pro forma condensed combined statements of operations for the year ended December 31, 2003 give effect to the merger, including the related issuances by Hanmi, in private placement transactions, of 3,947,369 shares of common stock for an aggregate \$71.8 million in cash and \$80.0 million of junior subordinated notes to finance part of the cash portion of the merger consideration, as if the merger had occurred on January 1, 2003. The proceeds from such private placement transactions were used to finance the acquisition of the shares of PUB common stock held by the Trust formed to hold Korea Exchange Bank s shares of PUB common stock. The Trust held approximately 62% of the PUB shares outstanding.

The unaudited pro forma condensed combined statement of financial condition as of December 31, 2003 gives effect to the merger (including the related planned issuances by Hanmi of additional common shares and junior subordinated notes to finance part of the cash portion of the merger consideration) as if the merger had occurred at December 31, 2003.

We prepared the unaudited pro forma condensed combined financial statements using the purchase method of accounting, treating Hanmi as the acquirer. Accordingly, Hanmi s estimated cost of approximately \$324.7 million to acquire PUB has been allocated to the assets acquired and liabilities assumed based on their estimated fair values as of the date of acquisition. Any excess of the purchase price over the estimated fair value of net assets acquired has been recorded as goodwill. Independent valuation experts currently are assisting management in determining the value of a substantial portion of these net assets, and preliminary estimates of the fair values of PUB s net assets have been reflected in these pro forma condensed combined financial statements. However, the final values of a portion of them are dependent upon future events, including the outcome of negotiations with the lessors of various facilities formerly occupied by PUB. The final determination of the fair values of PUB s assets and liabilities will be completed as soon as possible but no later than one year following the acquisition date.

No estimates of business integration costs or anticipated cost savings, potential revenue enhancements or synergies that Hanmi or PUB expect to realize in connection with the merger have been reflected in the unaudited pro forma combined financial statements. The unaudited pro forma condensed combined financial statements do not reflect the impact of conforming PUB s accounting policies to those of Hanmi s, as the impact, if any, has not yet been determined.

Note 2 Merger Consideration

Under the terms of the merger agreement, Hanmi issued 6,209,327 shares of Hanmi common stock and approximately \$164.6 million in cash for the 10,908,821 outstanding shares of PUB common stock and existing options held by PUB employees and directors to acquire 59,443 shares of PUB common stock. Based on an initial exchange ratio of 1.1560 shares of Hanmi stock, the transaction was comprised of approximately 54.9 percent cash and approximately 45.1 percent stock, and it is contemplated that it will qualify as a tax-deferred reorganization.

**NOTES TO UNAUDITED CONDENSED PRO FORMA COMBINED
FINANCIAL STATEMENTS (Continued)**

Based upon the average closing price of \$25.06 of Hanmi's common stock for the period two days before and two days after the April 29, 2004 pricing of the merger agreement, the total fair value of the merger consideration at that date was approximately \$324.7 million, as set forth in Note 3 below.

Note 3 Purchase Price and Acquisition Costs

For purposes of the accompanying unaudited pro forma condensed combined financial statements, the purchase price has been estimated as follows:

	(dollars in thousands, except share price)
Common stock:	
Number of shares of PUB stock outstanding as of April 30, 2004 less shares acquired for cash	5,371,390
Exchange ratio	1.156
	6,209,327
Multiplied by Hanmi's average stock price for the period two days before and two days after the April 29, 2004 pricing of the merger agreement	\$ 25.06
	155,606
Stock options:	
Estimated fair value of 68,707 Hanmi stock options to be issued in exchange for 59,443 PUB outstanding stock options, calculated using the Black-Scholes option pricing model, modified for dividends, with model assumptions estimated as of April 30, 2004 and a Hanmi stock price of \$25.06, the average stock price for the period two days before through two days after the April 29, 2004 pricing of the merger agreement.	1,063
Cash	164,562
Transaction costs	3,320
cash	145
stock warrant	145
Total estimated purchase price	\$ 324,696

For the purposes of these unaudited pro forma condensed combined financial statements, the purchase price estimated above has been allocated based on estimates of the fair values of the assets acquired and liabilities assumed. The final valuation of net assets acquired will be completed as soon as possible but no later than one year from the acquisition date. To the extent estimates need to be adjusted, they will be adjusted.

	(dollars in thousands)
Book value of net assets acquired	\$ 110,683
Adjustments:	
Adjustment to record acquired securities at estimated fair value	(1,489)
Adjustment to record acquired loans at estimated fair value	376

**NOTES TO UNAUDITED CONDENSED PRO FORMA COMBINED
FINANCIAL STATEMENTS (Continued)**

It is expected that the deferred income tax assets and liabilities will reverse during the periods of, and in proportion to, the amortization/accretion of the related purchase accounting adjustments to identifiable tangible and intangible assets and liabilities. The estimated amortization of this aggregate adjustment is shown as a net adjustment in the attached unaudited pro forma condensed combined financial statements using the straight-line method assuming an expected weighted average life of approximately ten years.

Note 4 Pro Forma Adjustments

(a) To reflect the cash portion of the purchase price and transaction costs of approximately \$164.6 million and \$3.5 million, respectively, as described in Note 3.

(b) To reflect the debt issuance of a total \$79.9 million of interest-bearing junior subordinated notes to partially fund the cash portion of the merger consideration after issuance cost.

(c) To reflect the issuance, in a private placement transaction, of 3,947,369 shares of Hanmi common stock at \$19.00 per share, aggregating \$71.8 million after issuance costs, to partially fund the cash portion of the merger consideration and 239,279 stock warrants at \$19.00 per share issued in connection with the private placement transaction.

(d) To reflect 6,209,327 shares of Hanmi common stock issued in exchange for a portion of the shares of PUB common stock and stock options at an exchange ratio of 1.1560 based on the average closing price for the period two days before through two days after the April 29 pricing of the merger agreement of \$25.06. The proceeds from the private placement transactions described in pro forma adjustments (b) and (c) above were used to finance the acquisition of most of the shares of PUB common stock held by the Trust. The shares of Hanmi common stock issued as described in this pro forma adjustment (d) were used to acquire the remaining shares of PUB common stock held by the Trust, as well as all shares of PUB common stock held by all other shareholders, and existing options held by PUB management and directors to acquire shares of PUB common stock.

(e) To reflect 68,707 Hanmi common stock options issued in exchange for outstanding PUB stock options.

(f) To reflect elimination of PUB equity components.

(g) To reflect the preliminary excess of purchase price over book value of net assets to be acquired as described in the preceding Note 3 to these unaudited pro forma condensed combined financial statements, \$210.0 million, including the intangible related to customer deposits of \$13.1 million, and its related income tax effects, \$7,948.

(h) To reflect in net interest income the estimated amortization of purchase accounting adjustments on interest-earning assets, including loans receivable, net of interest-bearing deposits and other borrowings; to reflect the estimated depreciation of bank premises in occupancy and equipment expense; and to reflect estimated amortization of customer core deposit intangible assets in other operating expenses using the straight-line method over their expected weighted average lives.

For the purposes of the unaudited pro forma condensed combined statements of operations the straight-line method is used to estimate the amortization of the core deposit intangible asset, because Hanmi management has not yet determined whether another method of amortization is indicated by the pattern of attrition among PUB's depositors. If another method were to be used, the results could be materially different.

(i) To reflect interest income related to the investment of a total of \$2.5 million in equity securities related to junior subordinated notes, assuming rates based on the three-month LIBOR at December 31, 2002, March 28, 2003, June 27, 2003, and September 26, 2003, in accordance with the terms of the agreements dated January 8, March 15, 2004, and April 28, 2004, as follows:

(j) To reflect the decrease in interest income resulting from the decrease in cash in the amount of the excess, approximately \$16.3 million, of (1) the cash portion of the merger consideration, approximately \$164.6 million plus Hanmi acquisition costs, approximately \$3.3 million, (described in Note 3) over (2) the proceeds, \$151.6 million, of the private placement transactions described in pro forma adjustments (b) and (c) above at the fully taxable-equivalent rate of 3.16% for the year ended December 31, 2003, representing Hanmi's weighted average yield on earning assets

other than loans during such period.

(k) To reflect the impact of income taxes associated with these pro forma adjustments to operating results at a 39% combined effective income tax rate.

(l) Pro forma earnings per share was calculated using Hanmi's historical shares outstanding for the period presented, in addition to 3,947,369 shares of Hanmi common stock issued in a private placement transaction to partially fund the cash portion of the merger consideration as described in pro forma adjustment (c), 6,209,327 shares of Hanmi common stock as described in pro forma adjustment (d).

For purposes of determining the pro forma earnings per share amounts, the issuance of shares is assumed to have occurred on January 1, 2003.
